Some properties of the extracellular proteolytic enzymes of the milk-spoiling organism Pseudomonas aeruginosa ATCC 10145. 21264

Action of disinfectants on experimental mouse scrapie. 21351

The use of heat to control the rotting of Cox's Orange Pippin apples by Gloeosporium spp. 21528

The morphological and biological effects of various antisera on avian infectious bronchitis virus. 22052

The inactivation of veinbanding and latent C viruses in strawberries by heat treatment. 23116

HEATING

A note on the isolation of pyrethrosin from pyrethrum marc. 16248

Studies on the influence of leaf washings on infection by Mycosphaerella ligulicola. 21102

Some effects of cultural treatments on virus diseases of cultivated mushroom, Agaricus bisporus. 21135

HELEOMYZIDAE

Notes on entomophthorous fungi on Heleomyzidae and Culicidae (Diptera). 14272

HELIANTHEAE

The autoecious species of Puccinia on Heliantheae in North America. 17327

The autoecious species of Puccinia on Heliantheae in North America. 21914

HELICOPTERS

Mosquitomen talk equipment, methods, and problems at New Orleans session. 14142

Low-volume application of malathion by helicopter for controlling larch casebearer. 14433

Helicopter application of phytoactin to whitebark pine. (Abstract). 17958

Helicopter applies bird repellent seeds. 19134

An experimental reaction-driven rotary sprayer for helicopter operation. (Abstracted from Tropical Products Research Unit/Porton Down Report no.305). 20934

Appraisal of water hyacinth control with 2,4-D sprayed from helicopters. 23235

HELIODINIDAE

The systematic status of some genera of the Heliodinidae/ Schreckensteiniidae together with a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera). 14052

HELIOTHIS

Report of second work conference on the utilization of nuclear-polyhedrosis virus for the control of Heliothis species. 15740

Notice of filing of petition regarding pesticide chemicals. 15822

Immunological relationships between the parasite Cardiochiles nigriceps Vierick and certain Heliothis species. 16420

Bioassay technique for insect viruses. 17089

Investigations on the Heliothis nuclear polyhedrosis virus and its development as a biological control agent. 17779

Studies of the suitability of certain Heliothis spp. as a host for Cardiochiles nigriceps Vierick. 18141

Heliothis species Lepidoptera: Noctuidae in Papua and New Guinea. 21962

HELIOTHIS ARMIGERA

Nuclear polyhedrosis of the gram pod borer, Heliothis armigera. 14242

Studying of competitive ability of sterile males of the turnip moth, beet army worm and cotton boll worm during their mating with fertile females in the laboratory. 15824

Heliothis armigera (Hiubner), American bollworm, on wheat in West Kilimanjaro, Tanzania. 21197

HELIOTHIS VIRESCENS

Gamma irradiation of the tobacco budworm: sterilization, competitiveness, and observations on reproductive biology. 13788

Effect of ultraviolet irradiation on egg hatch, subsequent larval development, and adult longevity of the tobacco budworm and the bollworm. 13797

Hatch, larval development, and adult longevity of four lepidopterous species after thermal treatment of eggs. 13798

Field tests with a nuclear polyhedral virus against the bollworm and tobacco budworm, 1964-1966. 13826

Toxicity of five carbamate insecticides to the two-spotted spider mite and larvae of the southern armyworm and tobacco budworm. 13862

Persistence of Heliothis nuclear-polyhedrosis virus on cotton foliage. 14430

Laboratory tests of ultra-low-volume and conventional lowvolume sprays for controlling the bollworm and the tobacco budworm. 14445

Chemosterilization of the tobacco budworm: a survey of 21 compounds applied topically. 16386

Source of a substance in Heliothis virescens (Lepidoptera: Noctuidae) that elicits a searching response in its habitual parasite Cardiochiles nigriceps. (Hymenoptera: Braconidae. 16471

Field-cage releases of Chrysopa carnea for suppression of populations of the bollworm and the tobacco budworm on cotton. 16712

A three-year study of parasites of the bollworm and the tobacco budworm in Mississippi. 17156

Some effects of gamma radiation on the tobacco budworm Heliothis virescens (Fabricius). 17818

Egg and larval development of Cardiochiles nigriceps. 17855

A bioassay technique for screening feeding stimulants for larvae of tobacco budworm. 18096

Consumption by several common arthropod predators of eggs and larvae of two Heliothis species that attack cotton. 19886

Antifeeding effect of DDT on bollworm and tobacco budworm larvae. 22362

Use of virgin female tobacco budworms to increase catch of males in blacklight traps and evidence that trap locations and wind influence catch. 22875

Chemosterilization of the tobacco budworm: A survey of 16 compounds fed to adult moths. 22973

Field tests with in-furrow and seed treatments of systemic insecticides on cotton at Stoneville, Mississippi. 23201

HELIOTHIS ZEA

Effect of ultraviolet irradiation on egg hatch, subsequent larval development, and adult longevity of the tobacco budworm and the bollworm. 13797

Hatch, larval development, and adult longevity of four lepidopterous species after thermal treatment of eggs. 13798

Field tests with a nuclear polyhedral virus against the bollworm and tobacco budworm, 1964-1966. 13826

Comparison of two artificial diets for rearing Heliothis zea larvae for insecticide tests. 14173

Persistence of Heliothis nuclear-polyhedrosis virus on cotton foliage. 14430

Laboratory tests of ultra-low-volume and conventional lowvolume sprays for controlling the bollworm and the tobacco budworm. 14445

Influence of near-ultraviolet output of attractant lamps on catches of insects by light traps. 14792

Relationship of the crop capacity to the depletion of the fat body and egg development in the corn earworm, Heliothis zea, and the fall armyworm, Laphygma frugiperda (Lepidoptera: Noctuidae). 14869

Histology of the reproductive tracts and transmission of sperm in the corn earworm, Heliothis zea. 14871

Bacterial pathogens in Iowa corn insects. 14940

Variety of soybean insects are active in several states. 15232

Comparison of field corn varieties for resistance to corn earworm and stored grain insect injury in the Everglades. 15530

Damage by larvae of the corn earworm to grain sorghum. 15980

A technique for measuring trapping efficiency of electric insect traps. 16253

Developmental morphology of the alimentary canal of Heliothis zea (Lepidoptera: Noctuidae). 16278

A comparison of the larval and pupal nervous systems of the corn earworm, Heliothis zea (Lepidoptera: Noctuidae). 16279

Biology of the corn earworm and control with insecticides and virus in Washington. 16407

Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat. 16470

Effect of irrigation and submersion in water on pupal survival of the bollworm. 16483

Studies on the development of insect resistant sorghum varieties and hybrids. 16707

Field-cage releases of Chrysopa carnea for suppression of populations of the bollworm and the tobacco budworm on cotton. 16712

A three-year study of parasites of the bollworm and the tobacco budworm in Mississippi. 17156

The differing effectiveness of purified and nonpurified suspensions of the nuclear-polyhedrosis virus of Porthetria dispar. 17159

Role of photoperiod, temperature, and injury in induction and termination of the pupal diapause of Heliothis zea (Boddie). 17877

Increase of Diaporthe phaseolorum var. sojae on soybean pods due to corn earworm. (Abstracts). 18808

Electrophoretic studies of insect esterases. 19545

Consumption by several common arthropod predators of eggs and larvae of two Heliothis species that attack cotton. 19886

Morphology of the male reproductive system and spermatophore of the red bollworm, Diparopsis castanea (Hmps.) and the possible effect of the chemosterilant tepa on the gross structure. 21017

Insecticide evaluation for cotton bollworm. 21174

The role of chemicals in the general insect control picture. 21617

Corn earworm damage to ears with starchy (Su.) versus (su.) kernels on genetically uniform mother plants. (Abstract). 21770

Antifeeding effect of DDT on bollworm and tobacco budworm larvae. 22362

Populations of fall armyworm, corn earworm, and sugarcane borer on St. Croix, U.S. Virgin Islands. 22452

Use of virgin female tobacco budworms to increase catch of males in blacklight traps and evidence that trap locations and wind influence catch. 22875

Field tests with in-furrow and seed treatments of systemic insecticides on cotton at Stoneville, Mississippi. 23201

Methyl parathion resistance in a laboratory strain of the bollworm. 23445

HELIOTRINE

Preliminary evaluation of heliotrine as a sterility agent for face fly. 14293

HELMINTHIASIS

Veterinary therapeutics with emphasis on anthelmintics. 14587

Summary of recent abstracts. Ix. Helminthiasis. 16096

Electron microscopical studies on Ditylenchus dipsaci (Kuhn). Stomatal region. 16484

Helminthiasis in sheep. 16881

Benzimidazole anthelmintic compositions and method of use. Patent 3,326,753. 17600

Experimental Trichostrongylus colubriformis infection in adult goats. 17602

Helminthic infestations of piglets with reference to lesions encountered. 17607

Helminths, arthropods and protozoa of domesticated animals, (sixth edition of Monnig's Veterinary Helminthology and Entomology). SF810.M6. 17617

Calcium and magnesium absorption in the young calf following induced parasitism, Ostertagia spp. (Abstract). 17621

The infection of Boophilus microplus with Babesia bigemina. 17795

Biology of vector-associated diseases in Vietnam. 17913

Quantitative studies on the kinetics of establishment and expulsion of intestinal nematode populations in susceptible and immune hosts. Nippostrongylus brasiliensis in the rat. 18364

Studies on the spring phenomenon in ovine helminthiasis. I. Spring rise in stabled sheep. 18372

Helminths as vehicles and synergists of microbial infections. 18376

Experimental infections of calves with Trichostrongylus axei: Observations on lethal infections. 19223

Intestinal helminthiasis in dogs from Monterrey, N. L., Mexico. 19226

The endoparasites in collard turtle-doves in some Moravian towns. 19957

Helminthofauna of domestic fowl, pheasants and partridges in the country. 20809

Activity of dl-tetramisole against gastrointestinal helminths in a controlled test in lambs. 20823

A survey of diseases found in dogs in Kenya. 20827

Hookworms and other helminths in dogs, cats and man in surinam. 20832

A study on the helminth fauna of Philippine goats. 21388

Immunological unresponsiveness to helminth parasites: I. The pattern of Nippostrongylus brasiliensis infection in young rats. 22166

Epidemiology of helminth infestation of beef cattle in central Queensland. 22176

Investigations concerning the immunobiological diagnosis of helminthiasis by means of simultaneous intradermal tests with several different parasite antigens. 22767

Investigation of the helminthofauna of beasts of prey. 22779

HELMINTHOLOGY

A survey of intestinal helminths in dogs from Albuquerque New Mexico. 14593

A review of some helminths of laboratory animals. 16878

HELMINTHOSPORIUM

The effect of corn root exudate on the growth of five fungi associated with corn roots. 15132

Fungi isolated from black stem of alfalfa and the influence of temperature on lesion formation and disease severity. 15160

Apple variety resistance to Helminthosporium leafspot. 15197

Diurnal periodicity in Helminthosporium and Alternaria spores in the air. (Abstract). 15946

The effect of organic substrates on germination of the condia of Helminthosporium spp.8(Abstract). 17695

The effect of disinfection on cereal seeds determined in laboratory experiments and emergence tests in soil. 17924

Pectic enzyme production and morphogenesis in Helminthosporium atypicum. 19870

Potential fungicides. 22514

Alpha-Cyclohexyl-alpha-phenyl-3-pyridinemethanol (EL-331): a new fungicide for the control of certain turf pathogens. (Abstract). 23172

HELMINTHOSPORIUM CARBONUM

Accumulation of phenols in soybean after inoculation with fungi nonpathogenic to soybean. (Abstract). 14343

Comparative effects of Helminthosporium carbonum and H. victoriae toxins on susceptible tissue. (Abstract). 15894

Accumulation of phenols in resistant plant-fungus interactions. 17280

Active uptake of Helminthosporium carbonum toxin and its effect on CO2 dark fixation by corn. (Abstract). 18453

HELMINTHOSPORIUM DICTYOIDES

Effect of radiation intensity and quality on sporulation by Helminthosporium dictyoides. (Abstract). 19310

The effect of temperature and light on sporulation of Helminthosporium dictyoides on artificial media. (Abstract). 20917

HELMINTHOSPORIUM GRAMINEUM

Problems of caustic grain in Scandinavia. 17307

HELMINTHOSPORIUM ORYZAE

Biochemical properties of the increased proteins in diseased leaves of rice plants in the early stage of infection by Helminthosporium oryzae. 17336

The change of protein fractions in diseased leaves of rice plants in the early stage of infection by Helminthosporium oryzae. 17337

Yield losses due to pests and diseases in rice crop. Results of ICAR sample survey. 19863

HELMINTHOSPORIUM SATIVUM

An epiphytotic of seedling blight caused by Helminthosporium sativum in rye crops in Argentina. 20559

Chlamydospore formation in conidia of Helminthosporium sativum. 21893

HELMINTHOSPORIUM SOROKINIANUM

Stand loss of small grains in Florida. 18057

Infection and development of Helminthosporium sorokinianum in Agrostis palustris. 21861

HELMINTHOSPORIUM SPICIFERUM
Bermuda grass thatch decomposition in relation to spring dead spot. (Abstract). 16635

HELMINTHOSPORIUM STENOSPILUM
Effect of light on sporulation of Helminthosporium stenospilum. (Abstract). 16576

HELMINTHOSPORIUM TURCICUM
Phytoalexin production in corn resistant to Helminthosporium turcicum. 18020

HELMINTHOSPORIUM VAGANS
The effect of visible and near-visible radiation on the sporulation of Helminthosporium vagans. (Abstract). 14357
Low light intensity promotes melting out of bluegrass. (Abstract). 18026
The interrelationships of Rhizoctonia solani and Helminthosporium vagans, nitrogen, and variety on alkaloids in Festuca arundinacea. (Abstract). 18443

HELMINTHOSPORIUM VICTORIAE
Comparative effects of Helminthosporium carbonum and H. victoriae toxins on susceptible tissue. (Abstract). 15894
Separation of a mild disease in Helminthosporium victoriae. (Abstract). 15897
Relationship between the molecular structure of cytokinins and victorin activity. (Abstract). 15904
Effect of Helminthosporium victoriae toxin on germination, enzyme secretion, and P-uptake by oat seeds. (Abstract). 15936
Sensitivity of fungus spores to soil fungistasis. (Abstract). 16231
Effects of cytokinins on the absorption of victorin. 16627
Protection against membrane effects of Helminthosporium victoriae toxin by chemical treatments. (Abstract). 18926
The role of helminthosporium victoriae toxin in the initial phase of pathogenesis on oats. (Abstract). 18995
Transmission and morphological studies of diseased H victoriae. 22002

HELMINTHS
A physiological study of the development of the egg of Fasciola hepatica L., the common liver fluke. 16891
Anthelminthic activity of some carbamate derivatives. 18374
A simple method for marking parasitic helminth in animals. 20027

HEMAGGLUTINATION
Serological investigation in French cattle; research on hemagglutination inhibiting antibodies due to myxovirus parainfluenza-3. 15338
Isolation of a hemagglutinating picornavirus from a primary swine kidney cell culture. 16795
Avian adeno-like viruses- Characterization and comparison of seven isolates. 18224
Specific interference among strains of Newcastle disease virus. II. Comparison of interference by active and inactive virus. 19158
Passive haemagglutination test in ducks and fowls artificially infected with Mycobacterium avium. 19978
Immunochemical studies on cell-wall polysaccharide of rough mutants of Salmonella typhimurium. 19982
Heterogeneity of antibody response to Salmonella lipopolysaccharide measured by passive hemagglutination and hemolysis in mice. 19997
Duration of immunity against Newcastle disease in birds vaccinated with BPL inactivated vaccine. 21316
Equine distemper epidemic in France (1965-67) virological study. 21326
Use of formalinized Mycoplasma gallisepticum antigens and chicken erythrocytes in hemagglutination and hemagglutination-inhibition studies. 21766
Immunodiffusion reactions between human sera and Mycoplasma pneumoniae. 22072
Experiences concerning the preparation and application of mycoplasma antigen. 22119
Hemagglutinine of the adenovirus 31. 22667

HEMAGGLUTINATION-INHIBITION TEST
California-encephalitis-group viruses in Florida rabbits: Report of experimental and sentinel studies. 18265
Isolation of a parainfluenza virus from sentry dogs with upper respiratory disease. 20697
Serological survey on infectious respiratory diseases of poultry in Okinawa. 20737
An outbreak of subclinical Newcastle disease in Northern Ireland. 20743
A modified, indirect microhemagglutination test for malaria. 21055
Isolation and experimental infection of calves with parainfluenza-3 virus. 22626
Recent techniques for the serodiagnosis of human and animal hydatidosis. III. Evidence of indirect hemagglutination (HAI). 22762
Tick-borne encephalitis: a comparative serological survey in Hungary. 23088

HEMATOLOGIC DISEASES
The effect of Anaplasma marginale infection on the metabolic and osmotic behavior of bovine erythrocytes. 16813
Explorations for variations in the pathogenicity of Haemonchus contortus isolates. 17598
Thrombocytopenia in sheep associated with experimental tickborne fever infection. 23278

HEMATOLOGY
Juvenile bovine leukosis; an epizootiological, clinical, patho-anatomical and experimental study. 17129
Variability in hematological response of chicks fed ironcopper deficient skim milk diet. (Abstract). 17586
Experimental Trichostrongylus colubriformis infection in adult goats. 17602
Some studies on the pathogenesis and epizootiology of epizootic hemorrhagic disease of deer. 18340
Transmission studies of swine lymphosarcoma: Hematologic and pathologic changes in pigs inoculated with whole cell suspensions. 20689
Hematology, growth and efficiency of lambs as influenced by H. contortus infection. (Abstract). 20838
Hematologic examination, an aid in the diagnosis of cattle leucosis. 21148
Hematological detection of lymphoid leukocytosis of cattle in Gers. 21379

HEMATOPOIESIS
Presence of a blood-producing tissue at the level of the dorsal diaphram of Locusta migratoria (Orthoptera). 22410

HEMATOPOIETIC SYSTEM
Effects of genetic cellular resistance on cell transformation and virus replication in chicken hematopoietic cell cultures infected with avian myeloblastosis virus (BAI-A). 18295

HEMATOXYLIN
The haematology of lymphosarcoma in the cat. 16764

HEMEL
Metabolism of C14-labeled hemel in male house flies. 17798

HEMEROBIIDAE
The flight activity of some British Hemerobiidae and Chrysopidae as indicated by suction-trap catches. 15801

HEMICREPIDIUS DECOLORATUS
Evidence for a sex attractant in Hemicrepidius decoloratus (Coleoptera: Elateridae). 15759

HEMILEIA VASTATRIX
Fungicides for Arabica Coffee. 17. Relationships among some new fungicides, leaf rust (Hemileia vastatrix, leaf fall and yield. 15882
Agricultural problems of Ceylon. 20144
New type of nuclear life cycle in Hemileia vastatrix. 20557
Genetic study of the resistance of Coffea spp. to leaf rust I. Identification and behavior of four factors conditioning disease reaction in Coffea arabica to twelve physiologic races of Hemileia vastatrix. 21906

HEMIPTERA
The effects of hormones on the intestinal proteinase activity of adult Pyrrhocoris apterus L. (Hemiptera). 14203
Identification and functions of secretion from the posterior scent gland of fifth instar larva of the bug Dysdercus intermedius. 16274
Field trials to control Colorado beetle, leptinotarsa decemlineata, with Perillus bioculatus. 16474
Observations on oviposition and life history of an aquatic bug, Sphaerodema rusticum Fabr. (Hemiptera). 17071
Amino acid requirements of the cotton stainer, Dysdercus fasciatus (Pyrrhocoridae, Hemiptera). 17670
Hemiptera associated with pig carrion. 17764
New county records of Hemiptera-Heteroptera. 18541
Observations on the mirid (Hem.) hosts of Braconidae (Hym.) in Britain. 18542
New records of Hemiptera-Heteroptera from Wiltshire and north Somerset. 18544

Studies on overwintering of Anthocoris (Hem., Anthocoridae). 18581

The frequency of occurrence of macropterous forms of normally brachyterous species of Hemiptera-Heteroptera during 1959. 18698

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Notes on insects taken in New Zealand. 19661

Note on damage to grasses in the Peace River region by the spittlebug, Philaronia bilineata Say, (Cercopidae: Hemiptera). 19865

The distribution of some Hemiptera in the birch-dominated woodlands of Northern Scotland. 20178

New species of Banasa from the Caribbean area and comments on the status of Schraderi Sailer (Hemiptera: Pentatomidae). 20257

Guide lines for the testing of materials on beet Hemiptera. 20604

Relationship between the seasonal development of the tarnished plant bug, Lygus lineolaris (Beauv.) (Hemiptera: Miridae) and its injury to peach fruit. 20617

Synthesis of a plant hormone by the salivary apparatus of plant-sucking Hemiptera. 21192

Recent Hemiptera of the Canary Islands. 22277

A new contribution to the taxonomy of the genus Sthenarus Fieber and Psallus Fieber(Hem. Het. Miridae). 22341

The effect of colchicine on myogenesis in vivo in Rana pipiens and Rhodnius prolixus (Hemiptera). 22466

Occurrence of blue leaf-hopper Typhlocyba maculifrons Motsch on rice. 22528

HEMOGLOBIN

Explorations for variations in the pathogenicity of Haemonchus contortus isolates. 17598

Oxygen consumption in adult Echinostoma revolutum. 22172

HEMOGLOBINEMIA

Isolation and identification of Clostridium hemolyticum in cattle in Florida. 22693

HEMOGRAMS

A buffy coat stimulating effect in serum from cattle with persistent lymphocytosis. 20698

HEMOLYMPH

Haemolymph esterases in the female larval honeybee, Apis mellifera L., during caste development. 17213

Electrophoretic patterns of larval haemolymph-proteins in autogenous and anautogenous forms of Culex pipiens L. 20986

Effects of altering the composition and volume of the haemolymph on water ingestion of the blowfly, Lucilia cuprina. 21665

HEMOLYSINS

The kinetics of the hemolysin of Newcastle disease virus. 17507

Effects of Listeria monocytogenes hemolysins on the isolated ileum of rabbit. 22135

Study of 219 strains of pathogenic staphylococci isolated in algeria. Relation between serotype and antibiotics. 23315

HEMOLYSIS

Haemolymph esterases in the female larval honeybee, Apis mellifera L., during caste development. 17213

Anemia and mechanism of red cell destruction in ducks with acute Leucocytozoon disease. 17525

Heterogeneity of antibody response to Salmonella lipopolysaccharide measured by passive hemagglutination and hemolysis in mice. 19997

The influence of bee venom on the osmotic fragility of young rabbit RBC. 22799

HEMOPHILIA

Correction: Hemophilia-like disease of swine: Cytogenetic studies. 18181

Hemophilia-like disease of swine: Cytogenetic studies. 18223

HEMOPROTEINS

Hemolymph proteins and reproduction in Periplaneta americana: The nature of conjugated proteins and the effect of cardiac-allatectomy on protein metabolism. 22346

HEMORRHAGE

The development of petechial haemorrhages on the undersurface of the tongue of the horse and its relation to infection with the virus of equine infectious anaemia). das Auftreten von Punktblutungen auf der Zungenunterflache des Pferdes und seine Beziehung zur Infektion mit dem Virus der infektiosen Anamie. 15468

The use of Fe 59 for studying haemorrhage due to Eimeria tenella in chickens. 16035

Testing the effectivity of coccidiostatics by using radio Iron-59 for the quantitative estimation of blood in the caeca and feces of chickens. 16842

Natural dissecting aneurysm (aortic rupture) and blood pressure in the turkey. 20728

Haematomas over the mammary veins in cows. 21295

Haemorrhagic enteritis in sheep experimentally infected with tick-borne fever. 23279

HEMOSTASIS

The hemostatic mechanism of mammals and birds in health and disease. 19202

HEMP

Factors in lima bean and hemp seed required for oospore formation by species of Phytophthora. harnish, w n. 15615

Uromyces decoratus. 19850

HEMPA

Sterilization of the azuki bean weevil, Callosobrochus chinensis, by metepa and hempa. 17080

Effects of the chemosterilant hempa on gypsy moth metamorphosis. 17098

Uptake and persistence of metepa and hempa in the house fly. 17171

Chemical sterilization of the stable fly Stomoxys calcitrans (Linne), with metepa and hempa. 17797

HEPATITIS

Aspirin poisoning in the cat. 14760

Neutralizing antibodies to adenovirus in infectious hepatitis. 21309

HEPATOMA

Abnormalities in the electrocardiograms of young sheep and lambs grazing natural pastures low in selenium. 19179

HEPIALIDAE

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Handling techniques for eggs and larvae of Wiseana sp. (Hepialidae). 19753

The types and taxonomy of the Nature-Museum Seckenberg 38: Insecta Lepidoptera Hepialidae. 22328

HEPTACHLOR

Re-population of Thysanoptera in areas previously treated with aldrin, heptachlor, and dieldrin. 13831

Initial soil penetration by insecticide emulsions used for subterranean termite control. 13988

Soil treatments with insecticides for control of the eye gnats Hippelates collusor and H. hermsi. 14977

Infestation of the imported fire ant, Solenopsis saevissima v. richteri, at Fort Benning, Georgia. 14981

Effect of soil treatments of heptachlor and parathion on predators and parasites of root maggots attacking rutabagas on Prince Edward Island. 15249

Effectiveness of various formulations of five insecticides on insects infesting douglas-fir logs. 15250

Study of modifications of the Mills procedure for chlorinated pesticides in dairy products. 15562

Pick-up of insecticide through different pairs of house fly tarsi. 15806

Use of Daphnia magna for the microbioassay of pesticides. I. Development of standardized techniques for rearing Daphnia and preparation of dosase-mortality curves for pesticides. 16295

Residues of aldrin, endrin, and heptachlor in peanuts grown in treated soil. 16904

Extraction of organochlorine and organophosphate insecticides from lake waters. 16964

Effect of small changes in dietary thiamine or essential fatty acid in altering the rate of drug detoxication in the liver of the rat. (Abstract). 17496

Heptachlor and heptachlor epoxide residues on fall-treated alfalfa and in milk and cow tissue. 17653

Competition with Heptachlor dust and other chlorinated dust formulations for control of ant colonies of Atta sexdens rubropilosa Forel, 1908 and A. laevigata (F. smith, 1858). 19798

A bioassay technique to determine amount of termite control insecticide in soils. (Abstracted from PestControl 34(1). 32-38. 1966). 20847

Water pesticides. 2. 20851

Banana beetle borer control investigations on the north coast of New South Wales. 21964

Cutting down cane losses from termites and shoot borer. 21978

Bioassay evaluation of heptachlor, isobenzan, and diazinon used against the alfalfa weevil in Northern Utah. 22523

Termite control measures in building construction. 22785

On reproduction studies and the occurrence of cataracts in rats after long-term feeding of the insecticide heptachlor.
22803

Comparison between Heptachlor powder and other chlorinated hydrocarbons to combat the ants Atta sexdens rubropilosa Forel 1908 and Atta laevigata (F. Smith, 1858).
23175

Residual activity of chlorinated hydrocarbon insecticides in permanent turf for European chafer control.
23188

White-pine weevil control in plantations with heptachlor granules.
23200

HEPTACHLOR EPOXIDE
Heptachlor and heptachlor epoxide residues on fall-treated alfalfa and in milk and cow tissue.
17653

HERBARIUMS
The protection of plant collections from pests. 3.
14426

HERBICIDE RESIDUES
Residue of bensulide in turfgrass soil following annual treatments for crabgrass control.
13991

Notice of filing of petition regarding pesticide chemicals.
13999

Behavior of synthetic organics in stratified impoundments.
14012

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-ethyl hexahydro-1 h-azepine-1-carbothioate.
14623

A metabolic study of 3-(3,4-dichlorophenyl)-1,1-dimethylurea (diuron) applied to corn seedlings.
14624

The fate of 4-amino-3,5,6-trichloropicolinic acid in spring wheat and soil.
14637

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 4(methylsulfonyl)-2,6-dinitro-N,N-dipropylaniline.
14638

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2,4-D.
14640

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro-4,6-bis(isopropylamino)-s-triazine.
14641

Notice of withdrawal of petition regarding pesticides.
14645

2,4-dichlorophenyl p-nitrophenyl ether. notice of extension of temporary tolerances.
14646

2,4-dichlorophenyl p-nitrophenyl ether. notice of establishment of temporary tolerances.
14647

Notice of filing of petition regarding pesticides.
14650

Notice of withdrawal of petition regarding pesticides.
14651

Notice of filing of petition regarding pesticides.
14654

Notice of filing of petition regarding pesticide chemical.
14655

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-propyl dipropylthiocarbamate.
14657

Notice of filing of petition regarding pesticide chemicals.
14660

Notice of filing of petition regarding pesticide chemicals.
14669

Notice of withdrawal of petition regarding pesticides.
14673

Notice of withdrawal of petition regarding pesticide chemicals.
14674

Notice of filing of petition regarding pesticides.
14682

Notice of filing of petition regarding pesticides.
14684

Notice of establishment of temporary tolerance.
14687

Notice of filing of petition regarding pesticides.
14690

Notice of filing of petition regarding pesticides.
14691

Notice of withdrawal of petition regarding pesticide chemicals.
14693

Notice of filing of petition regarding pesticide chemicals.
14695

Notice of withdrawal of petition regarding pesticides.
14696

Notice of filing of petition regarding pesticides.
14701

Notice of filing of petition regarding pesticides.
14702

Notice of filing of petition regarding pesticides.
14705

Notice of filing of petition regarding pesticides.
14707

Notice of filing of petition regarding pesticides.
14708

Notice of filing of petition regarding pesticides.
14716

Notice of filing of petition regarding pesticides.
14719

Notice of filing of petition regarding pesticides.
14721

Notice of filing of petition regarding pesticides.
14724

Notice of filing of petition regarding pesticides.
14725

Notice of filing of petition regarding pesticides.
14727

Notice of withdrawal of petition regarding pesticides.
14731

Notice of withdrawal of petition regarding pesticides.
14732

Notice of withdrawal of petition regarding pesticides.
14733

Notice of withdrawal of petition regarding pesticides.
14734

Notice of withdrawal of petition regarding pesticides.
14735

Notice of withdrawal of petition regarding pesticides.
14736

Notice of withdrawal of petition regarding pesticides.
14737

Proposed reduction in tolerance in or on bananas.
14738

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. N-butylN-ethyl-alpha,alpha,alpha-trifluoro-2,6-dinitro-p-toluidine.
14739

Notice of filing of petition regarding pesticides.
14744

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. N-butylN-ethyl-alpha,alpha,alpha-trifluoro-2,6-dinitro-p-toluidine.
14745

Notice of filing of petition regarding pesticide chemical.
14749

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro-N-isopropylacetanilide.
14751

Microcoulometric gas chromatography analysis of selected herbicides in water.
15540

Residue studies of tomato foliage and fruits from plants receiving PEBC- 14 pre-or post-emergence.
15560

Metabolism of TOK herbicide in dairy cow.
15564

Method for residues of Zytron, O-2,4-dichlorophenyl O-methyl isopropylphosphoramidothioate, in chicken tissues and eggs.
15565

Determination of linuron and its known and/or suspected metabolites in crop materials.
15566

Degradation of carbamate herbicides in soil.
15567

Notice of filing of petition regarding pesticides.
15587

Notice of filing of petition regarding pesticides.
15589

Dicamba and its metabolite. notice of establishment of temporary tolerance.
15591

Notice of filing of petition regarding pesticides.
15597

Thin layer chromatography of some carbamate and phenylurea pesticides.
15661

Factors affecting the vapor loss of EPTC from soils.
15662

A vapor trapping apparatus for determining the loss of EPTC and other herbicides from soils.
15684

Notice of filing of petition regarding pesticides.
16119

Metabolism of triazine and 2,4-D herbicides, and problems with their residues in soils and plants. In:Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16 April 1965 SB953.P32.
16123

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Atrazine.
16129

Notice of withdrawal of petition for permanent tolerance and establishment of temporary tolerance.
16133

Notice of filing of petition regarding pesticides.
16135

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-(O,O-diisopropyl phosphorodithioate) of N-(2-mercapto ethyl) benzenesulfonamide.
16136

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-ethyl diisobutylthiocarbamate.
16137

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-propyl butylethylthiocarbamate.
16139

Notice of filing of petition regarding pesticides.
16141

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2,4-dichlorophenyl p-nitrophenyl ether. 16144

Notice of filing of petition regarding pesticides. 16148

Notice of filing of petition regarding pesticides. 16151

Notice of filing of petition regarding pesticides. 16152

Notice of withdrawal of petition regarding pesticides. 16153

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid. 16159

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethyl 2,3,5,6-tetrachloroterephthalate. 16160

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dicamba. 16161

Benzamidooxyacetic acid. Notice of extension of temporary tolerance. 16164

NACA industry task force on phenoxy herbicide tolerances. Notice of withdrawal of petition regarding pesticides. 16167

NACA industry task force on phenoxy herbicide tolerances. Notice of filing of petition regarding pesticides. 16169

NACA industry task force on phenoxy herbicide tolerances. Notice of filing of petition regarding pesticides. 16171

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 3-(p-(p-chlorophenoxy)phenyl)-1,1-dimethylurea. 16172

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Paraquat. 16175

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Paraquat. 16176

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 1,1-dimethyl-3-(alpha, alpha, alpha-trifluoro-m-tolyl)urea. 16177

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diuron. 16182

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diuron. 16183

Absorption, translocation and metabolism of 14C labelled dichlobenil. In: isotopes in weed research; proceedings of a symposium, Vienna, 25-29 October 1965. S589.S9. 16222

Notice of filing of petition regarding pesticide chemicals. 17637

Notice of amended filing of petition regarding pesticides. duggan, r e. 17646

Metabolism of 'propham' (isopropyl N-phenylcarbamate) in the rat. 19245

Can herbicides be used safely every year . 19277

Determination of 4,6-dinitro-o-sec-butylphenol residues in fruits and almonds by electron-capture gas chromatography. 20084

Atrazine and the nitrate content of corn. 20929

Herbicide residues in California agricultural soils. 21082

Montmorillonite-S-triazine interactions. 21491

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 21500

Production and viability of eggs from hens treated with paraquat. 21517

The fate of paraquat in soils. 22187

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid. 22190

Factors influencing the persistence of the herbicide 2,6-dichlorobenzonitrile in various soil types. 22193

Observations on the use of preplant herbicides in pasture establishment in the wet tropics. 22557

Factors affecting the activity of diallate. 22558

Phragmites control in Delaware, 1965. 22570

Environmental variables and weed control with pyrazon in sugar beets. 22591

Influence of soil type on the tolerance of sugarcane to fenac. 22594

Adapting chemical weed control programs to meet orchard conditions. 22603

Persistence of herbicides in ponded water and soils. 22790

Field investigations of claims against herbicides. 22792

Penetration and accumulation of fenuron in forest soils. 22796

Interactions between atrazine residue and four herbicides: Amiben, CDAA, linuron, and trifluralin. 22810

Herbicide persistence with different incorporators. 22827

Herbicide residues in California agricultural soils. 23098

NACA industry task force on phenoxy herbicide tolerances. Notice of filing of petition regarding pesticides. 23401

HERBICIDES

A top farmer looks at herbicides. 13942

Herbicides or oat companion crops for alfalfa establishment and forage yields. 13946

The effect of simazine on soil microorganisms. 13989

Interaction effects of atrazine and CDAA, linuron, amiben, or trifluralin on soybean growth. 14006

Plant uptake of 14C-diuron in modified soil. 14008

Record air application of herbicide forecast for cotton. 14462

Herbicidal compositions and processes of controlling undesirable plant species in the presence of crops therewith. patent 3,351,458. 14463

Method of destroying a weed. patent 3,352,663. 14466

Process for killing growing plants. patent 3,348,939. 14467

Dialkyl and diphenyl esters of aryloxyacetylphosphonic acid as herbicides. Patent 3,382,060. 14468

Herbicidal composition and method employing substituted benzimidazoles. patent 3,325,271. 14469

Modes of action of 3-amino-1,2,4-triazole: current status. in: Isotopes in weed research; proceedings of a symposium, vienna, 25-29 October 1965 S589.S9. 14470

Process of killing weeds employing acylated urea derivatives. patent 3,342,586. 14471

Herbicidal methods and compositions comprising 2-amino and lower alkanoamido-5-halothiazoles. Patent 3,374,082. 14472

Method for preventing plant growth. patent 3,340,043. 14473

Phytotoxic compositions and method of use. patent 3,325,270. 14474

Primary evaluation of pre-emergence and postemergence applied herbicides in vegetable and field crops, spring, 1964. 14476

Method of controlling the growth of undesirable plants. patent 3,342,583. 14479

Method for the control of weeds. patent 3,333,944. 14480

Chemical weed control handbook. sB951.R58. 14481

Post-emergence herbicidal mixture and method of use. patent 3,340,042. 14482

Herbicidal phenylureas. patent 3,326,663. 14483

Herbicidal mixture and method. patent 3,333,948. 14484

Method of controlling undesirable plant growth. patent 3,360,356. 14485

Benzene hexachloride as a preemergence herbicide. patent 3,356,486. 14486

Method for preventing plant growth with organotin borates. patent 3,361,554. 14487

Method of combatting the growth of undesired plants. Patent 3,374,084. 14488

Notice of filing of petition regarding pesticide chemicals. 14663

Notice of filing of petition regarding pesticides. 14685

Effects of direct contact of pine seeds or young seedlings with commercial formulations, active ingredients, or inert ingredients of triazine herbicides. 14775

Effect of s-triazine and phenylurea herbicides on soil fungi in corn- and soybean-cropped soil. 15093

Influence of some representative herbicidal chemicals upon the growth of some soil fungi. 15134

Bark beetle mortality in precommercial herbicide thinnings of western hemlock. 15245

HERBICIDES

Effect of incorpration and method of irrigation on preemergence herbicide. 15279

Inhibition of photochemical activity of isolated chloroplasts by acylanilides. 15280

Herbicidal control of tall larkspur. 15282

Variations in toxicity to bluegill sunfish of phenoxy herbicides. 15542

Effects of chlorophenoxy herbicides on soybeans. 15646

Infrared absorption spectra and polymeric structures of three s-Triazine herbicides and their metabolites. 15657

Action and effectiveness of certain classes of herbicides. 15667

Herbicidal method utilizing glycol esters of 2,3,6-trichlorophenylacetic acid as herbicides. patent 3,325,273. 15670

A vapor trapping apparatus for determining the loss of EPTC and other herbicides from soils. 15684

Method of controlling weeds. Patent 3,393,994. 16007

Method of controlling weeds. Patent 3,393,995. 16009

Method for the control of weeds employing halobenzyl esters of polybasic acids. Patent 3,338,702. 16012

Effects of added surfactant on toxicity of picloram, 2,4-D and 2,4,5-T to Populus tremuloides Michx. and P. balsamifera L. saplings. 16202

Use of herbicides. (Summary digest of midwest research Institute report, assessment of ecological effects of extensive or repeated use of herbicides). 16204

Column and thin-layer chromatographic determination of 5-amino-4-chloro-2-phenyl-3(2H)-pyridazinone. 16242

2-azido-4-alkylamino-6-alkylamino-s-triazines: a new group of herbicidal triazines. 16243

S-triazines having herbicidal and fungicidal properties. Patent 3,385,854. 16247

Herbicides: economic tools in railroad vegetation control. 16255

Injury to sugar beet leaves through growth inhibiting herbicides. 16515

Effects of herbicides on carbon dioxide uptake by pine seedlings. 16668

Lower aliphatic esters of N-phenyl and N-m-Chlorophenyl carbamic acid containing an acyl group. Patent 3,393,224. 16724

Herbicidal tropolone esters. Patent 3,399,989. 16725

Method of controlling weeds in soil. Patent 3,393,065. 16726

3'4'-Dichloropionanilide. Patent 3,382,280. 16727

Monofluorophenyl-4'-nitrophenylether derivatives as herbicides. Patent 3,401,031. 16728

Herbicidal ether. Patent 3,388,171. 16729

Herbicidal method. Patent 3,403,994. 16730

Herbicidal composition and method comprising 1-(tetrahydrodicyclopentadienyl)-3,3-dimethyl urea and a salt of methyl arsonic acid. Patent 3,403,017. 16731

Method of destroying undesirable plants. Patent 3,397,977. 16732

Herbicidal composition and method. Patent 3,393,064. 16733

Method of controlling the growth of weeds. Patent 3,399,988. 16735

The influence of simazine on the quality and composition of pome fruit. 16919

The partitioning and distribution of simazine and propanil in spinach chloroplasts. 16927

The relative effect of N,N-dimethyl-2,2-diphenylacetamide on root and shoot growth. 16934

Metabolic and environmental factors affecting absorption and translocation of 2,4,5-trichlorophenoxyacetic acid in winged elm. 16940

2,6-Substituted cyclohexanones as insecticides, miticides, fungicides, nematocides and herbicides. Patent 3,389,986. 16948

Bipyridylium compounds and herbicidal compositions containing the same. Patent 3,398,154. 16949

Triazine derivatives with herbicidal and fungicidal properties. Patent 3,403,151. 16958

N,N'-sulfonyl-bis-(carbamoylphosphonic acid esters). patent 3,401,214. 16959

M-(carbamoyloxy)-carbanilates as herbicides. Patent 3,404,975. 16968

2-alkylaminobenzimidazoles as herbicides. Patent 3,399,987. 16969

2-alkylaminobenzimidazoles. Patent 3,401,174. 16970

On the use of low toxic herbicides in paddy field. Transl. 16690. 17262

The adsorption of atrazine by soils and soil colloidal components. 17271

Herbicides are taking over aquatic weed control. 17459

Control of detrimental weeds with Stam F-34 in nonirrigated rice with different spacing of the plants. 17461

Control of undesirable grasses of manobi by the preemergence and pre-planting application of herbicides. 17462

Method for the control of undesirable vegetation with 3,5,6-substituted uracils. Patent 3,374,083. 17463

Flame, alone and in combination with herbicides, for weed control in corn, potatoes, and several cole crops. 17465

Notice of amended filing of petition regarding pesticides. 17639

Adsorption of herbicides by activated carbon and other adsorbents. 17675

Response of Echinochloa crusgalli (L.) Beauv. at various stages of development to 2-chloro-4-ethylamino-6-isopropylamino-s-triazine. 17692

Effects of trifluralin on nucleic acid metabolism and other physiological processes. 17703

Biochemical transformations of anilide herbicides in soil. 17716

The decomposition of urea herbicides in soil. 17717

Evaluation of weed control treatments in field-grown tobacco. 18158

Weeds in agronomic crops. Field corn, soybeans. 18159

Growth, development and control of wild radish. 18162

Ornamentals. 18164

Fencerow weed control made easy. 18165

Extermination of Eichhornia azurea Kunth, Aguape de cordao , on the Ribeira river by means of herbicide applications. 18166

Forage crops, small grains. 18167

Chemical control of nutsedge (Cyperus rotundus L.) and the metabolism of 3,6-dichloro-O-anisic acid (dicamba). 18169

Aquatic weeds. 18170

Forestry. 18172

Vegetable crops. IV. Beans, sweet corn, tomatoes, rhubarb. 18173

Herbaceous annual and perennial weeds. 18174

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diuron. 18396

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin. 18398

Red pine meedle structure. 18451

Herbicidal composition and method. Patent 3,407,056. 18471

Amino acid-(phenylazo)-phenylderivatives. xX-III. investigation of the phytotoxic effect of the antipodes of alanine-and phenylalanine-4-(phenylazo)-phenylamides against various plant species. 18472

The study of the effect of amitrol on the respiration and activity of some enzymes in poppy plants (Papaver somniferum L.). 18479

The effect of hormonal herbicides on the radical buds of Cirsium arvense scop. 18480

Some observations on Tordon-2,4-D herbicide combinations. 19114

A preliminary assessment of herbicides and defoliation. 19115

New herbicides containing nitrogen. 19116

Controlling weeds in tobacco with benefin. 19117

Paraquat-surfactant combinations for control of downey brome. 19118

Recommendations for weed control in cereal crops. 19121

Weed seed labelling with rare earth elements. In: isotopes in weed research; proceedings of a symposium Vienna 25-29 October 1965. S589. S9. 19122

Aquatic herbicidal methods. Patent 3,376,127. 19123

Post-surface control of bermudagrass on highway shoulder pavements. 19124

Control of Hawaiian jungle with aerially applied herbicide. 19125

Chemical control of an old stand of chaparral to increase range productivity. 19127

Effect of litter, incorporated organic matter, soil type, and selective herbicides on seedlings of downy brome. 19129

Herbicidal method employing trihalothionoacetamides. Patent 3,389,985. 19131

Chemical weed control handbook. SB951.W32. 19132

Investigations on weed control in maize by herbicides and mechanical cultivation with special emphasis of their subsequent action in the rotation of crops. Final technical report, 1962-1967. SB611.S9. 19133

Aquathol-plus, a new herbicide and its action on fish and fish food organisms. 19147

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-ethyl dipropylthiocarbamate. 19247

Can herbicides be used safely every year . 19277

Dessication activity of some xanthates. 19279

Enzyme detoxication of 3',4'-dichloropropionanilide in rice and barnyard grass, a factor in herbicide selectivity. 19305

Metabolism of 3,4-dichloropropionanilide in plants: The metabolic fate of the 3,4-dichloroaniline moiety. 19306

Kinetic study of the sorption of 2.4-D on some clays. 19319

Aldrin and dieldrin: Loss under sterile conditions. 19321

The Utah Community pesticide study. 19754

Response of conifer seedlings and weeds to seedbed fumigants. 19929

Weed control and public policy. 19930

Pre-emergence chemical control of mattress hay on coffe plantations. 19932

Turf herbicide Rx: add oil. 19933

Tall fescue can be controlled. 19934

Persistence of herbicides in soil. 20079

Report on herbicides and plant growth regulators. 20140

Course in agricultural pesticides. 20148

Studies on the phenylphenol derivaties with biological activity. II. The herbicidal activity of chloro-substitud phenylphenols. 20495

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(41-chlorophenyl)-1,1-dimethylurea (monuron). 20498

The sensitivity of soil fungi against herbicides. 20577

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria. 20628

A note on the assessment of herbicide trials. 20630

Herbicidally active cycloalkenyl dihydric fluoroalcohols and method of controlling weeds therewith. Patent 3,393,993. 20631

Ioxynili its effect on wheat yield and weed populations. 20633

Herbicides in the osier (Salix viminalis) culture. 20634

Test of herbicides in pre-plant and in pre-emergence on potato crop. 20635

Toxicology of the herbicide dichlobenil (2,6-dichlorobenzonitrile) and its main metabolites. 20650

Microbiological decomposition of atrazine and diuron in soil. (abstract). 20849

Chemical weed killers. The residue problem. 20855

Structure--activity correlation of 1,2,4-Triazonen, a new group of photosynthesis inhibitors. 20925

Herbicidal composition and method. Patent 3,393,991. 20927

Regulations by the mile. 20941

Influence of direct-drilling of winter wheat on incidence of take-all and eyespot. 21104

Weed control in flue-cured tobacco. 21133

Wheat bulb fly, Leptomylemyia coarctata Fall., and its effect on the growth and yield of wheat. 21172

Pre-emergence herbicides for weed control in lettuce. 21215

Common names of herbicides. 21216

A code for characterising herbicides. 21217

Weed control on Fenland soil. 21219

Ioxynil: Its effect on wheat yield and weed populations. 21220

Weed control in carrots, celery, and parsley. 21221

Weed control in cucurbits. 21222

Herbicides for control of annual weeds in California apples and pears. 21223

Weeds in California fruit crops... a summary of problems and herbicide possibilities. 21224

Critical periods of the crop growth cycle for competition from weeds. 21228

Effects of covering materials and incorporated herbicides on lettuce stands under three irrigation treatments. 21230

Method of controlling the growth of undesirable vegetation. Patent 3,413,109. 21231

Montmorillonite-S-triazine interactions. 21491

Method of controlling plant growth with pentaerythritol arsenite chlorobenzoates. Patent 3,411,895. 21531

Process of killing plants. Patent 3,416,912. 21540

Herbicidal compositions. (Patent 3,418,102). 21541

Spray-on protein boosters. 21543

Manufacture of herbicidal materials. Patent 3,413,111. 21548

Method of controlling weeds. Patent 3,399,049. 21550

Herbicidal and defoliating composition and method. patent 3,410,677. 21559

Herbicidal concentrate composition. Patent 3,397,050. 21567

Herbicidal activity of an aromatic analogue of diquat. 21568

Important plant protection problems in Bavarian agriculture. 21776

The chemical make-up and selective effect of triazine herbicides. 21780

Chemical control of weeds in drains. 22009

Flurenol- a herbicide with new properties. 22010

Experimental results concerning the chemical control of weeds in young lucerne fields. 22011

Experiments with Tordon herbicide in small grains. 22013

Efficacy of a stale seedbed approach for providing weed control in pickling cucumbers. (Abstract). 22015

The three R's of herbicide use. 22017

Weedicides in sedge control trials. 22018

Controlling hairgrass (Deschampsia caespitosa). 22019

Chemical weed control in pickling cucumbers. (Abstract). 22021

Up to date weed control in horticulture. 22022

Factors affecting the performance of preemergence and postemergence herbicides in pickling cucumbers. (Abstract). 22023

Effect of dicamba on wheat and wild buckwheat at various stages of development. 22024

The herbicidal activity of MSMA and DSMA on purple nutsedge. 22026

New knowledge about the use of herbicides in permanent grassland. 22030

Commonwealth of Australia Dept of Health Public Health Branch. Pesticides Review. 22184

Effect of pretreatment of pine seeds with herbicides on seed germination and growth of young seedlings. 22226

Guiding experiments concerning the influence of herbicides on the spicule development of spring barley after applications. 22230

Pesticides in water. Amitrole concentrations in creek waters downstream from an aerially sprayed watershed sub-basin. 22241

The knowledge of the interdependence between soil pests, weeds, and their control measures. 22487

Chemical weed control. 22526

The continuing struggle against weeds. 22527

The effects of petroleum mulch and herbicides on lettuce. 22554

Weed control in established alfalfa with soil-applied herbicides. 22556

Amine-phosphorus pentafluoride complexes as herbicides. Patent 3,420,655. 22559

Herbicidal 1-substituted 2,4,5-tribromoimidazoles. Patent 3,423,420. 22560

Environmental control at Boston-Logan International Airport. 22563

Orchard weed control programs for 1968. 22566

Clobber - post-emergence weed killer. 22567

Use of Bipyridyl and Triazine herbicides in raspberries. 22569

The thin-layer effect and the herbicidal action of 3,4-dichlorobenzyl methylcarbamate. 22573

Results of pre-emergent aquatic herbicides in Illinois. 22574

2-Trichloromethylbenzoxazole as a herbicide. Patent 3,423,200. 22575

The woody plant nursery--a useful tool for evaluation of herbicides. 22576

The effects of three formulations of butyric herbicides on newly-seeded and established stands of alfalfa. 22577

Herbicidal composition. Patent 3,425,820. 22580

Rooting of grasses as affected by siduron. 22581

Effects of direct contact of pine seeds or young seedlings with commercial formulations, active ingredients, or inert ingredients of triazine herbicides. 22582

Incorporation of herbicides in mulches. 22584

A new small multiple tree technique for assessing the effects of herbicides on woody plants. 22585

Evaluation of diquat as an aquatic herbicide applied at 2 gallons per surface acre, under Minnesota conditions. 22586

Recent developments in the control of woody weeds in New Zealand. 22588

Azak - a new crabgrass herbicide. 22590

Control of Whitebrush (Aloysia lycioides Cham.) with picloram. 22592

Influence of some aminotriazine herbicides on some soil fungi. 22593

Composition and method for controlling undesirable plant growth. Patent 3,425,821. 22596

Technique to study the movement of CDAA from a granule into soil. 22597

Aquatic herbicide. Patent 3,421,880. 22598

Herbicide/surfactant combinations for celery seedbeds. 22599

Some changes in weed species in response to control methods and chemicals in Hawaii. 22600

Weed control in young peach orchards. 22601

Weed control in seedling alfalfa. 22602

Adapting chemical weed control programs to meet orchard conditions. 22603

Control of submerged aquatic weeds in rice fields. 22604

Bioassay evaluation of depth distribution of incorporated soybean preemergence herbicides. 22605

Processing pea responses to MCPB applications at different growth stages. 22612

Investigations with paraquat (Gramoxone) as a herbicide for weed control in low-grown tea. 22613

Herbicide combinations. 22614

Effects of soil applied trifluralin on fish production in pools. 22791

Persistance of trifluralin in soil. 22793

Effect of several herbicides on the proteolytic activity in squash. 22804

Dodder:Potential research tool. 22808

Interactions between atrazine residue and four herbicides: Amiben, CDAA, linuron, and trifluralin. 22810

Use of laboratory evaluations for aquatic herbicides and algicides. 22811

Partitioning and distribution of herbicides in spinach chloroplasts. 22815

Partitioning and distribution of herbicides in spinach chloroplasts. 22816

Inhibition of the Hill reaction of isolated chloroplasts by amide-containing herbicides. 22817

Utilization of 14C metabolites, incorporation of 32P and changes in respiration occurring in leaves from dalapon treated beans. 22819

Translocation of herbicides in American pondweed (Potamogeton nodosus Poir.). 22820

Adsorption of herbicides to proteins. 22830

New herbicides analyzed at the Instituto Biologico during the years of 1966, 1967 and 1968. 22834

Where do we stand on safe use of pesticides. 22845

Carbamate herbicides; new tools for cytological studies. 23106

Control of aquatic plants in farm ponds in Ontario. 23229

Influence of temperature on phytotoxicity of triazine herbicides to pine seedlings. 23231

A new tool for killing unwanted trees. 23233

Control of weeds in brassicas. 23234

Controlling upland southern hardwoods by injecting undiluted 2,4-D amine. 23236

The degradation of 2,4-D in forest litter. 23398

Effects of herbicides on carbon dioxide uptake by pine seedlings. 23430

Thin layer chromatographic separation of linuron and diuron and some of their known or suspected soil metabolites. 23442

HEREDITARY DISEASES

The inheritance of resistance to stem rust races 56 and 15B-1L (Can.) in the wheat varieties Hope and H-44. 17311

Congenital goitre in Merino sheep due to an inherited defect in the biosynthesis of thyroid hormone. 17568

Oncogenesis in the (tu) y2v;vg strain of Drosophila melanogaster. 17787

Multiplication of Drosophila hereditary virus (sigma virus) in Drosophila embryonic cells cultivated in vitro. 18650

The Chediak-Higashi Syndrome. 19198

Evolution by natural selection and its influence on population fluctuation of insects. 20163

Congenital hydrops in mink. 20711

HEREDITY

Mechanisms and inheritance of resistance and selection of resistance potential in Aedes aegypti. 15839

Inherited sterility in progeny of irradiated male cabbage loopers. 16496

Hereditary change of an eye color mutant induced by DNA in Ephestia. 16742

Inherited melanism in the large milkweed bug, Oncopeltus fasciatus (Heteroptera: Lygaeidae). 17226

The inheritance of fertility in Drosophila melanogaster. 17230

Diallel analyses of the inheritance of resistance in cotton, Gossypium hirsutum L: to races of Xanthomonas malvacearum (E.F.SM.) Dowson. 17290

A stock of Drosophila melanogaster evidently showing drive and quasi-linkage in females. 20460

Selective breeding of honeybees for alfalfa pollen: fifth generation and backcrosses. 20966

Inheritance of ether resistance in Drosophila melanogaster. 21043

Inheritance of resistance to black root-rot disease in tobacco. I. Analysis of the gene controlling the resistance. 21143

Heritable repression due to paramutation in maize. 22036

HERMAPHRODITISM

Cultural studies of sexual reproduction of Ceratocystis fagacearum. 16512

Mode of reproduction of Heterodera tabacum. (Abstract). 17438

HERNIA

Haematomas over the mammary veins in cows. 21295

HERPES SIMPLEX

The effect of trauma on production of herpes interferon in guinea pigs. 18331

Diagnosis and handling of B virus in a rhesus monkey (Macaca mulatta). 19953

HERPESVIRUSES

Isolation and properties of bovine herpesvirus from a calf with respiratory disease and keratoconjuctivitis. 15323

Kinetics of cellular and viral DNA synthesis in equine abortion (herpes) virus infection of L-M cells.
19194

Experimental herpes virus infection in young puppies.
19211

Effect of endogenic and exogenic interferon on viruses of pseudorabies.
19960

Pathogenous strength of a strain of herpesvirus bovis in a new-born calf, infected through the air.
21324

Clinical and serological responses of the calf inoculated in various ways (genital, ocular, pulmonary) with a strain of herpesvirus isolated from a pneumonia lesion of a calf.
21338

Marek's disease.
22055

Primary lesions in cardiac ganglia of the pig after Herpesvirus suis infection.
22628

Isolation and identification of a further new bovine herpes virus.
22683

Method of combatting herpes virus with 5-nitrouracil. Patent 3,423,508.
22701

Light and electron microscopic examinations of a new bovine herpes virus.
22721

Classification of duck plague virus.
23306

HERSE CONVOLVULI

Observations on the larvae of Hippotion celerio L. (Lepid., Sphingidae in Tanzania. (Abstract).
16262

Number of instars of the larva of Herse convolvuli L.
16271

Number of instars of the larva of Herse convolvuli L.
16454

HESPERIIDAE

Sculpturing of the eggs of the Lepidoptera fauna of Belgium.
13747

Temporal dissociation and population regulation in certain hesperiine butterflies.
14038

Life history of Gesta gesta invisus (Lepidoptera: Hesperiidae).
20324

Thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae) a pest of hay and pasture grasses in southern Ontario.
20951

HESTINA

Tyrosinase activity in Hestina larva at the beginning of overwintering.
15803

HETERAKIS GALLINARUM

Etiology and dissemination of the blackhead disease syndrome in turkeys and chickens.
14542

Action of Naphthalophos and Yomesan against Ascaridia galli and Heterakis gallinarum in chickens.
14591

HETERARTHRINAE

A review of the subfamily Heterarthrinae in North America (Hymenoptera: Tenthredinidae).
15732

HETEROCERIDAE

A monograph of the family Heteroceridae (Coleoptera) of the Notogean region.
17012

HETEROCYCLIC COMPOUNDS

Heterocyclically substituted monohalogeno-1,3,5-triazines. Patent 3,407,201.
18490

HETERODERA

Horsenettle cyst nematode, Heterodera virginiae n. sp., a parasite of solanaceous plants.
22550

HETERODERA AVENAE

Cereal root eelworm pathotypes in England and Wales.
16717

Inheritance of resistance to Heterodera avenae in barley.
17411

Variation in infection ability of cysts of Heterodera avenae.
17412

A comparison of cereal root eelworm resistant and susceptible spring barley genotypes at two sites.
21206

Nematode damage in cereals.
21214

Concerning the distribution of freely occurring nematodes of the genus Pratylenchus on agriculturally used areas in westphalia-Lippe.
22005

Problems of the control of the cereal cyst nematode (Heterodera avenae) in Bavaria.
22007

HETERODERA CRUCIFERAE

Heterodera crucifera Franklin 1945, Brassica root eelworm in Yugoslavia.
17431

HETERODERA GLYCINES

Soybean cyst nematode. proposed quarantine in Indiana, Florida, and Louisiana.
14127

Amino acids from Heterodera glycines larvae. (Abstract).
16535

Occurrence of Heterodera glycines from the Golden Island, Giza, U. A. R.
17421

HETERODERA MEXICANA

Taxonomy life cycle and host range of Heterodera mexicana n. sp. (Nematoda Heteroderidae).
17418

HETERODERA ROSTOCHIENSIS

What can be deduced from the potato cyst nematode analysis according to the cyst figure .
14458

Attack by the potato cyst nematode does not always show above the ground.
14459

Stimulation of hatching of the potato-root eelworm Heterodera rostochiensis by ion exchange resins.
15254

First record of the occurrence of Heterodera rostochiensis in Panama.
16722

Taxonomy life cycle and host range of Heterodera mexicana n. sp. (Nematoda Heteroderidae).
17418

The response of a population of Heterodera rostochiensis to cropping rotations that include resistant potatoes. (Abstract).
17432

Multiplication of the potato cyst-nematode (Heterodera rostochiensis) in Lycopersicon spp.
17445

The formation of giant cells in tomato roots infected by the potato cyst nematode, Heterodera rostochiensis and the grey sterile fungus, G.S.F..
17448

The effect of ultra-violet radiation on the invasion, survival and fertility of larvae of Heterodera rostochiensis.
18136

The yield of potatoes resistant to Heterodera rostochiensis on infested land.
18140

The effect of environment on sex determination in Heterodera rostochiensis.
18154

Keys to the Heterodera group and species of the Heterodera rostochiensis group .
19023

Potato production using resistant varieties on land infested with potato cyst-eelworm, Heterodera rostochiensis Woll.
19881

Influence of different water supplies on growth and drymatter production of nematode infected potato plants, as well as on the population of the parasite.
19923

Second-year potato culture.
20625

On cyst colour changes, bionomics and distribution of potato cyst-eelworm (Heterodera rostochiensis Woll.) pathotypes in the East Midlands.
21071

Resistance to the potato cyst-nematode, Heterodera rostochiensis, in the plant genus Lycopersicon.
21208

Stimulation of hatching of the potato-root eelworm Heterodera rostochiensis by ion exchange resins.
21469

South American origin of European pathotypes of the potato-root eelworm, Heterodera rostochiensis Wollenweber .
22545

The survival of desiccated larvae of Heterodera rostochiensis and H. schachtii.
22546

Flavianic acid as a hatching and stimulating agent for Heterodera rostochiensis cysts.
22548

The interrelationships of the causal fungus of brown root rot of tomatoes and potato root eelworm, Heterodera rostochiensis Woll.
23096

Extraction, standardization and assessment of the volatility of the sex attractants of Heterodera rostochiensis Woll. and H. schachtii Schm.
23216

HETERODERA SCHACHTII

The oat cyst nematode attacks all spring grain.
14460

Gamma irradiation of Heterodera schachtii.
18152

The significance of spinach as a host plant of the rape-nematode Heterodera schachtii Schm.
18857

A method for detection and study of the sugar-beet nematode in soil.
19103

The survival of desiccated larvae of Heterodera rostochiensis and H. schachtii.
22546

Extraction, standardization and assessment of the volatility of the sex attractants of Heterodera rostochiensis Woll. and H. schachtii Schm.
23216

HETERODERA SCHACTII

The effect of ultra-violet radiation on the invasion, survival and fertility of larvae of Heterodera rostochiensis.
18136

HETERODERA TABACUM

Taxonomy life cycle and host range of Heterodera mexicana n. sp. (Nematoda Heteroderidae).
17418

Mode of reproduction of Heterodera tabacum. (Abstract).
17438

The permeability of the cyst of the tobacco root eelworm, Heterodera tabacum.
17457

Injury to Heterodera tabacum by high soil temperatures. (Abstract).
18143

HETEROGENESIS
Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. III. Sternopleural chaetae.
15805

Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. II. Mating behaviour.
15834

A study of isoenzyme polymorphism in experimental populations of Drosophilia melanogaster.
17236

Tuberculin reaction in regard to pathogenesis of tuberculosis.
17510

Heterogeneity of Clostridium botulinum type A toxin.
17657

Bacteria in the digestive tract of alfalfa weevil larvae.
19698

Antigenic variation in Vibrio cholerae resulting from chromosomal transfer by conjugation.
22631

HETEROMETRUS FULVIPES
Feeding apparatus in the scorpion, Heterometrus fulvipes.
23064

HETEROPEZINI
Pupal paedogenesis in the Cecidomyiidae (Diptera). 3. a reclassification of the Heteropezini.
13763

HETEROPEZULA
Pupal paedogenesis in the Cecidomyiidae (Diptera). 3. a reclassification of the Heteropezini.
13763

HETEROPTERA
Medocostidae-a new family of Cimicomorphan Heteroptera based on a new genus and two new species from tropical Africa. i. descriptive part.
13753

On the ecology of Anthocoris nemorum (L) (Hemiptera: Heteroptera).
14810

On the ecology of Anthocoris nemorum (L.) (HemipteraHeteroptera).
15703

A preliminary account of some data on Heteroptera taken at light in the New World Tropics.
18523

New county records of Hemiptera-Heteroptera.
18541

New records of Hemiptera-Heteroptera from Wiltshire and north Somerset.
18544

A new Panamanian stink bug (Heteroptera; Pentatomidae, Discocephalinae).
18557

Notes on light trap catches of Heteroptera made in the tropics.
18681

The frequency of occurrence of macropterous forms of normally brachyterous species of Hemiptera-Heteroptera during 1959.
18698

Predators of aphids, associated with orchards. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
19049

Studies on the structure of the eggs of an Indian Stink Bug Cyclopelta siccifolia Westwood (Hemiptera-Heteroptera Penthtomidae).
19557

Preliminary studies of the 'uradenies' of certain Heteroptera Pentatomorphs.
19740

A new species of Glaucias Kirkaldy from New Guinea heteroptera: Pentatomidae).
20255

Further notes on some Hemiptera and Coleoptera from the Isles of Scilly.
20289

The Heteroptera fauna of Korshage, Zealand, in relation to vegetation in late summer.
20310

Reactivity of several experimental Heteroptera hosts to the larva of a monophage Diptera, Phasiinae.
20335

A revision of the genus Blissus (Heteroptera: Lygaeidae) in eastern North America.
21620

Medocostidae--a new family of Cimicomorphan Heteroptera based on a new genus and two new species from tropical Africa . I. Descriptive Part.
21635

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. descarpentries. LIV. Hemiptera Plataspidae.
21641

Heteroptera beaten from blackcurrants at Long Ashton Research Station in 1967.
21645

Initial survey of arthropod predators of the European red mite in south-central Pennsylvania.
22282

Eurycolpus enslini n. sp., a new species of Phylini DGL. SC. from southern Turkey (Heteroptera Miridae).
22330

Lipokophila chinai gen. n., sp. n.- A new genus of Plokiophilidae (Heteroptera) from Brazil.
22335

A new contribution to the taxonomy of the genus Sthenarus Fieber and Psallus Fieber(Hem. Het. Miridae).
22341

Technical notes on harmful insects from Malagasy.
22349

The morphology, phylogeny, and higher classification of the family Tingidae, including the description of a new genus and species of the subfamily Vianaidinae (Hemiptera: Heteroptera).
22863

Notes on Neotropical Aradidae. XVIII. (Hemiptera, Heteroptera).
22888

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 49. Heteroptera: head.
22963

Venation of metathoric wings and notes on the relationships of Microphysidae (Heteroptera).
23054

Asolcus bennisi n. sp. (Hymenoptera, Proctotrupoidea) an oophagous parasite of Graphosoma lineata L. (Het. Pentatomidae).
23066

HETEROSIS
The evolutionary variations of Carabids in the Megodontus violaceus group L. from western and central Europe. (Col. Carabidae).
19768

Genetics of natural populations. xl. Heterotic and deleterious effects of recessive lethals in populations of Drosophila pseudoobscura.
21039

HETEROTHOPS BALTHASARI
A new species of the genus Heterothops Steph. from Czechoslovakia. 78. Contribution to the knowledge of the Staphylinidae.
18562

HETEROTYLENCHUS
Nematode parasite (Heterotylenchus sp.) of face fly in New York State.
14266

HETEROTYLENCHUS AUTUMNALIS
The synchronization of the life cycle of diapausing face flies, Musca autumnalis, and of the nematode, Heterotylenchus autumnalis.
14265

Observations on Heterotylenchus autumnalis in relation to the face fly.
14276

Heterotylenchus autumnalis Nickle (1967)--a parasite of pasture flies.
16346

Distribution of the nematode Heterotylenchus autumnalis, a parasite of the face fly, in New England with notes on its origin.
17207

HEVEA BRASILIENSIS
Phytopthora leaf fall and pod rot of Hevea brasiliensis in Thailand.
14349

Patch canker of Hevea brasiliensis caused by Phytophthora palmivora.
17967

Effects of plant growth regulators and other compounds on flow of latex in Hevea brasiliensis.
18421

HEXADECENOIC ACID, CIS-9-
Fatty acids of the mosquito, Anopheles freeborni.
17123

HEXAGENIA LIMBATA
Ecological significance of respiration and substrate for burrowing Ephemeroptera.
16383

HEXANE
Extraction of the water with hexane followed by detection and assay using chromatographs equipped with electron capture and micro-coulometer detectors.
15600

Hexane extractable chlorinated insecticides in human blood.
15606

A rapid procedure for the identification of organochlorine pesticides in blood and tissues.
16950

Note on the determination of carbaryl residues in hen skin.
18406

HEXESTROL
Fecal elimination of estrogens by cattle treated with diethylstilbestrol and hexestrol.
15290

HEXOSAMINES
Hexosamine metabolism in imaginal disks of Drosophila melanogaster.
16388

Hexosamine, sialic acid, seromucoid, protein bound hexose and protein levels in the haemolymph of the scorpion, Heterometrus scaber.
19652

HEXOSES
Pyridine nucleotide-linked enzymatic reduction of triose, pentose, and hexose phosphates associated with rust infection.
15625

An electrophoretic study of serum glycoproteins in clinical Johne's disease of cattle.
19199

Hexosamine, sialic acid, seromucoid, protein bound hexose and protein levels in the haemolymph of the scorpion, Heterometrus scaber.
19652

HIBERNATION
Hibernation site and dispersal of spruce budworm larvae as related to damage of sapling balsam fir.
14156

Winter survival and overwintering area of the potato leafhopper.
14181

The biology of the fir tree borer, Semanotus litigiosus (Coleoptera: Cerambycidae), in California.
14288

Life history and habits of Rhabdophaga sp (Diptera: Cecidomyiidae), a gall midge attacking willow in Michigan.
14291

Mined buds, a hibernation site for spruce budworm.
14804

Overwintering in Pemphigus bursarius (L.).
15243

Tyrosinase activity in Hestina larva at the beginning of overwintering.
15803

Life history and habits of the willow beaked gall midge, Mayetiola rigidae (Diptera: Cecidomyiidae), in Michigan.
15829

Experimental survival of the virus tahyna in hibernating mosquitoes Theobaldia annulata (Schrk.).
16376

Survival of overwinting alfalfa weevil eggs in Pennsylvania.
16466

Overwintering of Colletotrichum fragariae in strawberry crowns.
16602

A method of collecting planthoppers and leafhoppers in the field in winter. Transl. 16921.
16992

The host-finding behavior of the hen flea, Ceratophyllus gallinae (Schrank) (Siphonaptera).
17130

Experimental prediction of occurrence of leafhopper. 5. ovary maturing condition and egg-laying in the weeds of leafhopper hibernated imago. Transl. 16901.
17169

Ecology and control of small brown planthopper (Laodelphax striatellus Fallen). Transl. 16695.
17385

Epiphytology of onion yellow dwarf.
17391

The distribution of rice stem borer in the rice stubbles, with special reference to the possibility of its dispersion from the frame for dessicating reaped rice plants. Transl. 16893.
17396

Morphological and biological studies of thysanopterous insects on rice plants. Transl. 16727.
17406

Intra-specific mechanisms with special reference to aphid populations.
17407

On cold resistance of the pea aphid Acyrthosiphon pisum Harr (Homoptera, Aphididae).
17869

Life history of the looper Phigalia titea in Virginia.
17889

Reducing spring discharge of Venturia inaequalis ascospores by composting overwintering leaves.
17929

A temperature study of the overwintering site of the sheep bot fly Oestrus ovis L.
18373

Studies on overwintering of Anthocoris (Hem., Anthocoridae).
18581

Studies on the life history of the smaller brown planthopper (Laodelphax striatellus Fallen).
18582

Some notes on overwintering ladybirds (Col., Coccinellidae.
18635

Study on the insecticidal resistance on rice stem borers (Chilo suppressalis Walker).
18771

Apple. Apple scab, Venturia inaequalis.
18817

Apple. Powdery mildew, scab; Podosphaera leucotricha, and Venturia inaequalis.
18842

Apple. Apple scab, Venturia inacqualis.
19015

Changes in fatty acid composition of Culex pipiens during hibernation.
19564

Factors affecting the winter mortality in the southern green stink bug, Nezara viridula L.
19647

Chromosome number in the leaf-cutter bee, Megachile rotundata.
19648

Moisture and fat content during the adult life of the Ambrosia beetle, Trypodendron lineatum (Oliv.).
19684

Studies on Butozania bulgarica Mink..
19896

The hibernation of caterpillars in a refrigerator.
20358

Fall mosquito breeding and hibernation in an area of the Delaware River survey.
20381

Interepidemic hosts of Western Encephalitis virus in Saskatchewan.
20389

A temperature study of the overwintering site of the sheep bot fly, Oestrus ovis L.
20641

Cluster flies in the home.
20945

Survival of Cercospora kikuchii on soybean stems in the field.
20946

Studies on the survival of Mycosphaerella pinodes and Ascochyta pisi.
21116

Almond sticktights contribute to navel orangeworm infestations.
21177

Control of the hamster pest.
22155

HIDES

The incidence of skin diseases of cattle in Uganda.
20680

Why besnoitiosis was not diagnosed in goats in Kenya as early as 1955.
20681

Survival of foot-and-mouth disease virus in bovine hides.
22657

HILL REACTION

The partitioning and distribution of simazine and propanil in spinach chloroplasts.
16927

Effect of DDT on photosynthesis in certain varieties of barley.
19281

Partitioning and distribution of herbicides in spinach chloroplasts.
22815

Partitioning and distribution of herbicides in spinach chloroplasts.
22816

Inhibition of the Hill reaction of isolated chloroplasts by amide-containing herbicides.
22817

HIPPELATES

Soil treatments with insecticides for control of the eye gnats Hippelates collusor and H. hermsi.
14977

The reproductive biology of Hippelates collusor (Diptera: Chloropidae). II. Gametogenesis.
16489

HIPPELATES COLLUSOR

The reproductive biology of Hippelates collusor. III. Effect of temperature on oogenesis.
17067

Chemosterilants for control of reproduction in the eye gnat (Hippelates collusor) and the mosquito (Culex quinquefasciatus).
20401

HIPPOBOSCIDAE

Some avian ectoparasites in New England.
19421

HIPPODAMIA

Biology of the black cherry aphid in the Willamette Valley, oregon.
15238

Quantity of aphids required for reproduction by Hippodamia spp. in the laboratory. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18612

HIPPOLATES

Loss of chlorinated hydrocarbon insecticides from soil surface in the field.
15573

HIPPOTION CELERIO

Observations on the larvae of Hippotion celerio L. (Lepid., Sphingidae in Tanzania. (Abstract).
16262

HIRUDINEA

Origin and structure of the spermatophore of Glossiphonia complanata (L.) (Hirudinee, Rhynchobdelle).
19956

On relations and geographic distribution of fish leeches (Hirudinea, piscicolidae) of the genus Carcinobdella Oka, 1910.
20187

Regulation of feeding in leeches.
20817

HISPINAE

Thoracispa dregei Chapuis. 227. Contribution to the knowledge of the Hispinae.
22929

HISTAMINE

Grass tetany - effects of environment and fertilizers on pasture histamine levels.
16031

Alleviation of the leg abnormality in zinc-deficient chicks by histamine and by various antiarthritic agents.
17556

Histidine decardoxylase in strains of Escherichia coli isolated from normal swine and swine with edema disease and enteric disorders.
18307

HISTIDINE

Dietary amino acid requirements of the aphid, Myzus persicae.
16375

Effect of histidine or soybean meal additions on Zn deficiency symptoms. (Abstract).
17530

Relationship of histidine. its metabolites and other factors to the arthritic syndrome in zinc-deficient chicks.
17557

Nucleoprotein synthesis during metamorphosis in Drosophila virilis.
17872

Histidine and aromatic permeases of Salmonella typhimurim.
19942

HISTIDINE DECARBOXYLASE

Histidine decardoxylase in strains of Escherichia coli isolated from normal swine and swine with edema disease and enteric disorders.
18307

HISTOCHEMISTRY

Changes associated with parasitism in nematodes. Ii. Histochemical and microspectrophotometric analyses of preparasitic and parasitic larvae of Meloidogyne javanica.
14455

Acetylcholinesterase and butyrylcholinesterase in the liver fluke (Fasciola hepatica).
14457

Histochemical studies of carboxylic esterase activity in Fasciola hepatica.
14592

Histochemical study of drug effects on mice infected with Trichinella spiralis.
14595

Brain cholinesterase activity and its inheritance in cattle tick (Boophilus microplus) strains resistant and susceptible to organophosphorus acaricides.
15816

Histochemical analysis of the blister rust fungus, Cronartium ribicola. (Abstract).
15908

Histochemical localization of catecholamines in the brain of normal and drug-treated cockroaches.
16389

The separation and characterization of the haemolymph proteins of several insects. 16473

Polyphenols and discoloration in the elm disease investigated by histochemical techniques. 16580

On histopathology and histochemistry of insecticide-treated insects. I-Non-specific phosphatases in the midgut and caeca of pyrethrins treated Periplaneta americana L. 17055

Synthesis and distribution of RNA in Cecropia oocyte differentiation. 17184

The electrophoresis and histochemical localization of certain respiratory ensymes of tobacco infected by Phytophthora parasitica var. Nicotianae. 17356

Electron microscopic observations on scrapie in the mouse, with reference to glucosaminidase activity. 17497

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of dehydrogenase activities. 17547

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of hydrolase activities. 17548

Changes associated with parasitism in nematodes. IV. Cytochemical studies on the ampulla of the dorsal esophageal gland of Meloidogyne javanica and on exudations from the buccal stylet. 18586

Histological and histochemical data on the female genital organs and on the ootheeal secretions of several Acridids (Orth. Acridoidea). 19431

Sterol composition of the nematodes Ditylenchus triformis and Ditylenchus dipsaci, and host tissues. 19919

Histochemical localization of esterase activity in schistosomes. 20034

Metabolic transformation of 14C-glucose into tissue proteins of Ancylostoma caninum. 20036

Histochemical study of drug effects on mice infected with Trichinella spiralis. 20041

Occurrence and morphology of spontaneous arteriosclerosis in domestic and wild pigs. 20727

Histochemical studies of cholinesterase activity in Paramphistomum cervi and Diplodiscus subclavatus. 20822

The comparative histochemistry of some hydrolytic and oxidative enzymes in the livers of several domestic and laboratory animals. 21255

The sticker sarcoma. 21380

Glycosidase histochemistry in normal and scrapie mice, rats, sheep and goats. 21384

Experimental paratuberculosis in sheep after oral, intratracheal; or intravenous inoculation: Histochemical localization of dehydrogenase activities. 21394

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities. 21395

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 21698

Histochemical studies on the alteration of lignin and pectic substances in white elm infected by Ceratocystis ulmi. 21852

Electron microscope studies of Fasciola hepatica. VI. The ultrastructural localization of phosphatases. 22173

The histology and histochemistry of the anterior mid-gut of Periplaneta americana L. (Dictyoptera: Blattidae) with reference to the formation of the peritrophic membrane. 22422

Histochemical and electron microscopic studies of dog kidney cells in the early stages of infection with infectious canine hepatitis virus. 22658

Experimental transmission of bovine mycoplasma in calves and turkeys. 22663

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities. 22696

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of dehydrogenase activities. 22698

Contribution to the histochemistry of the cuticle and cuticular structures of trematodes. 22775

The dynamics of the free amino acids in the tissues of the Chinese silkworm during its development. 23044

Trabeculae in the grapevine infected with leafroll virus. 23129

Action of gramicidin S on photophosphorylation in virusinfected tobacco plants. 23423

HISTOLOGY

A slide smear technique for the diagnosis of laryngotracheitis. 15318

Anatomy of beads on flagella of zoospores of Phytophthora megasperma var. sojae. 16599

Histology of canker rusts in pines. 16618

Scrapie agent in blood. 16773

Pathological studies on Aleutian disease of mink. 16803

Utah mosquitoes, their published history: Supplement II. 17045

The tactics of a predator. 17127

Dual infections of Aedes aegypti with arbovirus. II. Salivary-gland damage by Semliki forest virus in relation to dual infections. 17153

Some aspects of mosquito control in California. 17220

Histochemical observation of the halo on the epidermal cell wall of barley leaves attacked by Erysiphe graminis var. hordei. ((Abstract). 17313

Histopathological studies of red clover roots infected by Fusarium roseum. 17338

Antifeedants. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17408

Lesion nematode injury to cabbage. (Abstract). 17410

Flame, alone and in combination with herbicides, for weed control in corn, potatoes, and several cole crops. 17465

Ultrastructural changes in dog kidney in infectious canine hepatitis. (Abstract). 17512

The feeding processes of the cattle tick Boophilus microplus (Canestrini). II. The sequence of host-tissue changes. 17620

Acquired immunity to Fasciola hepatica in the laboratory white mouse. 17627

Histopathology of Geotrichum candidurn in the chorioallantoic membrane of embryonated chicken eggs. (Abstract). 17685

Studies on the biological properties of Toxoplasma gondii in the body of insects, using Pediculus humanus L. as test animals. 17812

Quantitative histology of Melampsora lini resistance in flax. (Abstract). 17941

Pathological changes of acute Newcastle disease in an outbreak in Miyazaki Prefecture with special reference to those of the cloaca. 18268

Histopathological aids to the diagnosis of certain poultry diseases. 18284

Experimental production of rheumatoid arthritis of swine: Physiopathologic changes of tissues. 18319

The fine structure of the tegument of Diphyllobothrium latum (L.). A comparison of the plerocercoid and adult stages. 18356

Studies on parasitic granuloma in the dog. 18365

Effect of ration modifications on aflatoxicosis in the rat. 18382

Grasshoppers and locusts in western Australia. 18626

The natural history of Monomorium pharaonis (L.) (Hym., Formicidae) infesting houses in Nigeria. 18683

Soybean. Seedling diseases; seed and soil borne organisms. 18797

Hopperburn disease of castor bean varieties caused by Empoasca flavescens (F.) in relation to the histology of leaves. 19030

Histopathology of resistant reactions in pea seedlings to two populations of Ditylenchus dipsaci. (Abstract). 19104

Histochemical studies on the 'corpus luteum' in Locusta migratoria (R. F.). 19621

Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 19785

A decade of mosquito control in Maryland. 20376

Respiratory adenovirus infection in the dog. 20685

Congenital hydrops in mink. 20711

Pathological studies on fat necrosis (Lipomatosis) in cattle. 20717

Progress report: Duck plague surveillance of American anseriformes. 20730

Production of a wasting syndrome in the hamster after the innoculation of bovine leukemic extract. 20733

Bovine lymphatic leucosis in the Netherlands; a histopathological study. 20746

Canine nocardiosis due to Nocardia caviae. 20753

Canine visceral leishmaniasis in Iran. 20771

The process of the penetration of invasive larvae of Bundstomum phlebotomum (Railliet, 1900) into the host body. 20831

The morphology of changes caused by Fascioloides magna Bassi 1875 in cattle. 20839

The fine structure and histochemistry of the fat body in the locust Schistocerca gregaria. 21016

Hematologic examination, an aid in the diagnosis of cattle leucosis. 21148

Modification of a strain of mouse-adapted scrapie by passage through rats. 21283

A report of a suspected anthrax outbreaks among human beings in Tarlac province. 21296

Three clinical cases of eosinophilic enteritis. 21348

The distribution of nerves, monoamine oxidase and cholinesterase in the skin of poultry. 21362

Comparative immunohistological studies. 21374

Circling disease in sheep: A case study reveals new knowledge on listeriosis. 21392

Relationships between chemical changes and histological damage in the brains of scrapie affected mice. 21400

Potency of an attenuated canine distemper vaccine derived from chick embryo cell cultures. 21417

The Aleutian disease in minks- plasmocytosis. III. 21440

Histological studies of symptoms in semimature-tissue needle blight of eastern white pine. 21885

Some effects of a growth retardant on shoot meristems of apple. (Abstract). 21951

Some observations on egg diapause in the Trinidad sugar cane froghopper, Aeneolamia varia saccharina (Homoptera, Cercopidae). 21969

Marek's disease. 22055

The isolation and recognition of viruses. 22093

Uterine-amnionic pathway of infecting the rabbit fetus with Listeria monocytogenes. 22106

Studies on pathology of respiratory diseases of poultry with special reference to viral and P. P. L. O. infections. 22122

Infectious laryngotracheitis of poultry. 22125

Swine fever eradication campaign 1963-64. 22142

Immunologic and histologic studies of a hamster adenovirus tumor and a mouse mammary tumor. 22143

Program-abstracts, 65th annual meeting, American Society for Horticultural Science. 22240

Biological observations on 53 species of the superfamilies, Chalcidoidea and Proctotrupoidea, from Japan (Hymenoptera: Apocrita). 22284

Presence of a blood-producing tissue at the level of the dorsal diaphram of Locusta migratoria (Orthoptera). 22410

Histological observations of the formation of elementary and reproductive ova in the ovaries of Plagiolepis pygmaea Latr. (Hymenoptera Formicidae). 22435

Studies on the biology of Athalia proxima Klug (Tenthredinidae; Hymenoptera). 22449

On the presence of mycoplasma-like particles in the inner bark of plants damaged by diseases of the yellow type (Aster Yellow, Phyllody of clover, Stolbur of tomatoes) and on the relationship of these particles to the ones found in various Insecta Homoptera. 22505

The pear psylla, Psylla pyricola Foerster, in Ontario; Homoptera: Chermidae. 22544

Primary lesions in cardiac ganglia of the pig after Herpesvirus suis infection. 22628

Besnoitiosis and other skin diseases of cattle (Bos indicus) in Uganda. 22637

Ocular toxoplasmosis in cats. 22740

Shape deviations in eggs of Ascaris lumbricoides. 22769

Crystalline regions on the axon membrane surface of insect photoreceptor cells. 22983

Assays of new products for the control of rust mite of citrus--Phyllocoptruta oleivora (Ash.). 23036

Musculature, nervous system and glands of pregenital abdominal segments of the female of Nomia melanderi Ckll. (Hymenoptera, Apoidea). 23073

The morphology of the challenge in certain organs of pigs vaccinated and revaccinated with KVV against hog chloera. 23263

The study of some biological properties of the Chinese lapinized virus of hog cholera. 23300

The first developmental stages of E. acervulian (Coccidia) in experimentally infected chicks. 23346

The method of invasion of the metacyclic larvae of Litomosoides chrnii Chandler 1931 (Filariidae). 23376

HISTOMONAS MELEAGRIDIS

Etiology and dissemination of the blackhead disease syndrome in turkeys and chickens. 14542

HISTONES

Gene activation without histone acetylation in Drosophila melanogaster. 18702

HISTOPATHOLOGY

A note on experimental rabies in the donkey. 16772

Mycotic abortion in ewes produced by Aspergillus fumigatus: pathologic changes. 18184

HISTOPLASMA CAPSULATUM

Some veterinary and human aspects of histoplasmosis. 19168

HISTOPLASMOSIS

Some veterinary and human aspects of histoplasmosis. 19168

Varying virulence in rabbits infected with different filamentous types of Histoplasma capsulatum. 20700

HISTORY

History of Aedes aegypti eradication in the Americas. 15840

Development of studies in Czechoslovakia on natural foci of diseases.(JPRS 44,874) Transl. 16897. 17243

Fifty years of Soviet entomology (1917-1967). 19331

Insect control and chemistry. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19601

History of the Entomology Section of the Senckenberg Museum. 20960

On the identity of the Greek parasitic insect oistros. 22285

Contribution to the history of the discovery of insect hormones. 22407

Czechoslovak and Soviet parasitology: History, interrelations and work. 22844

The contribution of chemistry to agriculture. 23097

HOG CHOLERA

Hog cholera and other communicable swine diseases. Eradication and free states. 16049

Hog cholera and other communicable swine diseases. Approved modified live virus vaccines. 16050

Anti-hog-cholera serum and hog-cholera virus. Proposed termination of marketing agreement and marketing order. 16054

In vitro potency tests for anti-hog cholera antibodies: A test for anti-hog cholera serums and a test for herd exposure. 17563

Susceptibility of cultured mammalian cells to infection with virulent and modified hog cholera viruses. 17564

Interstate transportation of animals and poultry. Hog cholera and other communicable swine diseases. Eradication and free states. 17726

Helminths as vehicles and synergists of microbial infections. 18376

The African swine pest. SF977.A4L8. 19187

Hog cholera and other communicable swine diseases. Notice of proposed rule making. 21312

In vitro potency tests for anti-hog cholera antibodies: A test for anti-hog cholera serums and a test for herd exposure. 21414

Clinical and pathological aspects of hog cholera in grievous pigs below normal physically. 21448

Evaluation of the fluorescent antibody-cell culture test for hog cholera diagnosis. 22114

Swine fever eradication campaign 1963-64. 22142

Tissue culture hog cholera vaccine. Patent 3,422,188. 22638

Critical considerations on the diagnostic usefulness of the END method for the in vitro detection of the hog cholera. 22674

A case of eperythrozoonosis suis and its differential diagnostic significance in relation to suspected swine fever. 22678

Clinical and pathological aspects of hog cholera in grieving physically sub-standard pigs. 22739

Studies on the problems associated with the activation of latent or inapparent salmonelloses by means of vaccination as well as on the possibility

of simultaneous vaccination against salmonellosis and swine fever.
22747

A study of the occurrence of secondary bacterial infections in store pigs affected with hog cholera with particular reference to intestinal bacteria.
23331

HOG CHOLERA VACCINES

Anti-hog-cholera serum and hog-cholera virus. Proposed termination of marketing agreement and marketing order.
16054

In vitro potency tests for anti-hog cholera antibodies: A test for anti-hog cholera serums and a test for herd exposure.
21414

Tissue culture hog cholera vaccine. Patent 3,422,188.
22638

The morphology of the challenge in certain organs of pigs vaccinated and revaccinated with KVV against hog chloera.
23263

HOG CHOLERA VIRUS

Viruses contributing to the cytopathic effect of hog cholera strain PAV-1.
14496

The recovery of hog cholera virus from swine with an in utero infection.
14546

Experimental inactivated-virus hog cholera vaccines' induction period of immunity.
15435

Cytogenetic alterations in swine kidney cells persistently infected with hog cholera virus and propagated with and without antiserum in the medium.
15437

Anti-hog-cholera serum and hog-cholera virus. Proposed termination of marketing agreement and marketing order.
16054

Effects of attenuated hog cholera virus in pregnant swine at various stages of gestation.
18230

Hog cholera: Replication of hog cholera virus in tissue culture with cytopathic effect.
18231

Hog cholera: Safety and protection studies with photodynamically inactivated hog cholera virus.
18232

Electron optical and buoyant density studies of hog cholera virus.
18285

A fluorescent micro-plaque assay for hog cholera virus. Localization of infection with homologous antiserum.
18291

Nonspecificity of fluorescent-antibody test for distinguishing hog cholera virus strains.
19151

Some considerations on the strain P5A57 of the living virus attending the porcine disease.
20687

The results of applying the chinese strain of the lapinized swine fever virus without the specific serum for vaccination of pigs in industrial fattening houses.
21360

Propagation and transmission of hog cholera virus in nonporcine hosts.
21377

Susceptibility of cultured mammalian cells to infection with virulent and modified hog cholera viruses.
22704

Cytogenetic alterations in swine kidney cells persistently infected with hog cholera virus and propagated with and without antiserum in the medium.
22705

The study of some biological properties of the Chinese lapinized virus of hog cholera.
23300

A study of the properties of the Chinese lapinized hog cholera virus. II. Immunogenity of the virus.
23350

Proof of the virus of hog cholera in a tissue culture by means of immunofluorescence.
23351

HOJA BLANCA (RICE)

Influence of developmental stage of rice plant on susceptibility to hoja blanca virus.
18861

HOMICIDES

Note on identification of azinphosmethyl in human tissues. and in figs.
15579

HOMOCYSTINE

Systemic and fungicidal activity of D-, L-, and DLethionine, S-alkyl-DL-HOMOCYSTEIN derivatives, and methionine antagonists.
15138

HOMOEOSOMA ELECTELLUM

Chemical control of the sunflower moth on sunflowers.
18123

Control of sunflower moth larvae and damage to sunflower seeds.
20639

Control of sunflower moth larvae and damage to sunflower seeds.
21179

HOMOGENESIS

Spermatozoan nucleus length in three strains of Drosophila melanogaster.
16490

Electrophoretic studies of insect esterases.
19545

HOMOGENIZATION

The response of various tissues in neonate calves to bovine papilloma virus (BPV).
18251

HOMOPTERA

A revision of the Holarctic genus Dikraneura (Homoptera: Cicadellidae).
13733

New species and new records of Fulgoroidea (Homoptera) from Samoa and Tonga.
16293

A physiologic difference in aphids (Homoptera) raised on excised leaves and on intact plants.
16353

Six new species of Membracidae (Hemiptera: Homoptera) from South Africa.
17011

Second contribution to the knowledge of the African Coccoidea (Homoptera).
17013

Some Pulvinaria species (Homoptera: Coccidae) of the Ethiopian region.
17027

The periodical cicada, brood. VII. (Homoptera: Cicadidae: Magicicada).
17049

Salivary chromosome-like structure of a Coccid chromosome.
17903

New name combinations and notes on some African and Asian species of Aleyrodidae (Homoptera).
18558

A note on the polymorphism of Philaenus spumarius (L.) (Homopt., Cercopidae) in Britain.
18619

On the fauna of armored scale insects (Homoptera, Coccoidea) of India. Communication 2. Andaspis Macg. and three new allied genera (Diaspidiae).
19354

A contribution to the knowledge of the African Coccoidea (Homoptera).
19439

Venezaleurodes pisoniae, a new genus and species of whitefly from Venezuela (Homoptera: Alcyrodidae).
19483

Two new species of Cinara (Homoptera: Aphididae) associated with pine rust lesions.
19507

On a new genus of Coccoidea-Diaspidini of the central African forest.
19547

Effect of leafhopper infestation on the metabolism of carbohydrate and nitrogen in castor varieties in relation to their resistance to Empoasca flavescens (F.) (Homoptera, Jassidae).
19879

The performance, phytotoxicity and persistence of three petroleum oils for control of the pear pyslla.
19889

Studies of the Mexican Deltocephalinae: New species of Eutettix and two allied new genera (Homoptera: Cicadellidae).
20183

The genus Keonolla (Homoptera, Cicadellidae).
20184

Studies of the Mexican Deltocephalinae: Aligia and some new applied genera and species (Homoptera: Cicadellidae).
20218

Further notes on some Hemiptera and Coleoptera from the Isles of Scilly.
20289

Homoptera of the Kurile Islands.
22283

On the presence of mycoplasma-like particles in the inner bark of plants damaged by diseases of the yellow type (Aster Yellow, Phyllody of clover, Stolbur of tomatoes) and on the relationship of these particles to the ones found in various Insecta Homoptera.
22505

Studies on the sowing date of cotton in the Sudan Gezira. II. The relationship between sowing date of cotton and the incidence of insect pests.
23205

HONEY

Honey bees and the farmer.
22378

Natural and man-made factors limit output of New Zealand honey.
23447

HOPLOMYOPHILUS NATIVUS

Description of a new genus and species of Trimenoponidae from Panama (Mallophaga).
14092

HOPLOPLEURIDAE

A new species of Fahrenholzia (Anoplura: Hoplopleuridae) from Texas, with a key to the species of the genus and a list of their known hosts.
21626

HOPS

DDT; establishment of pesticide and food additive tolerances.
14688

Soil fumigation by injection and irrigation for the control of nematodes on hops.
15261

DDT. proposed establishment of pesticide and food additive tolerances.
15592

Investigation of virus diseases of hops.
16637

The establishment of hop tissue cultures and their infection by downy mildew Pseudoperonospora humuli (Miy. and Tak.) Wilson under aseptic conditions.
19821

Strains of Prunus,necrotic ringspot virus in hop (Humulus lupulus L.).
21103

Two-spotted spider mite and hop aphid control on cluster hops with acaricides.
23184

HORMONES

Isolation of a sex pheromone of the European corn borer.
13816

Natural and synthetic materials with insect hormone activity. 3. juvenile hormone activity of derivatives of p-(1,5-dimethyl-hexyl) benzoic acid.
13849

Ecdysone and ecdysone-analogues: their assay and action on diapausing pupae of the cynthia silkworm.
13860

Insect sex attractants. iX. chemical conversion of the sex attractant of the cabbage looper to the sex pheromone of the fall armyworm.
14013

The effects of hormones on the intestinal proteinase activity of adult Pyrrhocoris apterus L. (Hemiptera).
14203

A bioassay of the pheromone of Trogoderma granarium males as an attractant for both sexes of the species.
14292

Effects of hormones and injury on RNA synthesis in saturniid moths.
14861

Variations in uterine response to experimental infection due to the hormonal state of the ovaries. II. The mobilization of leukocytes and their importance in uterine bactericidal activity.
15288

Solubility and electrophoretic properties of ovarial protein of the cockroach, Leucophaea maderae.
15752

Biochemical aspects of juvenile hormone action in the adult Locusta migratoria. QL508.A2.M5.
15792

Effect of a synthetic juvenile hormone on adult cabbage aphids and their progeny.
15828

Ecdysone and ecdysone-analogues: their assay and action on diapausing pupae of the cynthia silkworm.
15838

Left colleterial proteins in the viviparous cockroach Nauphoeta cinerea.
16354

Source of the trail pheromone and method of trail laying in the ant Crematogaster peringueyi.
16385

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro.
16392

Effects of ecoysone on epidermal cells in which DNA synthesis has been blocked.
16428

Short-term effects of crustecdysone (20-hydroxyecdysone) on protein and rna synthesis in third instar larvae of Calliphora.
16437

Fatty liver studies in laying hens.
16750

A convenient synthesis of mixed isomers of juvenile hormone.
17083

Endocrine control of female receptivity in Leucophaea maderae (Blattaria).
17104

The role of mixed function oxidases in diterpene metabolism.
17267

The biological half life of progesterone in the peripheral blood of cows.
17474

Congenital goitre in Merino sheep due to an inherited defect in the biosynthesis of thyroid hormone.
17568

Effects of juvenile hormone on protein synthesis during the metamorphosis of the polyphemus silkmoth.
17788

Tyrosine metabolism and its hormonal control after eclosion in the adult fleshfly Sarcophaga bullata Parker (Diptera: Sarcophagidae).
17879

Actions of vitamin D3 and sex hormones on calcium metabolism of bone in birds, particularly in hens.
18226

Stimulation of yolk deposition in an ichneumonid parasitoid by feeding synthetic juvenile hormone.
18588

Larval-pupal transformation: Control by juvenile hormone.
18670

Generalization, in various Insecta, of deutocerebrale inervation of the corpora cardiaca and neurosecretory role of the Nervi corporis cardiaci IV.
19561

Influence of the corpora allata on ovarian functioning in the male Pieris brassicae L. (Lepidoptera).
19639

Neural and hormonal influence on the fecundity and egglaying of certain oxyurid nematodes inhabiting the hind gut of the cockroach, Periplaneta americana L..
19678

Research on the neuro-endocrine control of oviposition in Carausius morosus Br. (Phasmides-Cheleutoptera).
19739

Effects of temporary hormonal suppression of lactation on milk constituents, clinical mastitis, colostrum, and the estrous cycle.
19950

Synthesis of ( )-juvabione (methyl ( )-todomatuate), a sesquiterpene ester with juvenile hormone activity.
20131

Steroids. CCCXXXVI. Synthetic studies on insect hormones. VI. The synthesis of ponasterone A and its stereochemical identity with crustecdysone.
20362

The two juvenile hormones from the Cecropia silk moth.
20391

Insect hormones. VI. Confirmation of skeletal structure of ponasterone A.
20400

Insect hormones. V. The structures of ponasterones B and C.
20402

Hormonal control of carbohydrate metabolism in insects.
20433

Gene activity dependent on chromosome synapsis in the polytene chromosomes of Drosophila melanogaster.
20448

On the activity of juvenile hormones: Electrophysiological medium at the cell membrane of the salivary gland of Galleria mellonella.
20978

The method of action of the dark and light phases on the production of winged gymnospores of Dysaphis plantaginea Pass. (Homoptera, Aphididae).
21662

Action of insect hormones on the fate of C-glucose in the diapausing, brainless pupa of Samia cynthia pryeri (Lepidoptera: Saturniidae).
21695

Sex pheromone specificity tests in the Tortricidae--an introductory report.
21729

Ring gland transplantations and body weight in Drosophila.
21739

Can insect hormones and their mimics be used to control pests .
22390

Contribution to the history of the discovery of insect hormones.
22407

Purification of the brain hormone of the silkworm Bombyx mori.
22414

Central nervous system control of circadian rhythmicity in the cockroach. I. Role of the pars intercerebralis.
22433

Use of hormone weedkillers near vineyards.
22610

A histological study of neurosecretion in ants (Formicoidea).
22981

The inhibition of brussels sprout leaf senescence by kinins.
23416

HORSEMEAT

Control of ground-nesting yellow jackets with toxic baitsa five-year testing program.
23086

HORSES

Sporotrichosis in a horse.
13957

Fetal ankylosis in horses associated with hybrid Sudan pasture.
13967

Tranquillising horses with promazine hydrochloride.
15291

A preliminary note on the use of an inactivated vaccine against equine pest.
15329

Viral encephalomyelitis of equines and domestic ruminants in the Near East. i.
15350

Persistent diarrhoea and vitamin B in the horse.
15418

The development of petechial haemorrhages on the undersurface of the tongue of the horse and its relation to infection with the virus of equine infectious anaemia). das Auftreten von Punktblutungen auf der Zungenunterflache des Pferdes und seine Beziehung zur Infektion mit dem Virus der infektiosen Anamie.
15468

Selenium-responsive diseases of animals in New Zealand.
16746

A suspected case of muscular dystrophy in a horse.
16749

A note on experimental rabies in the donkey.
16772

Blood concentration of chloramphenicol in horses after intramuscular or oral administration.
17477

Behavior of equine infectious anemia virus in cell culture and development of a diagnostic test for the disease.
18240

The equine respiratory disease syndrome in the Pacific Northwest.
18272

The use of polyvalent inactivated vaccine therapeutically against equine influenza.
18278

Animal sentinels in a statewide arthropod-borne encephalitis surveillance program.
18298

Production of plant virus antiserum in a horse.
19150

Effect of immunization on serum protein levels in the horse.
19166

Immunization against equine viral arteritis using modified live virus propagated in cell cultures of rabbit kidney.
19172

Genital infections in thoroughbred mares caused by Candida albicans.
19992

The rise of rabies in the Valley of Paraiba. Confirmation in the laboratory. 19995

Studies on the ecology of Culicoides midges--the transmitters of blue-tongue and horse-sickness. 20404

A serologic study of equine influenza. 20708

Field trials in horses with pyrantel tartrate. 20812

Parasitic nematodes of the alimentary tract of horses in the Lublin Palatinate. 20833

The clinical features of guttural pouch mycosis in the horse. 21325

Serological responses of horses immunized with live attenuated African horse sickness vaccine. 21398

Antigenic relationship between influenza A viruses of human and avain origins. 21411

On the diagnosis of equine tuberculosis. III. Tuberculin tests made on experimentally infected horses. 21419

Equine influenza in Mexico. Isolation and study of the strain E/Equi 2/Mexico/1/66. 22073

Ultrastructural observations on neurons of the sympathetic ganglia in grass sickness. 22643

Immunization of horses against African horse-sickness with attenuated neurotropic viral strains propagated in chicken embryos. 22662

Equine piroplasmosis: Indirect flourescent antibody test for Babesia caballi. 22689

Studies on the development of a live vaccine against equine rhinopneumonitis (abortion of mares). 22692

Aneuploidy in an infertile mare. 23320

HOST INDEXING (PLANTS)

Host range and properties of the globe artichoke curly dwarf virus. 15141

Production of stem pitting disease by a sap-transmissible virus from apple. (Abstract). 15901

Reaction of guar to strains of tobacco ringspot virus. 15925

Preliminary studies on the identity of a mosaic virus from corn in Ohio. (Abstract). 15969

Beans and other leguminous hosts of peanut stunt virus. (Abstract). 15973

Natural occurrence of tobacco ringspot virus Pelargonium in Ontario. 16611

Eutypella canker on species of acer in New York state. 17294

Studies on virus diseases of stone fruits. I. Peach necrotic ringspot and prune dwarf virus in Japan. 17309

The presence of tristeza virus in certain species of citrus in Cyprus. 18042

Herbaceous host ranges in two Prunus line-pattern viruses. 18775

Wild Rubus spp. as natural hosts of tobacco ringspot virus. (Abstract). 18923

The relationship between bean yellow mosaic virus and pea mosaic virus. 18958

Additional herbaceous hosts of the exocortis virus of citrus. (Abstract). 18980

In vitro increase in virus infectivity. 18994

Virus reactions and taxonomy. 20513

Evaluation of lettuce varieties and breeding lines for resistance to common lettuce mosaic. 21154

The vectors and alternative hosts of groundnut rosette virus in Central Province Malawi. 21170

Clonal selection of grapevines in some areas of Italy. 21819

Research and identification of low litre and avirulent viruses or grapevines. 21820

Host range of peanut stunt virus in Trifolium spp. (Abstract). 21837

Virus disease survey on citrus in Aegean region. 21909

Radial mosaic virus of grapevines. 21918

HOST RELATIONSHIPS

A new species of Ardeicola Clay (Mallophaga: Philopteridae). 19368

Wood- and bark-feeding Coleoptera of felled spruce in interior British Columbia. 19480

New species of bark beetles (Coleoptera: Scolytidae), mostly Mexican. Part VII. 19526

Abnormalities in Nosema-diseased worker bees. 19546

The degree of infestation of several bird species with mallophaga. 19718

New host-record of Apanteles ruficrus to Japan. (Hymen.: Braconidae). 19756

Annotated list of forest insects of British Columbia. XIV. Ennominae (Geometridae). 19908

The endoparasites in collard turtle-doves in some Moravian towns. 19957

The hypopial stage of Falculifer rostratus in the turtledove. 20019

Thibenzole for Syngamosis therapy. 20038

Quantitative relationships between fleas and rodents in a Hawaiian cane field. 21683

Host specificity and serologic disparity of African swine fever virus and amphibian polyhedral cytoplasmic viruses. 22063

Insect tormentors of livestock: IV. The mites. 22148

Susceptibility of tissue culture cells to foot-and-mouth disease virus: Concentration of bovine serum in culture medium. 22702

HOST SPECIFICITY

The life history of Ips calligraphus (Coleoptera: Scolytidae) with notes on its biology in California. 13863

On the two species of Bruchidius (Coleoptera: Bruchidae) established in North America. 14033

Taxonomy of final-instar larvae of the hymenopterous and dipterous parasites of Acrobasis spp. (Lepidoptera: Phycitidae) in the Ottawa Region. 14047

Suitability of Anaitis plagiata (Geometridae) for biocontrol of Hypericum perforatum in dry grassland of British Columbia. 14193

The biology of the fir tree borer, Semanotus litigiosus (Coleoptera: Cerambycidae), in California. 14288

Summary of parasite and predator liberations in Canada and of insect shipments from Canada in 1966. sB975.C3. 14289

Occurrence of Bracon gelechiae Ashmead as a parasite of potato tuber moth, Gnorimoschema opercuella (Zeller) in the field in Mysore State and Assam and its other hosts recorded in India. 14448

Further additions to the list of fungus pathogens recorded in Chile. 15145

Host feeding preferences. 15786

Life history and habits of the willow beaked gall midge, Mayetiola rigidae (Diptera: Cecidomyiidae), in Michigan. 15829

Food specificity in the Aphidiidae (Hymenoptera). 23050

HOSTS

Interepidemic hosts of Western Encephalitis virus in Saskatchewan. 20389

HOT WATER TREATMENT (PLANTS)

Method of determining the sensitivity of fungus spores to hot water. 16656

The effect of hot water treatment on a virus of Opuntia exaltata. 17354

Control of endo- and ecto-parasitic nematodes in turf by hot-water treatments. 18139

Reduction of banana anthracnose following hot-water treatment of the green fruit. 19811

Inactivation of potato leaf roll virus in tubers by hot water treatment. 21165

Loose smut of wheat. 21903

HOUSEHOLD INSECTS

The attraction of salts and other nutrients to the larvae of fabric insects. 14225

Anthrenus sarnicus Mroczkowski (Coleoptera, Dermestidae) in Britain. 17625

Let's talk about the advantages of bait . 17874

Proposed federal Formosan termite quarantine safeguards. Buyer, seller. 18378

The old house borer. 18642

HOUSEHOLD PESTS

A guide to the use of pesticides for the control of agricultural and household pests. 423.9 SO822. 21175

Silverfish and firebrats; how to control them. 22848

HOUSES

Large numbers of Alphitobius diaperinus Panz. (Col., Tenebrionidae) in broiler houses. 18673

The natural history of Monomorium pharaonis (L.) (Hym., Formicidae) infesting houses in Nigeria. 18683

Highlights of household insects and other arthropods in Ontario in 1965. 20155

Studies on the efficiency of collecting and counting Anopheles gambiae in verandah-trap huts. 20954

HULL ROT (PRUNUS AMYGDALUS)

Hull rot disease of almonds. 15135

Role of fumaric acid in the hull rot disease of almond.
15136

HUMAN DISEASES

Literature references to mosquitoes and mosquito-borne diseases.
13890

Simian malarias in man; facts, implications, and predictions.
14307

Evolutionary trends in mammalian trypanosomes.
14315

Dirofilaria tenuis containing microfilariae in man.
14539

St. Louis encephalitis vector studies in Houston, Texas.
14983

Drugs and disease as mosquito repellents in man.
15851

Catalogue of arthropod-borne viruses of the world; a collection of data on registered arthropod-borne animal viruses. qR360 .T3.
15852

Ancylostoma ceylanicum infection in dogs, cats, and man in Taiwan.
16102

The serological differentiation of viruses in the tick-borne encephalitis subgroup by the gel-diffusion method.
16502

Field study of the safety of Abate for treating potable water and observations on the effectiveness of a control programme involving both Abate and malathion.
16505

Comments on bovine adenoviruses.
16825

Salmonellosis typhimurium. Some epidemiological and therapeutical problems of salmonellosis.
16846

Antigenic relationship between influenza A viruses of human and animal origin.
16853

Summary of recent abstracts. IV. Trypanosomiasis. African Trypanosomiasis. Human.
17239

Summary of recent abstracts. VII. Rickettsial diseases.
17240

Development of studies in Czechoslovakia on natural foci of diseases.(JPRS 44,874) Transl. 16897.
17243

Isolation of mircobacterium tuberculosis human types from the organs of home-produced poultry.
17540

The ramifications of salmonellosis.
17622

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River Mission, Cape York Peninsula, north Queensland. II. Arbovirus infections of mosquitoes, man, and domestic fowls, 1963-1966.
17910

Helminths as vehicles and synergists of microbial infections.
18376

Microbiology. Gastrointestinal outbreaks.
18392

Annual report of the insect vector control division (previously the malaria division) of the ministry of health and housing of the government of Trinidad and Tobago for the year 1966.
18708

A review of the state's ten years (1948-1957). RA644.M218.
18712

Zoonoses in the Tropics.
18715

Some veterinary and human aspects of histoplasmosis.
19168

Fish: Serologic evidence of infection with human pathogens.
19184

The Culex pipiens fatigans problem in South-East Asia. with special reference to urbanization.
20262

Summary of recent abstracts. VII. Rickettisial diseases.
20487

A common surface antigen in influenza viruses from human and avian sources.
20795

Hookworms and other helminths in dogs, cats and man in surinam.
20832

Comparative effects of tretamine, tepa, apholate, and their structural analogs on human chromosomes in vitro.
20923

Notes on breeding and endofily of mosquitos in the Shomron district, Israel.
21049

Pesticides in the fight against arthropods which are a hazard to human health.
21051

Identification of host and host antibodies from mosquito blood meals.
21053

Cycloguanil pamoate in the treatment of cutaneous leishmaniasis. Initial trials in Panama.
21054

Investigations of an outbreak of Venezuelan equine encephalitis in towns of eastern Venezuela.
21056

Treatment of American cutaneous leishmaniasis with cycloguanil pamoate.
21057

A report of a suspected anthrax outbreaks among human beings in Tarlac province.
21296

Neutralizing antibodies to adenovirus in infectious hepatitis.
21309

The importation of disease to Britain by wild animals.
21358

Antigenic relationship between influenza A viruses of human and avain origins.
21411

Balantidiasis may be more common than we think.
22043

Vervet monkey disease: Experimental infection of guineapigs and monkeys with the causative agent.
22136

Experimental mosquito-transmission of Plasmodium knowlesi to man and monkey.
23084

Summary of recent abstracts. VI. Plague.
23087

Comparative aspects of infectious abortion diseases common to animals and man.
23271

A serological survey of dogs, native rodents and humans in New Mexico.
23311

HUMAN ENGINEERING

Responses of mosquitoes and stable flies to a man in a light-weight rubber diving suit.
14314

HUMAN NUTRITION

Use of emulsified fat for intraperitoneal alimentation.
15289

HUMANE SLAUGHTERING

An outbreak of subclinical Newcastle disease in Northern Ireland.
20743

HUMANS

Response of the yellow-fever mosquito to varying areas of human skin.
13814

Responses of mosquitoes and stable flies to a man in a light-weight rubber diving suit.
14314

A contagious pox disease in monkeys.
14516

La lutte chimique contre les insects nuisibles. (chemical control of insect pests). ed. 3.
14906

Biology of vector-associated diseases in Vietnam.
15460

Bovine papular stomatitis, pseudo-cow-pox and milker's nodules.
15489

Chemical ovicidal measures as applied to Taenla hydatigena, Taenia ovis, Taenia pisiformis, and Echinococcus granulosus.
15516

DDT in humans and animals; determination of DDA in urine using an ion exchange resin.
15555

The determination of chlorinated insecticides in human blood.
15556

A sensitive procedure for urinary p-nitrophenol determination as a measure of exposure to parathion.
15559

Determination of DOT and related substances in human fat.
15569

Note on identification of azinphosmethyl in human tissues. and in figs.
15579

Hexane extractable chlorinated insecticides in human blood.
15606

Electron capture gas chromatography.
15674

Host feeding preferences.
15786

Reduviid bugs. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15808

Observations on man-biting mosquitoes in Jamaica.
15849

Summary of recent abstracts. Ix. Helminthiasis.
16096

The metabolism of carbaryl in man, monkey, pig, and sheep.
16193

Isolation of Listeria monocytogenes from vegetation.
16857

Treatment and control of scabies, lice and flea infestation of man.
17244

The incidence of antibodies of some arboviruses in men, domestic and wild animals living in the natural focus of the Tahyna virus in the south of Moravia.
17501

Degradation of human serum proteins in the digestive tract of mosquitoes.
18706

The Chediak-Higashi Syndrome.
19198

Legal determination for protection of men and domestic animals against exposure to insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
20096

Experiments on host selection in the Anopheles gambiae complex.
20345

The tularemia problem in the CSSR.
20485

Onchocerciasis in Kenya 9, 11 and 18 years after elimination of the vector.
20490

Respiratory exposure to organophosphorus insecticides. (abstract).
20872

Residues and some effects of chlorinated hydrocarbon insecticides in biological material. (abstract). 20877

Poisoning with organophosphorus insecticides. (abstract). 20882

Value of ED50 testing in assessing hazards of acute poisoning by carbamates and organophosphates. (abstract). 20883

Site of action of aflatoxin on human liver cells in culture. 20886

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Amproium, ethopabate. 21503

Protection against Pseudomonas aeruginosa infection by immunisation with fractions of culture filtrates of Ps. aeruginosa. 21784

Azak - a new crabgrass herbicide. 22590

HUMIC ACIDS

Humus acids as a nutrition source for some white-rot fungi. 16685

HUMIDITY

Individually humidified closed plastic cages for rearing anopheline mosquitoes. 14147

Effect of desiccation on the light reactions of Carpophilus dimidiatus and Tribolium castaneum. 14149

Effects of phloem temperature and moisture content of the Southern pine beetle. 14187

Selection of pupation site by Drosophilia melanogaster and D. simulans. 14256

Studies on the garden symphylan, Scutigerella immaculata (Symphyla: Scutigerellidae). 14284

Effect of moisture content and length of storage period upon germination percentage of seeds of corn, wheat, and barley free of storage fungi. 15524

Stable flies. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15774

Rat fleas. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15779

Quantitative measurement of the emanation of water from underground plant parts. (Abstract). 15942

Diurnal periodicity in Helminthosporium and Alternaria spores in the air. (Abstract). 15946

Controlled aeration of rice in bulk. 16110

Determination of the degradation products of ethylenebis(dithiocarbamates) by thin-layer chromatography and some investigations of their decomposition in vitro. 16241

Fluctuations in natural populations of Drosophila with special attention to sex ratio. 16261

Quantitative dietary requirments of Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae) for phenylalanine and tyrosine. 16378

Bioclimatic studies of the aphid parasite Praon exsoletum. I. Effects of temperature on the functional response of females to varying host densities. 16432

Flight height, droplet size, and moisture influence on grasshopper control achieved with malathion applied aerially at ULV. 16455

Some responses of flying Aedes aegypti to visual stimuli. 16481

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions. 16485

A dynamic-equilibrium illuminated temperature-, humidity-, and pollutant-controlled plant fumigation chamber. (Abstract). 16559

Ejection and dissemination of ascospores of Hypoxylon pruinatum. 16578

The temperature-humidity-relationship in the activity of the common wood tick. 16867

Fungus flora, germinability and fat acidity values of stored corn. 16895

Bionomics of Glycyphagus domesticus (de Geer)(Acarina: Glycyphagidae),a pest of stored grain. 16897

Effect of relative humidity on the developmental stages of Tribolium castaneum (Coleoptera: Tenebrionidae). 17088

The effect of temperature and moisture on the development of Fannia canicularis (L.) and Fannia femoralis (Stein) (Diptera: Muscidae). 17095

Eutypella canker on species of acer in New York state. 17294

Survivability of the foot-and-mouth disease virus outside the host. Transl. 16891. 17554

Response of Echinochloa crusgalli (L.) Beauv. at various stages of development to 2-chloro-4-ethylamino-6-isopropylamino-s-triazine. 17692

An improved incubator for insects for operation above room temperature and relative humidity. 17734

Field and laboratory studies on the ecology and morphology of Nabis americoferus Carayon and its parasites in California. 17834

The influence of temperature and humidity on the development of Tenebrio molitor L. 17850

Rearing stored product insects for laboratory studies: Six species of moths. 17887

Pyrethrins-piperonyl butoxide applied as a fog in an empty grain bin. 17897

Comparative life histories of chlordane-resistant and nonresistant German cockroaches. 17901

The relation of rainfall, relative humidity, and temperature to late blight of potato in Sedes, Sindos-Lahanokipi of Nomos Thessaloniki. 17925

Races of Puccinia polysora in Nigeria. 18015

Factors influencing aflatoxin accumulation in peanut kernels and the associated mycoflora. 18043

Loss of phorate from a granular formulation applied in the soil. 18110

Stomatal movements; a yearly rhythm. 18473

Synergistic effect of two stimulants to induce probing in stomoxys calcitrans. 18607

Tomato. Gray leaf spot, bacterial leaf spot; Stemphylium solani, Xanthomonas vesicatoria. 18722

Observations on the formation and dispersal of conidia of Mycosphaerella musicola Leach. 18859

Tobacco (burley) root-knot nematode, Meloidogyne incognito. 19080

The occurrence of Oryzaephilus surinamensis (L.) (Col., Silvanidae) on dried chicory. 19095

Studies on ergot of wheat: Claviceps purpurea (Fr.) Tul. 19128

Effect of concentration, exposure time, temperature, and relative humidity on the toxicity of sulfur dioxide to the spores of Botrytis cinera. 19266

Phasil behaviour shown by two Carpophilus species (Coleoptera, Nitidulidae) in various humidity gradients and its ecological significance. 19542

Observations on the behavior of the blue tick, Boophilus decoloratus (Koch) (Acarina: Ixodidae). 19615

Moisture and fat content during the adult life of the Ambrosia beetle, Trypodendron lineatum (Oliv.). 19684

The response of some Macrochelids to temperature and humidity (Acarina: Macrochelidae). 19725

The polymorphism in Philaenus spumarius (L.) (Hemiptera: Cercopidae) in british Columbia. 19772

Role of relative humidity in the survival of airborne Mycoplasma pneumoniae. 20016

Influence of temperature and moisture on the survival of cocoons, and on adult emergence of Bucculatrix canadensisella. 20309

Collection of Simuliids from the Ivory Coast. Study of the activity of the females of Simulium damnosum Theobald. 20346

Innoculation of the cecidomyiidae shell of Oligotrophus reaumurianus on the linden leaf. 20618

Co-ordinated neuromuscular activity in insect spiracles at sub-zero temperatures. 20984

The influence of temperature and relative humidity on the weight loss and survival of the harvester termites, Hodotermes mossambicus (Hagen) and Trinervitermes trinervoides (Sjostedt). 21014

The effect of temperature and relative humidity on the flight performance of female Aedes aegypti. 21022

Moisture sensitivity, mechanical injury and gibberellin treatment of Beta vulgaris seeds. 21063

Effect of carbon dioxide, temperature, and relative humidity on production of aflatoxin in peanuts. 21545

Lettuce growth and tipburn incidence under controlled humidity. (Abstract). 21768

Analysis of epidemics of the tobacco (Peronospor tabacina Adam) mildew in the Gembloux area. 21867

Deterioration of treated and untreated cottonseed during humid storage. 21952

A relative study of the composition and tenacity of the Karathane deposits on bean leaves. 22188

Significance of fluctuating humidities and frequency of blood meals on the survival of the spiny rat mite, Echinolaelaps echidninus (Berlese). 22247

The influence of certain factors on the fecundity of Sitophilus oryzae (L.). 22394

Changes in the population of Cecidomyiidae. 22398

Effect of temperature and humidity on the susceptibility of bedbugs to insecticides. 22455

Interactions between atrazine residue and four herbicides: Amiben, CDAA, linuron, and trifluralin. 22810

The egg- and larval development of Trogoderma angustum Sol. (Dermestidae). 23071

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23190

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23191

Sporicidal effect of peracetic acid vapor. 23382

A survey of the wild species of Drosophilidae within multiple role of fungal centrioles. (Abstract) Monongalia County, West Virginia. 23418

HYACINTH DOLICHOS

Sap transmission of sandal spike. 19843

HYADAPHIS PSEUDOBRASSICAE

Evaluation of the effectiveness of some organophosphorus insecticides against two species of aphids. 14255

Biology of the mustard aphid, Lipaphis erysimi, in India. 17194

HYALIODES VITRIPENNIS

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera). 14201

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera). 19028

HYALOMMA ANATOLICUM EXCAVATUM

Development of Rickettsia prowazeki in certain species of ixodid ticks. 14305

HYALOMMA DROMEDARII

Development of Rickettsia prowazeki in certain species of ixodid ticks. 14305

HYALOPHORA CECROPIA

Effects of ecdysone on epidermal cells in which DNA synthesis has been blocked. 16428

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia. 16464

A convenient synthesis of mixed isomers of juvenile hormone. 17083

Active transport by the cecropia midgut. III. Midgut potential generated directly by active K-transport. 17121

Active transport by the cecropia midgut. V. Loss of potassium transport during larval-pupal transformation. 17122

Active transport by the cecropia midgut. IV. Specificity of the transport mechanism for potassium. 17175

Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease. 17182

Synthesis and distribution of RNA in Cecropia oocyte differentiation. 17184

The two juvenile hormones from the Cecropia silk moth. 20391

Ultrastructure of moth alary muscles and their attachment to the heart wall. 21733

HYDRACHNELLAE

The water mites parasitic on the damselfly, Cercion hieroglyphicum Brauer. I. Systematics and life history. 14065

The aquatic Acarina of Sweden. III. 16427

Methodical reference and council on the breeding of fresh water mite larva parasitic on air insects on (Acari Hydrachnellae). 19676

Water mites from puddles 'Vechten'. 20173

Preliminary results of a nine year investigation of Bachhydracarinen (Acari-Trombidiformes). 20302

Host exploitation of two closely related water mites. 20393

HYDRACRYLIC ACID BETA-LACTONE

Studies on avian encephalomyelitis. III Immune response to beta-propiolactone inactivated virus. 15336

Newcastle disease: Preliminary field tests of beta-propiolactone-killed vaccine. 15371

Experimental inactivated-virus hog cholera vaccines' induction period of immunity. 15435

Preparation of inactivated vaccine against Newcastle disease. I. Inactivation of Newcastle disease virus by beta-propiolacton and formalin. 23437

HYDRAZIDES

The hydrazide of isonicotinic acid in preventing and treatment of tuberculosis in minks. 21368

HYDROCARBONS

Effect of aromatic hydrocarbons on tomato crown gall cells. (Abstract). 15918

Identification and functions of secretion from the posterior scent gland of fifth instar larva of the bug Dysdercus intermedius. 16274

Mosquito control agents derived from petroleum hydrocarbons. II. Laboratory evaluation of a new petroleum derivative, FLIT MLO. 17164

The physiology of labellar electrolyte receptors of the blowfly, Phormia regina. 17206

The development of analytical methods for the determination of chlorinated hydrocarbon insecticides in soils and waters. 17647

Hydrocarbon and fatty acid distribution in the spore coats of pathogenic Basidiomycetes. (Abstract). 17713

The effect of exposure to dieldrin on avoidance response extinction and conditioned heart rate in sheep. 18196

Chlorinated hydrocarbons in British wildlife. 19246

Danger of chlorinated hydrocarbon insecticides in bird's eggs. 19248

Degradation of hydrocarbon by members of the genus Candida. III. Oxidative intermediates from 1-Hexadecene and 1-Heptadecene by Candida lipolytica. 19977

Accumulation and concentration of chlorinated hyrocarbon pesticides by microorganisms in soil. 20504

Herbicidal concentrate composition. Patent 3,397,050. 21567

Antifungal activity of isothiocyanates and related compounds III. Derivatives of diphenyl, stilbene, azobenzene, and several polycondensed aromatic hydrocarbons. 22235

HYDROCEPHALUS

Pathogenesis and pathologic features of avian encephalomyelitis in chicks. 22115

HYDROCHLORIC ACID

Diapause in gypsy moth. 17155

HYDROCINNAMIC ACID

Identification of phytotoxins obtained from plant residues decomposing in soil. (Abstract). 20916

HYDROCYANIC ACID

Borax inhibition of cyanogenesis in snow mold of alfalfa. 20544

HYDROGEN

Method of controlling weeds. Patent 3,393,995. 16009

Method of controlling weeds. Patent 3,399,049. 21550

Controlling phytopathogenic fungi on plants with 3-pyridyl methane derivatives. Patent 3,397,273. 21554

The effect of age, SKF 525- a hydrochloride, and chlorcyclizine dihydrochloride on the toxicity of parathion to adult alkali bees, Nomia melanderi ckll. 21708

HYDROGEN PEROXIDE

The sterilizing effect against Bacillus subtilis spores of hydrogen peroxide at different temperatures and concentrations. 21442

HYDROGEN SULFIDE

A mechanism for continuous production of hydrogen sulfide in soils submerged in water. 15664

HYDROGEN-ION CONCENTRATION

Plant uptake of 14C-diuron in modified soil. 14008

Hydrogen ion concentration (pH) as related to the occurrence and abundance of tree-hole dwelling Culicoides spp, (Diptera: Ceratopogonidae in northern Florida. 14263

The respiration of sclerotia of Sclerotium rolfsii. 14337

Subtle effects of freezing on the sensitivity of tobacco mosaic virus to alkaline degradation. (Abstract). 14361

Breakdown of pectin at pH values encountered in Fusarium solani f. sp. cucurbitae-infected squash hypocotyls. (Abstract). 14378

Effect of carbon sources on the growth of Pythium aphanidermatum (Edson) Fitz. 14390

Influence of pH and of salts on the development of eggs of Fasciola hepatica. 14603

The effect of pH on the multiplication of Listeria monocytogenes in grass silage media. 14614

Influence of nutrition, PH, soil temperature, and soil moisture on Phythium blight of highland bentgrass. 15139

Investigations on Dursban insecticide. metabolism of O,O-diethyl 0-3,5,6-trichloro-2-pyridyl phosphorothioate and 3,5,6-trichloro-2-pyridinol in plants. 15582

The metabolism of carbaryl (1-naphthyl-N-methylcarbamate) by the fat body of the blowfly larva Calliphora erythrocephala. 16440

Cultural studies of sexual reproduction of Ceratocystis fagacearum. 16512

Biophysical and biochemical studies on the nature of resistance of pineapples to the oriental fruit fly. 16710

Effect of pH on recovery of fungi from foods. 16894

Fungus flora, germinability and fat acidity values of stored corn. 16895

The adsorption of chlorinated hydrocarbon pesticides on an unconsolidated aquifer substrate. 16901

The partitioning and distribution of simazine and propanil in spinach chloroplasts. 16927

The oxidation of indole-3-acetaldehyde and its 1-methyl derivative by horseradish peroxidase. 16941

Micro-potentiometric pH determinations of muscoid maggot digestive tracts. 17117

Active transport by the cecropia midgut. V. Loss of potassium transport during larval-pupal transformation. 17122

The adsorption of atrazine by soils and soil colloidal components. 17271

Studies on the necrotic fleck disease of Easter lily, Lilium longiflorum. 17283

Adsorption of herbicides by activated carbon and other adsorbents. 17675

The effect of sodium-carboxy-methyl-cellulose on the sedimentation and viability of Brucella organisms in suspension. 17693

Bionomics of the mosquito Anopheles franciscanus Mccracken in California. 17783

Sub-units of acid phosphatase-1 in Drosophila melanogaster: Reversible dissociation in vitro. 17862

Oxalate metabolism in sheep and its effect on the anion-cation balance. 18188

Manganese toxicity in celery. 18413

Hydrogen ion concentration (pH) as related to the occurrence and abundance of tree-hole dwelling Culicoides spp., (Diptera: Ceratapogonidae) in northern Florida. 18564

In vitro polymerization of winter wheat mosaic virus antigen. 18767

Purification and antigenicity of wheat streak mosaic virus. 18789

Cellulose degradation by cellulase of Sclerotinia sclerotiorum produced in culture. (Abstract). 18873

Pectic enzymes associated with black root rot of tobacco. (Abstract). 18965

Experimental infections of calves with Trichostrongylus axei: Observations on lethal infections. 19223

Investigations on the wilt disease of guava (Psidium guajava L.) in West Bengal. II. 19813

Hatching of Dicrocoelium lanceolatum eggs. 20047

Growth of listeria monocytogenes in corn silage extract medium. 20518

In situ alkaline degradation of turnip yellow mosaic virus RNA: a comparative analysis. 20537

Feline urethral obstruction: Mineral aspects. 20774

Aflatoxin formation by Aspergillus flavus and Aspergillus parasiticus in a casein substrate at different pH values. 20876

Influence of carbon source and pH on the accumulation of oxalic acid in culture filtrates of Sclerotium rolfsii. (Abstract). 20902

Effects of manganese and iron application on their solubility, absorption and growth of oat plants. 20912

The application of pH determinations to insect pathology. 20996

Occurrence and nature of invertase activity in adult blackflies (Simuliidae). 21036

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Iii. Effect of injury on oleoresin composition, phloem carbohydrates, and phloem pH. 21193

The causes of gastric ulcers in pigs. 21319

Physical and chemical conditions inducing the coccoid form of ovine Vibrio fetus. 21446

A modified brucella ring test of cream. 21486

Effect of Halogeton glomeratus on pH values in rumen of sheep. 21518

On the alkaline and acid phosphatase in the alimentary tract of Periplaneta americana L. (Blattaria: Blattidae). 21741

Distribution of soluble component and quality factors in the edible portion of citrus fruit. (Abstract). 21809

Studies on leptospiral lipase. I. Characterization of lipases from pathogenic and saprophytic strains. 22035

Further studies on mosaic disease of maize (Zea mays L.). 22512

Serological response of pigs to infection with Mycoplasma. Demonstration of growth and metabolism-inhibiting antibodies in sera of pigs inoculated intranasally with Mycoplasma hyorhinis. II. 22661

Persistence of diazinon and zinophos in soil: Effects of autoclaving, temperature, moisture, and acidity. 23440

HYDROLASES

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of hydrolase activities. 17548

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities. 21395

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities. 22696

HYDROLYSATES

Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. II. Toxicity of different fractions of the hydrolysate for larvae of Pieris brassicae. 15780

HYDROLYSIS

Diazinon absorption, translocation, and metabolism in bean plants. 14634

The partial photolysis of 6-chloropicolinic acid in aqueous solution. 14636

Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. II. Toxicity of different fractions of the hydrolysate for larvae of Pieris brassicae. 15780

Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. I. Preparations and fractionation of the lysates. 15781

Studies on the interaction of p-Mercuribenzoate with turnip yellow mosaic virus. V. Induced ribonuclease sensitivity and degradation of the virion. 16608

Degradation of insecticides by esterases of the American cockroach. 17160

Enzymatic hydrolysis of the encysted parasporale of Bacillus thuringiensis by Bombyx mori L. proteases. 17852

Comparison of metabolites of progesterone-4-14C in urine from a nonpregnant domestic sow. 18190

Sterol-like compounds with auxin activity in human urine. 18757

Mechanism of starch hydrolysis in bean leaves during infection by bean rust fungus. (Abstract). 18931

Pyrogenic principle of the ribonucleic acid from the yeast Candida utilis. 19974

Physicorhemical characteristics of glycogen from Anthonomus grandis Boheman. 20306

Esterases of mouse brain active in hydrolyzing organophosphate and carbamate insecticides. 20659

Amine derivatives for pesticide residue analysis. 20856

The gas chromatographic determination of organophosphorus pesticides. II. A comparative study of hydrolysis rates. 20931

Detection of cholinesterase-inhibiting pesticides following separation on thin layer chromatograms. 20932

The comparative histochemistry of some hydrolytic and oxidative enzymes in the livers of several domestic and laboratory animals. 21255

Montmorillonite-S-triazine interactions. 21491

Partial hydrolysis of dieldrin by Aerobacter aerogenes. 22238

HYDROPHILIDAE

Weather and diurnal periodicity of flight by Helophorus brevipalpis Bedel (Col. Hydrophilidae). 22420

HYDROPONICS

Salinity tolerance of seven varieties of creeping bentgrass, Agrostis palustris Huds. 14011

Mineral nutrition of cacao (Theobroma cacao L.). Comparison of plant growth and nutrient content of leaves of six C.R.I. varieties grown in

optimum and deficient conditions in sand culture.
16524

Infrared studies of ethylene chlorohydrin.
18486

The effect of silica on the growth of rice plant.
18746

The chemical defoliation of fruit trees.
20111

The use of heat to control the rotting of Cox's Orange Pippin apples by Gloeosporium spp.
21528

HYDROQUINONE
Stabilization of aqueous solutions of the insect chemosterilant m-Xylohydroquinone (m-XHQ) by vitamin C.
22752

HYDROXY-ECDYSONE, 20-
Occurrence of 20-hydroxy-ecdysone in Vitex megapotamica.
20118

HYDROXY-N,N-DIMETHYL-CIS-CROTONAMIDE DIMETHYL PHOSPHATE, 3 INSECTICIDES
Field tests of systemic insecticides for the control of sitka-spruce weevil.
23195

HYDROXY-N,N-DIMETHYL-CIS-CROTONAMIDE DIMETHYLPHOSPHATE, 3-
An evaluation of Bidrin for control of Scolytus multistriatus, the primary vector of Ceratocystis ulmi.
16709

HYDROXYECDYSONE, 20-
Short-term effects of crustecdysone (20-hydroxyecdysone) on protein and rna synthesis in third instar larvae of Calliphora.
16437

HYDROXYLAMINE
Influence of nitrite and hydroxylamine on performance and vitamin A and carotene metabolism of ruminants.
18183

HYDROXYMETHYL-2,6-DICHLOROTHIOBENZAMIDE, N
Method of combatting the growth of undesired plants. Patent 3,374,084.
14488

HYDROXYUREA
Histological studies of ovaries in rats treated with hydroxyurea triphenyltin acetate, and triphenyltin chloride.
23407

HYGIENE
Behaviour genetics of nest cleaning in honeybees. V. effect of previous experience and composition of mixed colonies on response to disease-killed brood.
16468

The toxicity and distribution of mercury.
18410

Survey shows weakness in mastitis control.
22054

Steps can be taken to curb mastitis.
22057

Eradicating and controlling brucellosis in sheep.
22068

Scaly leg in poultry--a parasitic disease.
22150

HYLEMYA
Effect of soil treatments of heptachlor and parathion on predators and parasites of root maggots attacking rutabagas on Prince Edward Island.
15249

Cabbage maggot resistance to organochlorine insecticides.
16317

HYLEMYA ANTIQUA
Frequency of mating by the female onion maggot adult.
13771

HYLEMYA BRASSICAE
Toxicity studies on cyclodiene-susceptible and cyclodiene resistant strains of the cabbage maggot.
14001

Notes on the life history of Aleochara bilineata (Gyll.) (Coleoptera:Staphylinidae), and on its potential value as a control agent for the cabbage maggot, Hylemya brassicae (Bouche) (Diptera: Anthomyiidae).
14251

Effect of host plant odour on the behaviour of the adult cabbage root fly, Erioischia brassicae.
14451

Stimulations of oviposition by the cabbage root fly Erioischia brassicae.
15820

Feeding through root surfaces of rutabaga by Hylemya brassicae (Diptera: Anthomyiidae).
20437

Tests for inheritance of dieldrin-resistance in the cabbage maggot, Hylemya brassicae (Bouche).
21993

Dieldrin-resistant cabbage root fly in England.
22984

Field testing candidate insecticides on radish, cabbage, and cauliflower for control of the cabbage maggot in New York state.
23196

HYLEMYA CILICRURA
Are Hylemya cilicrura and Hylemya liturata two separate species.
21704

HYLEMYA COARCTATA
Wheat bulb fly, Leptomylemyia coarctata Fall., and its effect on the growth and yield of wheat.
21172

HYLEMYA LITURATA
Are Hylemya cilicrura and Hylemya liturata two separate species.
21704

HYLEMYA PLATURA
Trapping Hylemya spp. flies in tobacco fields on sticky colored stakes.
22890

HYLOBIUS
New records of two Curculionid beetles in North Carolina.
22344

Insecticides in Norwegian forestry.
22517

Insecticides in Finnish forestry.
22530

HYLOBIUS PALES
Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species.
13925

A description of the pupa of the pales weevil, Hylobius pales, and a method for identifying its sex.
17773

Acarine associates of the pales weevil, Hylobius pales (Coleoptera: Curculionidae).
19504

HYLOBIUS PINICOLA
New records of two curculionid beetles in North Carolina.
14138

HYLOTRUPES BAJULUS
Old house borer, Purdue:s Formosan termite study, and dry rot reporting are discussed in Philadelphia.
16107

The old house borer.
18642

Growth of larvae of the house longhorn beetle (Hylotrupes bajulus L.) in constant conditions.
19702

HYMENOLEPIS
Peroxidase activity in platyhelminth cuticular mitochondria.
20048

Effects of stress upon acquired immunity to the dwarf tapeworm, Hymenolepis nana.
20057

HYMENOLEPIS DIMINUTA
Experimental infection of gnotobiotic Tenebrio molitor and white rats with Hymenolepis diminuta (Cestoda: Cyclophyllidea).
18363

Exposure of Tribolium confusum to thio-TEPA, and its effect upon development of Hymenolepis diminuta Cysticercoids.
20046

Embryogenesis in Hymenolepis diminuta. V. Acetylcholinesterase in embryos.
20050

Experimental infection of gnotobiotic Tenebrio molitor and white rats with Hymenolepis diminuta (Cestoda: Cyclophyllidea).
20640

HYMENOPTERA
Taxonomy of final-instar larvae of the hymenopterous and dipterous parasites of Acrobasis spp. (Lepidoptera: Phycitidae) in the Ottawa Region.
14047

Notes on spider parasites, including a reference list.
14183

On the parasites of the pine caterpilliar, Dendrolimus spectabixis Butler, in a pure stand Akamatsu-pine forest in the suburbs of Seoul in Korea.
14222

Parasites of the leaf rollers Archips argyrospilus and A griseus in Connecticut.
14248

A morphological and functional study of the venom apparatus in representatives of some major groups of Hymenoptera.
14252

The hymenopterous parasites (Hymenoptera: Aphidiidae et Aphelinidae) of the pea aphid in eastern North America.
14830

Transmission of bacterial pathogens by the ovipositor of a hymenotterous parasite.
14867

Fungi associated with a wood wasp in dying pines in Tasmania.
15205

A wide-range variable temperature cabinet for bio-ecological studies.
15689

Parasites of sugarcane stem borers in Nigeria.
15773

New Canadian Braconidae (Hymenoptera).
16314

On some new species of Tetramesa Walk., with notes on their parasites (Hymenoptera: Chalcidoidea).
16342

An interesting parasite of Thysanoptera: Tetrastichus gentilei (Hym. Chalcididae).
16365

Some problems connected with the use of light traps.
16976

Some illustrations of microsculpture in the Hymenoptera.
17101

Community studies on Hymenoptera found on Brassica napus C. V. Cynipoids (Cynipoidea).
17165

Immunization with native, incriminated wasp venom in sting allergy: 12-yr study of safety and effectiveness of a single visit, yearly course. (Abstract).
17660

Hymenoptera from Turkey: Symphyta.
18511

A new genus for the leaf-edge-rolling Pontania (Hym., Tenthredinidae).
18512

The genus Aprostocetus Westwood, Sensu Lato (Hym., Eulophidae); notes on the synonymy of European species. 18531

Observations on the mirid (Hem.) hosts of Braconidae (Hym.) in Britain. 18542

Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 66th contribution. Hymenoptera: Tiphiidae. 18549

Further records of Cambridgeshire bees and wasps. 18567

Sawflies (Hym., Symphyta) collected by Mr. J. E. Collin and Mr. E. C. M. d'Assis-Fonseca in the Scottish Highlands, May and June, 1959. 18575

The bees and wasps of Cambridgeshire. 18576

The biology of Eurytoma roseni Claridge (Hym., Eurytomidae). 18583

Miscellaneous biological notes on aculeate Hymenoptera in Kagawa in the years of 1948 and 1949. 18624

Some hymenopterous parasites of caterpillars on oak twigs in winter. 18627

Miscellaneous prey records of solitary wasps. V. (Hymenoptera: Aculgata). 18632

Observations, including new prey records, of some Nearctic Pompilidae (Hymenoptera). 18633

A note on the behavior of Lasius fuliginosus (Latr.)(Hym. Formicidae). 18658

Records of hymenopterous parasites and hyperparasites of certain fruit-tree aphids. 18664

Observations on the effect of flowers on the activity of parasitic hymenoptera. 19090

A new chalcidoid parasite of a ceratopogonid midge (Hymenoptera, Encyrtidae). 19366

Notes on Mexican and southwestern U. S. Bethylidae (Hymenoptera): II, Epyrinae. 19390

Mexican and Central American Pompilinae (Hymenoptera, Pompilidae): suppl. ii. 19391

Two interesting Hymenoptera-Aculeata from Sint Pietersberg. 19433

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia. 19442

Three new southeastern parasitic Hymenoptera. 19459

Review of the South African cuckoo-bee genus Pseudodichroa (Hymenoptera, Apoidea). 19481

A new species of Mymar Curtis (M. taprobanicum Ward) new to Europe (Research on Hymenoptera, Chalcidoidea. V.). 19515

Aphidiid parasites of the green peach aphid, Myzus persicae (Sulzer), in Japan (Hymenoptera, Aphidiidae). 19518

On the knowledge of the gall wasp tribe Aulacini (Hymenoptera, Cynipidae). 19521

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 19573

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Notes on a colony of Orectognathus antennatus Fr. Smith (Hymenoptera: Myrmicidae) from the Coromandel Peninsula. 19586

A new species and two new names of the Polyrhachis ants (Hymenoptera: Formicidae). 19632

Hymenoptera from dead wood. 19656

Genetic aspects of anaerobic metabolism in Mormoniella vitripennis. 19670

On the teratology of the genus Megachile Latr. (Hym., Apidae). 19704

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. The Australian workerless inquiline ant Strumigenys xenos Brown (Hymenoptera: Formicidae) recorded from New Zealand. 19737

A review of the classification, phylogeny and evolution of the family Braconidae (Hymenoptera). 19741

Notes on Braconidae caught in a sweep-net at paddy fields. Part I. (Hymenoptera). 19755

Notes on Bracon onukii Watanabe, a parasite of four species of Lepidopterous borers (Hymenoptera Braconidae). 19762

Distribution and hosts of some horntails (Siricidae) in British Columbia. 19890

Hymenopterous parasites of the horn fly, Haematobia irritans (Diptera: Muscidae), in Alberta. 20182

Concerning breed braconid wasps. 20192

First recorded occurrence of the genus Dioxys in Idaho (Hymenoptera: Megachilidae). 20200

Biological notes on several South-Western ground-nesting wasps (Hymenoptera, Sphecidae). 20220

Contribution to the knowledge of the genus Megachile Latr. (Hym. Apidae): Subgenus Eutricharaea and its hitherto known species. 20251

Fig wasps from Israeli Ficus sycomorus and related East African species (Hymenoptera, Chalcidoidea). 2. Agaonidae (concluded) and Sycophagini. 20282

A new species of the genus Cephalcia Panzer, 1805 (Hymenoptera: Symphyta, Pamphiliidae). 20292

Some ecological facts about two Dutch Melanips species (Hymenoptera, Cynipidae). 20339

Leafminers of Hvar island (Col., Dipt., Hym., Lep.). 20356

Nest construction and life history of the eastern cucurbit bee, Peponapis pruinosa (Hymenoptera: Apoidea). 20387

Review of the biology of Panurgine bees, with observations on North American forms (Hymenoptera, Andrenidae). 20420

A comparison of the protein quality of pollens for growth. stimulation of the hypopharyngeal glands and longevity of honey bees, Apis mellifera L. (Hymenoptera: Apidae). 20432

What is a bee . 21643

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks. 21654

Research on forest ecosystems. Series b: the mixed calcified oak-grove of Virelles-Blaimont. Contribution no. 19 Insect collections in tubes of water. 21681

On my acquaintance with middle and northern European Species of the genus Psenulus Kohl (Hym., Sphecoidea). 21705

On the two Megastigmus species (Hym., Torymidae) of the juniper seed (Juniperus communis L.). 21985

Abnormal individuals and taxonomic errors (Hymenopt.). 22257

Revision of Palaearctic species of Eusandalum Ratz. Hym., Eupelmidae). 22259

A new European species of Lysiphlebus (Hym. Aphididae). 22303

Hymenopteran parasites of Lonchaea fugax Becker (Diptera: Lonchacidae). 22353

Emergence of parasites associated with the cabbage aphid during a chemical-control program. 22400

Manifestations of competition in parasite complexes as a problem in biological pest control. 22438

The small gooseberry sawfly (Pristiphora pallipes Lep.), a little-known pest of gooseberries. 22542

The holarctic species of Cyrtogaster Walker and Polycystus Westwood (Hym., Pteromalidae) including the description of a new species of Cyrtogaster from Britain. 22853

The European species of the genus Callitula Spinola (Hymenoptera: Pteromalidae). 22855

Comparison of different methods of counting arthropod populations living off apple trees. 22936

Bibliography on the systematics of entomophagous insects. VII. 22950

A contribution to the biology of Eurytoma curculionum Mayr (Hym., Eurytomidae). 22972

Two genera of the family Encyrtidae (Hym., Chalcidoidea), new for Europe. 22990

A redescription of three species of Proctotrupoidea (Hymenoptera) from Jurine's collection. 23006

The white-fir needle miner, Epinotia meritana, in Utah-. 23011

Food specificity in the Aphidiidae (Hymenoptera). 23050

Utilisation of Trichogramma cacoeciae March., Hym. Trichogrammatidae in control of the plum moth Lep. Tortricidae depending on the numbers used and time of introduction. 23068

HYOSTRONGYLUS RUBIDUS

Experiences with a new broad-spectrum anthelmintic dichlorvos, in the adult pig. 16740

The routine differentiation of the ova and larvae of two parasites of swine, Hyostrongylus rubidus (Hassall et Stiles, 1892) and Oesophagostomum dentatum (Rud., 1803). 17604

Oral thiabendazole. Effect on immature and adult Hyostrongylus rubidus in experimentally-infected pigs. 21483

HYPERA
Boll weevil survival in Carolinas higher than in 1961.
15231
The life cycle of Hypera brunneipennis and a parasite, Bathyplectes curculionis, in relation to temperature.
16273
Missouri distribution of species of Hypera (Coleoptera: Curculionidae).
20239
The phytonome of alfalfa Hypera variabilis Herbst. (Coleoptera, Curculionidae) in southwest France.
20602
Setting up a method for control of clover weevils.
22519

HYPERA POSTICA
Aerial application of insecticides for control of alfalfa weevil.
13834
Field evaluation of insecticides for control of the alfalfa weevil in Maryland, 1962-66.
15975
Survival of overwinting alfalfa weevil eggs in Pennsylvania.
16466
Field evaluation of insecticides for control of the alfalfa weevil in Maryland, 1962-66.
17091
Further notes on Aypera postica (Gyllenhal) and its natural enemies.
17188
Photoperiod in relation to diapause in Hypera postica from California.
17193
Ecological characteristics of the diapause of the Phytonome of the Luzerne Hypera variabilis. (Col. Curculionidae).
17817
Winter oviposition by the alfalfa weevil in Virginia.
17900
A new species of Microctonus (Hymenoptera: Braconidae) parasitizing the alfalfa weevil.
19385
Bacteria in the digestive tract of alfalfa weevil larvae.
19698
Distribution of the alfalfa weevil, Hypera postica (Gyll.) in New York.
20168
Bioassay evaluation of heptachlor, isobenzan, and diazinon used against the alfalfa weevil in Northern Utah.
22523
Chemosterilant effects of tepa, apholate, and metepa on the alfalfa weevil.
23012

HYPERASPIS ACANTHICOLA
A new species of myrmecophilous Coccinellidae, with notes on other Hyperaspini (Coleoptera).
14036

HYPERCORTISONISM
Corticosteroid overdosage in dogs.
16907

HYPERECTEINA
Some difficult to distinguish species of thh genus Hyperecteina Schiner (Diptera, Larvaevoridae).
14808

HYPERGAMMAGLOBULINEMIA
Experimental production of rheumatoid arthritis of swine: Physiopathologic changes of tissues.
18319

HYPERGLYCEMIA
Corticosteroid overdosage in dogs.
16907
Hyperglyceamia induced by 5-hydroxytryptamin in Achatina fulica (gastropod mollusca).
18178

HYPERICUM PERFORATUM
Suitability of Anaitis plagiata (Geometridae) for biocontrol of Hypericum perforatum in dry grassland of British Columbia.
14193

HYPERMAGNESEMIA
Hypocalcaemia and hypermagneshaemia in lactating Awassi ewes.
14505

HYPERPARASITISM
The biology of Eurytoma roseni Claridge (Hym., Eurytomidae).
15743
Hyperparasites on some ascomycetes from Hyderabad, India.
16660
The interrelations between apple aphids and their parasites and hyperparasites.
22971

HYPERSENSITIVITY
A possible biochemical basis for the hypersensitive reaction induced in plants by pathogenic bacteria. (Abstract).
14374
Accumulation of fluorescent compounds in tobacco associated with tobacco mosaic virus hypersensitivity.
15072
Susceptibility and hypersensitivity to tobacco mosaic virus in wild species of potatoes.
16603
Changes in respiration rate of tobacco leaves infested with bacteria in relation to the hypersensitive reaction.
16647
The hypersensitive reaction in tobacco: A reflection of changes in host cell permeability.
17689
Natural selection and feeding speed in a blood-sucking insect.
18703
Further observation on the time requirement for hypersensitive cell death of potatoes infected by phytophthora infestans and its relation to metabolic activity.
18961
Clinico-epidemiological and immunological examination of persons, vaccinated and nonvaccinated against brucellosis, subject to infection hazard.
19258
Contribution to the study of the hypersensitivity phenomenon to the tobacco mosaic virus.
19837
Increased hypersensitivity induced in tobacco by systemic infection by potato virus Y.
23123

HYPERTENSION
Imidocarbonates. Patent 3,401,201.
16967
The blood pressure in canine interstitial nephrites.
19153
Action of noradrenaline and adrenaline on the embryonic circulation of the chicken.
19961

HYPERTHYROIDISM
The effects of hypo- and hyperthyroidism on the testes and anterior pituitary glands of cockerels.
17532

HYPHAE
Interpretation of nuclear division figures in vegetative hyphae of fungi.
17669
An electron microscope study of intravacuolar bodies in the uredia of wheat stem rust and in hyphae of other fungi.
22228

HYPHANTRIA CUNEA
Electrophoretic separation of the hemolymph proteins in the fall webworm, Hyphantria cunea, infected with a nuclear-polyhedrosis virus.
13856
Study on spiders (particularly referring to grass-spiders) to prey upon fall-web worms (Hyphantria cunea Drury).
14215
Spiders associated with the fall webworm, Hyphantria cunea (Lepidopterai Arctiidae).
14282
The fall webworm are infestations limited by natural control.
18620
Electrophoretic studies of insect esterases.
19545
Biology of Hyphantria cunea Drury (Lepidoptera: Arctiidae) in, Japan. III. Photoperiodic induction of diapause in relation to the seasonal life cycle.
20156
The fall webworm, Hyphantria cunea, its distribution and natural enemies: A world list (Lepidoptera: Arctiidae).
21750

HYPNORM
Death of a dog under sedation.
20858

HYPOCALCEMIA
Hypocalcaemia and hypermagneshaemia in lactating Awassi ewes.
14505

HYPOCOTYLS
Host-parasite relationship in safflower resistant and susceptible to Phytophthora root rot.
18852
Effect of root temperature on hypocotyls of cotton seedlings as a source of nutrition for Rhizoctonia solani.
19278

HYPODERMA
Warble fly larvae control study.
14166
Cattle grub control with Bayer 21-199 in the Everglades.
15513
Effect of ronnel mineral block (Rid-Exy) on control of cattle grubs and weight gain of beef cattle.
16802
Further evaluation of animal systemic insecticides, 1967.
18347
Residues of Gardona in the body tissues of cattle sprayed to control Hypoderma spp.
23395

HYPODERMA BOVIS
Cattle grub control by dust bag application of coumaphos in summer.
13979
Aberrant Hypoderma bovis infection in a cow.
14579
Comparative efficiency of coumaphos applications on various body areas by brush-on or pour-on for the control of cattle grubs.
15505
Extermination of cattle grubs (Hypoderma spp.) on a regional basis.
16799
On the identity of the Greek parasitic insect oistros.
22285
Evaluation of shell SD 8447, SD 8448, and SD 8436 as candidate systemic insecticides for control of common and northern cattle grubs.
23357

HYPODERMA LINEATUM
Cattle grub control by dust bag application of coumaphos in summer.
13979
Comparative efficiency of coumaphos applications on various body areas by brush-on or pour-on for the control of cattle grubs.
15505
Extermination of cattle grubs (Hypoderma spp.) on a regional basis.
16799
Efficacy of homologous antigens and coumaphos. Comparative effects against the cattle grubs Hypoderma spp., and a discussion of coumaphos toxicity.
21460
Evaluation of shell SD 8447, SD 8448, and SD 8436 as candidate systemic insecticides for control of common and northern cattle grubs.
23357

HYPODERMIC INJECTIONS
Notice of filing of petition for food additive Oxytetracycline.
16073

HYPOMAGNESEMIA
Availability and utilization of magnesium from dolomitic limestone and magnesium oxide in steers.
14511

Hypomagnesemic tetany and magnesium homeostasis in the adult bovine.
21354

HYPOXANTHINE
Accumulation of hypoxanthine in potato leaves and its effect on spore germination in Phytophthora infestans.
21838

HYPOXYLON
Chemical treatment of Hypoxylon cankers on aspen. (Abstract).
17959

HYPOXYLON PRUINATUM
Water stress in relation to initiation and development of Hydoxylon canker of aspen. (Abstract).
15859

Ejection and dissemination of ascospores of Hypoxylon pruinatum.
16578

Ejection and dissemination of ascospores of Hypoxylon pruinatum.
22210

HYPSOPERINE
Control of endo- and ecto-parasitic nematodes in turf by hot-water treatments.
18139

HYPSOPERINE OTTERSONI
Biology of the pseudo root knot nematode Hypsoperine ottersoni.
19112

HYSTERONEURA SETARIAE
Yet another aphid to ravage our grain crops.
19901

Yet another aphid to ravage our grain crops.
23203

ICE
Reduction of peach decays by hydrocooling with chemical solutions and chemically treated ice.
15188

ICERYA
Interference with the biological control of cottony-cushion scale by insecticides and attempts to re-establish a favorable natural balance.
15224

ICERYA AEGYPTIACA
Salivary chromosome-like structure of a Coccid chromosome.
17903

ICERYA PURCHASI
Beginning of embryonic development within the maternal organism of Icerya purchasi Mask.
22445

ICHNEUMONIDAE
A new Ateleute from the United States (Hymenoptera: Ichneumonidae).
13853

A new genus of the Trachysphyrus group from southern Brazil (Hymenoptera, Ichneumonidae).
14106

Bionomics of Grotea californica Cresson, with a description of the larva and pupa.
14114

Occurrence of Bracon gelechiae Ashmead as a parasite of potato tuber moth, Gnorimoschema operculella (Zeller) in the field in Mysore State and Assam and its other hosts recorded in India.
14448

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm.
16418

Indian species of Listrognathus Tschek (Hymenoptera: Ichneumonidae).
17023

Stimulation of yolk deposition in an ichneumonid parasitoid by feeding synthetic juvenile hormone.
18588

New Canadian Cryptinae (Ichneumonidae: Hymenoptera).
20236

On the composition of some tribes of the subfamily Pimplinae (Hymenoptera, Ichneumonidae).
20276

Parasitism of the oriental fruit moth, Grapholitha molesta (Busck) (Lepidoptera: Tortricidae) in Ontario, 1956-1965.
20336

Hadrodactylus branderi sp. n. (Hym., Ichneumonidae) from Finland.
21611

On the systematic position of ichneumonids of the genera Odinophora Forster and Exetastes Gravenhorst and descriptions of new species (Hymenoptera, Ichneumonidae).
21638

Ichneumonological (Hym.) reports from Finland I.
21689

Seasonal and zonal distribution of Ichneumonidae (Hym.) on a subarctic fell during a calamity of the geometrid moth Oporinia autumnata (Bkh.) on birches.
21986

A revision of the genus Periope Haliday with description of a new species (Hymenoptera, Ichneumonidae).
22297

Contribution to the taxonomy of the Tersilochinids (Hym., Ichneumonidae).
22878

Revision of the types of Ichneumonid genera (Hymenoptera) described by Zetterstedt.
22879

ICHORONYSSUS
A new species of the gamasid mite Ichoronyssus mirabilis Senotrusova et Tagiltsev sp. n. (Acariformes, Gamasoidea) from whiskered millers of the Zaisan hollow.
17769

ICTALURUS MELAS
Inhibition of electron transport enzymes and cholinesterases by endrin.
16188

ILEX
Control of plant-nematodes and weeds in holly nurseries.
15257

ILEX VOMITORIA
A new small multiple tree technique for assessing the effects of herbicides on woody plants.
22585

ILLUSTRATIONS
Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States.
17036

Some illustrations of microsculpture in the Hymenoptera.
17101

IMIDAN
Control of chicken body, shaft, and wing lice on laying hens by self-treatment with insecticide dusts and granules.
14580

Note on extraction of a polar insecticide (Imidan) from milk.
15551

Imidan insecticide residues (imidan and imidoxon): Their persistence in corn, grass, and soybeans.
17645

Metabolism of carbonyl-C14-labeled imidan, N-(mercaptomethyl)phthalimide-S-(O,O-dimethylphosphorodithioate), in rats and cockroaches.
20656

Red legged earth mite and pea mite revised control recommendation.
22539

IMIDAZOLE
The antimetabolite Imidazole as a pesticide. (abstract).
20415

IMIDAZOLES
Herbicidal 1-substituted 2,4,5-tribromoimidazoles. Patent 3,423,420.
22560

IMIDES
Chemicals tested as space repellents for yellow-fever mosquitoes. II. carbanilates, benzamides, aliphatic amides, and imides.
14915

Chemical constitution and fungitoxicity of imides and their imide-SCCl3 compounds.
15905

IMMUNITY
Partial resistance of calves to Cooperia punctata following subcutaneous inoculation of homologous infective larvae.
14494

Duration of acquired immunity of the chicken to Eimeria tenella infection.
14530

The possible existence of two strains of Ostertagia ostertagi.
14581

Immunity of dogs to Ancylostoma braziliense infection following vaccination with X-irradiated Ancylostoma caninum larvae.
14597

Immune response to a plant virus bound or serologically precipitated in agar.
14999

Studies on avian encephalomyelitis. I The use of a serum -neutralization test in the detection of immunity levels.
15334

Studies on avian encephalomyelitis. II Immune responses to vaccination procedures.
15335

Studies on avian encephalomyelitis. III Immune response to beta-propiolactone inactivated virus.
15336

The effect of parental immunity and age on the response to infectious laryngotracheitis vaccination.
15346

A pasture trial using 2 immunizing doses of a parasitic bronchitis vaccine.
15391

Inheritance of resistance to organophosphorus acaricides in the cattle tick, Boophilus microplus.
15815

Rice water weevil resistance to aldrin in Texas.
16366

Effect of irrigation and submersion in water on pupal survival of the bollworm.
16483

Effect of trace-elements bound to superphosphates on the resistance of potato tubers to Phytophthora infestans (Mont.) de Bary.
16643

Biophysical and biochemical studies on the nature of resistance of pineapples to the oriental fruit fly.
16710

Risk of resistance to chloramphenicol.
16761

A new anti-coccidial drug (M and B 15,497): activity studies against laboratory and field strains of Eimeria.
16789

Immune response of steers inoculated with chemically-treated foot-and-mouth disease virus preparations previously studied in swine.
16819

Bactericidal antibody studies in maternal serum, colostrum, and newborn serum of the pig.
16856

Studies on immunity of calves to Dictyocaulus viviparus reinfection. II. Relationship between the age of calves and the dose of larvae causing clinical and lethal course of dictyocaulosis.
16888

Studies on immunity of calves to Dictyocaulus viviparus reinfection. I. Immunization with single and double doses of normal or irradiated larvae.
16889

Multiple drug resistance.
16965

A mechanism of resistance to organophosphorus acaricides in a strain of the cattle tick Boophilus microplus.
16993

Insecticides in dry sugar baits against two strains of house flies.
17072

Insect oxidases and detoxication of carbamate insecticides.
17103

Resistance patterns and fecundity of house flies (Musca domestica L.) selected with diazinon, dimetilan, and combinations of the two insecticides.
17105

Variations in growth of planthoppers and leafhoppers amoung varieties of Japanese and foreign rice plants. Transl. 16904.
17131

Carbamate cross resistance in a carbaryl-resistant strain of the German cockroach.
17162

Genetics of insect vectors of disease. RA639.W7.
17246

Diallel analyses of the inheritance of resistance in cotton, Gossypium hirsutum L: to races of Xanthomonas malvacearum (E.F.SM.) Dowson.
17290

The inheritance of resistance to stem rust races 56 and 15B-1L (Can.) in the wheat varieties Hope and H-44.
17311

The association of free amino acids of cotton leaves with resistance to xanthomonas malvacearum caused by the B4 gene and the influence of nitrogen and potassium nutrition.
17314

The electrophoresis and histochemical localization of certain respiratory ensymes of tobacco infected by Phytophthora parasitica var. Nicotianae.
17356

Fall armyworm resistance in pearl millet.
17390

Establishment of a nursery for evaluation of resistance of strains of wheat to the wheat stem sawfly.
17398

Compared tests on the resistance of various tropical types of wood to worm-attack on the coast of West Africa. (TT 8544) Transl. 16896.
17464

Resistance of cattle to cattle tick, Boophilus microplus. I. The development of resistance to experimental infestation.
17473

Studies on the acquired resistance of sheep to Dictyocaulus filaria (Rudolphi, 1809) Railliet and Henry, 1907.
17529

Cellular immunity of mice infected with Listeria monocytogenes in diffusion chambers.
17559

Susceptibility of cultured mammalian cells to infection with virulent and modified hog cholera viruses.
17564

Experimental Trichostrongylus colubriformis infection in adult goats.
17602

Heterologous immunity in avian hosts infected with Plasmodium relictum and Plasmodium lophurae (Sporozoa: Haemosporina).
17615

Escherichia coli in enteric disease of swine: Observations on herd resistance.
17619

Acquired immunity to Fasciola hepatica in the laboratory white mouse.
17627

Laboratory investigations of resistance to warfarin of Rattus norvegicus Berk. in Montgomeryshire and Shropshire.
17655

Results concerning humoral immunity of Pyrrhocoris apterus I. and Galleria mellonella F.
17842

Cellular immune responses of insects to foreign tissue implants.
17871

The effect of blood-feeding on the longevity of radiationresistant yellow-fever mosquitoes.
17885

Relationships among races of Pyricularia oryzae. (Abstract.
18016

Lack of cytoplasmic inheritance of alfalfa resistance to the spotted alfalfa aphid.
18099

Methyl mercury compounds in fish.
18199

One-year immunity in dogs vaccinated with high egg-passage rabies virus grown on established dog kidney cell line.
18222

Immunochemical and biochemical interrelationship of Streptococcus agalactiae to the bovine.
18238

Duck plague.
18263

The epizootiological importance of foot-and-mouth disease carriers. I. Experimentally produced foot-and-mouth disease carriers in susceptible and immune cattle.
18326

Experimental bluetongue disease in white-tailed deer.
18336

Stained monolayer test: a color test in disposable plastic trays for titrating transmissible gastroenteritis virus and neutralizing antibodies.
18343

Resistance of cattle to the tick Boophilus microplus (Canestrini). II. Stages of the life cycle of the parasite against which resistance is manifest.
18351

Quantitative studies on the kinetics of establishment and expulsion of intestinal nematode populations in susceptible and immune hosts. Nippostrongylus brasiliensis in the rat.
18364

A method for evaluation of vaccines containing pasteurella multocida.
18380

Estimation of radiation resistance values of microorganisms in food products.
18383

Insecticide residues in pest control.
18401

Changes in the heterologous reactions of antisera against members of the potato virus X group during the immune response.
18856

Immunofluorescent staining as a means of identifying mycelium of rhizoctonia solani on slides used in soil ecological studies. (Abstract).
18877

Bedsonia abortion of sheep. III. Immunological studies.
19205

Clinico-epidemiological and immunological examination of persons, vaccinated and nonvaccinated against brucellosis, subject to infection hazard.
19258

Effect of DDT on photosynthesis in certain varieties of barley.
19281

Efficacy of transmission of fire blight resistance in Pyrus.
19835

Variants of Plasmodium berghei resistant to passive transfer of immune serum.
19948

Antigenic analysis of water forms of Leptospira.
19967

Bactericidal action of fresh rabbit blood agianst Brucella abortus.
19973

The influence of interferon on the dynamics of antibody formation in chicken in pseudoplaque of fowl.
19983

Coccidiosis in wild rabbits, Oryctolagus cuniculus (L.), at four sites in different climatic regions in Eastern Australia. II. The relationship of oocyst output to climate and to some aspects of the rabbit's physiology.
20006

Effect of grizin and vitamins A and E on natural immunity in chickens.
20009

Effects of stress upon acquired immunity to the dwarf tapeworm, Hymenolepis nana.
20057

A new acaricide to control phosphate ester resistent spider mites through resistance--induced enhanced susceptibility.
20434

A new cell line of calf kidney and its susceptibility to viruses.
20724

Adjuvant vaccines prepared from killed Brucella abortus. strain 45/20.
20750

Rinderpest protection in cattle by measles virus. Application in calves with passive immunity from material antibodies.
20769

Lyophilized anti sheep-pox, with sensitized virus.
20773

Some studies of infectious bovine rhinotracheitis (IBR) virus infection in calves.
20778

Vaccination against leptospirosis: Immunogenicity of viable, avirulent Leptospira pomona in hamsters, swine, and cattle.
20787

Studies on immunity of calves to Dictyocaulus viviparus reinfection. Ii. Relationship between the age of calves and the dose of larvae causing clinical and lethal course of dictyocaulosis.
20834

Studies on immunity of calves to Dictyocaulus viviparus reinfection. I. Immunization with single and double doses of normal or irradiated larvae.
20835

A new antifungal substance produced by Myrothecium.
20930

Inheritance of ether resistance in Drosophila melanogaster.
21043

Chloroquine resistance in Plasmodium falciparum malaria on the Pacific coast of Colombia.
21050

Observations on the vapour phase activity of some foliage fungicides.
21129

Susceptibility of eighteen potato varieties to Meloidogyne hapla.
21209

In vitro agglutination of bovine erythrocytes infected with Babesia argentina.
21246

Local immunity in the mammary gland following the infusion of a staphylococcal cell-toxoid vaccine. 21281

Duration of immunity against Newcastle disease in birds vaccinated with BPL inactivated vaccine. 21316

Effect of living rev. I. Vaccine in producing long-term immunity against Brucella melitensis infection in sheep in Iran. 21335

Clinical and serological responses of the calf inoculated in various ways (genital, ocular, pulmonary) with a strain of herpesvirus isolated from a pneumonia lesion of a calf. 21338

Immunofluorescence as a diagnostic procedure in lungworm disease of the cat. 21349

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Resistance to re-exposure with homologous and heterologous Moraxella bovis. 21357

The results of applying the chinese strain of the lapinized swine fever virus without the specific serum for vaccination of pigs in industrial fattening houses. 21360

Comparative fluorescence-immunological and cytopathological studies with various virus strains of the mucosal disease of cattle. 21366

The sticker sarcoma. 21380

Immunologic properties of canine transmissible venereal sarcoma. 21415

Studies on re-infestation of the cat with Aclurostrongylus abstrusus. 21471

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate; correction. 21502

Quantitation of susceptibility of swine to infection with Pasteurella tularensis. 22053

Marek's disease. 22055

Experimental immunity to tuberculosis in rabbits immunized with BCG microsomal fraction. 22060

Breeding disease-resistant domestic animals. 22094

Influence of egg albumin-induced leukopenia on experimental Aerobacter aerogenes mastitis and on natural infection of mammary gland with coagulase-negative Staphylococcus in a cow. 22096

The role of diet and the reticuloendothelial system in the response of rats to Salmonella typhimurium infection. 22121

Passive hemolytic antibody response of primed, partially resistant mice to heat-killed Salmonella typhimurium vaccine. 22128

Blood serum factors associated with erythrophagocytosis in calves with anaplasmosis. 22131

Some considerations on the name bovine malaria 22133

Influence of litter size, age, variation, and selective breeding of mice on susceptibility to foot-and-mouth disease virus. 22640

Specificity of the anamnestic response produced by Listeria monocytogenes or Mycobacterium tuberculosis to challenge with Listeria monocytogenes. 22644

Specificity of acquired resistance produced by immunization with Listeria monocytogenes and listeria fractions. 22645

Effects of chronic residence on size and size distribution of plaques of type A foot-and-mouth disease virus in primary calf kidney cell cultures. 22652

Comparison of the resistance of different-aged pheasants to eastern encephalitis virus from different sources. 22664

On immunoprecipitation in swine plague. 22665

Effect of antibiotic therapy on experimental leptospirosis infection and development of acquired resistance in guinea pigs. 22669

Studies on the development of a live vaccine against equine rhinopneumonitis (abortion of mares). 22692

Experimental contributions to the knowledge of dermatitis pustulosa of sheep. V. Investigations into the development of immunity to the virus of dermatitis pustulosa at various places of the surface of the body. 22717

Blood transfusions during patent bovine anaplasmosis. 22746

Further investigations of the question of latent rabies infection in foxes. 22748

Active immunity against Trichostrongylus axei in sheep and rabbits. 22774

Immunoreactions of insects. I. Lysozyme as a fundamental antibacterial factor in humoral protective mechanisms of insects. 23014

Summary of recent abstracts. VI. Plague. 23087

Avian leucoses: 1966-1967. 23265

Animal concentrations and infection. 23289

Biological products for controlling animal diseases. 23291

The raising of animals and veterinary medicine. 23307

A study of the occurrence of secondary bacterial infections in store pigs affected with hog cholera with particular reference to intestinal bacteria. 23331

Immunoglobulin binding by the miracidia of Fasciola hepatica. 23370

IMMUNIZATION

The production of a basic immunity against pulp kidney disease. 13959

Partial resistance of calves to Cooperia punctata following subcutaneous inoculation of homologous infective larvae. 14494

Brucellosis reactors among vaccinated cattle. 14508

Simultaneous vaccination of cattle with contagious bovine pleuropneumonia and goat-adapted rinderpest vaccine. 14531

Resistance of cattle to Brucella abortus following vaccination at two and three months of age. 14541

Canine vaccination in a rural Ohio County. 14545

Immunogenic properties of babesial serum antigens. 14550

Immunity of dogs to Ancylostoma braziliense infection following vaccination with X-irradiated Ancylostoma caninum larvae. 14597

The interaction of potato viruses X and Y in inoculated tobacco leaves at various temperatures. 15051

Studies on an immunogenic agent against Brucella abortus. II. Prelimary studies of an immunologically active soluble agglutinogen. 15287

Inoculation of microbes into the intestinal tracts of small animals. 15298

A preliminary note on the use of an inactivated vaccine against equine pest. 15329

The effect of parental immunity and age on the response to infectious laryngotracheitis vaccination. 15346

Newcastle disease immunity in broilers and caponettes vaccinated with killed-virus and live-virus vaccines. 15349

A new method for the primary evaluation of anticoccidial activity. 15403

Contribution to the study of ovine listeriosis and immunoprophylaxis against the disease in France. 15414

Experimental inactivated-virus hog cholera vaccines' induction period of immunity. 15435

Response of birds to one intranasal vaccination with B-1 strain of Newcastle disease virus. 15449

Coexistence of infectious bronchitis and infectious laryngotracheitis. 15451

Avian encephalomyelitis immunization with inactivated virus. 15459

Immune response to sheep erythrocytes with cytoxan and hybaroxia. 15465

Immunisation of sheep with multi-component clostridial vaccines. 15469

Experience with fowl pox vaccination. 15470

Studies on infection and immunity with the lungworm, Dictyocaulas viviparus (Bloch). i. active immunization of guinea pigs and rabbits. 15488

Bovine babesiosis. the passive immunization of calves against Babesia argentina with special reference to the role of complement fixing antibodies. 15517

Flax rust resistance induced by a previous inoculation. (Abstract). 15902

Effects of early and late inoculations of Ulmus americana with Ceratocystis ulmi on the relative concentrations of nitrogenous compounds in the xylem sap. (Abstract). 15947

Propagation and cytopathic effect of Myxovirus Yucaipa in chicken kidney cell culture. 16025

Methionine as a precursor of methyl sulfide in cows' milk. 16190

A genetic study of leaf rust resistance in wheat. 16623

A quantitative local lesion bioassay for Corynebacterium michganense. 16624

Survival of root-infecting fungi in soil. VI. Effect of amendments on bean root rot caused by Thielaviopsis basicola and on inoculum density of the causal organism. 16653

Comparative susceptibility of large and small spruce roots to Polyporus tomentosus. 16698

Experimental infection of sheep and goats with attenuated and virulent strains of rinderpest virus. 16748

Bovine rhinoviruses. 16752

Comments on complications following vaccination of cattle against bovine respiratory diseases. 16754

Present status of immunization procedures for infectious bovine rhinotracheitis. 16757

Pasteurellae in bovine respiratory disease. 16762

Bovine adenoviruses. 16765

Present status of immunization procedures for pasteurellosis. 16770

A note on experimental rabies in the donkey. 16772

Comments on control and management of respiratory diseases in beef cattle. 16775

Comments on immunization procedures for pasteurellosis. 16778

Comments on complications following vaccination against bovine respiratory diseases. 16779

Management of respiratory diseases in dairy cattle. 16781

Comments on vaccination for bovine viral diarrhea-mucosal disease. 16785

Comments on management of respiratory diseases in dairy cattle. 16790

Comments on bovine viral diarrhea-mucosal disease. 16791

Comments on combination vaccines for bovine respiratory diseases. 16793

Antibody response and protection induced by immunization with smooth and rough strains in experimental Salmonellosis. 16798

Comments on combination vaccines for bovine respiratory diseases. 16800

Comments on bovine parainfluenza-3 immunization procedures. 16804

Reoviruses. 16806

Infectious bronchitis in laying fowls; its effect upon egg production and subsequent egg quality. 16814

Foot-and-mouth disease in swine: response to inactivated vaccines. 16818

Preliminary investigation of methods for evaluating inactivated vaccines for infectious bronchitis virus. 16821

Comments on bovine rhinoviruses. 16824

Comments on bovine adenoviruses. 16825

Role of genetic factors and fowl pox virus in parthenogenesis in turkey eggs. 16831

Comments on bovine parainfluenza-3 immunization procedures. 16834

Comments on complications that arise after vaccination against bovine respiratory diseases. 16835

Comments on combination vaccines for bovine respiratory diseases. 16836

Potency evaluation of vaccines used against bovine respiratory diseases. 16838

Malignant catarrhal fever. 16840

Complications following vaccination of cattle against infectious bovine rhinotracheitis, bovine viral diarrhea-mucosal disease, and parainfluenza type 3. 16841

Comments on the role of natural antibody in immunologic competence. 16843

Comments on immunization procedures for pasteurellosis. 16850

Comments on bovine viral diarrhea-mucosal disease. 16851

Laboratory evaluation of bovine respiratory disease vaccines for safety. 16852

Bactericidal antibody studies in maternal serum, colostrum, and newborn serum of the pig. 16856

Basic principles of immunity in cattle. 16858

The natural history of bovine myxovirus parainfluenza-3. 16860

Infectious bovine rhinotracheitis. 16862

Comments on immunity in cattle. 16864

Studies on the biology and immunology of Ascaris suum in mice. 16877

Acute toxicity of n-alpha-olefin sulfunates. 16912

Onchocerca-Simulium complexes. V. The intake and subsequent fate of microfilariae of a Guatemalan strain of Onchocerca volvulus in forest and Sudan-savanna forms of West African Simulium damnosum. 17099

Application of immunodiffusion methods to the antigenic analysis of dengue viruses. 17242

Quantitative analysis of the soluble antigens of biotypes of Brucella abortus. 17476

Histologic changes and inclusion bodies in chickens inoculated with an ornithosis agent. 17490

Early response of cattle and swine to inactivated foot-andmouth disease vaccine. 17513

Marek's disease. II. Propagation of the Connecticut-A isolate in cell cultures. 17526

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: serologic and intradermal tests. 17546

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of dehydrogenase activities. 17547

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of hydrolase activities. 17548

Interactions of sera and leucocytes in vitro on cells transformed by Rous sarcoma virus. (Abstract). 17567

Theileriasis in Texas white-tailed deer. 17569

Transmissible enteritis of turkeys-disease reproduction. 17579

Enzootic pneumonia of sheep in the Mafeking district. 17583

Immunization with native, incriminated wasp venom in sting allergy: 12-yr study of safety and effectiveness of a single visit, yearly course. (Abstract). 17660

Avirulent mutant of a strain of ornithosis agent obtained by gamma irradiation. 18195

Further studies on the use of ERA rabies vaccine in domestic animals. 18201

Hog cholera: Safety and protection studies with photodynamically inactivated hog cholera virus. 18232

Artificially induced immunity to enzootic abortion in ewes. 18246

Serologic response of swine to Escherichia coli antigens. 18273

Foot-and-mouth disease in swine. I. The immune response of swine to chemically-treated and non-treated foot-and-mouth disease virus. 18288

Immunization of foxes with inactivated wirus rabies vaccine. 18315

A method for evaluation of vaccines containing pasteurella multocida. 18380

Changes in the heterologous reactions of antisera against members of the potato virus X group during the immune response. 18856

Production of plant virus antiserum in a horse. 19150

Effect of immunization on serum protein levels in the horse. 19166

Studies with hinde attenuated African swine fever virus. 19167

Immunization against equine viral arteritis using modified live virus propagated in cell cultures of rabbit kidney. 19172

Immunologic studies on three ram epididymitis bacterins. 19206

Growth, morphogenesis, and virulence of Candida albicans after oral inoculation in the germ-free and conventional chick. 19944

Biological products for controlling animal diseases--how to obtain IVRI products. 19964

Immunogenic effect of ultraviolet treated larvae of Nippostrongylus brasiliensis in rats. 19975

Bovine babesiosis: the immunization of cattle with killed Babesia argentina. 19985

Avian vaccines against rabies. 19993

Immunization experiments against bovine viral diarrhea. II. Active immunization. 20002

Immunization experiments against bovine viral diarrhea. I. The production and application of hyperimmune serum. 20003

Active immunization of rats with a cell-free extract of the erythrocytic parasites of Plasmodium berghei. 20018

A copper-molybdenum complex: its effects and movement in the piglet and sheep. 20333

Immunization against Ascaris suum Ascaris lumbricoides, and Trichinella spiralis. II. Peroral immunization against Ascaris summ by means of live adult worms, 3rd and 4th stage larvae, and with fluid in which adult worms had been maintained.
20655

Effects of vaccinations with strain 19 Brucella abortus, triple bacterin, or endotoxins on serum alkaline phosphatase in dairy calves.
20657

Infectivity stability of Newcastle diseases virus vaccine pD-113 under body heat.
20672

Enzootic pneumonia of pigs: Complement-fixation tests for the detection of mycoplasma antibodies in the serum of immunized rabbits and infected swine.
20675

Duration of rinderpest virus excretion in cattle immunized with an inactivated vaccine.
20676

Comments on infectious bovine rhinotracheitis immunization.
20679

Panleucopenia.
20686

Some considerations on the strain P5A57 of the living virus attending the porcine disease.
20687

Present status of immunization procedures for infectious bovine rhinotracheitis.
20690

Comments on infectious bovine rhinotracheitis immunization.
20694

Johne's disease in cattle and vaccination against this disease.
20716

Transfer agent of immunity. I. Immune ribonucleic acid which induces antibody formation to Salmonella flagella.
20748

Cutaneous and penile bovine fibropapillomatosis and its control.
20761

Preliminary studies on living culture and inactivated vaccines against contagious bovine pleuropneumonia.
20783

Vaccination against leptospirosis: Immunogenicity of viable, avirulent Leptospira pomona in hamsters, swine, and cattle.
20787

Combined inoculation of swine against Aujesky's disease and plague, and Aujesky's disease and erysipelas with live vaccines.
20802

Transmission of attenuated and virulent bluetongue virus with Culicoides variipennis infected orally via sheep.
20807

Alfalfa mosaic virus: Comparative investigation of top component a and bottom component by means of fingerprinting and immunological techniques.
20903

The development of Botrytis cinerea on cut flowers of carnation.
21067

The adaptation of tomato mosaic virus to resistant tomato plants.
21113

Some effects of cultural treatments on virus diseases of cultivated mushroom, Agaricus bisporus.
21135

Inheritance of resistance in maize to the virus of streak disease in East Africa.
21160

Resistance in maize to a third East African race of Puccinia polysora Underw.
21161

The isolation and identification of rhubarb viruses occurring in Britain.
21164

Studies on the transmission of groundnut rosette virus by Aphis craccivora Koch.
21167

The development of the capacity for systemic anaphylactic shock in the chicken.
21305

Duration of immunity against Newcastle disease in birds vaccinated with BPL inactivated vaccine.
21316

On immunoprecipitation in swine plague. III Precipitation electrophoresis as an accelerated method for the distinguishing of sera of healthy pigs and pigs affected with swine plague.
21350

The results of applying the chinese strain of the lapinized swine fever virus without the specific serum for vaccination of pigs in industrial fattening houses.
21360

Immunization of cattle against rabies with the Kelev strain vaccine.
21363

Serological responses of horses immunized with live attenuated African horse sickness vaccine.
21398

The use of heat to control the rotting of Cox's Orange Pippin apples by Gloeosporium spp.
21528

Protection against Pseudomonas aeruginosa infection by immunisation with fractions of culture filtrates of Ps. aeruginosa.
21784

Rate of movement of barley yellow dwarf virus out of inoculated cereal leaves.
21854

New Zealand veterinarians study animal diseases in Thailand.
22056

African swine fever. Application of immunofluorescence to the study of tissue cultures.
22065

Eradicating and controlling brucellosis in sheep.
22068

Vaccination against Johne's disease and the creation of carriers.
22077

The effect of Vibrio fetus vaccination on the breeding efficiency of cows bred to Vibrio fetus-infected bulls.
22084

Contagious pleuro-pneumonia of goats.
22095

On the preparation of immune globulins against distemper and infectious hepatitis of dogs.
22098

Newcastle disease in England and Wales control by vaccination--the first year.
22111

Isolation of the group-specific polysaccharide of Mycobacterium tuberculosis.
22130

Probelm of avian leukosis in Lahore.
22134

Vaccination against leptospirosis: Immunogenicity of viable, avirulent Leptospira pomona in hamsters, swine, and cattle.
22137

Vaccination of congenitally-immune chicks against Newcastle disease virus.
22139

Diffusion chambers for inducing immunity to Trichinella spiralis in mice.
22161

Immunological unresponsiveness to helminth parasites: I. The pattern of Nippostrongylus brasiliensis infection in young rats.
22166

Results of continuous low-level inoculations with Eimeria bovis in calves.
22655

Immunization of horses against African horsesickness with attenuated neurotropic viral strains propagated in chicken embryos.
22662

Encephalitis in horses in Hillsborough County, Florida, 1964.
22671

Manufacture of a live canine hepatitis vaccine.
22672

Studies on the development of a live vaccine against equine rhinopneumonitis (abortion of mares).
22692

Entero-toxaemia of sheep and lambs.
22708

Immunologic response of fowl to Mycoplasma gallisepticum and its relationship to latent infection.
22710

Reactions of sheep to cell-culture-modified foot-and-mouth disease virus.
22723

Immunisation with staphylococcal cell walls against mastitis.
22728

Fowl pox--a costly disease cheaply prevented.
22730

Studies on the problems associated with the activation of latent or inapparent salmonelloses by means of vaccination as well as on the possibility of simultaneous vaccination against salmonellosis and swine fever.
22747

Further studies on the duration of the immunity produced in goats by the Rev. 1 Brucella melitensis vaccine.
23261

The morphology of the challenge in certain organs of pigs vaccinated and revaccinated with KVV against hog chloera.
23263

Reaction of young adult sheep to vaccination and infection with myxovirus parainfluenza 3.
23284

Animal concentrations and infection.
23289

The study of some biological properties of the Chinese lapinized virus of hog cholera.
23300

Vaccination in the feedlot.
23304

Immunization against Aujeszky's disease with live vaccine. 4. The occurrence of Aujeszky's disease in pig herds vaccinated with BUK vaccine.
23334

The estimation of complement-fixing antibodies in bovine dictyocaulosis by means of an antigen prepared from Ascaris suum.
23339

A study of the properties of the Chinese lapinized hog cholera virus. II. Immunogenity of the virus.
23350

Immunization of laboratory animals with the soil nematode Rhabditis axei (Cobbold 1884) against subsequent invasion by Ascaris suum (Goeze 1782).
23360

IMMUNOCHEMISTRY

Distribution of wound-tumor virus antigens in internal organs of an insect vector.
15182

The antigenic structure of virulent and avirulent strains of Erysipelothrix rhusiopathiae. II. immunochemic and serologic investigations.
15307

Factors affecting the production and detection of ornthosis antibodies in infected turkeys.
15425

Protein and isozyme patterns of sweet potatoes as related to acquired immunity.
15650

Quantitative immunochemical and electrophoretic comparisons of glycerolphosphate dehydrogenases in several insects.
15748

Immunoradioautographic evidence for the synthesis of TMV antigen in the nucleus. (Abstract). 15895

Immunochemical analysis of the origin of a sex-specific accumulated blood protein in female houseflies. 16364

A mechanism of resistance to organophosphorus acaricides in a strain of the cattle tick Boophilus microplus. 16993

Immunological homology between crystal and spore protein of Bacillus thuringiensis. 19590

Biochemical homology between crystal and spore protein of Bacillus thuringiensis. 19726

Immunochemical analysis of serologically active lipids of Mycoplasma pneumoniae. 19946

Immunochemical studies on cell-wall polysaccharide of rough mutants of Salmonella typhimurium. 19982

Heterogeneity of antibody response to Salmonella lipopolysaccharide measured by passive hemagglutination and hemolysis in mice. 19997

Immunological specificity of soluble polysaccharides of Candida albicans. 20705

Transfer agent of immunity. I. Immune ribonucleic acid which induces antibody formation to Salmonella flagella. 20748

Studies on the site of replication of vesicular stomatitis virus. 22648

Immunoreactions of insects. I. Lysozyme as a fundamental antibacterial factor in humoral protective mechanisms of insects. 23014

Immunochemical studies of foot-and-mouth disease. III. Acridine orange staining of agar gel precipitin reactions. 23268

Immunochemical charactcristics of two geographic varieties of Pasteurella tularensis. 23326

Proof of the virus of hog cholera in a tissue culture by means of immunofluorescence. 23351

IMMUNODIAGNOSIS

Immunodiffusion tests with three isolates of barley yellow dwarf virus. (Abstract). 16533

The prevalence of canine toxoplasmosis in Niigata Prefecture, Japan with special reference to isolation of Toxoplasma from diaphragm muscle samples. 17539

Characterization of bovine viral diarrhea viruses by their interactions with susceptible host cells. 18243

Application of a fluorescent-antibody technique for the detection of Mycoplasma mycoides antigen and antibody. 19989

Indirect fluorescent antibody test for the serodiagnosis of Onchocerciasis. 20015

Sanitation in poultry husbandry. 20666

Antibody to rhinovirus in human sera. I. Standardization of neutralization test. 22076

Antibody to rhinovirus in human sera. II. Heterotypic responses. 22082

Investigations concerning the immunobiological diagnosis of helminthiasis by means of simultaneous intradermal tests with several different parasite antigens. 22767

IMMUNOFLUORESCENCE

Pathology a-d immunofluorescence studies of bovine mycoplasma mastitis. 18267

IMMUNOLOGY

Detection of bacterial contaminants in live virus poultry vaccines. 15384

A variant type of infectious bronchitis virus in a commercial vaccine. 15448

Response of birds to one intranasal vaccination with B-1 strain of Newcastle disease virus. 15449

Immunological relationships between the parasite Cardiochiles nigriceps Vierick and certain Heliothis species. 16420

Antigenic variations in isolates of infectious bronchitis virus. 16751

Immunological response of the pig as affected by amino acid nutrition. 16815

Eighth seminar on trypanosomiasis, abstract of papers. 16986

A resistance mechanism in organophosphorus-resistant strains of sheep blowfly (Lucilia cuprina). 16994

An immunological study of the antigens of Anthonomus grandis grandis and Anthonomus grandis thurberiae. 17114

Electron microscopy of immune disruption of leptospires: Action of complement and lysozyme. 17483

Immunogenicity of cell walls from various Mycobacteria against airborne tuberculosis in mice. 17493

An abortive infection produced by measles virus. (Abstract). 17494

A simple method for the serum neutralization with Japanese encephalitis (JE) virus utilizing plaque inhibition by agar-diffused antibody. 17523

Studies on selection in natural and experimental populations of Drosophila pseudoobscura. 17781

Effect of aflatoxin on serum protein fractions of day-old ducklings. 18191

Antibody response to immunization in experimental Salmonellosis. 18269

Experimental transmission of two canine neoplasms: Lymphosarcoma and mast cell leukemia. 18310

Degradation of human serum proteins in the digestive tract of mosquitoes. 18706

Leptospira antibody formation by porcine foetuses. 19176

Investigations on Trichinellosis with special reference to epidemiology, immunodiagnosis, host-parasite relationships, clinical and therapeutic aspects. Final report. RC186.T815K6. 19186

Bedsonia abortion of sheep. III. Immunological studies. 19205

Immunological strain differences of bovine tick-borne fever agents. 19208

Interactions between macrophages of guinea pigs and salmonellae. I. Fate of Salmonella typhimurium within macrophages of normal guinea pigs. 19970

Varying virulence in rabbits infected with different filamentous types of Histoplasma capsulatum. 20700

Experimental mastitis in leukopenic cows: Immunologically induced neutropenia and response to intramammary inoculation of Aerobacter aerogenes. 20720

Diagnosis of transmissible gastroenteritis in pigs by means of immunofluorescence. 20765

Inhibition of Trichinella spiralis complement fixation by immune macroglobulin. 20788

Relationship between infecting dose, muscle parasitism, and antibody response in experimental trichinosis in rabbits. 20836

Detection of antibodies to Mycobacterium johnei by immunofluorescence. 21346

Comparative immunohistological studies. 21374

The time course of synthesis of virus-specific protein in pig-kidney cells after infection with the foot-and-mouth disease virus. 21405

Structure and antigenic properties of a staphylococcal L form. 22038

Immunologic and histologic studies of a hamster adenovirus tumor and a mouse mammary tumor. 22143

Comparative fluorescence-immunological and cytopathological studies with various virus strains of the mucosal disease of cattle. 22676

IMPATIENS PARVIFLORA

Impatiens parviflora DC.- a natural host of cabbage black ringspot and cucumber mosaic viruses. 14404

IMPORT CONTROL

Foreign quarantine notices. fruits and vegetables. okra from certain South American countries. 15991

Of mangoes and plums from Mexico and plums from Guatemala. 16103

Interceptions of plant diseases through the port of Bombay. 18014

Foreign quarantine notices. Fruits and vegetables. Administrative instructions prescribing method of treatment of oranges, grapefruit, citrons (citrus medica) and tangerines for Mediterranean fruit fly. 20842

Foreign quarantine notices. Citrus fruits. 20843

IN VITRO

Factors affecting Zn requirement of cattle. (Abstract). 21286

INCLUSION BODIES

Methods for staining capsular virus inclusion bodies typical of granuloses of insects. 14894

Effect of urea on the formation of parasporal inclusions in species and varieties of Bacillus cereus group. 14957

Inclusion bodies associated with sugar beet mosaic. 15056

Enteric lesion with intranuclear inclusion bodies in piglets. 16022

A note on experimental rabies in the donkey. 16772

Inclusions in adults of the European pine sawfly, Neodiprion sertifer (Geoff.). 17208

Histologic changes and inclusion bodies in chickens inoculated with an ornithosis agent. 17490

A study of the nuclear polyhedrosis virus on the beet armyworm, Spodoptera exigua (Hubner), with emphasis on stability, pathogenicity and histopathology. 17837

Transmission of salmon poisoning disease to dogs by Nanophyetus salmincola eggs. 18301

Observations on inclusion bodies in pig kidney tissue culture cells infected with porcine adenoviruses. 19170

Experimental herpes virus infection in young puppies. 19211

The technique of Faraco for the search of Negri bodies. 19994

Fine structure of inclusions formed by the aucuba strain of tobacco mosaic virus. 20581

Cytoplasmic inclusion body in the epidermal cells of normal and transparent silkworm larvae. 21044

A study of the stomatitis papulosa virus using cell cultures. 21375

The infection spectrum of the stomatitas papulosa virus. 21376

Fine structure of inclusions formed by the aucuba strain of tobacco mosaic virus. 21948

Cytopathologic changes and development of inclusion bodies in cultured cells infected with bluetongue virus. 22635

INCUBATION
Effect of incubation temperature on length and infectivity of potato virus X particles in four host species. 15068

The effect of incubation temperature on toxoplasma dye test titres. 23316

INCUBATORS
An improved incubator for insects for operation above room temperature and relative humidity. 17734

INDANS
Method of controlling weeds. Patent 3,393,994. 16007

Method of controlling weeds. Patent 3,393,995. 16009

INDEXES
Index to genera of pathogens listed in the Index of Plant Diseases in the United States. 1. 15073

Utah mosquitoes, their published history: Supplement II. 17045

INDEXING
Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece). 17058

Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece). 17059

1968-'69 buyer's guide for the agricultural chemicals trade. 17722

New Zealand Noctuidae (Lepidoptera): Summary of known host plants and a bibliography relevant to the biology of the group. 17749

A preliminary account of some data on Heteroptera taken at light in the New World Tropics. 18523

Some new and little-known species of Philornis (Diptera: Muscidae). 20185

The Tricorynus of Mexico (Coleoptera: Anobiidae). 20281

Philornis flies from Trindad (Diptera: Muscidae). 20331

Common names of herbicides. 21216

A code for characterising herbicides. 21217

Brucellosis. Changes in list of public stockyards. 21407

INDIA
India can feed itself. 15693

Indian species of Listrognathus Tschek (Hymenoptera: Ichneumonidae). 17023

INDICATOR PLANTS
Variability of seedling clones of citron as indicators of exocortis virus of citrus. 14997

A comparison of the electron microscope, microprecipitin tests, and indicator plants for the detection of potato viruses S, X, and Y. 16667

INDOLE COMPOUNDS
Factors affecting concentrations of dimethylated indolealkylamines in Phalaris tuberosa L. 16030

INDOLE-3-ACETALDEHYDE
The oxidation of indole-3-acetaldehyde and its 1-methyl derivative by horseradish peroxidase. 16941

Evidence for indolyl-3-acetaldehyde in tryptophane metabolism of Rhizobium. 17702

INDOLEACETIC ACID
The relation of growth regulators to the development of symptoms and the expression of stem resistance in white pine infected with blister rust. 14346

Studies on the salivary physiology of plant-bugs: Experimental induction of galls. 16433

Uptake and metabolism of indoleacetic acid, naphaleneacetic acid, and 2,4-dichlorophenoxyacetic acid by pea root segments in relation to growth inhibition during and after auxin application. 16511

Effect of boron on ribonucleic acid and indoleacetic acid metabolism in the apical meristems of sunflower plants. 16520

Indoleacetic acid oxidase activity in banana roots. 16629

The oxidation of indole-3-acetaldehyde and its 1-methyl derivative by horseradish peroxidase. 16941

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants. 17253

The transport of auxin. 17259

Intracellular and extracellular metabolism of 3-indoleacetic acid in the aseptic and nonaseptic cultures of Pisum sativum root tips. 17676

Synthesis and physiological activity of several 1-substituted indole-3-acetic acids and esters. 17687

The role of IAA in host reaction to different isolates of Phytophthora cactorum. (Abstract). 17955

Auxin and crown gall tumor initiation. (Abstract). 18023

Auxin-induced elimination of a protein in bean hypocotyl. 18470

Effect of 3-indoleacetic acid on phospholipid membrane components of Avena coleoptiles. 18481

Response of meristems to indoleacetic acid and colchicine: Differences between primordia and root meristems. 18726

Sterol-like compounds with auxin activity in human urine. 18757

Transformation of horseradish peroxidase into photosensitive compounds in the presence of indole-3-acetic acid. 19317

The influence of growth regulators on protein and enzyme spectra of explants from roots of Cichorium intybus cultured in vitro. 20888

Effect of light of various spectral compositions on some aspects of auxin metabolism in cultures of isolated carrot tissue. 20907

Growth and antholyanin synthesis in excised Sorghum internodes. I. Effects of growth regulating substances. 20918

Effect of B-indolylacetic acid on the growth and the auxin catabolism of Lactobacillus bulgaricus. 21086

Production of auxin by detached leaves. 21091

Synthesis of a plant hormone by the salivary apparatus of plant-sucking Hemiptera. 21192

Studies on emergence of seedling in direct sowing culture of paddy rice on upland field. III. Seedling emergence of rice seed as affected by gibberellin and 3-indoleacetic acid application. 21539

The leaching of auxin from air layers. 21771

Auxin (plant hormones) production in plants. 21801

Contribution to the physiological study on the effect of the substance isolated from conidia of the fungus Erysiphe graminis f. sp. hordei Marchal. 21944

The effects of indoleaectic acid and 2,4-dichlorophenoxyacetic acid on intermediary metabolism of 14C-labelled organic acids by pea root tips. 22215

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on the uptake and metabolism of 14C-glucose and on the incorporation of 14C-labelled amino acids into protein in pea root tips. 22216

Teratoma induction in Datura meteloides and D. stramonium by crown gall bacterium (Agrobacterium tumefaciens). (Abstract). 23140

INDOLEBUTYRIC ACID
The influence of indol-3yl acetic acid and sugar on the pattern of induced differentiation in plant tissue culture. 21076

INDOLELACTIC ACID
The production of indolelactic acid from L-tryptophan by species of Phytophthora. (Abstract). 16212

INDUSTRIAL CONCENTRATION
A local survey of the distribution of industrial melanic forms in the moth Biston betularia and estimates of the selective values of these in an industrial environment. 18594

INDUSTRY
WACA discussions cover 'silent spring'. 15570

Opportunities and challenges are ahead for fertilizer industry
15694

Some economics of air pollution control.

Distribution of mercury compounds in fish and birds.
18180

Effects on groudwater. Municipal sources.
18390

Sources of plant-pathogenic air pollutants.
19237

Insect control and chemistry. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
19601

Prospects for nonchemical insect control- an industrial view.
19622

Florida 20, a fleck resistant variety of cigar-wrapped tobacco.
20524

Controlling pollution. The pesticide industry takes action.
20848

World status of the plant-protecting agent industry and research with special reference to Hungarian conditions. (JPRS 42,586) Transl. 16933.
21088

INFECTIOUS BOVINE RHINOTRACHEITIS VIRUS

Pasteurellae in bovine respiratory disease.
16762

Comments on bovine respiratory infections in northeastern dairy cattle.
16796

Bovine respiratory infections.
16816

Studies on the pathogenesis of infectious bovine rhinotracheitis following aerosol exposure.
16845

Acute infectious bovine rhinotracheitis and salmonellosis in a dairy herd.
18344

Infectious bovine rhinotracagitis: correlation of fetal and placental lesions with viral isolations.
19196

Infectious bovine rhinotracheitis relationship of level of maternal antibody titer to incidence of fetal death and abortion.
19197

Some studies of infectious bovine rhinotracheitis (IBR) virus infection in calves.
20778

Comparison of selected characteristics of four strains of infectious bovine rhinotracheitis virus.
22058

Infectious bovine rhinotracheitis-infectious pustular vulvovaginitis virus infection in pregnant cows.
22103

Vaccination in the feedlot.
23304

INFECTIOUS BRONCHITIS

Coexistence of infectious bronchitis and infectious laryngotracheitis.
15451

Infectious bronchitis in laying fowls; its effect upon egg production and subsequent egg quality.
16814

The distribution of infectious bronchitis of chickens in Slovakia.
20692

The morphological and biological effects of various antisera on avian infectious bronchitis virus.
22052

Neutralising antibodies for avian infectious bronchitis virus in Queensland poultry flocks.
22138

INFECTIOUS BRONCHITIS VIRUS

A variant type of infectious bronchitis virus in a commercial vaccine.
15448

Antigenic variations in isolates of infectious bronchitis virus.
16751

Mycoplasma gallisepticum infection and boiler weight.
16820

Preliminary investigation of methods for evaluating inactivated vaccines for infectious bronchitis virus.
16821

Characterization of receptors and lysosomes of cells susceptible to infectious bronchitis virus.
17538

INFECTIOUS BURSAL AGENT

Some studies on the infectious bursal agent.
16039

INFECTIOUS CANINE HEPATITIS

Electron microscopy of infectious canine hepatitis virus grown in cultures of canine kidney cells.
15475

Ultrastructural changes in dog kidney in infectious canine hepatitis. (Abstract).
17512

Propagation of ICH virus in swine-lung tissue culture. patent 3,399,113.
21321

On the preparation of immune globulins against distemper and infectious hepatitis of dogs.
22098

Experimental infectious canine hepatitis. V. The effect of reticulo-endothelial blockade.
22750

INFECTIOUS CANINE HEPATITIS VIRUS

Cytologic changes induced by infectious canine hepatitis virus in tissue culture.
15443

Induction of tumours in hamsters with infectious canine hepatitis virus.
21426

Histochemical and electron microscopic studies of dog kidney cells in the early stages of infection with infectious canine hepatitis virus.
22658

INFECTIOUS DISEASES

Intestinal protozoan infections in dogs.
13949

The control and eradication of salmonellosis in a closed pig herd.
14520

Brucellosis. public stockyards.
14555

Effect of incubation temperature on length and infectivity of potato virus X particles in four host species.
15068

Hog cholera and other communicable swine diseases. Approved modified live virus vaccines.
16050

Future requirements for prevention and control of bovine respiratory diseases in the United States.
16743

Experimental infection of sheep and goats with attenuated and virulent strains of rinderpest virus.
16748

Comments on control and management of respiratory diseases in beef cattle.
16763

Comments on control and management of respiratory diseases in beef cattle.
16775

Comments on management of respiratory diseases in dairy cattle.
16790

Mycoplasma gallisepticum infection and boiler weight.
16820

Malignant catarrhal fever.
16840

A study of the ultrastructure of the intestinal epithelial cells of piglets infected with a transmissible gastroenteritis virus.
16854

Basic principles of immunity in cattle.
16858

Comments on immunity in cattle.
16864

The summer biology of Puccinia striiformis in southeastern Washington. I. Induction of infection during the summer.
18072

Mycoplasma meleagridis ('N' strain mycoplasma - PPLO): Relationship of air sac lesions and isolations in day old turkeys (Meleagridis Gallopavo).
18211

Stained monolayer test: a color test in disposable plastic trays for titrating transmissible gastroenteritis virus and neutralizing antibodies.
18343

Helminths as vehicles and synergists of microbial infections.
18376

Formation of callus tissue in sweetpotatoe stems in response to infection by an incompatible strain of Ceratocystis fimbriata.
18847

Some properties of chrysanthemum stunt virus. (Abstract).
18862

Effect of artificially or naturally introduced uredospores on stem rust development in previously infected fields of wheat. (Abstract).
18867

Xylem aberration, a transmissible disease of stone fruits.
18870

Survival of tobacco mosaic virus in space.
18900

The rapid development and spread of strain B of Phytophthora phaseoli in 1967. (Abstract).
18997

The Chediak-Higashi Syndrome.
19198

Pulmonary tuberculosis in a squirrel monkey (Saimiri sciureus).
19968

On the specific mechanism of the transmission of leptospiral infection.
19976

Some considerations in dealing with respiratory disease in calves.
19987

Sanitary legislation of the well known contagious diseases of bees in France; loques, acarine disease, nosema disease.
20294

Clinical, serological and pathological findings in an outbreak of contagious bovine pleuropneumonia.
20682

Varying virulence in rabbits infected with different filamentous types of Histoplasma capsulatum.
20700

Transmission of rinderpest from goats to cattle in Tanzania.
20736

Contribution to the study of the infectious ecthyma in sheep.
20739

Preliminary studies on living culture and inactivated vaccines against contagious bovine pleuropneumonia.
20783

Studies on Anaplasma ovis infection. II. Pathogenicity of a Nigerian goat strain for dutch sheep and goats.
20803

Transmission of attenuated and virulent bluetongue virus with Culicoides variipennis infected orally via sheep.
20807

A survey of diseases found in dogs in Kenya.
20827

Morphological conversion of cells in vitro by N-nitrosomethylurea.
20880

Contract-spread of Venezuelan equine encephalomyelitis virus among cotton rats via urine or feces and the naso or oropharynx. A possible transmission cycle in nature. 21058

Neutralizing antibodies to adenovirus in infectious hepatitis. 21309

Hog cholera and other communicable swine diseases. Notice of proposed rule making. 21312

Spread of scrapie by contact to goats and sheep. 21318

Pathogenous strength of a strain of herpesvirus bovis in a new-born calf, infected through the air. 21324

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Determination of optimal irradiation. 21356

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Resistance to re-exposure with homologous and heterologous Moraxella bovis. 21357

Scabies in sheep. Interstate movement. 21359

Propagation and transmission of hog cholera virus in nonporcine hosts. 21377

Effects of temperature and time on the infectivity of Anaplasma marginale after treatment with protective additives. 21382

The fate of Ascaris lumbricoides Linnaeus, 1758 in chicks (Gallus gallus domesticus). 21387

Circling disease in sheep: A case study reveals new knowledge on listeriosis. 21392

Laboratory diagnosis and treatment of infectious mastitis in dairy cows. 21403

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Correlation of hemolytic ability and pathogenicity. 21418

Buoyant density of African horsesickness virus. 21424

An observation on feline infectious peritontis. 21451

Spread of scrapie by contact in mice. 21455

On the specific mechanism of the transmission of leptospiral infection. 22105

The investigation of scrub typhus in the USSR. 22108

Definition of terms in large scale rat control. 22622

Aetiology of enzootic staphyloccal infection (tick pyaemia) in lambs; field investigations into the relationship between tick-borne fever and tick pyaemia. 23277

Animal concentrations and infection. 23289

The raising of animals and veterinary medicine. 23307

Infectious nucleic acid from a transmissible agent causing gastroenteritis in pigs. 23318

Different sensitivity of various cell culture systems to ribonucleic acid from a foot and mouth disease virus not infectious for cell cultures. 23345

INFECTIOUS KERATITIS

Pink eye, a common disease of sheep. 23253

Pink-eye can be painful. 23332

INFECTIOUS LARYNGOTRACHEITIS

The effect of parental immunity and age on the response to infectious laryngotracheitis vaccination. 15346

Coexistence of infectious bronchitis and infectious laryngotracheitis. 15451

A quick method for the diagnosis of avian pox and infectious laryngotracheitis. 15463

Infectious laryngotracheitis of poultry. 22125

INFECTIOUS LARYNGOTRACHEITIS VIRUS

Conjunctivitis in chickens caused by a typical infectious laryngotracheitis virus. 15450

Tissue culture and chicken embryo techniques for infectious laryngotracheitis virus studies. 15680

Susceptibility of turkeys to infectious laryngotracheitis. 17589

Replication of infectious laryngotracheitis virus in chicken kidney cell culture. 22691

INFECTIOUS SYNOVITIS

The cultivation and modification of the avian infectious synovitis agent in tissue culture. 15493

Pathogenesis of staphylococcal synovitis in turkeys: Cultural retrieval in experimental infection. 17573

INFECTIOUS VARIEGATION (ORANGES)

Mechanical transmission of citrus Infectious variegation from the citrus of a new host weed. 21107

INFESTATION

Contour maps of infestation incidence useful in epizootiology of screw-worms, Cochliomyia hominivorax (coquerel). 19099

INFLAMMATION

Seminal vesiculitis syndrome: Lesions in genital organs of young bulls. 18208

Observations on the development of ruminal lesions in calves fed on barley. 21251

Local immunity in the mammary gland following the infusion of a staphylococcal cell-toxoid vaccine. 21281

INFLUENZA

Method of ameliorating the effects of and preventing influenza infections. Patent 3,376,196. 19175

Influenza in animals. 19190

Antigenic relationship between influenza A viruses of human and avain origins. 21411

A new influenza A virus infection in turkeys. III. Pathology of the experimental disease by virus strain turkey/Ontario/6213/6. 23327

INFLUENZA VIRUSES

Antigenic relationship between influenza A viruses of human and animal origin. 16853

A common surface antigen in influenza viruses from human and avian sources. 20795

Laboratory differences between the WS strain of influenza A virus and its neurotropic variants. 22092

INFORMATION RETRIEVAL SYSTEMS

A co-ordinate indexing system for crop protection information. 21065

INFRARED PHOTOGRAPHY

Analysis of Dursban in livestock dips and sprays. 15658

Infrared aerial color photography for detection of populations of brown soft scale in citrus groves. 17025

INFRARED RAYS

Photoactic response of first-instar larvae of the pink bollworm to light of different wavelengths. 14085

Marking tobacco hornworm moths for night recovery with a blacklight lamp. 16998

Far-red sensitive dark processes essential for light- and gibberellin-induced germination of lettuce seed. 17699

Attraction of pear psylla to blacklight. 19035

Use of virgin female tobacco budworms to increase catch of males in blacklight traps and evidence that trap locations and wind influence catch. 22875

Using black light to find jack pine budworm egg masses. 22993

INFRARED SPECTRA

Infrared identification of chlorinated insecticides in the tissues of poisoned fish. 15553

Infrared absorption spectra and polymeric structures of three s-Triazine herbicides and their metabolites. 15657

A note on the isolation of pyrethrosin from pyrethrum marc. 16248

Process for oxidizing soluble alkylene bisdithiocarbamates to produce an oxygen containing product, and the product of said process. Patent 3,401,182. 16591

X-ray analysis of hyphal and sclerotill walls of Sclerotium rolfsii Sacc. 17674

Synthesis and physiological activity of several 1-substituted indole-3-acetic acids and esters. 17687

Isolation of a new toxin from cultures of Aspergillus flavus. 18416

Plant growth regulations in Ditylenchus dipsaci, Ditylenchus triformis and host tissues. 18437

Infrared studies of ethylene chlorohydrin. 18486

Analysis of carbaryl in formulations. 20122

Montmorillonite-S-triazine interactions. 21491

INHERITANCE

A formula for determining degree of dominance in cases of monofactorial inheritance of resistance to chemicals. 16499

Polymorphism in the Australian Acrididae. I. Inheritance of colour patterns in the plague locust, Chortoicetes terminifera. 17229

An inheritance study of tolerance to Atrazine in a cross of flax (Linum usitatissimum L.). 17251

Resistance of barley (Hordeum vulgare L. Emend. Lam.) to cereal leaf beetle (Oulema melanopus L.). 17379

The inheritance of a pearl-eyed mutation of Trogoderma granarium Everts (Col., Dermestidae). 18704

Inheritance of resistance to Venturia inaequalis in crabapples. 18768

Inheritance of crown rust resistance in Avena sterilis. (Abstract). 21120

INJECTIONS
Soil fumigation by injection and irrigation for the control of nematodes on hops. 15261
Initial and subsequent sites of aster yellows virus infection in a leafhopper vector. 15948
Concentrations of penicillin in milk of cows following intramuscular administration. 16017
The use of Fe 59 for studying haemorrhage due to Eimeria tenella in chickens. 16035
Effects of ecoysone on epidermal cells in which DNA synthesis has been blocked. 16428
Studies on the salivary physiology of plant-bugs: Experimental induction of galls. 16433
Short-term effects of crustecdysone (20-hydroxyecdysone) on protein and rna synthesis in third instar larvae of Calliphora. 16437
Ukauwa virus proliferation in mosquitos. 16507
Polyphenols and discoloration in the elm disease investigated by histochemical techniques. 16580
Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus. 16607
Changes in respiration rate of tobacco leaves infested with bacteria in relation to the hypersensitive reaction. 16647
Resistance to spread of virus from cell to cell in T. I. 245 tobacco. 16687
Treatment of salt poisoning in pigs. 16745
Scrapie agent in blood. 16773
Experimental ovine listeriosis. III. Inoculation of rams. 16848
Radioactive studies on the feeding of larvae, nymphs, and adults of the cattle tick, Boophilus microplus (Canestrini). 16995
Juvenile bovine leukosis; an epizootiological, clinical, patho-anatomical and experimental study. 17129
Symbiosis; effects of a mutualistic fungus upon the growth and reproduction of Xyleborus-ferrugineus. 17176
Relative toxicity of insecticides to adult Locusta migratoria Linnaeus. 17187
Concerning the evidence of tobacco mosaic virus in grape vines. 17279
Accumulation of phenols in resistant plant-fungus interactions. 17280
Diallel analyses of the inheritance of resistance in cotton, Gossypium hirsutum L: to races of Xanthomonas malvacearum (E.F.SM.) Dowson. 17290
Studies on the chemotherapy for plant virus diseases. XII. Methods of applying antiviral chemicals against infected plants. 17301
The association of free amino acids of cotton leaves with resistance to xanthomonas malvacearum caused by the B4 gene and the influence of nitrogen and potassium nutrition. 17314
Inhibition of tobacco mosaic virus infection by coumarin. 17320
The change of protein fractions in diseased leaves of rice plants in the early stage of infection by Helminthosporium oryzae. 17337
Pathogenesis in dutch elm disease. 17339
A new strain of potato virus Y isolated burley tobacco in Japan. 17350
The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus. 17366
A complex of fungi mutualistically involved in the nutrition of the ambrosia beetle Xyleborus ferrugineus. 17372
Inoculation trail with Meloidogyne javanica on okra (Abelmoschus esculentus). 17416
Mode of reproduction of Heterodera tabacum. (Abstract). 17438
Studies on the feeding and reproduction of seven mycophagous nematodes on Rhizoctonia, Fusarium, and Verticillium. (Abstract). 17440
The biological half life of progesterone in the peripheral blood of cows. 17474
Effects of lathyrogens and nonlathyrogens on chick embryo oxygen consumption when injected onto various sites. (Abstract). 17475
Unsuccessful attempts to transmit scrapie by nematode parasites. 17509
A technique for the determination of the action level of inhibitors. 17536
Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: serologic and intradermal tests. 17546
Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of dehydrogenase activities. 17547
Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of hydrolase activities. 17548
Survivability of the foot-and-mouth disease virus outside the host. Transl. 16891. 17554
Immunity to Eimeria brunetti and Eimeria maxima infections in the fowl. 17570
Penicillin concentration in canine blood and urine after intramuscular injection. 17571
Bedsonia abortion of sheep. I. Aetiological studies. 17575
Sperm output of bulls and production by cows fed supplemental vitamins. (Abstract). 17577
Heterologous immunity in avian hosts infected with Plasmodium relictum and Plasmodium lophurae (Sporozoa: Haemosporina). 17615
In vitro toxin production by the fungus Beauveria bassiana and bioassay in greater wax moth larvae. 17668
Amino acid requirements of the cotton stainer, Dysdercus fasciatus (Pyrrhocoridae, Hemiptera). 17670
Some relationships of phenolic acids to the development of rust infection in flax cotyledons. 17671
Unidentified ninhydrin positive substance found in the culture filtrate of plant pathogenic fungi when cultured on the medium containing authentic amino acid. I. 17682
Phenylacetic acid, a metabolite of Xanthomonas oryzae (Uyeda et Ishiyama) Dowson in culture affecting upon the depressive growth of young roots of rice seedlings. 17683
Selective recovery of volatile products from house flies treated with radioactive insecticide chemicals and synergists. 17796
Metabolism of C14-labeled hemel in male house flies. 17798
Results concerning humoral immunity of Pyrrhocoris apterus l. and Galleria mellonella F. 17842
Effect of the chemosterilant metepa on the housefly, Musca domestica L. 17848
Race buildup of Xanthomonas malvacearum on cotton in southeast Missouri. 17928
Local lesion development in Turkish tobacco leaves heated after inoculation with tobacco mosaic virus. (Abstract). 17983
Effect of soil fungicides on development of fungi in soil and on kernels of groundnut. 18003
Studies on the effects of Hg(II) and sucrose on the mechanical transmission of tobacco mosaic virus ribonucleic acid to pinto bean (Phaseolus vulgaris L.). 18011
Alternaria tenuis on Antirrhinum. 18033
Additional information on the pathogenicity of Scleroderris lagerbergii. 18065
Effect of MCPA on lettuce pre-inoculated with lettuce mosaic virus. 18075
Natural acquisition compared with mechanical inoculation of six-spotted leafhoppers for transmission of the oat blue dwarf virus. (Abstract). 18085
Control of the elm leaf beetle in Arizona. 18128
Distribution of mercury compounds in fish and birds. 18180
Mycotic abortion in ewes produced by Aspergillus fumigatus: pathologic changes. 18184
Response of beef cows to exogenous progesterone and estradiol at various stages postpartum. 18192
Avirulent mutant of a strain of ornithosis agent obtained by gamma irradiation. 18195
Cystic ovarian disease in dairy cattle: With special reference to its treatment using a combination of Chorionic gonadotrophin and progesterone. 18200
Experimental colibacillosis and the development of carries in laying hens. 18206
Hog cholera: Safety and protection studies with photodynamically inactivated hog cholera virus. 18232
Water, electrolyte, and acid-base alterations in experimental canine leptospirosis.* 18244
A case of porcine endocarditis associated with Staphylococcus aureus. 18248
Clostridium perfringens type A infection of ligated intestinal loops in lambs. 18255

California-encephalitis-group viruses in Florida rabbits: Report of experimental and sentinel studies. 18265

Transmission of salmon poisoning disease to dogs by Nanophyetus salmincola eggs. 18301

Immunization of foxes with inactivated virus rabies vaccine. 18315

Resistance of cattle to the tick Boophilus microplus (Canestrini). II. Stages of the life cycle of the parasite against which resistance is manifest. 18351

Isolation of a new toxin from cultures of Aspergillus flavus. 18416

Effects of actinomycin D on development in pupae of Tenebrio molitor. 18593

Caffeine-induced mutagenesis in Drosophila. 18700

Sorghum (RS610 and RS625) (pink kafir). Seed rots and seedling blights, covered kernel smut; Fusarium, Pythium, Rhizoctonia. 18730

Wheat (red chief). Bunt, Tilletia foetida. 18731

Tomato. Fusarium wilt, Fusarium oxysporum f. lycopersici. 18734

Fusiform rust in Southern pine. 18812

Rice. Blast, Piricularia orzae. 18814

The relationship of inoculum-receptor contact period to the rate of graft transmission of twelve Prunus viruses. 18830

Sugar beet. Leaf spot; Cercospora beticola. 18831

Formation of callus tissue in sweetpotatoe stems in response to infection by an incompatible strain of Ceratocystis fimbriata. 18847

Effect of artificially or naturally introduced uredospores on stem rust development in previously infected fields of wheat. (Abstract). 18867

Lettuce. Sclerotinia rot, Sclerotinia sclerotiorum. 18881

Wheat. Stem rusts, Puccinia spp. 18886

A technique for inoculating tomato fruits with the anthacnose pathogen, Colletotrichum coccodes. (Abstract). 18918

Characteristics of tobacco rattle virus. I. Evidence that it's two particles are functionally defective and mutually complementing. 18928

CO2 absorption in four wheat varieties and differential responses to infection by Septoria nodorum. (Abstract). 18930

Heat-induced susceptibility of black shank-resistant tobacco to Phytophthora parasitica var. nicotianae. (Abstract). 18987

In vitro increase in virus infectivity. 18994

Monolayer cultures of insect cell lines and their inoculation with a plant virus. 19012

Fibrinogen content and fibrinolytic activity of plasma from dogs infected with Leptospira canicola. 19143

Production of plant virus antiserum in a horse. 19150

Examination of cucumber seed for Mycosphaerella melonis. 19160

Leptospira antibody formation by porcine foetuses. 19176

Experimental herpes virus infection in young puppies. 19211

Artificial feeding technique for Rhipicephalus appendiculatus and the transmission of Theileria parva from the salivary secretion. 19216

The multiplication of sacbrood virus in the adult honeybee. 20303

Mutation in Thanatephorus cucumeris. 20531

The role of temperature in the development of blue mould (Peronospora tabacina Adam.) disease in tobacco seedlings. III. The effect of preinoculation temperature and of shade on plant growth and disease development. 20538

Exocortis virus of citrus: Association of infectivity with nucleic acid preparations. 20565

Metabolism of carbonyl-C14-labeled imidan, N-(mercaptomethyl)phthalimide-S-(O,O-dimethylphosphorodithioate), in rats and cockroaches. 20656

Susceptibility of mink to Clostridium botulinum type C toxin. 20663

Pathogenicity of Vibrio coli for swine II. experimental infection of conventional pigs with Vibrio coli. 20665

Transmission studies of swine lymphosarcoma: Hematologic and pathologic changes in pigs inoculated with whole cell suspensions. 20689

Experimental mastitis in leukopenic cows: Immunologically induced neutropenia and response to intramammary inoculation of Aerobacter aerogenes. 20720

Effect of high levels of carbon dioxide on pigs infected with porcine enterovirus. 20726

Progress report: Duck plague surveillance of American anseriformes. 20730

Relationship between Marek's disease and Coccidiosis. 1. Attempted transmission of Marek's disease by avian coccidia. 20731

Production of a wasting syndrome in the hamster after the innoculation of bovine leukemic extract. 20733

In vivo production of a toxin(s) by Listeria monocytogenes. 20744

Responses in dogs exposed to attenuated rabies virus. 20752

Experimental studies on ancylostomiasis in cats. VIII. Diagnosis and treatment of ancylostomiasis in cats. 20760

Diagnosis of transmissible gastroenteritis in pigs by means of immunofluorescence. 20765

Canine visceral leishmaniasis in Iran. 20771

Feline urethral obstruction: Mineral aspects. 20774

Iron injection and ham acceptability. 20784

Spiramycine in the treatment of bovine mastitis by the parenteral route. 20790

Mitosis and the cell cycle in the metamorphic moult of the milkweed bug, Oncopeltus fasciatus. A radioautographic study. 21006

Incorporation of lysine-6-C14 into the protein of the adult boll weevil, Anthonomus grandis. 21011

Treatment of American cutaneous leishmaniasis with cycloguanil pamoate. 21057

Gray mold of green onions on the market. 21099

Mechanical transmission of citrus Infectious variegation from the citrus of a new host weed. 21107

Results of several years of experiments concerning resistance to loose smut in spring wheat and spring barley. 21117

Mimosa wilt Fusarium carried in seed. 21124

Viable Septoria spp. in celery seed samples. 21127

Further study of the latent strain of the tobacco mosaic virus. 21140

Reaction of pepper varieties to naturally occurring viruses in California. 21142

Phoma leaf spot of tomato and potato in Hawaii. 21146

Inoculation methods with the root lesion nematode Pratylenchus brachurus and symptom expression on tobacco. 21183

Some effects of the nematodes Ditylenchus myceliophagus and Aphelenchoides composticola on the yield of the cultivated mushroom. 21205

Resistance to the potato cyst-nematode, Heterodera rostochiensis, in the plant genus Lycopersicon. 21208

Heritable resistance to warfarin in rats. 21234

Modification of a strain of mouse-adapted scrapie by passage through rats. 21283

Biochemical abberrations with ammonia intoxication. (Abstract). 21287

Effect of estradiol-17 beta on ovine luteal function. (Abstract). 21293

Comparative efficacy of commerial fowl cholera bacterins and autogenous bacterin in white leghorn hens artificially infected with Pasteurella multocida. 21313

The response of commercial egg production stocks to experimental infection with Eimeria tenella and its relation to field mortality. 21323

Saline injections in the treatment of severe cases of scour in young suckled calves. 21333

Clinical and serological responses of the calf inoculated in various ways (genital, ocular, pulmonary) with a strain of herpesvirus isolated from a pneumonia lesion of a calf. 21338

The passage of Staphylococci through the bovine test canal. 21340

Action of disinfectants on experimental mouse scrapie. 21351

The infection spectrum of the stomatitas papulosa virus. 21376

Clinical and serologic responses in vaccinated sheep given challenge inoculation with isolates of bluetongue virus. 21383

Contribution to the study of viremia in sheep inoculated with the virus of foot-and-mouth disease.
21389

Experimental paratuberculosis in sheep after oral, intratracheal; or intravenous inoculation: Histochemical localization of dehydrogenase activities.
21394

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities.
21395

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculations Serologic and intradermal tests.
21396

Determination of the dosage-response curve of mice inoculated with scrapie.
21399

In vivo effects of canine lymphosarcoma deoxyribonucleic acid.
21416

Serological differences between apparently typical pepper and tomato isolates of Xanthomonas vesicatoria.
21538

The presence of Omphalia sp. Bliss in a Mauritanian palm grove.
21544

Infection of cultured silkworm embryos with the cytoplasmic-polyhedrosis virus.
21591

Ring gland transplantations and body weight in Drosophila.
21739

Genetic analysis in rice, VIII. Inheritance of resistance to races 4, 22 and 25 of Piricularia oryzae.
21865

Amyloidosis induced in mice by Escherichia coli endotoxin.
22034

Studies of live attenuated Japanese encephalitis vaccine in swine.
22107

Carbon tetrachloride injections for liver fluke control.
22170

Varietal resistance of winter barley to loose smut of barley (Ustilago nuda (Jens.) Rostr.).
22493

Effects of progesterone treatments on delayed implantation in mink.
22620

Results of continuous low-level inoculations with Eimeria bovis in calves.
22655

Serological response of pigs to infection with Mycoplasma. Demonstration of growth and metabolism-inhibiting antibodies in sera of pigs inoculated intranasally with Mycoplasma hyorhinis. II.
22661

Effects of estrogens upon Anaplasma marginale infection in splenectomized cattle.
22675

Studies on staphylococcosis in chickens. II. Pathogenicity of staphylococcus aureus of chicken origin for various experimental animals.
22681

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities.
22696

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Serologic and intradermal tests.
22697

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of dehydrogenase activities.
22698

Experimental Streptococcus agalactiae mastitis in cattle: Attempts to superimpose the organism in lactating glands harboring unrelated bacterial infections and in glands with experimentally induced sterile inflammation.
22713

Experimental Pseudomonas acruginosa mastitis in cattle.
22714

Routes of elimination of Erysipelothrix insidiosa from infected swine.
22749

Experimental infections of Ostertagia ostertagi in calves: Results of two regimens of multiple inoculations.
22756

Radiolabeling of tick progeny by inoculation of procreant females.
23048

Induction of crown galls in plants treated with gibberellic acid.
23113

The effect of gibberellic acid on vegetable tumors.
23114

Increased resistance to tobacco mosaic virus in gamma irradiated tobacco leaves.
23135

An improved method for the isolation and identification of bluetongue virus by intravenous inoculation of embryonating chicken eggs.
23288

Non-specific antibodies in chickens inoculated intratracheally with Mycoplasma gallisepticum.
23301

Murine toxicity of Cochliobolus carbonum.
23380

INJURIES

The relationship of exposure rate and exposure time to radiation injury in sheep.
14540

Effects of hormones and injury on RNA synthesis in saturniid moths.
14861

Short-term effects of crustecdysone (20-hydroxyecdysone) on protein and rna synthesis in third instar larvae of Calliphora.
16437

Integrated control. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5.
17402

Role of photoperiod, temperature, and injury in induction and termination of the pupal diapause of Heliothis zea (Boddie).
17877

The effect of trauma on production of herpes interferon in guinea pigs.
18331

A new disease of crownvetch, Coronilla varia, caused by Sclerotinia trifoliorum.
18946

Contour maps of infestation incidence useful in epizootiology of screw-worms, Cochliomyia hominivorax (coquerel).
19099

The role of wounds in the infection of oranges by Penicillium digitatum Sacc.
21079

Injury accumulation and recovery in sheep during protracted gamma irradiation.
21275

Particle counts of wound tumour virus during its peak concentration in leafhoppers.
22980

INOCULUM

Myxomayosis: The preparation of myxoma virus for inoculation via the eye.
14491

Dermatophilus dermatitis (Streptrichosis) in Ontario. il. laboratory findings.
16037

INORGANIC COMPOUNDS

Analytical problems: Mercury in the general environment.
18408

Inorganic composition and microscopy of citrus roots grown under several copper and soil amendment conditions.
18428

INOSITOL

Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat.
16470

Nutritional requirements of a tomato tissue culture: Growth promoting factors from peas.
18478

INSECT ABNORMALITIES

Temperature-induced wing malformation in alfalfa loopers and variegated cutworms.
13848

A tergal abnormality in the German cockroach, Blatella germanica (L.).
14944

Ecdysone and ecdysone-analogues: their assay and action on diapausing pupae of the cynthia silkworm.
15838

A note on abnormal oviposition habits of the cowpea weevil, Callosobruchus maculatus.
18629

Soldier-reproductive intercases in a species of Tumulitermes (Isoptera: Termitidae).
19405

Special effects and teratological symptoms of the thermostable toxin of B. thuringiensis as a function of the physiological age of insects.
19568

Morphological anomalies in fleas (Siphonaptera).
19581

On the teratology of the genus Megachile Latr. (Hym., Apidae).
19704

On the teratology of the primary-and hyperparasites of Brevicoryne brassicae (L.).
20410

Thymidine-Teratogenesis in different species of the genus Drosophila.
20474

INSECT ACCLIMATIZATION

Acclimatization of insects to low temperatures.
22454

INSECT ADAPTATION

Field observations on twenty-eight broods of floodwater mosquitoes resulting from controlled floodings of a natural habitat in the Tennessee Valley.
13716

A comparison of the developmental rates of one- and two-year cycle spruce budworm.
14951

A physiologic difference in aphids (Homoptera) raised on excised leaves and on intact plants.
16353

Metabolic thermal adaptations in the mosquito Culex pipiens pipiens (Diptera: Culicidae).
16447

Adaptation of insects to nornicotine.
17118

The role of secondary plant substances in the food specificity of the Colorado potato beetle.
17380

Selection and specificity of the Colorado potato beetle for solanaceous and nonsolanaceous plants.
17381

Notes on deathwatch beetles (Coleoptera).
17821

On the modification of the eye pattern on the wings of Inachis io (Lep., Nymphalidae) with analogous temperature experiments.
19624

Geographic variation and climatic adaptation in a field cricket (Orthoptera: Gryllidae).
19662

Studies on natural populations of Drosophila. VI. Competition between Drosophila melanogaster and Drosophila simulans. 20438

Stabilising selection in Drosophila melanogaster. 20449

Preliminary evidence of cold temperature resistance in Drosophila pseudoobscura. 20453

Adaptive significance of mycophagy in stored-product Arthropoda. 21764

INSECT ANATOMY

Morphology of the internal reproductive organs of the navel orangeworm, Paramyelois transitella. 13800

Copulation and sperm induction by normal and palpless male linyphiid spiders. 13847

An introduction to the behavior of ants. QL568.f758. 13852

Taxonomy of final-instar larvae of the hymenopterous and dipterous parasites of Acrobasis spp. (Lepidoptera: Phycitidae) in the Ottawa Region. 14047

Structure of the labellar chemoreceptors of the house fly, Musca domestica vicina (L.) (Diptera: Muscidae). 14119

Anatomy and histology of Rodolia cardinalis Muls. (Coleoptera Coccinellidae). 14254

Fine structure of the integument of the two-spotted spider mite, Tetranychus telarius (Acarina:Tetranychidae). 14849

The skeletomuscular mechanism of the so-called anal legs in the centipede Scolopendra amazonica (Scolopendridae). 14897

The nervous system of certain abdominal segments and the innervation of the male reproductive system and genitalia of Hyalophora cecropia. (Lepidoptera: Saturniidae). 14907

The function of combs in fleas. 15769

Biochemical aspects of juvenile hormone action in the adult Locusta migratoria. QL508.A2.M5. 15792

Determining position of cuticular zones between segments of Galleria mellonella. 15817

Information on stream inhabiting Chironomidae of Hungary. 16268

Ten new chrysomelid beetles from Dominica and Jamaica. 16269

A comparison of the larval and pupal nervous systems of the corn earworm, Heliothis zea (Lepidoptera: Noctuidae). 16279

Some Tineid moths of the Ethiopian region in the collections of the British Museum (Nat. Hist.). I. 16301

Additional evidence that aphids ingest through an open stylet sheath. 16307

A new Pleotrichophorus living of Erigeron. (Hom. Aphididae). 16312

Comparative fine structure of sclerotized and unsclerotized integument of the rabbit tick, Haemaphysalis leporipalustris (Acari: Ixodides: Ixodidae). 16324

Pygidial glands in male Opius (Hymenoptera: Braconidae). 16367

Types of feeding and structure of mandibles in different life forms of grasshopers. 16371

Source of the trail pheromone and method of trail laying in the ant Crematogaster peringueyi. 16385

Comparative morphology of the genital area of triploid intersexes of Drosophila melanogaster. 16415

Bionomics, sexual behavior, and adult anatomy of the albida group of the genus Epicauta (Coleoptera: Meloidae). 16430

Aspects concerning the mode of action of insecticide. 16443

Structure and physiology of a chordotonal organ in the locust leg. 16469

Some illustrations of microsculpture in the Hymenoptera. 17101

The structure of a pregenital abdominal ganglion of the desert locust Schistocerca gregaria (Forskal). 17197

An anatomical and histological study of the male myrmicine ant, Myrmica rubra, L. (Hymenoptera: Formicidae). 17212

Reproduction of some poorly known species of Blattaria. 17765

Mechanism of locust jumping. 17793

Reproductive behavior of the potato tuberworm, Phthorimaea operculella (Zeller), (Lepidoptera: Gelechiidae) and the effect of the chemosterilant metepa. 17836

Some information on Triatoma spinolai Porter 1934, with a study of the external genetalia (Hemiptera, Reduviidae). 17853

Two subgenera of Pyrgomorphidae (Orth., Acridoidea) raised to generic status on the basis of their phallic structures. 18507

The ultrastructure of the metasternal glands of ants. 18690

Revision of genera closeley related to Pachorhopala Bernhauer (2). (Col. Staphylinidae). 19435

A redescription of Radfordilaelaps meridionalis Zumpt, 1950, with a new description of the protonymph and a discussion on the intraspecific variation of the species. 19445

Observations and records for some British Thysanoptera VII. Thripidae, Thrips flavus Schrank ant Thrips brevicornis Priesner. 19458

Rediscovery of Psychoda lativentris Berden (Diptera, Psychodidae) in Italy. 19487

Internal organization and morphology of the terminal larval stage of Opius concolor. (Hym. Braconidae). 19569

Drosophila endobranchia, a new drosophilid associated with land crabs in the West Indies. 19575

Observations on sound transmission in the Phasmid of the Congo, Palophus centaurus. (Cheleut. Phasmidae). 19594

Studies on the internal anatomy of the black carpet beetle, Attagenus megatoma. 19595

The affect of insecticides on insects. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19616

New observations on Oribates. (5). 19617

The composition of yolk in the eggs of Apanteles glomeratus (L.) (Braconidae: Hymenoptera). 19645

Egg laying mechanism in Rhipicephalus sanguineus (Latreille) (Acarina: Ixodidae). 19679

A teratological specimen of Pycnoscelus surinamensis. 19711

Study of the variability of several French species of the genus Timarcha Latreille (Col. Chrysomelidae). 19732

Undescribed species of nematocerous Diptera. VIII. 20165

The genus Keonolla (Homoptera, Cicadellidae). 20184

A new genus and species of Psenini from the Southwestern deserts (Hymenoptera, Sphecidae). 20219

A new species of Glaucias Kirkaldy from New Guinea heteroptera: Pentatomidae). 20255

New species of Banasa from the Caribbean area and comments on the status of Schraderi Sailer (Hemiptera: Pentatomidae). 20257

The male genitalia of Drosophila populi Wheeler and throckmorton (Diptera; Drosophilidae). 20266

A new subgenus and two new species of Pseudiastata Coquillet (Diptera, Drosophilidae). 20279

The genus Pellucidomyia Macfie (Diptera, Ceratopogonidae). 20284

Pachyhelea, a new genus of American Ceratopogonidae related to Palpomyia (Diptera). 20285

The genus Paradasyhelea Macfie, with descriptions of two new species from eastern Australia (Diptera: Ceratopogonidae). 20286

The use of the mouthparts of Orthoptera during feeding. 20343

The cephalic and prothoracic skeletomusculature and nervous system in Lethocerus (Heteroptera, Belostomatidae). 20412

Description of the castes of Tetraponera anthracina Santschi (Hym., Formicidae, Promyrmicinae). 20439

Thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae) a pest of hay and pasture grasses in southern Ontario. 20951

The mosquitoes of Ontario (Diptera: Culicidae) with keys to the species and notes on distribution. 20970

The fine structure and mechanism of breakdown of larval intersegmental muscles in the blowfly Calliphora erythrocephala. 20990

Mechanical properties of the flight muscle of the bee, I resting elasticity and its ultrastructural interpretation. 20994

How flies fly. 21709

Ultrastructure of moth alary muscles and their attachment to the heart wall. 21733

The distribution pattern of indirect flight muscle fibres in Aedes aegypti (L.) (Diptera: Culicidae). 22354

The histology and histochemistry of the anterior mid-gut of Periplaneta americana L. (Dictyoptera: Blattidae) with reference to the formation of the peritrophic membrane. 22422

A synopsis of American Mycomyiini with descriptions of new species (Diptera: Mycetophilidae). 22858

The structure of the receptaculum seminis of Eyprepocnemis plorans (Charp.) (Orthoptera, Catantopidae). 23003

The anatomy of the nervous system of the third instar larva of Musca domestica nebulo Fabr. (Diptera--Cyclorrhapha-Muscidae). 23026

Venation of metathoric wings and notes on the relationships of Microphysidae (Heteroptera). 23054

INSECT BEHAVIOR

Field observations on twenty-eight broods of floodwater mosquitoes resulting from controlled floodings of a natural habitat in the Tennessee Valley. 13716

Research notes on Aedes aegypti feeding on the Eastern Garter snake Thamnophis sirtalis sirtalis. 13741

Seasonal changes in daily activity periods of the sweetclover weevil. 13775

The life history and morphology of Adelges lariciatus (Homoptera: Phylloxeridae). 13779

Male pheromones of Culex quinquefasciatus, C. tarsalis, and C. pipiens that attract females of these species. 13791

The building mechanisms of the caterpillars of Fumea casta Pall.(Lepidoptera, Psychidae). 13796

Response of the yellow-fever mosquito to varying areas of human skin. 13814

Phototactic choice between two white light sources of various intensity in blowfly, Calliphora erythrocephala Meig. 13823

Observations on feeding and movement of tobacco hornworm larvae. 13825

An evaluation of baits for cockroaches. 13829

Feeding of horseflies (Diptera: Tabanidae) on plant juices. 13845

An introduction to the behavior of ants. QL568.f758. 13852

The kind of cockroaches we find in North Carolina. 13864

Blood meal size of Leptoconops kerteszi (Diptera: Ceratopogonidae). 13874

Rate of tick attachment to a white-tailed fawn. 13880

Colonization studies of Leptoconops kerteszi, biting gnats. 13889

A trap based on visual responses of adult mosquitoes. 14045

Temperature responses of the periodical 17-year Cicada, Magicicado cassini (Homoptera, Cicadidae). 14059

The effect of illumination and pool brightness on oviposition by Culex restuans (Theo.) in the field. 14157

Garden ants, Lasius niger L., building shelters for aphids. 14168

The influence of soil moisture and some soil physical factors on the ovipositional behavior of the prairie grain wireworm, Ctenicera destructor. 14182

The feeding habits of adults of Chrysopa californica Coquillett (Neuroptera: Chrysopidae). 14184

Observations on the Culicidae of a garden pond in Rihimaki. 14199

The behaviour of fleas (Siphonaptera) within the cocoon. 14205

Alteration of feeding behavior and fertility in Aedes aegypti by the chemosterilant apholate. 14211

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L (Coleoptera, Scolytidae) to its host tree. 14213

Some outstanding questions in insect behaviour. 14216

Sexual behaviour. 14226

Some relationships of face fly feeding, ovarian development, and incidence on dairy cattle. 14233

A note on the oviposition of Simulium (S.) argyreatum Meigen. 14245

Selection of pupation site by Drosophilia melanogaster and D. simulans. 14256

Parous/nulliparous condition of unfed Anopheles gambiae and Anopheles funestus captured in exit traps. 14259

Aggregation behavior of pea aphids, Acyrthosiphon pisum. 14268

Swarming behavior of Mansonia perturbans (Walker). 14274

The structure of salivary glands and giant chromosomes of some Chironomid larvae, its relation toward the way of life and importance for the determination of species. 14300

Effect of host plant odour on the behaviour of the adult cabbage root fly, Erioischia brassicae. 14451

Biological notes on eye-frequenting moths from N. Thailand. 14575

The distribution, life history, and economic importance of the winter moth, Operophtera brumata (L.) (Lepidoptera, Geometridae) in Nova Scotia. 14811

A note on Hoplitis producta (Cress.) in Wisconsin (Hymenoptera: Megachilidae). 14833

Feeding behavior and host preferences of some black flies (Diptera: Simuliidae) in Wisconsin. 14851

A study of the flight of the Douglas-fir beetle Dendroctonus pseudotsugae Hopk. (Coleoptera: Scolytidae) III. Flight capacity. 14853

Feeding behavior of the large milkweed bug, Oncopeltus fasciatus. 14858

Mosquitoes feeding on a frog. 14868

Induction of scintillation in the firefly. 14870

Constituents of Dufour's gland in Myrmecia gulosa. 14872

Larval feeding behavior of the cabbage looper, Trichoplusia ni. 14886

The rearing of Phlebotomus sandflies (Diptera: Psychodidae) II. Development and behavior of Panamanian sandflies in laboratory culture. 14899

Life histories and habits of two species of Philodromus (Araneida: Thomisidae) in Ontario. 14936

Laboratory observations of aedine mosquito oviposition (Dipthera, Culicidae, Aedes). 14976

Separating the rural and urban synanthropic fly faunas. 15720

Observations on the ecology of Glossina morsitans submorsitans Newst. iin the Guinea-Sudan transition savanna of northern Nigeria. 15735

Geotaxis in Poecilocerus hieroglyphicus (Acrididae: Pyrogomorphinae). 15739

Evidence for a sex attractant in Hemicrepidius decoloratus (Coleoptera: Elateridae). 15759

The function of combs in fleas. 15769

Nesting behavior of Tachytes (Tachyplena) praedator Fox, with a review of the biology of the genus (Hymenoptera: Sphecidae: Larrinae). 15782

Interspecific differences in the biology of aphids (Homoptera: Aphididae) on leaves of Vicia faba. I. Feeding behaviour. 15783

Black flies. In: Smith,C.N.Insect colonization and mass production. QL497.S6. 15797

Remarkable new description of the behavior of the bot fly, Oestromyia leporina (Pallas, 1778) in Germany. 15809

Reproduction, feeding activity, and growth in the adult firebrat, Lepismodes inguilinus Newman (Thysanura, Lepismatidae). 15826

Observations on man-biting mosquitoes in Jamaica. 15849

Damage by larvae of the corn earworm to grain sorghum. 15980

The western larch borer, Tetropium velutinum LeConte, in interior British Columbia. 15987

Old house borer, Purdue:s Formosan termite study, and dry rot reporting are discussed in Philadelphia. 16107

Fluctuations in natural populations of Drosophila with special attention to sex ratio. 16261

Mating behavior, egg production, and egg fertility in the pear psylla. 16272

Aspects of orientation behavior in the ambrosia beetle Trypodendron lineatum (Olivier). 16294

The attractiveness of female to male peach tree borers. 16305

Dispersal patterns and populations of the house fly affected by sanitation and weather in rural Maryland. 16331

Control implications of a behavioral trait in male horn flies. 16351

A water-soluable factor in Melilotus officinalis leaves which stimulates feeding by the adult sweetclover weevil. 16355

The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle. 16357

The diel oviposition periodicity of the black fly, Simulium vittatum. 16372

Attractiveness of logs containing female spruce beetles, Dendroctonus obesus (Coleoptera: Scolytidae). 16381

INSECT BEHAVIOR

Ecological significance of respiration and substrate for burrowing Ephemeroptera. 16383

Source of the trail pheromone and method of trail laying in the ant Crematogaster peringueyi. 16385

Movements, host-fungus preferences, and longevity of Bolitotherus cornutus (Coleoptera: Tenebrionidae). 16397

Vital dyes as markers for behavioral and population studies of the larch sawfly, Pristiphora erichsonii (Hymenoptera: Tenthredinidae). 16398

The influence of nutrient chemicals on the feeding behavior of the Colorado potato beetle, Leptinotarsa decemlineata (Coleoptera: Chrysomelidae). 16401

Comparative study of pollen sources of honeybees and bumble bees. 16408

Bionomics, sexual behavior, and adult anatomy of the albida group of the genus Epicauta (Coleoptera: Meloidae). 16430

Methods of killing pests selected from the group consisting of mites and insects with phosphonothioates. Patent 3,401,220. 16461

Ecology and behavior of the migratory Locust in southwest Madagascar. 16463

Sex attraction in the Mediterranean flour moth, Anagasta kuhniella: location of the female by the male. 16467

Behaviour genetics of nest cleaning in honeybees. V. effect of previous experience and composition of mixed colonies on response to disease-killed brood. 16468

Structure and physiology of a chordotonal organ in the locust leg. 16469

Source of a substance in Heliothis virescens (Lepidoptera: Noctuidae) that elicits a searching response in its habitual parasite Cardiochiles nigriceps. (Hymenoptera: Braconidae. 16471

Some responses of flying Aedes aegypti to visual stimuli. 16481

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions. 16485

Temperature compensation of the circadian oscillation in Drosophila pseudoobscura and its entrainment by temperature cycles. 16487

Time of arrival of gravid Culex pipiens fatigans at an oviposition site, the oviposition cycle and the relationship between time of feeding and time of oviposition. 16500

Cane-sugar feeding in Culex pipiens fatigans. 16501

Felted grass coccid on Rhodes grass in Queensland. 16703

The impact of tuliptree scale feeding on its host, yellowpoplar. 16704

The temperature-humidity-relationship in the activity of the common wood tick. 16867

Radioactive studies on the feeding of larvae, nymphs, and adults of the cattle tick, Boophilus microplus (Canestrini). 16995

About the influence of weather on apple-leaf moths from the time of first appearance to that of frequency. 17000

The crane flies of California. 17001

Alarm, defense, and construction behavior relationships in termites (Isoptera). 17056

Observations on oviposition and life history of an aquatic bug, Sphaerodema rusticum Fabr. (Hemiptera). 17071

Cockroaches (Periplaneta americana (L.)) as predators. 17081

Endocrine control of female receptivity in Leucophaea maderae (Blattaria). 17104

Oviposition behavior of the face fly in caged cow manure pats. 17128

The host-finding behavior of the hen flea, Ceratophyllus gallinae (Schrank) (Siphonaptera). 17130

Notes on the biology of some short-horned grasshoppers from Eastern Nigeria (Orthoptera: Acridoidea). 17138

Remarks on black widow spiders, with an account of some anomalies. 17142

Interactions between a microsporidian pathogen of the lawn-armyworm and hymenopterous parasite Apanteles marginiventris. 17150

Community studies on Hymenoptera found on Brassica napus C. V. Cynipoids (Cynipoidea). 17165

Pheromones. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17198

Winter activities of Vespula maculifrons. 17199

Evidence for phonoreception in the lubber grasshopper Romalea microptera). 17204

The physiology of labellar electrolyte receptors of the blowfly, Phormia regina. 17206

Isolation of phagostimulative substances from the host plant of the Colorado potato beetle. 17382

Studies on the ecology of rice green caterpillar. I.On the habit of progress in the north part of Hokkaido (Kamikawa area). II. On the active time of adults by night. III. on the relation between the activity of adults by night and weather. Transl. 16696. 17384

Intra-specific mechanisms with special reference to aphid populations. 17407

Tick infestation of livestock in Natal. I. The predilection sites and seasonal variations of cattle ticks. 17596

The foraging behavior of honeybees (Apis mellifera) and bumblebees (Bombus Spp.) on blackcurrant (Ribes nigrum), raspberry (Rubus idaeus) and strawberry (Fragaria x ananassa) flowers. 17732

Habitat selection by Lipara lucens Mg. (Diptera, Chloropidae) and its survival value. 17761

The leaf cutting ant, Atta capiguara, curse of the pastures. 17780

Field studies of sex attraction in the boll weevil. 17790

The phylogenetic development of food selection in certain orthopteroids. 17825

Biting in Orthoptera and their allies. 17826

The molting behavior of the black widow spider, Latrodectus mactans. 17830

Reproductive behavior of the potato tuberworm, Phthorimaea operculella (Zeller), (Lepidoptera: Gelechiidae) and the effect of the chemosterilant metepa. 17836

Preliminary observations on the effect of alcohol and oil films on the oviposition of Culex pipiens quinquefasciatus (Say). 17844

The flight range of Simulium damnosum. 17854

A red dye to evaluate bait formulations and to mass mark field populations of boll weevils. 17856

Pre-imaginal conditioning in Drosophila. 17858

Food distribution within colonies of the Argentine ant, Iridomyrmex humilis (Mayr). 17859

Some aspects of mating behavior in butterflies. 17864

Retraction of the claim that host pregnancy affects pupal production by the tsetse fly. 17867

The development of Theileria parva in the salivary glands of the tick, Rhipicephalus appendiculatus. 17873

A possible marker for european corn borer moths. 17882

Some comparative data on ecology and behaviour of Staphylinid beetles (Coleoptera, Staphylinidae). 17890

Comparative life histories of chlordane-resistant and nonresistant German cockroaches. 17901

The Columbian timber beetle, Corthylus columbianus (Coleoptera: Scolytidae). VIII. Artifacts and characteristics of the host tree. 18129

Behavioural responses of parasites to the symbiotic fungus associated with Sirex noctilio F. 18506

Description of Haemagogus acritinctus, a new species from British Honduras, with a note on the validity of Haemagogus lucifer (H. D. and K.) (Diptera) Culicidae). 18528

The British species of the genus Longitarsus Latreille (Col., Chrysomelidae). 18538

Egg parasites of larch swaflies in Great Britain. 18539

A host catalogue of British entomogenous fungi: First supplement. 18540

Observations on the mirid (Hem.) hosts of Braconidae (Hym.) in Britain. 18542

Studies on overwintering of Anthocoris (Hem., Anthocoridae). 18581

Daily patterns in the activity of the arboreal ant Azteca alfari. 18584

Notes on ant vectors in the life-cycle of a trematode. 18589

Occurrence of syrphid larvae on some aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18602

Butterfly migration. 18611

Quantity of aphids required for reproduction by Hippodamia spp. in the laboratory. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18612

Drinking of water by fleas. 18617

Host selection by the polyphagous species Phytomyza atricornis Meigen (Dipt., agromyzidae). 18621

Notes on the food habits of insects in Kagawa. 18623

Some hymenopterous parasites of caterpillars on oak twigs in winter. 18627

A note on abnormal oviposition habits of the cowpea weevil, Callosobruchus maculatus. 18629

A preliminary study of the dietary requirements of Tomocerus (Collembola). 18631

Miscellaneous prey records of solitary wasps. V. (Hymenoptera: Aculgata). 18632

Observations, including new prey records, of some Nearctic Pompilidae (Hymenoptera). 18633

Some notes on overwintering ladybirds (Col., Coccinellidae. 18635

Round the blue lamp. 18636

Hatching of the winter eggs of the fruit-tree red spider mite (Panonychus ulmi (Koch)). 18637

Petrobia latens (Muller)(Acarina, Tetranychidae) recorded on fruit in kent. 18639

Infestation of emulsion paint by the fly Megaselia scalaris (Loew)(Dipt., Phoridae). 18640

The old house borer. 18642

Larvae of the grey chimoth, antitype (Polia) chi (L.) (Lep., Caradrinidae), feeding on leaves of onion (Allium cepa). 18644

An experimental study of the effect of changing light intensity on the activity of adult locusts. 18648

Dry season biology of Anopheles gambiae Giles in the sudan. 18651

A note on the behavior of Lasius fuliginosus (Latr.)(Hym. Formicidae). 18658

The prey of a Rhodesian Pompilid wasp. 18661

Vagrant Eriophyid mites on Elm. 18662

Aeronautic behavior in the genus Pardosa (Araneae, Lycosidae). 18663

Records of hymenopterous parasites and hyperparasites of certain fruit-tree aphids. 18664

A further note on insect migration on the north coast of France. 18665

Hypera (Phytonomus) arator L. (Col., Curculionidae) associated with acidity in barley. 18672

Effect of food on some aphidophagous Coccinellidae. In: Hodek, I. ed. Ecology of aphidophagous insects. SB975.S9. 18677

Notes on light trap catches of Heteroptera made in the tropics. 18681

Studies on the oviposition behavior and the development of the type of Aedes aegypti L. (Dipt., Culicidae). V. 18684

Studies on the oviposition behavior and development of the type form of Aedes aegypti L. (Dipt., Culicidae). IV. Light intensity. 18685

Studies on the oviposition behaviour and development of the type form of Aedes aegypti L. (Dipt., Culicidae). III. Temperature. 18686

The parasites of British birds and mammals. XXXV. The ectoparasites of the swallow (Hirundo rustica rustica L.). 18687

The parasites of British birds and mammals. XXXVI. New records of bat parasites. 18688

Population studies on the active stages of the black bean aphid. Aphis fabae Scop., on its winter host Equonymus europaeus L. 18694

Annotated bibliography of the literature, 1792-1962, on the elm spanworm, Ennomos subsignarius (Hbn.). z5858.L5F4. 19019

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera). 19028

Entomology department. 19031

Argyrotaenia pulchellana (Haworth) (Lepidoptera, Tortricidae) injurious to fennel (Foeniculum vulgare dulce Mill.) in Campania. 19088

Observations on the effect of flowers on the activity of parasitic hymenoptera. 19090

Investigation of the vineyard behavior of the leafhopper Scaphoideus littoralis in its native nearctic region. 19092

The parasites of British birds and mammals. XL. Ectoparasites of deer in Britain. 19217

Brahman breeding as a factor affecting the attractiveness or repellency of cattle to the horn fly, Haematobia irritans (L.). 19218

Site of damage to whole wheat grains by five species of stored-products beetle. 19231

Some answers to the clover mite problem. 19335

A new species of Alysia parasitic on carrion-feeding flies (Hymenoptera: Braconidae). 19453

Stridulation and behavior in two southeastern Ips bark beetles (Coleoptera: Scolytidae). 19524

Cannibalism during copulation in the brown bush cricket, Hapithus agitator (Gryllidae). 19538

Phasil behaviour shown by two Carpophilus species (Coleoptera, Nitidulidae) in various humidity gradients and its ecological significance. 19542

Notes on the biology of the larval Cigales (Hom. Cicadidae). 19559

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 19573

Parasites and other organisms associated with nests of Amegilla Friese (Hymenoptera: Anthophorinae). 19574

Research on the attractiveness of various conifers in regard to Ips sexdentatus. 19579

Interspecific competition, egg cannibalism and the length of larval instars in Tribolium. 19588

Contribution to the laboratory study of Pnigalio mediterraneus. (Hym. Chalcidoidea Eulophidae). 19591

Notes on the California red scale (Aonidiella aurantii Maskell) in Morocco (Hom., Coccoidea). 19592

Observations on sound transmission in the Phasmid of the Congo, Palophus centaurus. (Cheleut. Phasmidae). 19594

The pollination of oilseed rape (Brassica napus) and the behaviour of bees on the crop. 19605

Observations on the behavior of the blue tick, Boophilus decoloratus (Koch) (Acarina: Ixodidae). 19615

Probing behavior of the pea aphid, Acyrthosiphon pisum. II. Comparisons of salivation and ingestion in host and non-host plant leaves. 19666

Ovulation and induced egg laying by copulation among Drosophila; drop in the percentage of germinating eggs as a function of the duration of their retention. 19667

Basic behavior of North American solpugida. 19675

Methodical reference and council on the breeding of fresh water mite larva parasitic on air insects on (Acari Hydrachnellae). 19676

Electroluminescence plates as mosquito attractants. 19685

Biological conditions of mating and breeding of Gryllus bimaculatus (Orth. Ensif. Gryllidae). 19713

The effect of aggregations of the green peach aphid, Myzus persicae (Sulzer), on the spatial distribution and parasitization of a hymenopterous parasite, Aphidius gifuensis Ashmead. 19721

Notes on sexual activities observed in two species of Drosophila, brachynephros and unispina. 19722

On the circadian rhythms of emergence of caddisflies (Trichoptera). 19743

Investigation into feeding, reproductive biology and development of Limmogeton fieberi Mayr (Belostomatidae, Hemiptera) when contributed to the knowledge of the freshwater snails natural tropical enemies. 19751

Aspects of mating behavior of the gypsy moth. 19771

Fertilization in Drosophila. III. A reevaluation of the role of polyspermy in development of the mutant deep orange. 19777

The problem of rationality controlling the leaf cutter ants. 19887

Epidemiology of aphid-transmitted plant-virus diseases. 19913

A modified 'Gary' bee-trap for use with the cape black honey-bee. 20298

Scolytid pheromones-- Ready or not. 20300

Seasonal cycles of collective activity of termites of the savannas of the Ivory Coast shoal. 20311

Observations on the swarming and the first stage of development of the colony of Allodontermes giffardii Silv. (Isoptera, Termitidae). 20312

Ants, aphids, and jack pine in Manitoba. 20313

An hypothesis concerning the function of the metapleural glands in ants. 20315

Parasitism of the oriental fruit moth, Grapholitha molesta (Busck) (Lepidoptera: Tortricidae) in Ontario, 1956-1965. 20336

INSECT BEHAVIOR

Observations on the nesting behavior of some species of Tachytes (Hymenoptera: Sphecidae, Larrinae). 20338

The use of the mouthparts of Orthoptera during feeding. 20343

Experiments on host selection in the Anopheles gambiae complex. 20345

The pecan nut casebearer, Acrobasis caryae (Lepidoptera: Pyralidae) on mockernut hickory, Carya tomentosa. 20354

The hibernation of caterpillars in a refrigerator. 20358

On the division of labour in the primitive termite Zootermopsis nevadensis (Hagen). 20360

Drinking of water by fleas. 20361

Flight of moths (Lepidoptera, Noctuidea) to different sources of light in the mountain-forest zone of Crimea. 20367

Oviposition cycles and the stimulus for oviposition in Dermestes maculatus DeGeer (Coleoptera: Dermestidae). 20372

The place of Camponotus acvapimensis Mayr (Hymenoptere Formicidae) in the alimental chain of a savanna of the Ivory Coast. 20380

Effect of oviposition sites on egg production and longevity of Trogoderma parabile (Coleoptera: Dermestidae). 20383

Nest construction and life history of the eastern cucurbit bee, Peponapis pruinosa (Hymenoptera: Apoidea). 20387

Host exploitation of two closely related water mites. 20393

Distribution of foraging holes and soil dumps of the harvester termite, Hodotermes mossambicus (Hagen) (Isoptera: Hodotermitidae). 20403

Studies on the ecology of Culicoides midges--the transmitters of blue-tongue and horse-sickness. 20404

The mechanical breakdown of hardwood in the laboratory by Popilius disjunctus (Coleoptera: Passalidae). 20416

Global events concerning mosquitoes in 1966. 20431

Bio-acoustic investigations of the cockroach Leucophaea maderal (F.). 20435

Mating behavior and fitness as a function of single allele differences in Ephestia kuhniella Z.. 20452

Developmental rate and competitive ability in Tribolium. II. Changes in competitive ability following further selection for developmental rate. 20455

Repeated mating and sperm mixing in Drosophila pseudoobscura. 20459

Population structure in the Culex pipiens complex of mosquitos. 20478

Cumulative parental age effects in Drosophila subobscura. 20481

Observations on the habits and control of Culex pipiens fatigans in Guyana. 20484

The behaviour of pollen foragers which lose their load. 20949

Studies on the efficiency of collecting and counting Anopheles gambiae in verandah-trap huts. 20954

New exotic crane-flies (Tipulidae: Diptera). 20956

Stimuli provided by courtship of male Drosophila melanogaster. 20981

Colour affects the landing of bloodsucking black flies (Diptera: Simuliidae) on their hosts. 20991

Insect answers; the alfalfa seed chalcid. 21001

Cannibalism of the pupal stage by adult flour beetles: An experiment and stochastic model. 21010

Comparative allometry in the larval broods of three army-ant genera, and differential growth as related to colony behavior. 21024

Genetics of insect vectors of disease. RA639.W7. 21047

Research and biology of the Taphrina deformans and the method to control these parasites. 21171

Fleas found on rabbits and other mammals from a pasture. 21586

Termites- roasted or as a soup. 21592

Crop pollination and the flower relationships of the wild bees of Ludhiana, India (Hymenoptera: Apoidea). 21652

Ecology of Gomphomastax clauata plotnikovi C. Bol. (Orthoptera Eumastacidae). 21669

The modification of adult life span in Bracon hebetor (Hymenoptera: Braconidae) by irradiation in nitrogen. 21671

Warning sounds of moths. 21673

Response characteristics and probable behavioural roles for abdominal vibration receptors of some cockroaches. 21680

Distribution and adaptive diversity of trapdoor spiders. 21701

Territorial behavior of bark-beetle males. 21703

How flies fly. 21709

Studies on the feeding behavior of green rice leafhopper, Nephotettix cinticeps Uhler. II. Probing frequency of the adult leafhopper. 21711

Field observations on the roosting behavior of the African migratory locust (Locusta migratoria migratorioides R. and F.) in the solitary phase. 21715

The arthropod fauna associated with the birch bracket fungus Polyporus betulinus, in Eastern Canada. 21722

Territoriality in the sheet-web spider Linyphia triangularis (Clerck) (Araneae, Linyphiidae). 21731

The fall webworm, Hyphantria cunea, its distribution and natural enemies: A world list (Lepidoptera: Arctiidae). 21750

Laboratory studies on interspecies trail following and trail preference of army ants (Dorylinae). 21751

Australian dragonflies. 21752

An experimental and genetic analysis of dispersal behavior in Tribolium. 21761

The sitona weevil--a pest of lucerne (Sitona humeralis). 21973

Host-feeding patterns of Anopheles freeborni in the Sacramento Valley, California. 22250

Biological observations on 53 species of the superfamilies, Chalcidoidea and Proctotrupoidea, from Japan (Hymenoptera: Apocrita). 22284

A new Photinus firefly, with notes on mating behavior and a possible case of character displacement (Coleoptera: Lampyridae). 22300

A review of North American Ardeicola (Mallophaga: Philopteridae). 22340

Sexual responses of adult male Aedes aegypti using the forced-copulation technique. 22347

Notes on the biology of the parasitic mite Pyemotes scolyti Oud. (Acari: Pyemotidae). 22352

Demography of the damselfly, Argia plana Calvert (Odonata Coenagriidae). 22356

Antifeeding effect of DDT on bollworm and tobacco budworm larvae. 22362

The regulation of cyclic reproductive and feeding activity in the milkweed bug Oncopeltus by temperature and photoperiod. 22364

Research on the sexual behavior of Pityokteines spinidens Reit. (Coleoptera Scolytidae polygamous) and a study of the factors that make the male more attractive to the female. 22370

Observations on the biology of Gymnaetron pascuorum (Gyll.) (Coleoptera: Curculionidae). 22385

Late-season feeding and emergence of the tobacco flea beetle. 22386

Contributions to the biology of the bumble bee. 22387

Sound-production in Netherland Lycaenidae. 22388

The dance of the bees. 22389

Contributions to the knowledge of host plants of middle German aphididae. 22397

A small contribution concerning the knowledge of Cecidomyiidae. 22399

Contribution to the history of the discovery of insect hormones. 22407

Teflon and cornstarch-coated paper as substrates for oviposition by cabbage looper moths. 22408

Feeding and oviposition behavior in the mosquito Aedes aegypti (L.). I. Preliminary studies of physiological control mechanisms. 22417

Ranges of circadian period length. 22423

Feeding and parasitism in gnats (Dipt.), also some finds. 22431

Central nervous system control of circadian rhythmicity in the cockroach. I. Role of the pars intercerebralis. 22433

A feeding stimulant for pink bollworm larvae in water extracts of cotton. 22434

A note on the oviposition of Simulium (S.) abgyreatum Meigen. 22437

Manifestations of competition in parasite complexes as a problem in biological pest control. 22438

Light reflexes of caterpillars of Bombyx mori L. (Lepid.). 22446

Responses of termites (Insecta: Isoptera) to gravity. 22447

Studies on the biology of Athalia proxima Klug (Tenthredinidae; Hymenoptera). 22449

Ants- ancient city dwellers. 22456

Host-feeding patterns of Culex tarsalis in the Sacramento Valley, California, with notes on other species. 22460

Monarch butterfly (Danaus plexippus) migration studies: Autumnal movement. 22461

Insect and host factors in the aggregation of the southern pine beetle. 22463

The ergonomics of caste in the social insects. 22473

Silverfish and firebrats; how to control them. 22848

Development of a diurnal resting box to collect Culiseta melanura (COQ). 22866

Bionomics of Psorophora varipes, a model laboratory mosquito. 22933

Behavior of irradiated boll weevils. II. Reproduction and mortality in cages with untreated boll weevils. 22934

Behavior of irradiated boll weevils. I. Feeding, attraction, mating, and mortality. 22938

Oviposition and development of the face fly in feces of six species of animals. 22940

Bibliography on the systematics of entomophagous insects. VII. 22950

Some factors influencing the occurrence and site of oviposition by aphidophagous Syrphidae (Diptera). 22951

Studies on the attack behavior of the southern pine beetle. II. Response to attractive host material. 22955

The interrelations between apple aphids and their parasites and hyperparasites. 22971

Notes on the mating habits of the horn fly. 22987

Effects of an octosporeosis on the locomotor activity of adult Phormia regina (Meigen). (Dipt. Calliphoridae). 22997

Defense reactions of Malacosoma neustria against tachinid larvae with simultaneous occurrence of a nuclear polyhedrosis. (1) (2). 23000

Braconidae as parasites of staphylinidae. 23002

Pollen-foraging behavior of Bombus in relation to pollination of nototribic flowers. 23004

Observations on the immature stages of Gimnomera cerea and G. incisurata (Diptera: Anthomyiidae, Scatophaginae). 23016

Studies on the Sitka spruce weevil, Pissodes sitchensis, in British Colombia. 23046

Food specificity in the Aphidiidae (Hymenoptera). 23050

The entomo-parasitic specialization of some Eulophidae (Hym., Chalcidoidea). 23065

The area of effectiveness of the thrust-out reflex in bark beetles. 23069

Toxicity of psychotropic drugs in Drosophila melanogaster. 23409

INSECT BIOCHEMISTRY

Oscillatory mechanism in fibrillar insect flight muscle. 17195

Content and synthesis of gamma aminobutyric acid in the larval brain of Drosophila melanogaster. 17799

Drosophila alcohol dehydrogenase isozymes: identity of molecular size. 17838

Ecology of aphidophagous insects. Symposium, 1965 meeting, september 27-October 1, 1965. Liblice, Czechoslovakia. SB975.S9. 18616

Isolation and characterization of ribonucleic acid from musca domestica (L.). 19548

A glucosinolase system in the aphid Brevicoryne brassicae. 19665

Nuclear and spindle damage during embryonic segmentation, processes, yolk absorption, serosa and blastoderm nucleus in total X-ray irradiated eggs of Kalotermes flavicollis Fabr. (Isoptera). 21747

INSECT BIOLOGY

A preliminary study of the life history of the broad-necked root borer in Rhode Island. 13785

Biology of Tipula paludosa; growth of the larva in the field. 13822

New data to the biology of Capnodis tenebrionis L. (Coleoptera). 13843

Biology of Culex tarsalis during the spring season in Oregon in relation to western encephalitis virus. 13885

Studies on chemical control and general biology of sugar-cane moth borers at Tanganyika Planting Company, Arusha-Chini, Tanzania, 1966--1967. 13936

New records for Aedes species in Manitoba. 14035

A systematic revision and biological review of the cecidomyiid predators (Diptera: Cecidomyiidae) on world Coccoidea (Hemiptera:Homoptera). 14056

Occurrence of Toxorhynchites rutilus septentrionalis (Dyar and Knab) in Indiana. 14057

Bionomics of Cerceris simplex graphica at Lake Texoma (Hymenoptera: Sphecidae: Philanthinae). 14081

Caliscelis bonellii (Latreille), a European genus of Issidae new to the United States (Homoptera: Fulgoroidea). 14100

A rearing method for Aedes abserratus (F. and Y.). 14164

On the biology of the South African citrus psylla, Trioza erytreae (Del Guercio) (Homoptera: Psyllidae). 14235

The synchronization of the life cycle of diapausing face flies, Musca autumnalis, and of the nematode, Heterotylenchus autumnalis. 14265

Erature references to mosquitoes and mosquito-borne diseases. 14325

Notes on a spruce bark weevil, Pissodes alascensis Hopkins (Coleoptera: Curculionidae), in British Columbia. 14434

The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae). 14454

Biological notes on eye-frequenting moths from N. Thailand. 14575

Sampling studies with Aedes vexans and some other Wisconsin Aedes (Diptera: Culicidae). 14813

On the life history and habits of the palm weevil, Rhynchophorus palmarium. 14820

Life-history studies of Amblyseius limonicus, with comparative observations on Amblyseius hibisci (Acarina' Phytosciidae). 14832

The winter biology of Culex tarsalis (Diptera: Culicidae) in Kern county, California. 14837

Some notes on the life history of Plega banksi (Neuroptera Mantispidae). 14845

Rearing and biology of Wohlfahrtia vigil (Diptera: Sarcophagidae). 14875

Life history of the Monterey pine needle miner, Argyresthia pilatella (Lepidoptera' Yponomeutidae). 14898

Tegminal amplifiers and spectrum consistencies in Conocephalus nigropleurum (Bruner), Tettigoniidae. 14925

Larval descriptions of two species of Panorpa (Mecoptera: Panorpidae), with notes on their biology. 14927

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicatans in Louisiana. (abstract). 14933

Obseruations on Odioporus longicollis (Coleoptera, Curculionidae) in Kathmandu Valley and its suburbs. 14955

Exposure of house flies and oriental rat fleas on a highaltitude balloon flight. 14962

Parasitism of Sirex noctilio F by Schlettererius cinctipes (Cresson) (Hymenoptera: Stephanidae). 14965

The biology and ecology of Dendroctonus valens Flec., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleopterai Scolytidae). 15165

A wide-range variable temperature cabinet for bio-ecological studies. 15689

The influence of climate and weather on population age distribution. In:FAO symposium on integrated pest control, Rome, 1965. Proccedings. SB951.F62. 15701

Life history and ecology of Epeorus pleuralis (Banks) (Ephemeroptera: Heptageniidae). 15721

A new plant louse species (Homoptera: Aphididae) from Hungary. 15734

The biology of Eurytoma roseni Claridge (Hym., Eurytomidae). 15743

Host specificity tests with Uroplata girardi Pic., a leafmining hispid from Lantana camara L. 15747

Nesting behavior of Tachytes (Tachyplena) praedator Fox, with a review of the biology of the genus (Hymenoptera: Sphecidae: Larrinae). 15782

Interspecific differences in the biology of aphids (Homoptera: Aphididae) on leaves of Vicia faba. I. Feeding behaviour. 15783

Biology of Trypoxylon in trap nests in Wisconsin (Hymenoptera: Sphecidae). 15790

INSECT BIOLOGY

Tephritid fruit flies. In :smith, C. N. Insect colonization and mass production. QL497.S6. 15814

The pine engraver, Ips pini (Coleoptera: Scolytidae), in the southern Appalachian Mountains. 16282

Laboratory studies of sex attraction in the boll weevil. 16303

Observations on the breeding of Lycophotia molothina (Lepidoptera, Noctuidae). 16308

Influence of photoperiod and temperature on diapause in the face fly, Musca autumnalis (Diptera: Muscidae). 16340

On some new species of Tetramesa Walk., with notes on their parasites (Hymenoptera: Chalcidoidea). 16342

Some unknown data concerning miners (Lepidoptera). 16343

The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle. 16357

Biology of Deltocephalus sonorus (Homoptera: Cicadellidae). 16394

Biology of the corn earworm and control with insecticides and virus in Washington. 16407

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm. 16418

Preliminary report on the introduction of Phytoseiulus persimilis to Poland. 16421

The innervation of the terminal abdominal segments (VII-XI) of the desert locust, Schistocera gregaria. 16451

Biological notes on, and eradication of Trichogramma semifumatum from laboratory cultures of eight species of Noctuidae. 16458

The reproductive biology of Hippelates collusor (Diptera: Chloropidae). II. Gametogenesis. 16489

Cane-sugar feeding in Culex pipiens fatigans. 16501

External parasites of domestic pigeon in United Arabic Republic. 16869

The role of Collembola (Apterygota) in the nutritional system of terrestrial environment. 16996

Biology and natural control of the white-pine weevil in Virginia. 17024

Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States. 17036

Biological studies on chironomids with emphasis on the temperature relations of the developmental stages. 17079

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17100

Caddis larvae. Larvae of the British Trichoptera. QL517.4.H5. 17126

Method of predicting the most active days of stem borer. transl. 16902. 17132

Notes on the biology of some short-horned grasshoppers from Eastern Nigeria (Orthoptera: Acridoidea). 17138

Remarks on black widow spiders, with an account of some anomalies. 17142

Biology and control of the onion thrips in India. 17152

The natural history of three oak-feeding Tortricids: Ptycholoma lecheana (L.), Pandemis cerasana (Hb.) and Batodes angustiorana (Haw.). 17161

Pupation of wintering larvae of the rice stem borer, Chilo suppressalis Walker, reared at 25 C. Transl. 16919. 17168

Biology of the mustard aphid, Lipaphis erysimi, in India. 17194

Biologies of three species of Alydus in Wisconsin. 17225

Treatment and control of scabies, lice and flea infestation of man. 17244

Observations on insects attacking wild rice in Manitoba. 17393

Biological and ecological studies on Caloglyphus mite (Acarinai Acaridae) associated with Scarabaeidae. 17743

Habitat selection by Lipara lucens Mg. (Diptera, Chloropidae) and its survival value. 17761

Studies of caste differentiation in Myrmica rubra L. 9. Maternal environment and the caste bias of larvae. 17791

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17813

Effects of mold inhibitors in larval diet on the biology of the cabbage looper. 17847

About lepidopterous immatures. 17857

Rearing stored product insects for laboratory studies: Six species of moths. 17887

Biology of the elm leaf beetle in southern Arizona. 17898

Survival of the balsam woolly aphid on Abies logs. 18084

Notes on the systematics, host plants, and bionomics of the Bruchid genera Merobruchus and Stator. (Coleoptera: Bruchidae). 18537

A new Culex (Melanoconion) from Florida (Diptera, Culicidae). 18569

Pest infestation research 1967. 423.92 G792. 18579

Drinking of water by fleas. 18617

Entomology department. 19031

Morphology, biology, and phytopathological significance of the genus Appelia C.P. (Aphidoidea: Aphididae). I. 19047

Argyrotaenia pulchellana (Haworth) (Lepidoptera, Tortricidae) injurious to fennel (Foeniculum vulgare dulce Mill.) in Campania. 19088

A new Pulvinaria of the Mediterranean coast: Rhizopulvinaria maritima n. sp. (Coccoidea, Coccidae). 19369

The union of Argia fumipennis (Burmeister, 1839) with Argia violacea (Hagen, 1861), and the recognition of three subspecies (Odonata). 19408

The Mallophaga genus Ricinus De Geer, 1778. Revision of the external american species. 19477

Studies in Nearctic desert sand dune Orthoptera. XI. A new arenicolous species of Stenopelmatus from Coachella valley with Key and biological notes. 19506

Notes on the biology of some Australian stick insects (Phasmatodea). 19552

Notes on the biology of the larval Cigales (Hom. Cicadidae). 19559

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). I. Introduction, methods, phylogeny, biology and ecology, economic importance, distribution, terminology, glossary, historical review, key to related genera, generic descriptions, key to species groups. 19563

A soft scale of vineyards, new for France: Neopulvinaria imeretina Hadz. (Coccoidea Coccidae). 19570

Rhizopulvinaria of Mediterranean pinks. (Coccoidea-coccidae). 19571

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Notes on a colony of Orectognathus antennatus Fr. Smith (Hymenoptera: Myrmicidae) from the Coromandel Peninsula. 19586

Interspecific competition, egg cannibalism and the length of larval instars in Tribolium. 19588

Contribution to the laboratory study of Pnigalio mediterraneus. (Hym. Chalcidoidea Eulophidae). 19591

Study of a Diprion pini population in the Fontainebleau forest. (Hym. Diprionidae). I. Biological data on Diprion pini and its principle parasites. 19596

Preliminary note on the biology of a Hymenoptera Sphecidae: Podalonia (Psammophila) hirsuta (Scopoli). 19608

On the histochemistry and histology of the midintestines of Aedes aegypti and Anopheles stephensi in connection with blood digestion. 19609

New observations on Oribates. (5). 19617

Hexosamine, sialic acid, scromucoid, protein bound hexose and protein levels in the haemolymph of the scorpion, Heterometrus scaber. 19652

Acuticauda erigerontis n. sp. a gall former on Erigeron (Hom. Aphididae). 19654

Solenobia triquetrella Hubner, a flightless parthenogenetic moth, in British Columbia (Lepidoptera: Psychidae). 19655

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Pterocallis anli (Degeer), an aphid not previously recorded from New Zealand. 19658

Methodical reference and counceil on the breeding of fresh water mite larva parasitic on air insects on (Acari Hydrachnellae). 19676

Egg laying mechanism in Rhipicephalus sanguineus (Latreille) (Acarina: Ixodidae). 19679

Some observations on the gall midges Dasyneura epilobii (F. Low) (Diptera: Itonididae) and its gall. 19683

Growth of larvae of the house longhorn beetle (Hylotrupes bajulus L.) in constant conditions. 19702

The bionomics of the raspberry aphids Aphis idaei v. d. Goot and Amphorophora rubi (Kalt.) (Hom., Aphididae). 19703

Notes on the biology of two species of Rhapaidophoridae (Orthoptera) in Tasmania. 19709

Biological conditions of mating and breeding of Gryllus bimaculatus (Orth. Ensif. Gryllidae). 19713

Notes on the biology of Trupanea actinobola (Diptera: Tephritidae). 19729

Notes on the biology and distribution of Florida leafmining flies of the genus Phytobia lioy, subgenus Calycomyza Hendel (Diptera: Agromyzidae). 19730

Study of the variability of several French species of the genus Timarcha Latreille (Col. Chrysomelidae). 19732

The Italian locust Calliptamus italicus L. (Orthoptera, Acrididae) in Kara-Kalpakia. 19733

Photoperiodic induction of the diapause in caterpillars of the pine moth. 19746

Investigation into feeding, reproductive biology and development of Limmogeton fieberi Mayr (Belostomatidae, Hemiptera) when contributed to the knowledge of the freshwater snails natural tropical enemies. 19751

Notes on Braconidae caught in a sweep-net at paddy fields. Part I. (Hymenoptera). 19755

Notes on Bracon onukii Watanabe, a parasite of four species of Lepidopterous borers (Hymenoptera Braconidae). 19762

Further evidence on sexual isolation within Drosophila athabasca. 19782

Note on a spruce bark weevil, Pissodes alascensis Hopkins (Coleoptera: Curculionidae), in British Columbia. 19871

Cone insects of grand fir, Abies grandis (Douglas) Lindley, in British Columbia. 19878

Biological studies on Paracheyletia bakeri (Acarina: Cheyletidae). 19882

Studies on Butozania bulgarica Mink.. 19896

Contarinia kanervoi Barnes (Dipt., Itonididae), bionomics, damage and control. 19900

Wood- and bark-feeding Coleoptera of felled western larch in British Columbia. 19905

The western larch borer, Tetropium velutinum Leconte, in interior British Columbia. 19906

The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae). 19915

New hypopes living in a phoretic association on rodents and marsupials (Acarina: Glycyphagidae). 20189

Pygmephorus species (Acarina: Pyemotidae) associated with cultivated mushrooms. 20204

Study of Thrombidiidae larve. I. The larva of Thrombidium mediterraneum Berlese, 1910. 20252

Contribution to the study of Diptera Malacophage. IV. Identification of Pherbellia obtusa (Fallen) (1820) and the description of a new palearctic species Pherbellia argyra sp. n. (Diptera, Sciomyzidae). 20274

Biology and ecology of the blackbird feather louse. 20305

Life history of Gesta gesta invisus (Lepidoptera: Hesperiidae). 20324

Notes on a weevil's biology. (Col. Curculionidae). 20337

A hypothesis on the subject of larval monsters in the genus Anopheles. 20348

Artificial diet for the zoysiagrass billbug, Sphenophorus venatus vestitus (Coleoptera: Curculionidae), and notes on its biology. 20369

The population biology of the butterfly, Euphydryas editha. V. Character clusters and asymmetry. 20386

Review of the biology of Panurgine bees, with observations on North American forms (Hymenoptera, Andrenidae). 20420

Studies on natural populations of Drosophila. VI. Competition between Drosophila melanogaster and Drosophila simulans. 20438

The population biology of the butterfly, Euphydryas edithaVII. Has E. editha evolved a serpentine race . 20464

Considerations on the evolution of the chromosome complement in Odanata. 20465

Population fitness in Tribolium. II. Population characteristics influencing the capacity for survival. 20469

The phytonome of alfalfa Hypera variabilis Herbst. (Coleoptera, Curculionidae) in southwest France. 20602

The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats. 20968

A review of the literature on the spruce budworm Choristoneura fumiferana (Clemens). aQL561.T8M3. 21009

Contribution to studies of Zeuzera 'Zeuzera pyrina' L. (Lepidoptera Cossidae) in the lower valley of the Rhine: The life cycle and biological characteristics of different stages. 21651

Larval diapause in the tick Ixodes ricinus L. and its dependence on external conditions. IV. Interaction between exogenous and endogenous factors in the regulation of larval diapause. 21655

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree. 21691

Studies on biology of Banmalika leaf minor (Agropistis limatus, Moth,Coleoptera,Halticidae.). A serious pest of Banmalike (Jasminum aquestifolium, Vohl.) in Rajasthan. 21706

Biology of Apis dorsata F. 21723

Biology of the gall-former Procecidochares stonei on a composite. 21742

Several observations on the nature of the spring development of Chermes tardus Dreyf. 21963

The westward movement of pink bollworm. 21995

Synanthropic Diptera of the genera Dasyphora R. D. and Morellia R. D. (Diptera,Muscidae) in Soviet Central Asia. 22157

Contribution to the morphological and biological study of Tetranychus neocaledonicus Andre 1933 (Acarina--Tetranychidae) cotton redspider in Madagascar. 22276

Tapinesthis inermis, a new Oonopid for Germany (Arachnida, Araneae, Oonopidae). 22294

Taxonomy and biology of Trithyreus brasiliensis n. sp. (Arach., Pedipalpi, Schizopeltidia). 22295

The taxonomy and biology of two sympatric sibling species of Culex, C. pipiens and C. torrentium (Diptera, Culicidae). 22331

Contribution of a biological study of Pissodes notatus F. (Col. Curculionidae). 22366

The influence of certain factors on the fecundity of Sitophilus oryzae (L.). 22394

Further observations on the biology of the oyster nut shield bug (Piezosternum calidum Fab.). 22402

Studies on the biology of Athalia proxima Klug (Tenthredinidae; Hymenoptera). 22449

Ants- ancient city dwellers. 22456

The European species of the genus Callitula Spinola (Hymenoptera: Pteromalidae). 22855

Concerning some types of Limneria Hlgr. (Hym. Ichn. Ophioninae). 22876

Contarinia kanervoi Barnes in Sweden (Dipt. Itonididae). 22907

Phytoseiidae (Acarina: Mesostigmata) in the New Jersey apple orchard environment with descriptions of spermathecae and three new species. 22918

On some Coleoptera Buprestidae of Southern and Insular Italy. (VIII. Contribution to the knowledge of Coleoptera Buprestidae of Italy). 22923

Bionomics of Psorophora varipes, a model laboratory mosquito. 22933

Investigations on parasites of Tortrix viridana L. I. Spectrum of species, frequency and dominance. (An evaluation of the literature). 22942

A contribution to the biology of Eurytoma curculionum Mayr (Hym., Eurytomidae). 22972

Observations on the biology of Prospaltella perniciosi Tow. in the Po Valley. 22979

Particle counts of wound tumour virus during its peak concentration in leafhoppers. 22980

Evidence that Ormocerus borges Walker is the male of Epicopterus choreiformis Westwood (Hym., Chalcidoidea, Pteromalidae). 22985

The biology of Choristoneura houstonana (Lepidoptera: Tortricidae), a pest of Juniperus species. 22988

The biology of Microphthalma europaea Egg., a tachinid parasite of the larvae of Scarabaeidae. 22991

A redescription of three species of Proctotrupoidea (Hymenoptera) from Jurine's collection. 23006

The white-fir needle miner, Epinotia meritana, in Utah-. 23011

Research note: Rate of multiplication and sex ratio in relation to the quantity of food material in Bracon brevicornis Wesmael and Perisierola nephantidis Muesebeck.
23027

New data to the biology of Capnodis tenebrionis L. (Coleoptera).
23028

Ferrieropria n. gen. (Hym. Proct. Diapriidae, Diapriinae).
23055

INSECT BREEDING
Biochemical aspects of juvenile hormone action in the adult Locusta migratoria. QL508.A2.M5.
15792

INSECT CAGES
Mutilation and survival of sterile oriental fruit flies and melon flies emerging in drop boxes.
13802

A lightweight, weather-resistant field insect cage.
13837

Individually humidified closed plastic cages for rearing anopheline mosquitoes.
14147

A light-weight cage to confine small insect predators with their prey on the host plant.
14793

Plastic pots compared with clay pots for rearing whitefringed beetle larvae.
14857

New methods of introducing visual and auditory cues. (abstract).
14974

An inexpensive and effective indoor insectary.
15679

A ventilation unit for aerating insectary sleeve cages.
15690

Shipment of Rhyssa persuasoria himalayensis Wilkinson to Australia and New Zealand.
15706

Tobacco hornworms. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15764

Stable flies. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15774

A suggested method of collectings insects associated with forage grass seed production.
16265

An environmental cabinet with variable air velocity for insect studies.
16338

Biophysical and biochemical studies on the nature of resistance of pineapples to the oriental fruit fly.
16710

Field-cage releases of Chrysopa carnea for suppression of populations of the bollworm and the tobacco budworm on cotton.
16712

Small cages for observing leaf lice.
16982

A digestive disturbance in Glossina.
16991

Oviposition behavior of the face fly in caged cow manure pats.
17128

Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease.
17182

The effects of gamma radiation on the navel orangeworm, Paramyclois transitella (Walker) (Lepidoptera: Phycitidae) and the feasibility of control with irradiated adults.
17185

Simple field and laboratory method for recovering living ticks (Ixodoidea) from hosts.
17733

Chemical sterilization of the stable fly Stomoxys calcitrans (Linne), with metepa and hempa.
17797

A simplified field cage for trapping pink bollworm adults.
17819

Medium and techniques for mass rearing the red-banded leaf roller.
17843

Black vine weevil larval damage to concord grape roots at different population densities.
18088

The efficiency of aphidophagous insects in control of Aphis fabae Scop. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18498

Observation on the effect of temperature on the development and the leg coloration of Oscinella frit L. (Dipt., Oscinellidae).
18591

Importance of intraspecific competition in aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18696

An aphid predator exclusion test. In: Hodek, i., ed. Ecology of aphidophagous insects. SB975.S9.
19071

Remarks on the transport and the expedition of Culex pipiens fatigans.
20158

A waxed-paper laboratory cage for sterilization studies with the Oriental fruit moth, Grapholitha molesta (Busck) (Lepidoptera: Torticidae).
21682

Are Hylemya cilicrura and Hylemya liturata two separate species.
21704

Concerning the influence of various light colors and the different population densities on the lifespan and egg production of the carrot fly, Psila rosea Fabr.
22310

Culiseta melanura (Coquillett) breeding in artificial containers.
22465

INSECT COLLECTING EQUIPMENT
A portable aspirator for collecting mosquitoes.
13717

Versatile mosquito trap.
13891

A method of recovering eggs of the western corn rootworm from the soil.
14017

AEHA cartridge-type aspirators.
14028

An improved portable resting station for Anopheles quadrimaculatus Say.
14034

Modification of the ice water method for harvesting Anopheles and Culex pupae.
14058

A collapsible, portable vehicle-mounted insect trap.
14083

A portable mosquito trap for use with a bantam fowl.
14104

Procedure used to recover a sex attractant for the male tobacco hornworm.
14148

Influence of near-ultraviolet output of attractant lamps on catches of insects by light traps.
14792

The CDC Sweeper, a six volt mechanical aspirator for collecting adult mosquitoes. (abstract).
15685

Attack distribution of Dasyneura brassicae Winnertz in large area plantations (Diptera: Itonididae).
15981

A suggested method of collectings insects associated with forage grass seed production.
16265

A comparison of animal- and dry-ice-baited traps for the collection of tabanids.
16977

A brief review of the principles of light trap design with a description of an efficient trap for collecting noctuid moths.
16979

Collecting pupae of the fall arymworm from rearing containers.
16980

Marking tobacco hornworm moths for night recovery with a blacklight lamp.
16998

A rack for holding male gypsy moths during laboratory bioassays of airborne attractants.
16999

Insecticides in dry sugar baits against two strains of house flies.
17072

Catch of insects at different heights in traps equipped with blacklight lamps.
17736

Alate aphid species captured in yellow pans.
17806

A simplified field cage for trapping pink bollworm adults.
17819

Meteorological factors affecting the activity of night flying Macro-Lepidoptera.
17832

Interception of apple maggot adults on colored traps in an orchard.
17860

Chambers for collecting and observing single pupae of three stored-product moths.
17883

A collapsible truck-boat trap for collecting blood-fed mosquitoes and tabanids.
18568

Round the blue lamp.
18636

Extraction of soil microarthropodes by the Berlese-Tullgren apparatus.
19446

An efficient laboratory technique for obtaining pine bark beetle eggs and young larvae.
19543

Butterflies; collecting and preparation. Ed 2. QL465.L32.
20223

A report on the blackflies (Simuliidae) of Delaware. II. description and discussion of blackfly habitats.
20265

Locating the eggs of Aedes vexans (Mg.) (Diptera: Culicidae).
20377

Some methods of rearing and collecting black flies (Diptera Simuliidae).
20446

Light-trap collections of mosquitoes near Belleville, Ontario, in 1965.
20483

Studies on the efficiency of collecting and counting Anopheles gambiae in verandah-trap huts.
20954

A flight trap for collecting living insects.
21587

Research on forest ecosystems. Series b: the mixed calcified oak-grove of Virelles-Blaimont. Contribution no. 19 Insect collections in tubes of water.
21681

A dry ice-baited trap for the collection and field storage of hematophagous Diptera.
22244

Initial survey of arthropod predators of the European red mite in south-central Pennsylvania.
22282

A new effective flotation method for the collection of nidicolous parasites and other nest inhabitants.
22293

Comparison of three methods of extracting the flower thrips from rose flowers.
22317

A collection device for Leptoconops kerteszi (Diptera: Ceratopogonidae) biting gnats.
22393

A mechanical harvester for collecting larvae of the wheat stem sawfly.
22537

Development of a diurnal resting box to collect Culiseta melanura (COQ).
22866

INSECT CONTROL

Laboratory procedures. in: Principles of insect chemosterilization, G. C. LaBrecque and C. N. Smith, ed. S959.L3.
13819

Principles of insect chemosterilization.
13820

Cytogenetic and cellular basis of chemically induced sterility in insects. in: Principles of insect chemosterilization, G. C. LaBrecque and C. N. Smith, ed. S959.L3.

Insect answers; the alfalfa seed chalcid. 21001

Insect answers; the green peach aphid. 21021

Predacious hyphomycetes and their application in the control of pathogenic nematodes. QK625.M74S63. 21031

Booby-trapping as an alternative to sterile males for insect control. 21033

Genetics of insect vectors of disease. RA639.W7. 21047

Potato leaf roll virus transmission as affected by plant locality. 21101

The soybean cyst nematode threat. 21176

Almond sticktights contribute to navel orangeworm infestations. 21177

Insect control on cucumbers, melons, squash and pumpkins. 21185

Rice water weevil increase noted in California. 21191

Control of aphids on barley. Economic treatment levels. Analysis of yield increases. 21202

Okra production. 21227

Efficacy of homologous antigens and coumaphos. Comparative effects against the cattle

grubs Hypoderma spp., and a discussion of coumaphos toxicity.
21460

The toxicity of some soil insecticides to carabid predators of the cabbage root fly (Erioischia brassicae (Bouche)).
21523

Those durable oils. II. Insecticidal oils.
21552

Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields.
21588

Cockroach insecticides. How repellent are they .
21589

The role of chemicals in the general insect control picture.
21617

Finnish entomological literature published in 1966, including economic entomology and control of insect pests.
21636

Virus diseases of the rose.
21958

Effects of phenols on the plant.
21961

Some factors influencing control of the two-spotted spider mite Tetranychus urticae Koch (Acarina: Tetranychidae), on greenhouse cucumbers.
21970

Cutting down cane losses from termites and shoot borer.
21978

DD-136 nematode that can kill many insect pests.
21991

The westward movement of pink bollworm.
21995

War on locusts goes on.
22000

Whole godown fumigation is economical and safe.
22177

A standard yellow jacket trap for population sampling and control evaluation.
22249

Contribution to the morphological and biological study of Tetranychus neocaledonicus Andre 1933 (Acarina--Tetranychidae) cotton red-spider in Madagascar.
22276

Entomology and entomologists.
22306

N-methyl 3-methyl-5-ethyl phenyl carbamate as an insecticide Patent 3,422,198.
22357

Field studies of insecticides for control of the coffee leaf miner, Leucoptera coffeella.
22365

Can insect hormones and their mimics be used to control pests .
22390

A collection device for Leptoconops kerteszi (Diptera: Ceratopogonidae) biting gnats.
22393

Calculating the grade of effectiveness of a microbiological control action against insect pests.
22395

An estimate of the area of Danish forestry which is treated with pesticides other than herbicides.
22518

Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice.
22522

The pear psylla, Psylla pyricola Foerster, in Ontario; Homoptera: Chermidae.
22544

Termite control measures in building construction.
22785

Threshold values in the economics of insect pest control in agriculture.
22841

Method of visual control of the infestations of arthropod parasites of apple trees.
22937

The biological titration of crystals of Bacillus thuringiensis Berliner by consummation reduction at the La Miniere laboratory.
22948

Symposium on the titration of Bacillus thuringiensis Berliner preparations. (Paris, 5-7 March 1964).
22953

International symposium on the identification and assay of viruses and Bacillus thuringiensis used for insect control. (London 13th July 1964).
22954

Some information on Triatomids of Pernamifuco.
22966

The efficacy of a mixture of Bacillus thuringiensis Berl. and of DDT against Agrotis ipsilon Rott. (Noctuidae).
22986

Production, identification, and standardization of insect viral pathogens.
22992

An attempt at the liquidation of a primary center of mass appearance of injurious insect.
22996

The identification of Bacillus thuringiensis.
23019

Factors affecting the susceptibility of insects to viruses.
23058

Facts about fruit fly.
23174

The effectivness of the polyhedrosis virus for control of the cabbage looper, Trichoplusia ni.
23192

The impact of insects on second-year cone crops in red pine seed-production areas.
23198

The influence of infestation by early shoot borer Chilotraea infuscatellus Sn. on shoot production and yield of sugarcane.
23204

Controlling external parasites of poultry--recommended pesticides.
23352

Effects of apholate, an insect sterilant, on an estuarine fish, shrimp, and gastropod.
23392

INSECT CULTURES

Studies on Odontoloxozus longicornis (Diptera: Neriidae.) Part I. Life history and descriptions of immature stages.
14839

Eggs of floodwater mosquitoes (Diptera: Culicidae). XI. Effect of medium on hatching of Aedes sticticus.
16345

In vitro cultivation of Choristoneura fumiferana (Clemens) (Lepidoptera:Tortricidae) tissues.
16457

Eighth seminar on trypanosomiasis, abstract of papers.
16986

A digestive disturbance in Glossina.
16991

A comparative study of salivary gland chromosome asynapsis in tumorigenic and closely related non-tumorigenic strains of Drosophila melanogaster.
17804

Simple techniques for the rearing of Collembola and a note on the use of a fungistatic substance in the cultures.
18503

Change in patterns of inhibition by actinomycin D of uridine-H3 incorporation into salivary gland RNA of Rhynchosciara at different larval ages.
18643

Dry season biology of Anopheles gambiae Giles in the sudan.
18651

The use of nematodes and oligochaetes for rearing predatory mites.
19724

Toxicity of tobacco smoke to the spotted alfalfa aphid Therioaphis maculata (Buckton).
21003

Induction of resistance to Bacillus thuringiensis in a laboratory strain of house flies.
22471

Study of the efficacy of Prospaltella perniciosi Tow. in Switzerland as a parasite of the San Jose scale.
23007

Bacteria from granary weevils collected from laboratory colonies and field infestations.
23379

Methyl parathion resistance in a laboratory strain of the bollworm.
23445

INSECT DETECTION

Radar observations of locust swarms.
14836

INSECT DISEASE RESISTANCE

Development of resistance in the silkworm, Bombyx mori, to peroral infection of a cytoplasmic-polyhedrosis virus.
13855

INSECT DISEASES

The biology and life history of Nosema tracheophila sp n (Protozoa: Cnidospora: Microsporidea) found in Coccinella septempunctata Linnaeus (Coleoptera: Coccinellidae).
13774

Plistophora caecorum sp n, a microsporidian of Culiseta inornata (Diptera: Culicidae) from Louisiana.
13776

The effet of heat, cold, and prolonged storage on a granulosis virus of Pieris brassicae.
13781

The species of the form genus Sporotrichum Link on insects.
13786

Immunofluorescence studies on Bombyx mori ovarian tissue cultures infected with nuclear-polyhedrosis virus.
13817

Field tests with a nuclear polyhedral virus against the bollworm and tobacco budworm, 1964-1966.
13826

The nature of Achromobacter nematophilus as an insect pathogen.
13838

Electrophoretic separation of the hemolymph proteins in the fall webworm, Hyphantria cunca, infected with a nuclear-polyhedrosis virus.
13856

Site of viral RNA synthesis within the midgut cells of the silkworm, Bombyx mori, infected with cytoplasmicpolyhedrosis virus.
13857

Polyhedron size as taxonomic criterion for cytoplasmic-polyhedrosis virus.
14094

Different infection response of silkworm larvae to the locality of cytoplasmic-polyhedrosis virus injection.
14095

Stempellia magna (Kudo) (Nosematidae: Microsporidia) in Culex restuans Theobald from Virginia.
14152

Nematode parasites of Culieidae and Chaoboridae in Louisiana.
14171

New records of parasites of Ceratopogonidae.
14172

Stempellia magna in the tree hole mosquito, Aedes sieprensis.
14174

The effect of Bacillus thuringiensis Berliner on Drosophila melanogaster Meigen.
14194

INSECT DISEASES

A taxonomic key proposed for the species of the crystalliferous bacteria. 14197

Epizootics among populations of the yellow mealworm, Tenebrio molitor. 14204

Laboratory and field cage tests with Bacillus thuringiensis against pink-bollworm larvae. 14207

Prospects of integrated microbial and radiation control of harmful insects. 14210

Electron-microscope investigation of the structure of the nuclear-polyhedrosis virus of the silkworm, Bombyx mori. 14220

Appressorium-like structures in insect parasitizing deuteromycetes. 14224

Preliminary report of the effects of bacterial species upon the European corn borer. 14239

Nuclear polyhedrosis of the gram pod borer, Heliothis armigera. 14242

The phospholipase and gelatinase activity of gram-negative bacteria isolated from diseased insects, and typing of strains of Serratia marcescens. 14246

Histological changes in Plusia orichalcea caused by Bacillus thuringiensis. 14249

Observations on Culex pipiens larvae infested with Vorticella sp. 14258

Effect of gamma irradiation on the growth rate of species of Bacillus cereus Group. 14261

Previously unreported accessions for diagnosis and new records. 14264

Infection of cultured silkworm embryos with the cytoplasmic-polyhedrosis virus. 14269

A cytoplasmic polyhedrosis of the cabbage looper, Trichoplusia ni. 14279

Protein synthesis in the tissues of the silkworm, Bombyx mori, infected with nuclear-polyhedrosis virus. 14283

Persistence of Heliothis nuclear-polyhedrosis virus on cotton foliage. 14430

Beauveria bassiana infecting adult clover root curculios in Missouri. 14431

Fine structure of some insect viruses. 14860

Transmission of some insect viruses with particular reference to ovarial transmission and its importance in the development of epizootics. 14862

Fecundity, longevity, and transinfectivity of citrus red mites (Panonychus citri) infected with a noninclusion virus. 14883

A noninclusion virus of Gonometa podocarpi (Lepidoptera' Lasiocampidae). 14889

The mechanisms of pathogenicity of Pseudomonas aeruginosa (Schroeter) Migula. i. The pathogenicity of strain N-06 for larvae of the greater wax moth, Galleria mellonella (Linnaeus). 14911

Bacterial pathogens in Iowa corn insects. 14940

Editorial: A call to invertebrate pathologists. 14961

The epizootiology of virus diseases in field populations of the armyworm, Pseudaletia unipuncta (Haworth). 14964

Food-plant spectrum and elimination of disease of cinnabar moth larvae, Hypocrita jacobaeae (L.) (0lepidoptera: Arctiidae). 15276

Report of second work conference on the utilization of nuclear-polyhedrosis virus for the control of Heliothis species. 15740

Nosema acridophagus sp n, a microsporidian isolated from grasshoppers. 15761

Pathogenicity of Bacillus thuringiensis Berliner for two species of webworms. 15768

Insect viruses. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15770

False wireworms. In:Smith, C.N. Insect colonization and mass production. QL497.S6. 15788

Infections of leafhoppers and its tissues cultivated in vitro with Chilo iridescent virus. 15793

Diseases of insects. 15827

Biotic factors in the control of Aedes aegypti. 15846

Leptomonas oestri n.sp., a flagellate parasite of the digestive tract of Oestrus ovis. 16328

Nosema apis and dysentery of the honeybee. 16359

Laboratory research on Acarapis woodi Rennie, the causative agent of acarine disease of the honeybee. note 5. 16393

Biology of the corn earworm and control with insecticides and virus in Washington. 16407

Observations of the spread of mycosis in mosquitoes. 16438

Plistophora scolyti sp. n. (Protozoa, Microsporidia), a new parasite of Scolytus scolytus F. (Col., Scolytidae). 16475

Triplosporium tetranychi sp. n. (Phycomycetes, Entomophthoraceae), a fungus infecting the red mite Tetranychus althaeae Hanst. 16476

Some problems connected with the use of light traps. 16976

Experiments on simultaneous infections of the common cockchafer, Melolontha melolontha. 16985

A digestive disturbance in Glossina. 16991

On histopathology and histochemistry of insecticide-treated insects. I-Non-specific phosphatases in the midgut and caeca of pyrethrins treated Periplaneta americana L. 17055

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17100

Observations on the infection of Japanese beetle larvae with Bacillus popilliae. 17119

Interactions between a microsporidian pathogen of the lawn-armyworm and hymenopterous parasite Apanteles marginiventris. 17150

Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease. 17182

Inclusions in adults of the European pine sawfly, Neodiprion sertifer (Geoff.). 17208

Oncogenesis in the (tu) y2v;vg strain of Drosophila melanogaster. 17787

Preliminary evaluation of a granulosis virus for control of the codling moth. 17822

A study of the nuclear polyhedrosis virus on the beet armyworm, Spodoptera exigua (Hubner), with emphasis on stability, pathogenicity and histopathology. 17837

Results concerning humoral immunity of Pyrrhocoris apterus l. and Galleria mellonella F. 17842

Ethylene oxide for the control of American foulbrood in honey bees. 17881

Influence of a virus disease on the hemocytic anticryptogramic reactions in insects. 17893

Introducing and establishing the noninclusion virus of the citrus red mite in citrus groves. 18117

Some notes on natural enemies of Lygaeidae (Hem.). 18603

The fall webworm are infestations limited by natural control. 18620

Multiplication of Drosophila hereditary virus (sigma virus) in Drosophila embryonic cells cultivated in vitro. 18650

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicitans (Walker) in Louisiana. 18654

A new Pulvinaria of the Mediterranean coast: Rhizopulvinaria maritima n. sp. (Coccoidea, Coccidae). 19369

Study of a Diprion pini population in the Fontainebleau forest. (Hym. Diprionidae). I. Biological data on Diprion pini and its principle parasites. 19596

The mortality of honey bees by means of an unknown agent. 19604

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical formes to vermicules. 19606

Parasitism of the intestinal cells of Galleria mellonella L. by the densonucleosis virus. 19651

Some studies on the resistance of honey bee larvae to mortality from Streptococcus pluton. 19744

New host-record of Apanteles ruficrus to Japan. (Hymen.: Braconidae). 19756

Agricultural problems of Ceylon. 20144

Sanitary legislation of the well known contagious diseases of bees in France; loques, acarine disease, nosema disease. 20294

The inactivation of the nuclear polyhedrosis virus of trichoplusia ni by gamma and ultraviolet radiation. 20363

Virus filaments with rod forms, insect virus of the genus Borrelinavirus. 20370

The control of Pachypasa capensis L. (Lepidoptera) with a virus disease. 20621

Some effects of microbial pathogens on insects. 20976

The application of pH determinations to insect pathology. 20996

Insect diseases resulting from malnutrition. 20998

Infectivity of Trypanosoma rhodesiense to tsetse flies fed through animal membranes.
21013

Genetics of insect vectors of disease. RA639.W7.
21047

Epizootiological research on milky disease caused by Bacillus popilliae (Melolontha).
21686

New observation concerning the pathogenic action of Trypanosoma rangeli Tejera, 1920 on Rhodnius prolixus Stal, 1859.
22401

Induction of resistance to Bacillus thuringiensis in a laboratory strain of house flies.
22471

About the characterisation of products based on Bacillus thuringiensis Berliner with regard to the biological titration of the soluble thermostable toxin.
22947

International symposium on the identification and assay of viruses and Bacillus thuringiensis used for insect control. (London 13th July 1964).
22954

Titer determinations of preparations of Bacillus thuringiensis Berliner.
22982

Production, identification, and standardization of insect viral pathogens.
22992

Effects of an octosporeosis on the locomotor activity of adult Phormia regina (Meigen). (Dipt. Calliphoridae).
22997

Bioassay and standardization of Bacillus thuringiensis preparations: Spore-endotoxine-complex.
22998

Effect of the toxin of the parasporal inclusion of Bacillus thuringiensis Berliner on the mesentery of Pieris brassicae L.
23005

The identification of Bacillus thuringiensis.
23019

Infection of the citrus red mite with virus in central and southern California.
23042

Effect of temperature on infection of the garden symphylan by Entomophthora coronata.
23053

Factors affecting the susceptibility of insects to viruses.
23058

A rickettsial disease of the desert locust (Schistocerca gregaria Forsk.).
23061

Morphological study of the virus of the spindle disease of Coleoptera.
23062

The effectivness of the polyhedrosis virus for control of the cabbage looper, Trichoplusia ni.
23192

INSECT DISSEMINATION

Horn fly dispersal.
13809

Distribution of plum curculio injury in a sour cherry orchard and sampling procedures for determining the extent of injury.
13928

Hibernation site and dispersal of spruce budworm larvae as related to damage of sapling balsam fir.
14156

Distribution of released Japanese beetles in a grid of traps.
14795

The distribution, life history, and economic importance of the winter moth, Operophtera brumata (L.) (Lepidoptera, Geometridae) in Nova Scotia.
14811

Dispersal and migration of tepa-sterilized Mexican fruit flies.
14842

The distribution of Dermacentor ticks in Canada in relation to bioclimatic zones.
16350

Vital dyes as markers for behavioral and population studies of the larch sawfly, Pristiphora erichsonii (Hymenoptera: Tenthredinidae).
16398

Flight activity of honeybees in a flight and rearing room. I. The influence of light intensity.
16436

The effect of age on the flight performance of female Aedes aegypti mosquitoes.
16446

Flight height, droplet size, and moisture influence on grasshopper control achieved with malathion applied aerially at ULV.
16455

Cane-sugar feeding in Culex pipiens fatigans.
16501

Insect abundance.
16997

Seasonal abundance and distribution of sugarcane stem borers in Nigeria.
17031

Review of some recent research on Onchocerca vectors.
17039

Addenda to the list of the butterflies of Michigan.
17050

A decade of insect population ecology in Japan.
17061

Oviposition behavior of the face fly in caged cow manure pats.
17128

Epiphytology of onion yellow dwarf.
17391

The distribution of rice stem borer in the rice stubbles, with special reference to the possibility of its dispersion from the frame for dessicating reaped rice plants. Transl. 16893.
17396

Tick infestation of livestock in Natal. I. The predilection sites and seasonal variations of cattle ticks.
17596

The distribution of houseflies in a simulated dining room after knockdown by aerosols containing pyrethrins and aerosols containing D. D. V. P.
17705

A review of recent literature on the host plant range of the genus Liriomyza mik (Diptera: Agromyzidae) in the Continental United States and Hawaii, excluding Alaska.
17770

Mechanical and electrical activity in the indirect flight muscles of the honey bee.
17820

Spread of the boll weevil by drainage water and air currents.
17824

The flight range of Simulium damnosum.
17854

Techniques of marking insects with micronized fluorescent dust with especial emphasis on marking millions of Lygus hesperus for dispersal studies.
17886

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River mission, Cape York Peninsula, north Queensland. I. Mosquito collections, 1963-1966.
17914

Survival of the balsam woolly aphid on Abies logs.
18084

Occurrence of fiber containing fluorescent spots associated with Aspergillus flavus boll rot in the U. S. cotton crop of 1967.
18108

Western corn rootworm egg distribution and adult emergence under two corn tillage systems.
18111

The separation of Sitophilus oryzae (L.) and S. zeamais motschulsky (Col., Curculionidae), with a summary of their distribution.
18534

Checklist of West African Culicini (Dipt., Culicidae) with brief notes on territorial distribution and breeding sites.
18571

The migration of insects in th Spanish Central Pyrenees, autumn, 1958.
18655

Some species of Sarcophaga (Dipt., Calliphoridae occurring at Fetcham, Surrey.
18678

Some Agromyzidae (Diptera) from Morocco.
18682

The natural history of Monomorium pharaonis (L.) (Hym., Formicidae) infesting houses in Nigeria.
18683

X-ray induction of autosomal translocations in mature oocytes of Drosophila melanogaster.
18689

Domestic quaratine notices. Japanese beetles.
18705

Domestic quarantine notices. Japanese beetle. Regulated areas.
18713

Distribution of phony peach vectors in South Carolina.
19034

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 5. A. (P.) zumpti, new species, a parasite of the South African Cape vulture.
19415

Proceedings: Twentieth Annual Meeting of the Utah Mosquito Abatement Association.
19582

The role of the Papuan area in insect evolution and dissemination.
19619

Distribution of the alfalfa weevil, Hypera postica (Gyll.) in New York.
20168

A note on Quedius boopoides Munster and Q. umbrinus auctt. Brit. (Col. Staphylinidae).
20210

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec.
20222

Missouri distribution of species of Hypera (Coleoptera: Curculionidae).
20239

Observations on the habits and control of Culex pipiens fatigans in Guyana.
20484

The European pine sawfly, Neodiprion sertifer (Geoff.) Hymenoptera: Diprionidae), a review with emphasis on studies in Ontario.
20613

Difference in flight capacity between naturally occurring spring and summer forms of Myzus persicae (Sulz.) (Hemiptera: Aphididae).
20623

Field vector studies of epizootic east coast fever. V. The occurrence of Boophilus decloratus in the east coast fever zones.
20801

The effect of temperature and relative humidity on the flight performance of female Aedes aegypti.
21022

Distribution and adaptive diversity of trapdoor spiders.
21701

How flies fly.
21709

A review of North American Ardeicola (Mallophaga: Philopteridae).
22340

Sun orientation during migration in some British butterflies.
22350

INSECT ECOLOGY

The distribution pattern of indirect flight muscle fibres in Aedes aegypti (L.) (Diptera: Culicidae).
22354

Contributions to the biology of the bumble bee.
22387

A pheromone-like dispersant affecting the local distribution of the European house cricket, Acheta domestica.
22448

Veromessor lobognathus: Fourth note (Hymenoptera: Formicidae).
22467

The armyworm Pseudaletia unipuncta Haworth in Ontario in 1964.
22525

Ticks (Ixodoidea) of domestic animals in Iraq; spring and early summer infestations in the Liwas of Baghdad, Kut, Amara, and Basra.
22755

Bird ectoparasites from South Farallon Island, California.
22770

INSECT ECOLOGY

Field observations on twenty-eight broods of floodwater mosquitoes resulting from controlled floodings of a natural habitat in the Tennessee Valley.
13716

Anopheles stephensi Liston in Egypt, UAR.
13724

Biology of Tipula paludosa; growth of the larva in the field.
13822

Temporal dissociation and population regulation in certain hesperiine butterflies.
14038

Differences in insect abundance and diversity between wetter and drier sites during a tropical dry season.
14066

Bionomics of Cerceris simplex graphica at Lake Texoma (Hymenoptera: Sphecidae: Philanthinae).
14081

Ecological studies on the resting stage of the pink bollworm in Egypt (Lepidoptera:Gelechiidae).
14099

Marking Culex pipiens Linn. Larvae with vital dyes for larval ecological studies.
14103

Occurrence of Aedes abserratus (Felt and Young) and Culiseta morsitans (Theobald) in Indiana.
14113

Bionomics of Grotea californica Cresson, with a description of the larva and pupa.
14114

The ecology of cold hardiness in different populations of the black currant gall mite, Cecidophyopsis ribis.
14124

Biology and ecology of ticks (Ixodoidea) from the Ivory Coast.
14144

Effects of phloem temperature and moisture content of the Southern pine beetle.
14187

Erature references to mosquitoes and mosquito-borne diseases.
14325

Dynamics of populations. il. factors controlling population growth and population size in Drosophila pseudoobscura and in Drosophila melanogaster.
14803

Ecology of an oasis.
14809

On the ecology of Anthocoris nemorum (L) (Hemiptera: Heteroptera).
14810

The biology and ecology of Dendroctonus valens Flec., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleopterai Scolytidae).
15165

A wide-range variable temperature cabinet for bio-ecological studies.
15689

On the ecology of Anthocoris nemorum (L.) (HemipteraHeteroptera).
15703

Ecological notes concerning Tamarcha from Tunisia and Libya (Col., Chrysomelidae).
15714

Life history and ecology of Epeorus pleuralis (Banks) (Ephemeroptera: Heptageniidae).
15721

Observations on the ecology of Glossina morsitans submorsitans Newst. iin the Guinea-Sudan transition savanna of northern Nigeria.
15735

Tephritid fruit flies. In :smith, C. N. Insect colonization and mass production. QL497.S6.
15814

The role of parasites and predators in integrated control. In: FAO symposium on integrated pest control, Rome, 1965. Proceedings.
15992

Resolute research to defeat grassgrub.
15996

Parasitic mites. In: Smith,C.N.Insect colonization and mass production. QL497.S6.
16091

Differences in ecological responses of three biotypes of Ostrinia nubilalis from the north central United States.
16280

The pine engraver, Ips pini (Coleoptera: Scolytidae), in the southern Appalachian Mountains.
16282

Ecology of insect populations in theory and practice. QL496.C55.
16283

Comparison of the soil inhabiting Coleoptera from two oakbirch forests.
16309

An environmental cabinet with variable air velocity for insect studies.
16338

The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle.
16357

Taxonomy and the integrated control of mites.
16363

Ecological significance of respiration and substrate for burrowing Ephemeroptera.
16383

Supercooling of the saguaro species Drosophila nigrospiracula in the Sonoran Desert.
16425

Bionomics, sexual behavior, and adult anatomy of the albida group of the genus Epicauta (Coleoptera: Meloidae).
16430

Ecology and behavior of the migratory Locust in southwest Madagascar.
16463

Field trials to control Colorado beetle, leptinotarsa decemlineata, with Perillus bioculatus.
16474

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions.
16485

The temperature-humidity-relationship in the activity of the common wood tick.
16867

To the methods of studying the environmental temperature of the tick Ixodes ricinus L.
16974

Eighth seminar on trypanosomiasis, abstract of papers.
16986

Megastigmus spp. (Hymenoptera: Torymidae) associated with the seeds of Pinus spp.
17030

Seasonal abundance and distribution of sugarcane stem borers in Nigeria.
17031

Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece).
17058

Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece).
17059

A decade of insect population ecology in Japan.
17061

Bionomic notes on the hexapodous parasites of Acrobasis rubrifasciella.
17074

The spiders of Mississippi.
17097

Postembryonic reproductive-systems development in Empoasca fabae.
17124

Studies on the observation of the rice stem borer about the relation between the weight and the growth of overwintering larvae. (report 1). Transl. 16792.
17143

Role of the host plant concerning the sexual attractiveness of Acrolepia assectella Zeller. (Lep. Plutellidae).
17186

Occurrence of harmful insects in direct sown paddy field in warmer regions and their control. Mainly on the ecology of insects which carry paddy virus. Transl. 16911.
17383

Studies on the ecology of rice green caterpillar. I.On the habit of progress in the north part of Hokkaido (Kamikawa area). II. On the active time of adults by night. III. on the relation between the activity of adults by night and weather. Transl. 16696.
17384

Preliminary data on the ecology of the coffee worm Araecerus fasciculatus de Geer.
17400

Tick infestation of livestock in Natal. I. The predilection sites and seasonal variations of cattle ticks.
17596

On a tenth new Sphaerocceraspis of the central African forest (Hom. Coccoidea Diaspidini).
17740

Notes on the chorology and ecology of Araneidae from the Alban Hills (Araneae).
17741

A contribution to the ecology of the May-fly Palingenia sublongicauda Tshern. In the Volga delta.
17754

Habitat selection by Lipara lucens Mg. (Diptera, Chloropidae) and its survival value.
17761

Notes on raising Lepidoptera in Meurthe and Moselle.
17763

On the distribution of Ixodes angustus Neum.(Ixodidae).
17768

A preliminary report of the mosquitoes in the Gilgit Agency area.
17772

Bionomics of the mosquito Anopheles franciscanus Mccracken in California.
17783

A comparative study of salivary gland chromosome asynapsis in tumorigenic and closely related non-tumorigenic strains of Drosophila melanogaster.
17804

Ecological characteristics of the diapause of the Phytonome of the Luzerne Hypera variabilis. (Col. Curculionidae).
17817

Field and laboratory studies on the ecology and morphology of Nabis americoferus Carayon and its parasites in California.
17834

INSECT ECOLOGY

Larch sawfly survival in relation to water levels and microtopography in tamarak bogs. 17839

Some comparative data on ecology and behaviour of Staphylinid beetles (Coleoptera, Staphylinidae). 17890

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River Mission, Cape York Peninsula, north Queensland. II. Arbovirus infections of mosquitoes, man, and domestic fowls, 1963-1966. 17910

Observations on the use of a predator to control red spider mite on commercial cucumber nurseries. 18504

Transient competitive displacement in natural populations of whirligig beetles. 18536

Hydrogen ion concentration (pH) as related to the occurrence and abundance of tree-hole dwelling Culicoides spp., (Diptera: Ceratapogonidae) in northern Florida. 18564

Daily patterns in the activity of the arboreal ant Azteca alfari. 18584

32-Phosphorus tracer studies of a horseweed-aphid-ant food chain. 18599

Occurrence of syrphid larvae on some aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18602

Food ecology of aphidophagus Coccinellidae. In his Ecology of aphidophagous insects. SB975.S9. 18614

Ecology of aphidophagous insects. Symposium, 1965 meeting, september 27-October 1, 1965. Liblice, Czechoslovakia. SB975.S9. 18616

Food ecology of aphidophagous insects. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18676

Studies on the oviposition behavior and the development of the type of Aedes aegypti L. (Dipt., Culicidae). V. 18684

Ants in western France. 19347

Contribution to the study of the Orthodoptera of Nepal. 19372

Little known and new litter-inhabiting Laelapine mites (Acari, Mesostigmata) from Israel. 19375

Digamasellid mites associated with bark beetles and litter in North America. 19417

The extension in Europe of Gnathotricus materiarius Fitch (Coleoptera Scolytidae). 19420

A new concept in the investigation of the Lepidoptera of lower Austria and northern Burgenland. 19448

Description and bioecological observations of a new species of Scotussa (Orthoptera, Acrididae). 19456

Ecological and systematical investigation into Chironomids (Diptera) of Lake Constance. A contribution to the 'lakustrischen' Chironomid fauna of the northern alpine districts. 19475

Ecological and systematical investigation of Chironomids (Diptera) of Lake Constance. A contribution to the 'lakustrischen' Chronomid fauna of the northern alpine districts. 19476

Notes on environmental determinants of tropical versus temperate insect size patterns. 19492

Contribution to the study of Coleoptera of the Beni-Abbes and Sahara valley. 19503

On the effect of phosphate esters on several Arthropods within the apple-trees biozones independent of their density. 19536

Phasil behaviour shown by two Carpophilus species (Coleoptera, Nitidulidae) in various humidity gradients and its ecological significance. 19542

Corticole fauna of the Sea-Pine: Elatophilus nigricornis. (Hem. Anthocoridae). 19553

Research on the determination of the production of winged sexupares in the male Dysaphis plantaginea Pass. (Hom. Aphididae). 19555

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). I. Introduction, methods, phylogeny, biology and ecology, economic importance, distribution, terminology, glossary, historical review, key to related genera, generic descriptions, key to species groups. 19563

Study of a Diprion pini population in the Fontainebleau forest (Hym. Diprionidae). II. establishing a mortality table. 19612

Some quantitative analysis on the Chrysomelid fauna of the Ryukyu archipelago. 19643

Geographic variation and climatic adaptation in a field cricket (Orthoptera: Gryllidae). 19662

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Why bring in statistics . 19674

Biometric observations on the imagoes of the mosquito Aedes vexans Meig from the region of Hodonin in 1966. 19690

Field investigations on the ecology of tick-borne encephalitis (TBE-CEE) virus in lower Austria. 19699

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae). 19710

Principle of analytical Synecology and recent methods of sampling in Entomological Ecology. 19712

The degree of infestation of several bird species with mallophaga. 19718

The response of some Macrochelids to temperature and humidity (Acarina: Macrochelidae). 19725

The Italian locust Calliptamus italicus L. (Orthoptera, Acrididae) in Kara-Kalpakia. 19733

Investigation into feeding, reproductive biology and development of Limmogeton fieberi Mayr (Belostomatidae, Hemiptera) when contributed to the knowledge of the freshwater snails natural tropical enemies. 19751

Acari and Collembola of moorland soils from Yorkshire, England. I. Description of the sites and their populations. 19759

Acari an Collembola of moorland soils from Yorkshire, England. II. Vertical distribution in four grassland soils. 19760

Acari and Collembola of moorland soils from Yorkshire, England. III. The micro-arthropod communities. 19761

Notes on Bracon onukii Watanabe, a parasite of four species of Lepidopterous borers (Hymenoptera Braconidae). 19762

Pest management concepts and control of tick paralysis in British Columbia. 19796

Science probing deep and wide to combat menace of grassgrub. 19899

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia. 19903

Occurrence and distribution of the Culex pipiens complex. 20170

Influence of birds on the oak leaf roller (Tortrix viridana L.): Synecological investigations of the crown fauna of an oak--horn beam forrest (part II). 20295

Preliminary results of a nine year investigation of Bachhydracarinen (Acari-Trombidiformes). 20302

Biology and ecology of the blackbird feather louse. 20305

Influence of temperature and moisture on the survival of cocoons, and on adult emergence of Bucculatrix canadensisella. 20309

Notes on a weevil's biology. (Col. Curculionidae). 20337

Some ecological facts about two Dutch Melanips species (Hymenoptera, Cynipidae). 20339

Collection of Simuliids from the Ivory Coast. Study of the activity of the females of Simulium damnosum Theobald. 20346

Simulium damnosum Theobald in a dry savannah (region of Garango, Upper Volta) (Dipter,. Simuliidae). III. Division of evolutionary stages in the course of a year. 20375

Distribution of foraging holes and soil dumps of the harvester termite, Hodotermes mossambicus (Hagen) (Isoptera: Hodotermitidae). 20403

Studies on the ecology of Culicoides midges--the transmitters of blue-tongue and horse-sickness. 20404

Fauna and ecological investigations of stalk flies in the Berlin area. (Dipt. Chloropidae). 20442

An ecological situation which produced a change in the proportion of Drosophila melanogaster to Drosophila simulans. 20463

Selection at a high humidity for green and brown Solitaria hopper coloration in Locustana pardalina (Walker). 20473

The summer and autumn daily activity of common wood ticks in the woods of Jezirko near Brno. 20805

The oriental fruit moth Grapholitha molesta (Busck) (Lepidoptera: Olethreutidae) in Ontario. 20944

Notes on the capture of Buchananiella continua and Elatophilus crassicornis Reuter in northern Italy and further description of these species (Heteroptera, Anthocoridae). 20967

From the tropical rain forest of the Amazon II. 20979

Co-ordinated neuromuscular activity in insect spiracles at sub-zero temperatures. 20984

Distribution and abundance of Hylotrupes bajulus L. (Col., Cerambycidae) and Anobium punctatum de Geer (Col., Anobiidae) along the Sognefjord in west Norway. 21004

INSECT EGGS

A review of the literature on the spruce budworm Choristoneura fumiferana (Clemens). aQL561.T8M3. 21009

Comparative allometry in the larval broods of three army-ant genera, and differential growth as related to colony behavior. 21024

Investigation into the relationship between soil moisture and Carabid colonization in meadow populations. 21032

The treehoppers of Wisconsin in relation to the tension zone (Homoptera, Membracidae). 21602

A collection of spiders from Son Norway. 21642

What is a bee . 21643

Weather conditions and daily activity of dragonflies (Odonata). 21656

Influence of soil humidity on the location in depth of the galley beet worm during a favorable season. 21659

The larvae and pupae of the British Cylindrotominae and Limoniinae (Diptera, Tipulidae). 21664

Ecology of Gomphomastax clauata plotnikovi C. Bol. (Orthoptera Eumastacidae). 21669

The role of soil arthropods in community energetics. 21678

Research on forest ecosystems. Series b: the mixed calcified oak-grove of Virelles-Blaimont. Contribution no. 19 Insect collections in tubes of water. 21681

The bionomics and ecology of Anthocoris confusus Reuter in Scotland. 21685

Synanthedon flaviventris Stgr. (Lep., Aegeriidae) found in Suomesta. 21690

The present distribution of Hylotrupes bajulus L. (Col., Cerambycidae) in Norway and its abundance in some districts. 21694

On the habitats of some Lonchaea species in fennoscandia (Dipt., Lonchaeidae). 21716

Territoriality in the sheet-web spider Linyphia triangularis (Clerck) (Araneae, Linyphiidae). 21731

Observations on wood-destroying insects living in the footbridge over Siikaneva bog. 22178

Taxonomy--ecology, a mutual relationship. 22291

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). I. Description of a limited area of a cloudy forest and the taxonomy of the Phlebotomus (Diptera, Psychodidae). 22329

Amphipyra pyramidea L. a double species (Lep., Agrolidae). 22336

The Dipterous genus Diostracus Loew (Dolichopodidae). 22337

Notes on the Scandinavian Ptychopteridae, with description of a new species (Diptera). 22339

Some Swedish Hydroporus species (Col., Dytiscidae) with descriptions of Hydroporus eljasi n. sp. . 22343

Sun orientation during migration in some British butterflies. 22350

Notes on the biology of the parasitic mite Pyemotes scolyti Oud. (Acari: Pyemotidae). 22352

Investigations into the circumpolar blackfly fauna (fam. Simuliidae, Dipt.). 22368

The concept of microclimate from an entomological point of view. 22376

To the methods of studying the environmental temperature of the tick Ixodes ricinus L. 22381

Observations on the biology of Gymnaetron pascuorum (Gyll.) (Coleoptera: Curculionidae). 22385

Observations on the alpine fauna of Coleoptera and its origin. 22412

Observations on the larva of Hippotion celerio Linnaeus (Lepid., Sphingidae) in Tanzania. 22413

Manifestations of competition in parasite complexes as a problem in biological pest control. 22438

Acclimatization of insects to low temperatures. 22454

Systematic discontinuities between eggs and hoppers from individual egg-pods of the brown locust. 22462

A brood of Callidium texanum Schaeffer (Cerambycidae). 22468

The ergonomics of caste in the social insects. 22473

A preliminary report on the breeding sites and incidence of Aedes in Delhi. 22484

The evolution of resistance in hosts and pests. 22497

The taxonomic status of Dialectica soffneris (Gregor Povolny) and Parectopa cupediella (Herrich-Shaffer) (Lepidoptera, Lithocolletidae). 22873

Contribution to the study of the specificity in the principal species of aphidiphagous Coccinellidae in Alpes-Maritimes and Basses-Alpes. 22881

Thoracispa dregei Chapuis. 227. Contribution to the knowledge of the Hispinae. 22929

Bionomics of Psorophora varipes, a model laboratory mosquito. 22933

An attempt at the liquidation of a primary center of mass appearance of injurious insect. 22996

New data to the biology of Capnodis tenebrionis L. (Coleoptera). 23028

Biological observations on some sand flies (Phelebotomus) of Rancho Grande (Venezuela). 5. Gonamicroclimatic factors determining endemisms of the Phlebotomus--fauna of Rancho Grande. 23040

An ant Atta capiguara, plague of pastures. 23176

Materials on destructive insects of Pinus pithiusa Stev. in Pitzunda (Georgian Soviet Socialist Republic). 23197

Bionomics and distribution of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae). 23206

Port officers keep constant watch against carpenter ants. 23378

A survey of the wild species of Drosophilidae within multiple role of fungal centrioles. (Abstract) Monongalia County, West Virginia. 23418

INSECT EGGS

Iconography of Lepidoptera eggs in the Belgium fauna. 13746

Sculpturing of the eggs of the Lepidoptera fauna of Belgium. 13747

Free amino acids and derivatives in eggs of Drosophila, Culex and Phormia. 13777

Experiments on nuclear transplantation in Drosophila melanogaster. preliminary report. 13790

Effect of ultraviolet irradiation on egg hatch, subsequent larval development, and adult longevity of the tobacco budworm and the bollworm. 13797

Hatch, larval development, and adult longevity of four lepidopterous species after thermal treatment of eggs. 13798

Influence of photoperiod, temperature, and food on initiation of diapause in the apple maggot. 13840

Effect of gamma irradiation on female Culex pipiens quinquefasciatus. 13851

Releases of sterile screw-worm flies in northern Veracruz, Mexico, measured by recovery of sterile egg masses. 14179

Investigations of relationships of egg length to female size and egg number in Anopheles claviger typicus Meigen, with references to development of length in larvae. (Investigations of the insect fauna in place 15). (Diptera: Culicidae). 14221

The effect of apholate and thiotepa on nucleic acid synthesis and nucleotide ratios in housefly eggs. 14930

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicatans in Louisiana. (abstract). 14933

Note: Elimination of microsporidiosis in laboratory-reared European corn borers by the use of heat. 14939

The effect of circadian rhythm on the development of Drosophila. 14941

Failure to isolate microorganisms from within mosquito eggs. 14968

A new bleaching technique with possible general use in entomology. 15686

The biology of Eurytoma roseni Claridge (Hym., Eurytomidae). 15743

The relation between soil water tension and rate of development of the eggs of Tipula oleracea and T paludosa (Diptera: Nematocera). 15789

Taxonomic and biological studies on Culicoides in Egypt, (Diptera: Chironomidae-Ceratopogoninae). Studies on the viability of the eggs of Culicoides schultzei (Ender.) under laboratory conditions. 15800

Tyrosine activity in the eggs of white-eyed mutants in the silkworm, Bombyx mori. 15804

On the conditions regulating the egg-hatching of Nilaparvata lugens. 15818

Inhibition by 5-fluoroorotic acid of the ovarian development of house flies, Musca domestica. 16322

Eggs of floodwater mosquitoes (Diptera: Culicidae). XI. Effect of medium on hatching of Aedes sticticus.
16345

The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle.
16357

The diel oviposition periodicity of the black fly, Simulium vittatum.
16372

The effects of cadmium compounds on reproduction and growth of the stable fly, Stomoxys calcitrans (Linnaeus).
16410

Mass sterilization of Japanese beetles with tepa and the determination of residues.
16412

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm.
16418

Effects of ionizing radiation on the European chafer, the plum curculio, and the large milkweed bug.
16422

The effect of temperature upon the development of the heartand-dart moth (Agrotis exclamationis L.).
16431

Oothecae of the Blattaria.
16444

Ovarioles of the Blattaria.
16445

Biological notes on, and eradication of Trichogramma semifumatum from laboratory cultures of eight species of Noctuidae.
16458

Defense reactions of Drosophila species (Diptera: Drosophilidae) to the parasite Pseudeucoila bochei(Hymenoptera: Cynipidae).
16459

Survival of overwinting alfalfa weevil eggs in Pennsylvania.
16466

Embryology of the house fly, Musca domestica (Diptera: Muscidae), to the blastoderm stage.
16477

Inherited sterility in progeny of irradiated male cabbage loopers.
16496

Biophysical and biochemical studies on the nature of resistance of pineapples to the oriental fruit fly.
16710

Field-cage releases of Chrysopa carnea for suppression of populations of the bollworm and the tobacco budworm on cotton.
16712

Action of aqueous iodine on ova of Ascaris lumbricoides an Ascaris suum.
16716

Individual egging device for tephritid flies.
16981

The effect of temperature and moisture on the development of Fannia canicularis (L.) and Fannia femoralis (Stein) (Diptera: Muscidae).
17095

Resistance patterns and fecundity of house flies (Musca domestica L.) selected with diazinon, dimetilan, and combinations of the two insecticides.
17105

An improved method for embedding and sectioning eggs of the migratory grasshopper, Melanoplus sanguinipes Fab. (Orthoptera: Acrididae).
17106

Sexual competitiveness of male boll weevils sterilized with apholate unaffected by diet.
17112

Observations on the infection of Japanese beetle larvae with Bacillus popilliae.
17119

Oviposition behavior of the face fly in caged cow manure pats.
17128

The effects of various oxygen tensions on embryogeny and larval responses of Aedes aegypti.
17141

Histological changes produced by a ruby laser in Neodiprion sertifer Geoff.
17145

Sexual differential in time of hatch of eggs of the gypsy moth.
17154

Diapause in gypsy moth.
17155

Synthesis and distribution of RNA in Cecropia oocyte differentiation.
17184

The effects of gamma radiation on the navel orangeworm, Paramyelois transitella (Walker) (Lepidoptera: Phycitidae) and the feasibility of control with irradiated adults.
17185

Role of the host plant concerning the sexual attractiveness of Acrolepia assectella Zeller. (Lep. Plutellidae).
17186

Present status of biological control of the pear psylla in southern Oregon.
17218

The inheritance of fertility in Drosophila melanogaster.
17230

A study of radiation-induced dominant lethals and translocations in Drosophila virilis in an oxygen atmosphere at 4 C.
17235

Resistance of cattle to cattle tick, Boophilus microplus. I. The development of resistance to experimental infestation.
17473

Studies of caste differentiation in Myrmica rubra L. 9. Maternal environment and the caste bias of larvae.
17791

Temperature relationships of the development of northern corn rootworm eggs.
17802

The influence of temperature and humidity on the development of Tenebrio molitor L.
17850

Vital staininining of insect eggs by incorporation of trypan blue.
17878

Improvement of a method for culturing the eggs of the Phasmid Carausius morosus Br. deprived of the chorion.
17894

Winter oviposition by the alfalfa weevil in Virginia.
17900

Black vine weevil larval damage to concord grape roots at different population densities.
18088

Western corn rootworm egg distribution and adult emergence under two corn tillage systems.
18111

Egg distribution as a factor in suppressing the green peach aphid by pruning.
18122

Egg parasites of larch swaflies in Great Britain.
18539

Stimulation of yolk deposition in an ichneumonid parasitoid by feeding synthetic juvenile hormone.
18588

Hatching of the winter eggs of the fruit-tree red spider mite (Panonychus ulmi (Koch)).
18637

Circadian oscillation controlling hatching: Its ontogeny during embryogenesis of a moth.
18645

Multiplication of Drosophila hereditary virus (sigma virus) in Drosophila embryonic cells cultivated in vitro.
18650

Dry season biology of Anopheles gambiae Giles in the sudan.
18651

Information on Spruce Sawflies VIII. Egg count and oviposition.
18959

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera).
19028

The action of Sevin on codling moth eggs.
19044

Eggs of moths among the Ethmiidae, Acrolophidae and Hepialidae--Microlepidoptera.
19468

An efficient laboratory technique for obtaining pine bark beetle eggs and young larvae.
19543

Studies on the structure of the eggs of an Indian Stink Bug Cyclopelta siccifolia Westwood (Hemiptera-Heteroptera Penthtomidae).
19557

Interspecific competition, egg cannibalism and the length of larval instars in Tribolium.
19588

Dipterous eggs as food for adult Coccinellidae (Coleoptera: Coccinellidae).
19611

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L.
19660

Ovulation and induced egg laying by copulation among Drosophila; drop in the percentage of germinating eggs as a function of the duration of their retention.
19667

Neural and hormonal influence on the fecundity and egglaying of certain oxyurid nematodes inhabiting the hind gut of the cockroach, Periplaneta americana L..
19678

Aspects of parthenogenic ovogenesis in different groups of aphids.
19687

Some eggs of moths from several families of Microlepidoptera.
19693

Eggs of moths from additional species of Geometridae-Lepidoptera.
19694

Investigations on the developmental physiology of the embryonic mycetom of Euscelis plebejus F. (Homoptera, Cicadina). I. Isolation and abnormal combinations of detailed components of the symbiontic systems.
19717

Research on the neuro-endocrine control of oviposition in Carausius morosus Br. (Phasmides-Cheleutoptera).
19739

Oostatic hormone production in houseflies, Musca domestica, with developing ovaries.
20293

Effect of oviposition sites on egg production and longevity of Trogoderma parabile (Coleoptera: Dermestidae).
20383

Ring-canals and intercellular communication within the eggchamber of a tsetse fly species.
20407

Analysis of the synthesis of some yolk proteins under the influence of the Corpora allata of Leucophaea maderae.
20424

The effect of protein sources and of the frequency of egg collection on egg production by the housefly (Musca domestica L.).
20426

The endocrine and nutritional control of egg maturation in the fleshfly Sarcophaga bullata.
20444

An infestation of Comstock mealybug, Pseudococcus comstocki (Kuw.) (Homoptera: Coccoidea) on peach in ontario. 20952

Electrophoretic patterns of larval haemolymph-proteins in autogenous and anautogenous forms of Culex pipiens L. 20986

Biosynthesis and occurrence of free amino acids in eggs of the grasshopper, Aulocara elliotti. 21666

A biochemical look at insect diapause. 21684

Effects of parental age on the life cycle of the southern green stink bug, Nezara viridula L. (Heteroptera: Pentatomidae. 21693

The use of attractants in pest control. 21981

Contributions to the biology of the bumble bee. 22387

A staining technique for jack-pine budworm egg masses. 22415

Histological observations of the formation of elementary and reproductive ova in the ovaries of Plagiolepis pygmaea Latr. (Hymenoptera Formicidae). 22435

The ecology of Sminthurus viridis (Collembola). II. Diapause in the aestivating egg. 22464

Induction of resistance to Bacillus thuringiensis in a laboratory strain of house flies. 22471

Distribution of Trichoplusia ni eggs and larvae on cabbage plants as a basis for sampling efficiency. 22872

Some factors influencing the occurrence and site of oviposition by aphidophagous Syrphidae (Diptera). 22951

The pattern of movements of adults of the Northern corn rootworm inside and outside of corn fields. 22952

A contribution to the biology of Eurytoma curculionum Mayr (Hym., Eurytomidae). 22972

The biology of Choristoneura houstonana (Lepidoptera: Tortricidae), a pest of Juniperus species. 22988

The biology of Microphthalma europaea Egg., a tachinid parasite of the larvae of Scarabaeidae. 22991

Comparative study of the methods of counting Panonychus ulmi Koch populations. 23008

The white-fir needle miner, Epinotia meritana, in Utah-. 23011

Chemosterilant effects of tepa, apholate, and metepa on the alfalfa weevil. 23012

A contribution to the technique of the mass reproduction of the Angoumois grain moth Sitotroga cerealella (Oliv.). 23017

Radiolabeling of tick progeny by inoculation of procreant females. 23048

Apholate-induced sterility in Bracon hebetor. 23063

Asolcus bennisi n. sp. (Hymenoptera, Proctotrupoidea) an oophagous parasite of Graphosoma lineata L. (Het. Pentatomidae). 23066

The egg- and larval development of Trogoderma angustum Sol. (Dermestidae). 23071

Control of pinyon needle scale with dimethoate. 23202

INSECT EVOLUTION

The evolution of genitalia and mating behavior in crickets (Gryllidae) and other Orthoptera. 14146

Some outstanding questions in insect behaviour. 14216

Contribution to the development of the anterior head and the mouth region of Periplaneta americana. 21730

Results of the transplantation of the ovaries of imagos to Locusta migratoria (L.). 21749

A contribution to the alimentary canal, salivary glands and Malpighian tubules of Saccharicoccus sacchi Cockerell (Homoptera Pseudococcidae). 21754

The histology and histochemistry of the anterior mid-gut of Periplaneta americana L. (Dictyoptera: Blattidae) with reference to the formation of the peritrophic membrane. 22422

Regenerating tissues from the cockroach, Leucophaea maderae: Nerve regeneration in vitro. 22425

Development and structure of the compound eye in the cotton leaf-worm, Prodenia litura F., and the pink boll-worm, Pectinophora gossypiella S. (Lepidoptera). 22970

A histological study of neurosecretion in ants (Formicoidea). 22981

INSECT HORMONES
Structure of cyasterone, a novel C-29 insect-moulting substance from Cyathula capitata. 19735

INSECT IDENTIFICATION
Keys for the identification of Polish insects. XIX. coleoptera. part 98b. curculionidae, Otiorhynchinae, Brachyderinae. 13751

The kind of cockroaches we find in North Carolina. 13864

The genus Laelaspis, with descriptions of three new species (Acarina: Laelaptidae). 14826

A new genus and a new species of Pyraustinae (Lepidoptera: Pyralidae). 14834

Characters for specific identification of females in the leafhopper genus Empoasca (Hemiptera:Cicadellidae). 14838

An illustrated catalogue of the Rothschild collection of Nycteribiidae (Diptera) in the British Museum (Natural History); with keys and short description for the identification of subfamilies, genera, species and subspecies. QL468.T45. 15736

A suggested method of collectings insects associated with forage grass seed production. 16265

Ten new chrysomelid beetles from Dominica and Jamaica. 16269

Mosquitoes of the genus Culiseta in Connecticutt (Diptera: Culicidae). 16348

Taxonomy and the integrated control of mites. 16363

Six new species of Membracidae (Hemiptera: Homoptera) from South Africa. 17011

Second contribution to the knowledge of the African Coccoidea (Homoptera). 17013

Some Pulvinaria species (Homoptera: Coccidae) of the Ethiopian region. 17027

Megastigmus spp. (Hymenoptera: Torymidae) associated with the seeds of Pinus spp. 17030

Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States. 17036

Key to rapid identification of antropophilic Phlebotomus in the cutaneous area of leishmaniasis in Mexico. 17241

A revision of the oriental species of Palexorista Townsend (Diptera: Tachinidae, Sturmiini). 17744

New Zealand Noctuidae (Lepidoptera): Summary of known host plants and a bibliography relevant to the biology of the group. 17749

On morphology of larvae of the III instar in synanthropic species of flies from the genus Hydrotaea R.D. (Diptera, Muscidae). 17758

On larvae of Hispinae (Coleoptera, Chrysomelidae) of the fauna of the USSR. 17759

A description of the pupa of the pales weevil, Hylobius pales, and a method for identifying its sex. 17773

Siphona kangwagyci n. sp., a blood sucking fly from Uganda (Diptera: Muscidae). 17776

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17813

Parthenogenesis in gum emperor moth Antheraea eucalypti (Scott). 17840

On the Sphodromantis of the species viridis from northwest Africa. 17849

Efficiency of aphidophagous insects in Iraq. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18497

Two new species of Longitarsus Latr. (Col., Chrysomelidae) in Britain. 18508

Hymenoptera from Turkey: Symphyta. 18511

A new genus for the leaf-edge-rolling Pontania (Hym., Tenthredinidae). 18512

Bedfordshire sawflies: With some new foodplants. 18517

Some new and little-known Acridoidea (Orthoptera) from west Africa. 18518

On some new characters of classificatory importance in adults of Elateridae (Coleoptera). 18521

Two new Aphis species (Hem., Aphididae) from Australia. 18522

The Agromyzidae (Diptera) of Woodwalton Feni Supplement. 18532

The British species of the genus Longitarsus Latreille (Col., Chrysomelidae). 18538

New records of Hemiptera-Heteroptera from Wiltshire and north Somerset. 18544

Techniques for determining thoracic scale patterns on alcohol-preserved mosquitoes. 18545

Moths unrecorded from Shikoku. 18550

Biometric data for Rhopalosiphum fitchii Sand. (Hem., aphididae) with notes on synonymy. 18555

New name combinations and notes on some African and Asian species of Aleyrodidae (Homoptera). 18558

Taxonomic notes on some larvae of the genus Aedes (Diptera: Culicidae) from Lokoja in Northern Nigeria. 18559

Two new Lygaeidae (Hemiptera) from Africa. 18565

A new parasimulium and further records for the type species (Diptera: Simuliidae). 18570

Some records of ectoparasites from birds collected at the jersey Bird Observatory. 18572

Undescribed species of Nematocerous Diptera. 18580

The Agromyzidae (Diptera) of Woodwalton Fen. 18610

Some genera, especially Eutettix of Japan and Formosa (Hemipterai Deltocephalidae). 18622

Miscellaneous biological notes on aculeate Hymenoptera in Kagawa in the years of 1948 and 1949. 18624

The old house borer. 18642

Notes on the Buprestidae. 18646

Notes on the collection of British ants in the Hope Department at Oxford. 18656

Some species of Sarcophaga (Dipt., Calliphoridae occurring at Fetcham, Surrey. 18678

Some Agromyzidae (Diptera) from Morocco. 18682

A tick new to Ireland- Ixodes (Exopalpiger) trianguliceps Birula, 1895. 19215

Strymon leda (Lepidoptera, Lycaenidae) in southern Nevada. 19344

Revision of the tribe Phantasini. (Col. Cerambycidae). 19361

Water mites of the genus Stygomomonia in North America (Acarina, Momoniidae). 19374

A contribution to the systematics of the genus Amitermes (Isoptera: Termitidae) in Australia. 19404

Australian Blattidae (Blattodea). IX. Revision of Polyzosteriinae tribe Methanini, Tryonicinae, and Blattinae. 19443

Two new species of the genus Aulacorthum Mordvilko from Japan, (Homoptera: Aphididae). 19457

Genera and species of the Dermaptera. 7. Chelisochidae (Forficuloidea). 19470

On a reported new genus of Ptiliidae, Macdonaldium Abd. and Abd., from Canada. 19498

A key to species of the Cnesinus LeConte (Coleoptera: Scolytidae) of North and Central America. 19527

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). I. Introduction, methods, phylogeny, biology and ecology, economic importance, distribution, terminology, glossary, historical review, key to related genera, generic descriptions, key to species groups. 19563

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Notes on a colony of Orectognathus antennatus Fr. Smith (Hymenoptera: Myrmicidae) from the Coromandel Peninsula. 19586

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Pterocallis anli (Degeer), an aphid not previously recorded from New Zealand. 19658

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Notes on insects taken in New Zealand. 19661

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. The Australian workerless inquiline ant Strumigenys xenos Brown (Hymenoptera: Formicidae) recorded from New Zealand. 19737

Contamination indexes in degerminated corn products. 20062

New exotic crane-flies (Tipulidae: Diptera). II. 20166

Water mites from puddles 'Vechten'. 20173

Notes on Bruchidae of America north of Mexico with a list of world genera. 20174

New generic and specific synonymy in Oriental Tachinidae (Diptera). 20179

Concerning breed braconid wasps. 20192

A new Chaetadoretus from Angola (Col. Scarab. Rutel.). 20195

Key to the Central and South American species of the subgenera Spilota of the genus Anomala including some new descriptions (Col. Scarabaeidae, Rutelinae). 20196

New species of the genus Microcamenta Per. (Col. Scarabaeidae Sericinae). 20197

The identity of Megachile rotundata (Fabricius) and M. argentata (Fabricius) (Hymenoptera: Apoidea). 20207

The complex of Timarcha scabripennis Fairmaire from Marocco (Col. Chrysomelidae). 20212

Contribution to the knowledge of the genus Syachis F. Bates (Coleoptera, Tenebrionidae). 20213

Notes on the taxonomy of Culicoides from Louisiana (Diptera: Ceratopogonidae). 20214

The aphids that feed on cacti. 20227

Revision of the genus Theone Gistl (Coleoptera, Chrysomelidae, Galerucinae). 20234

The genus Xyleborus Eichhoff (Coleoptera, Scolytidae). Supplement, correction and enlargement of the diagnosis. Part III. 20241

Known and unknown Scarabaeidae (Hybosorinae, Troginae, Orphninae, Dynamopinae, Geotrupinae, Aegialiinae). 20245

African species of the genus Glaresis Erichson and one in a closely related new genus (Troginae, Scarabaeidae, Coleoptera). 20246

Contribution to the knowledge of the genus Megachile Latr. (Hym. Apidae): Subgenus Eutricharaea and its hitherto known species. 20251

A new Tenebrionid genus and specie from central Asia (Coleoptera-Tenebrionidae-Pimeliini). 20263

Hispinae from the G Frey Museum. Part 5. 231. Contribution to the knowledge of the Hispinae (Coleopt. Chrysomelidae). 20270

Contribution to the study of Dipterous malacophages VI. Pherbellia fuscipes (Macquart, 1835), a valid Palearctic species, similar to P. dorsata (Zetterstedt, 1846) (Diptera Sciomyzidae). 20273

Notes on Alaskan Drosophilidae (Diptera), with the description of a new species. 20280

A new species of Osborniella (Mallophaga: Menoponidae) from Trinidad. 20287

Scolytid pheromones-- Ready or not. 20300

The use of the mouthparts of Orthoptera during feeding. 20343

Description of the castes of Tetraponera anthracina Santschi (Hym., Formicidae, Promyrmicinae). 20439

The status of apple leaf rollers in Norfolk County, Ontario. 20608

Survey of insect pests and plant diseases of selected food crops of Mexico, Central America, and Panama. 20615

Cluster flies in the home. 20945

The Tabanidae (Diptera) of Ontario. 20950

New exotic crane-flies (Tipulidae: Diptera). 20956

A key to the grasshopper species (Orthoptera:Acridoidea) recorded from Ghana. 20962

The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats. 20968

A study on the helminth fauna of Philippine goats. 21388

Dirofilaria immitis in a native cat. 21474

A faunistic study of Philippine aphids (Aphididae, Homoptera). 21598

An undescribed Phytoseius from Florida and Mexico. (Acarina: Phytoseiidae). 21601

Revision of Sphaerocera, with description of a new genus Afromyia (Diptera: Sphaeroceridae). 21615

Six new species and one new name of some Dipterous families from Japan. 21627

What is a bee . 21643

Geometridae, new for Turkey, discovered in 1939-42 by J. Romieux. 21646

Crop pollination and the flower relationships of the wild bees of Ludhiana, India (Hymenoptera: Apoidea). 21652

A problem in the diagnosis of head lice. 21696

On the reinform nematode Rotylenchulus nicotiana (Yokoo et Tanaka, 1954) n. comb. in Japan (Tylenchida: Hoplolaimidae). 21712

Buprestis aurulenta L. (Col., Buprestidae) in Ireland. 21727

Description of the adult Tetranychus telarius L. (Acarina, Tetranychidae). 21740

New species of the sub-family Bombinae of the Palaearctic Region (Hymenoptera, Apoidea). 21744

Laboratory studies on interspecies trail following and trail preference of army ants (Dorylinae). 21751

Australian dragonflies. 21752

Selecting tomatoes for resistance to spider mites. 21997

Abnormal individuals and taxonomic errors (Hymenopt.).
22257

Lectotype designations of Cerambycidae in the British Museum (Natural History) (Coleoptera).
22263

Lectotype designations of Cerambycidae in the Museum d' Histoire Naturelle, Paris (Coleoptera).
22264

New species of Erythroneura (Homoptera: Cicadellidae).
22280

On the identity of the Greek parasitic insect oistros.
22285

The prairie peninsula and secondary intergradation in Photinus fireflies (Coleoptera: Lampyridae).
22301

New Nearctic and Neotropical muscoidean Diptera (Sarcophagidae and Tachinidae).
22324

Two new and economically significant Chloropidae, with the description of a new genus (Diptera).
22326

Investigations concerning gall gnats. VI. The justification of the genus Nouryodiplosis Tavares 1929.
22332

A review of North American Ardeicola (Mallophaga: Philopteridae).
22340

A new contribution to the taxonomy of the genus Sthenarus Fieber and Psallus Fiebcr(Hem. Het. Miridae).
22341

A neglected diagnostic character of the Apoidea (Hymenoptera).
22421

Monarch butterfly (Danaus plexippus) migration studies: Autumnal movement.
22461

Veromessor lobognathus: Fourth note (Hymenoptera: Formicidae).
22467

Occurrence of blue leaf-hopper Typhlocyba maculifrons Motsch on rice.
22528

Ticks (Ixodoidea) of domestic animals in Iraq; spring and early summer infestations in the Liwas of Baghdad, Kut, Amara, and Basra.
22755

Silverfish and firebrats; how to control them.
22848

Hard to kill pests of fruit trees--Mealy bugs.
22850

The holarctic species of Cyrtogaster Walker and Polycystus Westwood (Hym., Pteromalidae) including the description of a new species of Cyrtogaster from Britain.
22853

The morphology, phylogeny, and higher classification of the family Tingidae, including the description of a new genus and species of the subfamily Vianaidinae (Hemiptera: Heteroptera).
22863

The larvae of Clythia fasciata Meigen (Diptera, Clythiidae).
22865

The occurrence of some glasswing species in Moravia and Slovakia (Lep., Sesiidae).
22897

Genus Taphrorychus Eichh. (Coleoptera, Ipidae).
22904

Contributions to the knowledge of the genus Tyrophagus Oudemans.
22911

Morphology and systematic position of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae).
22917

A redescription of three species of Proctotrupoidea (Hymenoptera) from Jurine's collection.
23006

INSECT LIBERATION

Screw worms. In:Smith, C.N.Insect colonization and mass production. QL497.S6.
15745

Insect parasites and predators. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15810

INSECT MATING

Resistance to American foul brood in honeybees. ill. differential survival of the two kinds of larvae from twodrone matings.
14971

INSECT METABOLISM

Metabolism of insecticides by Culex pipiens quinquefasciatus. i. in vivo metabolism of DDT by larvae.
13810

Inhibition of housefly acetylcholinesterase by carbamates.
14891

Metabolism of malathion in desert locust. i. activation of malataion into an anticholinesterase.
14918

Beta-alanine metabolism in Drosophila melanogaster adults.
15754

The oxidation of NADPH by the soluble fraction of the fat body of the silkworm, Bombyx mori L.
15766

Metabolism of 14C-labelled insecticides in microorganisms, insects and mammals.
15778

Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae.
16321

Amino acid requirements and sulfur amino acid metabolism in the pea aphid, Acyrthosiphon pisum (Harris).
16334

Pyruvate kinase in Haemonchus contortus larvae.
16349

Testicular and haemolymph amino acids of Poecilocerus pictus (Acrididae).
16379

Hexosamine metabolism in imaginal disks of Drosophila melanogaster.
16388

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro.
16392

Penetration, excretion, and metabolism of carbaryl in susceptible and resistant German cockroaches.
16409

Evidence for the DDT-INDUCED synthesis of messenger ribonucleic acid in Triatoma infestans.
16423

The metabolism of carbaryl (1-naphthyl-N-methylcarbamate) by the fat body of the blowfly larva Calliphora erythrocephala.
16440

Metabolic thermal adaptations in the mosquito Culex pipiens pipiens (Diptera: Culicidae).
16447

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia.
16464

Response and recovery on X-irradiated Tribolium confusum larvae.
16482

Variation in toxicity of Malthion when applied to certain body regions of Schistocerca gregaria (Forsk.).
17068

Effect of relative humidity on the developmental stages of Tribolium castaneum (Coleoptera: Tenebrionidae).
17088

Adaptation of insects to nornicotine.
17118

Amino acid requirements of the cotton stainer, Dysdercus fasciatus (Pyrrhocoridae, Hemiptera).
17670

A possible reservoir of tyrosinase substrates in Drosophila melanogaster.
17691

Physiological genetics of melanotic tumors in Drosophila melanogaster . V. Amino acid metabolism and tumor formation in the tu bw; st su-tu strain.
17902

Variation in the pattern of the free amino acids in females and workers of Formica polyctena Forst. (Hym. Formicidae) during metamorphosis.
19562

A review of the problem of insecticide resistance in Australia.
19629

Chromosomal DNA synthesis in Drosophila melanogaster.
19630

Toxicity, pick-up and metabolism of p,p'-DDT and related compounds in Culex pipiens fatigans and Aedes aegyptI.
19638

Examination concerning the free amino acids of the hemolymph by Periplaneta americana (L.) in relation to different formations and functional phases.
19649

A glucosinolase system in the aphid Brevicoryne brassicae.
19665

Genetic aspects of anaerobic metabolism in Mormoniella vitripennis.
19670

Effects of different concentrations of sodium, potassium and calcium on the rate of heart beat of Madiera cockroach, Leucophaea maderae Fabr.
19720

The conversion of 14C-carbohydrates into CO2 and lipid by the silkworm, Bombyx mori.
20359

Important development of Lytta vesicatoria (L.) (Coleopt., Meloidae) in the laboratory and the time period of cantharide synthesis. (sum).
20390

Functional characteristics of the alimentary canal of the cockroach, Blaberus craniifer Burmeister.
20394

The distribution and activity levels of carbohydrases in the alimentary canal of the cockroach, Blaberus craniifer Gurmeister.
20395

Report of a glucose diminishing process in the gut of the cockroach, Blaberus craniifer Burmeister.
20396

The specificities of alimentary canal carbohydrases of the cockroach, Blaberus craniifer Gurmeister.
20397

Insect diseases resulting from malnutrition.
20998

Effect of carbon monoxide on metabolism of insecticides in vivo.
21519

Changes in the respiratory metabolism of Rhodnius prolixus as induced by temperature.
21718

Hemolymph proteins and reproduction in Periplaneta americana: The nature of conjugated proteins and the effect of cardiac-allatectomy on protein metabolism.
22346

Disrupted fertility of the hidebeetle Dermestes maculatus (Deg.) due to dietary overdose of biotin.
22372

Accumulation and transfer of 32P by male southern house mosquitoes. 23021

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants. 23031

INSECT MIGRATION

Predicting influxes of Aedes vexans into urban areas. 13718

Observations on the structure of hopper bands and movement of hoppers of the Red Locust (Nomadacris septemfasciata Serville). 14040

Migrating Lepidoptera in 1965. 14080

Summer migration of the alfalfa weevil, Hypera postica (Coleoptera: Curculionidae). 14819

Migration of the army cutworm, Chorizagrotis auxiliaris Lepidoptera, Noctuidae). i. evidence for a migration. 14835

Dispersal and migration of tepa-sterilized Mexican fruit flies. 14842

Alate aphids trapped in potato fields in Cumberland, Westmorland and Northumberland. 15729

Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera). 15990

Movements, host-fungus preferences, and longevity of Bolitotherus cornutus (Coleoptera: Tenebrionidae). 16397

A migration of Vanessa cardui (Nymphalidae) in Ohio. 17029

Review of some recent research on Onchocerca vectors. 17039

An improved method for embedding and sectioning eggs of the migratory grasshopper, Melanoplus sanguinipes Fab. (Orthoptera: Acrididae). 17106

The control of populations through limitation of habitat distribution as exemplified by tsetse flies. 17109

The abundance of insects: Introduction. 17189

Intra-specific mechanisms with special reference to aphid populations. 17407

Observations on the early migration of the larvae of Ascaris suum Goeze, 1782 in white mice. 17605

The flight range of Simulium damnosum. 17854

A possible marker for european corn borer moths. 17882

Techniques of marking insects with micronized fluorescent dust with especial emphasis on marking millions of Lygus hesperus for dispersal studies. 17886

Function of aphidophagous insects in integrated control; summing-up of the section VI. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18500

Moths unrecorded from Shikoku. 18550

The Agromyzidae (Diptera) of Woodwalton Fen. 18610

Butterfly migration. 18611

Some genera, especially Eutettix of Japan and Formosa (Hemipterai Deltocephalidae). 18622

Notes on the food habits of insects in Kagawa. 18623

Notes on the Buprestidae. 18646

The migration of insects in th Spanish Central Pyrenees, autumn, 1958. 18655

A further note on insect migration on the north coast of France. 18665

Aphid sampling efficiency of Moericke traps affected by height and background. 19064

Natural regulation of alfalfa aphids in California. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19079

Migration records, 1965. 19397

Agricultural entomology in the Lebanon. 19868

Epidemiology of aphid-transmitted plant-virus diseases. 19913

Migrating Lepidoptera in the Netherlands in 1966. 20226

Life history and population consequences of density, photoperiod, and temperature in a migrant insect, the milkweed bug Oncopeltus. 20329

Preliminary observations concerning the absence of Aedes aegypti in Savanah, Georgia, and nearby areas. 20388

Global events concerning mosquitoes in 1966. 20431

The soybean cyst nematode threat. 21176

The fall webworm, Hyphantria cunea, its distribution and natural enemies: A world list (Lepidoptera: Arctiidae). 21750

Australian dragonflies. 21752

The westward movement of pink bollworm. 21995

Research on the chemical control of Aceria sheldoni. 21999

Sun orientation during migration in some British butterflies. 22350

Notes on Argentine butterfly migration, 1965-66. 22405

The evolution and dispersal of the grassland leafhopper genus Exitianus, with keys to the Old World species (Cicadellidae: Hemiptera). 22443

Monarch butterfly (Danaus plexippus) migration studies: Autumnal movement. 22461

The pattern of movements of adults of the Northern corn rootworm inside and outside of corn fields. 22952

Development of an autosterilization technique for the house fly. 22976

An acridological excursion in El Juncal Valley (Rio Negro). 23001

Population fluctuations in fruit orchard insects. 23070

INSECT MORPHOLOGY

Some distinctions between the larvae and pupae of the Empididae and Dolichopodidae (Diptera). 13720

Morphology of the internal reproductive organs of the navel orangeworm, Paramy elois transitella. 13726

Morphology of the internal reproductive organs of the navel orangeworm, Paramyelois transitella. 13800

Temperature conditions and maternal effect as modifying factors in the photoperiod control of the seasonal form in Polygonia c-aureum (Lepidoptera, Nymphalidae). 13807

Temperature conditions and maternal effect as modifying factors in the photoperiodic control of the seasonal form in Polygonia c-aureum (Lepidoptera, nymphalidae). 13808

Morphology of the nervous system of the noctuid larvae Prodenia litura Fabr and Trichoplusia ni Hubner. 14089

A new species of Pleotrichophorus from British Columbia (Homoptera: Aphididae). 14109

Studies on the morphology and relationships of male Apiomorpha and Opisthoscelis (Hemiptera: Coccoidea). 14125

Notes on the female reproductive system of the South African Citrus psylla, Trioza erytreae (Del Guercio) (Homopterai Psyllidae). 14160

Supplementary observations of the early developmental stages of Albia caerulea (Acarina: Axonopsidae). 14176

Insemination without spermatophores in the oriental fruit moth, Grapholitha molesta (Lepidoptera: Tortricidae). 14189

A morphological and functional study of the venom apparatus in representatives of some major groups of Hymenoptera. 14252

An autogenous gynandromorph of Culex tarsalis Coq. 14253

The structure of salivary glands and giant chromosomes of some Chironomid larvae, its relation toward the way of life and importance for the determination of species. 14300

Erature references to mosquitoes and mosquito-borne diseases. 14325

The distribution, life history, and economic importance of the winter moth, Operophtera brumata (L.) (Lepidoptera, Geometridae) in Nova Scotia. 14811

Correlation of European chafer development with the flowering period of common plants. 14818

Life-history studies of Amblyseius limonicus, with comparative observations on Amblyseius hibisci (Acarina' Phytoseiidae). 14832

Studies on Odontoloxozus longicornis (Diptera: Neriidae.) Part I. Life history and descriptions of immature stages. 14839

The morphology and higher classification of the Coreoidea (Hemiptera-Heteroptera). i-II. 14840

Studies on the gonads of some immature mosquitoes. 14866

The rearing of Phlebotomus sandflies (Diptera: Psychodidae) II. Development and behavior of Panamanian sandflies in laboratory culture. 14899

INSECT MORPHOLOGY

The effects of photoperiod and temperature on the induction of diapause in Aedes triseriatus (Say). 14900

The effects of photoperiod, temperature, and food supply on rate of development and diapause in Coccinella novemnotata. 14916

Energy sources during embryogenesis of the yellow mealworm, Tenebrio molitor. 14938

The effect of circadian rhythm on the development of Drosophila. 14941

A comparison of the developmental rates of one- and two-year cycle spruce budworm. 14951

To the knowledge of mites of the subfamily Nycteriglyphinae (Acarina: Rosensteinidae) from Cuba. 15707

The density effect on the appearance of two wing-forms in the brown planthopper, Nilaparvata lugens and smaller brown plant-hopper, Laodelphax striatellus. 15737

The stridulatory mechanism in three species of Pentalobus (Coleoptera, Passalidae). 15744

Effect of a synthetic juvenile hormone on adult cabbage aphids and their progeny. 15828

Life history and habits of the willow beaked gall midge, Mayetiola rigidae (Diptera: Cecidomyiidae), in Michigan. 15829

On the demarcable variability of sibling species in leaf beetles (Coleoptera, Chrysomelidae). 15835

Genetic control of morphogenetic variation in the sexcombs of Drosophila melanogaster. 15836

Mortality of boll weevils in squares of genotypically different lines of cotton. 16267

The life cycle of Hypera brunneipennis and a parasite, Bathyplectes curculionis, in relation to temperature. 16273

Developmental morphology of the alimentary canal of Heliothis zea (Lepidoptera: Noctuidae). 16278

The increasing Chaoborid midge problem in California. 16284

Influence of constituents of the cotton plant on feeding, oviposition, and development of the boll weevil. 16315

Patterns of structural diversity in the males of some Phlaeophilous tubulifera. (Thysanoptera). 16356

Immunochemical analysis of the origin of a sex-specific accumulated blood protein in female houseflies. 16364

An interesting parasite of Thysanoptera: Tetrastichus gentilei (Hym. Chalcididae). 16365

Attractiveness of logs containing female spruce beetles, Dendroctonus obesus (Coleoptera: Scolytidae). 16381

Ecological significance of respiration and substrate for burrowing Ephemeroptera. 16383

Contribution to the histochemical study of the digestive organs of Rhagium bifasciatum. (Col. Cerambycidae). 16390

Glandular formations of the dorsal tegument of Saissetia oleae (Hom. Coccidae). 16391

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro. 16392

A note on the influence of a range of plant chemicals on the growth and survival of Aedes aegypti L. larvae. 16396

Comparative morphology of the genital area of triploid intersexes of Drosophila melanogaster. 16415

Dosage compensation as a developmental phenomenon in Drosophila. 16416

Evidence of winged insect sexual dimorphism in Philophylla heraclei (Dipt. Trypetidae) through use of a photopterometre . 16419

Two effects of photoperiod on wing development in Gryllodes sigillatus (Walk). 16429

Structure and formation of coaptations of the maxillary stylets of Rhodnius prolixus. (Heter. Reduviidae). 16439

The innervation of the terminal abdominal segments (VII-XI) of the desert locust, Schistocerca gregaria. 16451

Segmentation and organogenesis in Limnoria lignorum (Rathke) (Isopoda). 16460

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia. 16464

Problems in insect morphology. 17040

Bedellia ehikella sp. n. (Lepidoptera: Lithocolletidae). 17057

The reproductive biology of Hippelates collusor. III. Effect of temperature on oogenesis. 17067

Final technical report on the Pl. 480 project. Systematic and biological studies on Indian thrips. QL503.T5A5. 17069

Observations on oviposition and life history of an aquatic bug, Sphaerodema rusticum Fabr. (Hemiptera). 17071

The effect of temperature and moisture on the development of Fannia canicularis (L.) and Fannia femoralis (Stein) (Diptera: Muscidae). 17095

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17100

An immunological study of the antigens of Anthonomus grandis grandis and Anthonomus grandis thurberiae. 17114

Fatty acids of the mosquito, Anopheles freeborni. 17123

The effects of various oxygen tensions on embryogeny and larval responses of Aedes aegypti. 17141

Remarks on black widow spiders, with an account of some anomalies. 17142

Histological changes produced by a ruby laser in Neodiprion sertifer Geoff. 17145

Biology and control of the onion thrips in India. 17152

Morphology, biology, and phytopathological significance of the genus Appelia C.b (Aphidoidea: Aphididae). 17172

Symbiosis; effects of a mutualistic fungus upon the growth and reproduction of Xyleborus-ferrugineus. 17176

Biology of the mustard aphid, Lipaphis erysimi, in India. 17194

Loss of hostplant specificity by Manduca sexta after rearing on an artificial diet. 17196

Urate accumulation and life span in two species of Habrobracon. 17201

Mutations .as possible aids for establishing genitalic homologies in the sexes in Tribolium castaneum. 17203

Haemolymph esterases in the female larval honeybee, Apis mellifera L., during caste development. 17213

The internal morphology of the reproductive systems of some psocid species. 17223

Biologies of three species of Alydus in Wisconsin. 17225

The developmental genetics of the eyeless-dominant mutation in Drosophila melanogaster (Meig.). 17227

The role of secondary plant substances in the food specificity of the Colorado potato beetle. 17380

Selection and specificity of the Colorado potato beetle for solanaceous and nonsolanaceous plants. 17381

Parasitic and free-living cycles in entomogenous nematodes of the genus Deladenus. 17731

A revision of the oriental species of Palexorista Townsend (Diptera: Tachinidae, Sturmiini). 17744

On morphology of larvae of the III instar in synanthropic species of flies from the genus Hydrotaea R.D. (Diptera, Muscidae). 17758

Further studies on the effect of bovine diet on face fly development. 17766

The genera of African Lycaenidae (Lepidoptera: Rhopalocera). 17771

A prodrome of the genus Orthopodomyia (Diptera, Culicidae). 17775

The leaf cutting ant, Atta capiguara, curse of the pastures. 17780

Analysis of the development of oviducts and the developmental relations between oviducts and ovaries in Drosophila virilis. Part one: Development of oviducts under normal and experimental conditions. Part two: Analysis of alterations occurring in oviducts during imaginal life. 17782

Effects of juvenile hormone on protein synthesis during the metamorphosis of the polyphemus silkmoth. 17788

The infection of Boophilus microplus with Babesia bigemina. 17795

On the biology of several Trechinae and Sphodrinae. (Insecta, Coleoptera). 17808

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17813

Notes on deathwatch beetles (Coleoptera). 17821

Field and laboratory studies on the ecology and morphology of Nabis americoferus Carayon and its parasites in California. 17834

On the Sphodromantis of the species viridis from northwest Africa. 17849

The influence of temperature and humidity on the development of Tenebrio molitor L. 17850

Functional degeneration of the venomous gland of Apis during the summer and winter. 17851

Egg and larval development of Cardiochiles nigriceps. 17855

About lepidopterous immatures. 17857

The development of Theileria parva in the salivary glands of the tick, Rhipicephalus appendiculatus. 17873

Role of photoperiod, temperature, and injury in induction and termination of the pupal diapause of Heliothis zea (Boddie). 17877

Sensillae on the antennae of blood-sucking biting midges (Diptera, Ceratopogonidae). 17880

Improvement of a method for culturing the eggs of the Phasmid Carausius morosus Br. deprived of the chorion. 17894

Biology of the elm leaf beetle in southern Arizona. 17898

Comparative life histories of chlordane-resistant and nonresistant German cockroaches. 17901

Developmental characteristics of five lethal mutants of Drosophila melanogaster. 17908

Resistance of cattle to the tick Boophilus microplus (Canestrini). II. Stages of the life cycle of the parasite against which resistance is manifest. 18351

The development and fecundity of Adalia bipunctata L. and coccinella septempunctata L. feeding on various species of aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18587

Effects of actinomycin D on development in pupae of Tenebrio molitor. 18593

The effect of actidione (Cycloheximide) on the adults of Dacus oleae (Dipter: Tephritidae). 18605

Food ecology of aphidophagus Coccinellidae. In his Ecology of aphidophagous insects. SB975.S9. 18614

Biochemical differentiation of the sibling black widow spiders, Latrodectus mactans and L. variolus. 18641

Larval-pupal transformation: Control by juvenile hormone. 18670

Effect of food on some aphidophagous Coccinellidae. In: Hodek, I. ed. Ecology of aphidophagous insects. SB975.S9. 18677

Inhibition of development in Drosophila by cortisone. 18679

The pickleworm; its control on cucurbits in Alabama. 19009

Entomology department. 19031

Morphology, biology, and phytopathological significance of the genus Appelia C.P. (Aphidoidea: Aphididae). I. 19047

The development of the external male genitalia of the housefly, Musca domestica linn. 19337

Contribution to the study of Caeculidae. Third. Postlarval development of Neocaeculus luxtoni n. gen., n. sp. 19373

Two new species of Dermatophagoidinae. Connection of this sub-family with the Pyroglyphidae (Sarcoptiformes). 19394

Notes on the systematics and morphology of the lacebug subfamily Cantacaderinae (Hemiptera: Tingidae). 19399

Direction and intensity of the variability in external features of house bees from different populations. 19430

On a new species of the genus Gromphadorhina (Dict. Perisphaerinae). 19434

Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.). 19449

The spider mite family Tetranychidae in New Zealand. I. The genus Bryobia. 19452

Notes on environmental determinants of tropical versus temperate insect size patterns. 19492

General introduction to the classification, terminology, ontogenesis and evolution of mites. 19509

Study of Verson's gland in Galleria mellonella (Lepidoptera Pyralidae) in the course of the cuticular cycle: Histology, Cytochemistry and Electron Microscopy. 19550

Intersegmentary cuticule of the imagos of superior termites (Isoptera, Termitidae): sexual dimorphism, ultrastructure, relation to the physogastric queen. 19556

Studies on the structure of the eggs of an Indian Stink Bug Cyclopelta siccifolia Westwood (Hemiptera-Heteroptera Penthtomidae). 19557

The ectodermal genital system of Cicada females. 19558

Special effects and teratological symptoms of the thermostable toxin of B. thuringiensis as a function of the physiological age of insects. 19568

Internal organization and morphology of the terminal larval stage of Opius concolor. (Hym. Braconidae). 19569

Rhizopulvinaria of Mediterranean pinks. (Coccoidea-coccidae). 19571

Differentiation of the male sexual characteristics of two acridids, after implantation of Corpus allata during the last larval stages. 19572

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 19573

Morphological anomalies in fleas (Siphonaptera). 19581

Comparative study, Dysdercus discolor Walker, of the normal growth and of growth in the presence of the Paper factor . 19587

Study of a Diprion pini population in the Fontainebleau forest. (Hym. Diprionidae). I. Biological data on Diprion pini and its principle parasites. 19596

The pterothoracic musculature of Deropeltis erythrocephala, a cockroach with a wingless female, and the origin of wing movements in insects. 19603

Choline activity during the development of Drosophila melanogaster. 19610

A quantitative analysis of citric acid content during ontogenesis of Leptinotarsa decemlineata (Say). 19614

Naviculoid scales in the fore wing terminal borders of Colias species. (Lepidoptera: Pieridae). 19618

Description of the metameric neurohemal organs in the ventral nervous system of two Coleoptera: Chrysocarabus auronitens Fabr. (Carabidae) and Oryctes rhinoceros L. (Scarabaeidae). 19620

Notes on the biology of Baccha fascipennis Wied. (Diptera, Syrphidae). 19623

On the modification of the eye pattern on the wings of Inachis io (Lep., Nymphalidae) with analogous temperature experiments. 19624

Survey of the embryonic and post embryonic development of the house cricket, Acheta domesticus (L.). 19634

Comparison of the size and physiological activity of the corpora allata of Locusta migratoria L. 19635

Examination concerning the free amino acids of the hemolymph by Periplaneta americana (L.) in relation to different formations and functional phases. 19649

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L. 19660

Geographic variation and climatic adaptation in a field cricket (Orthoptera: Gryllidae). 19662

The spiracular mechanism in the Indian Sann hemp moth, Utetheisa pulchella Linne (Lepidoptera: Arctiidae). 19663

The development and fine structure of centrifuged eggs of Chironomus thummi. 19686

Some eggs of moths from several families of Microlepidoptera. 19693

Eggs of moths from additional species of Geometridae-Lepidoptera. 19694

Evidence of metameric neurohemal organs associated with the ventral nervous system in Vespa crabro L. and Vespula germanica Fabr. (Hymenoptera Vespidae). 19697

Contribution to the study of the morphology of the cephalic nervous system of termites. 19708

Notes on the biology of two species of Rhapaidophoridae (Orthoptera) in Tasmania. 19709

A teratological specimen of Pycnoscelus surinamensis. 19711

Behavior of cytoplasmic membranous structures in spermatogenesis of the grasshopper, Atractomorpha bedeli Bolivar. 19716

Investigations on the developmental physiology of the embryonic mycetom of Euscelis plebejus F. (Homoptera, Cicadina). I. Isolation and abnormal combinations of detailed components of the symbiontic systems. 19717

Functional morphology of the copulatory apparatus in the primitive Lepidoptera and general evolutionary trends in the genitalia of the Lepidoptera. 19731

Studies on the posterior silk gland of the silkworm Bombyx mori. I. Growth of posterior silk gland cells and biosynthesis of fibroin during the fifth larval instar. 19736

Effect of different temperatures on the duration of embryonic development of six species of terrestrial and subterranean Collembola Hypogastruridae. 19738

Preliminary studies of the 'uradenies' of certain Heteroptera Pentatomorphs. 19740

Caterpillar and pupation of Schrankia costaestrigalis Stephens (Lep., Noctuidae). 19747

Determining the developmental cycle of Locusta migratoria around latitude 44 degrees N.: followed by a note by P. P. Grasse (1924). 19748

The larva of Duvalius lepinensis (Coleoptera, Carabidae). 19749

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of Nymphal Triatoma infestans. 19750

Investigation into feeding, reproductive biology and development of Limmogeton fieberi Mayr (Belostomatidae, Hemiptera) when contributed to the knowledge of the freshwater snails natural tropical enemies. 19751

Aspects of mating behavior of the gypsy moth. 19771

Clonal analysis of determination dynamics in cultures of imaginal disks in Drosophila melanogaster. 19774

The problem of rationality controlling the leaf cutter ants. 19887

Biology of Melanozetes mollicomus (Koch) (Oribatei, Ceratozetidae). 20261

Oostatic hormone production in houseflies, Musca domestica, with developing ovaries. 20293

A study of the genus Chrotogonus (Orthoptera). VIII. Patterns of variation in external morphology. 20308

Life history of Gesta gesta invisus (Lepidoptera: Hesperiidae). 20324

Light-and electronmicroscope investigations into the Malpighian tubules of Galerucella viburni (Chrysomelidae). 20334

Influence of light and temperature on the hatching-activity of Chironomus nuditarsis Str. 20340

A hypothesis on the subject of larval monsters in the genus Anopheles. 20348

Developmental production of embryonic blastema of Drosophila after culture in the adult host. 20349

Oxytelus mutator Lohse (Col., Staphylinidae) new to Britain. 20351

The head of Pseudomenopon pilosum (Scopoli) (MallophagaAmblycera). 20352

Leafminers of Hvar island (Col., Dipt., Hym., Lep.). 20356

On the head morphology of twisted-winged insects (Strepsiptera, Insecta). 20366

The number of larval instars in some bark beetle species. 20378

A description of the larva of Eremotes elongatus Gyll. (Col. Curc.) and a comparison between this and the Hylastes larvae (Col. Scol.). 20379

The population biology of the butterfly, Euphydryas editha. V. Character clusters and asymmetry. 20386

Host exploitation of two closely related water mites. 20393

The structure of the alimentary canal and salivary glands in Acrotelsa collaris (Thysanura: Lepismatidae). 20398

Drosophila imaii, a new sibling species related to Drosophila bifasciata. 20399

Ring-canals and intercellular communication within the eggchamber of a tsetse fly species. 20407

Growth of follicular cells in Aphids. A cytophotometric and autoradiographic study. 20409

Contribution to the knowledge of the larvae and pupae of Agapanthia violacea Fabricius (1775) and Agapanthia villosoviridescens De Geer (1775) (Col., Cerambycidae, Lamiinae). 20414

On a European Stenus terminalia (Coleoptera, Staphylinidae). 47. Contribution to the knowledge of the Steninae. 20418

The endocrine and nutritional control of egg maturation in the fleshfly Sarcophaga bullata. 20444

Developmental rate and competitive ability in Tribolium. II. Changes in competitive ability following further selection for developmental rate. 20455

The effects of chemicals on the phenotypic expression of a vestigial mutant in Drosophila melanogaster. 20472

Thymidine-Teratogenesis in different species of the genus Drosophila. 20474

The European pine sawfly, Neodiprion sertifer (Geoff.) Hymenoptera: Diprionidae), a review with emphasis on studies in Ontario. 20613

The oriental fruit moth Grapholitha molesta (Busck) (Lepidoptera: Olethreutidae) in Ontario. 20944

The Tabanidae (Diptera) of Ontario. 20950

Thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae) a pest of hay and pasture grasses in southern Ontario. 20951

The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats. 20968

Insect answers; the alfalfa seed chalcid. 21001

Morphology of the male reproductive system and spermatophore of the red bollworm, Diparopsis castanea (Hmps.) and the possible effect of the chemosterilant tepa on the gross structure. 21017

Insect answers; the green peach aphid. 21021

The face fly, a livestock pest. 21410

A review of twelve aphid species described as new by Edith M. Patch. 21624

Morphology of the male pink sugarcane mealybug, Saccharicoccus sacchari Ckll. (Pseudococcidae: Homoptera)--Part II. Apterous form. 21647

The larvae and pupae of the British Cylindrotominae and Limoniinae (Diptera, Tipulidae). 21664

Localization and description of stretch receptors at the level of the tibio-femoral joint of the jumping leg of the cricket, Schistocerca gregaria. 21672

A biochemical look at insect diapause. 21684

Effects of parental age on the life cycle of the southern green stink bug, Nezara viridula L. (Heteroptera: Pentatomidae. 21693

Action of insect hormones on the fate of C-glucose in the diapausing, brainless pupa of Samia cynthia pryeri (Lepidoptera: Saturniidae). 21695

A cytological study of changes in the fat body of Trogoderma granarium during metamorphosis, with special reference to the proteinaceous globules. 21710

Contribution to the development of the anterior head and the mouth region of Periplaneta americana. 21730

Changes in the acid-soluble nucleotides during the pupal development of the rice stem borer, Chilo suppressalis walker (Lepidoptera: Pyralidae). 21745

Nuclear and spindle damage during embryonic segmentation, processes, yolk absorption, serosa and blastoderm nucleus in total X-ray irradiated eggs of Kalotermes flavicollis Fabr. (Isoptera). 21747

Results of the transplantation of the ovaries of imagos to Locusta migratoria (L.). 21749

A contribution to the alimentary canal, salivary glands and Malpighian tubules of Saccharicoccus sacchi Cockerell (Homoptera Pseudococcidae). 21754

Some observations on egg diapause in the Trinidad sugar cane froghopper, Aeneolamia varia saccharina (Homoptera, Cercopidae). 21969

Contribution to the morphological and biological study of Tetranychus neocaledonicus Andre 1933 (Acarina--Tetranychidae) cotton red-spider in Madagascar. 22276

Additions and corrections to the British list of Atomaria s. str. (Col., Cryptophagidae), including a species new to science. 22288

The morphological basis of embryonic movements in the light brown apple moth, Epiphyas postvittana (Walk.) (Lepidoptera: Tortricidae). 22348

Occurrence of giant muscle fibers in the flight muscle of Pantala flavescens (F.) (Libellulidae: Odonata). 22355

The antennal origin of the neuro-endocrine reflexes of the Dictyoptera Blaberidae and Blattidae. 22359

Localization of the nuclear origin in the paracardiac nerves of Dictyoptera Blaberidae and Blattidae. 22360

Description of the neuro-endocrine reflex arcs behind the ocelli in the Dictyopteran Mantidae. 22361

Contribution of a biological study of Pissodes notatus F. (Col. Curculionidae). 22366

Morphology of the black fly Prosimulium frohnei Sommerman (Dipt. Simuliidae). 22367

Daily weight gain of the European corn borer reared on artificial media (Lepidoptera: Pyraustidae).
22373

Contributions to the morphological differentiation between the females of Phlebotomus major and Phlebotomus perfiliewi (Diptera, Psychodidae) in Romania.
22377

The post-cephalic stomodial nervous system of Schistocerca gregaria Forsk. (Orthoptera) and Blabera craniifer Burm. (Dictyoptera).
22380

Sound-production in Netherland Lycaenidae.
22388

A laboratory investigation of maturation in the Cuban burrowing cockroach Byrsotria fumigata (Guerin).
22392

Presence of a blood-producing tissue at the level of the dorsal diaphram of Locusta migratoria (Orthoptera).
22410

The morphological and functional evolution of the mouthparts in adult Lepidoptera.
22419

On the duct of secretory glands on the first cheliceral segment in the family Nemastimatidae and the application of this character in taxonomy (Opilionidea).
22450

Observations on the rate of heart-beat in the various stages of the tiger beetle Cicindela cancellata Dej.
22453

Silverfish and firebrats; how to control them.
22848

The morphology, phylogeny, and higher classification of the family Tingidae, including the description of a new genus and species of the subfamily Vianaidinae (Hemiptera: Heteroptera).
22863

Drosophila pavlovskiana, a race or a species.
22885

252. Contribution to the morphology and classification of Scolytoidea. Bark beetles from Turkey.
22913

Morphology and systematic position of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae).
22917

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 48-A. Diptera: Termitoxeniidae.
22957

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 14, no. 47. Diptera: Head, larvae.
22958

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 14, no. 46. Trichoptera: Head, imagos.
22959

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 14, no. 45. Dermaptera: genitalia of Anisolabis.
22960

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 16, no. 50. Coleoptera: Abdomen and genitalia of the male.
22961

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 17, no. 51. Orthoptera: head.
22962

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 49. Heteroptera: head.
22963

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 48-D. Lepidoptera: 1) Nervous system in Galleria. 2) Morphology of the caterpillar Lithocolletis.
22964

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 48-C. Odonata: abdomen of Aeschna.
22965

Development and structure of the compound eye in the cotton leaf-worm, Prodenia litura F., and the pink boll-worm, Pectinophora gossypiella S. (Lepidoptera).
22970

The biology of Choristoneura houstonana (Lepidoptera: Tortricidae), a pest of Juniperus species.
22988

The structure of the receptaculum seminis of Eyprepocnemis plorans (Charp.) (Orthoptera, Catantopidae).
23003

Sub-lethal gamma radiation effects on prepupae, pupae, and adults of angoumois grain moth.
23025

The anatomy of the nervous system of the third instar larva of Musca domestica nebulo Fabr. (Diptera--Cyclorrhapha-Muscidae).
23026

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles.
23034

On the morphology and the bionomics of the insects of economic importance II--HEAD appendages in Alphitobius diaperinus (Panz.) (Tenebrionidae--Coleoptera).
23037

Remarkable new demonstration of the occurrence of the botfly Oestromyia leporina (Pallas, 1778) in Germany.
23038

The egg- and larval development of Trogoderma angustum Sol. (Dermestidae).
23071

Genetic heterogeneity among the founders of laboratory populations of Drosophila. I. Scutellar chaetae.
23080

The damaging occurrence of Aradus cinnamomeous Panz. in Sweden.
23180

Hypope parasites of the cellular tissues of birds.
23276

INSECT MORTALITY

Changes in temperature tolerance with adult age in Tenebrio moliter.
14162

Precocious termination of obligatory diapause in field-collected pupae of Antheraea polyphemus.
14227

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicatans in Louisiana. (abstract).
14933

Biotic potential of phytoseiid mites fed on virus-infected citrus red mites.
14950

The influence of sublethal dosages of insecticides on the basal follicles of Aedes aegypti (L.). (abstract).
14986

Bark beetle mortality in precommercial herbicide thinnings of western hemlock.
15245

INSECT MUTATION

An isoflavone-deficient mutant in Trifolium subterraneum induced by ethyl methane-sulphonate.
13866

Tyrosine activity in the eggs of white-eyed mutants in the silkworm, Bombyx mori.
15804

Red-eye mutation in Rhodnius prolixus (Hemiptera: Reduviidae).
15833

A study of a melanic mutant of the blowfly Lucilia cuprina.
16395

Population inter-relationships. I. Evolution in mixtures of Drosophila mutants.
16452

Mutation and chromosomal puffing in the vicinity of the white locus of Drosophila melanogaster.
16497

Mutations as possible aids for establishing genitalic homologies in the sexes in Tribolium castaneum.
17203

Some observations on variegation in Drosophila.
19775

Fertilization in Drosophila. III. A reevaluation of the role of polyspermy in development of the mutant deep orange.
19777

INSECT NAMES

Addenda to the list of the butterflies of Michigan.
17050

Standard names for common insects.
19389

The union of Argia fumipennis (Burmeister, 1839) with Argia violacea (Hagen, 1861), and the recognition of three subspecies (Odonata).
19408

A study on the helminth fauna of Philippine goats.
21388

Milky disease bacteria.
21590

Standard names for common insects.
21603

A list of Sinhalese aphids (Hem., Aphididae).
21688

On the reinform nematode Rotylenchulus nicotiana (Yokoo et Tanaka, 1954) n. comb. in Japan (Tylenchida: Hoplolaimidae).
21712

Seasonal succession of bloodsucking Diptera in Wisconsin during 1965.
22245

Lectotype designations of Cerambycidae in the British Museum (Natural History) (Coleoptera).
22263

Lectotype designations of Cerambycidae in the Museum d' Histoire Naturelle, Paris (Coleoptera).
22264

Homoptera of the Kurile Islands.
22283

Biological observations on 53 species of the superfamilies, Chalcidoidea and Proctotrupoidea, from Japan (Hymenoptera: Apocrita).
22284

New Nearctic and Neotropical muscoidean Diptera (Sarcophagidae and Tachinidae).
22324

Standard names for common insects.
22868

252. Contribution to the morphology and classification of Scolytoidea. Bark beetles from Turkey.
22913

Materials on destructive insects of Pinus pithiusa Stev. in Pitzunda (Georgian Soviet Socialist Republic).
23197

INSECT NESTS

Nesting behavior of Tachytes (Tachyplena) praedator Fox, with a review of the biology of the genus (Hymenoptera: Sphecidae: Larrinae).
15782

Biology of Trypoxylon in trap nests in Wisconsin (Hymenoptera: Sphecidae).
15790

INSECT NUTRITION

The stages of Spanogonicus albofasciatus and their development (Hemiptera: Miridae). 13832

Temperature-induced wing malformation in alfalfa loopers and variegated cutworms. 13848

Comparison of two artificial diets for rearing Heliothis zea larvae for insecticide tests. 14173

The feeding habits of adults of Chrysopa californica Coquillett (Neuroptera: Chrysopidae). 14184

The role of nutritional factors in food selection and preference as related to larval nutrition of an insect, Pseudosarcophaga affinis (Diptera, Sarcophagidae), on synthetic diets. 14202

Growth cabinet for the efficient handling of containers used for rearing insects. 14214

Some relationships of face fly feeding, ovarian development, and incidence on dairy cattle. 14233

Nutritional pest control: The 'self-protection' of foodstuffs against Tribolium confusum (Coleoptera: Tenebrionidae) often presumably through nutritional factors. 14824

Mosquitoes feeding on a frog. 14868

Larval feeding behavior of the cabbage looper, Trichoplusia ni. 14886

Methods for studying aggregation and feeding behavior of the confused flour beetle, Tribolium confusum (Coleoptera' Tenebrionidae). 14910

Nectar of peach leaf glands as insect food. 14937

Some problems associated with weighing aphids that have fed after starving, as a method of measuring intake of plant sap. 14943

Food-plant spectrum and elimination of disease of cinnabar moth larvae, Hypocrita jacobaeae (L.) (0lepidoptera: Arctiidae). 15276

Screw worms. In:Smith, C.N.Insect colonization and mass production. QL497.S6. 15745

Bed bugs. In: Smith,C.N. Insect colonization and mass production. QL497.S6. 15749

Tobacco hornworms. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15764

Corn rootworms. In: Smith,C.N.Insect colonization and and mass production. QL497.S6. 15767

A method of mass rearing of caterpillars of the small mottled willow moth Laphygma exigua Hb. (Lepidoptera, Noctuidae). 15776

Rat fleas. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15779

The effect of amino acids, vitamins, and trace elements on the development of Acyrthosiphon pisum Harris (Hom., Aphididae). 15787

European corn borer. In:Smith, C.N.Insect colonization and mass production. QL497.S6. 15807

Aegeriidae, with special reference to the peach tree borer. In:Smith,C.N.Insect colonization and mass production. QL497.S6. 15811

Defined diets for phytophagous insects. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15823

Sterility in house flies offered a choice of untreated diets and diets treated with chemosterilants. 16297

Additional evidence that aphids ingest through an open stylet sheath. 16307

Modified laboratory techniques for preparing sterile larval diets for the boll weevil. 16310

Influence of constituents of the cotton plant on feeding, oviposition, and development of the boll weevil. 16315

Oligidic diets for Acheta domesticus (Orthoptera: Gryllidae). 16329

Estimation of carcass analysis of the growth requirements for amino acids in the codling moth, Carpocapsa pomonella (Lepidoptera: Olethreutidae). 16335

A physiologic difference in aphids (Homoptera) raised on excised leaves and on intact plants. 16353

Dietary amino acid requirements of the aphid, Myzus persicae. 16375

Quantitative dietary requirments of Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae) for phenylalanine and tyrosine. 16378

A note on the influence of a range of plant chemicals on the growth and survival of Aedes aegypti L. larvae. 16396

The influence of nutrient chemicals on the feeding behavior of the Colorado potato beetle, Leptinotarsa decemlineata (Coleoptera: Chrysomelidae). 16401

Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat. 16470

Studies on the development of insect resistant sorghum varieties and hybrids. 16707

The role of Collembola (Apterygota) in the nutritional system of terrestrial environment. 16996

A technique for rearing Choristoneura pinus on artificial diet. 17002

Nutrition of European corn borer, Ostrinia nubilalis. VI. A larval rearing medium without crude plant fractions. 17077

Cockroaches (Periplaneta americana (L.)) as predators. 17081

Insect oxidases and detoxication of carbamate insecticides. 17103

Recent advances in nutritional physiology of insects. 17133

Effect of commercial proteins on house fly reproduction. 17170

Brood rearing by caged honey bees in response to inositol and certain pollen fractions in their diet. 17174

A complex of fungi mutualistically involved in the nutrition of the ambrosia beetle Xyleborus ferrugineus. 17372

The role of secondary plant substances in the food specificity of the Colorado potato beetle. 17380

Selection and specificity of the Colorado potato beetle for solanaceous and nonsolanaceous plants. 17381

Isolation of phagostimulative substances from the host plant of the Colorado potato beetle. 17382

Some observations on compulsory feeding of sandflies (Diptera, Phlebotominae) with the culture of leptomonads. 17778

A preliminary study of the dietary requirements of Tomocerus (Collembola). 18631

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L. 19660

Feeding spiders an artificial diet. 19692

Investigation into feeding, reproductive biology and development of Limmogeton fiebcri Mayr (Belostomatidae, Hemiptera) when contributed to the knowledge of the freshwater snails natural tropical enemies. 19751

Artificial diet for the zoysiagrass billbug, Sphenophorus venatus vestitus (Coleoptera: Curculionidae), and notes on its biology. 20369

Effect of dietary biotin on fatty acid composition of the silkworm, Bombyx mori L. 20997

Insect diseases resulting from malnutrition. 20998

The influence of temperature and relative humidity on the weight loss and survival of the harvester termites, Hodotermes mossambicus (Hagen) and Trinervitermes trinervoides (Sjostedt). 21014

Cricket nutrition: Supplementation of grass by known nutrients. 21700

Dietary choline requirements for sperm motility and normal mating activity in Drosophila melanogaster. 22396

Experimental study of the effect of nutrition on cyclecompletion in Pythidae parasites in tropical cultures. 22440

INSECT OUTBREAK FORECASTING

Predicting influxes of Aedes vexans into urban areas. 13718

The spray warning scheme for control of sugar beet yellows in England; summary of results between 1959-66. 13897

Separating the rural and urban synanthropic fly faunas. 15720

The danger-index of the synanthropic flies. 15848

Estimation of oviposition by the fir engraver, Scolytus ventralis (Coleoptera: Scolytidae). 16361

Diseases and pests of the more important crops in 1966 and the forecast for 1967. 16714

The Australian plague locust Chortoicetes terminifera. 21668

INSECT OUTBREAKS

Observations on the structure of hopper bands and movement of hoppers of the Red Locust (Nomadacris septemfasciata Serville). 14040

Outbreaks of two-spotted spider-mites and cotton aphids following pesticide treatment. i. pest stimulation vs natural enemy destruction as the cause of outbreaks. 14155

The biology and ecology of Dendroctonus valens Flec., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleopterai Scolytidae).
15165

Ecology and behavior of the migratory Locust in southwest Madagascar.
16463

Felted grass coccid on Rhodes grass in Queensland.
16703

Natural regulation and artificial control of brown locust numbers.
17037

Method of predicting the most active days of stem borer. transl. 16902.
17132

Analysis of the injury of brown planthopper on the rice plant. Transl. 16905.
17146

Insect abundance: Prospect.
17222

The Columbian timber beetle, Corthylus columbianus (Coleoptera: Scolytidae). VIII. Artifacts and characteristics of the host tree.
18129

Interruption of malaria transmission by chloroquinized salt in Guyana with observations on a chloroquine-resistant strain of Plasmodium falciparum.
18501

Influence of predation of Coccinella septempunctata L. on Aphis fabae Scop. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18615

Grasshoppers and locusts in western Australia.
18626

Importance of aphidophagous insects in the regulation of potato aphid. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
19046

Study of a Diprion pini population in the Fontainebleau forest. (Hym. Diprionidae). I. Biological data on Diprion pini and its principle parasites.
19596

Prospects for nonchemical insect control- an industrial view.
19622

The Italian locust Calliptamus italicus L. (Orthoptera, Acrididae) in Kara-Kalpakia.
19733

The occurence of frit flies (Diptera, Chloropidae) in cereal crops in Sweden 1961-1963.
20589

An infestation of Comstock mealybug, Pseudococcus comstocki (Kuw.) (Homoptera: Coccoidea) on peach in ontario.
20952

Carabidae and Staphylinidae occuring on soil surface in lucerne fields.
21987

Systematic discontinuities between eggs and hoppers from individual egg-pods of the brown locust.
22462

Insect and host factors in the aggregation of the southern pine beetle.
22463

The armyworm Pseudaletia unipuncta Haworth in Ontario in 1964.
22525

An acridological excursion in El Juncal Valley (Rio Negro).
23001

Studies on the attack behavior of the southern pine beetle. I. The spreading and collapse of outbreaks.
23189

Studies on the attack behavior of the southern pine beetle. IV. Influence of host condition on aggregation pattern.
23212

INSECT PESTS

New data to the biology of Capnodis tenebrionis L. (Coleoptera).
13843

Neomarasmia suspicalis Wkr a new pyralid leafroller of sugarcane in India.
13920

Observations on crop pests in the Sudan in 1966/1967.
13935

Anticipated changes in physical and biotic ecological factors which will effect the present status of the insect and animal pests in the district of Lake Nasser.
14024

Prospects of integrated microbial and radiation control of harmful insects.
14210

Study on spiders (particularly referring to grass-spiders) to prey upon fall-web worms (Hyphantria cunea Drury).
14215

Activity and control of woodland insects.
14244

Relative toxicity of some insecticides to the hairy caterpillar, Diacrisia obliqua (Arctidae: Lepidoptera).
14277

Biology of three species of Leiophron (Hymenoptera: Braconidae, Euphorinae) parasitic on Miridae on broom.
14281

Aphids and mildew. Two economically important pests of grain in southern Sweden 1967.
14330

The protection of plant collections from pests. 3.
14426

Garden pests and diseases; a guide to recognition and control. sB603.5.H4.
14438

Occurrence of Bracon gelechiae Ashmead as a parasite of potato tuber moth, Gnorimoschema opercuella (Zeller) in the field in Mysore State and Assam and its other hosts recorded in India.
14448

The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae).
14454

A bibliographical guide to the animal parasites and arthropod pests of Ceylon.
14582

The distribution, life history, and economic importance of the winter moth, Operophtera brumata (L.) (Lepidoptera, Geometridae) in Nova Scotia.
14811

Longevity of the fire blight organism, Erwinia amylovora on pear trees in the greenhouse as demonstrated by infection after sandblast injury.
14901

La lutte chimique contre les insects nuisibles. (chemical control of insect pests). ed. 3.
14906

Preliminary laboratory tests utilizing Beauveria bassiana (Balsamo) Vuillemin on Calomycterus setarius Roelofs.
15234

Timber pests and diseases. 1st ed. TA422.F5.
15529

Aegeriidae, with special reference to the peach tree borer. In:Smith,C.N.Insect colonization and mass production. QL497.S6.
15811

Sunscald canker of sugar maple. (Abstract).
15889

An observation concerning the basic question of the efficiency and worth of natural enemies of pests.
15983

A new approach to the physiological host plant-parasite relationship. A technique in the field of applied entomology.
15989

Mexican Border regulations. Treatments, permits, and fees for fumigation.
16258

Differences in ecological responses of three biotypes of Ostrinia nubilalis from the north central United States.
16280

Ecology of insect populations in theory and practice. QL496.C55.
16283

Controlling insect enemies of the alfalfa leafcutter bee, Megachile rotundata.
16400

Ecology and behavior of the migratory Locust in southwest Madagascar.
16463

Felted grass coccid on Rhodes grass in Queensland.
16703

Insect pests of farm, garden, and orchard.
16705

Bionomics of Glycyphagus domesticus (de Geer)(Acarina: Glycyphagidae),a pest of stored grain.
16897

Effect of substrate temperature on emergence and growth of seedling cotton following in-furrow applications of Temik (10 0 G formulation of union carbide UC-21149).
16922

Marking tobacco hornworm moths for night recovery with a blacklight lamp.
16998

Chrysomelid beetles from the Papuan subregion, 4 (Eumolpinae, 2).
17022

Seasonal fluctuations in abundance of various rice stem borers on Luzon Island, Philippines.
17032

Properties of an acetylcholinesterase from the face fly, Musca autumnalis.
17082

Insect pests of cotton. VII. Evaluation studies on insecticides.
17086

Sugar for the survival of Lygus hesperus on alfalfa.
17087

Variations in growth of planthoppers and leafhoppers amoung varieties of Japanese and foreign rice plants. Transl. 16904.
17131

Method of predicting the most active days of stem borer. transl. 16902.
17132

Studies on the observation of the rice stem borer about the relation between the weight and the growth of overwintering larvae. (report 1). Transl. 16792.
17143

Analysis of the injury of brown planthopper on the rice plant. Transl. 16905.
17146

Biology and control of the onion thrips in India.
17152

Pupation of wintering larvae of the rice stem borer, Chilo suppressalis Walker, reared at 25 C. Transl. 16919.
17168

Effects of several insecticides on black rice bug. Transl. 16917.
17173

Biology of the mustard aphid, Lipaphis erysimi, in India.
17194

Present status of biological control of the pear psylla in southern Oregon.
17218

Reduction of tabanid populations on cattle with sticky traps baited with dry ice.
17221

Some observations on vectors and transmission of tobacco etch virus.
17373

INSECT PESTS

Biological control. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17374

Insects attacking rose hips in Europe. 17376

A comparison of season-long cotton-pest-control programs in California during 1966. 17378

Occurrence of harmful insects in direct sown paddy field in warmer regions and their control. Mainly on the ecology of insects which carry paddy virus. Transl. 16911. 17383

Studies on the ecology of rice green caterpillar. I.On the habit of progress in the north part of Hokkaido (Kamikawa area). II. On the active time of adults by night. III. on the relation between the activity of adults by night and weather. Transl. 16696. 17384

Microbes and toxic chemicals in the struggle against plant pests. (JPRS 44,489) Transl. 16903. 17386

Seasonal abundance of insect pests and virus diseases in the rice field of seedling cultivation. Transl. 16906. 17387

A comparison of predator populations in cotton under different control programs in Mississippi. 17389

Effectiveness and persistence of low dosages of azinphosmethyl for control of the codling moth. 17392

Observations on insects attacking wild rice in Manitoba. 17393

Morphological and biological studies of thysanopterous insects on rice plants. Transl. 16727. 17406

Appendix to pest of crops in warm climates and their control. V. Control measures (appendix to supplement 7, 2nd enlarged and revised edition). 423 w99ae. 17409

Insect pests in food stores. 17623

Pyrethum as an insect repellent. II. A laboratory technique for its evaluation as a mosquito repellent, and the influence of formulation on persistence. 17720

Domestic quarantine notices. Pink bollworm. 17730

New Zealand Noctuidae (Lepidoptera): Summary of known host plants and a bibliography relevant to the biology of the group. 17749

Temperature relationships of the development of northern corn rootworm eggs. 17802

Preliminary evaluation of a granulosis virus for control of the codling moth. 17822

A sex pheromone from the citrus mealybug. 17828

Field tests of chemicals for control of the European corn borer. 17831

A study of the nuclear polyhedrosis virus on the beet armyworm, Spodoptera exigua (Hubner), with emphasis on stability, pathogenicity and histopathology. 17837

Comparison of application rates of some soil insecticides for control of western corn rootworm larvae in Missouri. 17866

Winter oviposition by the alfalfa weevil in Virginia. 17900

Systematic insecticide seed treatment tests on soybeans. bowling, c c. 18082

Aluminum foil and white polyethylene mulches to repel aphids and control watermelon mosaic. 18083

Survival of the balsam woolly aphid on Abies logs. 18084

Black vine weevil larval damage to concord grape roots at different population densities. 18088

Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana. 18090

Effects of early-, mid-, and late-season infestations of two-spotted spider mites on the yield of cotton. 18094

A bioassay technique for screening feeding stimulants for larvae of tobacco budworm. 18096

Lack of cytoplasmic inheritance of alfalfa resistance to the spotted alfalfa aphid. 18099

Oviposition preferences of western corn rootworms for various soil surface conditions. 18100

Studies of the insect complex affecting seed production of ponderosa pine in California. 18101

Resistance in bermudagrass to the fall armyworm. 18104

Insect pests of Nigerian crops. 18105

Improved technique to control shot hole borers and bark beetles. 18106

Reinfestation of forest sites by the Texas leafcutting ant. 18107

Studies on hydrogen phosphide against the red flour beetle in a column of paddy. 18113

A medium for laboratory rearing of the peach tree and lesser peach tree borers. 18114

Attack of the black turpentine beetle on roots of slash pines. 18118

Peculiarities of development and harmful activity of the Hessian fly (Mayetiola destructor Say.) under conditions of irrigation. 18119

Egg distribution as a factor in suppressing the green peach aphid by pruning. 18122

Resistance of southern peas to the cowpea curculio. 18125

Control of the elm leaf beetle in Arizona. 18128

The Columbian timber beetle, Corthylus columbianus (Coleoptera: Scolytidae). VIII. Artifacts and characteristics of the host tree. 18129

Horn fly control with coumaphos. 18349

Studies on the natural enemies of insect pests of West pakistan Forests. Final report, June 1961-June 1966. SB942.G5. 18577

Pest infestation research 1967. 423.92 G792. 18579

Occurrence of syrphid larvae on some aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18602

The fall webworm are infestations limited by natural control . 18620

Grasshoppers and locusts in western Australia. 18626

Invisible insects which cause itches may be a source of business for PCOS. 18668

Hypera (Phytonomus) arator L. (Col., Curculionidae) associated with acidity in barley. 18672

Chemical insect control handbook. SB951.W3. 18693

Parasitology of the strawberry. 18729

Pests and diseases in the deciduous orchards of Israel. in 1960-1964. SB608.F8A7. 18766

Citrus fruit decay in South Africa caused by Penicillium digitatum Sacc. 18921

Control of cotton pests in the Northeast. 18999

Pests of walnut trees. 19004

An area control program for the pear psylla. 19007

The pickleworm; its control on cucurbits in Alabama. 19009

Control of caterpillars attacking cabbage. 19010

Possible new approach to the chemical control of plant feeding insects. 19017

Annotated bibliography of the literature, 1792-1962, on the elm spanworm, Ennomos subsignarius (Hbn.). z5858.L5F4. 19019

Further studies of effects of antibiotics and other compounds on fecundity and mortality of the two-spotted spider mite. 19025

Notes on some aphids from British North Borneo. 19026

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera). 19028

Hopperburn disease of castor bean varieties caused by Empoasca flavescens (F.) in relation to the histology of leaves. 19030

Pests of the grapevine. 19033

Attraction of pear psylla to blacklight. 19035

Allotropa in the Samarkand region. 19039

An appraisal of methods of sampling apple trees and results of some tests using a sample unit common to insect predators and their prey. 19040

The right trap for the right timing. 19041

The larva of the dock sawfly, Ametastegia glabrata, as a pest in orchards. 19042

Grape leaf blister mite. 19045

A mite that is harmful to young plum trees. 19051

Chemical attractants for navel orangeworm moths. 19061

Wooden apples lure costly pest. 19062

The apple seed chalcid, Torymus varians, in Quebec. 19067

Comparisons of soil and foliar applications of acaricides for control of the two-spotted spider mite on strawberries in southern California. 19075

The performance of 13 chemical compounds with an acaricidal action against the European red spider mite (Panonychus ulmi; Acarina, Tetranychidae). 19076

Red spider mite in deciduous fruit orchards. 19083

Cabbage insects; how to control them in the home garden. 19089

Cicada damage to young fruit trees in Limburg. 19091

Insects of field crops in N. W. Iraq. 19096

Report of the first meeting of the FAO committee on the control of sunn pests of cereals. Meeting, April 6-11, 1963. Teheran, iran. SB608.G6F6. 19219

Occurrence of Gibbium psylloides De Czen. (Col., Ptinidae) in ships' holds. 19227

On a new Monocentrus (Membracidae Centrotinae), harmful to the cultivated pepper trees in central Africa. 19356

Research on the attractiveness of various conifers in regard to Ips sexdentatus. 19579

Color vision of the female stable fly, Stomoxys calcitrans. 19752

Competition with Heptachlor dust and other chlorinated dust formulations for control of ant colonies of Atta sexdens rubropilosa Forel, 1908 and A. laevigata (F. smith, 1858). 19798

Yield losses due to pests and diseases in rice crop. Results of ICAR sample survey. 19863

Agricultural entomology in the Lebanon. 19868

Cone insects of grand fir, Abies grandis (Douglas) Lindley, in British Columbia. 19878

Studies on the plant characters of castor associated with resistance to Empoasca flavescens (Fabr.) (Homoptera: Jassidae) with reference to selection and breeding of varieties. 19880

Effect of early sowing of sunnhemp on the incidence of its insect pests. 19902

Distribution and abundance of Sitona hispidula (F.) and the effect of insect injury on root decay of red clover in the Maritime Provinces. 19909

Eradication of cattle tick (Boophilus microplus) from Magnetic Island, Queensland, in the presence of native fauna. 20021

New spider mite poses threat to California's solanaceous crops. 21196

Heliothis armigera (Hiubner), American bollworm, on wheat in West Kilimanjaro, Tanzania. 21197

A progress report...Olive yield decline study in Tehama County. 21199

Organic insecticides and some recent trends in pest control. 21200

Control of aphids on barley. Economic treatment levels. Analysis of yield increases. 21202

On the lethal effects of methyl bromide to broad bean weevil (Bruchus rufimanus Boheman). SB608.B3Y63. 21203

The face fly, Musca Autumnalis... A new livestock fly is now moving toward California. 21456

Beef cattle dipping program in Southeastern, Idaho. (Abstract). 21458

Horn fly and grub control on beef cattle...testing several new insecticides. 21459

Domestic quarantine notices. Gypsy moth and brown-tail moth. I. Quarantine and regulations. II. Regulated areas. III. Exemptions. 21463

Prevention of insect infestation in stored food packages and agricultural commodities. Final report, June 1, 1965 may 31, 1967. SB951.G5. 21485

The response of Rhagoletis pomonella (Walsh) adults and other insects to trap boards baited with protein hydrolysate baits. 21585

Aldrin, dieldrin, endrin, and chlordane persistence--a 3-year study. 21593

Breeding insects with artificial food. 21661

The effects of integrated plant protection methods. 21797

Forest plant protection problems in Bavaria. 21799

Effects of two carbamates on several pests of peach. 21829

Pests of cultivated plants in Finland in 1967. 21888

Virus disease survey on citrus in Aegean region. 21909

Effects of phenols on the plant. 21961

A contribution to the fruit fly resistence in certain lines of corn and hybrids. 21966

Cacao flush defoliating caterpillars in Papua and New Guinea. 21967

Carabidae and Staphylinidae occuring on soil surface in lucerne fields. 21987

The westward movement of pink bollworm. 21995

Research on the chemical control of Aceria sheldoni. 21999

Control of the hamster pest. 22155

Technical notes on harmful insects from Malagasy. 22349

Developments in pest control. I. The present status of resistance. II. The future of pest control. 22363

Calculating the grade of effectiveness of a microbiological control action against insect pests. 22395

Further observations on the biology of the oyster nut shield bug (Piezosternum calidum Fab.). 22402

Ants- ancient city dwellers. 22456

Citrus diseases and pests. 22490

The evolution of resistance in hosts and pests. 22497

Summary of insect and mite incidence on fruit in 1967. 22533

Insects cost us money. 22786

Bibliography on biological control. IX. 22974

The biology of Choristoneura houstonana (Lepidoptera: Tortricidae), a pest of Juniperus species. 22988

An attempt at the liquidation of a primary center of mass appearance of injurious insect. 22996

New data to the biology of Capnodis tenebrionis L. (Coleoptera). 23028

Developments in the resistance status of the southern cattle tick to organophosphorus and carbamate insecticides. 23043

Integrated control problems of citrus and peach aphid pests in Italy orchards. 23049

Population fluctuations in fruit orchard insects. 23070

The egg- and larval development of Trogoderma angustum Sol. (Dermestidae). 23071

Yield losses due to pests and diseases in rice crop. 23089

Annual report of the Forest Insect and Disease Survey. 23092

Maritimes region. 23093

Manitoba-Saskatchewan region. 23095

Quebec region. 23099

British Columbia region. 23100

Reactions of lodgepole pine to attack by Dendroctonus ponderosae Hopkins and blue stain fungi. 23104

Ontario region. 23105

Alberta-Northwest Territories-Yukon region. 23109

Newfoundland region. 23111

Overseas experts are working at Lincoln,New Zealand, on insecticide resistance in mites. 23177

The damaging occurrence of Aradus cinnamomeous Panz. in Sweden. 23180

A bacterial insecticide. 23183

Experiences with the use of the phosphorus-hydrogen preparation Phostoxin in Yugoslavia. 23193

Materials on destructive insects of Pinus pithiusa Stev. in Pitzunda (Georgian Soviet Socialist Republic). 23197

Yet another aphid to ravage our grain crops. 23203

Bionomics and distribution of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae). 23206

Thimet (phorate) applications. 23214

A progress report on insecticide resistance in the fly complex...of California poultry ranches. 23355

INSECT PHYSIOLOGY

Predicting influxes of Aedes vexans into urban areas. 13718

The secretory activity of corpora allata during sexual maturation and imaginal diapause in Gryllus domesticus L and Leptinotarsa decemlineata Say. 13767

Development of the fat body in Calliphora erythrocephala Meig. larva. 13780

Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae). 13782

Gamma irradiation of the tobacco budworm: sterilization, competitiveness, and observations on reproductive biology. 13788

Effect of ultraviolet irradiation on egg hatch, subsequent larval development, and adult longevity of the tobacco budworm and the bollworm. 13797

Hatch, larval development, and adult longevity of four lepidopterous species after thermal treatment of eggs. 13798

Development of Angoumois grain moths in kernels of wheat, sorghum, and corn as affected by site of feeding. 13815

The stages of Spanogonicus albofasciatus and their development (Hemiptera: Miridae). 13832

Influence of photoperiod, temperature, and food on initiation of diapause in the apple maggot. 13840

Uptake of P32 by yellow-fever mosquito larvae of equal age, and those pupating synchronously: its loss and transfer during development, mating, and oviposition. 13841

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera). 13844

Influence of temperatures and light regimens on diapause of Samia cynthia pryeri. 13846

Site of viral RNA synthesis within the midgut cells of the silkworm, Bombyx mori, infected with cytoplasmicpolyhedrosis virus. 13857

Penetration of the Tahyna virus to various organs of the Aedes vexans mosquito. 14177

Ribosome aggregates of the midgut of silkworm, Bombyx mori L. 14195

Alteration of feeding behavior and fertility in Aedes aegypti by the chemosterilant apholate. 14211

Investigations of relationships of egg length to female size and egg number in Anopheles claviger typicus Meigen, with references to development of length in larvae. (Investigations of the insect fauna in place 15). (Diptera: Culicidae). 14221

Some relationships of face fly feeding, ovarian development, and incidence on dairy cattle. 14233

A morphological and functional study of the venom apparatus in representatives of some major groups of Hymenoptera. 14252

Changes in the contents in respect to the energy producing reserve material during the cast differentiation of Formica polyctena Foerst (Ins. Hym.). 14257

Protein synthesis in the tissues of the silkworm, Bombyx mori, infected with nuclear-polyhedrosis virus. 14283

Effects of army ant queens on longevity of their workers (Formicidae: Dorylinae). 14285

Observations on Toxorhychites splendens (Wiedemann) (Diptera: Culicidae) in Singapore. 14306

Stimuli provided by courtship of male Drosophila melanogaster. 14859

Relationship of the crop capacity to the depletion of the fat body and egg development in the corn earworm, Heliothis zea, and the fall armyworm, Laphygma frugiperda (Lepidoptera: Noctuidae). 14869

The occurrence of acetylcholine in the nervous tissues of American cockroaches. 14874

Sex pheromones of noctuid moths. VII. Quantitative aspects of the production and release of pheromone by females of Trichoplusia ni (Lepidoptera:Noctuidae). 14882

Sterol storage and reporduction in the house fly. 14922

The fate of dietary H3-beta-sitosterol in the adult house fly. 14923

Lysozyme-like action of enzymes from the cockroach Periplaneta americana and from some other sources. 14934

Quantitative studies on purine excretion in the greater wax moth, Galleria mellonella. 14966

Some observations on the fine structure of the midgut of the mite Anystis sp. 14969

The influence of physical stress on growth and nuclear polyhedrosis of Trichoplusia ni (Huebner). 15242

Life-history and population studies on the Simuliidae of North Wales. 15725

The functional significance of the nervi corporis allati 1 and nervi corporis allati 2 in Gryllodes sigillatus. 15742

The stridulatory mechanism in three species of Pentalobus (Coleoptera, Passalidae). 15744

Solubility and electrophoretic properties of ovarial protein of the cockroach, Leucophaea maderae. 15752

Evidence for a lipid activator of prophenolase in Tenebrio molitor. 15762

The oxidation of NADPH by the soluble fraction of the fat body of the silkworm, Bombyx mori L. 15766

Resistance to starvation of pale and black larvae of the armyworm, Leucania separata Walker (Lepidoptera: Noctuidae). 15771

Stable flies. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15774

The effect of amino acids, vitamins, and trace elements on the development of Acyrthosiphon pisum Harris (Hom., Aphididae). 15787

The relation between soil water tension and rate of development of the eggs of Tipula oleracea and T paludosa (Diptera: Nematocera). 15789

Temperature and induction of diapause in Epicauta gorhami Marseul (Coleoptera: Meloidae).
15798

Barrier systems in insect ganglia and their implication for toxicology.
15802

Tyrosine activity in the eggs of white-eyed mutants in the silkworm, Bombyx mori.
15804

Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. III. Sternopleural chaetae.
15805

Reproduction, feeding activity, and growth in the adult firebrat, Lepismodes inguilinus Newman (Thysanura, Lepismatidae).
15826

Effect of a synthetic juvenile hormone on adult cabbage aphids and their progeny.
15828

Glutamic acid requirements of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae).
16286

Temperature effects on nerve activity in DDT-TREATED American cockroaches.
16289

A new aberration of Pieris brassicae (Linn.) Lepidoptera, Pieridae.
16318

An electrophoretic study of the changes in proteins in the haemolymph during the life cycle of the boll wevil, Anthonomus grandis (Coleoptera: Curculionidae).
16320

Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae.
16321

A physiologic difference in aphids (Homoptera) raised on excised leaves and on intact plants.
16353

Left colleterial proteins in the viviparous cockroach Nauphoeta cinerea.
16354

Humor control of the water equilebrium in Locusta migratoria migratorioides.
16370

Testicular and haemolymph amino acids of Poecilocerus pictus (Acrididae).
16379

Glandular formations of the dorsal tegument of Saissetia oleae (Hom. Coccidae).
16391

Biology of Deltocephalus sonorus (Homoptera: Cicadellidae).
16394

Vital dyes as markers for behavioral and population studies of the larch sawfly, Pristiphora erichsonii (Hymenoptera: Tenthredinidae).
16398

Growth, feeding activity, and the utilization of reserves in larvae of Locusta.
16399

Penetration, excretion, and metabolism of carbaryl in susceptible and resistant German cockroaches.
16409

The effects of cadmium compounds on reproduction and growth of the stable fly, Stomoxys calcitrans (Linnaeus).
16410

The permanent and cumulative effect of tepa-induced sterility in male Japanese beetles.
16411

Comparative studies of the labellar sensitivity of female tabanids (Diptera) to sucrose and sodium chloride.
16413

Dosage compensation as a developmental phenomenon in Drosophila.
16416

Evidence of winged insect sexual dimorphism in Philophylla heraclei (Dipt. Trypetidae) through use of a photopterometre .
16419

Immunological relationships between the parasite Cardiochiles nigriceps Vierick and certain Heliothis species.
16420

Evidence for the DDT-INDUCED synthesis of messenger ribonucleic acid in Triatoma infestans.
16423

The effect of temperature upon the development of the heartand-dart moth (Agrotis exclamationis L.).
16431

Studies on the salivary physiology of plant-bugs: Experimental induction of galls.
16433

Flight activity of honeybees in a flight and rearing room. I. The influence of light intensity.
16436

Structure and formation of coaptations of the maxillary stylets of Rhodnius prolixus. (Heter. Reduviidae).
16439

The metabolism of carbaryl (1-naphthyl-N-methylcarbamate) by the fat body of the blowfly larva Calliphora erythrocephala.
16440

Factors affecting protein synthesis by the fat body of the larva of the blowfly Calliphora erythrocephala.
16441

Aspects concerning the mode of action of insecticide.
16443

Oothecae of the Blattaria.
16444

Ovarioles of the Blattaria.
16445

The effect of age on the flight performance of female Aedes aegypti mosquitoes.
16446

Inhibition by acetylcholine of malpighian tubule muscle of the cockroach Periplaneta americana.
16450

Protein synthesis in subcellular fractions of the blowfly during different developmental stages.
16453

Phototactic response of adults of confused flour beetle and red flour beetle and larvae of black carpet beetle to flashes of blue-white light.
16456

Biological notes on, and eradication of Trichogramma semifumatum from laboratory cultures of eight species of Noctuidae.
16458

Defense reactions of Drosophila species (Diptera: Drosophilidae) to the parasite Pseudeucoila bochei(Hymenoptera: Cynipidae).
16459

Some physiological effects of sublethal doses of DDT on flour beetles.
16462

Survival and development of several grasshopper species on extracts of selected plant species.
16465

Survival of overwinting alfalfa weevil eggs in Pennsylvania.
16466

Structure and physiology of a chordotonal organ in the locust leg.
16469

Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat.
16470

Source of a substance in Heliothis virescens (Lepidoptera: Noctuidae) that elicits a searching response in its habitual parasite Cardiochiles nigriceps. (Hymenoptera: Braconidae.
16471

Effect of irrigation and submersion in water on pupal survival of the bollworm.
16483

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions.
16485

Inherited sterility in progeny of irradiated male cabbage loopers.
16496

Physiological genetics of melanotic tumors in Drosophila melanogaster. IV. Gene-environment interactions of tu-bw with different third chromosome backgrounds.
16498

Studies on the development of insect resistant sorghum varieties and hybrids.
16707

Biophysical and biochemical studies on the nature of resistance of pineapples to the oriental fruit fly.
16710

Review of some recent research on Onchocerca vectors.
17039

Molecular sieving of hydrophilic molecules by the rectal intima of the desert locust (Schistocerca gregaria).
17052

Variation in toxicity of Malthion when applied to certain body regions of Schistocerca gregaria (Forsk.).
17068

Biological studies on chironomids with emphasis on the temperature relations of the developmental stages.
17079

A convenient synthesis of mixed isomers of juvenile hormone.
17083

Localization of nucleoli of tow pericardial nerves of Dictyoptera, Blaberidae and Blattidae.
17084

Some effects of photoperiod, temperature, and food on the induction of diapause in the boll weevil.
17092

Choline activity during the development of Drosophila melanogaster.
17111

The insects and other inhabitants of shelf fungi in the Southern Blue Ridge region of Western North Carolina. III. Isoptera, Lepidoptera and ants.
17116

Micro-potentiometric pH determinations of muscoid maggot digestive tracts.
17117

Variations in growth of planthoppers and leafhoppers amoung varieties of Japanese and foreign rice plants. Transl. 16904.
17131

Recent advances in nutritional physiology of insects.
17133

Neurophysiology of insect chemical senses.
17134

Alcohol dehydrogenase from Drosophila: Interconversion of isoenzymes. (Abstract).
17137

Ultrastructural characters of active and inactive corpora allata in Locusta migratoria.
17140

Studies on the observation of the rice stem borer about the relation between the weight and the growth of overwintering larvae. (report 1). Transl. 16792.
17143

Biochemical aspects of insect metamorphosis.
17144

Sexual differential in time of hatch of eggs of the gypsy moth.
17154

INSECT PHYSIOLOGY

Diapause in gypsy moth. 17155

Gel filtration of insect haemolymph proteins. 17157

Lipid changes during the life cycle of Sarcophaga bullata. 17158

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal.). III. Metabolic changes and their bearing on the cessation and delay of moulting. 17177

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal). I. Induction of delayed moulting and defects. 17178

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal). Ii. Mechanism of cessation and delay of moulting. 17179

Contribution to the study of reproduction and the evolutionary cycle of Glossina morsitans West. 17183

Synthesis and distribution of RNA in Cecropia oocyte differentiation. 17184

The effects of gamma radiation on the navel orangeworm, Paramyelois transitella (Walker) (Lepidoptera: Phycitidae) and the feasibility of control with irradiated adults. 17185

Role of the host plant concerning the sexual attractiveness of Acrolepia assectella Zeller. (Lep. Plutellidae). 17186

Oscillatory mechanism in fibrillar insect flight muscle. 17195

Loss of hostplant specificity by Manduca sexta after rearing on an artificial diet. 17196

The structure of a pregenital abdominal ganglion of the desert locust Schistocerca gregaria (Forskal). 17197

Urate accumulation and life span in two species of Habrobracon. 17201

Evidence for phonoreception in the lubber grasshopper Romalea microptera). 17204

An anatomical and histological study of the male myrmicine ant, Myrmica rubra, L. (Hymenoptera: Formicidae). 17212

Undulatory locomotion of the plant parasitic nematode Meloidogyne javanica. 17217

Genetics of insect vectors of disease. RA639.W7. 17246

Activation of malathion by the locust bodywall. 17777

Bionomics of the mosquito Anopheles franciscanus Mccracken in California. 17783

Photoinhibitory function of the dorsal ocelli in the phototactic reaction of the migratory locust Locusta migratoria L. 17786

Mechanism of locust jumping. 17793

A comparative study of salivary gland chromosome asynapsis in tumorigenic and closely related non-tumorigenic strains of Drosophila melanogaster. 17804

Polygenic control of aldehyde oxidase and xanthine dehydrogenase in Drosophila. 17807

On the biology of several Trechinae and Sphodrinae. (Insecta, Coleoptera). 17808

The formation of the cuticular ridges in the larval pharynx of the blowfly (Calliphora vicina R.-D.). 17809

Correction coefficients for prognosing the development of insects by sums of effective temperatures (Agrotis segetum Schiff taking of example). 17810

Some effects of gamma radiation on the tobacco budworm Heliothis virescens (Fabricius). 17818

Mechanical and electrical activity in the indirect flight muscles of the honey bee. 17820

Biting in Orthoptera and their allies. 17826

Studies on insect (Periplaneta americana L.) phosphofructokinase. 17827

A sex pheromone from the citrus mealybug. 17828

The molting behavior of the black widow spider, Latrodectus mactans. 17830

Influence of the spectral composition of certain bands of visible and near visible radiation on diapause in the boll weevil. 17833

Field and laboratory studies on the ecology and morphology of Nabis americoferus Carayon and its parasites in California. 17834

Data on the endocrine system of several Diplopoda, Oniscomorphes (Myriapoda). 17841

Electrical activity in insect nerve cell bodies. 17846

Effects of mold inhibitors in larval diet on the biology of the cabbage looper. 17847

Functional degeneration of the venomous gland of Apis during the summer and winter. 17851

Enzymatic hydrolysis of the encysted parasporale of Bacillus thuringiensis by Bombyx mori L. proteases. 17852

The directions of the flow of food in the alimentary tract of the leafhopper Euscelidius variegatus KBM. (Jassidae). 17865

Retraction of the claim that host pregnancy affects pupal production by the tsetse fly. 17867

On cold resistance of the pea aphid Acyrthosiphon pisum Harr (Homoptera, Aphididae). 17869

Cellular immune responses of insects to foreign tissue implants. 17871

Aspartate aminotransferase in the pea aphid, Acyrthosiphon pisum (Harris). 17876

Role of photoperiod, temperature, and injury in induction and termination of the pupal diapause of Heliothis zea (Boddie). 17877

Tyrosine metabolism and its hormonal control after eclosion in the adult fleshfly Sarcophaga bullata Parker (Diptera: Sarcophagidae). 17879

Sensillae on the antennae of blood-sucking biting midges (Diptera, Ceratopogonidae). 17880

On the innervation of the prothoracic glands in Papilio demoleus L. (Lepidoptera). 17884

Laboratory rearing of Culex (Melanoconion) portesi Senevet and Abonnenc. 17888

On periodicity of gas exchange in ontogenesis of the Colorado beetle (Leptinotarsa decemlineata Say.). 17892

Influence of a virus disease on the hemocytic anticryptogramic reactions in insects. 17893

Improvement of a method for culturing the eggs of the Phasmid Carausius morosus Br. deprived of the chorion. 17894

On the tetrapyrrolic pigments, essential constituents of homochrome:coloration in Oedipoda coerulescens L. (Acridae, Orthoptera). 17895

Physiological genetics of melanotic tumors in Drosophila melanogaster . V. Amino acid metabolism and tumor formation in the tu bw; st su-tu strain. 17902

Secretions from the lazeral scent glands of the green vegetable bug, Nezara viridula. 18608

Cardioaccelerator release in Periplaneta americana (L.). 18628

Biochemical differentiation of the sibling black widow spiders, Latrodectus mactans and L. variolus. 18641

Circadian oscillation controlling hatching: Its ontogeny during embryogenesis of a moth. 18645

An experimental study of the effect of changing light intensity on the activity of adult locusts. 18648

Phenol oxidases of a lozenge mutant of Drosophilia. 18653

Some improved methods for keeping ant nests in the laboratory. 18657

Association of folin positive material with the blood proteins of the American cockroach and the oviposition cycle. 18659

Alkaline phosphatase relationships in Drosophila. 18669

Effect of blood fractions upon oviposition in Culex(Culex) fatigans Wiedemann (Dipt., Culicidae). 18671

Effect of food on some aphidophagous Coccinellidae. In: Hodek, I. ed. Ecology of aphidophagous insects. SB975.S9. 18677

Studies on the oviposition behavior and development of the type form of Aedes aegypti L. (Dipt., Culicidae). IV. Light intensity. 18685

Studies on the oviposition behaviour and development of the type form of Aedes aegypti L. (Dipt., Culicidae). III. Temperature. 18686

Bark beetle aggregation: Effects of feeding on the release of pheromones in Dendroctonus and Ips. 18692

The effects of various anesthetics on the action of DDT on Anopheles larvae. 18716

Eggs of moths among the Ethmiidae, Acrolophidae and Hepialidae--Microlepidoptera. 19468

Stridulation and behavior in two southeastern Ips bark beetles (Coleoptera: Scolytidae). 19524

The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress. 19537

The formation of ommochromes in the eyes during the pupal development of Plodia interpunctella Hb. 19539

A possible precursor of ommin in synthesis of ommochrome of Plodia interpunctella Hb. and of Ephestia kuhniella Z. 19540

Abnormalities in Nosema-diseased worker bees. 19546

Study of Verson's gl1nd in Galleria mellonella (Lepidoptera Pyralidae) in the course of the cuticular cycle: Histology, Cytochemistry and Electron Microscopy. 19550

Evidence for radioresistance of the germinal structures of Leptinotarsa decemilineata Say.. 19554

Research on the determination of the production of winged sexupares in the male Dysaphis plantaginea Pass. (Hom. Aphididae). 19555

Studies on the structure of the eggs of an Indian Stink Bug Cyclopelta siccifolia Westwood (Hemiptera-Heteroptera Penthtomidae). 19557

The ectodermal genital system of Cicada females. 19558

Contribution to the study of the photoperiodic phenomena of Megoura viciae. (Homi Aphididae). 19560

Generalization, in various Insecta, of deutocerebrale inervation of the corpora cardiaca and neurosecretory role of the Nervi corporis cardiaci IV. 19561

Variation in the pattern of the free amino acids in females and workers of Formica polyctena Forst. (Hym. Formicidae) during metamorphosis. 19562

Changes in fatty acid composition of Culex pipiens during hibernation. 19564

Special effects and teratological symptoms of the thermostable toxin of B. thuringiensis as a function of the physiological age of insects. 19568

Differentiation of the male sexual characteristics of two acridids, after implantation of Corpus allata during the last larval stages. 19572

On the composition of the toxin of the insect Calosoma sycophanta L. (Coleoptera Carabidae). 19576

Summary of the photoperiodic effects and determination of the phase characteristics in Locusta migratoria migratorioides, gregarious phase. 19577

Purification and study of the specificity of May bug trehalase (Melolontha vulgaris). 19584

Differential sensibility of the common May-bug, Melolontha melolontha, L. (Col. Scarabeidae) to certain wavelengths of the visible spectrum. 19585

Comparative study, Dysdercus discolor Walker, of the normal growth and of growth in the presence of the Paper factor . 19587

Developmental and sexual differences of blood proteins in the silkworm, Bombyx mori. 19593

Experimental investigation into the physiology of molting of spiders. 19597

In defense of magic: The story of fireflies. 19602

The biochemical basis of female monogamy in mosquitoes. I. Extraction of the active principle from Aedes aegypti. 19607

Choline activity during the development of Drosophila melanogaster. 19610

A quantitative analysis of citric acid content during ontogenesis of Leptinotarsa decemlineata (Say). 19614

Description of the metameric neurohemal organs in the ventral nervous system of two Coleoptera: Chrysocarabus auronitens Fabr. (Carabidae) and Oryctes rhinoceros L. (Scarabaeidae). 19620

Histochemical studies on the 'corpus luteum' in Locusta migratoria (R. F.). 19621

On the hemopoietic nature of the phagocytic organ (Cuenot) of Grillus bimaculatus (Orthoptera Ensifera). 19627

Comparison of the size and physiological activity of the corpora allata of Locusta migratoria L. 19635

Influence of the corpora allata on ovarian functioning in the male Pieris brassicae L. (Lepidoptera). 19639

The composition of yolk in the eggs of Apanteles glomeratus (L.) (Braconidae: Hymenoptera). 19645

Examination concerning the free amino acids of the hemolymph by Periplaneta americana (L.) in relation to different formations and functional phases. 19649

The spiracular mechanism in the Indian Sann hemp moth, Utetheisa pulchella Linne (Lepidoptera: Arctiidae). 19663

Probing behavior of the pea aphid, Acyrthosiphon pisum. II. Comparisons of salivation and ingestion in host and non-host plant leaves. 19666

Ovulation and induced egg laying by copulation among Drosophila; drop in the percentage of germinating eggs as a function of the duration of their retention. 19667

Gonadotrophic cycles in the face fly, Musca autumnalis. 19669

Neural and hormonal influence on the fecundity and egglaying of certain oxyurid nematodes inhabiting the hind gut of the cockroach, Periplaneta americana L.. 19678

Moisture and fat content during the adult life of the Ambrosia beetle, Trypodendron lineatum (Oliv.). 19684

The fecundity of females of Tabanus bovinus and Hybomitra solstitialis in relation to their physiological state. 19691

Anticholinesterase action of some organophosphorus insecticides on the central nervous system of Musca domestica. 19701

On the relationship between pigmentation and perceptibility of the potato beetle Leptinotarsa decemlineata Say. A contribution to the physiological importance of carotinoid pigment with the demonstration of vitamin A in insects. 19705

Contribution to the study of the morphology of the cephalic nervous system of termites. 19708

Investigations on the developmental physiology of the embryonic mycetom of Euscelis plebejus F. (Homoptera, Cicadina). I. Isolation and abnormal combinations of detailed components of the symbiontic systems. 19717

Effect of insecticides and insecticide treated cockroach blood on the heart beat of Periplaneta americana L. 19734

Studies on the posterior silk gland of the silkworm Bombyx mori. I. Growth of posterior silk gland cells and biosynthesis of fibroin during the fifth larval instar. 19736

Effect of different temperatures on the duration of embryonic development of six species of terrestrial and subterranean Collembola Hypogastruridae. 19738

Research on the neuro-endocrine control of oviposition in Carausius morosus Br. (Phasmides-Cheleutoptera). 19739

Preliminary studies of the 'uradenies' of certain Heteroptera Pentatomorphs. 19740

Developmental duration and hatching of the pupae of Aedes (Ochlerotatus) punctor (Kirby) (Diptera, Culicidae) under long daylight conditions in northern Sweden. 19742

Determining the developmental cycle of Locusta migratoria around latitude 44 degrees N.: followed by a note by P. P. Grasse (1924). 19748

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of Nymphal Triatoma infestans. 19750

Nonautonomy in differentiation of pattern-determining genes in Drosophila. II. Transplantation of eyeless-dominant leg disks. 19788

Methods for the study of tracheal system and copulatory apparatus in Menacanthus stramineus. 19795

The hypopial stage of Falculifer rostratus in the turtledove. 20019

Occurrence and distribution of the Culex pipiens complex. 20170

The Culex pipiens fatigans problem in South-East Asia. with special reference to urbanization. 20262

Oostatic hormone production in houseflies, Musca domestica, with developing ovaries. 20293

Physicorhemical characteristics of glycogen from Anthonomus grandis Boheman. 20306

Influence of temperature and moisture on the survival of cocoons, and on adult emergence of Bucculatrix canadensisella. 20309

Determination of the photosensitive period in the African migratory locust, Locusta migratoria migratorioides (R. et F.), phase gregaria. 20317

Studies on phase-shifts in endogenous rhythms. II. The dual effect of light on the entrainment of the eclosion rhythm in Drosophila pseudoobscura. 20319

Estimation of pathways of carbohydrate metabolism in insects. 20321

The sensory physiology of the larva of the rhinoceros beetle Oryctes rhinoceros L. 20326

Physiology and deportment of several ants (Hym. Formicidae) of the Sahara in regard with the principle factors of the climate. 20328

Light-and electronmicroscope investigations into the Malpighian tubules of Galerucella viburni (Chrysomelidae). 20334

Developmental production of embryonic blastema of Drosophila after culture in the adult host. 20349

The head of Pseudomenopon pilosum (Scopoli) (MallophagaAmblycera). 20352

On the head morphology of twisted-winged insects (Strepsiptera, Insecta). 20366

Oviposition cycles and the stimulus for oviposition in Dermestes maculatus DeGeer (Coleoptera: Dermestidae). 20372

The effect of light and temperature on the colour of the English grain aphid, Macrosiphum avenae (F.) (Hom., Aphididae). 20385

The two juvenile hormones from the Cecropia silk moth. 20391

Functional characteristics of the alimentary canal of the cockroach, Blaberus craniifer Burmeister. 20394

The distribution and activity levels of carbohydrases in the alimentary canal of the cockroach, Blaberus craniifer Gurmeister. 20395

Report of a glucose diminishing process in the gut of the cockroach, Blaberus craniifer Burmeister. 20396

The specificities of alimentary canal carbohydrases of the cockroach, Blaberus craniifer Gurmeister. 20397

The development of the thoracil musculature of Periplaneta after disconnection of individual nerves. Preliminary report. 20406

Relationship of oxygen requirements to index-organism classification of immature aquatic insects. 20408

Secretion of the metathoracic glands of the waterbug Notonecta glauca L. (. 20413

The susceptibility of Culex pipiens fatigans larvae to insecticides in Rangoon, Burma. 20419

Analysis of the synthesis of some yolk proteins under the influence of the Corpora allata of Leucophaea maderae. 20424

Formation of silk proteins by the silkworm, Bombyx mori, after gamma-ray irradiation in the embryonic stage. 20425

The effect of protein sources and of the frequency of egg collection on egg production by the housefly (Musca domestica L.). 20426

Brevicomin: Principal sex attractant in the frass of the female Western pine beetle. 20427

A comparative study of the alimentary canal of adult calyptrate Diptera. 20428

Hormonal control of carbohydrate metabolism in insects. 20433

Bio-acoustic investigations of the cockroach Leucophaea maderal (F.). 20435

Results of ovary transplantations in Locusta migratoria imagos. 20441

Cabbage aphid: Effect of isolation on form and on endocrine activity. 20443

Thymidine-Teratogenesis in different species of the genus Drosophila. 20474

Nucleolar 4s ribonucleic acid in dipteran salivary glands in the presence of inhibitor. 20477

Population structure in the Culex pipiens complex of mosquitos. 20478

Effects of temperature on the development of the dog heartworm, Dirofilaria immitis, in Aedes solicitans. 20804

Effect of different coloured lights on the development of Bemisia tabaci Genn. 20977

On the activity of juvenile hormones: Electrophysiological medium at the cell membrane of the salivary gland of Galleria mellonella. 20978

Role of vegetation in sexual maturation of the desert locust (Schistocerca gregaria Forsk.). 20982

Haemocytes and the measurement of potassium in insects blood. 20983

Co-ordinated neuromuscular activity in insect spiracles at sub-zero temperatures. 20984

X-radiation of Oncomelania formosana, snail host of Schistosoma japonicum. Effect on reproductivity and mortality. 20987

Acrylamide gel electrophoresis of housefly esterases. 20989

The fine structure and mechanism of breakdown of larval intersegmental muscles in the blowfly Calliphora erythrocephala. 20990

Free and bound amino acids of spruce budworm larvae feeding on balsam fir and red and white spruce. 20992

Mechanical properties of the flight muscle of the bee, I resting elasticity and its ultrastructural interpretation. 20994

Ubiquinones of the queens of the oriental hornet, Vespa orientalis. 20999

Calcareous septa formed in small shells by larvae of small-killing flies (Sciomyzidae). 21005

Incorporation of lysine-6-C14 into the protein of the adult boll weevil, Anthonomus grandis. 21011

Volatility of trail marking substance of the town ant. 21012

The effect of aqueous solutions of some 1:1 electrolytes on the electrical response of the type 1 ('salt') chemoreceptor cell in the labella of Phormia. 21018

The effect of electrolytes of the general formula XCl2 on the response of the type 1 labellar chemoreceptor of the blowfly, Phormia. 21019

Transmission of receptor potential in dipteran chemoreceptors. 21020

The effect of temperature and relative humidity on the flight performance of female Aedes aegypti. 21022

Effects of insecticidal treatment on the biology of surviving insects. 21028

Intracellular responses from the grasshopper eye. 21035

Occurrence and nature of invertase activity in adult blackflies (Simuliidae). 21036

Infection of Grace's Antheraea cells with arboviruses. 21037

Cytoplasmic inclusion body in the epidermal cells of normal and transparent silkworm larvae. 21044

Phenol oxidase activity and phenotypic expression of the melanotic tumor strain tug in Drosophila melanogaster. 21048

Effect of ionizing radiation on Dacus zonatus fruit fly eggs and larvae in situ. 21184

Slow and spike potentials recorded from retinula cells of the honeybee drone in response to light. 21653

The method of action of the dark and light phases on the production of winged gymnospores of Dysaphis plantaginea Pass. (Homoptera, Aphididae). 21662

Effects of altering the composition and volume of the haemolymph on water ingestion of the blowfly, Lucilia cuprina. 21665

Significance of the time factor in the irradiation of imago insects (experiments on granary weevils). 21667

Ecology of Gomphomastax clauata plotnikovi C. Bol. (Orthoptera Eumastacidae). 21669

Localization and description of stretch receptors at the level of the tibio-femoral joint of the jumping leg of the cricket, Schistocerca gregaria. 21672

Sexual reproduction of 'green peach aphid' Myzus persicae (Sulz) in Mendoza (Argentina). 21679

Response characteristics and probable behavioural roles for abdominal vibration receptors of some cockroaches. 21680

The fine structure of the gastric caeca of Aedes aegypti larvae. 21687

Effects of parental age on the life cycle of the southern green stink bug, Nezara viridula L. (Heteroptera: Pentatomidae. 21693

Action of insect hormones on the fate of C-glucose in the diapausing, brainless pupa of Samia cynthia pryeri (Lepidoptera: Saturniidae). 21695

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 21698

Developmental interactions in the dipteran salivary gland. 21699

Cricket nutrition: Supplementation of grass by known nutrients. 21700

The rate of passage of food and the effect of temperature in two noctuid caterpillars. 21702

A cytological study of changes in the fat body of Trogoderma granarium during metamorphosis, with special reference to the proteinaceous globules. 21710

Acid phosphatase activity in the digestive system of the desert locust Schistocerca gregaria (Forskal). 21713

Ecological studies of certain natural mortality factors of the sugarcane borer, Diatraea saccharalis (Fabricius) in Louisiana.
21714

Studies on the possibilities of using blowflies (Dipt.) as medicolegal indicators in Finland. I. Report of four indoor cases from the city of Helsinki.
21717

Changes in the respiratory metabolism of Rhodnius prolixus as induced by temperature.
21718

Cross-bridges and periods in insect flight muscle.
21726

ATP-DRIVEN oscillation of glycerol-extracted insect fibrillar muscle: Mechano-chemical coupling.
21732

Ultrastructure of moth alary muscles and their attachment to the heart wall.
21733

Ring gland transplantations and body weight in Drosophila.
21739

On the alkaline and acid phosphatase in the alimentary tract of Periplaneta americana L. (Blattaria: Blattidae).
21741

Insect neuromuscular mechanisms.
21748

Results of the transplantation of the ovaries of imagos to Locusta migratoria (L.).
21749

Transdetermination in the layout of the organs of the Drosophila fly.
21753

The temperature-sensitive period in the development of rolled hemizygotes of Drosophila melanogaster.
21759

The morphological basis of embryonic movements in the light brown apple moth, Epiphyas postvittana (Walk.) (Lepidoptera: Tortricidae).
22348

Influence of temperature on the fecondity of Asaphes vulgaris Walker (Hymenoptera, Pteromalidae).
22358

Light-inhibition of flashing in the firefly Photuris missouriensis.
22369

Disrupted fertility of the hidebeetle Dermestes maculatus (Deg.) due to dietary overdose of biotin.
22372

An investigation of Factor S, a neuromuscular excitatory substance from insects and crustacea.
22374

Study on the permiability of the sensory organs of the appendages of the head in the larvae of Speophyes lucidulus (Delar.) (Coleoptera).
22375

Nitrogen and phosphorus content of greenbugs reared on fertilized wheat.
22383

Can insect hormones and their mimics be used to control pests.
22390

A laboratory investigation of maturation in the Cuban burrowing cockroach Byrsotria fumigata (Guerin).
22392

Emergence of parasites associated with the cabbage aphid during a chemical-control program.
22400

New observation concerning the pathogenic action of Trypanosoma rangeli Tejera, 1920 on Rhodnius prolixus Stal, 1859.
22401

Contribution to the history of the discovery of insect hormones.
22407

Feeding and oviposition behavior in the mosquito Aedes aegypti (L.). I. Preliminary studies of physiological control mechanisms.
22417

Regenerating tissues from the cockroach, Leucophaea maderae: Nerve regeneration in vitro.
22425

Transmembrane ionic gradients in Lepidoptera as related to cardiac electrical activity.
22426

The regulation of osmotic pressure in Galleria mellonella L.
22428

The effect of castration on the ventral neurosecretion cells of the infraesophageal ganglion in the phasmid, Carausius morosus (Phasmidae-Orthoptera).
22429

Central nervous system control of circadian rhythmicity in the cockroach. I. Role of the pars intercerebralis.
22433

Histological observations of the formation of elementary and reproductive ova in the ovaries of Plagiolepis pygmaea Latr. (Hymenoptera Formicidae).
22435

Beginning of embryonic development within the maternal organism of Icerya purchasi Mask.
22445

Gamma aminobutyric acid changes in the spontaneous firing rates of insect neurons.
22451

Observations on the rate of heart-beat in the various stages of the tiger beetle Cicindela cancellata Dej.
22453

The effect of colchicine on myogenesis in vivo in Rana pipiens and Rhodnius prolixus (Hemiptera).
22466

Studies on the effect of Bacillus thuringiensis Berl. on the spiny bollworm, Earias insulana Boisd. and other lepidopterous insects.
22935

Slow and spike potentials recorded from retinula cells of the honeybee drone in response to light.
22939

Oviposition and development of the face fly in feces of six species of animals.
22940

Effect of starvation on molting and growth in Aedes aegypti and A. vexans.
22945

Some North American parasites of Aclerda (Hymenoptera, Encyrtidae).
22949

EPR study of live and dead Drosophila adults under aerobic conditions. Abstracts, 1968 proceedings, April 26, 27, 1968. Lincoln, Nebraska.
22968

Development and structure of the compound eye in the cotton leaf-worm, Prodenia litura F., and the pink boll-worm, Pectinophora gossypiella S. (Lepidoptera).
22970

The interrelations between apple aphids and their parasites and hyperparasites.
22971

A biological assay technique for the assessment and comparison of systemic insecticide residues.
22978

Crystalline regions on the axon membrane surface of insect photoreceptor cells.
22983

Reproduction, longevity, and flight of cabbage looper moths treated topically with Tepa.
22989

The use of some inexpensive yeasts in the larval diet of the Mediterranean fruit-fly. (Ceratitis capitata).
22994

Effects of an octosporeosis on the locomotor activity of adult Phormia regina (Meigen). (Dipt. Calliphoridae).
22997

Vision of the large Caspian termite Anacanthotermes ahngerianus Jacobs. (Insecta, Isoptera) according to the data of electrophysiological experiments.
23010

Chemosterilant effects of tepa, apholate, and metepa on the alfalfa weevil.
23012

The optics of insect compound eyes.
23013

An artificial medium for rearing Prodenia litura F. and two other noctuids.
23015

On a nuclear and a cytoplasmic polyhedrosis of Adoxophyes reticulana Hb.
23024

Sub-lethal gamma radiation effects on prepupae, pupae, and adults of angoumois grain moth.
23025

Study of the regeneration of the cuticule in defernce to a tegumentary excision in the Locusta migratoria.
23033

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles.
23034

Studies on the insecticidal action of Nereistoxin, 4-N,N-dimethylamino-1,2-dithiolane. V. Blocking action on the cockroach ganglion.
23035

Free nucleotides and their derivatives in the fat body of the oak silkworm larva Antheraea pernyi G.
23041

The dynamics of the free amino acids in the tissues of the Chinese silkworm during its development.
23044

Studies on the Sitka spruce weevil, Pissodes sitchensis, in British Colombia.
23046

A simple method of determining the effect of a plant protection preparation on the fauna of fruit trees.
23052

Apholate-induced sterility in Bracon hebetor.
23063

The area of effectiveness of the thrust-out reflex in bark beetles.
23069

Cercal potentials in the Periplaneta americana..
23072

Effects of phloem temperature and moisture content on development of the southern pine beetle.
23191

INSECT POLLINATORS
Insect visitors to flowers of blue lupine, Lupinus angustifolius.
13921

Pollination of lucerne still a problem.
19895

Honey bees and the farmer.
22378

Setting up a method for control of clover weevils.

Use of Daphnia magna for the microbioassay of pesticides. I. Development of standardized techniques for rearing Daphnia and preparation of dosase-mortality curves for pesticides. 16295

Observations on the breeding of Lycophotia molothina (Lepidoptera, Noctuidae). 16308

Laboratory research on Acarapis woodi Rennie, the causative agent of acarine disease of the honeybee. note 5. 16393

Effect of insecticide-free rearing on the reproductive potential of organophosphorus-resistant African strains of Aedes aegypti (L.). 16402

The effect of host pregnancy on the reproductive capability of the tsetse fly, Glossina morsitans, in captivity. 16414

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm. 16418

Rearing of the hog louse Haematopinus suis on mice. 16426

In vitro cultivation of Choristoneura fumiferana (Clemens) (Lepidoptera:Tortricidae) tissues. 16457

Survival and development of several grasshopper species on extracts of selected plant species. 16465

Some responses of flying Aedes aegypti to visual stimuli. 16481

Temperature effect on reproduction and longevity of laboratory-reared adult pink bollworm (Lepidoptera: Gelechiidae). 16494

Host plants for laboratory rearing of the melon aphid. 16650

Studies on the development of insect resistant sorghum varieties and hybrids. 16707

Collecting pupae of the fall arymworm from rearing containers. 16980

A technique for rearing Choristoneura pinus on artificial diet. 17002

Alarm, defense, and construction behavior relationships in termites (Isoptera). 17056

Biological studies on chironomids with emphasis on the temperature relations of the developmental stages. 17079

Effects of the chemosterilant hempa on gypsy moth metamorphosis. 17098

Observations on the infection of Japanese beetle larvae with Bacillus popilliae. 17119

Caddis larvae. Larvae of the British Trichoptera. QL517.4.H5. 17126

Crowding effects on plum curculios reared at several densities on two sizes of green apples. 17136

The ultrastructure of the larval ocelli in the mosquito, Aedes aegypti, as affected by a vitamin A deficiency. 17139

Biology and control of the onion thrips in India. 17152

Sexual differential in time of hatch of eggs of the gypsy moth. 17154

Diapause in gypsy moth. 17155

A three-year study of parasites of the bollworm and the tobacco budworm in Mississippi. 17156

Diel periodicity in spermatophore formation in the house cricket, Acheta domesticus (L.). 17163

Pupation of wintering larvae of the rice stem borer, Chilo suppressalis Walker, reared at 25 C. Transl. 16919. 17168

Brood rearing by caged honey bees in response to inositol and certain pollen fractions in their diet. 17174

Photoperiod in relation to diapause in Hypera postica from California. 17193

Loss of hostplant specificity by Manduca sexta after rearing on an artificial diet. 17196

Dried torula yeast as a substitute for brewer's yeast in the larval rearing medium for the Mexican fruit fly. 17205

Inclusions in adults of the European pine sawfly, Neodiprion sertifer (Geoff.). 17208

Variations in the photoperiodic response of Neodiprion sertifer. 17209

Laboratory studies with the mosquito iridescent virus (MIV). 17224

Transformation of inseminated females of Aphytis lingnanensis into factitious virgins by low-temperature treatment. 17231

A study of isoenzyme polymorphism in experimental populations of Drosophilia melanogaster. 17236

Five years' experience maintaining colonies of Pediculus humanus in the laboratory. 17245

Notes on raising Lepidoptera in Meurthe and Moselle. 17763

Reproduction of some poorly known species of Blattaria. 17765

Further studies on the effect of bovine diet on face fly development. 17766

Bionomics of the mosquito Anopheles franciscanus Mccracken in California. 17783

Laboratory propagation of Muscidifurax raptor on face fly pupae. 17794

Latest research plans on the problem of cockroach resistance. 17805

The formation of the cuticular ridges in the larval pharynx of the blowfly (Calliphora vicina R.-D.). 17809

Preliminary evaluation of a granulosis virus for control of the codling moth. 17822

Difference in response of two strains of screwworm flies to the male pheromone. 17823

Parthenogenesis in gum emperor moth Antheraea eucalypti (Scott). 17840

Medium and techniques for mass rearing the red-banded leaf roller. 17843

Costelytra zealandica (White) sex attraction. 17845

Effects of mold inhibitors in larval diet on the biology of the cabbage looper. 17847

Pre-imaginal conditioning in Drosophila. 17858

Endogenous diurnal rhythm of pupation in a mosquito population. 17868

The development of Theileria parva in the salivary glands of the tick, Rhipicephalus appendiculatus. 17873

Rearing stored product insects for laboratory studies: Six species of moths. 17887

Laboratory rearing of Culex (Melanoconion) portesi Senevet and Abonnenc. 17888

Comparative life histories of chlordane-resistant and nonresistant German cockroaches. 17901

A medium for laboratory rearing of the peach tree and lesser peach tree borers. 18114

Introducing and establishing the noninclusion virus of the citrus red mite in citrus groves. 18117

Role of host plant in production of winged forms by a green strain of pea aphid Acyrthosiphon pisum. 18120

SUBJECT INDEX

Simple techniques for the rearing of Collembola and a note on the use of a fungistatic substance in the cultures. 18503

Bred Opiinae from Europe (Hymenoptera, Braconidae). 18526

British Diptera associated with fungi. III. Flies of all families reared from about 150 species of fungi. 18592

Coloration of the desert locust (Schistocerca gregaria Forskal) reared in isolation. 18618

Some improved methods for keeping ant nests in the laboratory. 18657

A new Eumeta from West Africa. (Lep. Psychidae). 19357

Pieris napi in calabria. (Lep., Pieridae). 19360

Redescription of Megisthanus floridanus with observations on its biology. (Acarina: Megisthanidae). 19367

Three new reared Braconidae (Hymenoptera). 19460

An efficient laboratory technique for obtaining pine bark beetle eggs and young larvae. 19543

The fitness of single-species populations of Drosophila. 19551

Notes on the biology of the larval Cigales (Hom. Cicadidae). 19559

Parasites and other organisms associated with nests of Amegilla Friese (Hymenoptera: Anthophorinae). 19574

Bee house has advantages when raising queen cells. 19583

Preliminary note on the biology of a Hymenoptera Sphecidae: Podalonia (Psammophila) hirsuta (Scopoli). 19608

The 1958 pine tip moth collapse in Ohio. 19613

Ticks (Ixodoidea) of Mt. Sontra, Danang, Republic of Vietnam. 19628

Standardized rearing methods of insects of stored goods and materials. 19631

Breeding experiment with Clostera anachoreta F. (Lep., Notodontidae). 19636

Aseptic breeding of Diptera Hylemyia antiqua on a synthetic medium. 19689

Feeding spiders an artificial diet. 19692

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae). 19710

The use of nematodes and oligochaetes for rearing predatory mites. 19724

The rearing of the house mite, Dermatophagoides pteronyssinus (Trt. 1897). 19728

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Handling techniques for eggs and larvae of Wiseana sp. (Hepialidae). 19753

Patterns of cross resistance to organophosphates and carbamates in Musca domestica. 20172

Some new and little-known species of Philornis (Diptera: Muscidae). 20185

Concerning breed braconid wasps. 20192

The breeding of Callambulyx tatarinovi (Lep., Sphingidae). 20307

The hibernation of caterpillars in a refrigerator. 20358

Artificial diet for the zoysiagrass billbug, Sphenophorus venatus vestitus (Coleoptera: Curculionidae), and notes on its biology. 20369

Establishment of bumble bees in nest boxes at Christchurch. 20411

Feeding through root surfaces of rutabaga by Hylemya brassicae (Diptera: Anthomyiidae). 20437

Some methods of rearing and collecting black flies (Diptera Simuliidae). 20446

Possible use of translocations to fix desirable genes in insect pest populations. 21038

Breeding insects with artificial food. 21661

Biosynthesis and occurrence of free amino acids in eggs of the grasshopper, Aulocara elliotti. 21666

Biology of the black widow spider, Latrodectus hasselti Thorell (Araneida: Theridiidae). 21697

On the habitats of some Lonchaea species in fennoscandia (Dipt., Lonchaeidae). 21716

Rearing of caterpillars of the eudemis moth (Lobesia botrana Schiff.) on some substituted natural foods. 21728

Main currents in research concerning sterilization methods of insects. 21735

Tests for inheritance of dieldrin-resistance in the cabbage maggot, Hylemya brassicae (Bouche). 21993

Contribution of a biological study of Pissodes notatus F. (Col. Curculionidae). 22366

Daily weight gain of the European corn borer reared on artificial media (Lepidoptera: Pyraustidae). 22373

Observations on the biology of Gymnaetron pascuorum (Gyll.) (Coleoptera: Curculionidae). 22385

Progress report on laboratory rearing of black flies (Diptera: Simuliidae). 22391

A laboratory investigation of maturation in the Cuban burrowing cockroach Byrsotria fumigata (Guerin). 22392

Laboratory techniques for rearing the sugarcane borer on an artificial diet. 22406

The rearing of Luperina nickerlii knilli Boursin (1964) (Lep., Noctuidae) under laboratory conditions. 22430

A laboratory method for continuously rearing the green stink bug. 22469

Induction of resistance to Bacillus thuringiensis in a laboratory strain of house flies. 22471

Mass breeding of the khapra beetle. 22474

Bionomics of Psorophora varipes, a model laboratory mosquito. 22933

Oviposition and development of the face fly in feces of six species of animals. 22940

The use of some inexpensive yeasts in the larval diet of the Mediterranean fruit-fly. (Ceratitis capitata). 22994

Studies on the sex ratio and adult emergence of Apanteles tachardiae Cam. in the laboratory culture. 22999

The white-fir needle miner, Epinotia meritana, in Utah-. 23011

An artificial medium for rearing Prodenia litura F. and two other noctuids. 23015

The egg- and larval development of Trogoderma angustum Sol. (Dermestidae). 23071

Musculature, nervous system and glands of pregenital abdominal segments of the female of Nomia melanderi Ckll. (Hymenoptera, Apoidea). 23073

Beetle pest proves to be experimental asset. 23081

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23190

INSECT REARING EQUIPMENT

Two semiartificial oviposition media for the smaller European elm bark beetle. 13792

Individually humidified closed plastic cages for rearing anopheline mosquitoes. 14147

Growth cabinet for the efficient handling of containers used for rearing insects. 14214

Bed bugs. In: Smith,C.N. Insect colonization and mass production. QL497.S6. 15749

Rat fleas. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15779

Nutrition of European corn borer, Ostrinia nubilalis. VI. A larval rearing medium without crude plant fractions. 17077

A device for obtaining flies of known age. 17166

Description of a method for rearing Chironomides adapted for tropical countries. 19589

Aseptic breeding of Diptera Hylemyia antiqua on a synthetic medium. 19689

Wintering queen bee by Rumanian method has promising look. 20325

Teflon and cornstarch-coated paper as substrates for oviposition by cabbage looper moths. 22408

Artificial pupal cell foı the tobacco hornworm. 22409

A laboratory method for continuously rearing the green stink bug. 22469

INSECT REPELLENTS

Repulsion of green sunfish by certain chemicals. 14003

Laboratory tests with sixty-five compounds as repellents against houseflies. 14847

La lutte chimique contre les insects nuisibles. (chemical control of insect pests). ed. 3. 14906

Chemicals tested as space repellents for yellow-fever mosquitoes. il. carbanilates, benzamides, aliphatic amides, and imides. 14915

Mosquito control activities of the U.S. Armed Forces in the Republic of Vietnam. 14975

Repellancy of reflective aluminum to transient aphid viral vectors. 15189

Drugs and disease as mosquito repellents in man. 15851

Field tests with repellent-treated netting against black salt-marsh mosquitoes. 16300

Influence of repellency on the efficacy of blatticides. II. Laboratory experiments with German cockroaches. 16492

Measuring mosquito repellency. 16504

Carcinogens in burning mosquito coil smoke. 16911

Selective insect control. SB931.S4. 17066

The influence of repellency on the efficacy of blatticides. III. Field experiments with German cockroaches with notes on three other species. 17102

Repellents. In: kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17181

Pyrethum as an insect repellent. II. A laboratory technique for its evaluation as a mosquito repellent, and the influence of formulation on persistence. 17720

Influence of repellency on the efficacy of blatticides. IV. Comparison of four cockroach species. 17814

Aluminum foil and white polyethylene mulches to repel aphids and control watermelon mosaic. 18083

Possible new approach to the chemical control of plant feeding insects. 19017

Helicopter applies bird repellent seeds. 19134

Brahman breeding as a factor affecting the attractiveness or repellency of cattle to the horn fly, Haematobia irritans (L.). 19218

Method of production and technical equipment for insecticide application. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19599

Prospects for nonchemical insect control- an industrial view. 19622

Chemistry of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19682

Human sweat components.-attractancy and repellency to mosquitoes. 20491

The compatibility of arthropod repellents with certain functional finishes of cotton uniform fabric. 20928

Area treatment to combat mosquitoes. 21027

Prevention of insect infestation in stored food packages and agricultural commodities. Final report, June 1, 1965 may 31, 1967. SB951.G5. 21485

The use of attractants in pest control. 21981

INSECT REPRODUCTION

Investigation of sterilizing doses for Ephestia kunniella L. in irradiation in various stages of development. 21755

INSECT RESPIRATION

Respiration and tracheal ventilation in locusts and other flying insects. 14286

Ecological significance of respiration and substrate for burrowing Ephemeroptera. 16383

Oxygen consumption by soil larvae of insects in dependence on its tension. 16442

Metabolic thermal adaptations in the mosquito Culex pipiens pipiens (Diptera: Culicidae). 16447

On periodicity of gas exchange in ontogenesis of the Colorado beetle (Leptinotarsa decemlineata Say.). 17892

Improvement of a method for culturing the eggs of the Phasmid Carausius morosus Br. deprived of the chorion. 17894

A circadian pattern in the respiration of larvae of the mosquito Culex pipiens. 18590

Studies on the course of the internal body temperature and transpiration of Blaberus discoidalis Sv. after poisoning with Thiodan. 19719

Respiration in developing honeybee larvae. 21025

Response characteristics and probable behavioural roles for abdominal vibration receptors of some cockroaches. 21680

Changes in the respiratory metabolism of Rhodnius prolixus as induced by temperature. 21718

Studies on the terminal respiratory systems in the minute (2)z mutant of Drosophila melanogaster. 22475

INSECT TAXONOMY

Steriphodon doncasteri, a new species of Eurygeniini, with a review of the Indian species of Steriphodon Abeille (Coleoptera: Anthicidae). 13709

Athysanella attenuata and a closely related new species from Kansas (Homoptera: Cicadellidae). 13713

New Dolichopodiae from Canada, Mexico, and the western United States (Diptera). 13727

Theophilea cylindricollis Pic, a longicorn new for Central Europe (Col., Cerambycidae). 13729

A revision of the Holarctic genus Dikraneura (Homoptera: Cicadellidae). 13733

Acarina Thrombidiidae of Madagascar. 13744

Type specimens of Chironomidae (Diptera) in the Cornell University collection. 13755

A new Ateleute from the United States (Hymenoptera: Ichneumonidae). 13853

A new salix-infesting Chaitophorus from Saskatchewan (Homoptera: Aphididae). 13930

Four new species of Monojoubertia from one species of bird (Analgoidea: Proctophyllodidae). 14020

Two new feather mite genera with polymorphic males (Analgoideai Proctophyllodidae). 14021

The feather mite genus Laminalloptes (Proctophyllodidae: Alloptinae). 14022

The black flies of Japan and Korea. (Diptera: Simuliidae). QL531.B4. 14030

A numerical taxonomy of orthopteroid insects. 14032

A new species of myrmecophilous Coccinellidae, with notes on other Hyperaspini (Coleoptera). 14036

Revision of the Central European species of the family Stratiomyidae (Diptera) with special consideration of the fauna of CSSR. iV. 14042

A new species of Suricatoecus (Mallophaga: Trichodectidae) from the Congo. 14043

Contribution to the study of Curculionidae from Guadeloupe (Col.). description of two new species of Apion. 14046

Two new species of noctuids (Lepidoptera, Noctuidae, Noctuinae). 14049

Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 65th contribution. Hymenoptera: Scoliidae. 14051

The systematic status of some genera of the Heliodinidae/ Schreckensteiniidae together with a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera). 14052

Notes on the genus Thecodiplosis Kieffer in North America, and some generic reassignments (Diptera: Cecidomyiidae). 14053

Danish Lepidoptera. QL555 .D4H6. 14064

An undescribed species of Phytoseius from California (Acarina: Phytoseiidae). 14070

On the genus Rhipibruchus Bridwell, with descriptions of a new species and a closely related new genus (Coleoptera: Bruchidae: Bruchinae). 14071

New fleas from Madagascar, Paractenopsyllus randrianasoloi n sp, P albignaci n sp and Dinopsyllus tsaratananae n sp. (Siphonaptera). 14072

The larva and pupa of Demeijerea rufipes (L.) (Dipt., Chronomidae). 14084

Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 63rd contribution. Diptera: Limoniidae. 14086

Description of a new genus and species of Trimenoponidae from Panama (Mallophaga). 14092

Caliscelis bonellii (Latreille), a European genus of Issidae new to the United States (Homoptera: Fulgoroidea). 14100

The identity of Anthomyia melania Dufour, 1839 (Diptera. Fanniidae). 14105

A new genus of the Trachysphyrus group from southern Brazil (Hymenoptera, Ichneumonidae). 14106

Descriptive notes on Ornithodoros ticks from gull nests on the Farallon Islands and isolation of a variant of Hughes virus. 14108

Two new Eretmapodites from Cameroon, appertaining to the oedipodius Graham 1909 group (Dipt. Culcidae). 14110

Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 68th contribution. hymenoptera: Apidae. III. (Genus Nomada Scopoli). 14111

Bionomics of Grotea californica Cresson, with a description of the larva and pupa. 14114

The Czechoslovakian species of the genus Ancyrophorus Kraatz (Col., Staph.). 76. contribution to the knowledge of the Staphylinidae. 14115

Dolichomotes navei, a new genus and new species of pyemotid mite (Acarina: Pyemoyidae). 14116

SUBJECT INDEX

INSECT TAXONOMY

New plant louse species (Homoptera: Aphididae) from Hungary. 14123

Three new species of tetranychoid mites (Acarina: Tetranychidae and Tenuipalpidae) from Missouri. 14126

Ixodes dendrolagi (Metastigmata, Ixodidae), a new species of tick from tree kangaroos (Marsupialia, Macropodidae) in New Guinea. 14135

A new braconid parasite of the potato tuberworm (Hymenoptera). 14236

A secretory aperture on the first segment of the chelicera in the Nemastomatidae, and its use in taxonomy (Opilionidea). 14260

Literature references to mosquitoes and mosquitoe-borne diseases. 14324

Studies of the Gyponidae' a new genus-Chloronana (Homoptera' Cicadellidae). 14812

A clarification of certain structures in the thoracic region of Oxyrhachis (Homoptera'-Membracidae). 14821

New technique for preparation and study of moth flies. 14908

Sarcophaga spp. (Dipt. Calliphoridae) in a London suburban garden. 15699

Materials on the fauna of spiders (Aranei) of Tadjikistan. II. Zodariidae. 15700

New genera and species of gall wasps (Hymenoptera, Cynipoidea) of the Soviet Far East and adjacent territories. 15702

To the knowledge of mites of the subfamily Nycteriglyphinae (Acarina: Rosensteinidae) from Cuba. 15707

Steneotarsonemus madecassus n. sp., cause of a deformation of the panicles of rice in Madagascar (Acarina: Tarsonemidae). 15709

Aphids from the Philippines and the Bismarck Islands, with description of a new species of Greenideoida. 15711

A new species of the aphid Therioaphis Walk. (Aphidoidea, Homoptera). 15713

The genus (Consorophylax Schmid (Trichoptera: Limnophilidae). 15716

Oligia versicolor vojnitsi ssp. n. (Lepidoptera: Noctuidae). 15717

New species of springtails (Collembola) of the family Hypogastruridae from mountain regions of Tadjikistan. 15719

Results of Dr. Z. Kaszab's zoological investigations in Mongolia. 118. Ceropalidae (Humenoptera). 15722

A new member of a sibling set belonging to the Drosophila tripunctata group (Diptera: Drosophilidae). 15726

Occurrence of Macrosteles cristatus (Ribaut) Homoptera, Auchenorrhyncha) in Britain with notes on related species. 15727

Notes on Coccinellidae of Hong Kong. 15728

The immature instars of the Cleptoparasitic genus Dioxys (Hymenoptera: Megachilidae). 15730

A review of the subfamily Heterarthrinae in North America (Hymenoptera: Tenthredinidae). 15732

A new plant louse species (Homoptera: Aphididae) from Hungary. 15734

An illustrated catalogue of the Rothschild collection of Nycteribiidae (Diptera) in the British Museum (Natural History); with keys and short description for the identification of subfamilies, genera, species and subspecies. QL468.T45. 15736

Remarkable new description of the behavior of the bot fly, Oestromyia leporina (Pallas, 1778) in Germany. 15809

New data concerning the parasitic relationships of Conopids (Diptera, Conopidae). 15831

A suggested method of collectings insects associated with forage grass seed production. 16265

Information on stream inhabiting Chironomidae of Hungary. 16268

Ten new chrysomelid beetles from Dominica and Jamaica. 16269

Notes on the Siphonaptera of New Brunswick. 16270

A revision of the Mexican and Central American species of Isomira (Coleoptera: Alleculidae). 16275

Spiders from south New Guinea x. 16281

Notes on some Hymenoptera of Portugal--V. 16287

Critical list of Central European tick species. 16290

Notes on the tribe Stirellini (Homoptera, Cicadellidae). 16291

Notes on Neotropical Tabanidae (Diptera). VII. The species described by C.R.W. Wiedemann. 16292

New species and new records of Fulgoroidea (Homoptera) from Samoa and Tonga. 16293

Some raphignathoid mites from Israel. 16298

Contribution to the knowledge of the curculionids of the western Mediterranean Region. III. The pseudotorneuma of the Balearic Islands. 16299

Some Tineid moths of the Ethiopian region in the collections of the British Museum (Nat. Hist.). I. 16301

Two new Mallophaga species of the genus Ardeicola Clay, 1935 (Ischnocera: Philopteridae). 16302

Notes on the Chrysomelidae of soviet Armenia. 16304

New Guinea Staphylinidae (Coleoptera). 16311

A new Pleotrichophorus living of Erigeron. (Hom. Aphididae). 16312

Notes on the study of Sphingidae of Venezuela. (Lep. Heterocera). 16313

New Canadian Braconidae (Hymenoptera). 16314

An annotated key to drosophilid genera with bare or micropubescent aristae and a revision of Paracacoxenus (Diptera: Drosophilidae). 16316

A new aberration of Pieris brassicae (Linn.) Lepidoptera, Pieridae. 16318

Two new species of Drosophila of the Saltans group (drosophilidae, diptera). 16323

New Therevidae from Argentina. 16325

To the knowledge of the genus Culicoioes Latr. 1809 (Diptera, Ceratopogonidae) in Czechoslovakia. 16327

Notes on some Australasian Muscidae (Diptera) described by J. Macquart. 16332

Alticinae of Guadaloupe (Col. Chrysomelidae). 16337

Some ectoparasites from West Virginia mammals. II. 16339

On some new species of Tetramesa Walk., with notes on their parasites (Hymenoptera: Chalcidoidea). 16342

A tropic relict in the desert fauna of braconids (Hymenoptera, Braconidae) of Middle Asia. 16344

New genera, new species of African Hemiptera, Reduviidae. 16347

Mosquitoes of the genus Culiseta in Connecticutt (Diptera: Culicidae). 16348

New records and species of neotropical bark beetles (Scolytidae: Coleoptera), II. 16352

Taxonomy and the integrated control of mites. 16363

Bionomics, sexual behavior, and adult anatomy of the albida group of the genus Epicauta (Coleoptera: Meloidae). 16430

The ant larvae of the subfamily Formicinae (Hymenoptera: Formicidae): supplement. 16478

The crane flies of California. 17001

New Oribatids (Acari) from Vietnam. 17003

New Orbatids (Acari) from New Guinea. 17004

The scientific results of the Hungarian Soil Zoological Expeditions to South America. 7. Arachnoidea. Description of Brazilian spiders of the family Symphytognathidae. 17005

Pseudoscorpions from continental South East Asia. 17006

Chironomiden larva and pupae from the Hamori lake. 17007

List of new Amphipyrinae from French Equatorial Africa with notes on synonomies (Lepidoptera: Noctuidae). 17008

The Pterophoridae of Iran. (Lep.). 17009

Revision of the tribe Chalepini of America north of Mexico. I. Genus Xenochalepus Weise. (Coleoptera: Chrysomelidae). 17010

Six new species of Membracidae (Hemiptera: Homoptera) from South Africa. 17011

A monograph of the family Heteroceridae (Coleoptera) of the Notogean region. 17012

Second contribution to the knowledge of the African Coccoidea (Homoptera). 17013

The Sarcophagidae of Barro Colorado Island, Panama (Diptera). 17014

Completion of my monograph of the Dynastinae: Cyclocephalini (Coleoptera). 17015

Notes on Neotropical Tabanidae (Diptera). X. The species described by J. R. Schiner and others. 17016

Dynastinae of the Naturhistoriska Riksmuseet, Stockholm. 17017

A new species of Metaxaglaea. (Lepidoptera, Noctuidae, Cuculliinae). 17018

On a new species of Neuroptera (Family Osmylidae) from India. 17020

Three Tineid collections (Lepidoptera) from Africa. 17021

Chrysomelid beetles from the Papuan subregion, 4 (Eumolpinae, 2). 17022

Indian species of Listrognathus Tschek (Hymenoptera: Ichneumonidae). 17023

Some Pulvinaria species (Homoptera: Coccidae) of the Ethiopian region. 17027

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 4. Argas (P.) robertsi, new species, a parasite of Australian fowl, and keys to Australian argasid species. 17028

Conclusion of the zoological investigations of Dr. Z. Kaszab in Mongolia. 168 Tenebrionidae (Coleoptera). 17033

Data to the knowledge of Callogonia virgo Tr. and the description of a new subspecies (Lepidoptera: Noctuidae). 17034

Biosystematic, cytolobical, and sex ratio studies of closely related bark beetles (Coleoptera0 Scolytidae). 17035

Cosmopolitan and pantropical species of theridiid spiders (Araneae: Theridiidae). 17038

Problems in insect morphology. 17040

Odonata from Venetia. (Contribution to the knowledge of Odonata). 17041

Results of the zoological investigation of Dr. Z. Kaszab in Mongolia. 100 Chrysididae (Hymenoptera). 17042

Conclusions of the zoological investigations of Dr. Z. Kaszab in Mongolia. 167. Pompilidae (Hymenoptera). 17043

The genera of the Palearctic Tortricidae. Ii The subfamily Olethreutinae. Eight parts and conclusion with a total index of all parts. 17046

Results of the zoological investigation of Dr. Z. Kaszab in Mongolia. 101. Braconidae (Hymenoptera). I. 17047

Pompilidae and Sphecidae (Hymenoptera) from Strassfurt (Sachsen-Anhalt). 17048

The periodical cicada, brood. VII. (Homoptera: Cicadidae: Magicicada). 17049

Addenda to the list of the butterflies of Michigan. 17050

New North American Tabanidae. XIX. Four new species from Mexico, Honduras, and Arizona. 17051

The taxonomic grouping of Palearctic Gnorimoschema species (Lepidoptera; Gelechiidae) including a description of a new species. 17053

The genus Psittacobrosus (Mallophaga: Menoponidae) of the Neotropical Psittaciformes. 17054

Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece). 17058

Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece). 17059

Revision of the world species of Euphumosia (Diptera: Calliphoridae). 17060

Review of South American genus Belopoeus Schoenherr (Coleoptera, Curculionidae, Rhynchophorinae). 17062

Problems of insect taxonomy with special reference to the International Code of Zoological Nomenclature. 17063

The zoological results of Gy. Topal's collectings in south Argentina. 21. Coleoptera: Anthicidae. 17064

The phylogeny and zoogeography of the endemic genera of the Hawaiian Pteromalidae (Hymenoptera: Chalcidoidea). 17065

The spiders of Mississippi. 17097

An immunological study of the antigens of Anthonomus grandis grandis and Anthonomus grandis thurberiae. 17114

Caddis larvae. Larvae of the British Trichoptera. QL517.4.H5. 17126

Notes on the biology of some short-horned grasshoppers from Eastern Nigeria (Orthoptera: Acridoidea). 17138

Mutations as possible aids for establishing genitalic homologies in the sexes in Tribolium castaneum. 17203

A new species of Harpactea from the Pontine Islands (Araneae, Dysderidae). 17737

New Indian Thysanoptera. 17738

New data concerning the ant genus Camponotus (Hymenoptera, Formicidae) from the uSSR fauna. 17739

On a tenth new Sphaeroceraspis of the central African forest (Hom. Coccoidea Diaspidini). 17740

Notes on the chorology and ecology of Araneidae from the Alban Hills (Araneae). 17741

Neotropical Mirids, XCVIII: three new species of the tribes Bryocorini and Orthotylini (Hemoptera). 17742

A revision of the oriental species of Palexorista Townsend (Diptera: Tachinidae, Sturmiini). 17744

Erigonids from the Pontine Islands (Araneae Erigonidae). 17745

Larvae of click beetles of the genus Idolus Desbr. and position of this genus in the system Elateridae (Coleptera). 17746

Notes on Megalyridae (Hym. Ichneumonoidea) and description of new species from Madagascar. 17751

A new genus and two new species of mirid bugs (Heteroptera, Miridae) from the eastern regions of the USSR. 17755

New species of Culex (Melanoconion). 17756

A new genus and species of the phytophagous mite (Bryobiidae, Acariformes). 17757

On morphology of larvae of the III instar in synanthropic species of flies from the genus Hydrotaea R.D. (Diptera, Muscidae). 17758

On larvae of Hispinae (Coleoptera, Chrysomelidae) of the fauna of the USSR. 17759

A new species of the gamasid mite Ichoronyssus mirabilis Senotrusova et Tagiltsev sp. n. (Acariformes, Gamasoidea) from whiskered millers of the Zaisan hollow. 17769

The genera of African Lycaenidae (Lepidoptera: Rhopalocera). 17771

A preliminary report of the mosquitoes in the Gilgit Agency area. 17772

A description of the pupa of the pales weevil, Hylobius pales, and a method for identifying its sex. 17773

Contribution to the study of the genera Stizocera Serv., 1834. Brazilian species (Coleoptera, Cerambycidae). 17774

A prodrome of the genus Orthopodomyia (Diptera, Culicidae). 17775

Siphona kangwagyei n. sp., a blood sucking fly from Uganda (Diptera: Muscidae). 17776

Notes on deathwatch beetles (Coleoptera). 17821

On the Sphodromantis of the species viridis from northwest Africa. 17849

Hymenoptera from Turkey: Symphyta. 18511

Revision of Palearctic Centrophthalmus (Col. Pselaphidae). 18513

Tatuidris, a remarkable new genus of Formicidae (Hymenoptera). 18516

Bedfordshire sawflies: With some new foodplants. 18517

Some new and little-known Acridoidea (Orthoptera) from west Africa. 18518

Two new species of the genus Otiothops (Praneae, Palpimanidae) from the Virgin Islands. 18519

On some new characters of classificatory importance in adults of Elateridae (Coleoptera). 18521

Two new Aphis species (Hem., Aphididae) from Australia. 18522

A preliminary account of some data on Heteroptera taken at light in the New World Tropics. 18523

Notes on Neotropical Tabanidae (Diptera). XI. Stenotabanus staryi n. sp. from Cuba. 18524

Eupelmidae of the Sahara (Hym. Chalcidoidea). 18525

Description of Haemagogus acritinctus, a new species from British Honduras, with a note on the validity of Haemagogus lucifer (H. D. and K.) (Diptera) Culicidae). 18528

The Agromyzidae (Diptera) of Woodwalton Feni Supplement. 18532

Notes on the systematics, host plants, and bionomics of the Bruchid genera Merobruchus and Stator. (Coleoptera: Bruchidae). 18537

SUBJECT INDEX

INSECT TAXONOMY

The British species of the genus Longitarsus Latreille (Col., Chrysomelidae). 18538

New records of Hemiptera-Heteroptera from Wiltshire and north Somerset. 18544

The female sex of the Mutillidae subfamily Eotillinae (Hymenoptera). 18546

Some Muscidae (Diptera) from the Philippine Islands and the Bismarck Archipelago. 1. The genus Myiophaea Enderlein. 18552

New name combinations and notes on some African and Asian species of Aleyrodidae (Homoptera). 18558

Taxonomic notes on some larvae of the genus Aedes (Diptera: Culicidae) from Lokoja in Northern Nigeria. 18559

A new species of the genus Heterothops Steph. from Czechoslovakia. 78. Contribution to the knowledge of the Staphylinidae. 18562

Some Sarcophagidae (Diptera) from the Bismarck Islands and the Philippines. 18566

A new Culex (Melanoconion) from Florida (Diptera, Culicidae). 18569

Some records of ectoparasites from birds collected at the jersey Bird Observatory. 18572

A tick new to Ireland- Ixodes (Exopalpiger) trianguliceps Birula, 1895. 19215

Macdonaldium fungi, a new genus and species of the featherwinged and smallest known beetles (Coleoptera: Ti:liidae) from East Como, Quebec. 19336

New exotic crane-flies (Tipulidae: Diptera). XVI. 19338

Undescribed species of Neartic Tipulidae (Diptera), IX. 19339

The Phaeogenes sensu stricto of North America. 19340

Indian Terebrantia--IV. (Thysanoptera). 19341

Observations on Pergamasus. III. Sub-genus Amblygamasus Berlese, 1903 (Acarina anactinotriches: Parasitidae). 19342

Observations on Pergamasus. II. Sub-genus Pergamasus Berlese, 1904 (Acarina anactinotriches: Parasitidae). 19343

On a Selenaspidus Ckll. (Coccoidea-Aspidiotini), new for the Republic of Central Africa. 19345

Revision of the subgenus Thorectes (Col. Scarabaeidae). Third note: the European species (Except the Iberian peninsula) and the Middle East. 19346

On four noxious flea-beetles from the Republic of Central Africa. (Col. Chrysomelidae). 19348

New or little known Neotropical flea-beetles. (Col. Chrysomelidae). 19349

The true identity of Pammene snellenana Bentinck, with selection of lectotypes (Lepidoptera, Tortricidae). 19350

Diagnosis of new African Euteliinae (Lepidoptera, Noctuidae). 19351

Pandesma muricolor n. sp. and Subpandesma n. gen. (Lepidoptera, Noctuidae). 19352

A new species of Cataspilates (Warren) (Lepidoptera, Geometridae, Ennominae). 19353

On the fauna of armored scale insects (Homoptera, Coccoidea) of India. Communication 2. Andaspis Macg. and three new allied genera (Diaspidiae). 19354

On some Rhyacophila of the tristis group. (Trichoptera). 19355

On a new Monocentrus (Membracidae Centrotinae), harmful to the cultivated pepper trees in central Africa. 19356

A new Eumeta from West Africa. (Lep. Psychidae). 19357

Thysanoptera of Madagascar. 19358

Thysanoptera of France. III. 19359

Pieris napi in calabria. (Lep., Pieridae). 19360

Revision of the tribe Phantasini. (Col. Cerambycidae). 19361

Two new species of the genus Dorcadion Dalm. from Anatolia (Coleoptera, Cerambycidae). 19362

Agrilus cupripes (Carter) comb. n. (Coleoptera: Buprestidae). 19363

Studies on North American ants. II. Myrmecina. 19364

New North American species of Ceratosmicra Ashmead (Hymenoptera: Chalcididae). 19365

A new chalcidoid parasite of a ceratopogonid midge (Hymenoptera, Encyrtidae). 19366

Redescription of Megisthanus floridanus with observations on its biology. (Acarina: Megisthanidae). 19367

A new species of Ardeicola Clay (Mallophaga: Philopteridae). 19368

A new Pulvinaria of the Mediterranean coast: Rhizopulvinaria maritima n. sp. (Coccoidea, Coccidae). 19369

A new Leptocentrus (Homoptera: Membracidae) from the Congo. 19370

Catalog of the Coleopteran Paussidae in the Department of Entomology of Cornell University, U. S. A. (Coleoptera, Carabidae, Paussinae). 19371

Contribution to the study of the Orthodoptera of Nepal. 19372

Contribution to the study of Caeculidae. Third. Postlarval development of Neocaeculus luxtoni n. gen., n. sp. 19373

Water mites of the genus Stygomomonia in North America (Acarina, Momoniidae). 19374

Little known and new litter-inhabiting Laelapine mites (Acari, Mesostigmata) from Israel. 19375

Some new Ephemeroptera from Madagascar. 19377

Six new Phytoseiidae from Florida (Acarina: Phytoseiidae). 19378

Two new Lepidoptera of the Netherlands' fauna. 19380

Contribution to the fauna of Iran. 2. Hemiptera Reduviidae. 19381

Notes on Culiseta (Culicella) atra (Lee) (Diptera: Culicidae) in western Australia. 19382

New neotropical Sarcophagidae in the Vienna Museum (Diptera). 19383

A new species of Microctonus (Hymenoptera: Braconidae) parasitizing the alfalfa weevil. 19385

On a new predatory mite of economic importance from Sudan (Acarina: Phytoseiidae). 19386

Some predatory mites of the genera Typhlodromus and Amblyseius from the United Arab Republic (Acarina: Phytoseiidae). 19387

A new species of Rhynonirmus from Thailand (Mallophaga: Philopteridae). 19388

Notes on Mexican and southwestern U. S. Bethylidae (Hymenoptera): II, Epyrinae. 19390

Mexican and Central American Pompilinae (Hymenoptera, Pompilidae): suppl. ii. 19391

A new species of Opostegidae from Florida. 19392

Notes on two new heteromorphic deutonymphs (Hypopi) (Acarina: Sarcoptiformes). 19393

Two new species of Dermatophagoidinae. Connection of this sub-family with the Pyroglyphidae (Sarcoptiformes). 19394

Colydiid beetles of Hawaii, with the description of a new species (Coleoptera: Colydiidae). 19395

On the generic position of 'Plesiocera' flavifrons Becker and of a few related species (Diptera, Bombyliidae). 19396

The Idiocerinae of Madagascar (Hom. Cicadellidae). 19398

Notes on the systematics and morphology of the lacebug subfamily Cantacaderinae (Hemiptera: Tingidae). 19399

Telamona Archboldi, a new treehopper from Florida (Homoptera: Membracidae). 19400

New genera of the family Analgidae, Trouessart and Megnin. 19402

Five new genera of the family Analgidae, Trouessart and Megnin. 19403

A contribution to the systematics of the genus Amitermes (Isoptera: Termitidae) in Australia. 19404

Soldier-reproductive intercases in a species of Tumulitermes (Isoptera: Termitidae). 19405

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. List of insects collected on Niue Island during February and March, 1959. 19406

Notes on the taxonomic characters and distribution of Aedes aloponotum Dyar and Aedes Communis (De Geer) (Diptera: (Culicidae). 19407

The union of Argia fumipennis (Burmeister, 1839) with Argia violacea (Hagen, 1861), and the recognition of three subspecies (Odonata). 19408

Note on several phytophagous mites from the island of Reunion with a description of a new species of the genus Eotetranychus Oudemans (Tetranychidae). 19409

Five other new species of Tetranychidae of Madagascar (3). 19410

New species of Erythroneura (Homoptera: Cicadellidae). 19411

Dieuches japonicus new name for Dieuches fuscus Hidaka preoccupied (Heteroptera: Lygaeidae). 19412

The Diplopoda of Turkey. 19413

The genus Diarthrophallus Tragardh, 1946. (Acarina: Diarthrophallidae). 19416

Digamasellid mites associated with bark beetles and litter in North America. 19417

On the authorship of the generic name Tagalis and the invalidity of the family-group name Tagalidae (Hemiptera: Reduviidae). 19418

A revision of the Japanese species of the subgenus Orientomyia saigusa (Diptera, Empididae, genus Rhamphomyia). 19419

The specific status of Pseudodipsas illidgei Waterhouse and Lyell stat. n. (Lepidoptera: Lycaenidae). 19422

Pycnosarcini, an additional tribe of Romaleine Acrididae (Orthoptera). 19423

Revision of the African species of the termitophilous tribe Corotocini (Coleoptera: Staphylinidae). I. A new genus and species from Ovamboland and its zoogeographic significance. 19425

Revision of the African species of the termitophilous tribe Corotocini (Coleoptera, Staphylinidae). II. The genera Termitomimus Tragardh and Nasutimimus new genus and their relationships. 19426

The North American Microcrambus (Lepidoptera: Pyralididae. 19427

The Cicindela-, Cychrus-, Carabus- and Calosoma- genera in northern Hesse (Coleoptera, Cicindelidae, Carabidae). 19428

A new species of the genus Macrocephalus swederus from Mexico (Hemiptera: Phymatidae). 19429

Direction and intensity of the variability in external features of house bees from different populations. 19430

Tabanidae (Diptera) of the Balkans. 19432

Two interesting Hymenoptera-Aculeata from Sint Pietersberg. 19433

On a new species of the genus Gromphadorhina (Dict. Perisphaerinae). 19434

Revision of genera closeley related to Pachorhopala Bernhauer (2). (Col. Staphylinidae). 19435

Revision of the closely related genera of Pachorhopala (1) (Col. Staphylinidae Zyrasini). 19436

Rhysotritia ardua larva (C. L. Koch) 1836 (Acarina, Oribates). 19438

A contribution to the knowledge of the African Coccoidea (Homoptera). 19439

New records of Carabidae (Coleoptera) from Northumberland. 19440

Myocoptes ondatrae spec. nov., a new parasite of Ondatra zibethica L. (Listrophoridae: Sarcoptiformes). 19441

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia. 19442

Australian Blattidae (Blattodea). IX. Revision of Polyzosteriinae tribe Methanini, Tryonicinae, and Blattinae. 19443

Two new species of Scutacaridae (Acari) from Vietnam Zoologische ergebnisse der forschungen von Dr. T. Pocs . 19444

A redescription of Radfordilaelaps meridionalis Zumpt, 1950, with a new description of the protonymph and a discussion on the intraspecific variation of the species. 19445

A new concept investigation of the Lepidoptera of lower Austria and the northern Burgenland. 19447

Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.). 19449

The spider mite family Tetranychidae in New Zealand II-The genus Tetranychus. 19450

The spider mite family Tetranychidae in New Zealand. III.--THE genus schizotetranychus. 19451

The spider mite family Tetranychidae in New Zealand. I. The genus Bryobia. 19452

A new species of Alysia parasitic on carrion-feeding flies (Hymenoptera: Braconidae). 19453

Some new and little known Dromiini (Col. Carabidae) in neotropical america. 19454

Description and bioecological observations of a new species of Scotussa (Orthoptera, Acrididae). 19456

Two new species of the genus Aulacorthum Mordvilko from Japan, (Homoptera: Aphididae). 19457

Observations and records for some British Thysanoptera VII. Thripidae, Thrips flavus Schrank ant Thrips brevicornis Priesner. 19458

Three new southeastern parasitic Hymenoptera. 19459

Three new reared Braconidae (Hymenoptera). 19460

New species and records of Phytoseiidae (Acarina: Mesostigmata) from North Carolina forest litter. 19461

Contribution to the study of acarine parasites of Madagascan Orthoptera. I. The genus Podapolipus (Podapolipidae): Preliminary diagnosis of new species. 19462

The genera Comptotoma and Chaetogenys (Col. Carabidae). 19463

Dytiscidae (Coleoptera) of Nyasaland and Southern Rhodesia. X. Cybisterini and Addenda. 19465

Descriptions of two new species of Poecilmitis Butler (Lepidoptera: Lycaenidae). 19466

Gigantococcus, new genus of Cochenille Margaroidae for Icerya maxima Newstead 191400Icerya corticalis Vayssiere 1926. Redescription of the African species Gigantococcus maximus (Newstead). 19467

Eggs of moths among the Ethmiidae, Acrolophidae and Hepialidae--Microlepidoptera. 19468

The Zophosis of Sudan (Col. Tenebrionidae). 19469

Genera and species of the Dermaptera. 7. Chelisochidae (Forficuloidea). 19470

A review of the genus Turacoeca with description of a new species (Mallophaga: Menoponidae). 19471

On the discovery of Leptidea morsei in Styria (Lep., Pieridae). 19473

Oribatei from a bird nest. 19474

Ecological and systematical investigation into Chironomids (Diptera) of Lake Constance. A contribution to the 'lakustrischen' Chironomid fauna of the northern alpine districts. 19475

Ecological and systematical investigation of Chironomids (Diptera) of Lake Constance. A contribution to the 'lakustrischen' Chronomid fauna of the northern alpine districts. 19476

The Mallophaga genus Ricinus De Geer, 1778. Revision of the external american species. 19477

Moyanella gigax Boshell and Kerr 1942, type of Moyanellinae n. sub.-fam. (Acarina-Trombidiidae). 19478

Revision of Tanaupodinae and Lasseniinae (Acarina: Thrombidiidae). Preliminary. 19479

Review of the South African cuckoo-bee genus Pseudodichroa (Hymenoptera, Apoidea). 19481

New and inadequately described species of black flies (Diptera, Simuliidae). Communication I. 19482

Venezaleurodes pisoniae, a new genus and species of whitefly from Venezuela (Homoptera: Aleyrodidae). 19483

Notes on some nearctic chironomid larvae. 19484

Paraneonyssus dendrocitti, a new species of Rhinonyssidae (Acari: mesostigmata) from Taiwan. 19485

A preliminary review of the genus Homochaetothrips gen. n., with brief description of a new species (Thysanoptera: Thripidae). 19486

Scorpions of Chile. II. Bothriuidae a redescription of Phoniocercus pictus Pocock, 1893. 19488

Description of a new Coccinellid species attacking the scale insects, with a taxonomic note on a known species (Coleoptera). 19489

On the Coccinellidae attacking the aphids in Japan and the Ryukyus. 19490

Studies on the Neoheegeria dalmatica group (Thysanoptera). 19491

Air-borne Lygaeidae (Hemiptera) trapped over the Atlantic, Indian and Pacific oceans, with the description of a new species of Appolonius Distant. 19493

Siphonaptera taken from formalin-traps in Chile. 19495

Hypnoidus leei, a new species of click beetle from North America (Coleoptera, Elateridae). 19496

A revision of the genus Haematopinus Leach (Phthiraptera: Anoplura). 19497

A new Laelaptidae of Central Africa: Scutanoloelaps mehelyae n. sp.. 19499

A supplement to the revision of Australian Pristomyrmex species (Hymenoptera: Formicidae). 19500

Nomenclature and synonymy of the North American ants of the genera Ponera and Hypoponera (Hymenoptera: Formicidae). 19501

SUBJECT INDEX

INSECT TAXONOMY

The Tipula excisa-group in the Pyrenees (Diptera). 19502

Contribution to the study of Coleoptera of the Beni-Abbes and Sahara valley. 19503

Group revision of Mallophaga. Pectinopygus species of the large cormorants (Gen. Phalacrocorax Brisson, 1760 s. str.). 19505

Studies in Nearctic desert sand dune Orthoptera. XI. A new arenicolous species of Stenopelmatus from Coachella valley with Key and biological notes. 19506

Two new species of Cinara (Homoptera: Aphididae) associated with pine rust lesions. 19507

On a new species of the genus Megacyttarus (Dipt. Empididae). 19508

General introduction to the classification, terminology, ontogenesis and evolution of mites. 19509

Notes on some European Eumenes-species (Hymenoptera, Eumenidae). 19510

Revision of the genus Tecomatlana Hoffmann, 1947 (Acarina: Trombiculidae). 19512

Note on xhexidionis n. g. and Pentidionis n. sg.. 19513

Notes on the Trombiculidae. 19514

A new species of Mymar Curtis (M. taprobanicum Ward) new to Europe (Research on Hymenoptera, Chalcidoidea. V.). 19515

A new Reduviid myrmecomorphid from Ghana (Hem. Heteroptera). 19516

Notes on Parasalius Banks, 1934 (Hymenoptera: Pompilidae Pepsinae). 19517

Aphidiid parasites of the green peach aphid, Myzus persicae (Sulzer), in Japan (Hymenoptera, Aphidiidae). 19518

Dragonfly types from the Dobson collection, with the designation of lectotypes. 19519

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Specific synonymy in Mimopeus Pascoe (Cilibe auctorum), and the nomenclatural status of some related genera (Coleoptera, Tenebrionidae). 19520

On the knowledge of the gall wasp tribe Aulacini (Hymenoptera, Cynipidae). 19521

Some Psocoptera from Monks Wood National Nature Reserve, Huntingdonshire. 19522

Record of Neodiprion warreni (Hymenoptera: Diprionidae) in Florida. 19523

A new species of Listrophorus from Mus musculus in Hawaii (Astigmata: Listrophoridae). 19525

New species of bark beetles (Coleoptera: Scolytidae), mostly Mexican. Part VII. 19526

A key to species of the Cnesinus LeConte (Coleoptera: Scolytidae) of North and Central America. 19527

A new species of Cheylostigmaeus Willmann (Acari, Stigmaeidae) from New Zealand. 19528

A new species of Carabodes from Jamaica (Acari: Cryptostigmata). 19529

New records of two Curculionid beetles in North Carolina. 19530

Some new North American Collembola. 19531

Otorhinophila, a new genus of chiggers (Acarina, Trombiculidae) from western North America. 19532

The Hydroporus blanchardi-tigrinus complex (Coleoptera: Dytiscidae). 19533

Rhynchophorinae of southeastern Polynesia (Coleoptera: Curculionidae). 19534

On a new genus of Coccoidea-Diaspidini of the central African forest. 19547

Notes on the biology of the larval Cigales (Hom. Cicadidae). 19559

A soft scale of vineyards, new for France: Neopulvinaria imeretina Hadz. (Coccoidea Coccidae). 19570

Rhizopulvinaria of Mediterranean pinks. (Coccoidea-coccidae). 19571

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 19573

A revision of the genus Arhyssus Stal. 19580

A new species and two new names of the Polyrhachis ants (Hymenoptera: Formicidae). 19632

A list of the Chrysomelid species from Hong Kong, with descriptions of three new species. 19642

A list of the Chrysomelid specimens from the Himalayas and Kashmir, preserved in the Zoological Museum, Berlin. 19644

Acuticauda erigerontis n. sp. a gall former on Erigeron (Hom. Aphididae). 19654

Hymenoptera from dead wood. 19656

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae). 19710

A review of the classification, phylogeny and evolution of the family Braconidae (Hymenoptera). 19741

Studies on the genus Chirothrips Haliday (Thysanoptera: Thripidae) with descriptions of new species. 19764

Chromosomal variation in Agrodiaetus dolus Hubner (Lep. Lycaenidae). 19770

Protein differences in Drosophila. IV. A study of sibling species. 19778

Genetic study of chromatic variation and anatomical study of Chelymorpha variabilis Boh. (0 Chelymorpha crucifera Boh.), 1854 (Coleoptera, Chrysomelidae, Cassidinae). 19793

Annotated list of forest insects of British Columbia. XIV. Ennominae (Geometridae). 19908

Palaeoasemum crowsoni and P. duffyi, a new genus and two new species of the Asemini (Coleoptera, Cerambycidae) from the Baltic amber. 20164

Undescribed species of nematocerous Diptera. VIII. 20165

New exotic crane-flies (Tipulidae: Diptera). II. 20166

Records and notes on Philippine Odonata. 20169

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries LXIV. Coleoptera Carabidae. 20171

New Coleoptera from the collections of the Paris Museum. 20175

Neotropical Mirids, XCIX: a new genus and two new species from Bolivia. 20177

The Swedish Hydrellia species (Diptera: Ephydridae). 20180

Scientific results of the Hungarian Pedo-Zoological Expedition to the Congo -Brazzaville. 15.-- Brentidae (Coleoptera-Curculionoidea). (1). 20181

The genus Keonolla (Homoptera, Cicadellidae). 20184

Some new and little-known species of Philornis (Diptera: Muscidae). 20185

Two new species of Gamasellus Berlese (Mesostigmata: Rhodacaridae) from Canada. 20186

Contribution to the knowledge of Staphylinidae. XCVII. Cryptobium of the western palearctic. 20188

New hypopes living in a phoretic association on rodents and marsupials (Acarina: Glycyphagidae). 20189

Contribution to the faunal list of the Congo (Brazzaville). Mission A. Villiers and A Descarpentries. LIX. Coleoptera Dynastinae and Orphninae. 20191

Concerning breed braconid wasps. 20192

Cossonus piniphilus and Hexarthrum chinensis, two new Cossoninae (Coleoptera, Curculionidae) from the Palearctic Region. 9. Contribution to the knowledge of the Palearctic Cossoninae. 20193

Revision of the Eritragini (Coleoptera, Tenebrionidae). (Ii. Conclusion). 20194

A new Chaetadoretus from Angola (Col. Scarab. Rutel.). 20195

Key to the Central and South American species of the subgenera Spilota of the genus Anomala including some new descriptions (Col. Scarabaeidae, Rutelinae). 20196

New species of the genus Microcamenta Per. (Col. Scarabaeidae Sericinae). 20197

Contribution to the faunal list of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LVII. Coleoptera Coccinellidae. 20198

Some Cheyletid and Pseudocheylid mites from Israel. 20199

First recorded occurrence of the genus Dioxys in Idaho (Hymenoptera: Megachilidae). 20200

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries LXVI. Hymenoptera Braconidae. 20201

Contribution to the faunal list of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXII. Hymenoptera Scoliidae. 20202

Some Californian oedipodine grasshoppers, particularly three species given the specific name occidentalis by Lawrence Bruner (Orthoptera, Acrididae). 20203

Eight new species of the genus Edtetranychus Oudemans (Acarina: Tetranychidae) of Madagascar. 20205

The scientific results of the Hungarian Soil Zoological Expedition to Brazzaville-Congo. 16. The genus Palorus (Coleoptera: Tenebrionidae).
20206

On the collection of Cryptocephalus biguttatus Scop. (Col., Chrysomelidae).
20208

On the systematic orientation of Lysandra coridon f. polonus (Lep., Lycaenidae).
20209

On the systematic position of the genera Microdonatia Blackburn (Col. Chrysomelidae).
20211

The complex of Timarcha scabripennis Fairmaire from Marocco (Col. Chrysomelidae).
20212

Contribution to the knowledge of the genus Syachis F. Bates (Coleoptera, Tenebrionidae).
20213

Notes on the taxonomy of Culicoides from Louisiana (Diptera: Ceratopogonidae).
20214

A new genus and species of Psenini from the Southwestern deserts (Hymenoptera, Sphecidae).
20219

Biological notes on several South-Western ground-nesting wasps (Hymenoptera, Sphecidae).
20220

Scorpions of Morocco.
20224

A new Schizaphis of southern France (Hom. Aphididae).
20225

New genera and species of Staphlinidae in Africa.
20228

A new species of Staphylininae in the Ivory Coast, Sudan and Katanga.
20229

Two new leaf-hoppers of the genus Handianus (Homoptera, Cicadellidae).
20231

Chigger mites on small mammals of Spain. (P-sorergatidae: Trombidiformes).
20232

Five weevils new to Sweden (Col. Curculionidae).
20233

Systematic nomenclature of the hitherto private publication of Macrolepidoptera of the Saarlands.
20235

New Canadian Cryptinae (Ichneumonidae: Hymenoptera).
20236

The genus Xyleborus Eichhoff (Coleoptera, Scolytidae). Supplement, correction and enlargement of the diagnosis. Part III.
20241

Notes on the genus Homonopsis V. Kuznetsov (Lepidoptera, Tortricidae).
20242

A taxonomic study of some genera of the Ethiopian Miridae (Hemiptera).
20243

On new Collembola species from Yugoslavia.
20244

African species of the genus Glaresis Erichson and one in a closely related new genus (Troginae, Scarabaeidae, Coleoptera).
20246

Information on German fleas. I. On the taxonomy of the bird fleas (Insecta, Siphonaptera).
20247

Notes on the Muscidae of New Guinea (Diptera). IV. Species described by Stein from 1910 to 1920.
20248

A contribution to the faunal list of the Congo. (Brazzaville). Mission A. Villiers and A. descarpentries. LVI. Orthoptera Tettigoniidae (first note).
20249

The genus Dermacentor (Ixodides) in Nebraska.
20250

Contribution to the knowledge of the genus Megachile Latr. (Hym. Apidae): Subgenus Eutricharaea and its hitherto known species.
20251

Study of Thrombidiidae larve. I. The larva of Thrombidium mediterraneum Berlese, 1910.
20252

Phycitinen--study IV. (Lep., Pyralidae).
20253

The collection of Dr. M. Gaillard in Kolda, Senegal. Orthoptera and closely related orders.
20254

A new species of Glaucias Kirkaldy from New Guinea heteroptera: Pentatomidae).
20255

Contribution to the faunal list of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LX Coleoptera Scarabaeidae (Cetoniinae, Trichiinae and Valginae).
20256

New species of Banasa from the Caribbean area and comments on the status of Schraderi Sailer (Hemiptera: Pentatomidae).
20257

The systematical placement of some Gelechiidae. (Lepidoptera).
20258

Studies on the Macrolepidoptera fauna of the saarlands.
20259

On the Orthocladiinae genus Heleniella Gowin (Diptera, Chironomidae).
20260

A new Tenebrionid genus and specie from central Asia (Coleoptera-Tenebrionidae-Pimeliini).
20263

Contribution to the study of Lycaenidae of tropical and equatorial Africa.
20264

A report on the blackflies (Simuliidae) of Delaware. II. description and discussion of blackfly habitats.
20265

The genus Mucroberotha Tjed. and its systematic position (Neuroptera).
20268

Hispinae from the G Frey Museum. Part 5. 231. Contribution to the knowledge of the Hispinae (Coleopt. Chrysomelidae).
20270

The Hemiptera Cimicidae new to central Africa.
20271

The large scorpion of Senegal: Pandinus gambiensis, Pocock 1899 should be considered as a true species and not a sub-species of Pandinus imperator C. L. Koch 1842.
20272

Contribution to the study of Diptera Malacophage. IV. Identification of Pherbellia obtusa (Fallen) (1820) and the description of a new palearctic species Pherbellia argyra sp. n. (Diptera, Sciomyzidae).
20274

Neoschoengastia brevipalpis Andre 1946 is a true Chcladonta (Acarina, Trombiculidae).
20275

On the composition of some tribes of the subfamily Pimplinae (Hymenoptera, Ichneumonidae).
20276

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries LXVII. Hemiptera Pentatomidae.
20277

Contribution to the faunal list of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LVIII. Coleoptera Passalidae.
20278

A new subgenus and two new species of Pseudiastata Coquillet (Diptera, Drosophilidae).
20279

Notes on Alaskan Drosophilidae (Diptera), with the description of a new species.
20280

Fig wasps from Israeli Ficus sycomorus and related East African species (Hymenoptera, Chalcidoidea). 2. Agaonidae (concluded) and Sycophagini.
20282

A revision of the Neotropical biting midges of the hylas group of Culicoides (Diptera, Ceratopogonidae).
20283

The genus Pellucidomyia Macfie (Diptera, Ceratopogonidae).
20284

Pachyhelea, a new genus of American Ceratopogonidae related to Palpomyia (Diptera).
20285

The genus Paradasyhelea Macfie, with descriptions of two new species from eastern Australia (Diptera: Ceratopogonidae).
20286

A new species of Osborniella (Mallophaga: Menoponidae) from Trinidad.
20287

New Danish leafroller, Laspeyresia conicolana Heylaerts (Lep., Tortr.).
20288

A new species of the genus Cephalcia Panzer, 1805 (Hymenoptera: Symphyta, Pamphiliidae).
20292

Studies on the species of the genus Thrips from India-II.
20296

Flight of moths (Lepidoptera, Noctuidea) to different sources of light in the mountain-forest zone of Crimea.
20367

Contribution to the knowledge of the larvae and pupae of Agapanthia violacea Fabricius (1775) and Agapanthia villosoviridescens De Geer (1775) (Col., Cerambycidae, Lamiinae).
20414

Amber bark beetles from the Zoological Museum of the University of Copenhagen. 247. Contribution to the systematics and morphology of the Scolytoidea.
20422

The accumulation of uric acid in the fat body of sawflies and its detection.
20430

The Tabanidae (Diptera) of Ontario.
20950

The mayfly nymphs (Order:Ephemeroptera) of Rawalpindi district.ik/uui
20955

New exotic crane-flies (Tipulidae: Diptera).
20956

Present status of the sawfly family Diprionidae (Hymenoptera) in Ontario.
20957

Revision of the genus Cryptocellus Westwood 1874 (Arachnida: Ricinulei).
20958

Family Tephritidae (Trypetidae, Trupaneidae). 57.
20959

A review of the genus Oligoaeschna Selys in southeast Asia.
20963

Fleas (Siphonaptera) new to Norway.
20964

Notes on the capture of Buchananiella continua and Elatophilus crassicornis Reuter in northern Italy and further description of these species (Heteroptera, Anthocoridae).
20967

The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats.
20968

A review of the praying mantises of Ghana Dictyoptera Mantodea).
20969

The mosquitoes of Ontario (Diptera: Culicidae) with keys to the species and notes on distribution.
20970

SUBJECT INDEX

INSECT TAXONOMY

The Norwegian species of the genus Myllaena Er. (Col., Staphylinidae). 20971

Data on the Thysanoptera fauna of the Rhein-Main-region (Ins., Thysanoptera). 20972

Contribution to the knowledge of the German spider fauna. V. (Arach., Araneae). 20973

Contribution to the knowledge of the neotropical Collembola fauna. I. Isotomidae. (part 2). 20974

A review of the literature on the spruce budworm Choristoneura fumiferana (Clemens). aQL561.T8M3. 21009

Some Orthopteroid insects of the orders Blattoptera, Orthoptera, and Dermaptera from Afghanistan. 21594

Notes on mallophaga on the Asiatic wild ass and bisons. 21595

A new species of black fly of the genus Gymnopais (Diptera, Simuliidae) from the Altay. 21596

Psephenus (Coleoptera: Psephenidae) parasitized by a new chalcidoid (Hymenoptera: Eulophidae). I. Description of the parasite. 21597

A faunistic study of Philippine aphids (Aphididae, Homoptera). 21598

A new genus and species of Aphididae (Homoptera) on Premna odorata Blanco. 21599

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. L. Orthoptera Gryilodea. 21600

An undescribed Phytoseius from Florida and Mexico. (Acarina: Phytoseiidae). 21601

Status of Zodion zebrinum, Z. auricaudatum, and Z. albonotatum (Diptera: Conopidae). 21604

Wesmaelius balticus Tjeder, 1931 (Neuroptera, Planipennin) new to Norway. 21605

Notes on Ecphylus Forst. and description of two new species (Ichneumonoidae, Braconidae, Doryctinae). 21606

A numerical taxonomic study of the genus Psorophora (Diptera: Culicidae). 21607

The male of Neoascia petsamoensis Kanervo (Dipt., Syrphidae) with remarks on the females and the distribution of the species. 21608

A redescription of Neoascia aenea Meig. (Dipt., Syrphidae). 21609

Coleoptera in southern Nordland. 21610

Hadrodactylus branderi sp. n. (Hym., Ichneumonidae) from Finland. 21611

Catalogue on the Indian Dermaptera. 21612

Catalogue on the Indian Dermaptera. 21613

Revision of Sphaerocera, with description of a new genus Afromyia (Diptera: Sphaeroccridae). 21615

Two new species of noctuid moths of the genus Palluperina Hmps. (Lepidoptera, Noctuidae). 21616

New and little-known species of aleyrodids (Homoptera, Aleyrodoidea) from Crimea. 21618

A new empidid, Platypalpus caucasicus, sp. n. (Diptera, Empididae), from north Caucasus. 21619

A revision of the genus Blissus (Heteroptera: Lygaeidae) in eastern North America. 21620

Data on the caddisfly (Trichoptera) fauna of Siberia and the Far East. 21621

Three new species of African Gabrius (Col. Staphylinidae Philonthini). 21622

A review of twelve aphid species described as new by Edith M. Patch. 21624

Gall midges of the USSR. 7. New species of non-cecidogenous gall midges of the tribe Oligotrophini (Diptera, Cecidomyiidae). 21625

A new species of Fahrenholzia (Anoplura: Hoplopleuridae) from Texas, with a key to the species of the genus and a list of their known hosts. 21626

Six new species and one new name of some Dipterous families from Japan. 21627

New Palearctic species of the subfamily Medeterinae (Diptera, Dolichopodidae). 21628

On Stenus (Parastenus) alpicola Fauvel and other divergently evolved Palearctic Parastenus-species (Col., Staphylinidae). 44. Contribution to the knowledge of the Stenids. 21631

Trombiculid mites (Acariformes, Trombiculidae) from the Crimea. 21633

Tricoptera collected in Sor-Trondelag County. 21634

Medocostidae--a new family of Cimicomorphan Heteroptera based on a new genus and two new species from tropical Africa . I. Descriptive Part. 21635

Endophytus anemones (Hering) in Finland (Hym., Tenthredinidae). 21637

On the systematic position of ichneumonids of the genera Odinophora Forster and Exetastes Gravenhorst and descriptions of new species (Hymenoptera, Ichneumonidae). 21638

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. XLVIII. Hemiptera Pyrrhocoridae. 21639

Examination of African Reduviidae. II. Harpactorinae. Genus Nagusta Stal. 21640

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. descarpentries. LIV. Hemiptera Plataspidae. 21641

A collection of spiders from Son Norway. 21642

Geometridae, new for Turkey, discovered in 1939-42 by J. Romieux. 21646

A new genus and three new species of stoneflies (Plecoptera) from Caucasus and Crimea. 21648

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. XLV. Coleoptera Ochodaeidae. 21676

A list of Sinhalese aphids (Hem., Aphididae). 21688

Ichneumonological (Hym.) reports from Finland I. 21689

On my acquaintance with middle and northern European Species of the genus Psenulus Kohl (Hym., Sphecoidea). 21705

New species of the sub-family Bombinae of the Palaearctic Region (Hymenoptera, Apoidea). 21744

Heliothis species Lepidoptera: Noctuidae in Papua and New Guinea. 21962

New data on the bloodsucking midge (Diptera, Ceratopogonidae) of the coastal zone of the Maritime Territory. 22151

Synanthropic Diptera of the genera Dasyphora R. D. and Morellia R. D. (Diptera,Muscidae) in Soviet Central Asia. 22157

Diptera from Nepal. Anthomyiidae. 22251

Angioneura acerba (Meigen, 1838) (Diptera, Calliphoridae) new to Britain. 22252

A new species of crane fly from Ghana (Diptera, Tipulidae). 22253

Elenchus tenuicornis (Kirby) (Coleoptera, Stylopoidea, Stylopidae) in Cheshire. 22254

Ratzeburgiola Erdos (Hymenoptera, Eulophiidae), a genus new to the British Isles. 22255

Three new species of Phytoseiid mites preying on the cotton white fly, Bemisia tabaci in the Sudan (Acarina: Phytoseiidae). 22256

The natural groups of Campsomeriella Betr., 1941 (Hymenoptera Scoliidae). 22258

Revision of Palaearctic species of Eusandalum Ratz. Hym., Eupelmidae). 22259

The Dermaptera of the Naturhistoriska Riksmuseum, Stockholm. Part III. 22260

Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba. 22261

Chelifera aperticauda Collin (Dipt., Empididae in Kent with notes on other Empids. 22262

Seasonal abundance of Tabanidae at Mazabuka, Zambia. 22265

Contribution to the study of the Caeculidae. IV. Procaeculus Bryani Jacot, 1936 (Acariens: Prostigmates). 22266

The Indo-Oriental tribe Cheritrini (Lepidoptera: Lycaenidae). 22267

Hymenoptera from Turkey. Sphecidae, I. 22268

Some new American Sarcophagidae (Diptera). 22269

A revision of the Tertiary fossil species of the Kalotermitidae (Isoptera). 22270

The red currant gall mite, Cecidophyopsis selachodon n. sp. 22271

The Alysiinae (Hym. Braconidae) parasites of the Agromyzidae (Diptera). VI. The parasites of Cerodontha rondani s. i. 22272

On the Collembola of the Soviet Union. III. Proistoma (Dimorphiella) muriphela n. subgen., n. sp., from Novosibirsk. 22273

Golanudiplosis japonicus--a new midge attacking comstock mealybug in Japan (Diptera: Itonididae). 22274

Contribution to the morphological and biological study of Tetranychus neocaledonicus Andre 1933 (Acarina--Tetranychidae) cotton red-spider in Madagascar. 22276

Recent Hemiptera of the Canary Islands. 22277

New species of Erythroneura (Homoptera: Cicadellidae).
22280

A revision of the genus Takecallis Matsumura (Homoptera: Aphididae).
22281

Paltsa expedition 1964 (Lepidoptera).
22286

Studies on Ethiopian Ptiliidae. I, Africoptilium gen. n. from central Africa.
22287

Additions and corrections to the British list of Atomaria s. str. (Col., Cryptophagidae), including a species new to science.
22288

Taxonomic notes on British Coleoptera. No. 6. Stenus glacialis Heer (Staphylinidae).
22289

The identity of Brachypterolus linariae (Stephens) (Col., Nitidulidae), with notes on its occurrence in Britain.
22290

Taxonomy--ecology, a mutual relationship.
22291

Tapinesthis inermis, a new Oonopid for Germany (Arachnida, Araneae, Oonopidae).
22294

Taxonomy and biology of Trithyreus brasiliensis n. sp. (Arach., Pedipalpi, Schizopeltidia).
22295

Stenobothrus (Stenobothrodes) cotticus nov. spec., a new grasshopper from the French Alps (Orthoptera, Acrididae).
22296

A revision of the genus Periope Haliday with description of a new species (Hymenoptera, Ichneumonidae).
22297

A new bee of the genus Andrena from India (Hymenoptera: Andrenidae).
22298

Contribution to the knowledge of the Bornean Psenini (Hymenoptera, Sphecidae).
22299

A new Photinus firefly, with notes on mating behavior and a possible case of character displacement (Coleoptera: Lampyridae).
22300

Insect catalogs of Sweden. XVIII. Coleoptera, 1960.
22302

Australian Blattidae (Blattodea). VIII. The Platyzosteria group; subgenus Melanozosteria Stal.
22304

Revision of the Ceratozetidae. 5. Ceratozetes thienemanni Willmann (Arach., Acari, Oribatei).
22305

Thysanura in Caernarvonshire.
22307

Notes on Buprestidae (Coleoptera): Part VI.
22311

Abyssal Halacaridae (Acari) from the southeast Pacific.
22312

Notes on Cecidomyidae, I.
22313

A revision of the genus Microgaster latreille (Hymenoptera: Braconidae).
22314

On the taxonomy and distribution of the European and Middle-East species of the Tabanus bovinus-group (Diptera, Tabanidae).
22315

A review of the tribe Rutiliini (Diptera: Tachinidae) I. Genera other than Rutilia Robineau-Desvoidy and Formosia Guerin-Meneville.
22318

Genera and species of the Dermaptera. 5. Spongiphorinae and Labiinae.
22320

Genera and species of the Dermaptera. 4. Pericominae, Vandicinae, Strongylopsalinae, Nesogastrinae, Isopyginae and Sparattinae (Labiidae).
22321

Heteronychia (Spatulapica) slovaca sp. n. and notes on the taxonomy of Heteronchia (Spatulapica) rodendorfi (Povolny and Slameckova, 1959) (Diptera).
22322

An index-catalogue of African Phaneropterinae (Orthoptera: Tettigoniidae).
22323

On the occurrence of fossil insects in the mesozoic rocks of western Australia.
22325

New nasal mites Ptilonyssus and Paraneonyssus (Acarina: Mesostigmata), from Taiwan and New guinea.
22327

The types and taxonomy of the Nature-Museum Seckenberg 38: Insecta Lepidoptera Hepialidae.
22328

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). I. Description of a limited area of a cloudy forest and the taxonomy of the Phlebotomus (Diptera, Psychodidae).
22329

The taxonomy and biology of two sympatric sibling species of Culex, C. pipiens and C. torrentium (Diptera, Culicidae).
22331

Chirothrips tuttlei n. sp. an isolated fringe-winged insect from Arizona, U. S. A. (Ins., Thysanoptera, Thripidae).
22333

The wood cricket, Nemobius silvestris (Bosc), (Orthoptera, Gryllidae) in Surrey.
22334

Lipokophila chinai gen. n., sp. n.- A new genus of Plokiophilidae (Heteroptera) from Brazil.
22335

Amphipyra pyramidea L. a double species (Lep., Agrolidae).
22336

The Dipterous genus Diostracus Loew (Dolichopodidae).
22337

Notes on the Indo-Australian Basicerotine ants (Hymenoptera: Formicidae).
22338

Notes on the Scandinavian Ptychopteridae, with description of a new species (Diptera).
22339

Notes on the genera Cosmophorus and Orgilus in Japan with description of a new species (Hymenoptera, Braconidae).
22342

Some Swedish Hydroporus species (Col., Dytiscidae) with descriptions of Hydroporus eljasi n. sp..
22343

Notes on the name Leptopiinae (Coleoptera: Curculionidae).
22345

Technical notes on harmful insects from Malagasy.
22349

Investigations concerning the morphological characters of the variaty Phlebotomus chinensis balcanicus Theodor 1958.
22379

A gynandromorph of Oxylipeurus mesopelios (Nitzsch) (Mallophaga) from Phasianus colchicus L..
22432

The evolution and dispersal of the grassland leafhopper genus Exitianus, with keys to the Old World species (Cicadellidae: Hemiptera).
22443

On the duct of secretory glands on the first cheliceral segment in the family Nemastimatidae and the application of this character in taxonomy (Opilionidea).
22450

Three new species of bird mites (Analgoidae) parasites of Procellariiformes.
22753

Studies on some Taeniothrips species from India. I.
22851

Three insect galls of species new to Sweden.
22852

The holarctic species of Cyrtogaster Walker and Polycystus Westwood (Hym., Pteromalidae) including the description of a new species of Cyrtogaster from Britain.
22853

Kalmanius, a new genus of the subfamily Nabinae (Heteroptera: Nabidae).
22854

The European species of the genus Callitula Spinola (Hymenoptera: Pteromalidae).
22855

The dermaptera of the Naturhistoriska Riksmuseum, Stockholm. I.
22856

A new Brazilian species of the genus Brachylabis Dohrn (Dermaptera, Carcinophoridae).
22857

A synopsis of American Mycomyiini with descriptions of new species (Diptera: Mycetophilidae).
22858

Notes on the taxonomy and distribution of Trichoceridae (Dipt. Nemat.) from Finland and adjacent areas of the USSR.
22859

Acmaeodera degener Scop. and quadrifasciata Rossi (Col. Buprestidae).
22860

Remarks on the Scorpionidae of Venezuela.
22861

Supplement to the knowledge of the Cerambycid fauna of Asia.
22862

The morphology, phylogeny, and higher classification of the family Tingidae, including the description of a new genus and species of the subfamily Vianaidinae (Hemiptera: Heteroptera).
22863

The larvae of Clythia fasciata Meigen (Diptera, Clythiidae).
22865

A new species of Dennyus (Mallophagai Menoponidae) from the Malaysian Spine-tailed Swift.
22867

New Trombiculid (Acariformes) larvae, parasites of Rumanian mammals.
22869

Chironomus, not a Tendipedidae. A note on a decision of the I. C. Z. N., of the International Zoological Commission for Nomenclature.
22870

Contribution to the systematics of the European and north west African Agriotes s. str.
22871

The taxonomic status of Dialectica soffneris (Gregor Povolny) and Parectopa cupediella (Herrich-Shaffer) (Lepidoptera, Lithocolletidae).
22873

On Carabus species of Anatolia.
22874

Concerning some types of Limneria Hlgr. (Hym. Ichn. Ophioninae).
22876

Contribution to the taxonomy of the Tersilochinids (Hym., Ichneumonidae).
22878

Revision of the types of Ichneumonid genera (Hymenoptera) described by Zetterstedt.
22879

Madopa salicalis Sciff. and Pyrausta palustralis Hb., new to the Swedish fauna (Lep.). 22882

Drosophila pavlovskiana, a race or a species . 22885

The Tenebrioni of west Mongolia (Coleoptera). 22886

On the classification of the Anagyrine Encyrtidae, with a revision of some of the genera (Hymenoptera: Chalcidoidea). 22887

Notes on Neotropical Aradidae. XVIII. (Hemiptera, Heteroptera). 22888

The use of taxonomic analysis in systematics of diptera. 22889

A description of the male and protonymph of Lepronyssoides pereirai (Acarina, Macronyssidae). 22891

New nomenclature for the species Phlebotomus towsendi n. sp. and Phlebotomus adleri n. sp. 22892

Description of Scaphidium comes sp. n. and notes on some other Palearctic species of the genus Scaphidium (Coleoptera, Scaphidiidae). 22893

The Swedish Smicronyx genera (Col., Curculionidae). 22894

The Swedish Smicronyx (Col. Curculionidae). 22895

Fauna of Paraguay. 3 Acari: Pyemotidae and Scutacaridae. 22896

The occurrence of some glasswing species in Moravia and Slovakia (Lep., Sesiidae). 22897

Note on Cerambycinae II. (Col. Cerambycidae). 22898

A revision of the genus Dicheirus Mannerheim 1843 (Col. Carabidae). 22899

The Norwegian species of Bactra Steph. and Eucosma Hb. (Lep. Tortricidae). 22900

Acleris nigrilincana Kawabe, 1963, a resident of northern Europe (Lep. Tortr.). 22901

The larvae of Agapanthia cardui Linnaeus (Coleoptera, Cerambycidae, Lamiinae). 22902

Contribution to the knowledge of the aculeate Hymenoptera from Mexico. I. Apinae (Apidae, Apoidea). 22903

Genus Taphrorychus Eichh. (Coleoptera, Ipidae). 22904

A small contribution to the knowledge of the Blattids and their distribution. X. Euthyrrhaphidae: Tiviinae Walker. 22905

New Brazilian Stenus-species: Coleoptera, Staphylinidae. 46. Contribution to the knowledge of the Steninea. 22906

Contarinia kanervoi Barnes in Sweden (Dipt. Itonididae). 22907

Leafhoppers of the group Psammotettix striatus L. (Homoptera, cicadellidae)--vectors of virus diseases of cereals, their systematics and distribution. 22908

Catalogue of New World Dermaptera (Insecta). Part II: Labioidea, Carcinophoridae. 22909

Contributions to the knowledge of the genus Tyrophagus Oudemans. 22911

Bothriurus vachoni, n. sp. of Brazil (Scorpionida, Bothriuridae. 22912

252. Contribution to the morphology and classification of Scolytoidea. Bark beetles from Turkey. 22913

Biological observations on some Phlebotomus from Rancho Grande (Venezuela).1.Description of a limited area of the cloud forest and the Phlebotomus taxonomy. 22914

Notes on the morphology of a rare Palearctic Opilionid (Opilionidae). 22915

A new species of Stigmaeidae, Agistemus mendozensis sp. n. (Acarina) and a key to the species of that genera. 22916

Morphology and systematic position of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae). 22917

Parasarcophaga (Curranea) tibialis (Macquart, 1850) a new species for the Czechoslovak fauna (Diptera). 22919

Two new species of palaearctic Torymidae and Cleonymidae. 22920

A key to the genera of Anthomyiinae known to occur in America north of Mexico, with notes on the genus Ganperdea Aldrich (Diptera, Anthomyiidae). 22921

Ptilium exaratum (Allibert). (Col. Ptiliidae). Designation of lectotype with notes on Allibert's collection. 22922

On some Coleoptera Buprestidae of Southern and Insular Italy. (VIII. Contribution to the knowledge of Coleoptera Buprestidae of Italy). 22923

A new name in European Tipulidae and two additions to the Swedish list. 22924

A new name in European Tipulidae (Diptera). 22925

The identity of Rhabdomastix parva Edw., 1938 (Diptera: Tipulidae). 22926

Two new names in European Chrysopidae (Neuroptera). 22927

Thoracispa dregei Chapuis. 227. Contribution to the knowledge of the Hispinae. 22929

A new genus and species of mealybug from the Philippine Islands (Homoptera: Pseudococcidae). 22931

Some North American parasites of Aclerda (Hymenoptera, Encyrtidae). 22949

The Habrolepis Foerster, 1856 (Hym., Chalcidoidea, Encyrtidae). 22956

Gamasid mites of Chiroptera (Parasitiformes, Gamasdidea) in Azerbaijan. 22977

Two genera of the family Encyrtidae (Hym., Chalcidoidea), new for Europe. 22990

A redescription of three species of Proctotrupoidea (Hymenoptera) from Jurine's collection. 23006

Ferrieropria n. gen. (Hym. Proct. Diapriidae, Diapriinae). 23055

Hypope parasites of the cellular tissues of birds. 23276

A survey of the wild species of Drosophilidae within multiple role of fungal centrioles. (Abstract) Monongalia County, West Virginia. 23418

INSECT TEMPERATURE

A comparison of the developmental rates of one- and two-year cycle spruce budworm. 14951

The life cycle of Hypera brunneipennis and a parasite, Bathyplectes curculionis, in relation to temperature. 16273

Temperature effect on mortality of confused flour beetles, treated with CO2 or Nz before fumigation. 16276

Temperature effects on nerve activity in DDT-TREATED American cockroaches. 16289

Supercooling of the saguaro species Drosophila nigrospiracula in the Sonoran Desert. 16425

Temperature compensation of the circadian oscillation in Drosophila pseudoobscura and its entrainment by temperature cycles. 16487

The effect of temperature and moisture on the development of Fannia canicularis (L.) and Fannia femoralis (Stein) (Diptera: Muscidae). 17095

Studies on the oviposition behavior and the development of the type of Aedes aegypti L. (Dipt., Culicidae). V. 18684

Studies on the course of the internal body temperature and transpiration of Blaberus discoidalis Sv. after poisoning with Thiodan. 19719

Influence of temperature on the fecondity of Asaphes vulgaris Walker (Hymenoptera, Pteromalidae). 22358

INSECT TRAPS

An improved carbon dioxide sticky cylinder trap. 13748

Versatile mosquito trap. 13891

A trap based on visual responses of adult mosquitoes. 14045

Tachinidae collections from central Swiss Jura tent traps. 14061

A collapsible, portable vehicle-mounted insect trap. 14083

A portable mosquito trap for use with a bantam fowl. 14104

Incidental capture of vertebrate wildlife in blacklight insect traps. 14120

Attraction of pear psylla to blacklight. 14212

The saddle gall midge (Haplodiplosis equestris) in 1967. 14424

Distribution of released Japanese beetles in a grid of traps. 14795

Dispersal and migration of tepa-sterilized Mexican fruit flies. 14842

Attraction of melon flies to lures on foliage or cane fibers at various heights. 14890

Alate aphids trapped in potato fields in Cumberland, Westmorland and Northumberland. 15729

Trials with pyrethrum mosquito coils against Anopheles gambiae entering a verandah-trap hut. 15850

A suggested method of collectings insects associated with forage grass seed production. 16265

Evaluation of aquatic insect emergence traps. 16306

Biology of the corn earworm and control with insecticides and virus in Washington. 16407

Time of arrival of gravid Culex pipiens fatigans at an oviposition site, the oviposition cycle and the relationship between time of feeding and time of oviposition. 16500

Cane-sugar feeding in Culex pipiens fatigans. 16501

Some problems connected with the use of light traps. 16976

A comparison of animal- and dry-ice-baited traps for the collection of tabanids. 16977

A brief review of the principles of light trap design with a description of an efficient trap for collecting noctuid moths. 16979

Reduction of tabanid populations on cattle with sticky traps baited with dry ice. 17221

Epiphytology of onion yellow dwarf. 17391

Establishment of a nursery for evaluation of resistance of strains of wheat to the wheat stem sawfly. 17398

Catch of insects at different heights in traps equipped with blacklight lamps. 17736

Field studies of sex attraction in the boll weevil. 17790

Alate aphid species captured in yellow pans. 17806

A simplified field cage for trapping pink bollworm adults. 17819

Interception of apple maggot adults on colored traps in an orchard. 17860

Influence of population level and trap spacing on capture of tobacco hor-worm moths in blacklight traps with virgin females. 17861

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River mission, Cape York Peninsula, north Queensland. I. Mosquito collections, 1963-1966. 17914

Aluminum foil and white polyethylene mulches to repel aphids and control watermelon mosaic. 18083

The relationship between the size of yellow water traps and catches of aphids. 18520

Alate aphids trapped in potato fields in Cumberland, Westmorland and Northumberland. 18556

A collapsible truck-boat trap for collecting blood-fed mosquitoes and tabanids. 18568

Dry season biology of Anopheles gambiae Giles in the sudan. 18651

Notes on light trap catches of Heteroptera made in the tropics. 18681

Annual report of the insect vector control division (previously the malaria division) of the ministry of health and housing of the government of Trinidad and Tobago for the year 1966. 18708

Notes on some aphids from British North Borneo. 19026

Entomology department. 19031

Attraction of pear psylla to blacklight. 19035

The right trap for the right timing. 19041

Identification of eriophyid mites trapped on silicone grease-coated slides. (Abstract). 19048

Wooden apples lure costly pest. 19062

Aphid sampling efficiency of Moericke traps affected by height and background. 19064

Observations on the effect of flowers on the activity of parasitic hymenoptera. 19090

Air-borne Lygaeidae (Hemiptera) trapped over the Atlantic, Indian and Pacific oceans, with the description of a new species of Appolonius Distant. 19493

Siphonaptera taken from formalin-traps in Chile. 19495

A modified 'Gary' bee-trap for use with the cape black honey-bee. 20298

A cone trap for immature black flies (Diptera: Simuliidae). 20364

Studies on the efficiency of collecting and counting Anopheles gambiae in verandah-trap huts. 20954

Notes on the capture of Buchananiella continua and Elatophilus crassicornis Reuter in northern Italy and further description of these species (Heteroptera, Anthocoridae). 20967

Booby-trapping as an alternative to sterile males for insect control. 21033

Notes on breeding and endofily of mosquitos in the Shomron district, Israel. 21049

A flight trap for collecting living insects. 21587

Termites- roasted or as a soup. 21592

A standard yellow jacket trap for population sampling and control evaluation. 22249

Seasonal abundance of Tabanidae at Mazabuka, Zambia. 22265

Populations of fall armyworm, corn earworm, and sugarcane borer on St. Croix, U.S. Virgin Islands. 22452

Trapping Hylemya spp. flies in tobacco fields on sticky colored stakes. 22890

Seasonal distribution of the lesser peach tree borer in Southern Indiana. 22932

Comparison of different methods of counting arthropod populations living off apple trees. 22936

Facts about fruit fly. 23174

INSECT TROPISM

The present status of control of Culex pipiens fatigans. 20314

INSECT VECTORS

Summary of recent abstracts. iII. malaria. 13875

Virus of the California encephalitis complex: isolation from Culiseta inornata. 13881

Biology of Culex tarsalis during the spring season in Oregon in relation to western encephalitis virus. 13885

Literature references to mosquitoes and mosquito-borne diseases. 13890

Aphid trapping with black-light lamps. 13912

Alteration of feeding behavior and fertility in Aedes aegypti by the chemosterilant apholate. 14211

Arbovirus studies in Bush Bush forest, Trinidad, W. I., September 1959-December 1964. II. Field program and techniques. 14302

Problems in the cultivation of some parasitic protozoa. 14304

Simian malarias in man; facts, implications, and predictions. 14307

Studies on the transmission of simian malaria. III. Infection and transmission of Plasmodium coatneyi with Anopheles freeborni and A. balabacensis balabacensis mosquitoes. 14308

Studies of Tensaw virus in Anopheles quadrimaculatus, A. albimanus and A. maculatus. 14309

Transmission of Plasmodium fieldi by Anopheles maculatus, A. stephensi, and A. balabacensis balabacensis. 14310

Evolutionary trends in mammalian trypanosomes. 14315

Erature references to mosquitoes and mosquito-borne diseases. 14325

Leafhopper transmission of the oat blue dwarf virus extracted from oats or barley. (Abstract). 14336

Further studies on mosaic disease of maize (Zea mays L.). 14410

Occurence of a mosaic disease on brinjal. 14418

Preliminary experiments with antigens of Theileria parva (Theiler, 1904). 14514

Studies on the transmission of simian malarias. iI. transmission of the H strain of Plasmodium knowlesi by Anopheles balabacensis balabacensis. 14577

The pre-infective larval stages of Stephanofilaria assamensis, the causative parasite of humpsore of Indian cattle. 14604

Mosquito control activities of the U.S. Armed Forces in the Republic of Vietnam. 14975

Pear decline virus transmission by pear Psylla. 15089

Distribution of wound-tumor virus antigens in internal organs of an insect vector. 15182

Repellancy of reflective aluminum to transient aphid viral vectors. 15189

Scotylid vectors of the Dutch elm disease in Ontario. 15214

Leukosis - Transmission by beetles. 15311

Experimental trasmission of African horse-sickness by means of mosquitoes. 15424

Biology of vector-associated diseases in Vietnam. 15460

Alate aphids trapped in potato fields in Cumberland, Westmorland and Northumberland. 15729

Trials with pyrethrum mosquito coils against Anopheles gambiae entering a verandah-trap hut. 15850

Drugs and disease as mosquito repellents in man. 15851

INSECT VECTORS

Catalogue of arthropod-borne viruses of the world; a collection of data on registered arthropod-borne animal viruses. qR360 .T3.
15852

Isolation of a California-group arbovirus from Aedes abserratus (Felt and Young) in Simsbury, Connecticut.
15853

Diabrotica longicornis as a vector for Fusarium moniliforme causing root rot of corn. (Abstract).
15854

Initial and subsequent sites of aster yellows virus infection in a leafhopper vector.
15948

Infectivity dilution curve of a leafhopper-borne virus on plant leaves. (Abstract).
15967

Preliminary studies on the identity of a mosaic virus from corn in Ohio. (Abstract).
15969

Anopheles (Myzomyia) sergenti theobald from the island of Pantelleria and its probable implication in the transmission of malaria.
16374

Experimental survival of the virus tahyna in hibernating mosquitoes Theobaldia annulata (Schrk.).
16376

Cane-sugar feeding in Culex pipiens fatigans.
16501

The serological differentiation of viruses in the tick-borne encephalitis subgroup by the gel-diffusion method.
16502

Arbovirus studies in Bush Bush Forest, Trinidad, W. I. September 1959-December 1964. VI. Rodent-associated viruses (VEE and agents of group C and Guama): isolations and further studies.
16503

Field study of the safety of Abate for treating potable water and observations on the effectiveness of a control programme involving both Abate and malathion.
16505

Recent advances in techniques for tsetse fly control: With special reference to northern Nigeria.
16506

Ukauwa virus proliferation in mosquitos.
16507

Immunodiffusion tests with three isolates of barley yellow dwarf virus. (Abstract).
16533

Mineral oil spray suppressed symptoms of virus yellows on sugar beets. (Abstract).
16563

Possible particles of beet western yellows virus in the intestines of viruliferous aphids.
16666

Multiplication of wheat striate mosaic virus in its leafhopper vector Endria inimica.
16676

Serological detection of wheat striate mosaic virus in extracts of wheat plants and vector leafhoppers.
16677

A virus disease of rhubarb in British Columbia.
16681

An evaluation of Bidrin for control of Scolytus multistriatus, the primary vector of Ceratocystis ulmi.
16709

To the methods of studying the environmental temperature of the tick Ixodes ricinus L.
16974

Vector control programs in Colorado.
16975

Eighth seminar on trypanosomiasis, abstract of papers.
16986

Review of some recent research on Onchocerca vectors.
17039

Properties of an acetylcholinesterase from the face fly, Musca autumnalis.
17082

Control methods for insects and diseases by spraying of insecticides. Transl. 16909.
17149

Summary of recent abstracts. IV. Trypanosomiasis. African Trypanosomiasis. Human.
17239

Summary of recent abstracts. VII. Rickettsial diseases.
17240

Key to rapid identification of antropophilic Phlebotomus in the cutaneous area of leishmaniasis in Mexico.
17241

Development of studies in Czechoslovakia on natural foci of diseases.(JPRS 44,874) Transl. 16897.
17243

Five years' experience maintaining colonies of Pediculus humanus in the laboratory.
17245

Genetics of insect vectors of disease. RA639.W7.
17246

Inhibition of the transmission by aphids of some plant viruses by oil pulverization.
17355

Some observations on vectors and transmission of tobacco etch virus.
17373

Comparative aphid-transmissibility of bean yellow mosaic virus from pea and bean correlated with cytoplasmic inclusions. (Abstract).
17377

Occurrence of harmful insects in direct sown paddy field in warmer regions and their control. Mainly on the ecology of insects which carry paddy virus. Transl. 16911.
17383

Microbes and toxic chemicals in the struggle against plant pests. (JPRS 44,489) Transl. 16903.
17386

Effect of autumn insecticide application on the control of the green rice leafhopper of the last generation. Transl. 16918.
17394

Changes in relative virus concentration in Endria inimica in relation to its ability to transmit wheat striate mosaic virus.
17397

A preliminary study of corn stunt vector populations in relation to corn planting dates in Mississippi. Notes on disease incidence and severity.
17399

A survey of plant-parasitic nematodes around roots of great millet (Sorghum vulgare) from Rajasthan, India.
17456

Theileriasis in Texas white-tailed deer.
17569

Tick infestation of livestock in Natal. I. The predilection sites and seasonal variations of cattle ticks.
17596

Insect-borne animal diseases are targets for New Zealand vigilance.
17597

Studies on the biological properties of Toxoplasma gondii in the body of insects, using Pediculus humanus L. as test animals.
17812

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River Mission, Cape York Peninsula, north Queensland. II. Arbovirus infections of mosquitoes, man, and domestic fowls, 1963-1966.
17910

Biology of vector-associated diseases in Vietnam.
17913

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River mission, Cape York Peninsula, north Queensland. I. Mosquito collections, 1963-1966.
17914

Gamasid mites (Gamasoidea) as vectors of the disease causative agents.
17915

Transmission of a leafhopper-borne virus from naturally infected Poa annua in Czechoslovakia.
18039

Studies on the pathogen and vector of dutch elm disease. A. Morphogenesis in Ceratocystis ulmi. B. Chemicals stimulating feeding by Scolytus multistriatus. II. An improved method for the isolation of a toxic metabolite from Rhizoctonia leguminicola.
18051

Cross protection between a plant virus and potato psyllid yellows.
18067

Aluminum foil and white polyethylene mulches to repel aphids and control watermelon mosaic.
18083

Natural acquisition compared with mechanical inoculation of six-spotted leafhoppers for transmission of the oat blue dwarf virus. (Abstract).
18085

Aphid vectors of barley yellow dwarf virus in blacklight traps in eastern United States.
18089

The use of menazon seed dressing to decrease spread of virus yellows in sugar-beet root crops.
18098

Isolation and electron microscopy of potato leafroll virus from plants.
18102

A new mosaic disease of brinjal (Solanum melongena L.).
18116

Bluetongue of sheep and cattle: past, present, and future.
18217

Animal sentinels in a statewide arthropod-borne encephalitis surveillance program.
18298

Epizootiologic observations of canine filariasis in Georgia.
18330

New records of Tabanidae (Diptera) for Southern Rhodesia.
18502

Notes on ant vectors in the life-cycle of a trematode.
18589

Studies on the carrier of pesticides.
18652

Passive dispersal of viable algae and protozoa by certain craneflies and midges.
18660

Annual report of the insect vector control division (previously the malaria division) of the ministry of health and housing of the government of Trinidad and Tobago for the year 1966.
18708

Observations and speculations concerning the flea vector of myxomatosis in Britain.
18710

Human malaria in non-human primates: Experimental mosquito transmission and infection.
18711

A review of the state's ten years (1948-1957). RA644.M218.
18712

Domestic quarantine notices. Japanese beetle. Regulated areas.
18713

Research on a new isometric virus of Atropa belladonna L. I. Symptomatology, purification, morphology, physical and chemical characteristics.
18901

Monolayer cultures of insect cell lines and their inoculation with a plant virus.
19012

Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts.
19021

Entomology department.
19031

Distribution of phony peach vectors in South Carolina.
19034

Morphology, biology, and phytopathological significance of the genus Appelia C.P. (Aphidoidea: Aphididae). I.
19047

Identification of eriophyid mites trapped on silicone grease-coated slides. (Abstract).
19048

Aphid sampling efficiency of Moericke traps affected by height and background.
19064

Research on pear moria; pear decline disease. Final technical report, September 11, 1962-September 10, 1967. sb608.p4r4.
19065

Some effects of spraying with thiabendazole on the susceptibility of sugar beet to yellowing viruses and on their vector, Myzus persicae (Sulz.).
19070

Field vector studies of epizootic East Coast fever. IV. The occurrence of R. evertsi, R. pravus, R. simus and R. sanguineus in the East Coast fever zones.
19212

Artificial feeding technique for Rhipicephalus appendiculatus and the transmission of Theileria parva from the salivary secretion.
19216

Nature of foci of the tick encephalitis in Altai (northeastern part).
19650

Field investigations on the ecology of tick-borne encephalitis (TBE-CEE) virus in lower Austria.
19699

Advances in plant virus research.
19804

Erwinia stewartii.
19809

Ceratocystis fimbriata.
19838

Note on damage to grasses in the Peace River region by the spittlebug, Philaronia bilineata Say, (Cercopidae: Hemiptera).
19865

Studies on the plant characters of castor associated with resistance to Empoasca flavescens (Fabr.) (Homoptera: Jassidae) with reference to selection and breeding of varieties.
19880

Investigation of the protective effect of oils on virus transmission through plant aphids.
19884

Epidemiology of aphid-transmitted plant-virus diseases.
19913

Exposure of Tribolium confusum to thio-TEPA, and its effect upon development of Hymenolepis diminuta Cysticercoids.
20046

Experiments on host selection in the Anopheles gambiae complex.
20345

Studies on the ecology of Culicoides midges--the transmitters of blue-tongue and horse-sickness.
20404

The susceptibility of Culex pipiens fatigans larvae to insecticides in Rangoon, Burma.
20419

Distribution of aster yellows virus in the vector Macrosteles fascifrons and the sequence of infection sites. (Abstract).
20429

Global events concerning mosquitoes in 1966.
20431

Eradication of Culex pipiens fatigans through cytoplasmic incompatibility.
20467

Observations on the habits and control of Culex pipiens fatigans in Guyana.
20484

Prospects for the eradication of malaria in Algeria.
20486

Summary of recent abstracts. VII. Rickettsial diseases.
20487

Tobacco leaf veins as sources of a cucumber mosaic virus for aphids.
20519

Greening virus, the likely cause of citrus dieback in India.
20533

Mycoplasma: suspected etiologic agent of corn stunt.
20535

Green rosette virus of groundnuts in South africa.
20539

The viruses in potato fields; a study about possibilities for basic seed potato growing in Slovenia and Gorski kotar. SB736.K8.
20542

Phloem necrosis associated with the greening disease of sweet orange (Citrus sinensis). (Abstract).
20561

Heat inactivation and interactions of four aster yellows virus strains in their vector, Macrosteles fascifrons (Stal).
20606

Studies on the relationship of cowpea mosaic virus and its vector Aphis craccivora Koch.
20607

Contribution on plantgalls by Oestridae.
20620

Difference in flight capacity between naturally occurring spring and summer forms of Myzus persicae (Sulz.) (Hemiptera: Aphididae).
20623

Elephant skin disease of cattle--a bushveld problem.
20674

Enhancement of infectivity of a mammalian virus preparation after injection into insects.
20797

Field vector studies of epizootic East Coast Fever VI.The occurrence of Amblyomma variegatum and A. lepidum in the East Coast Fever zones.
20800

Field vector studies of epizootic east coast fever. V. The occurrence of Boophilus decloratus in the east coast fever zones.
20801

Transmission of attenuated and virulent bluetongue virus with Culicoides variipennis infected orally via sheep.
20807

Infection of Grace's Antheraea cells with arboviruses.
21037

Genetics of insect vectors of disease. RA639.W7.
21047

Notes on breeding and endofily of mosquitos in the Shomron district, Israel.
21049

Chloroquine resistance in Plasmodium falciparum malaria on the Pacific coast of Colombia.
21050

Pesticides in the fight against arthropods which are a hazard to human health.
21051

Experimental infection of triatoma infestans and Rhodnius prolixus with Trypanosomatidae of the genera Crithidia and Blastocrithidia.
21052

Identification of host and host antibodies from mosquito blood meals.
21053

Investigations of an outbreak of Venezuelan equine encephalitis in towns of eastern Venezuela.
21056

Contract-spread of Venezuelan equine encephalomyelitis virus among cotton rats via urine or feces and the naso or oropharynx. A possible transmission cycle in nature.
21058

Russet crack; a menace to the sweetpotato industry. II. Natural transmission.
21128

Pear leaf curl virus transmitted by pear Psylla.
21131

Studies on the transmission of groundnut rosette virus by Aphis craccivora Koch.
21167

The vectors and alternative hosts of groundnut rosette virus in Central Province Malawi.
21170

Synthesis of a plant hormone by the salivary apparatus of plant-sucking Hemiptera.
21192

Tick paralysis in California livestock.
21462

Application of scanning microscopy in the study of virus transmission of aphids.
21584

Rate of movement of barley yellow dwarf virus out of inoculated cereal leaves.
21854

Preventive measures can control bunchy top.
21892

Tomato spotted wilt (tomato spotted wilt virus).
21900

Virus disease survey on citrus in Aegean region.
21909

Virus diseases of the rose.
21958

Transmission of transitory yellowing virus of rice by two leafhoppers.
21965

Red ring (Radinaphelenchus cocophilus) of the coconut tree in the zone of Tumaco (Narino).
22006

The investigation of scrub typhus in the USSR.
22108

New data on the bloodsucking midge (Diptera, Ceratopogonidae) of the coastal zone of the Maritime Territory.
22151

The pasture fly (Diptera) fauna associated with camels in south Tuva.
22154

Synanthropic Diptera of the genera Dasyphora R. D. and Morellia R. D. (Diptera,Muscidae) in Soviet Central Asia.
22157

Biological investigations on the cestode, Raillietina (R.) loeweni Bartel and Hansen, 1964.
22159

New directions in virus control in vegetable and potato cultivation.
22231

Ticks (Ixodidae) collected by Deutsche Indien-Expedition 1955-1958.
22246

Some observations on vectors and transmission of tobacco etch virus.
22495

Further studies on mosaic disease of maize (Zea mays L.).
22512

Development of a diurnal resting box to collect Culiseta melanura (COQ).
22866

Biological observations on some Phlebotomus from Rancho Grande (Venezuela). I. Description of a limited area of the cloud forest and the Phlebotomus taxonomy.
22914

Experimental mosquito-transmission of Plasmodium knowlesi to man and monkey.
23084

Summary of recent abstracts. VI. Plague. 23087

Leafhopper transmission of a virus disease of rice locally known as padi jantan in Krian, Malaysia. 23164

Aetiology of enzootic staphyloccal infection (tick pyaemia) in lambs; field investigations into the relationship between tick-borne fever and tick pyaemia. 23277

Haemorrhagic enteritis in sheep experimentally infected with tick-borne fever. 23279

Pink-eye can be painful. 23332

Modifications of the American muskrat's (Ondatra zibethica L.) parasitic fauna due to acclimatization. 23374

The method of invasion of the metacyclic larvae of Litomosoides chrnii Chandler 1931 (Filariidae). 23376

Bacteria from granary weevils collected from laboratory colonies and field infestations. 23379

INSECTARIES

Anopheles quadrimaculatus Say. In: Smith, C. N. Insect colonization and mass production. QL497.S6. 15756

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm. 16418

INSECTICIDAL AEROSOLS

Some factors affecting kill of the stable fly, Stomoxys calcitrans (L.), with insecticidal thermal aerosols. 13873

Evaluation of fenthion and Baygon mixtures for control of adult Aedes aegypt: (L.) when applied as thermal-fog. 13888

Evaluation of insecticides against four species of adult mosquitoes in the Panama Canal Zone, 1967. 14303

New insecticides as nonthermal aerosols for control of adult mosquitoes. 14322

Aerial fogging with Bay 39007 for the control of adult Aedes sollicitans (Walker) and Aedes taeniorhynchus (Wiedemann). 14323

The influence of spray programs on the fauna of apple orchards in Nova Scotia. XII. Second supplement to VII. Effects on beneficial arthropods. 14912

Studies on fine-particle, coarse-particle, and concentrated aerosols. 14948

Control of Glossina morsitans submorsitans Newst. in northern Nigeria by riverine spraying with motorized sprayers. 15819

Carcinogens in burning mosquito coil smoke. 16911

Pyrethrins-piperonyl butoxide applied as a fog in an empty grain bin. 17897

Control of mosquitoes with Dursban insecticide applied as a thermal fog. 18707

Evaluation of thermal and nonthermal fogs against four species of mosquitoes. 18714

Observations on the activity of spiders and the effect of insecticides on their populations in the citrus groves around Hagi City, Honshu, Japan. 19892

On the effect of the vapor phase of some insecticides on common house flies (Musca domestica L.). 20417

DDT-AEROSOL against Ixodes ricinus. 20489

Guide lines for the testing of spray compounds and automatic sprays against clothes moths. 20845

INSECTICIDAL PLANTS

Plant insecticides. 22809

Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields. 15985

Pest resistance in the context of integrated control. In: FAO symposium on integrated pest control, Rome, 1965. Proceedings. SB951.F62. 15993

Susceptibility to insecticides of the green rice leafhopper, Nephotettix cincticeps Uhler, collected from various localities. 15994

Cabbage maggot resistance to organochlorine insecticides. 16317

Small chamber tests of ethylene dibromide and ethylene dichloride on adult grain-infesting Coleoptera. 16382

Effect of insecticide-free rearing on the reproductive potential of organophosphorus-resistant African strains of Aedes aegypti (L.). 16402

Evidence for the DDT-INDUCED synthesis of messenger ribonucleic acid in Triatoma infestans.
16423

Resistance levels in diazinon-pressured and nonpressured polyresistant house flies.
16493

Parathion resistance in house fly populations in the Savannah, Georgia, area.
16495

A formula for determining degree of dominance in cases of monofactorial inheritance of resistance to chemicals.
16499

A resistance mechanism in organophosphorus-resistant strains of sheep blowfly (Lucilia cuprina).
16994

Effect of food on the susceptibility of Trogoderma granarium Everts (Dermestidae: Coleoptera) to insecticides.
17151

Latest research plans on the problem of cockroach resistance.
17805

Follow-up of a survey on the prevalence of homidium-resistant strains of trypanosomes in cattle in northern Nigeria and drug cross-resistance tests on the strains with Samorin and Berenil.
19192

Resistance to organochlorine insecticides in the tuber flea beetle, Epitrix tuberis Gent. (Coleoptera: Chrysomelidae), in British Columbia.
19549

Notes on the California red scale (Aonidiella aurantii Maskell) in Morocco (Hom., Coccoidea).
19592

A review of the problem of insecticide resistance in Australia.
19629

Resistance to DDT isomers in Culex pipiens fatigans.
19637

Resistance of insects to insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
19696

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of Nymphal Triatoma infestans.
19750

White-fringed weevil.
19864

The present status of control of Culex pipiens fatigans.
20314

DDT-RESISTANCE in two strains of Culex pipiens pipiens Linnaeus from New Jersey.
20355

The susceptibility of Culex pipiens fatigans larvae to insecticides in Rangoon, Burma.
20419

A new acaricide to control phosphate ester resistent spider mites through resistance--induced enhanced susceptibility.
20434

Insecticide-resistance in Culex pipiens fatigans.
20450

Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields.
21588

Developments in pest control. I. The present status of resistance. II. The future of pest control.
22363

Effect of temperature and humidity on the susceptibility of bedbugs to insecticides.
22455

Bioassay evaluation of heptachlor, isobenzan, and diazinon used against the alfalfa weevil in Northern Utah.
22523

Dieldrin-resistant cabbage root fly in England.
22984

Developments in the resistance status of the southern cattle tick to organophosphorus and carbamate insecticides.
23043

Results of tests of sensitivity to insecticides of Anopheles adults in rumania.
23085

Overseas experts are working at Lincoln,New Zealand, on insecticide resistance in mites.
23177

A progress report on insecticide resistance in the fly complex...of California poultry ranches.
23355

Methyl parathion resistance in a laboratory strain of the bollworm.
23445

INSECTICIDE SYNERGISTS

Synergism of malathion against the northern fowl mite.
14238

Selective synergism of carbamate insecticides on houseflies by aryloxyalkylamines.
14759

The effects of various anesthetics on the action of DDT on Anopheles larvae.
18716

The statistico-physiological consideration on the estimation of synergistic action of insecticides applied jointly.
20368

INSECTICIDES

The effect of certain insecticides on the entomogenous fungi Beauveria bassiana and Metarhizium anisopliae.
13743

Systemic insecticides for control of oriental rat fleas: bait tests with hooded white rats.
13778

Effect of post-treatment temperature on toxicity of insecticides to resistant and susceptible house flies.
13784

Results of 1966 NPCA-SPONSORED research at VPI on cockroach control.
13794

Metabolism of insecticides by Culex pipiens quinquefasciatus. i. in vivo metabolism of DDT by larvae.
13810

Structure of organophosphorus compounds in relation to control of the southern chinch bug.
13813

An evaluation of baits for cockroaches.
13829

Aerial application of insecticides for control of alfalfa weevil.
13834

Reduction of corn virus disease incidence and control of southwestern corn borer with systemic insecticides.
13893

Systemic insecticides for control of oriental rat fleas. tests in guinea pigs.
13910

Control of the tarnished plant bug on cotton with several insecticides.
13911

Evaluation of experimental insecticides for control of hornworms on tobacco.
13914

Chemical control of chrysantemum leaf miner and some observations on varietal preference.
13915

Alternatives to DDT for the control of the pea moth on dry harvesting peas.
13917

Evaluation of systemic insecticides incorporated in the soil for control of lepidopterous larvae of cole crops in southern California.
13931

Insecticides for control of the cattle tick and the southern cattle tick on cattle.
13978

Initial soil penetration by insecticide emulsions used for subterranean termite control.
13988

Laboratory evaluation of promising systemic insecticides in guinea pigs against oriental rat fleas.
14000

Repulsion of green sunfish by certain chemicals.
14003

A unit for formulating granular insecticides.
14018

Outbreaks of two-spotted spider-mites and cotton aphids following pesticide treatment. i. pest stimulation vs natural enemy destruction as the cause of outbreaks.
14155

Warble fly larvae control study.
14166

Louisiana lab takes intensive look at parasites for mosquito control.
14170

The influence of three insecticides on predation of the pear psylla, Psylla pyricola.
14230

House-fly adenosinetriphosphatases and their inhibition by insecticidal organotin compounds.
14243

Relative toxicity of some insecticides to the hairy caterpillar, Diacrisia obliqua (Arctidae: Lepidoptera).
14277

ULV aerial insecticide application for adult mosquito control in Kentucky.
14318

Effectiveness of some new insecticides on various types of surfaces and in clay-lined experimental huts against Anopheles quadrimaculatus.
14319

Control of mosquito adults and larvae with ultra-low volume aerial applications of Baygon and Baygon-Baytex mixture.
14326

Simulated field evaluation of promising insecticides for use against Aedes aegypti.
14328

Effect of insecticidal sprays on stunt and mosaic virus diseases of corn in small field plots in Mississippi.
14403

Garden pests and diseases; a guide to recognition and control. sB603.5.H4.
14438

Toxicity of some insecticides to larvae of codling moth after they enter apples.
14439

Control of the aphid Amophorophora agathonica in raspberry nursery stock.
14449

Notice of filing of petition for food additives.
14608

Care and maintenance of the one-gallon stainless steel sprayer.
14790

Inhibition of housefly acetylcholinesterase by carbamates.
14891

La lutte chimique contre les insects nuisibles. (chemical control of insect pests). ed. 3.
14906

Insecticidal and natualistic control chironomid larvae in Lake Dalwigk, Vallejo, California.
14919

Simple screening test for systemic aphicides.
14921

Soil treatments with insecticides for control of the eye gnats Hippelates collusor and H. hermsi.
14977

A preliminary report on a potential new mosquito control weapon.
14982

1967 insecticide recommendations; peach insect control (commercial).
15225

Soil treatments with broadcast or band applications of organophosphorous or carbamate insecticides for prevention of wireworm damage to potatoes.
15227

Investigations on Dursban insecticide. metabolism of O,O-diethyl 0-3,5,6-trichloro-2-pyridyl phosphorothioate and 3,5,6-trichloro-2-pyridinol in plants.
15582

Toxicologic effects of a phosphorothioic acid insecticide in sheep.
15609

Toxicologic effects of a phosphorothioic acid insecticide in cattle.
15610

Analysis of Dursban in livestock dips and sprays.
15658

Pesticides' unsung assistants.
15663

Methods of destroying insects with nitro-substituted salicylanilides. Patent 3,385,756.
15755

Combatting insects with O-(2-lower alkyl-quinolyl-(8))Nmethyl carbamates. Patent 3,384,538.
15763

The susceptibility to insecticides of populations of Aedes aegypti from Queensland, Australia.
15765

Metabolism of 14C-labelled insecticides in microorganisms, insects and mammals.
15778

Synergistic alpha-naphthyl N-methylcarbamate insecticide admixed with meta-acetylphenyl or meta-propionylphenyl N-methyl carbamate. Patent 3,384,539.
15794

Toxicity of insecticides to stable flies.
15796

Inheritance of resistance to organophosphorus acaricides in the cattle tick, Boophilus microplus.
15815

Evaluation of insecticides against Aedes aegypti (L.) and Culex pipiens quinquefasciatus Say (Diptera: Culicidae) in Bangkok, Thailand.
15847

Field evaluation of insecticides for control of the alfalfa weevil in Maryland, 1962-66.
15975

Integrated control of forest pests. in: FAO symposium on integrated pest control, Rome, 1965. Proceedings SB951.F62.
15978

Testing of different pesticides as contact poisons against the adults of Myzus persicae Sulz (Homoptera: Aphididae).
15988

Old house borer, Purdue:s Formosan termite study, and dry rot reporting are discussed in Philadelphia.
16107

Naturally occurring insect control chemicals. Isoboldine, a feeding inhibitor, and cocculolidine, an insecticide in the leaves of Cocculus trilobus DC.
16234

A note on the isolation of pyrethrosin from pyrethrum marc.
16248

European red mite and two-spotted spider mite control on apple trees.
16358

Rice water weevil resistance to aldrin in Texas.
16366

Effect of insecticide-free rearing on the reproductive potential of organophosphorus-resistant African strains of Aedes aegypti (L.).
16402

Biology of the corn earworm and control with insecticides and virus in Washington.
16407

Insecticidal 2-halo- and 2,4-dihaloalkylphenyl carbamate compositions and method for controlling insects. Patent 3,402,245.
16417

Insecticides for control of the lone star tick tested in the laboratory and as high-and ultra-low-volume sprays in wooded areas.
16434

The metabolism of carbaryl (1-naphthyl-N-methylcarbamate) by the fat body of the blowfly larva Calliphora erythrocephala.
16440

Aspects concerning the mode of action of insecticide.
16443

Flight height, droplet size, and moisture influence on grasshopper control achieved with malathion applied aerially at ULV.
16455

Some physiological effects of sublethal doses of DDT on flour beetles.
16462

Evaluation of insecticides for control of pickleworm on summer squash.
16472

Influence of repellency on the efficacy of blatticides. II. Laboratory experiments with German cockroaches.
16492

Recent advances in techniques for tsetse fly control: With special reference to northern Nigeria.
16506

The present and the future of plant protection.
16531

New results on the control of the millet caterpillar, Laphygma frugiperda.
16701

An evaluation of Bidrin for control of Scolytus multistriatus, the primary vector of Ceratocystis ulmi.
16709

The use of organochlorine insecticides and possible alternatives against leatherjackets.
16715

Extermination of cattle grubs (Hypoderma spp.) on a regional basis.
16799

A systematic insecticide for control of the face fly, Musca autumnalis.
16865

Controlling short-nosed cattle lice with dichlorvos resin strips.
16868

Drift of water-diluted and undiluted formulations of malathion and azinphosmethyl applied by airplane.
16902

Effect of substrate temperature on emergence and growth of seedling cotton following in-furrow applications of Temik (10 0 G formulation of union carbide UC-21149).
16922

2,6-Substituted cyclohexanones as insecticides, miticides, fungicides, nematocides and herbicides. Patent 3,389,986.
16948

A rapid procedure for the identification of organochlorine pesticides in blood and tissues.
16950

Insecticidal tertiary alcohols. Patent 3,402,209.
16953

M-alkylphenyl N-chloroacetyl-N-methylcarbamates and their use as pesticides. Patent 3,402,246.
16955

Metal salts of phosphorus acids and process. Patent 3,401,185.
16962

Extraction of organochlorine and organophosphate insecticides from lake waters.
16964

On histopathology and histochemistry of insecticide-treated insects. I-Non-specific phosphatases in the midgut and caeca of pyrethrins treated Periplaneta americana L.
17055

Variation in toxicity of Malthion when applied to certain body regions of Schistocerca gregaria (Forsk.).
17068

Insecticides in dry sugar baits against two strains of house flies.
17072

Mode of action of organic thiocyanates as insecticides and carbamate synergists.
17073

Insect pests of cotton. VII. Evaluation studies on insecticides.
17086

Field evaluation of insecticides for control of the alfalfa weevil in Maryland, 1962-66.
17091

The influence of repellency on the efficacy of blatticides. III. Field experiments with German cockroaches with notes on three other species.
17102

Insect oxidases and detoxication of carbamate insecticides.
17103

Resistance patterns and fecundity of house flies (Musca domestica L.) selected with diazinon, dimetilan, and combinations of the two insecticides.
17105

Low volume airplane sprays for the control of mosquitoes.
17113

Larch sawfly suppression with malathion LV(R) concentrate.
17120

Analysis of insecticidal action of diazinon granules against green rice leafhoppers. Transl. 16910.
17147

Control methods for insects and diseases by spraying of insecticides. Transl. 16909.
17149

Effect of food on the susceptibility of Trogoderma granarium Everts (Dermestidae: Coleoptera) to insecticides.
17151

Biology and control of the onion thrips in India.
17152

Degradation of insecticides by esterases of the American cockroach.
17160

Carbamate cross resistance in a carbaryl-resistant strain of the German cockroach.
17162

Mosquito control agents derived from petroleum hydrocarbons. II. Laboratory evaluation of a new petroleum derivative, FLIT MLO.
17164

Effects of several insecticides on black rice bug. Transl. 16917.
17173

Relative toxicity of insecticides to adult Locusta migratoria Linnaeus.
17187

Lacquers containing dieldrin, malathion, or diazinon as controls for German cockroach.
17202

Relative toxicity of some insecticides as contact poisons to the larvae of Earias fabia Stoll.
17210

Trans-aldrin glycol as a metabolite of dieldrin in larvae of the southern house mosquito.
17211

Some aspects of mosquito control in California.
17220

Effect of insecticides and insecticide treated cockroach blood on the heart beat of Periplaneta americana L.
17237

Genetics of insect vectors of disease. RA639.W7.
17246

INSECTICIDES

Toxicity of Petkolin against cotton aphids (Hemiptera: Aphididae). 17370

A comparison of season-long cotton-pest-control programs in California during 1966. 17378

Emergence and damage of white-back planthoppers and brown planthoppers, and damage-preventing measures. Transl. 16598. 17388

A comparison of predator populations in cotton under different control programs in Mississippi. 17389

Effectiveness and persistence of low dosages of azinphosmethyl for control of the codling moth. 17392

Effect of autumn insecticide application on the control of the green rice leafhopper of the last generation. Transl. 16918. 17394

Percentage of Viruliferous leafhoppers collected from rice fields affected with yellow dwarf. (Cont.) Transl. 16916. 17401

Integrated control. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17402

Studies on the optimum concentration of spray liquid of Dipterex for small rice leaf miner control. Transl. 16728. 17404

Greenhouse experiments with baits for control of the black cutworm. 17451

Respiration of bovine spermatozoa in the presence of alphamethylbenzyl 3-(dimethoxyphosphinyloxy)-cis-crotonate (Ciodrin) in various concentrate mixtures. (Abstract). 17537

Insect pests in food stores. 17623

Influence of various persistent chlorinated insecticides on the macro and micro element constituents of Zea mays and Phaseolus vulgaris growing in soil containing various amounts of these materials. 17633

The photodecomposition of dieldrin residues in water. 17635

Exposure to insecticides in Quebec. 17636

Tolerances and exemptions from tolerances for pesticides chemicals in or on raw agricultural commodities. Demeton. 17640

Notice of filing of petition regarding pesticide chemicals. 17641

Notice of filing of petition regarding pesticide chemicals. 17642

Notice of amended filing of petition regarding pesticides. 17643

Imidan insecticide residues (imidan and imidoxon): Their persistence in corn, grass, and soybeans. 17645

The development of analytical methods for the determination of chlorinated hydrocarbon insecticides in soils and waters. 17647

Gas chromatographic analysis of malathion in water and in fish. 17648

A laboratory and field investigation of adjuvants to increase the residual toxicity of dichlorvos, mevinphos and malathion to Mexican bean beetle and southern armyworm larvae. 17666

Efficacy of some insecticides for treating cereals. 17678

The distribution of houseflies in a simulated dining room after knockdown by aerosols containing pyrethrins and aerosols containing D. D. V. P. 17705

Subterranean termite studies in southern Ontario. 17747

Organothiocyanates as insecticides and carbamate synergists. 17785

Selective recovery of volatile products from house flies treated with radioactive insecticide chemicals and synergists. 17796

Influence of repellency on the efficacy of blatticides. IV. Comparison of four cockroach species. 17814

Field tests of chemicals for control of the European corn borer. 17831

Pesticides and pollution. SB959.U4. 17863

Comparison of application rates of some soil insecticides for control of western corn rootworm larvae in Missouri. 17866

Ethylene oxide for the control of American foulbrood in honey bees. 17881

Comparative life histories of chlordane-resistant and nonresistant German cockroaches. 17901

Evaluation of systemic fungicides and insecticides for the control of cotton boll rot in vitro. (Abstract). 17943

Systematic insecticide seed treatment tests on soybeans. bowling, c c. 18082

Control of the birch leaf minor with disulfoton. 18086

Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana. 18090

Tests with insecticides for the control of resistant Myzus persicae (Sulzer) on year-round chrysanthemums. 18095

The use of menazon seed dressing to decrease spread of virus yellows in sugar-beet root crops. 18098

Attempts at combatting oystershell scale, Lepidosaphes ulmi (L.),on appletrees in orchards of Quebec. 18109

The tolerance of imported commodities to fumigation with methyl bromide. 18112

Control of mustard aphid (Lipaphis erysimi Kalt.) by systemic insecticides. 18115

Chemical control of the sunflower moth on sunflowers. 18123

Control of the elm leaf beetle in Arizona. 18128

Effect of organo-Phosphorus insecticides on the warm blooded animals and cure thereof. 18193

Further evaluation of animal systemic insecticides, 1967. 18347

Horn fly control with coumaphos. 18349

Degradation of diazinon by synergistic microbial action. 18384

The effect of environmental and biological factors on the persistence of malathion applied in low volume technical and emulsifiable concentrate forms to cotton plants. 18386

Effects on groudwater. Municipal sources. 18390

Insecticide residues in pest control. 18401

Note on the determination of carbaryl residues in hen skin. 18406

Experiments concerning the influence of insecticides on arthropod populations. 18578

Pest infestation research 1967. 423.92 G792. 18579

Enforcing insecticide-content water quality standards. 18597

Stabilized insecticidal phosphorodithioates in powders of substantially iron-free kieselguhr with low volatile solvent oils. Patent 3,390,048. 18598

The effect of actidione (Cycloheximide) on the adults of Dacus oleae (Dipter: Tephritidae). 18605

North Carolina insecticide report for january 1-december 31, 1967. 18649

Chemical insect control handbook. SB951.W3. 18693

Studies on the persistence and effects on soil fauna of some soil-applied systemic insecticides. 18695

Ultra-low volume and conventional aerial sprays for control of adult salt-marsh mosquitoes, Aedes sollicitans (Walker) and Aedes taeniorhynchus (Wiedemann), in Florida. 18709

Potato. Seed piece decay, Rhizoctonia solan. 18725

The effect of four organophosphorous insecticides on coccinellids and chrysopids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18759

A simple technique for evaluating systemic fungicides and insecticides for control of cotton boll rot. 18770

Study on the insecticidal resistance on rice stem borers (Chilo suppressalis Walker). 18771

Sour cherry. Cherry leaf spot, Coccomyces hiemalis. 18816

Apple. Scab, mildew, mites; Venturia inaequalis, Podosphaera leucotricha, Panonychus ulmi, and Tetranychus telarius. 18864

Potato. Late blight, Phytophthora infestans. 18927

Tomato. Bacterial spot, Xanthomonas vesicatoria. 18967

A report on forests, pests, and pesticides. Report, May 11, 1967. SB761.B4. 19008

The pickleworm; its control on cucurbits in Alabama. 19009

Possible new approach to the chemical control of plant feeding insects. 19017

On the combined application of insecticides, iron chelates and urea in fruit orchards. 19024

The present possibilities and prospects of integrated control of Aphis fabae Scop. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19027

Entomology department. 19031

The prospect of the use of insecticides based on carbamic acid. 19037

Insecticidal laboratory studies on sisal weevil (Scyphophorus interstitialis Gyll., Curculionidae, Coleoptera). III. Systemic insecticides applied to soil. 19043

The action of Sevin on codling moth eggs. 19044

Insecticides and fungicides department. 19060

Cabbage insects; how to control them in the home garden. 19089

The breakdown of 14-C-chlorfenvinphos in soils and in. 19239

Pesticides containing phosphorus paste intended for use in or around the home. Notice of proposed interpretation 26 under federal insecticide, fungicide, and rodenticide act. 19244

Danger of chlorinated hydrocarbon insecticides in bird's eggs. 19248

Report of the pesticide residues committee. SB951.N36. 19249

Methods of producing pesticidal compositions containing pecan shell flour as a carrier and a product therefrom. Patent 3,376,191. 19323

Composition and methods for controlling insect, mite and nematode pests with O-ethyl-S-(N'-methoxy-N'-methylacetamide)-N-isopropylthiophosphoramide. Patent 3,390,047. 19324

On the compatibility of oranophosphorus insecticides with fungicides. 19325

That spray material bill. 19327

Public health pesticides. 19535

Method of production and technical equipment for insecticide application. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19599

Insect control and chemistry. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19601

The affect of insecticides on insects. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19616

Resistance to DDT isomers in Culex pipiens fatigans. 19637

Update on USDA research for control of adult mosquitoes. 19657

Electrophysiological action of carbamate insecticides in the central nervous system of the American cockroach. 19668

Inspection and control techniques for the pasture mosquito, Aedes nigronaculis. 19677

Chemistry of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19682

Use of insecticides for pest control. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19695

Resistance of insects to insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19696

Temperature coefficient of insect susceptibility to insecticides. 19700

Anticholinesterase action of some organophosphorus insecticides on the central nervous system of Musca domestica. 19701

Studies on the course of the internal body temperature and transpiration of Blaberus discoidalis Sv. after poisoning with Thiodan. 19719

Effect of insecticides and insecticide treated cockroach blood on the heart beat of Periplaneta americana L. 19734

The Utah Community pesticide study. 19754

Contact and fumigant toxicity of oils, surfactants, and insecticides to two aphid and three beetle species. 19757

Current status of parathion resistance in Utah. 19758

The affect of insecticides on microorganisms. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19822

Insecticides and pest control. 19898

Science probing deep and wide to combat menace of grassgrub. 19899

An evaluation of methods for preventing termite damage to buildings. 19907

Effectiveness of the systemic insecticide oxydemetonmethyl applied in liquid fertilizer for green peach aphid control on chrysanthemum. 19910

Systemic phosphorous insecticides. A new method to study the uptake and translocation in plants. 19911

Use of insecticides in wood protection. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19937

Use of insecticides in veterinary medicine. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20020

The injurious effect of insecticides on plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20080

Protection against poison when close to insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20086

Toxicity of insecticides to fish. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20087

Toxicity of insecticides to warm blooded animals. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20088

Precautions of working closely with insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20092

Toxicological testing of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20093

Remedy and treatment for insecticide poisoning. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20094

Pharmacological affect of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20095

Legal determination for protection of men and domestic animals against exposure to insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20096

Injury to fauna through insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20099

Physiological effects of malathion on the house sparrow, Passer domesticus L.. 20102

Effect of nicotine sulphate on the performance and carcass quality of growing pigs. 20106

Phytotoxic characteristics of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20112

Secondary affects of insecticides on plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20113

Designation of modified certified brucellosis areas, public stockyards, specifically approved stockyards, and slaughtering establishments. Modified certified areas. 16055

Texas (splenetic) fever in cattle. Restrictions on interstate movement of cattle, other animals and certain materials from, Guam. 16056

Designation of modified certified brucellosis areas, public stockyards, specifically approved stockyards, and slaughtering establishments. 16057

Scabies in cattle. Revocation of quarantine. 16067

Formosan subterranean termite. Notice of withdrawal of proposed quarantine. 16104

INTESTINAL ABSORPTION

Studies on the absorption of 75 Selenium in chicks. (Abstract). 17515

The absorption of zinc and oleic acid from digestive tracts parasitized in the ileum, ceca, and colon. (Abstract). 17582

Intestinal malabsorption of D-glucose in mice infected with Trichinella spiralis. 17610

Calcium and magnesium absorption in the young calf following induced parasitism, Ostertagia spp. (Abstract). 17621

INTESTINES

Electron microscopy of the stripted border of the midgut cells of Javesella pellucida (F.) (Homoptera, Delphacidae). 13715

Site of viral RNA synthesis within the midgut cells of the silkworm, Bombyx mori, infected with cytoplasmicpolyhedrosis virus. 13857

Intestinal protozoan infections in dogs. 13949

Dissolution of the toxic parasporal crystals from Bacillus thuringiensis var pacificus by the gut secretions of the silkworm, Bombyx mori. 14185

Ribosome aggregates of the midgut of silkworm, Bombyx mori L. 14195

The effects of hormones on the intestinal proteinase activity of adult Pyrrhocoris apterus L. (Hemiptera). 14203

Four cases of canine intestinal carcinoma. 14500

A survey of intestinal helminths in dogs from Albuquerque New Mexico. 14593

Viability, development, and rate of passage of the pathogenic bacterium, Bacillus larvae White, in the hemolymph and alimentary canal of the adult honey bee, Apis mellifera L. 16479

The life cycle of Trichinella spiralis. I. Intestinal phase of development. 16509

Oedema disease in pigs. 16758

Malabsorption in Johne's disease of cattle: depressed in vitro amino-acid uptake by isolated intestinal tissue preparations. 16833

A study of the ultrastructure of the intestinal epithelial cells of piglets infected with a transmissible gastroenteritis virus. 16854

Studies on the absorption and metabolism of D-(u-14C) glucose by Polymorphus minutus (Acanthocephala) in vitro. 16873

Active transport by the cecropia midgut. III. Midgut potential generated directly by active K-transport. 17121

Active transport by the cecropia midgut. V. Loss of potassium transport during larval-pupal transformation. 17122

Active transport by the cecropia midgut. IV. Specificity of the transport mechanism for potassium. 17175

Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease. 17182

Intestinal electrolyte distribution and Ca45 and Sr89 insorption in calves. 17561

Immunity to Eimeria brunetti and Eimeria maxima infections in the fowl. 17570

Accumulation of glycine in the fat body of the silkworm, Bombyx mori L. 17803

Clostridium perfringens type A infection of ligated intestinal loops in lambs. 18255

Parasitism of the intestinal cells of Galleria mellonella L. by the densonucleosis virus. 19651

Modification of the intestinal flora of calves with milk treated with oxytetracycline. 19979

Fine structure of the intestine of the nematodes. Ancylostoma caninum and Phocanema decipiens. 20026

Experiments with pyrantel tartrate in the treatment of gastro-intestinal parasitosis in goats. 20037

The Rictularia (Nematoda: Spiruridae), and oximena (Nematoda: Oxyuridea) from the intestines of foxes in Spanish provinces. 20055

Some ultrastructural features of the intestinal epithelium of Ascaris lumbricoides var. suum. 21229

Enterohepatic circulation of 3H-vitamin A metabolites in sheep. (Abstract). 21242

Serologic detection of a virus of transmissible gastroenteritis of swine and determination of its nucleic acid type. 21322

Intestinal microflora of the larvae of St. Mark's fly. III. Computer analysis of the intestinal actinomycetes-flora of various larval populations. 23056

Intestinal microflora of the larvae of St. Mark's fly. II. Computer analysis of intestinal actinomycetes from the larvae of a bibio-population. 23057

Haemorrhagic enteritis in sheep experimentally infected with tick-borne fever. 23279

Escherichia coli in ligated segments of pig intestine. 23292

A study of the bacteria present in the proximal and distal small intestine of cattle. 23317

A study of the occurrence of secondary bacterial infections in store pigs affected with hog cholera with particular reference to intestinal bacteria. 23331

New host records of intestinal nematodes of Maryland rodents and suppression of Capillaria bonnevillei Grundmann and Frandsen, 1960 as a synonym of C. americana Read 1949. 23367

INTRAMUSCULAR VACCINATION

Revaccination of chickens against Newcastle disease by vent, wing-web, and intramuscular routes. 15495

INVERTASE

Saccharase activity of Sclerotium rolfsii in soil and the mechanism of antagonistic action by Trichoderma viride. 19296

Invertase in the hypopharyngeal glands of the honeybee. 21026

Occurrence and nature of invertase activity in adult blackflies (Simuliidae). 21036

Effect of Trichoderma viride on saccharase activity and growth of Sclerotium rolfsii in mixed soil culture. (Abstract). 22224

INVERTEBRATES

Macroinvertebrates. Fresh water. 18402

D-lactate specific pyridine nucleotide lactate dehydrogenase in animals. 20653

Transmission in invertebrate and vertebrate ganglia. 20662

The soil macrofauna and organochlorine insecticide residues at twelve agricultural sites near Huntingdon. 21513

The reliability of a method of sampling stream invertebrates. 21670

IODIDES

Method of controlling fungi with sulfonium iodides. Patent 3,402,248. 16930

IODINE

The iodine content of bulk herd milk in summer in relation to estimated dietary iodine intake of cows. 14493

Action of aqueous iodine on ova of Ascaris lumbricoides an Ascaris suum. 16716

Notice of filing of petition for food additive calcium periodate. 19146

The Aleutian disease in minks- plasmocytosis. III. 21440

IODINE ISOTOPES

Iodine uptake by ova of hens given excess iodine and effect upon ova development. 14534

Parasitic hypoalbuminaemia: Studies on type II ostertagiasis of cattle. 17603

Iodine-131 concentrations in Australian milk resulting from the 1967 French nuclear weapon tests in Polynesia. 19241

Immunoglobulin binding by the miracidia of Fasciola hepatica. 23370

IODOACETATE

Respiratory and enzymatic studies with Verticillium alboatrum from cotton. 22219

ION EXCHANGE

A comparative study of cell wall glycopeptide structure of some bovine vibrios. 18247

Low temperature irradiation applied to neutron activation analysis of mercury in human whole blood. 18484

ION EXCHANGE RESINS

Stimulation of hatching of the potato-root eelworm Heterodera rostochiensis by ion exchange resins. 15254

DDT in humans and animals; determination of DDA in urine using an ion exchange resin. 15555

Stimulation of hatching of the potato-root eelworm Heterodera rostochiensis by ion exchange resins. 21469

IONIZATION

Effect of ionizing radiation on Dacus zonatus fruit fly eggs and larvae in situ. 21184

Fine-structural changes in relation to ion and water transport in the rectal papillae of the blowfly, Calliphora. 21487

IONIZATION CHAMBERS

Gas chromatographic determination of residues of organophosphorus pesticides with a modified flame ionization detector. 15561

IONIZING RADIATION

Ionizing irradiation of foot-and-mouth disease virus and its ribonucleic acid. 18309

IONIZING RADIATION SCATTERING

Some early effects of ionizing radiation on the German cockroach, Blatella germanica. 14175

IONS

Studies on the adsorption of arsenites by a few typical Indian soils. 13994

Accumulation of sodium and calcium by seedlings of some cereal crops under saline conditions. 14007

Macerating action of extracts of Rhizopus-rotted sweetpotatoes as affected by ions. (Abstract). 15951

Factors affecting protein synthesis by the fat body of the larva of the blowfly Calliphora erythrocephala. 16441

Ion uptake of sweet potato roots infected by the black rot fungus. 16519

Active transport by the cecropia midgut. III. Midgut potential generated directly by active K-transport. 17121

Active transport by the cecropia midgut. V. Loss of potassium transport during larval-pupal transformation. 17122

Active transport by the cecropia midgut. IV. Specificity of the transport mechanism for potassium. 17175

Microorganisms and the inorganic nutrition of higher plants. 17248

Permeability and excitation of insect muscle. 17896

Oxalate metabolism in sheep and its effect on the anion-cation balance. 18188

Influence of micro-organisms on the distribution in roots of phosphate labelled with phosphorus-32. 18424

Wetting ability of cationic surface-active agents and their control of oat powdery mildew. 18953

The influence of cation competition, time, and temperature on the uptake of streptomycin by foliage. 19274

Research on the toxicity of thallium ions on the egg of Oursin Paracentrotus lividus. 20100

Uptake and transport of systemic fungicides and bactericides. 20889

The effect of aqueous solutions of some 1:1 electrolytes on the electrical response of the type I ('salt') chemoreceptor cell in the labella of Phormia. 21018

IOXYNIL

Ioxynili its effect on wheat yield and weed populations. 20633

The inhibition of photoreactions of chloroplasts by ioxynil,. 20896

Ioxynil: Its effect on wheat yield and weed populations. 21220

IPC

Metabolism of 'propham' (isopropyl N-phenylcarbamate) in the rat. 19245

IPHITA LIMBATA

Influence of corpus allatum on reproduction of female Iphita limbata Stal (Hemiptera). 13839

IPS

Observations on the effect of nematodes on Ips confusus (LeConte) and other bark beetles. 14928

Bark beetle aggregation: Effects of feeding on the release of pheromones in Dendroctonus and Ips. 18692

Stridulation and behavior in two southeastern Ips bark beetles (Coleoptera: Scolytidae). 19524

Observations on host selection by Tomicobia tibialis Ashmead (Hymenoptera: Pteromalidae). 23032

IPS BONANSEAI

The biology and ecology of Dendroctonus valens Flec., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleopterai Scolytidae). 15165

IPS CALLIGRAPHUS

Two semiartificial oviposition media for the smaller European elm bark beetle. 13792

The life history of Ips calligraphus (Coleoptera: Scolytidae) with notes on its biology in California. 13863

IPS CRIBRICOLLIS

The biology and ecology of Dendroctonus valens Flec., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleopterai Scolytidae). 15165

IPS PINI

The pine engraver, Ips pini (Coleoptera: Scolytidae), in the southern Appalachian Mountains. 16282

IPS SEXDENTATUS
Research on the attractiveness of various conifers in regard to Ips sexdentatus. 19579

IRIDESCENT VIRUS
Stability of Chilo iridescent virus. 14234
Stability of Chilo iridescent virus. 21707

IRIDOMYRMEX HUMILIS
Food distribution within colonies of the Argentine ant, Iridomyrmex humilis (Mayr). 17859

IRON
Increased susceptibility to bacterial endotoxin of pigs with iron-deficiency anemia. 13965
Stimulation by 2,4-D and 2,4-D plus Fe EDTA of 32P uptake by bean seedlings (Phaseolus vulgaris). 16573
Metabolic and environmental factors affecting absorption and translocation of 2,4,5-trichlorophenoxyacetic acid in winged elm. 16940
The effect of dietary Mg and F on bone calcification in chicks. (Abstract). 17574
Variability in hematological response of chicks fed ironcopper deficient skim milk diet. (Abstract). 17586
Biochemical relationships in chlorotic leaves of macadamia (Macadamia tetraphylla L. Johnson) under conditions of iron and manganese deficiency. 17688
Effects of nitrogen and potassium on the iron metabolism of greenhouse-grown apple trees. 17714
The influence of various rates of iron, boron, zinc, molybdenum and copper on symptoms of virus necrosis of vine. 18968
On the combined application of insecticides, iron chelates and urea in fruit orchards. 19024
The use of a biochemical indicator for diagnosing micronotrient deficiencies of grapefruit trees under field conditions. 20514
Iron injection and ham acceptability. 20784
Concentration of liver iron in calves and response to dietary iron and desferrioxamine. 20786
Influence of dietary iron on steer performance. (Abstract). 21292
Anomalous growth response of bean plants in iron-deficient media to cyanide. 21532
Variation in response to iron nutrition among some corn inbreds. (Abstract). 21891
Micronutrient effects on the in vitro growth and pathogenicity of Fusarium oxysporum f. sp. lycopersici. 21956
Stimulation by 2,4-D and 2,4-D plus Fe EDTA of 32P uptake by bean seedlings (Phaseolus vulgaris). 22208

IRON COMPOUNDS
Iron compounds and plant nutrition. 17328

IRON ISOTOPES
The use of Fe 59 for studying haemorrhage due to Eimeria tenella in chickens. 16035
Testing the effectivity of coccidiostatics by using radio Iron-59 for the quantitative estimation of blood in the caeca and feces of chickens. 16842

IRON SULFATES
Effects of manganese and iron application on their solubility, absorption and growth of oat plants. 20912

IRRADIATION
Prospects of integrated microbial and radiation control of harmful insects. 14210
Effect of gamma irradiation on the growth rate of species of Bacillus cereus Group. 14261
Somatic aberrations in Solanum tuberosum induced by ethyl methane sulfonate and X-irradiation. 16936
Urate accumulation and life span in two species of Habrobracon. 17201
A study of radiation-induced dominant lethals and translocations in Drosophila virilis in an oxygen atmosphere at 4 C. 17235
Diploidization of induced tetraploid hybrids of Dactylis glomerata by means of X-ray irradiation. 17254
Some effects of gamma radiation on the tobacco budworm Heliothis virescens (Fabricius). 17818
Gamma-ray-induced mutations in Drosophila melanogaster oocytes: The phenomenon of dose rate. 17904
Mortality staging of dominant lethals induced in the F1 generation of sugarcane borer; Diatraea saccharalis (F.). 18127
Avirulent mutant of a strain of ornithosis agent obtained by gamma irradiation. 18195
Does the agent of scrapie replicate without nucleic acid. 18205
Anaplasma marginale-infectivity in splenectomized and radiated rabbits. 18210
Food intake and growth of burro foals after 250 roentgens of cobalt-60 whole-body gamma irradiation. 18271
Response of lymphocyte-depleted calves to fluid tetanus toxoid. 18293
Red light induction of gibberellin synthesis in leaves. 18468
Low temperature irradiation applied to neutron activation analysis of mercury in human whole blood. 18484
X-ray induction of autosomal translocations in mature oocytes of Drosophila melanogaster. 18689
Some viewpoints on the phylogeny of rust fungi. IV. Biogenic radiation. 18863
Effects of ultraviolet radiation on the establishment of Erysiphe graminis f. sp. tritici on wheat. 18889
Effect of radiation intensity and quality on sporulation by Helminthosporium dictyoides. (Abstract). 19310
Evidence for radioresistance of the germinal structures of Leptinotarsa decemilineata Say.. 19554
Clonal analysis of determination dynamics in cultures of imaginal disks in Drosophila melanogaster. 19774
A note on translocation-trisomic plant from gamma-irradiated barley. 19814
Radiation-sensitive and radiation-resistant mutants of Haemophilus influenzae. 19945
Immunogenic effect of ultraviolet treated larvae of Nippostrongylus brasiliensis in rats. 19975
Formation of silk proteins by the silkworm, Bombyx mori, after gamma-ray irradiation in the embryonic stage. 20425
Studies on the fixation and development of cellular transformation by Rous sarcoma virus. 20904
Evaluation of lettuce varieties and breeding lines for resistance to common lettuce mosaic. 21154
Development of goats irradiated from conception. (Abstract). 21240
Injury accumulation and recovery in sheep during protracted gamma irradiation. 21275
Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Determination of optimal irradiation. 21356
Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Resistance to re-exposure with homologous and heterologous Moraxella bovis. 21357
Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Correlation of hemolytic ability and pathogenicity. 21418
Significance of the time factor in the irradiation of imago insects (experiments on granary weevils). 21667
Nuclear and spindle damage during embryonic segmentation, processes, yolk absorption, serosa and blastoderm nucleus in total X-ray irradiated eggs of Kalotermes flavicollis Fabr. (Isoptera). 21747
Investigation of sterilizing doses for Ephestia kunniella L. in irradiation in various stages of development. 21755
Dormancy of onion sets as influenced by irradiation, gibberellin and temperature treatments. (Abstract). 21782
Increased reversion of an apple sport following X irradiation and pruning, (Abstract). 21795
The mechanism of lymphopenia produced by chronic irradiation of the rat spleen. 22083
The effects of experimental microascaridic infections by Ascaris suum in guinea pigs subjected to total body X- irradiation LD 50/30. 22761
Active immunity against Trichostrongylus axei in sheep and rabbits. 22774
The effect of X-irradiation on male meiosis in Schistocerca gregaria (Forskal). I. Chiasma frequency response. 23083
Increased resistance to tobacco mosaic virus in gamma irradiated tobacco leaves. 23135

IRRIGATION
Effect of leaf rust on yield of some stem rust resistant wheats of Maharashtra. 14400
Effect of irrigation method and frequency on development of Phytophthora infestans on potatoes under arid conditions. 15166

Soil fumigation by injection and irrigation for the control of nematodes on hops. 15261

Effect of incorpration and method of irrigation on preemergence herbicide. 15279

Effect of irrigation and submersion in water on pupal survival of the bollworm. 16483

Bean (snap). Root rot, Rhizoctonia solani. 18945

Bean (snap). Bacterial blight, Pseudomonas syringae. 18975

Cucumber. Angular leaf spot, Pseudomonas lachrymans. 18976

Potato. Early blight, Alternaria solani. 18977

Habitat manipulation for wildlife and mosquito control. 19680

Leaf blade folding and motor cells of some blue grasses. 21075

Studies on irrigation for herbage grass. II. On the efficiency of water use by orchard grass and ladino clover. 21078

Okra production. 21227

Effects of covering materials and incorporated herbicides on lettuce stands under three irrigation treatments. 21230

Control of Orobanche under natural and artificially infested conditions. 22583

Effect of 2,4-D on crop weed competition in wheat. 22606

Effects of air pollutants on lemons and navel oranges. 23108

Effect of application rates of disulfoton and phorate, and of irrigation on aphid control and residues in canning peas. 23182

ISCHNURA CERVULA
Regeneration of appendages in damselflies. 19688

ISCHNURA PERPARVA
Regeneration of appendages in damselflies. 19688

ISOBENZAN
Bioassay evaluation of heptachlor, isobenzan, and diazinon used against the alfalfa weevil in Northern Utah. 22523

Compatibility studies on Bacillus thuringiensis Berlinar with chlorinated hydrocarbons. 23157

ISOBOLDINE
Naturally occurring insect control chemicals. Isoboldine, a feeding inhibitor, and cocculolidine, an insecticide in the leaves of Cocculus trilobus DC. 16234

ISOCIL
Control of the toxic plant, Corona, by means of residual and hormonal herbicides. 19981

ISOCITRATE DEHYDROGENASE
Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae. 16321

ISOCYANATES
Benzimidazole ureas. Patent 3,399,212. 21555

ISOFLAVONE
An isoflavone-deficient mutant in Trifolium subterraneum induced by ethyl methanesulphonate. 13866

ISOLEUCINE
Dietary amino acid requirements of the aphid, Myzus persicae. 16375

Some aspects of isolevcine metabolism in the yellow fever mosquito, Aedes aegypti (L.). 17891

ISOMERISM
Effects of isomers of DDD on thyroid and adrenal function in rats. 15607

A convenient synthesis of mixed isomers of juvenile hormone. 17083

ISOMERS
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 1-methoxycarbonyl-1-propen-2-yl dimethylphosphate and its beta isomer. 13996

Food additives permitted in food for human consumption. 1-methoxycarbonyl-1-propen-2-yl dimethylphosphate and its beta isomer. 13997

Preparation of the photoisomers of aldrin and dieldrin. 14789

ISOMETRUS MACULATUS
Parturition in the scorpion Isometrus maculatus De Geer (Buthidae). 14247

ISOMIRA
A revision of the Mexican and Central American species of Isomira (Coleoptera: Alleculidae). 16275

ISONIAZID
Isoniazid for control of tuberculosis in a deer herd. 20008

The hydrazide of isonicotinic acid in preventing and treatment of tuberculosis in minks. 21368

ISOPODA
Segmentation and organogenesis in Limnoria lignorum (Rathke) (Isopoda). 16460

ISOPROPOXYPHENYL METHYLCARBAMATE, O
Evaluation of fenthion and Baygon mixtures for control of adult Aedes aegypt: (L.) when applied as thermal-fog. 13888

Insecticide resistance of German cockroaches from various areas of Louisiana. 14158

ULV aerial insecticide application for adult mosquito control in Kentucky. 14318

Aerial fogging with Bay 39007 for the control of adult Aedes sollicitans (Walker) and Aedes taeniorhynchus (Wiedemann). 14323

Control of mosquito adults and larvae with ultra-low volume aerial applications of Baygon and Baygon-Baytex mixture. 14326

Evaluation of thermal and nonthermal fogs against four species of mosquitoes. 18714

European pine sawfly control with aircraft application of concentrate insecticidal sprays. 23213

ISOPROPYL N-(3-CHLOROPHENYL) CARBAMATE
Detoxification of some herbicides by Streptomyces. 14464

ISOPROPYL N-(3-CHLOROPHENYL)CARBAMATE
Notice of filing of petition regarding pesticides. 14716

The effects of petroleum mulch and herbicides on lettuce. 22554

Herbicide combinations. 22614

Effect of several herbicides on the proteolytic activity in squash. 22804

ISOPROPYL-3-METHYLPYRAZOL-5-YL DIMETHYLCARBAMATE, 1-
Persistence of two systemic carbamate insecticides in three types of soils. 15541

ISOPROPYLPHENYL N-CHLOROACETYL-N-METHYLCARBAMATE, M
M-alkylphenyl N-chloroacetyl-N-methylcarbamates and their use as pesticides. Patent 3,402,246. 16955

ISOPTERA
Nuclear and spindle damage during embryonic segmentation, processes, yolk absorption, serosa and blastoderm nucleus in total X-ray irradiated eggs of Kalotermes flavicollis Fabr. (Isoptera). 21747

ISOTHIAZOLECARBOXYLATES
Fungicidal and bactericidal compositions and methods employing isothiazolecarboxylates. Patent 3,403,209. 16945

ISOTHIOCYANATES
A glucosinolase system in the aphid Brevicoryne brassicae. 19665

Antifungal activity of isothiocyanates and related compounds III. Derivatives of diphenyl, stilbene, azobenzene, and several polycondensed aromatic hydrocarbons. 22235

ISOTOPES
Translocation to and accumulation of phosphorus-32 in sclerotia of Sclerotium rolfsii. 16938

Effects of a potassium deficiency on calcification of bone in chicks. 17479

Food intake and growth of burro foals after 250 roentgens of cobalt-60 whole-body gamma irradiation. 18271

Studies on the fungitoxicity of captan. VI. Decomposition of 35S-labelled captan by Neurospora crassa conidia. 18469

Weed seed labelling with rare earth elements. In: isotopes in weed research; proceedings of a symposium Vienna 25-29 October 1965. S589. S9. 19122

Carbon-14 milk constituents from cows fed carbamate labeled with carbon-14 on the carbonyl. 19173

A simple method for combusting tissues for chlorine-C136 analysis. (Abstracted from Analyt. Biochem. 17(1):24-37. 1966). 20913

Concentration and purification of newcastle disease virus. 21397

Studies on the application to cattle of the low-toxicity 32P-labeled phosphonic acid ester butonate. 21457

Stimulation by 2,4-D and 2,4-D plus Fe EDTA of 32P uptake by bean seedlings (Phaseolus vulgaris). 22208

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on intermediary metabolism of 14C-labelled organic acids by pea root tips. 22215

Sites of incorporation of tritium uridine in the parenchyma cells of healthy leaves and leaves infected with yellow mosaic turnip virus, of Brassica chinesis. 22813

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. I. Studies with 14CO2, quinate-U-14C, and shikimate-U-14C as precursors. 23429

ISRAEL
Occurrence of two bacterial diseases on new hosts in Israel.
15209

Bacterial spot disease of tomatoes and peppers in Israel.
15210

ITALY
The larva of Duvalius lepinensis (Coleoptera, Carabidae).
19749

ITERSONILIA PASTINACAE
The survival in soil of Itersonilia pastinacae Channon, the cause of parsnip canker.
14412

IXODES
Nature of foci of the tick encephalitis in Altai (northeastern part).
19650

IXODES DENDROLAGI
Ixodes dendrolagi (Metastigmata, Ixodidae), a new species of tick from tree kangaroos (Marsupialia, Macropodidae) in New Guinea.
14135

IXODES RICINUS
The temperature-humidity-relationship in the activity of the common wood tick.
16867

To the methods of studying the environmental temperature of the tick Ixodes ricinus L.
16974

Immunological strain differences of bovine tick-borne fever agents.
19208

The effect of dipping on tick infestation in young lambs.
19213

Field investigations on the ecology of tick-borne encephalitis (TBE-CEE) virus in lower Austria.
19699

DDT-AEROSOL against Ixodes ricinus.
20489

The summer and autumn daily activity of common wood ticks in the woods of Jezirko near Brno.
20805

Larval diapause in the tick Ixodes ricinus L. and its dependence on external conditions. IV. Interaction between exogenous and endogenous factors in the regulation of larval diapause.
21655

To the methods of studying the environmental temperature of the tick Ixodes ricinus L.
22381

IXODES TRIANGULICEPS
A tick new to Ireland- Ixodes (Exopalpiger) trianguliceps Birula, 1895.
19215

IXODIDAE
Boophilus kohlsi Hoogstraal and Kaiser 1960 (Acarina: Ixodidae). life cycle and morphology of larva.
14073

Ixodes dendrolagi (Metastigmata, Ixodidae), a new species of tick from tree kangaroos (Marsupialia, Macropodidae) in New Guinea.
14135

Studies on Southeast Asian Haemaphysalis ticks (Ixodoidea: Ixodidae). h. (Kaiseriana) Luzonensis sp. n. from Philippine deer and boars.
14200

Development of Rickettsia prowazeki in certain species of ixodid ticks.
14305

The ixodid ticks of Tanzania. a study of the zoogeography of the Ixodidae of an east African country. qL458.a2Y2.
14848

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 5. A. (P.) zumpti, new species, a parasite of the South African Cape vulture.
19415

Some avian ectoparasites in New England.
19421

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical formes to vermicules.
19606

Observations on the behavior of the blue tick, Boophilus decoloratus (Koch) (Acarina: Ixodidae).
19615

Dermacentor andersoni in national forest recreation sites of Utah.
20357

DDT-AEROSOL against Ixodes ricinus.
20489

Field vector studies of epizootic East Coast Fever VI.The occurrence of Amblyomma variegatum and A. lepidum in the East Coast Fever zones.
20800

Field vector studies of epizootic east coast fever. V. The occurrence of Boophilus decloratus in the east coast fever zones.
20801

Insect tormentors of livestock: III. Fleas and ticks.
22149

IXODIDES
Ectoparasites of Canadian birds and mammals.
14584

Acaricida tests on the biarra strain of organophosphorus resistant cattle tick Boophilus microplus from southern Queensland.
15506

Inheritance of resistance to organophosphorus acaricides in the cattle tick, Boophilus microplus.
15815

Brain cholinesterase activity and its inheritance in cattle tick (Boophilus microplus) strains resistant and susceptible to organophosphorus acaricides.
15816

An association between serum amylase phenotype and tick infestation in cattle.
16090

Critical list of Central European tick species.
16290

Comparative fine structure of sclerotized and unsclerotized integument of the rabbit tick, Haemaphysalis leporipalustris (Acari: Ixodides: Ixodidae).
16324

The distribution of Dermacentor ticks in Canada in relation to bioclimatic zones.
16350

The serological differentiation of viruses in the tick-borne encephalitis subgroup by the gel-diffusion method.
16502

To the methods of studying the environmental temperature of the tick Ixodes ricinus L.
16974

Tick infestation of livestock in Natal. I. The predilection sites and seasonal variations of cattle ticks.
17596

Simple field and laboratory method for recovering living ticks (Ixodoidea) from hosts.
17733

On the distribution of Ixodes angustus Neum.(Ixodidae).
17768

The infection of Boophilus microplus with Babesia bigemina.
17795

Tick resistance in cattle: its stability and correlation with various genetic characteristics.
18348

Resistance of cattle to the tick Boophilus microplus (Canestrini). II. Stages of the life cycle of the parasite against which resistance is manifest.
18351

Cytogenetics of Ticks. 4. Chromosomes of Argas (Persicargas) zumpti.
19464

Ticks (Ixodoidea) of Mt. Sontra, Danang, Republic of Vietnam.
19628

Summary of recent abstracts. VII. Rickettsial diseases.
20487

Genetics of insect vectors of disease. RA639.W7.
21047

Ticks (Ixodidae) collected by Deutsche Indien-Expedition 1955-1958.
22246

Ticks (Ixodoidea) of domestic animals in Iraq; spring and early summer infestations in the Liwas of Baghdad, Kut, Amara, and Basra.
22755

Radiolabeling of tick progeny by inoculation of procreant females.
23048

Aetiology of enzootic staphyloccal infection (tick pyaemia) in lambs; field investigations into the relationship between tick-borne fever and tick pyaemia.
23277

Haemorrhagic enteritis in sheep experimentally infected with tick-borne fever.
23279

IXODOIDEA
Biology and ecology of ticks (Ixodoidea) from the Ivory Coast.
14144

Simple field and laboratory method for recovering living ticks (Ixodoidea) from hosts.
17733

JAAGZIEKTE
Pneumonia of sheep in Kenya. I. Bacterial and parasitic pneumonia.
16855

Pneumonia of sheep in Kenya. II. Pathology of chronic progressive pneumonia.
18338

JAMESONIA
Jamesonia, a new genus (Acarina: Myobiidae) with seven new species from Cuban bats.
22864

JAPANESE B ENCEPHALITIS
Studies of live attenuated Japanese encephalitis vaccine in swine.
22107

JAPANESE B ENCEPHALITIS VIRUS
Serum neutralization test with Western Equine Encephalitis (WEE) and Japanese Encephalitis-(JE) viruses using the Agar Cover Slip (ACS) inoculation technique.
16089

A simple method for the serum neutralization with Japanese encephalitis (JE) virus utilizing plaque inhibition by agar-diffused antibody.
17523

Effect of endogenous interferon and Actinomycin D on growth of Japanese encephalitis virus in chick embryo cells.
17593

The experimental production of a formalin-killed Japanese encephalitis virus vaccine from porcine kidney cell cultures.
18260

Field trial of Japanese encephalitis vaccine for the prevention of viral stillbirth among pigs in Shizuoka Prefecture in 1964.
20722

New data on the bloodsucking midge (Diptera, Ceratopogonidae) of the coastal zone of the Maritime Territory.
22151

JAPONOTHYAS
Two new species of Thyasidae (Acarina) from Nikko National Park Japan.
17752

JASMINUM
Studies on biology of banmalika leaf minor (Agropistis limatus, Moth., Coleoptera, Halticidae.) A serious pest of banmalika (Jasminum aquestifolium, Vohl.) in Rajasthan.
21982

JAUNDICE
Sporidesmin poisoning in the sheep. II. A comparison of some changes in clinical signs and serum constituents following sporidesmin poisoning and experimental obstruction of the common bile duct.
17658

Sporidesmin poisoning in the sheep. I. Changes in bile secretion and the excretion of sporidesmin in bile.
17659

JAVESELLA PELLUCIDA
Electron microscopy of the stripted border of the midgut cells of Javesella pellucida (F.) (Homoptera, Delphacidae).
13715

Bionomics, enemies and population dynamics of Javesella pellucida (F.) (Hom., Delphacidae).
17875

JOHNE'S DISEASE
The effect of management on the incidence of clinical Johne's disease.
14529

Cattle destroyed because of brucellosis (Bang:s disease), tuberculosis, or paratuberculosis.
16044

Cattle destroyed because of brucellosis (Bang:s disease), tuberculosis, or paratuberculosis. Payment of indemnity claims.
16076

Malabsorption in Johne's disease of cattle: depressed in vitro amino-acid uptake by isolated intestinal tissue preparations.
16833

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: serologic and intradermal tests.
17546

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of dehydrogenase activities.
17547

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of hydrolase activities.
17548

An electrophoretic study of serum glycoproteins in clinical Johne's disease of cattle.
19199

Johne's disease in cattle and vaccination against this disease.
20716

Detection of antibodies to Mycobacterium johnei by immunofluorescence.
21346

Comparison of examination and test methods for early detection of paratuberculosis cattle.
21393

Experimental paratuberculosis in sheep after oral, intratracheal; or intravenous inoculation: Histochemical localization of dehydrogenase activities.
21394

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities.
21395

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculations Serologic and intradermal tests.
21396

Vaccination against Johne's disease and the creation of carriers.
22077

JOINT DISEASES
Polyarthritis in a dog.
16028

JOINTS
Localization and description of stretch receptors at the level of the tibio-femoral joint of the jumping leg of the cricket, Schistocerca gregaria.
21672

JUGLANS
Pests of walnut trees.
19004

JUGLANS NIGRA
Cylindrocladium root rot of black walnut. (Abstract).
21848

JUNIPERUS
The life cycle of Trisetacus kirghisorum V. Shev. (Acarina, Tetrapodili)--the pests of Juniperus semiglobosa Rgl.
20567

On the two Megastigmus species (Hym., Torymidae) of the juniper seed (Juniperus communis L.).
21985

The biology of Choristoneura houstonana (Lepidoptera: Tortricidae), a pest of Juniperus species.
22988

JUNIPERUS MONOSPERMA
Effect of an Aphelenchoides species on the growth of a mycorrhizal and a pseudomycorrhizal fungus.
16000

JUTE
Relative toxicity of some insecticides to the hairy caterpillar, Diacrisia obliqua (Arctidae: Lepidoptera).
14277

A. V. C. Agreport. 3.
15858

Field test of laboratory results in selecting seed dressing fungicides against seed-borne diseases of jute (Corchorus capsularis L.).
21887

Fungicides can check black band of jute.
21922

Aerial spraying boosts jute output.
22486

JUVABIONE
Synthesis of ( )-juvabione (methyl ( )-todomatuate), a sesquiterpene ester with juvenile hormone activity.
20131

KADANG-KADANG (COCONUTS)
Intracellular inclusions observed in epidermal strips from foliage of cadang-cadang infected coconut trees in the Philippines.
15156

Anatomic effects of cadang-cadang disease on coconuts.
17940

KALA-AZAR
Canine visceral leishmaniasis in Iran.
20771

KALE
Soil testing for club root in Devon and Cornwall.
13900

Acetonitrile dilution: a possible source of error in the rapid method for chlorinated pesticide residues in nonfatty foods.
15577

Development of downy mildew resistant broccoli, cabbage, and collards. (Abstract).
21821

Emergence of parasites associated with the cabbage aphid during a chemical-control program.
22400

KANAMYCIN
Absorption, distribution and excretion of Kanamycin in animals.
20098

Synthetic studies on carbohydrate antibiotics. Part IX. Synthesis of kanamycin A and related compounds.
21553

KANGAROOS
Ixodes dendrolagi (Metastigmata, Ixodidae), a new species of tick from tree kangaroos (Marsupialia, Macropodidae) in New Guinea.
14135

KAOLINITE
Microbial decomposition of diquat adsorbed on montmorillonite and kaolinite clays.
16117

KENTUCKY
Control of the sod webworms Crambus teterrellus, C. trisectus, and C. mutabilis, in Kentucky.
13939

KERATITIS
Bovine keratitis due to avitaminosis A in young stock.
19177

Keratocontunctivitis produced by Moraxella bovis in laboratory animals.
19200

KERATOCONJUNCTIVITIS
Keratocontunctivitis produced by Moraxella bovis in laboratory animals.
19200

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Determination of optimal irradiation.
21356

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Resistance to re-exposure with homologous and heterologous Moraxella bovis.
21357

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Correlation of hemolytic ability and pathogenicity.
21418

Observations on the occurence of Thelazia or eyeworm infection of cattle in northern South Wales.
21482

Keratoconjunctivitis produced by Moraxella bovis in laboratory animals.
22127

KEROSINE
Ovicidal activity of aliphatic amines and petroleum oil against two species of mosquitoes.
13883

KETONE BODIES
The in vitro effect of ketone bodies on the growth curves of mastitis organisms in milk.
23348

KETONES
The growth of various filamentous fungi and yeasts on n-alkanes and ketones. I. Studies on substrate specificity.
14776

KETOSIS
Metabolic changes in liver associated with spontaneous ketosis and starvation in cows.
20304

Milk production response to feeding methionine hydroxy analog to lactating dairy cows.
20651

Ration evaluation and ketosis prevention.
20696

Clinical-diagnostical liver examinations in acetonemia (ketosis) of cattle.
21423

Influence of Haemonchosis on nutritionally induced ketosis in sheep.
22160

KEWOCHTHONIUS
Redescription of the type species of the pseudoscorpion genus Kewochthonius Chamberlin.
17044

KIDNEY BEANS
Absorption, translocation and metabolism of 14C labelled dichlobenil. In: isotopes in weed research; proceedings of a symposium, Vienna, 25-29 October 1965. S589.S9.
16222

Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus.
16607

Accumulation of phenols in resistant plant-fungus interactions.
17280

The nucleic acids of crown-gall tumors from pinto bean leaves and their significance to crown-gall tumor induction by Agrobacterium tumefaciens.
17318

Growth responses of pinto bean and alfalfa to sublethal fluoride concentrations.
17709

Studies on the effects of Hg(II) and sucrose on the mechanical transmission of tobacco mosaic virus ribonucleic acid to pinto bean (Phaseolus vulgaris L.).
18011

Influence of nitrogen nutrition on Fusarium root rot of pinto bean and on its suppression by barley straw.
18028

Alterations in the auxin levels of resistant and susceptible hosts induced by the curly top virus.
18066

A physiologic-genetic study of the differential response of navy beans (Phaseolus vulgaris L.) to zinc.
18466

Auxin-induced elimination of a protein in bean hypocotyl.
18470

Metabolism of amitrole (3-amino-1,2,4-triazole) in relation to the differential susceptibility of Cirsium arvense (L.) scop. ecotypes.
18474

Differing efficiences of potassium utilization in strains of snapbeans, Phaseolus vulgaris L.
18937

Formation of large necrotic lesions by sublethal physical and chemical treatments of Pinto bean primary leaves infected with tobacco mosaic virus (TMV). (Abstract).
18990

Inhibition of tobacco necrosis virus by guanide carbonate.
20578

The influence of indol-3yl acetic acid and sugar on the pattern of induced differentiation in plant tissue culture.
21076

Production of auxin by detached leaves.
21091

Anomalous growth response of bean plants in iron-deficient media to cyanide.
21532

Foliar penetration of naphthaleneacetic acid. (Abstract).
21779

Quantitative measurements of interactions between crown-gall tumors and the pinto bean host.
21845

KIDNEYS

Precipitating antibodies associated with Marek's disease.
16759

Detection of antibodies neutralizing the virus of infectious bovine rhinotracheitis in the serum of French cattle.
16782

Pathologic physiology and chemotherapy of Plasmodium berghei. III. Renal function in rats infected with Plasmodium berghei.
16801

Ultrastructural changes in dog kidney in infectious canine hepatitis. (Abstract).
17512

Recovery of canine distemper virus from subcultured primary dog kidney cell culture.
17518

Characterization of receptors and lysosomes of cells susceptible to infectious bronchitis virus.
17538

Studies on transmissible gastroenteritis virus of pigs.
17591

Renal effects of carbon tetrachloride in the cat.
17592

Characterization studies on feline panleucopenia virus. (with). II. Pathogenesis in the host.
18233

Mineral and endocrine interrelationships in renal calcification.
18292

Changes in protein and nucleic acid metabolism in baby hamster kidney cells infected with foot-and-mouth disease virus.
18308

Eight feline viruses: An electron microscopic study.
18324

Effect of environmental conditions on formation and release of canine herpesvirus in infected canine kidney cells.
19141

Observations on inclusion bodies in pig kidney tissue culture cells infected with porcine adenoviruses.
19170

Immunization against equine viral arteritis using modified live virus propagated in cell cultures of rabbit kidney.
19172

Vasopressins and the increase of water and electrolyte excretion by sheep, cattle, and camels.
19188

Infectious bovine rhinotracagitis: correlation of fetal and placental lesions with viral isolations.
19196

A study of the heterogeneous 37s ribonucleic acid induced by foot-and-mouth-disease virus.
19210

Method for recovery of viruses from milk and milk products.
20661

A new cell line of calf kidney and its susceptibility to viruses.
20724

Propagation of ICH virus in swine-lung tissue culture. patent 3,399,113.
21321

Activity of sorbitol dehydrogenase (S.D.) in the serum of sheep and cattle with liver damage.
21341

Chemotherapy of renal leptospirosis in swine.
21438

A survey of cattle sera from Kenya and Uganda for antibodies to bovine virus diarrhoea virus.
21444

Electron microscopic studies on vesicular exanthema of swine virus: Intracytoplasmic viral crystal formation in cultured pig kidney cells.
21454

On the specific mechanism of the transmission of leptospiral infection.
22105

Chemically characterized media for study of foot-and-mouth disease virus in baby hamster kidney cells.
22126

KINASES

Studies on insect (Periplaneta americana L.) phosphofructokinase.
17827

Pantothenic acid metabolism during avian malaria infection: Pantothenate kinase activity in duck erythrocytes and in Plasmodium lophurae.
22630

KINETICS

Kinetics of quinone inactivation of Tulare apple mosaic virus.
15914

Some responses of flying Aedes aegypti to visual stimuli.
16481

The kinetics of the hemolysin of Newcastle disease virus.
17507

Calcium inhibition of potassium absorption in corn roots.
17686

Far-red sensitive dark processes essential for light- and gibberellin-induced germination of lettuce seed.
17699

Some stochastic models for microorganism death kinetics.
17718

Quantitative studies on the kinetics of establishment and expulsion of intestinal nematode populations in susceptible and immune hosts. Nippostrongylus brasiliensis in the rat.
18364

Estimation of radiation resistance values of microorganisms in food products.
18383

Anaerobic processes. Microbiology and mechanism.
18405

Germination of Phytophthora zoospores: Kinetics of encystment and cell wall differentiation. (Abstract).
18960

Specific interference among strains of Newcastle disease virus. II. Comparison of interference by active and inactive virus.
19158

Kinetics of cellular and viral DNA synthesis in equine abortion (herpes) virus infection of L-M cells.
19194

Kinetic study of the sorption of 2.4-D on some clays.
19319

Bactericidal action of fresh rabbit blood agianst Brucella abortus.
19973

Value of ED50 testing in assessing hazards of acute poisoning by carbamates and organophosphates. (abstract).
20883

KINETIN

Role of virus strains and leaf ontogeny in the production of mosaic patterns by turnip yellow mosaic virus.
15869

Ultrastructure of chloroplasts in Albugo- and kinetininduced green islands on Brassica juncea. (Abstract).
15878

Accumulation of glycine in the fat body of the silkworm, Bombyx mori L.
17803

Cytokinin effect of benzyladenine: Increase of nucleic acid and protein synthesis in bean leaves.
18048

Interaction of growth regulators in the senescence of nasturtium leaf disks.
18426

An effect of kinetin on the translocation of 14C-labelled photosynthate in citrus.
19280

Interaction of abscisin-II with some growth regulating substances.
20109

The influence of growth regulators on protein and enzyme spectra of explants from roots of Cichorium intybus cultured in vitro.
20888

Effects of kinetin, IAA, and gibberellin on ethylene production, and their interactions in growth of seedlings.
20893

Studies on plant growth-regulating substances. XXIV. Factors influencing kinetin-induced phosphorus mobilization in detached radish cotyledonary leaves.
21059

The effects of kinetin in overcoming high-temperature inhibition of lettuce seed germination. (Abstract).
21803

KING PENGUINS
Isolation of an anaerobic vibrio from a king penguin (Aptenodytes longirostris).
15368

KININS
Relationship between the molecular structure of cytokinins and victorin activity. (Abstract).
15904

The inhibition of brussels sprout leaf senescence by kinins.
23416

KLEPTOCHTHONIUS CROSBYI
Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States.
17036

KLEPTOCHTHONIUS MULTISPINOSUS
Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States.
17036

KURON
Control of Hawaiian jungle with aerially applied herbicide.
19125

KYASANUR FOREST DISEASE
Ticks (Ixodidae) collected by Deutsche Indien-Expedition 1955-1958.
22246

KYNURENINE
Allele specific patterns of suppression of the vermilion locus in Drosophila melanogaster.
20475

LABELING
Intracellular labeling of TMV antigen with ferritin-antibody conjugate.
15177

WACA discussions cover 'silent spring'.
15570

Pesticides containing sodium arsenite and arsenic trioxide compounds intended for use by homeowner. Notice of proposed interpretation under federal insecticide, fungicide, and rodenticide act.
16195

Vital dyes as markers for behavioral and population studies of the larch sawfly, Pristiphora erichsonii (Hymenoptera: Tenthredinidae).
16398

Marking tobacco hornworm moths for night recovery with a blacklight lamp.
16998

A red dye to evaluate bait formulations and to mass mark field populations of boll weevils.
17856

A possible marker for european corn borer moths.
17882

Techniques of marking insects with micronized fluorescent dust with especial emphasis on marking millions of Lygus hesperus for dispersal studies.
17886

Viruses, serums, toxins, and analogous products. Labels.
19155

Pesticides containing phosphorus paste intended for use in or around the home. Notice of proposed interpretation 26 under federal insecticide, fungicide, and rodenticide act.
19244

A simple method for marking parasitic helminth in animals.
20027

Tagging aphids.
22319

Where do we stand on safe use of pesticides.
22845

LABORATORIES
Critical application of logistic principle on the laboratory population of Anthrenus flavipes Lec.
14856

Scrapic agent in blood.
16773

A review of some helminths of laboratory animals.
16878

A sprayer with semi-automatic gradual dilution.
16905

Experiments on simultaneous infections of the common cockchafer, Melolontha melolontha.
16985

Control of the greater and lesser wax moths (Galleria mellonella and Achroia grisella) with Bacillus thuringiensis.
17085

Some recent changes in the approach to studies of climatic effects on insect populations.
17125

The tactics of a predator.
17127

The host-finding behavior of the hen flea, Ceratophyllus gallinae (Schrank) (Siphonaptera).
17130

The differing effectiveness of purified and nonpurified suspensions of the nuclear-polyhedrosis virus of Porthetria dispar.
17159

Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease.
17182

Large scale granular parathion pre-treatment of a duck club area in the Colusa mosquito abatement district.
17219

Insect abundance: Prospect.
17222

Laboratory studies with the mosquito iridescent virus (MIV).
17224

Five years' experience maintaining colonies of Pediculus humanus in the laboratory.
17245

Disinfection, sterilization, and preservation. RA761.L3.
17263

Dutch elm disease found in South Dakota.
17329

Resistance of barley (Hordeum vulgare L. Emend. Lam.) to cereal leaf beetle (Oulema melanopus L.).
17379

The distribution of rice stem borer in the rice stubbles, with special reference to the possibility of its dispersion from the frame for dessicating reaped rice plants. Transl. 16893.
17396

Intra-specific mechanisms with special reference to aphid populations.
17407

Treatment of seeds of the common pine tree with fungicides. Transl. 16706.
17624

Acquired immunity to Fasciola hepatica in the laboratory white mouse.
17627

Pyrethum as an insect repellent. II. A laboratory technique for its evaluation as a mosquito repellent, and the influence of formulation on persistence.
17720

Spider populations in grain sorghums.
17784

Notes on microanalytical techniques in the analysis of foods for extraneous materials.
17792

Commonwealth Institute of biological control-Indian Station.
17923

The effect of disinfection on cereal seeds determined in laboratory experiments and emergence tests in soil.
17924

Conditions for infection of celery by Septoria apiicola.
18059

Anthocoris melanocerus as a predator of the green peach aphid on sugar beets and broccoli.
18121

Clinical aspects of toxic infections by anaerobic germ spores in ruminants.
18229

Newcastle disease: A legal interpretation.
18245

Agricultural (livestock) wastes.
18404

Studies on the laboratory soiling of milking equipment.
18409

Laboratory tests of fungicides against Peronospora parasitica (Pers. ex. Fr.) Fr.
18433

A new wide-spectrum coccidiostat.
18499

Coloration of the desert locust (Schistocerca gregaria Forskal) reared in isolation.
18618

Flight behaviour of the African migratory locust (Locusta migratoria migratorioides R. and F.).
18647

Some improved methods for keeping ant nests in the laboratory.
18657

Aeronautic behavior in the genus Pardosa (Araneae, Lycosidae).
18663

The natural history of Monomorium pharaonis (L.) (Hym., Formicidae) infesting houses in Nigeria.
18683

A simple technique for evaluating systemic fungicides and insecticides for control of cotton boll rot.
18770

Study on the insecticidal resistance on rice stem borers (Chilo suppressalis Walker).
18771

Penicillium and Botrytis rot of mcintosh apples in water.
18783

Soybean. Seed decays and seedling diseases; seed and soil borne fungi.
18823

Apple. Apple scab, Venturia inaequalis.
19014

The host-parasite relations and ecology of Trichodorus viruliferus on apple roots, as observed from an underground laboratory.
19108

Study of pesticides in shellfish and estuarine areas of Louisiana. SH153.S8.
19144

Field and laboratory studies of the effect of urea on ascospore production of Venturia inaequalis (Cke.) Wint.
19263

Field and laboratory trials on the fungicidal and biological side-effects of plant protectants used in viticulture.
19282

Ticks (Ixodoidea) of Mt. Sontra, Danang, Republic of Vietnam.
19628

Regeneration of appendages in damselflies.
19688

The Utah Community pesticide study.
19754

Consumption by several common arthropod predators of eggs and larvae of two Heliothis species that attack cotton.
19886

Equipment for insecticide laboratories and insect breeding to test insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
20142

Preliminary report on olfactory neurons specific to the sex pheromone of the American cockroach.
20291

Environmental factors limiting the productivity and size of experimental populations of Drosophila serrata and D. birchii.
20301

The mechanical breakdown of hardwood in the laboratory by Popilius disjunctus (Coleoptera: Passalidae).
20416

Feeding through root surfaces of rutabaga by Hylemya brassicae (Diptera: Anthomyiidae).
20437

Susceptibility of mink to Clostridium botulinum type C toxin.
20663

Carcinogenic action of groundnut meal containing aflatoxin in rats.
20868

The pesticides program activities of the public health service.
20940

Booby-trapping as an alternative to sterile males for insect control.
21033

Experimental infection of triatoma infestans and Rhodnius prolixus with Trypanosomatidae of the genera Crithidia and Blastocrithidia.
21052

Studies on the survival of Mycosphaerella pinodes and Ascochyta pisi.
21116

Phosphorus deficiency decreases stomatal activity and water use of plants.
21166

Design and evaluation of equipment for basal application of systemic insecticides to control cotton plants.
21198

Heritable resistance to warfarin in rats.
21234

Separation of rodent pellets from corn kernels by washing.
21235

The comparative histochemistry of some hydrolytic and oxidative enzymes in the livers of several domestic and laboratory animals.
21255

Local immunity in the mammary gland following the infusion of a staphylococcal cell-toxoid vaccine.
21281

Modification of a strain of mouse-adapted scrapie by passage through rats.
21283

Experimental reproduction of canine interstitial nephritis.
21311

The clinical features of guttural pouch mycosis in the horse.
21325

Experimental Trichophyton verrucosum infections in laboratory animals.
21327

Clinical pathologic features of acute aflatoxicosis of swine.
21328

Observations on experimental acute fascioliasis in sheep.
21422

Clinical-diagnostical liver examinations in acetonemia (ketosis) of cattle.
21423

Distribution of trifluralin in the soil when mixed with disk harrow and power rotary cultivator.
21565

Cockroach insecticides. How repellent are they.
21589

The effects of high temperatures on greenbug, Schizaphisgraminum, reproduction.
21675

A waxed-paper laboratory cage for sterilization studies with the Oriental fruit moth, Grapholitha molesta (Busck) (Lepidoptera: Torticidae).
21682

Are Hylemya cilicrura and Hylemya liturata two separate species.
21704

Studies on the feeding behavior of green rice leafhopper, Nephotettix cinticeps Uhler. II. Probing frequency of the adult leafhopper.
21711

Laboratory studies on interspecies trail following and trail preference of army ants (Dorylinae).
21751

The need for international testing centers for crop pests and pathogens.
21806

Vaccination against Johne's disease and the creation of carriers.
22077

The isolation and recognition of viruses.
22093

Chemically characterized media for study of foot-and-mouth disease virus in baby hamster kidney cells.
22126

Pesticides in water. Amitrole concentrations in creek waters downstream from an aerially sprayed watershed sub-basin.
22241

Organizing agricultural research to assist developing countries.
22242

St. Louis encephalitis in Mcleansboro, Illinois, 1964.
22248

Progress report on laboratory rearing of black flies (Diptera: Simuliidae).
22391

Carbamate herbicides; new tools for cytological studies.
23106

Experimental use of chlordane in fishery management.
23250

Slobbers in laboratory guinea-pigs as a form of chronic fluorosis.
23294

Tissue culture method for toxigenicity testing of Corynebacterium diphtheriae.
23383

Laboratory studies on the acute contact and oral toxicities of insecticides to honeybees.
23399

Species interactions of growth inhibitors in native plants of Northern Arizona.
23422

LABORATORY ANIMALS

The pathology of Fasciola hepathica infection in pigs: a comparison of the infection in pigs and other hosts.
14601

Effect of naturally occurring highly mineralized water on the growth of laboratory animals.
15305

Oxyuriasis in laboratory mouse colonies.
15386

Toxicologic effects of a phosphorothioic acid insecticide in sheep.
15609

Bed bugs. In: Smith,C.N. Insect colonization and mass production. QL497.S6.

Laboratory differences between the WS strain of influenza A virus and its neurotropic variants. 22092

Keratoconjunctivitis produced by Moraxella bovis in laboratory animals. 22127

Vervet monkey disease: Experimental infection of guineapigs and monkeys with the causative agent. 22136

Tumour metabolic inhibition of serum from partially hepatectomized rats as a specific lack of compensation mechanisms in tumour cells. 22141

Laboratory and field trials with a new raticide selective toxic for rats. 22199

Comparative potency tests on modified live-virus rabies vaccine produced from Flury high egg-passage virus grown on permanent dog kidney cell line. 22634

Experimental pasteurellosis: Comparative studies on Pasteurella multocida from Asia, Africa, and North America. 22666

Studies on staphylococcosis in chickens. II. Pathogenicity of staphylococcus aureus of chicken origin for various experimental animals. 22681

Reactions of sheep to cell-culture-modified foot-and-mouth disease virus. 22723

Microbiological studies of two Nocardia strains. 23309

Immunization of laboratory animals with the soil nematode Rhabditis axei (Cobbold 1884) against subsequent invasion by Ascaris suum (Goeze 1782). 23360

LAC

On the nomenclature of some insects related to lac. 18573

Marketing of lac in India. 280.39 in2. 21066

LACCIFER LACCA

Spermiogenesis in Laccifer lacca (Kerr) (LacciferidaeCoccoidea). 17255

LACTASE

D-lactate specific pyridine nucleotide lactate dehydrogenase in animals. 20653

LACTATE DEHYDROGENASE

Studies to determine neutralizing antibody in sera from swine recovered from african swine fever. (abstract). 17502

LACTATION

Effects of oxytocin administered during the dry period on the suceeding lactation. 13948

Hypocalcaemia and hypermagneshaemia in lactating Awassi ewes. 14505

Sperm output of bulls and production by cows fed supplemental vitamins. (Abstract). 17577

The effect of intramammary infection during the dry period on the milk production of the affected quarter at the start of the succeeding lactation. 18194

Effects of temporary hormonal suppression of lactation on milk constituents, clinical mastitis, colostrum, and the estrous cycle. 19950

Milk production response to feeding methionine hydroxy analog to lactating dairy cows. 20651

The relation between milk production and sensitivity of the udder for infection with Sc. agalactiae. 20759

Effect of lactation on reproductive performance in the ewe. (Abstract). 21301

LACTOBACILLUS BULGARICUS

Effect of B-indolylacetic acid on the growth and the auxin catabolism of Lactobacillus bulgaricus. 21086

LACTUCA SATIVA

Selection and specificity of the Colorado potato beetle for solanaceous and nonsolanaceous plants. 17381

LADINO CLOVER

Studies on irrigation for herbage grass. II. On the efficiency of water use by orchard grass and ladino clover. 21078

LAELAPIDAE

The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats. 20968

LAELAPTIDAE

The genus Laelaspis, with descriptions of three new species (Acarina: Laelaptidae). 14826

LAELASPIS

The genus Laelaspis, with descriptions of three new species (Acarina: Laelaptidae). 14826

LAKES

Ecological and systematical investigation into Chironomids (Diptera) of Lake Constance. A contribution to the 'lakustrischen' Chironomid fauna of the northern alpine districts. 19475

Ecological and systematical investigation of Chironomids (Diptera) of Lake Constance. A contribution to the 'lakustrischen' Chronomid fauna of the northern alpine districts. 19476

Evaluation of diquat as an aquatic herbicide applied at 2 gallons per surface acre, under Minnesota conditions. 22586

LAMBS

Listeric myelitis in sheep. 14510

Influence of a penicillin-streptomycin preparation on lamb mortality. 14517

Exterotoxemia of sheep. II. distribution of I131 radioiodinated serum albumin in brains of Clostridium perfringens type D intoxicated lambs. 15376

Enterotoxemia of sheep. III. Clostridium perfringens type D antitoxin titers of normal, nonvaccinated lambs. 15378

In vitro uptake of Selenium-75 by red blood cells from the immature ovine during varying Selenium intakes. 16027

Notice of withdrawal of petition for food additives. 16072

Efficacy studies on a new processed. I. Micron refined phenothiazine against gastro-intestinal nematodes in feeder lambs. 17478

Free amino acids, ammonia and urea concentrations in the blood plasma of starved lambs. 17533

Congenital goitre in Merino sheep due to an inherited defect in the biosynthesis of thyroid hormone. 17568

Atypical Globidiosis in a lamb. 18213

Effects of selenium and vitamin E on nutritional muscular dystrophy in lambs. 18242

Clostridium perfringens type A infection of ligated intestinal loops in lambs. 18255

Effects of a low manganese diet on certain ovine characteristics. 18274

The utilization of vitamin A and carotene by ruminants. 1. Vitamin A potency of carotenes in corn silage fed to lambs. 2. The effect of time and route of administration of vitamin A on liver vitamin A storage by steers. 3. The effect of route of administration of vitamin A on blood serum and liver vitamin A concentrations in steers at subsequent time intervals. 18281

Successful treatment of coccidiosis in lambs. 18313

Rearing lambs free of gastrointestinal nematodes. 18368

The effect of dipping on tick infestation in young lambs. 19213

Effect of management system on the growth of lambs and development of internal parasitism. II. Field trials involving medication with national formulary and purified grades of phenothiazine. 20599

Dietary interrelationship of cobalt and selenium in lambs. 20799

Activity of dl-tetramisole against gastrointestinal helminths in a controlled test in lambs. 20823

Hematology, growth and efficiency of lambs as influenced by H. contortus infection. (Abstract). 20838

Rumen tissue uptake of zinc-65. (Abstract). 21239

Drug residues in lamb carcasses fed poultry litter. (Abstract). 21243

The action of the anthelmintic tetramisole on Nematodirus battus infection in lambs. 21470

Some comparative observations on unthriftiness in grazing lambs. 21479

Controlled test of anthelmintic activity of trichlorfon and thiabendazole in lambs, with observations on Oestrus ovis. 22768

Aetiology of enzootic staphyloccal infection (tick pyaemia) in lambs; field investigations into the relationship between tick-borne fever and tick pyaemia. 23277

Haemorrhagic enteritis in sheep experimentally infected with tick-borne fever. 23279

Weight gains and wool growth in sheep infested with the sheep ked Melophagus ovinus. 23356

LAMINALLOPTES

The feather mite genus Laminalloptes (Proctophyllodidae: Alloptinae). 14022

LAMPS

Marking tobacco hornworm moths for night recovery with a blacklight lamp. 16998

LAMPYRIDAE

Induction of scintillation in the firefly. 14870

In defense of magic: The story of fireflies. 19602

A new Photinus firefly, with notes on mating behavior and a possible case of character displacement (Coleoptera: Lampyridae). 22300

The prairie peninsula and secondary intergradation in Photinus fireflies (Coleoptera: Lampyridae). 22301

Light-inhibition of flashing in the firefly Photuris missouriensis. 22369

LAND
The effect of disinfection on cereal seeds determined in laboratory experiments and emergence tests in soil. 17924
Microorganisms in paddy soil. S597.R3. 18751
An economic study of farm management in polder area, the Ariake sea-shore, Kyushu Island in Japan. 21575
LAND SETTLEMENT
Colonization and mass production of the false wireworm Eleodes suturalis. 13799
LANKESTERELLA
Influence of Isospora infections on patency of avian Lankesterella (Atoxoplasma, Garnham, 1950). 14498
LANTANA CAMARA
Host specificity tests with Uroplata girardi Pic., a leafmining hispid from Lantana camara L. 15747
Occurrence of Teleonemia scrupulosa on Sesamum indicum Linn. in Uganda. 20327
LANTHANUM
Weed seed labelling with rare earth elements. In: isotopes in weed research; proceedings of a symposium Vienna 25-29 October 1965. S589. S9. 19122
LAODELPHAX STRIATELLUS
The density effect on the appearance of two wing-forms in the brown planthopper, Nilaparvata lugens and smaller brown plant-hopper, Laodelphax striatellus. 15737
Ecology and control of small brown planthopper (Laodelphax striatellus Fallen). Transl. 16695. 17385
Studies on the life history of the smaller brown planthopper (Laodelphax striatellus Fallen). 18582
LAPHYGMA
Relationship of the crop capacity to the depletion of the fat body and egg development in the corn earworm, Heliothis zea, and the fall armyworm, Laphygma frugiperda (Lepidoptera: Noctuidae). 14869
LAPHYGMA FRUGIPERDA
New results on the control of the millet caterpillar, Laphygma frugiperda. 16701
LARIX
The influence of climate and weather on population age distribution. In:FAO symposium on integrated pest control, Rome, 1965. Proceedings. SB951.F62. 15701
Tolerance of some imported conifer seeds to fumigation with carbon tetrachloride. 16932
Further observations of dwarf mistletoe on eastern larch in Minnesota. 17275
LARIX LARICINA
Vital dyes as markers for behavioral and population studies of the larch sawfly, Pristiphora erichsonii (Hymenoptera: Tenthredinidae). 16398
LARIX LEPTOLEPIS
Larch sawfly suppression with malathion LV(R) concentrate. 17120
LARIX OCCIDENTALIS
Low-volume application of malathion by helicopter for controlling larch casebearer. 14433
Wood- and bark-feeding Coleoptera of felled western larch in British Columbia. 14612
The western larch borer, Tetropium velutinum LeConte, in interior British Columbia. 15987
Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion. 19904
Wood- and bark-feeding Coleoptera of felled western larch in British Columbia. 19905
The western larch borer, Tetropium velutinum Leconte, in interior British Columbia. 19906
LARVAE
A new Maryland record of Thelohania (Nosematidae: Microsporidia). 13711
Some distinctions between the larvae and pupae of the Empididae and Dolichopodidae (Diptera). 13720
Laboratory observations on certain mosquito larval predators. 13736
Pupal paedogenesis in the Cecidomyiidae (Diptera). 3. a reclassification of the Heteropezini. 13763
Hatch, larval development, and adult longevity of four lepidopterous species after thermal treatment of eggs. 13798
Metabolism of insecticides by Culex pipiens quinquefasciatus. i. in vivo metabolism of DDT by larvae. 13810
Biology of Tipula paludosa; growth of the larva in the field. 13822
Observations on feeding and movement of tobacco hornworm larvae. 13825
Influence of photoperiod, temperature, and food on initiation of diapause in the apple maggot. 13840
Uptake of P32 by yellow-fever mosquito larvae of equal age, and those pupating synchronously: its loss and transfer during development, mating, and oviposition. 13841
Neomarasmia suspicalis Wkr a new pyralid leafroller of sugarcane in India. 13920
Labeling larvae of the elm sawfly with P32. 13932
Effect of varying populations of Busseola fusca larvae on the growth and yield of maize. 13934
Field test to determine the effectiveness of coumaphos as a feed additive to control house fly larva under caged layers. 13980
Boophilus kohlsi Hoogstraal and Kaiser 1960 (Acarina: Ixodidae). life cycle and morphology of larva. 14073
The larva and pupa of Demeijerea rufipes (L.) (Dipt., Chronomidae). 14084
Photoactic response of first-instar larvae of the pink bollworm to light of different wavelengths. 14085
Marking Culex pipiens Linn. Larvae with vital dyes for larval ecological studies. 14103
Occurrence of Aedes abserratus (Felt and Young) and Culiseta morsitans (Theobald) in Indiana. 14113
Bionomics of Grotea californica Cresson, with a description of the larva and pupa. 14114
Procedure used to recover a sex attractant for the male tobacco hornworm. 14148
Stempellia magna (Kudo) (Nosematidae: Microsporidia) in Culex restuans Theobald from Virginia. 14152
Supplementary observations of the early developmental stages of Albia caerulea (Acarina: Axonopsidae). 14176
A method of providing artificial diets to Chrysopa larvae. 14191
Ribosome aggregates of the midgut of silkworm, Bombyx mori L. 14195
Gluconeogenesis in the oriental hornet Vespa orientalis F. 14208
The digestive enzymes of the larva of Utetheisa pulchella Linnaeus (Lepidoptera: Arctidae). 14217
Investigations of relationships of egg length to female size and egg number in Anopheles claviger typicus Meigen, with references to development of length in larvae. (Investigations of the insect fauna in place 15). (Diptera: Culicidae). 14221
The attraction of salts and other nutrients to the larvae of fabric insects. 14225
The relation between soil water tension and growth rate of larvae of Tipula oleracea and T paludosa (Diptera) in turf. 14231
Notes on the toxicity of a commercial preparation of Bacillus thuringiensis var. thuringiensis Berliner on some Lepidoptera and Tenthredinidae larvae. 14250
Selection of pupation site by Drosophilia melanogaster and D. simulans. 14256
Observations on Culex pipiens larvae infested with Vorticella sp. 14258
Relative toxicity of some insecticides to the hairy caterpillar, Diacrisia obliqua (Arctidae: Lepidoptera). 14277
The structure of salivary glands and giant chromosomes of some Chironomid larvae, its relation toward the way of life and importance for the determination of species. 14300
Further comment on P32 labeling material in the body of Aphis fabae Scop. and its larvae (Homoptera, Aphididae). 14432
Toxicity of some insecticides to larvae of codling moth after they enter apples. 14439
Changes associated with parasitism in nematodes. Ii. Histochemical and microspectrophotometric analyses of preparasitic and parasitic larvae of Meloidogyne javanica. 14455
Partial resistance of calves to Cooperia punctata following subcutaneous inoculation of homologous infective larvae. 14494
The possible existence of two strains of Ostertagia ostertagi. 14581
Temporary adsorption on a substrate of an oil-spill remover (detergent); tests with larvae of Sabellaria spinulosa. 14769
Effect of temperature, aeration, pH, and the presence of soil on the toxicity of various insecticides to mosquito larvae. 14817
Plastic pots compared with clay pots for rearing whitefringed beetle larvae. 14857
Effects of hormones and injury on RNA synthesis in saturniid moths. 14861

LARVAE

Larval descriptions of two species of Panorpa (Mecoptera: Panorpidae), with notes on their biology.
14927

The effect of circadian rhythm on the development of Drosophila.
14941

Notes: Effect of certain carcinogenic 2-fluorenamine derivatives on larvae of the house fly, Musca domestica Linnaeus.
14952

Fungi associated with larvae of Sitona spp.
15097

Preliminary study on some of the factors affecting control of western corn rootworm larvae with soil insecticides.
15246

Effect of fungicides on the larval emergence of the tobacco cyst nematode.
15264

Food-plant spectrum and elimination of disease of cinnabar moth larvae, Hypocrita jacobaeae (L.) (0lepidoptera: Arctiidae).
15276

Experimental visceral larva migrans in the pig.
15355

Survival of infective larvae of the cattle nematodes, Cooperia punctata, Trichostrongylus axei, and Oesophagostomum radiatum.
15519

The number of particles of Sericesthis iridescent virus required to produce infections of Galleria larvae.
15705

The immature instars of the Cleptoparasitic genus Dioxys (Hymenoptera: Megachilidae).
15730

The biology of Eurytoma roseni Claridge (Hym., Eurytomidae).
15743

Bioassay of nuclear-polyhedrosis virus against larval instars of the gypsy moth.
15753

Evidence for a lipid activator of prophenolase in Tenebrio molitor.
15762

Tyrosinase activity in Hestina larva at the beginning of overwintering.
15803

The mutagenicity in Drosophila Melanogaster of caffeine and of other compounds which produce chromosome breakage in human cells in culture.
15837

Damage by larvae of the corn earworm to grain sorghum.
15980

Results of experimental studies on the development of preinvasive stages of worms of the genus Thelazia Bosc., 1819 (Spirurata: nematoda), parasitic in the eye of cattle.
16101

Observations on the larvae of Hippotion celerio L. (Lepid., Sphingidae in Tanzania. (Abstract).
16262

Number of instars of the larva of Herse convolvuli L.
16271

Identification and functions of secretion from the posterior scent gland of fifth instar larva of the bug Dysdercus intermedius.
16274

A comparison of the larval and pupal nervous systems of the corn earworm, Heliothis zea (Lepidoptera: Noctuidae).
16279

Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae.
16321

Leptomonas oestri n.sp., a flagellate parasite of the digestive tract of Oestrus ovis.
16328

Pyruvate kinase in Haemonchus contortus larvae.
16349

Variations of phospholipids in the course of metamorphosis of Tribolium confusum (Coleoptera).
16360

Immunochemical analysis of the origin of a sex-specific accumulated blood protein in female houseflies.
16364

An interesting parasite of Thysanoptera: Tetrastichus gentilei (Hym. Chalcididae).
16365

Dietary amino acid requirements of the aphid, Myzus persicae.
16375

Sterilization of Culex pipiens fatigans Wiedemann by apholate.
16377

Hexosamine metabolism in imaginal disks of Drosophila melanogaster.
16388

Contribution to the histochemical study of the digestive organs of Rhagium bifasciatum. (Col. Cerambycidae).
16390

Laboratory research on Acarapis woodi Rennie, the causative agent of acarine disease of the honeybee. note 5.
16393

A study of a melanic mutant of the blowfly Lucilia cuprina.
16395

A note on the influence of a range of plant chemicals on the growth and survival of Aedes aegypti L. larvae.
16396

Vital dyes as markers for behavioral and population studies of the larch sawfly, Pristiphora erichsonii (Hymenoptera: Tenthredinidae).
16398

Growth, feeding activity, and the utilization of reserves in larvae of Locusta.
16399

The influence of nutrient chemicals on the feeding behavior of the Colorado potato beetle, Leptinotarsa decemlineata (Coleoptera: Chrysomelidae).
16401

The effect of host pregnancy on the reproductive capability of the tsetse fly, Glossina morsitans, in captivity.
16414

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm.
16418

Two effects of photoperiod on wing development in Gryllodes sigillatus (Walk).
16429

Short-term effects of crustecdysone (20-hydroxyecdysone) on protein and rna synthesis in third instar larvae of Calliphora.
16437

The metabolism of carbaryl (1-naphthyl-N-methylcarbamate) by the fat body of the blowfly larva Calliphora erythrocephala.
16440

Factors affecting protein synthesis by the fat body of the larva of the blowfly Calliphora erythrocephala.
16441

Oxygen consumption by soil larvae of insects in dependence on its tension.
16442

Metabolic thermal adaptations in the mosquito Culex pipiens pipiens (Diptera: Culicidae).
16447

Number of instars of the larva of Herse convolvuli L.
16454

Phototactic response of adults of confused flour beetle and red flour beetle and larvae of black carpet beetle to flashes of blue-white light.
16456

Biological notes on, and eradication of Trichogramma semifumatum from laboratory cultures of eight species of Noctuidae.
16458

Defense reactions of Drosophila species (Diptera: Drosophilidae) to the parasite Pseudeucoila bochei(Hymenoptera: Cynipidae).
16459

The ant larvae of the subfamily Formicinae (Hymenoptera: Formicidae): supplement.
16478

Response and recovery on X-irradiated Tribolium confusum larvae.
16482

Amino acids from Heterodera glycines larvae. (Abstract).
16535

Field-cage releases of Chrysopa carnea for suppression of populations of the bollworm and the tobacco budworm on cotton.
16712

Action of aqueous iodine on ova of Ascaris lumbricoides an Ascaris suum.
16716

Bird predation on black fly larvae and pupae in Ontario.
16741

Studies on immunity of calves to Dictyocaulus viviparus reinfection. II. Relationship between the age of calves and the dose of larvae causing clinical and lethal course of dictyocaulosis.
16888

Studies on immunity of calves to Dictyocaulus viviparus reinfection. I. Immunization with single and double doses of normal or irradiated larvae.
16889

Migration of Toxocara cati larvae in mice.
16900

Observations over restraining the stink bug (Perillus bioculatus (Fabr.) (Pentatomidae) facing its prey Leptinotarsa decemlineata (Say) (Chrysomelidae).
16978

Experiments on simultaneous infections of the common cockchafer, Melolontha melolontha.
16985

A method of collecting planthoppers and leafhoppers in the field in winter. Transl. 16921.
16992

Radioactive studies on the feeding of larvae, nymphs, and adults of the cattle tick, Boophilus microplus (Canestrini).
16995

About the influence of weather on apple-leaf moths from the time of first appearance to that of frequency.
17000

Chironomiden larva and pupae from the Hamori lake.
17007

A comparison of the toxicity of some varieties of Bacillus thuringiensis Berliner for silkworm larvae.
17070

Nutrition of European corn borer, Ostrinia nubilalis. VI. A larval rearing medium without crude plant fractions.
17077

The effect of a low protein diet and a glucose and filter paper diet on the course of infection of Nippostrongylus brasiliensis.
17090

Sampling methods for red spider mites.
17096

Onchocerca-Simulium complexes. V. The intake and subsequent fate of microfilariae of a Guatemalan strain of Onchocerca volvulus in forest and Sudan-savanna forms of West African Simulium damnosum.
17099

The protein components of a latent phenoloxidase system in the prepupae of housefly.
17110

Choline activity during the development of Drosophila melanogaster. 17111

Observations on the infection of Japanese beetle larvae with Bacillus popilliae. 17119

Caddis larvae. Larvae of the British Trichoptera. QL517.4.H5. 17126

Studies on the process of the occourence of white-black and brown planthoppers up to their primary outbreak. 17135

Crowding effects on plum curculios reared at several densities on two sizes of green apples. 17136

The ultrastructure of the larval ocelli in the mosquito, Aedes aegypti, as affected by a vitamin A deficiency. 17139

The effects of various oxygen tensions on embryogeny and larval responses of Aedes aegypti. 17141

Studies on the observation of the rice stem borer about the relation between the weight and the growth of overwintering larvae. (report 1). Transl. 16792. 17143

Histological changes produced by a ruby laser in Neodiprion sertifer Geoff. 17145

Sexual differential in time of hatch of eggs of the gypsy moth. 17154

A three-year study of parasites of the bollworm and the tobacco budworm in Mississippi. 17156

Lipid changes during the life cycle of Sarcophaga bullata. 17158

The differing effectiveness of purified and non-purified suspensions of the nuclear-polyhedrosis virus of Porthetria dispar. 17159

Pupation of wintering larvae of the rice stem borer, Chilo suppressalis Walker, reared at 25 C. Transl. 16919. 17168

Active transport by the cecropia midgut. IV. Specificity of the transport mechanism for potassium. 17175

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal.). III. Metabolic changes and their bearing on the cessation and delay of moulting. 17177

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal). I. Induction of delayed moulting and defects. 17178

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal). Ii. Mechanism of cessation and delay of moulting. 17179

Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease. 17182

Amino acid synthesis from glucose-U-14 C in Argyrotaenia velutinana (Lepidoptera: Tortricidae) larvae. 17191

Dried torula yeast as a substitute for brewer's yeast in the larval rearing medium for the Mexican fruit fly. 17205

Inclusions in adults of the European pine sawfly, Neodiprion sertifer (Geoff.). 17208

Relative toxicity of some insecticides as contact poisons to the larvae of Earias fabia Stoll. 17210

Trans-aldrin glycol as a metabolite of dieldrin in larvae of the southern house mosquito. 17211

Haemolymph esterases in the female larval honeybee, Apis mellifera L., during caste development. 17213

Undulatory locomotion of the plant parasitic nematode Meloidogyne javanica. 17217

Laboratory studies with the mosquito iridescent virus (MIV). 17224

The developmental genetics of the eyeless-dominant mutation in Drosophila melanogaster (Meig.). 17227

The distribution of rice stem borer in the rice stubbles, with special reference to the possibility of its dispersion from the frame for dessicating reaped rice plants. Transl. 16893. 17396

Variation in infection ability of cysts of Heterodera avenae. 17412

Inoculation trail with Meloidogyne javanica on okra (Abelmoschus esculentus). 17416

Supply of oxygen during hatching of the nematode Meloidogyne javanica under non-competitive conditions. 17419

Heterodera crucifera Franklin 1945, Brassica root eelworm in Yugoslavia. 17431

Mode of reproduction of Heterodera tabacum. (Abstract). 17438

Greenhouse experiments with baits for control of the black cutworm. 17451

Studies on the acquired resistance of sheep to Dictyocaulus filaria (Rudolphi, 1809) Railliet and Henry, 1907. 17529

Experimental Trichostrongylus colubriformis infection in adult goats. 17602

Observations on the early migration of the larvae of Ascaris suum Goeze, 1782 in white mice. 17605

Experimental studies on ancylostomiasis in cats. VI. Visceral migration of larvae of Ancylostoma tubaforme and A. caninum in dogs. 17609

Intestinal malabsorption of D-glucose in mice infected with Trichinella spiralis. 17610

Biochemical observations of Ascaris suum lung-stage larvae. 17614

Transmammary passage of Ancylostoma caninum larvae in dogs. 17618

Calcium and magnesium absorption in the young calf following induced parasitism, Ostertagia spp. (Abstract). 17621

In vitro toxin production by the fungus Beauveria bassiana and bioassay in greater wax moth larvae. 17668

Larvae of click beetles of the genus Idolus Desbr. and position of this genus in the system Elateridae (Coleptera). 17746

On morphology of larvae of the III instar in synanthropic species of flies from the genus Hydrotaea R.D. (Diptera, Muscidae). 17758

On larvae of Hispinae (Coleoptera, Chrysomelidae) of the fauna of the USSR. 17759

Notes on raising Lepidoptera in Meurthe and Moselle. 17763

Hemiptera associated with pig carrion. 17764

Further studies on the effect of bovine diet on face fly development. 17766

Studies of caste differentiation in Myrmica rubra L. 9. Maternal environment and the caste bias of larvae. 17791

A comparative study of salivary gland chromosome asynapsis in tumorigenic and closely related non-tumorigenic strains of Drosophila melanogaster. 17804

The formation of the cuticular ridges in the larval pharynx of the blowfly (Calliphora vicina R.-D.). 17809

Preliminary evaluation of a granulosis virus for control of the codling moth. 17822

Effects of mold inhibitors in larval diet on the biology of the cabbage looper. 17847

Egg and larval development of Cardiochiles nigriceps. 17855

Comparison of application rates of some soil insecticides for control of western corn rootworm larvae in Missouri. 17866

Ethylene oxide for the control of American foulbrood in honey bees. 17881

On the innervation of the prothoracic glands in Papilio demoleus L. (Lepidoptera). 17884

Life history of the looper Phigalia titea in Virginia. 17889

Black vine weevil larval damage to concord grape roots at different population densities. 18088

A bioassay technique for screening feeding stimulants for larvae of tobacco budworm. 18096

Resistance in bermudagrass to the fall armyworm. 18104

A medium for laboratory rearing of the peach tree and lesser peach tree borers. 18114

Chemical control of the sunflower moth on sunflowers. 18123

The effect of ultra-violet radiation on the invasion, survival and fertility of larvae of Heterodera rostochiensis. 18136

The effect of environment on sex determination in Heterodera rostochiensis. 18154

Relationship between infecting dose, muscle parasitism,and antibody response in experimental trichinosis in rabbits. 18329

Resistance of cattle to the tick Boophilus microplus (Canestrini). II. Stages of the life cycle of the parasite against which resistance is manifest. 18351

Effect of desiccation on survival of the free-living stages of Trichostrongylus colubriformis. 18353

Studies on the spring phenomenon in ovine helminthiasis. I. Spring rise in stabled sheep. 18372

Parasitic development of Obeliscoides cuniculi in rabbits. 18375

On the development of Cysticercus fasciolaris in albino rat liver and its reaction on the host tissue. 18381

Taxonomic notes on some larvae of the genus Aedes (Diptera: Culicidae) from Lokoja in Northern Nigeria. 18559

LARVAE

The development and fecundity of Adalia bipunctata L. and coccinella septempunctata L. feeding on various species of aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. **18587**

A circadian pattern in the respiration of larvae of the mosquito Culex pipiens. **18590**

Occurrence of syrphid larvae on some aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. **18602**

The Agromyzidae (Diptera) of Woodwalton Fen. **18610**

Change in patterns of inhibition by actinomycin D of uridine-H3 incorporation into salivary gland RNA of Rhynchosciara at different larval ages. **18643**

Larvae of the grey chimoth, antitype (Polia) chi (L.) (Lep., Caradrinidae), feeding on leaves of onion (Allium cepa). **18644**

Alkaline phosphatase relationships in Drosophila. **18669**

Larval-pupal transformation: Control by juvenile hormone. **18670**

Effect of food on some aphidophagous Coccinellidae. In: Hodek, I. ed. Ecology of aphidophagous insects. SB975.S9. **18677**

The effects of various anesthetics on the action of DDT on Anopheles larvae. **18716**

The significance of spinach as a host plant of the rape-nematode Heterodera schachtii Schm. **18857**

Records of Araecerus fasciculatus Degeer (Col., Anthribidae) breeding in East Africa. **19000**

Control of caterpillars attacking cabbage. **19010**

The larva of the dock sawfly, Ametastegia glabrata, as a pest in orchards. **19042**

Contour maps of infestation incidence useful in epizootiology of screw-worms, Cochliomyia hominivorax (coquerel). **19099**

Development and survival on pasture of gastrointestinal nematode parasites of cattle. **19220**

Experimental infections of calves with Trichostrongylus axei: Observations on lethal infections. **19223**

On a new Monocentrus (Membracidae Centrotinae), harmful to the cultivated pepper trees in central Africa. **19356**

A new Eumeta from West Africa. (Lep. Psychidae). **19357**

Redescription of Megisthanus floridanus with observations on its biology. (Acarina: Megisthanidae). **19367**

Contribution to the study of Caeculidae. Third. Postlarval development of Neocaeculus luxtoni n. gen., n. sp. **19373**

Notes on Culiseta (Culicella) atra (Lee) (Diptera: Culicidae) in western Australia. **19382**

Notes on two new heteromorphic deutonymphs (Hypopi) (Acarina: Sarcoptiformes). **19393**

Notes on the taxonomic characters and distribution of Aedes aloponotum Dyar and Aedes Communis (De Geer) (Diptera: (Culicidae). **19407**

Quantitative sampling of aquatic insects in a shallowwater habitat. **19414**

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 5. A. (P.) zumpti, new species, a parasite of the South African Cape vulture. **19415**

The genus Diarthrophallus Tragardh, 1946. (Acarina: Diarthrophallidae). **19416**

Digamasellid mites associated with bark beetles and litter in North America. **19417**

On a new species of the genus Gromphadorhina (Dict. Perisphaerinae). **19434**

Rhysotritia ardua larva (C. L. Koch) 1836 (Acarina, Oribates). **19438**

A redescription of Radfordilaelaps meridionalis Zumpt. 1950, with a new description of the protonymph and a discussion on the intraspecific variation of the species. **19445**

The spider mite family Tetranychidae in New Zealand. III.--THE genus schizotetranychus. **19451**

Observations and records for some British Thysanoptera VII. Thripidae, Thrips flavus Schrank ant Thrips brevicornis Priesner. **19458**

Notes on some nearctic chironomid larvae. **19484**

Record of Neodiprion warreni (Hymenoptera: Diprionidae) in Florida. **19523**

An efficient laboratory technique for obtaining pine bark beetle eggs and young larvae. **19543**

Evidence for radioresistance of the germinal structures of Leptinotarsa decemilineata Say.. **19554**

Intersegmentary cuticule of the imagos of superior termites (Isoptera, Termitidae): sexual dimorphism, ultrastructure, relation to the physogastric queen. **19556**

Notes on the biology of the larval Cigales (Hom. Cicadidae). **19559**

Internal organization and morphology of the terminal larval stage of Opius concolor. (Hym. Braconidae). **19569**

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). **19573**

Contribution to the laboratory study of Pnigalio mediterraneus. (Hym. Chalcidoidea Eulophidae). **19591**

Studies on the internal anatomy of the black carpet beetle, Attagenus megatoma. **19595**

Choline activity during the development of Drosophila melanogaster. **19610**

Observations on the behavior of the blue tick, Boophilus decoloratus (Koch) (Acarina: Ixodidae). **19615**

New observations on Oribates. (5). **19617**

Ticks (Ixodoidea) of Mt. Sontra, Danang, Republic of Vietnam. **19628**

Survey of the embryonic and post embryonic development of the house cricket, Acheta domesticus (L.). **19634**

Influence of the corpora allata on ovarian functioning in the male Pieris brassicae L. (Lepidoptera). **19639**

Parasitism of the intestinal cells of Galleria mellonella L. by the densonucleosis virus. **19651**

Genetic aspects of anaerobic metabolism in Mormoniella vitripennis. **19670**

Methodical reference and council on the breeding of fresh water mite larva parasitic on air insects on (Acari Hydrachnellae). **19676**

Bacteria in the digestive tract of alfalfa weevil larvae. **19698**

Growth of larvae of the house longhorn beetle (Hylotrupes bajulus L.) in constant conditions. **19702**

Contribution to the study of the morphology of the cephalic nervous system of termites. **19708**

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae). **19710**

Acetone treatment for preservation of adult and larval mosquitoes. **19745**

The larva of Duvalius lepinensis (Coleoptera, Carabidae). **19749**

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of Nymphal Triatoma infestans. **19750**

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Handling techniques for eggs and larvae of Wiseana sp. (Hepialidae). **19753**

A clonal system of differential gene activity in Drosophila. **19766**

Clonal analysis of determination dynamics in cultures of imaginal disks in Drosophila melanogaster. **19774**

White-fringed weevil. **19864**

Consumption by several common arthropod predators of eggs and larvae of two Heliothis species that attack cotton. **19886**

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia. **19903**

Concerning the larva Migrans visceralis of Ascaris lumbricoides in the experimental host (Mice). **19949**

Immunogenic effect of ultraviolet treated larvae of Nippostrongylus brasiliensis in rats. **19975**

Transmammary passage of infective-stage nematode larvae. **20052**

Study of Thrombidiidae larve. I. The larva of Thrombidium mediterraneum Berlese, 1910. **20252**

Contribution to the study of Diptera Malacophage. IV. Identification of Pherbellia obtusa (Fallen) (1820) and the description of a new palearctic species Pherbellia argyra sp. n. (Diptera, Sciomyzidae). **20274**

On the composition of some tribes of the subfamily Pimplinae (Hymenoptera, Ichneumonidae). **20276**

Effect of desiccation on survival of the free-living stages of Trichostrongylus colubriformis. **20297**

The present status of control of Culex pipiens fatigans. **20314**

The sensory physiology of the larva of the rhinoceros beetle Oryctes rhinoceros L.
20326

Reactivity of several experimental Heteroptera hosts to the larva of a monophage Diptera, Phasiinae.
20335

The natural infection rate of Simulium damnosum with Onchocerca volvulus in Savannah regions of Guinea.
20344

A comparison of the Tipula and Sericesthis iridescent viruses.
20347

A hypothesis on the subject of larval monsters in the genus Anopheles.
20348

The number of larval instars in some bark beetle species.
20378

A description of the larva of Eremotes elongatus Gyll. (Col. Curc.) and a comparison between this and the Hylastes larvae (Col. Scol.).
20379

The development of the thoracil musculature of Periplaneta after disconnection of individual nerves. Preliminary report.
20406

Contribution to the knowledge of the larvae and pupae of Agapanthia violacea Fabricius (1775) and Agapanthia villosoviridescens De Geer (1775) (Col., Cerambycidae, Lamiinae).
20414

The susceptibility of Culex pipiens fatigans larvae to insecticides in Rangoon, Burma.
20419

Formation of silk proteins by the silkworm, Bombyx mori, after gamma-ray irradiation in the embryonic stage.
20425

The deposition of lipid and the composition of neutral lipids in the fat body of Sarcophaga bullata (Diptera).
20436

Plant-herbivore coevolution: Lupines and lycaenids.
20596

Plum curculio--Nonfruit hosts and survival (Coleoptera: Curculionidae).
20624

Immunization against Ascaris suum Ascaris lumbricoides, and Trichinella spiralis. II. Peroral immunization against Ascaris summ by means of live adult worms, 3rd and 4th stage larvae, and with fluid in which adult worms had been maintained.
20655

Effects of temperature on the development of the dog heartworm, Dirofilaria immitis, in Aedes solicitans.
20804

Field trials in horses with pyrantel tartrate.
20812

Recovery of porcine liver from damage caused by migrating x-irradiated and nonirradiated larvae of Ascaris suum.
20814

Experimental studies on Ancylostomiasis in cats. VII. experimental infection and visceral migration of larvae of Ancylostoma tubaeforme and Ancylostoma caninum in mice and chickens.
20830

The process of the penetration of invasive larvae of Bundstomum phlebotomum (Railliet, 1900) into the host body.
20831

Studies on immunity of calves to Dictyocaulus viviparus reinfection. Ii. Relationship between the age of calves and the dose of larvae causing clinical and lethal course of dictyocaulosis.
20834

Studies on immunity of calves to Dictyocaulus viviparus reinfection. I. Immunization with single and double doses of normal or irradiated larvae.
20835

Incidence and control of mosquitos in South Moravia.
20953

The fine structure and mechanism of breakdown of larval intersegmental muscles in the blowfly Calliphora erythrocephala.
20990

Free and bound amino acids of spruce budworm larvae feeding on balsam fir and red and white spruce.
20992

Growth and partial metamorphosis of imaginal disks of the greater wax moth, Galleria mellonella, in vitro.
21015

Comparative allometry in the larval broods of three army-ant genera, and differential growth as related to colony behavior.
21024

Respiration in developing honeybee larvae.
21025

Cytoplasmic inclusion body in the epidermal cells of normal and transparent silkworm larvae.
21044

Notes on breeding and endofily of mosquitos in the Shomron district, Israel.
21049

Effect of Aphis fabae Scop. and its attendant ants and insect predators on yields of fields beans (Vicia faba L.).
21060

On cyst colour changes, bionomics and distribution of potato cyst-eelworm (Heterodera rostochiensis Woll.) pathotypes in the East Midlands.
21071

Wheat bulb fly, Leptomylemyia coarctata Fall., and its effect on the growth and yield of wheat.
21172

The determination of irregularly-shaped areas of leaves destroyed by chewing insects.
21173

Control of sunflower moth larvae and damage to sunflower seeds.
21179

Effect of ionizing radiation on Dacus zonatus fruit fly eggs and larvae in situ.
21184

Nonliving nematode vaccines. Patent 3,395,218.
21212

The fate of Ascaris lumbricoides Linnaeus, 1758 in chicks (Gallus gallus domesticus).
21387

Selection of aphid prey by Adalia bipunctata L. and Coccinella 7-punctata L.
21512

Effect of carbon monoxide on metabolism of insecticides in vivo.
21519

On preserving beetle larvae.
21629

Mortality due to Bacillus thuringiensis in postlarval stages of some Lepidoptera.
21650

Larval diapause in the tick Ixodes ricinus L. and its dependence on external conditions. IV. Interaction between exogenous and endogenous factors in the regulation of larval diapause.
21655

Observations on the hibernation of Psila rosae F.
21660

Notes on Bivoltinism in the lesser peach tree borer, Synanthedon pictipes (G and R).
21663

The larvae and pupae of the British Cylindrotominae and Limoniinae (Diptera, Tipulidae).
21664

Significance of the time factor in the irradiation of imago insects (experiments on granary weevils).
21667

Sources of larval salivary gland secretion in the dipteran Chironomus tentans.
21677

Developmental changes in the late larva of Calliphora stygia. I. Olymph.
21692

Changes in the respiratory metabolism of Rhodnius prolixus as induced by temperature.
21718

Range of host plants and larval feeding in Phytomyza atricornis Meigen (Dipt., Agromyzidae).
21746

Transdetermination in the layout of the organs of the Drosophila fly.
21753

Recovery of porcine liver from damage caused by migrating X-irradiated and nonirradiated larvae of Ascaris suum.
22162

Antifeeding effect of DDT on bollworm and tobacco budworm larvae.
22362

Study on the permiability of the sensory organs of the appendages of the head in the larvae of Speophyes lucidulus (Delar.) (Coleoptera).
22375

Observations on the larva of Hippotion celerio Linnaeus (Lepid., Sphingidae) in Tanzania.
22413

A feeding stimulant for pink bollworm larvae in water extracts of cotton.
22434

Toxicity of bacterial spores to fly and mosquito larvae.
22439

Light reflexes of caterpillars of Bombyx mori L. (Lepid.).
22446

The use of insecticides for control of mosquito larvae in Denmark.
22482

A study on changes in larval and pupal densities of the rice stem borer, Chilo suppressalis Walker, in its first generation.
22534

A mechanical harvester for collecting larvae of the wheat stem sawfly.
22537

The effects of experimental microascaridic infections by Ascaris suum in guinea pigs subjected to total body X- irradiation LD 50/30.
22761

The number of Aelurostrongylus abstruses larvae required to produce pulmonary disease in the cat.
22763

Effect of temperature and cultural methods on development of the free-living stages of Trichostrongylus colubriformis.
22781

Survival of infective larvae of the cattle nematodes, Cooperia punctata, Trichostrongylus axei, and Oesophagostomum radiatum.
22782

The larvae of Clythia fasciata Meigen (Diptera, Clythiidae).
22865

New Trombiculid (Acariformes) larvae, parasites of Rumanian mammals.
22869

Distribution of Trichoplusia ni eggs and larvae on cabbage plants as a basis for sampling efficiency.
22872

The larvae of Agapanthia cardui Linnaeus (Coleoptera, Cerambycidae, Lamiinae).
22902

Investigations on parasites of Tortrix viridana L. Ii. Determination tables of larvae and pupae of some Tortricidae feeding on oaks as an aid in the rearing of parasites. Iii. On the phenology of some important species of parasites.
22943

Effect of starvation on molting and growth in Aedes aegypti and A. vexans.
22945

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the

Arthropods). Part 15, no. 48-A. Diptera: Termitoxeniidae.
22957

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 14, no. 47. Diptera: Head, larvae.
22958

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 48-D. Lepidoptera: 1) Nervous system in Galleria. 2) Morphology of the caterpillar Lithocolletis.
22964

Titer determinations of preparations of Bacillus thuringiensis Berliner.
22982

The efficacy of a mixture of Bacillus thuringiensis Berl. and of DDT against Agrotis ipsilon Rott. (Noctuidae).
22986

The biology of Choristoneura houstonana (Lepidoptera: Tortricidae), a pest of Juniperus species.
22988

The biology of Microphthalma europaea Egg., a tachinid parasite of the larvae of Scarabaeidae.
22991

The use of some inexpensive yeasts in the larval diet of the Mediterranean fruit-fly. (Ceratitis capitata).
22994

Defense reactions of Malacosoma neustria against tachinid larvae with simultaneous occurrence of a nuclear polyhedrosis. (1) (2).
23000

Observations on the immature stages of Gimnomera cerea and G. incisurata (Diptera: Anthomyiidae, Scatophaginae).
23016

The anatomy of the nervous system of the third instar larva of Musca domestica nebulo Fabr. (Diptera--Cyclorrhapha-Muscidae).
23026

Remarkable new demonstration of the occurrence of the botfly Oestromyia leporina (Pallas, 1778) in Germany.
23038

Free nucleotides and their derivatives in the fat body of the oak silkworm larva Antheraea pernyi G.
23041

The dynamics of the free amino acids in the tissues of the Chinese silkworm during its development.
23044

Radiolabeling of tick progeny by inoculation of procreant females.
23048

Intestinal microflora of the larvae of St. Mark's fly. II. Computer analysis of intestinal actinomycetes from the larvae of a bibio-population.
23057

A rickettsial disease of the desert locust (Schistocerca gregaria Forsk.).
23061

The entomo-parasitic specialization of some Eulophidae (Hym., Chalcidoidea).
23065

The egg- and larval development of Trogoderma angustum Sol. (Dermestidae).
23071

The effectiveness of the polyhedrosis virus for control of the cabbage looper, Trichoplusia ni.
23192

The effect of Gramoxone (N,N-dimethyl-p,p-dipyridilium salt) on the various developmental stages of B. glabrata.
23241

LARVICIDES
Field test to determine the effectiveness of coumaphos as a feed additive to control house fly larva under caged layers.
13980

Warble fly larvae control study.
14166

Control of mosquito adults and larvae with ultra-low volume aerial applications of Baygon and Baygon-Baytex mixture.
14326

The larvicidal activity of several liquid detergents and quaternary ammonium compounds.
14327

Simulated field evaluation of promising insecticides for use against Aedes aegypti.
14328

Biological activity of surfactants and some chemical intermediates against pre-imaginal mosquitoes.
14979

Panel: opposing philosophics in mosquito control technology: emphasis on control of adult mosquitoes in Florida.
14980

Toxicity of insecticides to stable flies.
15796

Evaluation of insecticides against Aedes aegypti (L.) and Culex pipiens quinquefasciatus Say (Diptera: Culicidae) in Bangkok, Thailand.
15847

Malaria control on impounded water. RA644.M2U55.
17723

Public health pesticides.
19535

General considerations relative to the use of very low volume larviciding in mosquito control.
19784

Low volume trials in kings mosquito abatement district.
19875

Experiences with aerial dusting in the Kern M. a. d. 1967.
19876

What low volume larviciding means to an operational mosquito control agency where economy is essential.
19914

The present status of control of Culex pipiens fatigans.
20314

Field trials with granular abate for control of early spring aedes mosquitoes.
20374

Laboratory tests of heavy metal salts as mosquito larvicides.
20405

Global events concerning mosquitoes in 1966.
20431

Tests (1966) with black fly larvicides.
20440

Larvicides and larvicidal formulations for the control of Culex pipiens fatigans.
20488

Onchocerciasis in Kenya 9, 11 and 18 years after elimination of the vector.
20490

A preliminary report...Zytron as a larvicide for fly control.
20948

Those durable oils. II. Insecticidal oils.
21552

LASERS
Candling and sighting techniques used in laser investigations of the European pine sawfly, Neodiprion sertifer (Hymenoptera: Diprionidae).
14902

LASIOCAMPIDAE
Photoperiodic induction of the diapause in caterpillars of the pine moth.
19746

LASIOPERMA
Fumigant toxicity of 1,2,3-tribromopropene, ethyleneimine, crotyl bromide and carbon tetrachloride to stored-product insects.
14888

LASIUS FULIGINOSUS
A note on the behavior of Lasius fuliginosus (Latr.)(Hym. Formicidae).
18658

LASIUS NIGER
Garden ants, Lasius niger L., building shelters for aphids.
14168

Effect of Aphis fabae Scop. and its attendant ants and insect predators on yields of fields beans (Vicia faba L.).
21060

LASPEYRESIA NIGRICANA
Alternatives to DDT for the control of the pea moth on dry harvesting peas.
13917

LATE BLIGHT (POTATOES)
Base composition of soluble ribonucleic acid from Phytophthora infestans.
15149

A rapid test for an antifungal substance produced by a woodinhabiting fungus in culture.
17343

The relation of rainfall, relative humidity, and temperature to late blight of potato in Sedes, Sindos-Lahanokipi of Nomos Thessaloniki.
17925

Effect of variety on the control of potato late blight with fungicides. (Abstract).
18013

Restoration of virulence of stored cultures of Phytophthora infestans.
19827

Experiments on the quantity of sprayfluid in preventive spraying against late blight.
20530

Preventive spraying against potato blight. Field trials 1954 - 1959.
20555

A rapid test for an antifungal substance produced by a wood-inhabiting fungus in culture.
20571

Late blight of potatoes.
22520

LATENT VIRUS (APPLES)
Production of stem pitting disease by a sap-transmissible virus from apple. (Abstract).
15901

LATENT VIRUS (STRAWBERRIES)
The inactivation of veinbanding and latent C viruses in strawberries by heat treatment.
19805

LATEX
Effects of plant growth regulators and other compounds on flow of latex in Hevea brasiliensis.
18421

The use of antibody-sensitized latex particles to detect plant viruses.
20510

LATHYRISM
Effect of a lathyrogen on oxygen consumption and C1402 respiratory pattern of C14-labeled amino acids in developing chick embryos. (Abstract).
17471

Effects of lathyrogens and nonlathyrogens on chick embryo oxygen consumption when injected onto various sites. (Abstract).
17475

LATHYROGEN
Effect of a lathyrogen on oxygen consumption and C1402 respiratory pattern of C14-labeled amino acids in developing chick embryos. (Abstract).
17471

LATIN AMERICA
History of Aedes aegypti eradication in the Americas.
15840

LATRODECTUS
Biology of the black widow spider, Latrodectus hasselti Thorell (Araneida: Theridiidae).
21697

LATRODECTUS MACTANS
Remarks on black widow spiders, with an account of some anomalies. 17142
The molting behavior of the black widow spider, Latrodectus mactans. 17830
Biochemical differentiation of the sibling black widow spiders, Latrodectus mactans and L. variolus. 18641

LATRODECTUS VARIOLUS
Biochemical differentiation of the sibling black widow spiders, Latrodectus mactans and L. variolus. 18641

LAVANDULA
The use of Simazine on Lavandula plots. 16010

LAWNS
The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae). 14454
Disease control in lawn turf, 1968. 21529

LEAD
Acute lead poisoning in swine. 15604
Lead accumulation in Nova Scotia orchard soils. 19243
An unusual outbreak of lead poisoning in calves. 23387

LEAD ACETATE
Constituents of the cotton bud. XI. Studies of a feedingstimulant complex from flower petals for the boll weevil. 17403

LEAD ARSENATE
The pear and cherry slug. 21984

LEAF BLIGHT (CORN)
A leaf blight of corn (Zea mays) incited by Fusarium moniliforme. (Abstract). 18053

LEAF BLIGHT (PEANUTS)
Blight disease of groundnut in India. 15934

LEAF CURL
Genetics of resistance to cotton-leaf curl in Sakel cotton (Gossypium barbadense). 13906
Pear leaf curl virus transmitted by pear Psylla. 21131
Control peach leaf curl. 22511

LEAF CURL (HOPS)
Investigation of virus diseases of hops. 16637

LEAF CURL (PEACHES)
Changes in peach trees (cv. Red Haven) attacked by Taphrina deformans, with particular reference to nitrogen metabolism in infected and non-infected leaves. 14408
Development of young pear trees with different rootstocks in relation to psylla infestation, pear decline, and leaf curl. 20536

LEAF CURL (TOBACCO)
Chemotherapeutic treatments against leaf-curl of tomato. 19841

LEAF MINERS
Host specificity tests with Uroplata girardi Pic., a leafmining hispid from Lantana camara L. 15747
Some unknown data concerning miners (Lepidoptera). 16343
Bedellia ehikella sp. n. (Lepidoptera: Lithocolletidae). 17057
Leafminers of Hvar island (Col., Dipt., Hym., Lep.). 20356
Endophytus anemones (Hering) in Finland (Hym., Tenthredinidae). 21637
Studies on biology of Banmalika leaf minor (Agropistis limatus, Moth,Coleoptera,Halticidae.). A serious pest of Banmalike (Jasminum aquestifolium, Vohl.) in Rajasthan. 21706
Studies on biology of banmalika leaf minor (Agropistis limatus, Moth., Coleoptera, Halticidae.) A serious pest of banmalika (Jasminum aquestifolium, Vohl.) in Rajasthan. 21982

LEAF ROLL (CHERRIES)
Testing cherry rootstocks for resistance to infection by raspberry ringspot and cherry leaf roll viruses. 18809
The isolation and identification of rhubarb viruses occurring in Britain. 21164

LEAF ROLL (GRAPES)
Different results from the selection of virus free grapes. 21097
Trabeculae in the grapevine infected with leafroll virus. 23129

LEAF ROLL (HOPS)
Investigation of virus diseases of hops. 16637

LEAF ROLL (POTATOES)
The diphenylamine reaction and transmission experiments with phenol extracts of plants infected with potato leaf roll virus. 15101
Leafroll of tomato caused by a strain of potato leafroll virus. 15143
A study on auxin and chlorogenic acid in leaf-roll resistant and susceptible potato varieties. 18032
Isolation and electron microscopy of potato leafroll virus from plants. 18102
Phosphorus disturbances associated with potato leafroll virus infection. 19858
Potato leaf roll virus transmission as affected by plant locality. 21101
Inactivation of potato leaf roll virus in tubers by hot water treatment. 21165

LEAF RUST (COFFEE)
Fungicides for Arabica Coffee. 17. Relationships among some new fungicides, leaf rust (Hemileia vastatrix, leaf fall and yield. 15882
Genetic study of the resistance of Coffea spp. to leaf rust I. Identification and behavior of four factors conditioning disease reaction in Coffea arabica to twelve physiologic races of Hemileia vastatrix. 21906

LEAF RUST (GRAIN)
A genetic study of leaf rust resistance in wheat. 16623

LEAF RUST (WHEAT)
Uredospore production of five races of Puccinia recondita Rob. ex Desm. as affected by light and temperature. 14367
Teliospore formation by Puccinia recondita f. sp. tritici on seedling wheat plants. 14387
Effect of leaf rust on yield of some stem rust resistant wheats of Maharashtra. 14400
Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 15911
Levels of shikimate and folate in primary leaves of wheat and in uredospores of leaf rust. 16601
Stomatal penetration of wheat seedlings by stem and leaf rusts in relation to effects of carbon dioxide, light, and stomatal aperture. 16699
Inheritance of reaction to leaf rust in vulgare wheat in the U.A.R. 21085

LEAF SCORCH (STRAWBERRIES)
Studies on the isolation of the strawberry leaf scorch pathogen Diplocarpon earliana. 15173

LEAF SPOT
Phoma leaf spot of tomato and potato in Hawaii. 21146
Alpha-Cyclohexyl-alpha-phenyl-3-pyridinemethanol (EL-331): a new fungicide for the control of certain turf pathogens. (Abstract). 23172

LEAF SPOT (ALFALFA)
Association of polygalacturonate trans-climinase with southern anthracnose but not with spring black stem or Stemphylium leaf spot of alfalfa. 15624
Protease activity of Xanthomonas alfalfae in vitro and during pathogenesis of bacterial leaf spot of alfalfa. (Abstract). 18916

LEAF SPOT (BEANS)
Symptomatological and epidemiological studies of Alternaria leaf spot of bean. (Abstract). 18924

LEAF SPOT (CURCUMA)
Studies on Taphrina maculans Butler, inciting leaf spot of turmeric (Curcuma longa L.). I. Isolation of the pathogen. 18763

LEAF SPOT (CURRANTS)
Kinsealy researchers overcome black currant leaf spot hazard. 18895

LEAF SPOT (EUCALYPTUS)
Leaf characteristics of Eucalyptus bicostata Maiden et al seedlings affecting the deposition and germination of spores of Phaeoseptoria eucalypti (Hansf.) Walker. 15879

LEAF SPOT (GUAR)
Leaf spot of guar caused by Pseudomonas syringae in the United States. 15148

LEAF SPOT (LITCHI)
Leaf spot diseases of Nephelium litchi Camb. 15929

LEAF SPOT (ONIONS)
Attack of onions by phytophthora porri. 14415

LEAF SPOT (PEANUTS)
Effect of different dates of sowing of groundnut on the development and intensity of leaf-spot disease by Cercospora spp. 19842

LEAF SPOT (POA PRATENSIS)
The effect of temperature and light on sporulation of Helminthosporium dictyoides on artificial media. (Abstract). 20917

LEAF SPOT (POPULUS)
An undescribed gall midge leaf spot of balsam poplar. 16697

LEAF SPOT (SUGAR BEETS)
On the damage of cercospora leaf spot of sugar beets caused by Cercospora beticola Sacc. 17305

LEAF SPOT (WHEAT)
Plant disease pitfalls for high yielding wheats in India. 14382
Knowledge of Septoria nodorum Berk., the cause of leaf blotch and glume blotch in wheat. 16553

LEAVES
Comparative survival of rehydrated and nonrehydrated wheat stem rust uredospores on dry leaf surfaces. 13898

Labeling larvae of the elm sawfly with P32. 13932

Studies on potassium nutrition of plants. II. Some effects of potassium deficiency on the organic acids of leaves. 14369

Changes in peach trees (cv. Red Haven) attacked by Taphrina deformans, with particular reference to nitrogen metabolism in infected and non-infected leaves. 14408

Significance of seedling rust resistance of safflower and its relationship to foliage rust resistance. 14423

A survey of weed leaf stomata and trichomes. 14475

The effect of wilting on redox potential of cereal leaves. 14771

Some environmental factors influencing penetration from appressoria of Puccinia graminis f. sp. tritici on seedling wheat leaves. 15020

Bean yellow mosaic virus in detached leaves of red clover plants. 15038

Residue studies of tomato foliage and fruits from plants receiving PEBC- 14 pre-or post-emergence. 15560

Properties of purified acid phosphatases from healthy and rust-infected bean leaves. 15652

Respiration, photosynthesis, and dark fixation of C1402 by healthy and rusted bean leaves. 15653

Role of virus strains and leaf ontogeny in the production of mosaic patterns by turnip yellow mosaic virus. 15869

Leaf characteristics of Eucalyptus bicostata Maiden et al seedlings affecting the deposition and germination of spores of Phaeoseptoria eucalypti (Hansf.) Walker. 15879

Leaf constituents, application rates, and inhibition levels associated with sodium saccharin as related to Xanthomonas vesicatoria resistance in pepper (Capsicum annuum). (Abstract). 15891

Physical and chemical factors controlling the development of infection structures from urediospore germ tubes of rust fungi. 15907

Relation of temperature to prune dwarf symptom expression on Italian prune leaves. (Abstract). 15917

Some properties of leaf proteins from virus-tolerant and virus-susceptible varieties of apple. 15920

Starch depletion and the patterns of its accumulation associated with different rust reaction types of Uromyces phaseoli var. typica race 32 on varieties of Phaseolus. (Abstract). 15938

Studies on the removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. (Abstract). 15945

Alteration of starch and nitrogen in soybean leaves infected by Pseudomonas glycinea. (Abstract). 15950

A physiologic difference in aphids (Homoptera) raised on excised leaves and on intact plants. 16353

A water-soluable factor in Melilotus officinalis leaves which stimulates feeding by the adult sweetclover weevil. 16355

Injury to sugar beet leaves through growth inhibiting herbicides. 16515

The evolution of apple and peartree spot disease during the year 1966. 16540

Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus. 16607

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus. 16613

Cucumber anthracnose: influence of nightly wetting of leaves on numbers of lesions. 16625

Changes in respiration rate of tobacco leaves infested with bacteria in relation to the hypersensitive reaction. 16647

Relationships between Tetranychus urticae Koch and some plant viruses. 16651

Watermelon mosaic virus: Tubular inclusions in pumpkin leaves and aggregates in leaf extracts. 16658

Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 16713

Small cages for observing leaf lice. 16982

About the influence of weather on apple-leaf moths from the time of first appearance to that of frequency. 17000

Infrared aerial color photography for detection of populations of brown soft scale in citrus groves. 17025

Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States. 17036

Population sample counts on spider mites. 17215

Stomatal conductivities in K-deficient leaves of maize (Zea mays, L.). 17268

A canker condition in peach (Prunus persica (L.) Batsch) induced by chilling and its relationship to bacterial canker (Pseudomonas syringae van Hall). 17286

Diallel analyses of the inheritance of resistance in cotton, Gossypium hirsutum L: to races of Xanthomonas malvacearum (E.F.SM.) Dowson. 17290

A biochemical difference between healthy bean leaves resistant and susceptible to the halo-blight disease caused by Pseudomonas phaseolicola. 17291

Movement of tobacco mosaic virus within Nicotiana glutinosa plant grafted with tobacco. 17300

A Pyrenophora-Cochliobolus (Helminthosporium) disease complex in barley. 17304

Histochemical observation of the halo on the epidermal cell wall of barley leaves attacked by Erysiphe graminis var. hordei. ((Abstract). 17313

The association of free amino acids of cotton leaves with resistance to xanthomonas malvacearum caused by the B4 gene and the influence of nitrogen and potassium nutrition. 17314

The nucleic acids of crown-gall tumors from pinto bean leaves and their significance to crown-gall tumor induction by Agrobacterium tumefaciens. 17318

Biochemical properties of the increased proteins in diseased leaves of rice plants in the early stage of infection by Helminthosporium oryzae. 17336

The change of protein fractions in diseased leaves of rice plants in the early stage of infection by Helminthosporium oryzae. 17337

Fungicidal action of triphenyl tin hydroxide toward Cercospora beticola on sugar beet leaves. 17342

A new strain of potato virus Y isolated burley tobacco in Japan. 17350

The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus. 17366

Effectiveness and persistence of low dosages of azinphosmethyl for control of the codling moth. 17392

Biochemical relationships in chlorotic leaves of macadamia (Macadamia tetraphylla L. Johnson) under conditions of iron and manganese deficiency. 17688

The ozone resistance of leaves as related to their sulfhydryl and adenosine triphosphate content. 17708

Spread of the boll weevil by drainage water and air currents. 17824

Method for estimating intensity of the little leaf disease of brinjal (Solanum melongena). 17917

Race buildup of Xanthomonas malvacearum on cotton in southeast Missouri. 17928

Reducing spring discharge of Venturia inaequalis ascospores by composting overwintering leaves. 17929

Selective staining of dead cells in bean leaves injured by ozone. 17931

Morphology and longevity of Verticillium alboatrum in cotton leaves. (Abstract). 17957

Effect of Xanthomonas vesicatoria on loss of electrolytes from leaves of Capsicum annuum. 17970

Effect of Uromyces phaseoli on the water relations of primary bean leaves. (Abstract). 17977

Local lesion development in Turkish tobacco leaves heated after inoculation with tobacco mosaic virus. (Abstract). 17983

Ultrastructure of Zea mays leaf cells infected with Johnson grass strain of sugarcane mosaic virus. (Abstract). 17986

Ultrastructural changes in apple leaf cells induced by virulent and avirulent strains of Erwinia 'amylovora. (Abstract). 17989

Effects of barley stripe mosaic virus infection on the respiration of barley leaves. (Abstract). 17990

Protein and enzyme changes in wheat leaves following infection with Puccinia recondita. 18005

Differentiation of races of Pseudomonas solanacearum by a hypersensitive reaction of tobacco leaves. (Abstract). 18025

Cytochrome oxidase and mitochondrial protein in extracts of leaves of Nicotiana glutinosa L. Infected with tobacco mosaic virus. 18045

Cytokinin effect of benzyladenine: Increase of nucleic acid and protein synthesis in bean leaves. 18048

A leaf blight of corn (Zea mays) incited by Fusarium moniliforme. (Abstract). 18053

Occurrence of Agrophron mosaic virus in Montana. 18058

Conditions for infection of celery by Septoria apiicola.
18059

The frequency of penetration of epidermal strips and intact wheat leaves by Puccinia graminis f. sp. tritici.
18060

Control of the birch leaf minor with disulfoton.
18086

Effects of early-, mid-, and late-season infestations of two-spotted spider mites on the yield of cotton.
18094

Quantitative changes in organic acids in roots and leaves from grapefruit seedlings infected with Rhadopholus similis.
18138

Manganese toxicity in celery.
18413

Interaction of growth regulators in the senescence of nasturtium leaf disks.
18426

Effect of defoliants on carbohydrate and nitrogen metabolism in cotten plant leaves.
18448

Red pine meedle structure.
18451

A biochemical role for boron.
18456

Effect of calcium availability on alfalfa grown in calcareous high sodium soils.
18464

Red light induction of gibberellin synthesis in leaves.
18468

Metabolism of amitrole (3-amino-1,2,4-triazole) in relation to the differential susceptibility of Cirsium arvense (L.) scop. ecotypes.
18474

Larvae of the grey chimoth, antitype (Polia) chi (L.) (Lep., Caradrinidae), feeding on leaves of onion (Allium cepa).
18644

Molybdenum deficiency symptoms in cotton.
18733

In vitro polymerization of winter wheat mosaic virus antigen.
18767

Leaf dip serology for electron microscopic identification of plant viruses.
18772

Grape, concord. Powdery mildew, Uncinula necator.
18790

Prevention of perithecial development by Venturia inaequalis by late-season applications of fungicides. (Abstracts).
18803

Apple. Apple scab, Venturia inaequalis.
18817

Apple. Apple scab, Venturia inaequalis.
18822

Some properties of chrysanthemum stunt virus. (Abstract).
18862

Detection of free viral nucleic acid in the potato virus X infected tobacco, by gel electrophoresis.
18882

An evaluation of three methods for measuring leaf water potential in Dutch elm-diseased seedlings. (Abstract).
18919

Mechanism of starch hydrolysis in bean leaves during infection by bean rust fungus. (Abstract).
18931

The in vitro culture of Puccinia recondita f. sp. tritici. (Abstract).
18943

The effect of light quantity and quality on soybean leaves infected by Pseudomonas glycinea. (Abstract).
18951

Differential susceptibility of rice leaves and panicles to Piricularia oryzae. (Abstract).
18986

Formation of large necrotic lesions by sublethal physical and chemical treatments of Pinto bean primary leaves infected with tobacco mosaic virus (TMV). (Abstract).
18990

Viral lesion formation on chlorophyll deficient leaf area.
18993

Apple: Scab, Venturia inaequalis.
19013

Hopperburn disease of castor bean varieties caused by Empoasca flavescens (F.) in relation to the histology of leaves.
19030

Virus particles in chlordplasts of plants infected with the U5 strain of Tobacco Mosaic Virus.
19073

Cabbage insects; how to control them in the home garden.
19089

Studies on the relations of insects and host plant. II. effects of water stress in host plants on the fecundity of myzus persicae (Sulz.) and Brevicoryne brassicae (L.).
19093

An effect of kinetin on the translocation of 14C-labelled photosynthate in citrus.
19280

Sensitivity of tobacco leaf discs to ozone. (Abstract).
19295

Chymotrypsin inhibitor I from potatoes: a transient protein component in leaves of young potatoe plants.
19299

Relation of lipid content to ozone resistance of tobacco leaves. (Abstract).
19308

Probing behavior of the pea aphid, Acyrthosiphon pisum. II. Comparisons of salivation and ingestion in host and non-host plant leaves.
19666

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(41-chlorophenyl)-1,1-dimethylurea (monuron).
20498

The use of a biochemical indicator for diagnosing micronotrient deficiencies of grapefruit trees under field conditions.
20514

Florida 20, a fleck resistant variety of cigar-wrapped tobacco.
20524

RNA synthesis in cell-free extracts of barley leaves in fected with bromegrass mosaic virus.
20564

Inhibition of Xanthomonas vesicatoria in extracts from inoculated leaves of bacterial spot-resistant pepper. (Abstract).
20570

The reactions of various plant species to leaf infection with potato viruses S. and M.
20580

Studies on plant growth-regulating substances. XXIV. Factors influencing kinetin-induced phosphorus mobilization in detached radish cotyledonary leaves.
21059

Leaf blade folding and motor cells of some blue grasses.
21075

Production of auxin by detached leaves.
21091

Vapour action of fungicides against powdery mildews.
21098

Studies on the influence of leaf washings on infection by Mycosphaerella ligulicola.
21102

Observations on the vapour phase activity of some foliage fungicides.
21129

Further study of the latent strain of the tobacco mosaic virus.
21140

Influence of light on alternation products of Uromyces phaseoli (Pers.) Wint.; mainly a burden of amino acids on string beans.
21150

Resistance in maize to a third East African race of Puccinia polysora Underw.
21161

The determination of irregularly-shaped areas of leaves destroyed by chewing insects.
21173

Large amounts of ribosomal RNA in colchicine-induced tetraploides of Solanum tuberosum L.
21536

Breeding insects with artificial food.
21661

Foliar penetration of naphthaleneacetic acid. (Abstract).
21779

Artificial light induced leaf lesions in a diploid Solanum accession. (Abstract).
21811

Accumulation of hypoxanthine in potato leaves and its effect on spore germination in Phytophthora infestans.
21838

Influence of Rhizopus nigricans Ehrenb. on the development of Alternaria solani (Ell. and Mart.) Jones and Grout.
21840

The relationship between calcium magnesium, and potassium accumulation and titratable acidity in the leaves of selected McIntosh apple clones. (Abstract).
21841

Rate of movement of barley yellow dwarf virus out of inoculated cereal leaves.
21854

Genetic analysis in rice, VIII. Inheritance of resistance to races 4, 22 and 25 of Piricularia oryzae.
21865

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus.
21875

Respiratory patterns in Trifolium pratense inoculated and noninoculated with Erysiphe polygoni.
21881

Investigations of inhibiting mechanisms in virus-infected plants. 3rd communication. Problems of the mechanical transmission of fruit virus to herbaceous host.
21908

Alterations in the peach trees (cv. red haven) attacked by Taphrina deformans with particular reference to the nitrogen metabolism in infected and non-infected leaves.
21916

The dynamics of virus-induced changes in the release of substances from leaves and sprouts.
21927

Magnesium nutrition of apple trees as affected by a wide range of fertilizer materials. (Abstract).
21931

Selective retention of uredospores by leaves.
21957

Selecting tomatoes for resistance to spider mites.
21997

Calcium localization within live oat leaves using a semiconductor detector assembly.
22041

A small contribution concerning the knowledge of Cecidomyiidae.
22399

Determination of the inhibition activity in the sap from potato leaves with regard to the X-virus by means of a serological method.
22503

Utilization of 14C metabolites, incorporation of 32P and changes in respiration occurring in leaves from dalapon treated beans.
22819

Distribution of Trichoplusia ni eggs and larvae on cabbage plants as a basis for sampling efficiency.
22872

A simple method for multiple inoculations of leaves with several races of rust. (Abstract).
23130

Increased resistance to tobacco mosaic virus in gamma irradiated tobacco leaves.
23135

LECANIUM FLETCHERI

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species.
17100

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species.
17813

LEGHORN CHICKENS

The taeniacidal action of dichlorophen in poultry.
19222

LEGISLATION

WACA discussions cover 'silent spring'.

A study of haemolymph proteins in Lepidoptera. Film 695.
16424

Inherited sterility in progeny of irradiated male cabbage loopers.
16496

Some problems connected with the use of light traps.
16976

Frass of some wood-boring insects in living oak (Coleoptera: Cerambycidae; Lepidoptera: Cossidae and Aegeriidae). 17026

Bedellia ehikella sp. n. (Lepidoptera: Lithocolletidae). 17057

Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece). 17058

Lepidoptera from Morea. A vast contribution for fauna of the Peloponnesus (Greece). 17059

The insects and other inhabitants of shelf fungi in the Southern Blue Ridge region of Western North Carolina. III. Isoptera, Lepidoptera and ants. 17116

Insects affecting seed production of Shortleaf pine in the Georgia piedmont. 17748

Notes on raising Lepidoptera in Meurthe and Moselle. 17763

Meteorological factors affecting the activity of night flying Macro-Lepidoptera. 17832

About lepidopterous immatures. 17857

On the innervation of the prothoracic glands in Papilio demoleus L. (Lepidoptera). 17884

Lepidoptera new to Lancashire and Westmorland. 18535

A preliminary experimental study of the sex attractiveness of female Lepidoptera Acrolepia assectella (Zeller) under natural conditions. 18553

Larvae of the grey chimoth, antitype (Polia) chi (L.) (Lep., Caradrinidae), feeding on leaves of onion (Allium cepa). 18644

Strymon leda (Lepidoptera, Lycaenidae) in southern Nevada. 19344

A new species of Cataspilates (Warren) (Lepidoptera, Geometridae, Ennominae). 19353

Two new Lepidoptera of the Netherlands' fauna. 19380

A new concept investigation of the Lepidoptera of lower Austria and the northern Burgenland. 19447

A new concept in the investigation of the Lepidoptera of lower Austria and northern Burgenland. 19448

Descriptions of two new species of Poecilmitis Butler (Lepidoptera: Lycaenidae). 19466

On the discovery of Leptidea morsei in Styria (Lep., Pieridae). 19473

The effect of cytostatic substances on the gonads of some Lepidoptera. 19566

Naviculoid scales in the fore wing terminal borders of Colias species. (Lepidoptera: Pieridae). 19618

Breeding experiment with Clostera anachoreta F. (Lep., Notodontidae). 19636

Solenobia triquetrella Hubner, a flightless parthenogenetic moth, in British Columbia (Lepidoptera: Psychidae). 19655

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Notes on insects taken in New Zealand. 19661

The spiracular mechanism in the Indian Sann hemp moth, Utetheisa pulchella Linne (Lepidoptera: Arctiidae). 19663

Some eggs of moths from several families of Microlepidoptera. 19693

Eggs of moths from additional species of Geometridae-Lepidoptera. 19694

Functional morphology of the copulatory apparatus in the primitive Lepidoptera and general evolutionary trends in the genitalia of the Lepidoptera. 19731

Caterpillar and pupation of Schrankia costaestrigalis Stephens (Lep., Noctuidae). 19747

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Handling techniques for eggs and larvae of Wiseana sp. (Hepialidae). 19753

Notes on Braconidae caught in a sweep-net at paddy fields. Part I. (Hymenoptera). 19755

Notes on Bracon onukii Watanabe, a parasite of four species of Lepidopterous borers (Hymenoptera Braconidae). 19762

Control of grassgrub and porina. 19873

Effect of early sowing of sunnhemp on the incidence of its insect pests. 19902

Contribution to the distribution of the HomoeosomaEphestia genera in Rumania (Lep., Pyralidae). 20176

On the systematic orientation of Lysandra coridon f. polonus (Lep., Lycaenidae). 20209

A revision of the species of Cisthene known to occur north of the Mexican border (Lepidoptera: Arctiidae: Lithosiinae). 20216

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec. 20222

Migrating Lepidoptera in the Netherlands in 1966. 20226

Systematic nomenclature of the hitherto private publication of Macrolepidoptera of the Saarlands. 20235

New Canadian Cryptinae (Ichneumonidae: Hymenoptera). 20236

Entomocaenological and biological studies in Rosa damascena Mill. plantations. I. Lepidoptera. 20240

Notes on the genus Homonopsis V. Kuznetsov (Lepidoptera, Tortricidae). 20242

The systematical placement of some Gelechiidae. (Lepidoptera). 20258

Three species of Proctolaelaps (Acarina, Mesostigmata) from noctuid moths. 20269

The breeding of Callambulyx tatarinovi (Lep., Sphingidae). 20307

Parasitism of the oriental fruit moth, Grapholitha molesta (Busck) (Lepidoptera: Tortricidae) in Ontario, 1956-1965. 20336

The pecan nut casebearer, Acrobasis caryae (Lepidoptera: Pyralidae) on mockernut hickory, Carya tomentosa. 20354

Leafminers of Hvar island (Col., Dipt., Hym., Lep.). 20356

The population biology of the butterfly, Euphydryas editha. V. Character clusters and asymmetry. 20386

The population biology of the butterfly, Euphydryas edithaVII. Has E. editha evolved a serpentine race. 20464

The control of Pachypasa capensis L. (Lepidoptera) with a virus disease. 20621

Mortality due to Bacillus thuringiensis in postlarval stages of some Lepidoptera. 21650

Sex pheromone specificity tests in the Tortricidae--an introductory report. 21729

Faunistic news (Lep. Oecophoridae and Tortricidae). 22278

A new Tortricida from central Europe (Lep. Tortricidae). 22279

Paltsa expedition 1964 (Lepidoptera). 22286

Two new African sub-species of Sphingidae (Lep. Sphingidae). 22292

Amphipyra pyramidea L. a double species (Lep., Agrolidae). 22336

Notes on Argentine butterfly migration, 1965-66. 22405

The morphological and functional evolution of the mouthparts in adult Lepidoptera. 22419

Transmembrane ionic gradients in Lepidoptera as related to cardiac electrical activity. 22426

The taxonomic status of Dialectica soffneris (Gregor Povolny) and Parectopa cupediella (Herrich-Shaffer) (Lepidoptera, Lithocolletidae). 22873

Studies on the effect of Bacillus thuringiensis Berl. on the spiny bollworm, Earias insulana Boisd. and other lepidopterous insects. 22935

Comparison of different methods of counting arthropod populations living off apple trees. 22936

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 48-D. Lepidoptera: 1) Nervous system in Galleria. 2) Morphology of the caterpillar Lithocolletis. 22964

A granulosis of Eupsilia transversa Hufn. (Lepidoptera, Noctuidae) in West Norway. 22969

Utilisation of Trichogramma cacoeciae March., Hym. Trichogrammatidae in control of the plum moth Lep. Tortricidae depending on the numbers used and time of introduction. 23068

LEPIDOSAPHES ULMI

Attempts at combatting oystershell scale, Lepidosaphes ulmi (L.),on appletrees in orchards of Quebec. 18109

LEPISMA SACCHARINA

Silverfish and firebrats; how to control them. 22848

LEPISMATIDAE

The structure of the alimentary canal and salivary glands in Acrotelsa collaris (Thysanura: Lepismatidae). 20398

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura,

Lepismatidae) and its periodisation in connection with imaginal moulting cycles.
23034

LEPISMODES
Reproduction, feeding activity, and growth in the adult firebrat, Lepismodes inguilinus Newman (Thysanura, Lepismatidae).
15826

LEPROSIS (CITRUS)
Occurrence of brevipalpus mites, leprosis, and false leprosis on citrus in Florida.
14442

LEPTINOTARSA DECEMLINEATA
The secretory activity of corpora allata during sexual maturation and imaginal diapause in Gryllus domesticus L and Leptinotarsa decemlineata Say.
13767

The influence of nutrient chemicals on the feeding behavior of the Colorado potato beetle, Leptinotarsa decemlineata (Coleoptera: Chrysomelidae).
16401

Field trials to control Colorado beetle, leptinotarsa decemlineata, with Perillus bioculatus.
16474

Observations over restraining the stink bug (Perillus bioculatus (Fabr.) (Pentatomidae) facing its prey Leptinotarsa decemlineata (Say) (Chrysomelidae).
16978

The role of secondary plant substances in the food specificity of the Colorado potato beetle.
17380

Selection and specificity of the Colorado potato beetle for solanaceous and nonsolanaceous plants.
17381

Isolation of phagostimulative substances from the host plant of the Colorado potato beetle.
17382

On periodicity of gas exchange in ontogenesis of the Colorado beetle (Leptinotarsa decemlineata Say.).
17892

Evidence for radioresistance of the germinal structures of Leptinotarsa decemilineata Say..
19554

A quantitative analysis of citric acid content during ontogenesis of Leptinotarsa decemlineata (Say).
19614

On the relationship between pigmentation and perceptibility of the potato beetle Leptinotarsa decemlineata Say. A contribution to the physiological importance of carotinoid pigment with the demonstration of vitamin A in insects.
19705

On the use of entomopathogenic bacteria together with insecticides in the control of insect pests.
21990

Determination of the suitability of a microdoser for topical application of insecticides to the Colorado potato beetle.
22458

LEPTOCONOPS KERTESZI
Blood meal size of Leptoconops kerteszi (Diptera: Ceratopogonidae).
13874

Colonization studies of Leptoconops kerteszi, biting gnats.
13889

A collection device for Leptoconops kerteszi (Diptera: Ceratopogonidae) biting gnats.
22393

LEPTOCONOPS TORRENS
An improved carbon dioxide sticky cylinder trap.
13748

LEPTOGRAPHIUM
Leptographium root decline of eastern white pine. (Abstract).
16568

LEPTOSPHAERULINA
Species of Leptosphaerulina on forage plants.
15063

Leptosphaerulina-Cercospora complex on peanuts in Texas. (Abstract).
18905

LEPTOSPHAERULINA BRIOSIANA
Effect of temperature on ejection of ascospores of Leptosphaerulina briosiana.
19313

LEPTOSPIRA
Natural antibody in mammalian serum reacting with an antigen in some Leptospires.
16771

Electron microscopy of immune disruption of leptospires: Action of complement and lysozyme.
17483

Leptospira antibody formation by porcine foetuses.
19176

Studies on leptospiral lipase. I. Characterization of lipases from pathogenic and saprophytic strains.
19952

Antigenic analysis of water forms of Leptospira.
19967

Serological investigations concerning the incidence of leptospiral infection among the personnel employed in the care of animals in some zootechnical farms.
22735

LEPTOSPIRA CANICOLA
Studies on pathogenic Leptospirae. VI. Effect of Tween 80 on the growth of Leptospira canicola and Leptospira icterohaemorrhagiae.
17594

Water, electrolyte, and acid-base alterations in experimental canine leptospirosis.
18244

Fibrinogen contont and fibrinolytic activity of plasma from dogs infected with Leptospira canicola.
19143

Endotoxin properties of Leptospira canicola.
22081

Leptospirosis in wild animals. The isolation of a strain of Leptospira canicola from an armadillo (Chaetophractus villosus).
22760

LEPTOSPIRA ICTEROHAEMORRHAGIAE
Studies on pathogenic Leptospirae. VI. Effect of Tween 80 on the growth of Leptospira canicola and Leptospira icterohaemorrhagiae.
17594

Effect of antibiotic therapy on experimental leptospirosis infection and development of acquired resistance in guinea pigs.
22669

Leptospirosis in wild animals. The isolation of a strain of Leptospira canicola from an armadillo (Chaetophractus villosus).
22760

LEPTOSPIRA POMONA
Vaccination against leptospirosis: Immunogenicity of viable, avirulent Leptospira pomona in hamsters, swine, and cattle.
20787

Chemotherapy of renal leptospirosis in swine.
21438

Vaccination against leptospirosis: Immunogenicity of viable, avirulent Leptospira pomona in hamsters, swine, and cattle.
22137

Stimulation of leptospiral growth by glucose.
22653

Comments on some mechanisms of antibody production in bovine leptospirosis.
22682

LEPTOSPIROSIS
Incidence of listeriosis in Pennsylvania livestock.
13969

Detection of leptospires in naturally infected dogs, using fluorescein-labeled antibodies.
15309

Observations on the colonial morphology of leptospires.
15317

Natural occurrence of leptospirosis in the meadow vole, Microtus pennsylvanicus.
15343

On the specific mechanism of the transmission of leptospiral infection.
19976

Vaccination against leptospirosis: Immunogenicity of viable, avirulent Leptospira pomona in hamsters, swine, and cattle.
20787

Chemotherapy of renal leptospirosis in swine.
21438

Studies on leptospiral lipase. I. Characterization of lipases from pathogenic and saprophytic strains.
22035

The classification of leptospiral strains from Kazakhstan.
22042

On the specific mechanism of the transmission of leptospiral infection.
22105

Effect of antibiotic therapy on experimental leptospirosis infection and development of acquired resistance in guinea pigs.
22669

Leptospirosis in wild animals. The isolation of a strain of Leptospira canicola from an armadillo (Chaetophractus villosus).
22760

LEPTOTYPHLUS DUJARDINI
Soil fauna research in the forest of Maures (Var). the dale of Fournel (Coleoptera).
14822

LESIONS
Excretion of foot-and-mouth disease virus prior to the development of lesions.
16755

The effect of hypothalamic lesions on thyroid function in cockerels.
17511

Vascular disease in organomercurial poisoning in swine. (Abstract).
17580

LETHAL FACTOR
Temperature-sensitive mutations in Drosophila melanogaster. II. Frequency among second chromosome recessive lethals induced by ethyl methanesulfonate.
17228

A study of radiation-induced dominant lethals and translocations in Drosophila virilis in an oxygen atmosphere at 4 C.
17235

Gamma-ray-induced mutations in Drosophila melanogaster oocytes: The phenomenon of dose rate.
17904

Developmental characteristics of five lethal mutants of Drosophila melanogaster.
17908

Experimental infections of calves with Trichostrongylus axci: Observations on lethal infections.
19223

Rate of elimination of natural lethals.
20462

Mutation in Thanatephorus cucumeris.
20531

Conditional lethal mutants of rabbitpox virus. III. Temperature-sensitive (ts) mutants; physiological properties, complementation and recombination.
20762

Value of ED50 testing in assessing hazards of acute poisoning by carbamates and organophosphates. (abstract).
20883

Persistence of lethal genes associated SD in natural populations of Drosophila melanogaster.
21045

The value of a fluorescent tracer in determining the quantity of dieldrin on honeybees foraging in a sprayed crop.
21181

On the lethal effects of methyl bromide to broad bean weevil (Bruchus rufimanus Boheman). SB608.B3Y65.
21203

Fatty acid changes in liver fractions of pigeons after lethal-dose radiation and therapy.
21245

LETHAL FACTORS

Control of the greater and lesser wax moths (Galleria mellonella and Achroia grisella) with Bacillus thuringiensis.
17085

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal.). III. Metabolic changes and their bearing on the cessation and delay of moulting.
17177

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal). I. Induction of delayed moulting and defects.
17178

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal). Ii. Mechanism of cessation and delay of moulting.
17179

The occurrence of the fungus Entomophthora grylli Fresenius on locusts and grasshoppers in Thailand.
17192

Electromagnetic energy. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5.
17395

Selective staining of dead cells in bean leaves injured by ozone.
17931

Effect of organo-Phosphorus insecticides on the warm blooded animals and cure thereof.
18193

Avirulent mutant of a strain of ornithosis agent obtained by gamma irradiation.
18195

A method for evaluation of vaccines containing pasteurella multocida.
18380

LETHAL YELLOWING (COCONUTS)

Mechanical transmission of coconut lethal yellowing.
13903

Mechanical transmission of the lethal yellowing pathogen to young coconut palms. (Abstract).
15930

Reproduction of the coconut lethal yellowing syndrome by mechanical inoculation of young seedlings.
18049

LETTUCE

Pulsed ultrasonic sound for control of oviposition by cabbage looper moths.
13835

Studies on potassium nutrition of plants. II. Some effects of potassium deficiency on the organic acids of leaves.
14369

Effect of host plant odour on the behaviour of the adult cabbage root fly, Erioischia brassicae.
14451

Notice of filing of petition regarding pesticide chemicals.
14642

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. N-butylN-ethyl-alpha,alpha,alpha-trifluoro-2,6-dinitro-p-toluidine.
14745

Dependence of longitudinal growth of the hypocotyls of Lactuca sativa L. on the level of exogenous gibberellin GA3 and on the type of illumination.
14774

Effects of big vein on the irrigated head lettuce crop.
15122

Notice of filing of petition regarding pesticides.
15589

Studies on lettuce seed germination. I. Coumarin induced dormancy.
16513

Induction of lettuce root rot under controlled environmental conditions. (Abstract).
16590

The ultrastructure of Olpidium brassicae. I. Formation of sporangia.
17348

Far-red sensitive dark processes essential for light- and gibberellin-induced germination of lettuce seed.
17699

Lettuce. Sclerotinia rot, Sclerotinia sclerotiorum.
18881

Aphid sampling efficiency of Moericke traps affected by height and background.
19064

Probing behavior of the pea aphid, Acyrthosiphon pisum. II. Comparisons of salivation and ingestion in host and non-host plant leaves.
19666

Erysiphe cichoracearum.
19833

The inhibition of photoreactions of chloroplasts by ioxynil,.
20896

Pre-emergence herbicides for weed control in lettuce.
21215

Effects of covering materials and incorporated herbicides on lettuce stands under three irrigation treatments.
21230

Determination of bidrin, azodrin, and their metabolites with the thermionic detector.
21551

Lettuce growth and tipburn incidence under controlled humidity. (Abstract).
21768

The effects of kinetin in overcoming high-temperature inhibition of lettuce seed germination. (Abstract).
21803

Growth regulators to control lettuce bolting. (Abstract).
21850

Lettuce tipburn and nitrogen metabolism. (Abstract).
21921

The inheritance and nature of Albinism, involucre shape, and chlorophyll deficiency in lettuce. (Abstract).
21923

M-N-ethylaminobenzoic acid: absence of phytotoxic activity.
22227

The effects of petroleum mulch and herbicides on lettuce.
22554

LEUCANIA SEPARATA

Resistance to starvation of pale and black larvae of the armyworm, Leucania separata Walker (Lepidoptera: Noctuidae).
15771

LEUCINE

Avirulence of a methionine-sensitive leucine mutant of Penicillium expansum in Jonathan apple. (Abstract).
16545

Effects of cycloheximide (CHX) on DNA and protein synthesis in rat liver. (Abstract).
17480

LEUCINE AMINOPEPTIDASE

A study of isoenzyme polymorphism in experimental populations of Drosophila melanogaster.
19786

LEUCOCYTOZOON ANATIS

Trypanosoma dafilae sp. n. and Leucocytozoon anatis Wickware, 1915 in the northern pintail (Dafila acuta acuta L.).
16893

LEUCOCYTOZOON CAULLERYI

The occurrence of Leucocytozoon caulleryi in domestic fowls in the Philippines.
20824

LEUCOCYTOZOON DISEASE

Schizogony and gametogony of Leucocytozoon simondi and associated reactions in the avian host.
22650

LEUCOCYTOZOON SIMONDI

Comparison of infections with Leucocytozoon simondi in black ducks (Anas rubripes), mallards (Anas platyrhynchos) and white Pekins (Anas bochas).
17519

Anemia and mechanism of red cell destruction in ducks with acute Leucocytozoon disease.
17525

Schizogony and gametogony of Leucocytozoon simondi and associated reactions in the avian host.
22650

LEUCOPHAEA

The importance of locomotor activity in circadian systems.
14909

LEUCOPHAEA MADERAE

Solubility and electrophoretic properties of ovarial protein of the cockroach, Leucophaea maderae.
15752

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro.
16392

Endocrine control of female receptivity in Leucophaea maderae (Blattaria).
17104

Effects of different concentrations of sodium, potassium and calcium on the rate of heart beat of Madiera cockroach, Leucophaea maderae Fabr.
19720

Analysis of the synthesis of some yolk proteins under the influence of the Corpora allata of Leucophaea maderae.
20424

Bio-acoustic investigations of the cockroach Leucophaea maderal (F.).
20435

Response characteristics and probable behavioural roles for abdominal vibration receptors of some cockroaches.
21680

Ranges of circadian period length.
22423

Regenerating tissues from the cockroach, Leucophaea maderae: Nerve regeneration in vitro.
22425

Central nervous system control of circadian rhythmicity in the cockroach. I. Role of the pars intercerebralis.
22433

LEUCOPIS (INDIOLEUCOPIS)

A new subgenus for Leucopis luteicornis Malloch, a predator on mealybugs in India (Diptera: Chamaemyiidae).
14121

LEUCOPTERA COFFEELLA

Field studies of insecticides for control of the coffee leaf miner, Leucoptera coffeella.
22365

LEUKEMIA

Juvenile bovine leukosis; an epizootiological, clinical, patho-anatomical and experimental study.
17129

Experimental transmission of two canine neoplasms: Lymphosarcoma and mast cell leukemia.
18310

Production of a wasting syndrome in the hamster after the innoculation of bovine leukemic extract.
20733

Bovine lymphatic leucosis in the Netherlands; a histopathological study.
20746

Electron microscopy of virus-like particles found in bovine leukemia.
20757

LEUKOCYTES

Variations in uterine response to experimental infection due to the hormonal state of the ovaries. II. The mobilization of leukocytes and their importance in uterine bactericidal activity.
15288

Variation in the inflammatory response and bactericidal activity of the sheep uterus during the estrous cycle.
15296

Plasma zinc and leukocyte changes in rats during zinc deficiency. (Abstract).
17504

Comparison of infections with Leucocytozoon simondi in black ducks (Anas rubripes), mallards (Anas platyrhynchos) and white Pekins (Anas bochas).
17519

C.F. antigen from leukocytes infected with the virus of equine infectious anemia. (Abstract).
17524

Acquired immunity to Fasciola hepatica in the laboratory white mouse.
17627

Hemophilia-like disease of swine: Cytogenetic studies.
18223

Moldy corn poisoning as the major cause of an encephalomalacia syndrome in egyptian equidae.
19156

Comparative effects of tretamine, tepa, apholate, and their structural analogs on human chromosomes in vitro.
20923

The in vitro effect of ketone bodies on the growth curves of mastitis organisms in milk.
23348

LEUKOCYTOSIS

Dirofilaria tenuis containing microfilariae in man.
14539

Polyarthritis in a dog.
16028

Remarks concerning the infection of France by lymphoid cattle leukocytosis.
21378

Hematological detection of lymphoid leukocytosis of cattle in Gers.
21379

The behavior of macronucleolar and polynucleolar lymphocytes in bovine leukosis.
21449

LEUKOPENIA

Experimental mastitis in leukopenic cows: Immunologically induced neutropenia and response to intramammary inoculation of Aerobacter aerogenes.
20720

LEUKOSIS

Leukosis - Transmission by beetles.
15311

Investigations into the question of the occurrence of different types of lymphocytes in cattle with particular reference to enzootic leukosis.
21432

Problems of bovine leucosis.
22711

The behavior of macronucleolar and polynucleolar lymphocytes in bovine leukosis.
22738

LICENSES

License requirements for vaccines for bovine respiratory diseases.
16807

LICHENES

Studies on the moss mites of Snowdonia (Acari: Oribatei). I. Moel Hebog.
13749

LIFE CYCLE

On the classification and life history of Fergusobia currici (Sphaerulariidae: Nematoda). (Abstract).
17427

Parasitic and free-living cycles in entomogenous nematodes of the genus Deladenus.
17731

Life history of Gesta gesta invisus (Lepidoptera: Hesperiidae).
20324

Artificial diet for the zoysiagrass billbug, Sphenophorus venatus vestitus (Coleoptera: Curculionidae), and notes on its biology.
20369

New type of nuclear life cycle in Hemileia vastatrix.
20557

Contribution to studies of Zeuzera 'Zeuzera pyrina' L. (Lepidoptera Cossidae) in the lower valley of the Rhine: The life cycle and biological characteristics of different stages.
21651

The Australian plague locust Chortoicetes terminifera.
21668

Ecology of Gomphomastax clauata plotnikovi C. Bol. (Orthoptera Eumastacidae).
21669

Biology of the black widow spider, Latrodectus hasselti Thorell (Araneida: Theridiidae).
21697

Studies on biology of banmalika leaf minor (Agropistis limatus, Moth., Coleoptera, Halticidae.) A serious pest of banmalika (Jasminum aquestifolium, Vohl.) in Rajasthan.
21982

Study of an Itonidid (Contarinia medicaginis Kieffer) and of its host.
21998

Immunological unresponsiveness to helminth parasites: I. The pattern of Nippostrongylus brasiliensis infection in young rats.
22166

Notes on the biology of the parasitic mite Pyemotes scolyti Oud. (Acari: Pyemotidae).
22352

Contribution of a biological study of Pissodes notatus F. (Col. Curculionidae).
22366

The rearing of Luperina nickerlii knilli Boursin (1964) (Lep., Noctuidae) under laboratory conditions.
22430

Experimental study of the effect of nutrition on cyclecompletion in Pythidae parasites in tropical cultures.
22440

Drenching of sheep and cattle important for parasite control.
23368

LIGHT

Seasonal changes in daily activity periods of the sweetclover weevil.
13775

Phototactic choice between two white light sources of various intensity in blowfly, Calliphora erythrocephala Meig.
13823

Influence of temperatures and light regimens on diapause of Samia cynthia pryeri.
13846

The role of light in spore germination and sporidial production of the wheat smut fungus, Tilletia caries (DC.) Tul.
13904

Factors in paraquat-induced chlorosis with Phaseolus foliar tissues.
14005

Effect of desiccation on the light reactions of Carpophilus dimidiatus and Tribolium castaneum.
14149

The effect of illumination and pool brightness on oviposition by Culex restuans (Theo.) in the field.
14157

Effects of light on sporulation of Cercospora beticola.
14348

The effect of visible and near-visible radiation on the sporulation of Helminthosporium vagans. (Abstract).
14357

Uredospore production of five races of Puccinia recondita Rob. ex Desm. as affected by light and temperature.
14367

Dependence of longitudinal growth of the hypocotyls of Lactuca sativa L. on the level of exogenous gibberellin GA3 and on the type of illumination.
14774

Sex pheromones of noctuid moths. VIII. Orientation to light by pheromone-stimulated males of Trichoplusia ni (Lepidoptera: Noctuidae).
14881

Effect of light on the rate of decay of three wood destroying fungi.
15044

Effects of light, temperature, and fertilizer on infection of wheat leaves by Septoria tritici.
15047

Inoculation of etiolated but light-treated leaves of grape with fanleaf virus.
15079

Stable flies. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15774

Rat fleas. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15779

Factors affecting concentrations of dimethylated indolealkylamines in Phalaris tuberosa L.
16030

Observations on the larvae of Hippotion celerio L. (Lepid., Sphingidae in Tanzania. (Abstract).
16262

The influence of controlled environments and grass hosts on the life cycle of Endria inimica (Homoptera: Cicadellidae).
16373

Flight activity of honeybees in a flight and rearing room. I. The influence of light intensity.
16436

Phototactic response of adults of confused flour beetle and red flour beetle and larvae of black carpet beetle to flashes of blue-white light.
16456

Some responses of flying Aedes aegypti to visual stimuli.
16481

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions.
16485

Time of arrival of gravid Culex pipiens fatigans at an oviposition site, the oviposition cycle and the relationship between time of feeding and time of oviposition.
16500

Spectral distribution of light in forests of the Douglas fir zone of southern British Columbia.
16518

A dynamic-equilibrium illuminated temperature-, humidity-, and pollutant-controlled plant fumigation chamber. (Abstract).
16559

Effect of light on sporulation of Helminthosporium stenospilum. (Abstract).
16576

Resistance to spread of virus from cell to cell in T. I. 245 tobacco.
16687

Light requirement and light inhibition of sexual reproduction in Fusarium (Hypomyces) solani f. sp. cucurbitae race 2.
16689

Stomatal penetration of wheat seedlings by stem and leaf rusts in relation to effects of carbon dioxide, light, and stomatal aperture.
16699

Inducing sporulation in different strains of Alternaria solani. I. Effect of visible light.
16935

Marking tobacco hornworm moths for night recovery with a blacklight lamp.
16998

The biology and ecology of sicklepod (Cassia obtusifolia L.).
17252

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants.
17253

Effect of genetic recombination on the pathogenicity of Phytophthora infestans.
17273

The effect of vitamins and light on cultural responses of Fusicladium effusum. (Abstract).
17679

Circadian emergence rhythm of a tropical scolytid, Xyleborus ferrugineus.
17767

Comparative gibberellin relationships in tall and dwarf peas (Pisum sativum L.).
17916

On light-sensitivity in germinating uredospores of wheat brown rust.
18080

Light quality effects on growth and development ragweed.
18161

Hog cholera: Safety and protection studies with photodynamically inactivated hog cholera virus.
18232

Light stimulated biosynthesis of gibberellins in Fusarium moniliforme.
18462

Red light induction of gibberellin synthesis in leaves.
18468

Stomatal movements; a yearly rhythm.
18473

Metabolism of amitrole (3-amino-1,2,4-triazole) in relation to the differential susceptibility of Cirsium arvense (L.) scop. ecotypes.
18474

Studies on the oviposition behavior and the development of the type of Aedes aegypti L. (Dipt., Culicidae). V.
18684

Studies on the oviposition behavior and development of the type form of Aedes aegypti L. (Dipt., Culicidae). IV. Light intensity.
18685

The ultrastructure of the metasternal glands of ants.
18690

A method of screening for resistance to early blight on tomato seedlings. (Abstracts).
18774

Differential sensibility of the common May-bug, Melolontha melolontha, L. (Col. Scarabeidae) to certain wavelengths of the visible spectrum.
19585

Observations on the behavior of the blue tick, Boophilus decoloratus (Koch) (Acarina: Ixodidae).
19615

To the question of the regularity of the Circadian Rule.
19707

Developmental duration and hatching of the pupae of Aedes (Ochlerotatus) punctor (Kirby) (Diptera, Culicidae) under long daylight conditions in northern Sweden.
19742

Studies on phase-shifts in endogenous rhythms. I. Effects of light pulses on the eclosion rhythms in Drosophila pseudoobscura.
20318

Studies on phase-shifts in endogenous rhythms. II. The dual effect of light on the entrainment of the eclosion rhythm in Drosophila pseudoobscura.
20319

Influence of light and temperature on the hatching-activity of Chironomus nuditarsis Str.
20340

Collection of Simuliids from the Ivory Coast. Study of the activity of the females of Simulium damnosum Theobald.
20346

The effect of light and temperature on the colour of the English grain aphid, Macrosiphum avenae (F.) (Hom., Aphididae).
20385

Receptor potentials of single visual cells of Calliphora erythrocephala: An analysis.
20447

Stability of attenuated canine distemper vaccine derived from chick embryo tissue culture.
20770

Effect of light of various spectral compositions on some aspects of auxin metabolism in cultures of isolated carrot tissue.
20907

The effect of temperature and light on sporulation of Helminthosporium dictyoides on artificial media. (Abstract).
20917

Growth and antholyanin synthesis in excised Sorghum internodes. I. Effects of growth regulating substances.
20918

Gibberellic acid and the light inhibition of stem elongation.
20919

Intracellular responses from the grasshopper eye.
21035

Influence of light on alternation products of Uromyces phaseoli (Pers.) Wint.; mainly a burden of amino acids on string beans.
21150

The effect of light and temperature on the testicular growth of the Japanese quail.
21265

Slow and spike potentials recorded from retinula cells of the honeybee drone in response to light.
21653

Lettuce growth and tipburn incidence under controlled humidity. (Abstract).
21768

Uredospore production of five races of Puccinia recondita Rob. ex Desm. as affected by light and temperature.
22209

Light and temperature effects on growth and sporophore formation of Lenzites trabea.
22218

Daily weight gain of the European corn borer reared on artificial media (Lepidoptera: Pyraustidae).
22373

Changes in the population of Cecidomyiidae.
22398

Light reflexes of caterpillars of Bombyx mori L. (Lepid.).
22446

Studies of the germination, growth and development of barnyardgrass.
22565

Interactions between atrazine residue and four herbicides: Amiben, CDAA, linuron, and trifluralin.
22810

Effect of sucrose, auxins and gibberellic acid on rooting of stem segemnts of Populus nigra under varying light conditions.
22818

The optics of insect compound eyes.
23013

LIGHT TRAPS

Aphid trapping with black-light lamps.
13912

Incidental capture of vertebrate wildlife in blacklight insect traps.
14120

Attraction of pear psylla to blacklight.
14212

Influence of near-ultraviolet output of attractant lamps on catches of insects by light traps.
14792

Mating frequency of female pink bollworms collected from light traps.
14884

Oligia versicolor vojnitsi ssp. n. (Lepidoptera: Noctuidae).
15717

A technique for measuring trapping efficiency of electric insect traps.
16253

Some problems connected with the use of light traps.
16976

A brief review of the principles of light trap design with a description of an efficient trap for collecting noctuid moths.
16979

Data to the knowledge of Callogonia virgo Tr. and the description of a new subspecies (Lepidoptera: Noctuidae).
17034

Experimental prediction of occurrence of leafhopper. 5. ovary maturing condition and egg-laying in the weeds of leafhopper hibernated imago. Transl. 16901.
17169

Studies on the ecology of rice green caterpillar. I.On the habit of progress in the north part of Hokkaido (Kamikawa area). II. On the active time of adults by night. III. on the relation between the activity of adults by night and weather. Transl. 16696.
17384

Electromagnetic energy. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5.
17395

Catch of insects at different heights in traps equipped with blacklight lamps.
17736

Insects affecting seed production of Shortleaf pine in the Georgia piedmont.
17748

Influence of population level and trap spacing on capture of tobacco hor-worm moths in blacklight traps with virgin females.
17861

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River Mission, Cape York Peninsula, north Queensland. II. Arbovirus infections of mosquitoes, man, and domestic fowls, 1963-1966.
17910

Aphid vectors of barley yellow dwarf virus in blacklight traps in eastern United States.
18089

A preliminary account of some data on Heteroptera taken at light in the New World Tropics.
18523

Round the blue lamp.
18636

Notes on light trap catches of Heteroptera made in the tropics.
18681

Attraction of pear psylla to blacklight.
19035

Mayflies taken at the Archbold Biological Station, Highlands County, Florida.
19401

Quantitative sampling of aquatic insects in a shallowwater habitat.
19414

The seasonal fluctuation of the inland Culicoides of southern Louisiana (Diptera: Ceratopogonidae).
19641

Electroluminescence plates as mosquito attractants.
19685

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec.
20222

The use of fluorescent tubes in a modified New Jersey light trap.
20230

Evening crepuscular activity of some Iowan mosquitoes (Diptera: Culicidae).
20290

Flight of moths (Lepidoptera, Noctuidea) to different sources of light in the mountain-forest zone of Crimea.
20367

The Cape May Commission builds a controlled water level facility for mosquito control.
20373

Light-trap collections of mosquitoes near Belleville, Ontario, in 1965.
20483

Use of virgin female tobacco budworms to increase catch of males in blacklight traps and evidence that trap locations and wind influence catch.
22875

LIGHTING

Production of the perfect stage of Botryotinia (Botrytis) squamosa under controlled environmental conditions. (Abstract).
16546

Some factors influencing conidial production of Glomerella cingulata pathogenic to camellias. (Abstract).
17672

Low light intensity promotes melting out of bluegrass. (Abstract).
18026

An experimental study of the effect of changing light intensity on the activity of adult locusts.
18648

The effect of light quantity and quality on soybean leaves infected by Pseudomonas glycinea. (Abstract).
18951

Effect of different coloured lights on the development of Bemisia tabaci Genn.
20977

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Determination of optimal irradiation.
21356

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella hovis infection: Resistance to re-exposure with homologous and heterologous Moraxella bovis.
21357

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Correlation of hemolytic ability and pathogenicity.
21418

Daily susceptibility of house flies to malathion.
22975

The effect of darkening on the susceptibility of French bean to tobacco necrosis virus.
23133

LIGNIFICATION

Gibberellic acid-promoted lignification and phenylalanine ammonia-lyase activity in a dwarf pea (Pisum sativum).
20891

LIGNIN

Color formation on phenol-containing media as related to lignin breakdown by wood-rotting basidiomycetes.
15630

Histochemical studies on the alteration of lignin and pectic substances in white elm infected by Ceratocystis ulmi.
21852

LILIUM LONGIFLORUM

Studies on the necrotic fleck disease of Easter lily, Lilium longiflorum.
17283

LIMA BEANS

Sporulation of Phytophthora phaseoli.
15086

Evidence for a chemical basis of resistance of lima bean plants to downy mildew.
15206

The occurrence and decline of downy mildew on lima beans in the Middle Atlantic states.
15215

Transmission of downy mildew of lima beans by slugs.
15218

Factors in lima bean and hemp seed required for oospore formation by species of Phytophthora. harnish, w n.
15615

Accumulation of phenols in resistant plant-fungus interactions.
17280

Heat-induced susceptibility of beans to rust.
17306

Lima beans resistant to downy mildew (Phytophtora phaseoli). (Abstract).
18984

The rapid development and spread of strain B of Phytophthora phaseoli in 1967. (Abstract).
18997

Bean (lima), sweet potato, Root-knot nematode, Meloidogyne incognita.
19006

LIMACODIDAE

Some eggs of moths from several families of Microlepidoptera.
19693

LIME

Sweetpotato soil, rot development in Olivier silt loam soil as affected by annual applications of lime or sulfur over a seven-year period.
15123

Reducing spring discharge of Venturia inaequalis ascospores by composting overwintering leaves.
17929

LIMES

Haplosporella canker of Citrus aurantifolia in Rajasthan.
15865

Effects of lime on incidence of Botrytis gray mold of tomato.
15954

LIMESTONE

Availability and utilization of magnesium from dolomitic limestone and magnesium oxide in steers.
14511

LIMNOLOGY

The increasing Chaoborid midge problem in California.
16284

LIMONENE

Derivatives of ( )-limonene. Effect of chain length in n-alkyl quaternary ammonium derivatives on plant growth-retardant activity.
16250

LIMONIIDAE

Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 63rd contribution. Diptera: Limoniidae.
14086

LIMONIUS CALIFORNICUS

Susceptibility of wireworms to aldrin in eastern Washington.
14240

LIMONIUS CANUS

A sex pheromone in the Pacific coast wireworm.
17180

LINARIA

Pollen-foraging behavior of Bombus in relation to pollination of nototribic flowers.
23004

LINCOMYCIN

Cellular response of calves to first-generation schizonts of Eimeria bovis after treatment of calves with sulfamethazine and lincomycin hydrochloride.
21464

Effect of inoculum size on in vitro susceptibility testing with lincomycin.
23385

LINDANE

Effect of post-treatment temperature on toxicity of insecticides to resistant and susceptible house flies.
13784

Residual activity of diazinon and lindane for control of Loxosceles reclusa.
13884

Benzene hexachloride as a preemergence herbicide. patent 3,356,486.
14486

Persistence and biodegradation of four common isomers of benzene hexachloride in submerged soils.
14619

The biology and ecology of Dendroctonus valens Flec., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleopterai Scolytidae).
15165

Control of the pickleworm on cucurbits.
15228

Effectiveness of various formulations of five insecticides on insects infesting douglas-fir logs.
15250

Lindane in diesel oil prevents western pine beetle attacks for at least one year.
15251

Field tests with insecticides for control of lone star ticks on cattle.
15502

Study of modifications of the Mills procedure for chlorinated pesticides in dairy products.
15562

Rapid cleanup of dairy products for analysis of chlorinated insecticide residue by electron capture gas chromatography.
15568

The determination of pesticides in tissues with the electron capture detector without prior cleanup.
15578

Canine scabies--an emerging zoonosis.
15842

Sheep ectoparasite control. II. Toxicity to sheep, and residues of diazinon and lindane.
16093

Lindane controls Lyctus powder-post beetles during airdrying of rough ash lumber.
16108

Laboratory method for determining the rate of volatilization of insecticides from plants.
16127

Use of Daphnia magna for the microbioassay of pesticides. II. Comparison of microbioassay with gas chromatography for analysis of pesticide residues in plant extracts.
16296

Cabbage maggot resistance to organochlorine insecticides.
16317

Some physiological effects of sublethal doses of DDT on flour beetles.
16462

The use of organochlorine insecticides and possible alternatives against leatherjackets.
16715

The adsorption of chlorinated hydrocarbon pesticides on an unconsolidated aquifer substrate.
16901

Control of grassgrub and porina.
19873

Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion.
19904

IUPAC commission on terminal residues.
20078

Dissipation of insecticide residues from crop of Indian rape seed. I. Treatment with BHC-WP and lindane-ec.
20081

Penetration of lindane into plants of various photoperiodic groups and its biological activity depending upon the light conditions.
20637

Water pesticides. 2.
20851

Lindane residues on pasture and in the fat of sheep grazing pasture treated with lindane prills.
20854

The Australian plague locust Chortoicetes terminifera.
21668

New methods of pest control.
21989

How to get rid of ectoparasites of poultry.
22156

Effect of temperature and humidity on the susceptibility of bedbugs to insecticides.
22455

Aerial spraying boosts jute output.
22486

Insecticides in Norwegian forestry.
22517

An estimate of the area of Danish forestry which is treated with pesticides other than herbicides.
22518

Search for more rice.
22521

Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice.
22522

Pasture cockchafer control interim revised control recommendation.
22540

Pesticide residues in diary produce.
22797

Residual activity of chlorinated hydrocarbon insecticides in permanent turf for European chafer control.
23188

LINE PATTERN (PLUMS)
Host range, characteristics, and purification of plum line pattern virus.
18902

LINOLEIC ACID
Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat.
16470

A biochemical difference between healthy bean leaves resistant and susceptible to the halo-blight disease caused by Pseudomonas phaseolicola.
17291

Linoleic acid requirement of the hen for reproduction.
17545

Studies on pathogenicity and fatty acid composition of Raillietina cesticillus (Cestoda).
17599

LINOLENIC ACID
Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat.
16470

A biochemical difference between healthy bean leaves resistant and susceptible to the halo-blight disease caused by Pseudomonas phaseolicola.
17291

LINSEED OIL
Systemic-chemical paints for the control of Cytospora canker disease in prune trees.
17996

LINURON
Interaction effects of atrazine and CDAA, linuron, amiben, or trifluralin on soybean growth.
14006

Determination of linuron and its known and/or suspected metabolites in crop materials.
15566

Flame, alone and in combination with herbicides, for weed control in corn, potatoes, and several cole crops.
17465

The decomposition of urea herbicides in soil.
17717

Pre-emergence chemical control of mattress hay on coffe plantations.
19932

Test of herbicides in pre-plant and in pre-emergence on potato crop.
20635

Oral toxicity of linuron (3-(3,4-dichlorophenyl)-1-methoxy1-methylurea) in rats and dogs.
20873

Herbicide/surfactant combinations for celery seedbeds.
22599

Weed control in young peach orchards.
22601

Bioassay evaluation of depth distribution of incorporated soybean preemergence herbicides.
22605

Interactions between atrazine residue and four herbicides: Amiben, CDAA, linuron, and trifluralin.
22810

Saffron thistle control in cereals.
23225

Thin layer chromatographic separation of linuron and diuron and some of their known or suspected soil metabolites.
23442

LINYPHIA TRIANGULARIS
Copulation and sperm induction by normal and palpless male linyphiid spiders.
13847

Territoriality in the sheet-web spider Linyphia triangularis (Clerck) (Araneae, Linyphiidae).
21731

LIODES
Liodes (Oreosphaerula) nitida sedlicaensis ssp. n. from Czechoslovakia (Coleoptera, Liodidae).
14054

LIPAPHIS ERYSIMI
Biology of the mustard aphid, Lipaphis erysimi, in India.
17194

Control of mustard aphid (Lipaphis erysimi Kalt.) by systemic insecticides.
18115

LIPARA LUCENS
Habitat selection by Lipara lucens Mg. (Diptera, Chloropidae) and its survival value.
17761

LIPARTHRUM LAURIVORUS
252. Contribution to the morphology and classification of Scolytoidea. Bark beetles from Turkey.
22913

LIPASES
A possible reservoir of tyrosinase substrates in Drosophila melanogaster.
17691

Studies on leptospiral lipase. I. Characterization of lipases from pathogenic and saprophytic strains.
19952

Studies on leptospiral lipase. I. Characterization of lipases from pathogenic and saprophytic strains.
22035

LIPEURUS CAPONIS
Control of chicken body, shaft, and wing lice on laying hens by self-treatment with insecticide dusts and granules.
14580

Dust containing Bacillus thuringiensis for control of chicken body, shaft, and wing lice.
15504

LIPIDS
Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae).
13782

Seasonal lipid content of bagworm larvae.
13806

Studies on the antigenic structure of mycobacteria. il. antigenic structure and lipid fractions of Mycobacterium avium and avium-like strains.
13971

Effect of diet on the lipid composition of the cockroach Blaberus discoidalis.
14229

Changes in haemolymph lipoproteins during locust flight.
14914

Evidence for a lipid activator of prophenolase in Tenebrio molitor.
15762

Enzymatic synthesis and degradation of starch and lipid during clubroot development in cabbage. (Abstract).
15888

Variations of phospholipids in the course of metamorphosis of Tribolium confusum (Coleoptera).
16360

Contribution to the histochemical study of the digestive organs of Rhagium bifasciatum. (Col. Cerambycidae).
16390

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro.
16392

Growth, feeding activity, and the utilization of reserves in larvae of Locusta.
16399

Metabolic thermal adaptations in the mosquito Culex pipiens pipiens (Diptera: Culicidae).
16447

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia.
16464

Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat.
16470

Fatty acids in honey bees (Apis mellifera) infected with the Protozoan Nosema apis.
17190

Metabolic changes in biotin-deficient Aspergillus nidulans.
17272

A biochemical difference between healthy bean leaves resistant and susceptible to the halo-blight disease caused by Pseudomonas phaseolicola.
17291

Lipid metabolism in clubroot of cabbage.
17344

Renal effects of carbon tetrachloride in the cat.
17592

Some aspects of isolevcine metabolism in the yellow fever mosquito, Aedes aegypti (L.).
17891

Constituents of the cotton bud. XIII. Further studies on a nonpolar feeding stimulant for the boll weevil.
18124

Lipids of Venezuelan equine encephalomyelitis virus and their relationship to the lipids of the host.
18256

Clinico-epidemiological and immunological examination of persons, vaccinated and nonvaccinated against brucellosis, subject to infection hazard.
19258

Relation of lipid content to ozone resistance of tobacco leaves. (Abstract).
19308

Changes in fatty acid composition of Culex pipiens during hibernation.
19564

Immunochemical analysis of serologically active lipids of Mycoplasma pneumoniae.
19946

Lipid metabolism in the adult cestode Hymenolepis diminuta.
19996

Body-fat composition of male Ascaris lumbricoides before and after starvation.
20039

Sensitivity of trypanosomes to metabolic inhibitors.
20040

The conversion of 14C-carbohydrates into CO2 and lipid by the silkworm, Bombyx mori.
20359

Fatty acid composition of the rice stem borer Chilo suppressalis Walker.
20371

The deposition of lipid and the composition of neutral lipids in the fat body of Sarcophaga bullata (Diptera).
20436

Metabolic changes in biotin-deficient Aspergillus nidulans.
20507

Chemical and morphological changes in the brains of copperdeficient guinea pigs.
20703

Insect diseases resulting from malnutrition.
20998

Ubiquinones of the queens of the oriental hornet, Vespa orientalis.
20999

Effect of pyridoxine deficiency on lipid metabolism in the chick.
21247

Buoyant density of African horsesickness virus.
21424

Effect of diet on the lipid composition of the cockroach Blaberus discoidalis.
22427

LIPOKOPHILA CHINAI

Lipokophila chinai gen n sp n; a new genus of Plokiophilioae (Aeteroptera) from Brazil.
13754

LIPOMATOSIS

Pathological studies on fat necrosis (Lipomatosis) in cattle.
20717

LIPOPOLYSACCHARIDES

Reactions following intramammary infusion of E. coli endotoxin.
14544

Heterogeneity of antibody response to Salmonella lipopolysaccharide measured by passive hemagglutination and hemolysis in mice.
19997

LIPOPROTEINS

Changes in haemolymph lipoproteins during locust flight.
21008

Incorporation of lysine-6-C14 into the protein of the adult boll weevil, Anthonomus grandis.
21011

Electrophoretic analysis of a Fasciola hepatica-total extract.
23361

LIQUEFIED GASES

Control of the leaf-cutting ant, Atta capiguara, Gonlalves, 1944--a pasture pest, with ant-killers: Dusts, liquified gases, powdered and pelleted baits.
20587

LIQUIDAMBAR

Sweetgum lesion caused by Botryosphaeria ribis.
15960

LIQUIDAMBAR STYRACIFLUA

Sweetgum lesion caused by Botryosphaeria ribis.
15960

LIRIODENDRON TULIPIFERA

The impact of tuliptree scale feeding on its host, yellowpoplar.
16704

Morphology and pathogenicity of Cylindrocladium floridanum and C. scoparium. (Abstract).
23163

LIRIOMYZA

A review of recent literature on the host plant range of the genus Liriomyza mik (Diptera: Agromyzidae) in the Continental United States and Hawaii, excluding Alaska.
17770

A note on some Agromyzidae (Diptera) from northern Persia including a new Liriomyza species.
18533

LISSORHOPTRUS ORYZOPHILUS

Rice water weevil resistance to aldrin in Texas.
16366

Rice water weevil increase noted in California.
21191

LISTERIA GRAYI

Ecologic aspects of listeriosis.
18214

LISTERIA MONOCYTOGENES

Incidence of listeriosis in Pennsylvania livestock.
13969

Listeric myelitis in sheep.
14510

The effect of pH on the multiplication of Listeria monocytogenes in grass silage media.
14614

Experimental ovine listeriosis. III. Inoculation of rams.
16848

Isolation of Listeria monocytogenes from vegetation.
16857

Cellular immunity of mice infected with Listeria monocytogenes in diffusion chambers.
17559

Ecologic aspects of listeriosis.
18214

Toxicity studies of Listeria monocytogenes grown in vivo.
19171

Growth of listeria monocytogenes in corn silage extract medium.
20518

In vivo production of a toxin(s) by Listeria monocytogenes.
20744

Toxicity studies of Listeria monocytogenes grown in vivo.
22075

Uterine-amnionic pathway of infecting the rabbit fetus with Listeria monocytogenes.
22106

In vivo production of a toxin(s) by Listeria monocytogenes.
22113

Effects of Listeria monocytogenes hemolysins on the isolated ileum of rabbit.
22135

Specificity of the anamnestic response produced by Listeria monocytogenes or Mycobacterium tuberculosis to challenge with Listeria monocytogenes.
22644

Specificity of acquired resistance produced by immunization with Listeria monocytogenes and listeria fractions.
22645

Fractionation and characterization of the plasma and mesosome membrane of Listeria monocytogenes.
22660

Isolation of Listeria monocytogenes from brains of rabiesnegative animals.
22706

Preliminary studies of Listeria monocytogenes in deer from the E. S. George Reserve.
23347

LISTERIOSIS

Incidence of listeriosis in Pennsylvania livestock.
13969

Listeric myelitis in sheep.
14510

Contribution to the study of ovine listeriosis and immunoprophylaxis against the disease in France.
15414

Isolation of Listeria monocytogenes from brains of rabiesnegative animals.
15438

Experimental ovine listeriosis. III. Inoculation of rams.
16848

Isolation of Listeria monocytogenes from vegetation.
16857

Ecologic aspects of listeriosis.
18214

Circling disease in sheep: A case study reveals new knowledge on listeriosis.
21392

Examining the blood of domestic poultry (fowl, turkey, goose, duck) for Listeria agglutinins.
23299

LISTROPHORUS LEUCKARTI

The discovery of Listrophorus leuckarti Pagenstecher on Microtus pennsylvanicus pennsylvanicus from North America (Acarina: Listrophoridae).
14091

LITERATURE

A review of recent literature on the host plant range of the genus Liriomyza mik (Diptera: Agromyzidae) in the Continental United States and Hawaii, excluding Alaska.
17770

Bibliography on biological control.
20497

Current literature (XX). An annotated bibliography.
20612

A review of the literature on the spruce budworm Choristoneura fumiferana (Clemens). aQL561.T8M3.
21009

Finnish entomological literature published in 1966, including economic entomology and control of insect pests.
21636

Investigations on parasites of Tortrix viridana L. I. Spectrum of species, frequency and dominance. (An evaluation of the literature).
22942

LITTLE LEAF (PINUS)

A pine disease in New Zealand resembling littleleaf.
15078

Plant- parasitic nematodes associated with shortleaf pine showing symptoms of littleleaf.
15269

LIVER

Antithyrotoxic factor content of various roughages and cow feces based on repression of induced liver malic enzyme in thyrotoxic rats.
14492

Excretion of DDT by migratory birds.
14631

Chemical analysis of bovine liver biopsy specimens. A comparison of data obtained using two biopsy techniques and blood contamination as a source of analytical error. 16032

Studies on the aetiology of anaemia in chronic Fascioliasis in sheep. 16844

Epidemiological studies of fascioliasis; a third season of comparative studies with cattle. 16884

The role of mixed function oxidases in diterpene metabolism. 17267

Effects of cycloheximide (CHX) on DNA and protein synthesis in rat liver. (Abstract). 17480

Nucleoside phosphorylase and xanthine dehydrogenase in dedevelopment of normal and dystrophic chickens. (Abstract). 17485

Effect of small changes in dietary thiamine or essential fatty acid in altering the rate of drug detoxication in the liver of the rat. (Abstract). 17496

Pesticide-manganese interelationships in pregnancy. (Abstract). 17508

Zinc levels in maternal-fetal organism under teratogenic conditions of zinc deficiency. (Abstract). 17516

Characterization of receptors and lysosomes of cells susceptible to infectious bronchitis virus. 17538

Isolation of mircobacterium tuberculosis human types from the organs of home-produced poultry. 17540

The roles of vitamin E, selenium, and methionine in dietary liver necrosis and nutritional muscular dystrophy in the pig. 17549

Metabolic mechanisms affecting aflatoxin b, toxicity in two species. (Abstract). 17565

Comparative drug metabolism in five mammalian species. (Abstract). 17595

Fascioliasis in cattle: A study of the disease in the field. 17613

The effects of gossypol on certain enzymes in cellular fractions of animal tissues. 17661

Effects of aflatoxin B1 on rat liver polyribosome profile. (Abstract). 17662

Effects of melittin (bee venom) on natural and artifical memranes. (Abstract). 17665

Influence of dietary vitamin A on cholesterol metabolism of chickens. 18185

Strychnine levels in tissues and stomach contents of poisoned dogs: An eleven year survey. 18254

The utilization of vitamin A and carotene by ruminants. 1. Vitamin A potency of carotenes in corn silage fed to lambs. 2. The effect of time and route of administration of vitamin A on liver vitamin A storage by steers. 3. The effect of route of administration of vitamin A on blood serum and liver vitamin A concentrations in steers at subsequent time intervals. 18281

Liver granulomas of turkeys caustive agents and mechanism of infection. 18294

Lesions caused by the hepatic trematode, Metorchis conjunctus, Cobbold, 1860; A comparative study in Carnivora. 18369

Pyrrolizidine alkaloid poisoning in calves. 18412

Chlorinated hydrocarbons in British wildlife. 19246

Detoxification of DDT by the perfused bovine liver. 20107

Metabolic changes in liver associated with spontaneous ketosis and starvation in cows. 20304

Cholangiocholecystography in canine medicine clinical remarks and critical consideration on 50 cholangiocholecystographies Bilivistan in dogs. 20670

Concentration of liver iron in calves and response to dietary iron and desferrioxamine. 20786

Bovine fascioliasis in Kenya. 20810

Recovery of porcine liver from damage caused by migrating x-irradiated and nonirradiated larvae of Ascaris suum. 20814

Evaluation of liver function tests and liver biopsy in experimental carbon tetrachloride intoxication and extrahepatic bile duct obstruction in the dog. 20884

Site of action of aflatoxin on human liver cells in culture. 20886

Effects of high gossypol cottonseed meal on the electrocardiogram of swine. 21236

Fatty acid changes in liver fractions of pigeons after lethal-dose radiation and therapy. 21245

The comparative histochemistry of some hydrolytic and oxidative enzymes in the livers of several domestic and laboratory animals. 21255

Biochemical abberrations with ammonia intoxication. (Abstract). 21287

Clinical pathologic features of acute aflatoxicosis of swine. 21328

Activity of sorbitol dehydrogenase (S.D.) in the serum of sheep and cattle with liver damage. 21341

Clinical-diagnostical liver examinations in acetonemia (ketosis) of cattle. 21423

Experimental aflatoxicosis in young swine. 21435

The pathology of experimental fascioliasis in calves. 21468

The relation between the liver reserves of vitamin A and some intestinal parasites in Dokki 4 chicks. (a). In chicks affected with cecal coccidiosis. 22627

The relation between the liver reserves of vitamin A and some intestinal parasites in Dokki 4 chicks. (b). In chicks infested with Ascaridia galli. 22758

A one-stage procedure for the exteriorisation of the common bile-duct in sheep for liver function studies. 23337

LIVER DISEASES

Notice of filing of petition for food additives erythromycin and diethylstilbestrol. 14564

Toxocara lesions stimulate those of Ascaris suum. 15456

Notice of withdrawal of petition for food additives erythromycin and diethylstilbestrol. 16066

Fatty liver studies in laying hens. 16750

Studies on the serum proteins in experimental fascioliasis of sheep. 16876

Soluble antigen fluorescent antibody test for Amebiasis. 19962

Recovery of porcine liver from damage caused by migrating X-irradiated and nonirradiated larvae of Ascaris suum. 22162

LIVER FUNCTION TESTS

Metabolic changes in liver associated with spontaneous ketosis and starvation in cows. 20304

LIVESTOCK

Incidence of listeriosis in Pennsylvania livestock. 13969

22711

Electron microscopic studies on the lymph node of the pig.
22722

Immunisation with staphylococcal cell walls against mastitis.
22728

Pathology of pneumonia in intensively-reared calves.
22731

Skin necroses in pigs caused by GR virex.
22736

Two morphologically different types of lymphocytes in cattle.
22737

The behavior of macronucleolar and polynucleolar lymphocytes in bovine leukosis.
22738

Clinical and pathological aspects of hog cholera in grieving physically sub-standard pigs.
22739

Studies on the problems associated with the activation of latent or inapparent salmonelloses by means of vaccination as well as on the possibility of simultaneous vaccination against salmonellosis and swine fever.
22747

Tick paralysis in California livestock.
22754

Standardized chemotherapeutical tests for immature and mature Fasciola hepatica infections in sheep.
22759

Control of coccidiosis in poultry. Patent 3,422,200.
22771

Not easy to diagnose vibrio.
23260

Is the occurrence of the sniffing disease (atrophic rhinitis) in the pig a nutritional problem .
23266

Occurrence, types and therapy of cattle limb diseases.
23273

The diagnosis of avian tuberculosis in a turkey in Iraq.
23283

Pulmonary lesions in dogs and pigs exposed to a cloud of anthrax spores.
23286

Animal concentrations and infection.
23289

Clinical observations on the role of urinary infection in the aetiology of canine urolithiasis.
23290

Biological products for controlling animal diseases.
23291

Escherichia coli in ligated segments of pig intestine.
23292

The anaemia in fascioliasis: Studies with 51Cr-labelled red cells.
23297

Vaccination in the feedlot.
23304

Aneuploidy in an infertile mare.
23320

Tumours of the endocrine glands in cattle, sheep and pigs found in a British abattoir survey.
23329

Thrombocytopenic purpura of pigs.
23330

On the actual problems of mycotoxicoses of farm animals in Czechoslovakia and of their prophylaxis.
23343

LIZARDS

Control of the snake mite (Ophionyssus natricis), other mites, and certain insects with the sorptive dust, SG 67.
15507

LOAM

Sweetpotato soil, rot development in Olivier silt loam soil as affected by annual applications of lime or sulfur over a seven-year period.
15123

Overwintering of Pratylenchus penetrans in a sandy loam and a clay loam soil at Ithaca, New York.
17435

Factors affecting the infection of black spruce (Picea mariana Mill.) transplants by Cylindrocladium scoparium.
18056

Persistance of trifluralin in soil.
22793

LOCOMOTION

The importance of locomotor activity in circadian systems.
14909

Mechanism of locust jumping.
17793

On the locomotive behavior of Panagrellus redivivus (Nematoda). 21210

Localization and description of stretch receptors at the level of the tibio-femoral joint of the jumping leg of the cricket, Schistocerca gregaria. 21672

Unusual microtubular patterns and three-dimensional movement of mealybug sperm and sperm bundles. 22444

Effects of an octosporocosis on the locomotor activity of adult Phormia regina (Meigen). (Dipt. Calliphoridae). 22997

LOCUSTA MIGRATORIA

Reaction thresholds and specificity of an odor receptor on the antenna of Locusta. 14863

Biochemical aspects of juvenile hormone action in the adult Locusta migratoria. QL508.A2.M5. 15792

Structure and physiology of a chordotonal organ in the locust leg. 16469

Ultrastructural characters of active and inactive corpora allata in Locusta migratoria. 17140

Gel filtration of insect haemolymph proteins. 17157

Relative toxicity of insecticides to adult Locusta migratoria Linnaeus. 17187

Photoinhibitory function of the dorsal ocelli in the phototactic reaction of the migratory locust Locusta migratoria L. 17786

The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles. 18638

Differentiation of the male sexual characteristics of two acridids, after implantation of Corpus allata during the last larval stages. 19572

Summary of the photoperiodic effects and determination of the phase characteristics in Locusta migratoria migratorioides, gregarious phase. 19577

Histochemical studies on the 'corpus luteum' in Locusta migratoria (R. F.). 19621

Comparison of the size and physiological activity of the corpora allata of Locusta migratoria L. 19635

Temperature coefficient of insect susceptibility to insecticides. 19700

Determining the developmental cycle of Locusta migratoria around latitude 44 degrees N.: followed by a note by P. P. Grasse (1924). 19748

Results of ovary transplantations in Locusta migratoria imagos. 20441

Pharmacological properties of the regurgitated crop fluid of the African migratory locust, Locusta migratoria L.. 20871

Fibre groups in the auditory nerve of the locust. 20965

Changes in haemolymph lipoproteins during locust flight. 21008

Results of the transplantation of the ovaries of imagos to Locusta migratoria (L.). 21749

Presence of a blood-producing tissue at the level of the dorsal diaphram of Locusta migratoria (Orthoptera). 22410

Selection of phase types based on hopper coloration in Locusta migratoria migratorioides (Reiche Fairmaire). 22479

Study of the regeneration of the cuticle in defernce to a tegumentary excision in the Locusta migratoria. 23033

LOCUSTA MIGRATORIA MIGRATORIOIDES

Humor control of the water equilebrium in Locusta migratoria migratorioides. 16370

Flight behaviour of the African migratory locust (Locusta migratoria migratorioides R. and F.). 18647

Determination of the photosensitive period in the African migratory locust, Locusta migratoria migratorioides (R. et F.), phase gregaria. 20317

Field observations on the roosting behavior of the African migratory locust (Locusta migratoria migratorioides R. and F.) in the solitary phase. 21715

LODGING (BARLEY)

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on certain agronomic traits of barley. 19799

LODGING (CORN)

Effect of defoliation treatments at various stages of plant development and row spacings on corn (Zea mays L.) production. 16933

LOGS

Wood- and bark-feeding Coleoptera of felled western larch in British Columbia. 14612

Effectiveness of various formulations of five insecticides on insects infesting douglas-fir logs. 15250

Attractiveness of logs containing female spruce beetles, Dendroctonus obesus (Coleoptera: Scolytidae). 16381

Survival of the balsam woolly aphid on Abies logs. 18084

Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion. 19904

LOLIUM

Emergence and phytopathological properties of a new strain of Claviceps purpurea (Fr.) Tul. on rye. 21138

A proposed method for evaluation of wetting agents on organic amendments used in horticulture. (Abstract). 22200

LOLIUM MULTIFLORUM

Studies on potassium nutrition of plants. II. Some effects of potassium deficiency on the organic acids of leaves. 14369

LONCHAEA

An observation concerning the basic question of the efficiency and worth of natural enemies of pests. 15983

LONCHAEA BRUGGERI

An observation concerning the basic question of the efficiency and worth of natural enemies of pests. 15983

LONCHAEA SEITNERI

An observation concerning the basic question of the efficiency and worth of natural enemies of pests. 15983

LONCHAEA ZETTERSTEDTI

An observation concerning the basic question of the efficiency and worth of natural enemies of pests. 15983

LONGEVITY

Effect of ultraviolet irradiation on egg hatch, subsequent larval development, and adult longevity of the tobacco budworm and the bollworm. 13797

Hatch, larval development, and adult longevity of four lepidopterous species after thermal treatment of eggs. 13798

Some effects of three triphenyltin compounds on the fertility and longevity of Japanese beetles. 13818

Effects of army ant queens on longevity of their workers (Formicidae: Dorylinae). 14285

The effect of gamma irradiation on reproduction and life span of the mosquito Culex tarsalis Coquilleett. 14311

On the longevity of Cysticercus bovis in various organs in a bovine. 14572

Black flies. In: Smith,C.N.Insect colonization and mass production. QL497.S6. 15797

Movements, host-fungus preferences, and longevity of Bolitotherus cornutus (Coleoptera: Tenebrionidae). 16397

The longevity of the parasitic stages and the dynamics of egg production of the nematode Syngamus trachea (Montagu, 1811) in chicken and turkeys. 17075

The effect of blood-feeding on the longevity of radiationresistant yellow-fever mosquitoes. 17885

Morphology and longevity of Verticillium albo-atrum in cotton leaves. (Abstract). 17957

Longevity of an experimental infection with Dirofilaria immitis in a dog. 18297

The influence of food condition on the longevity of Sitophilus granarius (L.)(Col., Curculionidae). 18595

The effect of actidione (Cycloheximide) on the adults of Dacus oleae (Dipter: Tephritidae). 18605

Effect of food on some aphidophagous Coccinellidae. In: Hodek, I. ed. Ecology of aphidophagous insects. SB975.S9. 18677

Effect of oviposition sites on egg production and longevity of Trogoderma parabile (Coleoptera: Dermestidae). 20383

Passive survival of endoconidia and chlamydospores of Thielaviopsis basicola in soil. (Abstract). 20547

The influence of temperature and relative humidity on the weight loss and survival of the harvester termites, Hodotermes mossambicus (Hagen) and Trinervitermes trinervoides (Sjostedt). 21014

The modification of adult life span in Bracon hebetor (Hymenoptera: Braconidae) by irradiation in nitrogen. 21671

Longevity of tomato plants in diseased fields as affected by breeding. (Abstract). 21853

Concerning the influence of various light colors and the different population densities on the lifespan and egg production of the carrot fly, Psila rosea Fabr. 22310

The survival of desiccated larvae of Heterodera rostochiensis and H. schachtii. 22546

Effect of methyl bromide treatments on several species of conifer seed. 22579

How serious is rabbit damage on loblolly pine seedlings. 22616

Survival of foot-and-mouth disease virus in bovine hides.
22657

Reproduction, longevity, and flight of cabbage looper moths treated topically with Tepa.
22989

LONGIDORIDAE
Longidorus reneyii sp. nov. (Nematoda: Longidoridae) from.
19109

LONGIDORUS RENEYII
Longidorus reneyii sp. nov. (Nematoda: Longidoridae) from.
19109

LONGITARSUS
Two new species of Longitarsus Latr. (Col., Chrysomelidae) in Britain.
18508

The British species of the genus Longitarsus Latreille (Col., Chrysomelidae).
18538

LOOSE SMUT (BARLEY)
Influence of seed size on the incidence of Loose smut in Funza barley.
21880

LOOSE SMUT (OATS)
Oat smut races of the South Atlantic States.
15115

Spore dispersal and natural infection in the oat loose smut (Ustilago avenae).
23149

LOOSE SMUT (WHEAT)
Systemic oxathiin fungicide for control of loose smut (Ustilago tritici) of winter wheat. (Abstract).
16589

LOPHODERMIUM
Infection of needles of Pinus strobus by Lophodermium pinastri. (Abstract).
16562

LOPHODERMIUM PINASTRI
Effects of Lophodermium pinastri and Pullularia pullulans on healthy and ozone-injured needles of Pinus strobus. (Abstract).
15872

Infection of needles of Pinus strobus by Lophodermium pinastri. (Abstract).
16562

The relationships of ozone, Lophodermium pinastri and Pullularia pullulans to needle blight of Eastern white pine.
17972

LOUISIANA
Effect of sugarcane borer infestation on the yield and grade of corn.
15233

LOUPING ILL
Complement-fixation test for louping ill in sheep.
21453

LOUPING ILL VIRUS
A comparison of methods of measuring the persistance of neutralizing and haemagglutinin-inhibiting antibodies to louping ill virus in experimentally infected sheep.
18302

LOW VOLUME APPLICATION
Laboratory tests of ultra-low-volume and conventional lowvolume sprays for controlling the bollworm and the tobacco budworm.
14445

LOW VOLUME APPLICATIONS
Low-volume application of malathion by helicopter for controlling larch casebearer.
14433

LOXOSCELES RECLUSA
Residual activity of diazinon and lindane for control of Loxosceles reclusa.
13884

LOXOSTEGE SIMILALIS
Insecticides for control of insects attacking alfalfa seed in Eastern Nebraska.
22995

LUCILIA CUPRINA
A study of a melanic mutant of the blowfly Lucilia cuprina.
16395

A resistance mechanism in organophosphorus-resistant strains of sheep blowfly (Lucilia cuprina).
16994

Booby-trapping as an alternative to sterile males for insect control.
21033

Effects of altering the composition and volume of the haemolymph on water ingestion of the blowfly, Lucilia cuprina.
21665

LUMBER
Proposed federal Formosan termite quarantine safeguards. Buyer, seller.
18378

LUMBER PRESERVATION
The conservation of building timbers; a study of the incidence of wood-boring insects and wood-rotting fungi in buildings and other contributions towards the conservation of building timbers. tA422.H5.
14610

Timber pests and diseases. 1st ed. TA422.F5.
15529

Lindane controls Lyctus powder-post beetles during airdrying of rough ash lumber.
16108

Mapping columns of discolored and decayed wood in sugar maple. (Abstract).
18939

Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion.
19904

Use of insecticides in wood protection. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
19937

LUMBER PRESERVATIVES
Notice of withdrawal of petition for food additives.
15590

Field test evaluates termite tubing on wood treated with preservatives.
15785

Chromatographic studies on preservatives in the wood of some conifers, especially of the genus Abies, Picea, and Pinus.
16105

LUMBER SEASONING
Lindane controls Lyctus powder-post beetles during airdrying of rough ash lumber.
16108

LUMINESCENCE
In defense of magic: The story of fireflies.
19602

Light-inhibition of flashing in the firefly Photuris missouriensis.
22369

LUMPY SKIN DISEASE
Antibodies to the group II lumpy skin disease viruses in the sera of cattle in Kenya.
20740

Comparative immunohistological studies.
21374

LUNGS
Bovine adenoviruses.
16765

Bone-metastasizing lung carcinoma in a cat.
16784

Reoviruses.
16806

Studies on the biology and immunology of Ascaris suum in mice.
16877

The evagination of Echinococcus granulosus scolices from lung cysts of bovine origin.
16885

Characterization of receptors and lysosomes of cells susceptible to infectious bronchitis virus.
17538

Biochemical observations of Ascaris suum lung-stage larvae.
17614

The significance of the stay of Necator americanus larvae in the puppy lung on their further development.
18283

The isolation of T-strains of Mycoplasma from pneumonic calf lungs.
19181

Pulmonary tuberculosis in a squirrel monkey (Saimiri sciurcus).
19968

Acarous (Pneumonyssus simicola) arteritis in rhesus monkeys.
20025

Lung changes and Aelurostrongylus abstrusus infestation in English cats.
20647

Morphological conversion of cells in vitro by N-nitrosomethylurea.
20880

Propagation of ICH virus in swine-lung tissue culture. patent 3,399,113.
21321

Isolation of mycoplasma from calf lungs.
21330

Immunofluorescence as a diagnostic procedure in lungworm disease of the cat.
21349

Zieria arborescens (stinkwood) intoxication in cattle.
21402

In utero infection of bovine fetuses with Myxovirus parainfluenza-3.
21427

LUPINE
Some problems of the studies on narrow leaf virus disease of yellow lupin.
16549

The role of alkaloids in the resistance of some lupin varieties to the Pea aphid /Acyrthosiphon pisum Harris/.
16619

Plant-herbivore coevolution: Lupines and lycaenids.
20596

Isolation and structure of gibberellin A18 from immature seeds of Lupinus luteus.
21535

Morphology and pathogenicity of Cylindrocladium floridanum and C. scoparium. (Abstract).
23163

LUPINUS ANGUSTIFOLIUS
Insect visitors to flowers of blue lupine, Lupinus angustifolius.
13921

Aggregated filaments in extracts from Lupinus infected with watermelon mosaic virus.
18913

LUSITANICA
Diploidization of induced tetraploid hybrids of Dactylis glomerata by means of X-ray irradiation.
17254

LYCAENIDAE
Biological notes on eye-frequenting moths from N. Thailand.
14575

The genera of African Lycaenidae (Lepidoptera: Rhopalocera).
17771

Strymon leda (Lepidoptera, Lycaenidae) in southern Nevada.
19344

The specific status of Pseudodipsas illidgei Waterhouse and Lyell stat. n. (Lepidoptera: Lycaenidae).
19422

Descriptions of two new species of Poecilmitis Butler (Lepidoptera: Lycaenidae).
19466

Chromosomal variation in Agrodiaetus dolus Huhner (Lep. Lycaenidae).
19770

On the systematic orientation of Lysandra coridon f. polonus (Lep., Lycaenidae). 20209

Contribution to the study of Lycaenidae of tropical and equatorial Africa. 20264

Plant-herbivore coevolution: Lupines and lycaenids. 20596

The Indo-Oriental tribe Cheritrini (Lepidoptera: Lycaenidae). 22267

Sound-production in Netherland Lycaenidae. 22388

LYCOPERSICON

Resistance to the potato cyst-nematode, Heterodera rostochiensis, in the plant genus Lycopersicon. 21208

LYCOPHOTIA MOLOTHINA

Observations on the breeding of Lycophotia molothina (Lepidoptera, Noctuidae). 16308

LYCOSIDAE

Feeding spiders an artificial diet. 19692

LYCTUS

Lindane controls Lyctus powder-post beetles during airdrying of rough ash lumber. 16108

LYGAEIDAE

Two new Lygaeidae (Hemiptera) from Africa. 18565

Some notes on natural enemies of Lygaeidae (Hem.). 18603

Dieuches japonicus new name for Dieuches fuscus Hidaka preoccupied (Heteroptera: Lygaeidae). 19412

Air-borne Lygaeidae (Hemiptera) trapped over the Atlantic, Indian and Pacific oceans, with the description of a new species of Appolonius Distant. 19493

Preliminary studies of the 'uradenies' of certain Heteroptera Pentatomorphs. 19740

A revision of the genus Blissus (Heteroptera: Lygaeidae) in eastern North America. 21620

LYGUS

Distribution and parasitization of some Lygus spp in western United States and central Mexico. 14037

Field studies on control of lygus bugs and onion thrips infesting safflower. 16567

LYGUS HESPERUS

Sugar for the survival of Lygus hesperus on alfalfa. 17087

Techniques of marking insects with micronized fluorescent dust with especial emphasis on marking millions of Lygus hesperus for dispersal studies. 17886

Design and evaluation of equipment for basal application of systemic insecticides to control cotton plants. 21198

LYGUS LINEOLARIS

Control of the tarnished plant bug on cotton with several insecticides. 13911

Relationship between the seasonal development of the tarnished plant bug, Lygus lineolaris (Beauv.) (Hemiptera: Miridae) and its injury to peach fruit. 20617

LYMPH

Response of lymphocyte-depleted calves to fluid tetanus toxoid. 18293

Cytopathologic changes of lymphatic tissues of cattle with the bovine virus diarrhea-mucosal disease complex. 22703

LYMPH NODES

Isolation of Streptococcus equi from burros. 13975

Histopathologic changes in male swine with experimental Brucellosis. 18237

Clinico-epidemiological and immunological examination of persons, vaccinated and nonvaccinated against brucellosis, subject to infection hazard. 19258

Canine visceral leishmaniasis in Iran. 20771

Pulmonary lesions in dogs and pigs exposed to a cloud of anthrax spores. 23286

LYMPHATIC SYSTEM

Effects of pyridoxine deficiency on the lymphatic organs and certain blood components of the neonatal chicken. 20299

Bovine lymphatic leucosis in the Netherlands; a histopathological study. 20746

Cytopathologic changes of lymphatic tissues of cattle with the bovine virus diarrhea-mucosal disease complex. 21412

Electron microscopic studies on the lymph node of the pig. 22722

The behavior of macronucleolar and polynucleolar lymphocytes in bovine leukosis. 22738

LYMPHOCYTES

Investigations into the question of the occurrence of different types of lymphocytes in cattle with particular reference to enzootic leukosis. 21432

Two morphologically different types of lymphocytes in cattle. 22737

The behavior of macronucleolar and polynucleolar lymphocytes in bovine leukosis. 22738

LYMPHOCYTOSIS

Trypanosomes associated with Bovine Lymphocytosis. 19955

A buffy coat stimulating effect in serum from cattle with persistent lymphocytosis. 20698

The behavior of macronucleolar and polynucleolar lymphocytes in bovine leukosis. 21449

Two morphologically different types of lymphocytes in cattle. 22737

LYMPHOID HYPERPLASIA

Pneumonia of sheep in Kenya. I. Bacterial and parasitic pneumonia. 16855

LYMPHOMATOSIS

Histopathological aids to the diagnosis of certain poultry diseases. 18284

LYMPHOSARCOMA

Clinical and hematologic studies of lymphosarcoma in a herd of cattle. 15477

Lymphosarcoma in the rabbit. a case report and general review. 15487

The haematology of lymphosarcoma in the cat. 16764

Experimental transmission of two canine neoplasms: Lymphosarcoma and mast cell leukemia. 18310

Trypanosomes associated with Bovine Lymphocytosis. 19955

Transmission studies of swine lymphosarcoma: Hematologic and pathologic changes in pigs inoculated with whole cell suspensions. 20689

In vivo effects of canine lymphosarcoma deoxyribonucleic acid. 21416

LYOPHILIZATION

Avirulent mutant of a strain of ornithosis agent obtained by gamma irradiation. 18195

Lyophilized anti sheep-pox, with sensitized virus. 20773

Nonliving nematode vaccines. Patent 3,395,218. 21212

LYSATES

Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. I. Preparations and fractionation of the lysates. 15781

LYSINE

Effect of levels of calcium and lysine upon the growth of Ascaridia galli in chicks. 13953

Effect of a lathyrogen on oxygen consumption and C1402 respiratory pattern of C14-labeled amino acids in developing chick embryos. (Abstract). 17471

The effect of feeding a low lysine diet to chicks at four weeks of age. (Abstract). 17472

Free amino acids, ammonia and urea concentrations in the blood plasma of starved lambs. 17533

Biochemical relationships in chlorotic leaves of macadamia (Macadamia tetraphylla L. Johnson) under conditions of iron and manganese deficiency. 17688

Vasopressins and the increase of water and electrolyte excretion by sheep, cattle, and camels. 19188

Experience with the lysine-carboxylase reaction in Salmonella diagnosis. 20794

Incorporation of lysine-6-C14 into the protein of the adult boll weevil, Anthonomus grandis. 21011

LYSINE DECARBOXYLASE

L-Lysine carboxylyase in Ascaris lumbricoides and Moniezia expansa. 22168

LYSIS

Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. I. Preparations and fractionation of the lysates. 15781

Use of a chitinase complex and beta-(1,3)-glucanase for spheroplast production from Candida albicans. 19959

Lysis of the limiting membrane of Mycoplasma gallisepticum by chemical agents. 20017

LYSOSOMES

Characterization of receptors and lysosomes of cells susceptible to infectious bronchitis virus. 17538

Electron microscope studies of Fasciola hepatica. VI. The ultrastructural localization of phosphatases. 22173

LYTTA VESICATORIA

Important development of Lytta vesicatoria (L.) (Coleopt., Meloidae) in the laboratory and the time period of cantharide synthesis. (sum). 20390

MACADAMIA INTEGRIFOLIA

Some changes in weed species in response to control methods and chemicals in Hawaii. 22600

MACADAMIA TETRAPHYLLA
Biochemical relationships in chlorotic leaves of macadamia (Macadamia tetraphylla L. Johnson) under conditions of iron and manganese deficiency. 17688

MACRACANTHORHYNCHUS HIRUDINACEUS
Oligosaccharidases from Macracanthorhynchus hirudinaceus (Acanthocephala) from swine. 16875
Oligosaccharidases from Macracanthorhynchus hirudinaceus (Acanthocephala) from swine. 18186

MACROCHELES MUSCAEDOMESTICAE
Autoecology and reproductive capacity of Macrocheles muscaedomesticae (Scopoli) (Acari: Mesostigmata). 13787

MACROCHELIDAE
The response of some Macrochelids to temperature and humidity (Acarina: Macrochelidae). 19725

MACROGLOSSUM
Observations on the larvae of Hippotion celerio L. (Lepid., Sphingidae in Tanzania. (Abstract). 16262

MACROLEPIDOPTERA
Catalog of Nederlands Macrolepidoptera. 14th supplement. 14079
Studies on the Macrolepidoptera fauna of the saarlands. 20259

MACRONUTRIENTS
Influence of various soil incorporated fungicides and nematocides on macro and micro element constituents of Zea mays and Phaseolus vulgaris. 16201

MACRONYSSIDAE
The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats. 20968

MACROPHAGES
Interactions between macrophages of guinea pigs and salmonellae. I. Fate of Salmonella typhimurium within macrophages of normal guinea pigs. 19970
Potentiation by silica of the growth of Mycobacterium tuberculosis in macrophage cultures. 22044

MACROPHOMINA PHASEOLI
Antagonistic effects of Aspergillus niger on Macrophomina phaseoli. (Abstract). 17302
Interpretation of nuclear division figures in vegetative hyphae of fungi. 17669
A metabolite of Macrophomina phaseoli (Maubl) Ashby, with thin-layer chromatographic behavior similar to that of aflatoxin B. 20496

MACROSIPHONIELLA
A list of the species of Macrosiphoniella Del Guercio described from North America (Homoptera) (aphididae). 15731

MACROSIPHUM
A review of twelve aphid species described as new by Edith M. Patch. 21624

MACROSIPHUM AVENAE
Aphid trapping with black-light lamps. 13912
Effects on three species of grain aphids (Homoptera: Aphididae) reared on wheat, oats or barley and transferred as adults to wheat, oats or barley. 14150
Immunodiffusion tests with three isolates of barley yellow dwarf virus. (Abstract). 16533
Transmission of barley yellow dwarf virus isolates from Manitoba by five species of aphids. 17296
Aphid vectors of barley yellow dwarf virus in blacklight traps in eastern United States. 18089
The effect of light and temperature on the colour of the English grain aphid, Macrosiphum avenae (F.) (Hom., Aphididae). 20385
Effects of three species of aphids on barley, wheat or oats at various stages of plant growth. 23178

MACROSIPHUM EUPHORBIAE
Some observations on vectors and transmission of tobacco etch virus. 17373
An aphid predator exclusion test. In: Hodek, i., ed. Ecology of aphidophagous insects. SB975.S9. 19071
Reaction of tomato varieties and breeding lines to aphids. 21996

MACROSTELES
Reduction of aster yellows. 15053
Occurrence of Macrosteles cristatus (Ribaut) Homoptera, Auchenorrhyncha) in Britain with notes on related species. 15727

MACROSTELES FASCIFRONS
Leafhopper transmission of the oat blue dwarf virus extracted from oats or barley. (Abstract). 14336
Initial and subsequent sites of aster yellows virus infection in a leafhopper vector. 15948
Distribution of aster yellows virus in the vector Macrosteles fascifrons and the sequence of infection sites. (Abstract). 20429
Heat inactivation and interactions of four aster yellows virus strains in their vector, Macrosteles fascifrons (Stal). 20606

MACULOLACHNUS SUBMACULA
Garden ants, Lasius niger L., building shelters for aphids. 14168

MAGGOTS
Micro-potentiometric pH determinations of muscoid maggot digestive tracts. 17117
Experiments on the prevention of fly-maggot infection of meat. 20061
Guide lines for the testing of materials on fallow flies. 20598

MAGICICADA
Temperature responses of the periodical 17-year Cicada, Magicicado cassini (Homoptera, Cicadidae). 14059

MAGNESIUM
Magnesium deficiency syndromes. 13968
Studies on the adsorption of arsenites by a few typical Indian soils. 13994
Relationship between calcium and magnesium binding to fraction I chloroplast protein and bloat. 14551
Effects of fluoride on magnesium deficiency in the guinea pig. 15446
Grass tetany - effects of environment and fertilizers on pasture histamine levels. 16031
A study of tubes produced in plants infected with a strain of turnip yellow mosaic virus. 16598
Effect of trace-elements bound to superphosphates on the resistance of potato tubers to Phytophthora infestans (Mont.) de Bary. 16643
Some factors affecting mineral utilization by the baby pig. 16788
The effect of dietary Mg and F on bone calcification in chicks. (Abstract). 17574
Calcium and magnesium absorption in the young calf following induced parasitism, Ostertagia spp. (Abstract). 17621
Some nutritional aspects of dietary magnesium in ruminants and poultry. 18227
Mineral and endocrine interrelationships in renal calcification. 18292
The use of a biochemical indicator for diagnosing micronotrient deficiencies of grapefruit trees under field conditions. 20514
Organic acids and grass tetany. 21277
Functional and structural effects of magnesium deficiency and cortisone treatment in mice. 21337
Hypomagnesemic tetany and magnesium homeostasis in the adult bovine. 21354
The relationship between calcium magnesium, and potassium accumulation and titratable acidity in the leaves of selected McIntosh apple clones. (Abstract). 21841
Magnesium nutrition of apple trees as affected by a wide range of fertilizer materials. (Abstract). 21931
Chenopodium amaranticolor nutrition affects cucumber mosaic virus infection. 23128
Biochemical and pathological studies on magnesium deficiency in the rat. I. Young animals. 23335

MAGNESIUM OXIDE
Availability and utilization of magnesium from dolomitic limestone and magnesium oxide in steers. 14511
Grass tetany in cattle--using molasses--magnesium oxide mixtures to prevent it. 22090

MAGNESIUM SILICATE
In vitro increase in virus infectivity. il. 15221

MAGNESIUM TRISILICATE
Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus. 16607

MAINTENANCE
Care and maintenance of the one-gallon stainless steel sprayer. 14790
Maintenance and use of controlled environment chambers. 22838

MAL SECCO (CITRUS)
Fungistatic constituents in citrus varieties resistant to the mal-secco disease. 18046

MALACHITE GREEN
Comparison of effect of concentrations of malachite green and acriflavine on fungi associated with diseased fish. 23313

MALACOSOMA AMERICANUM
Control of the eastern tent caterpillar, Malacosoma americanum (Fabricius), by distribution of spores of two species of Clostridium. 15226
Gel filtration of insect haemolymph proteins. 17157

MALACOSOMA NEUSTRIA
Defense reactions of Malacosoma neustria against tachinid larvae with simultaneous occurrence of a nuclear polyhedrosis. (1) (2). 23000

MALAGASAY REPUBLIC
New fleas from Madagascar, Paractenopsyllus randrianasoloi n sp, P albignaci n sp and Dinopsyllus tsaratananae n sp. (Siphonaptera). 14072

MALAGASY REPUBLIC
Acarina Thrombidiidae of Madagascar. 13744
The Idiocerinae of Madagascar (Hom. Cicadellidae). 19398

MALARIA
Summary of recent abstracts. ill. malaria. 13875
Simian malarias in man; facts, implications, and predictions. 14307
Studies on the transmission of simian malarias. il. transmission of the H strain of Plasmodium knowlesi by Anopheles balabacensis balabacensis. 14577
Mosquito control activities of the U.S. Armed Forces in the Republic of Vietnam. 14975
Anopheles (Myzomyia) sergenti theobald from the island of Pantelleria and its probable implication in the transmission of malaria. 16374
Pathologic physiology and chemotherapy of Plasmodium berghei. III. Renal function in rats infected with Plasmodium berghei. 16801
Malaria control on impounded water. RA644.M2U55. 17723
A preliminary report of the mosquitoes in the Gilgit Agency area. 17772
Biology of vector-associated diseases in Vietnam. 17913
Studies of the epidemiology of arthropod-borne virus infections at Mitchell River mission, Cape York Peninsula, north Queensland. I. Mosquito collections, 1963-1966. 17914
Interruption of malaria transmission by chloroquinized salt in Guyana with observations on a chloroquine-resistant strain of Plasmodium falciparum. 18501
Annual report of the insect vector control division (previously the malaria division) of the ministry of health and housing of the government of Trinidad and Tobago for the year 1966. 18708
Human malaria in non-human primates: Experimental mosquito transmission and infection. 18711
A review of the state's ten years (1948-1957). RA644.M218. 18712
Active immunization of rats with a cell-free extract of the erythrocytic parasites of Plasmodium berghei. 20018
Global events concerning mosquitoes in 1966. 20431
Prospects for the eradication of malaria in Algeria. 20486
Malaria: Extracellular amino acid requirements for in vitro growth of erythrocytic forms of Plasmodium knowlesi. 20768
Studies on avian malaria in Japan. II. Pathogenicity of the parasite. 20819
A modified, indirect microhemagglutination test for malaria. 21055
Some considerations on the name bovine malaria 22133
Pathologic confirmation of malaria (Plasmodium elongatum) in African penguins (Spheniscus demersus). 23359

MALARIA CONTROL
Malaria control on impounded water. RA644.M2U55. 17723
Annual report of the insect vector control division (previously the malaria division) of the ministry of health and housing of the government of Trinidad and Tobago for the year 1966. 18708
A review of the state's ten years (1948-1957). RA644.M218. 18712
Chloroquine resistance in Plasmodium falciparum malaria on the Pacific coast of Colombia. 21050

MALATE DEHYDROGENASE
Antithyrotoxic factor content of various roughages and cow feces based on repression of induced liver malic enzyme in thyrotoxic rats. 14492

MALATHION
The effect of certain insecticides on the entomogenous fungi Beauveria bassiana and Metarhizium anisopliae. 13743
Atomization of low-volume malathion aerial spray. 14016
Insecticide resistance of German cockroaches from various areas of Louisiana. 14158
Synergism of malathion against the northern fowl mite. 14238
Evaluation of insecticides against four species of adult mosquitoes in the Panama Canal Zone, 1967. 14303
Responses of Aedes aegypti (L.) from Alabama, Georgia and South Carolina to DDT, dieldrin, and malathion. 14313
ULV aerial insecticide application for adult mosquito control in Kentucky. 14318
Ultra-low volume nonthermal aerosols of malathion and naled for adult mosquito control. 14321
Low-volume application of malathion by helicopter for controlling larch casebearer. 14433
Cotton-insect control with low-volume concentrates of malathion applied by aircraft. 14453
Pesticide residues in foodstuffs in Great Britain. v. malathion in imported cereals. 14632
Notice of filing of petition regarding pesticide chemicals. 14662
Notice of filing of petition regarding pesticides. 14718
Gas chromatographic determination of diethyl fumarate in malathion extracts and preparations used for control of body lice. 14785
Effect of temperature, aeration, pH, and the presence of soil on the toxicity of various insecticides to mosquito larvae. 14817
Metabolism of malathion in desert locust. i. activation of malataion into an anticholinesterase. 14918
Insecticidal and natualistic control chironomid larvae in Lake Dalwigk, Vallejo, California. 14919
The influence of sublethal dosages of insecticides on the basal follicles of Aedes aegypti (L.). (abstract). 14986
Evaluation of thermal and nonthermal fogs against four species of mosquitoes. (abstract). 14987
The biology and ecology of Dendroctonus valens Flec., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleoptera: Scolytidae). 15165
Interference with the biological control of cottony-cushion scale by insecticides and attempts to re-establish a favorable natural balance. 15224
Field tests with insecticides for control of lone star ticks on cattle. 15502
Fish, wildlife unaffected by boll weevil program. 15557
Pesticides' unsung assistants. 15663
Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields. 15985
Food chain studies. 16192
Flight height, droplet size, and moisture influence on grasshopper control achieved with malathion applied aerially at ULV. 16455
Some physiological effects of sublethal doses of DDT on flour beetles. 16462
Field study of the safety of Abate for treating potable water and observations on the effectiveness of a control programme involving both Abate and malathion. 16505
Laboratory evaluation of malathion as a protectant for almonds during storage. 16896
Drift of water-diluted and undiluted formulations of malathion and azinphosmethyl applied by airplane. 16902
Method for the preparation of O,O-dimethyl-S-(1,2-dicarbethoxyethyl)dithiophosphate. Patent 3,403,201. 16942
Variation in toxicity of Malthion when applied to certain body regions of Schistocerca gregaria (Forsk.). 17068
Larch sawfly suppression with malathion LV(R) concentrate. 17120
Lacquers containing dieldrin, malathion, or diazinon as controls for German cockroach. 17202
Effect of insecticides and insecticide treated cockroach blood on the heart beat of Periplaneta americana L. 17237
Comparative metabolism of malathion-C in plants and animals. 17632
Gas chromatographic analysis of malathion in water and in fish. 17648
A laboratory and field investigation of adjuvants to increase the residual toxicity of dichlorvos, mevinphos and malathion to Mexican bean beetle and southern armyworm larvae. 17666
Activation of malathion by the locust bodywall. 17777
The effect of environmental and biological factors on the persistence of malathion applied in low volume technical and emulsifiable concentrate forms to cotton plants. 18386
Gel permeation cleanup for malathion in wheat, using a non-ionic, cross-linked polystrene polymer. 18482

Studies on the carrier of pesticides.
18652

Control of mosquitoes with Dursban insecticide applied as a thermal fog.
18707

Ultra-low volume and conventional aerial sprays for control of adult salt-marsh mosquitoes, Aedes sollicitans (Walker) and Aedes taeniorhynchus (Wiedemann), in Florida.
18709

A hazard for PCO's and their customers. Straw itch mite dermatitis.
19334

Effect of insecticides and insecticide treated cockroach blood on the heart beat of Periplaneta americana L.
19734

Current status of parathion resistance in Utah.
19758

Spraying cattle by air.
20022

Chemical vs environmental changes. Their effects on wildlife.
20097

Physiological effects of malathion on the house sparrow, Passer domesticus L..
20102

Ants, aphids, and jack pine in Manitoba.
20313

Some results from ultra low-volume spraying in an Ontario apple orchard.
20622

Esterases of mouse brain active in hydrolyzing organophosphate and carbamate insecticides.
20659

Removal of DDT, malathion, and carbaryl from green beans by commercial and home preparative procedures.
21496

The pear and cherry slug.
21984

How to get rid of ectoparasites of poultry.
22156

Production of antibodies against insecticide--protein conjugates.
22191

Effect of temperature and humidity on the susceptibility of bedbugs to insecticides.
22455

Insects and diseases of Siberian pea shrub (Caragana) in North Dakota, and their control.
22849

Daily susceptibility of house flies to malathion.
22975

Results of tests of sensitivity to insecticides of Anopheles adults in rumania.
23085

A reproductive-diapause control program for the boll weevil in the Presidio, Texas-Ojinaga, Chihuahua area, 1965-67.
23186

Controlling external parasites of poultry--recommended pesticides.
23352

European pine sawfly control with aircraft application of concentrate insecticidal sprays.
23213

MALEIC HYDRAZIDE

Effects of chemosterilants and growth regulators on the pea aphid fed an artificial diet.
13769

The effect of growth substances on Verticillium wilt of.
15181

Epiphytology of onion yellow dwarf.
17391

Employment of maleic hydrazide in the storage of onion bulbs.
20059

Carcinogenicity of the herbicide maleic hydrazide.
21515

Employment of maleic hydrazide in the storage of onion bulbs.
23377

MALIC ACID

Effects of malic acid salts on growth of young cotton embryos in vitro.
18743

MALIGNANT CATARRH

Malignant catarrhal fever.
16840

Comments on malignant catarrhal fever.
16849

MALLOPHAGA

A new species of Suricatoecus (Mallophaga: Trichodectidae) from the Congo.
14043

New species of Ardeicola Clay, 1935 (Mallophaga: Ischnocera).
14055

Description of a new genus and species of Trimenoponidae from Panama (Mallophaga).
14092

Two new Mallophaga species of the genus Ardeicola Clay, 1935 (Ischnocera: Philopteridae).
16302

External parasites of domestic pigeon in United Arabic Republic.
16869

The genus Psittacobrosus (Mallophaga: Menoponidae) of the Neotropical Psittaciformes.
17054

A new species of Ardeicola Clay (Mallophaga: Philopteridae).
19368

The Mallophaga genus Ricinus De Geer, 1778. Revision of the external american species.
19477

Group revision of Mallophaga. Pectinopygus species of the large cormorants (Gen. Phalacrocorax Brisson, 1760 s. str.).
19505

The degree of infestation of several bird species with mallophaga.
19718

Biology and ecology of the blackbird feather louse.
20305

The head of Pseudomenopon pilosum (Scopoli) (MallophagaAmblycera).
20352

Attention to cattle lice can be profitable.
22146

Lice of poultry.
22153

How to get rid of ectoparasites of poultry.
22156

A gynandromorph of Oxylipeurus mesopelios (Nitzsch) (Mallophaga) from Phasianus colchicus L..
22432

Controlling external parasites of poultry--recommended pesticides.
23352

MALPIGHIACEAE

Control of the toxic plant, Corona, by means of residual and hormonal herbicides.
19981

MALPIGHIAN TUBES

Humor control of the water equilebrium in Locusta migratoria migratorioides.
16370

Inhibition by acetylcholine of malpighian tubule muscle of the cockroach Periplaneta americana.
16450

Light-and electronmicroscopc investigations into the Malpighian tubules of Galerucella viburni (Chrysomelidae).
20334

A contribution to the alimentary canal, salivary glands and Malpighian tubules of Saccharicoccus sacchi Cockerell (Homoptera Pseudococcidae).
21754

Biological observations on some sand flies (Phlebotomus) of Rancho Grande (Venezuela). 5. Gonadotrophic characteristics of Phlebotomus towsendi.
23039

MALVA

Record of two Longidorus species from Sudan.
15274

MAMESTRA BRASSICAE

On a nuclear and a cytoplasmic polyhedrosis of Adoxophyes reticulana Hb.
23024

MAMMALS

Virus of the California encephalitis complex: isolation from Culiseta inornata.
13881

Vertebrate predation on the jack-pine budworm in Michigan.
14228

Evolutionary trends in mammalian trypanosomes.
14315

Biological notes on eye-frequenting moths from N. Thailand.
14575

Ectoparasites of Canadian birds and mammals.
14584

Chemosterilant properties, cytotoxicity, and mammalian toxicity of apholate and other P-N ring chemicals.
14766

Preliminary host preference studies of Culex tarsalis Coquillett and Culiseta inornata (Williston) in Utah.
15741

Metabolism of 14C-labelled insecticides in microorganisms, insects and mammals.
15778

Effects of dimethoate on small mammal populations.
16186

Notes on the Siphonaptera of New Brunswick.
16270

Small mammals and their ectoparasites from the Scottish islands of Handa (Sutherland), Muck, Pabay, Scalpay and Soay (Inner hebrides).
16285

Some ectoparasites from West Virginia mammals. II.
16339

Natural antibody in mammalian serum reacting with an antigen in some Leptospires.
16771

Pesticidal N-acyl-N-lower alkyl carbamates of phenols and naphthols with decreased mannalian toxicity. Patent 3,404,208.
16913

Susceptibility of cultured mammalian cells to infection with virulent and modified hog cholera viruses.
17564

Comparative drug metabolism in five mammalian species. (Abstract).
17595

Comparative toxicity (Mammalia, Insecta, Acarina) of recent S,S-dimethyl S-benzyl derivatives substituted for tri- and tetrathiophosphoric acids.
17800

Effect of organo-Phosphorus insecticides on the warm blooded animals and cure thereof.
18193

The toxicology of different organo-mercurials used as fungicides.
18418

The parasites of British birds and mammals. XXXV. The ectoparasites of the swallow (Hirundo rustica rustica L.).
18687

The parasites of British birds and mammals. XXXVI. New records of bat parasites.
18688

The hemostatic mechanism of mammals and birds in health and disease.
19202

A tick new to Ireland- Ixodes (Exopalpiger) trianguliceps Birula, 1895.
19215

The parasites of British birds and mammals. XL. Ectoparasites of deer in Britain.
19217

Ultrastructure and biology of Toxoplasmas. III. Observations of intraerythrocytal Toxoplasmas of a mammal.
19971

Chigger mites on small mammals of Spain. (P-sorergatidae: Trombidiformes).
20232

Larvicides and larvicidal formulations for the control of Culex pipiens fatigans.
20488

Small mammals and their ectoparasites from the Scottisch islands of Handa (Sutherland), Muck, Pabay, Scalpay and Soay (Inner Hebrides).
20806

Pesticides. (Patent 3,418,364).
21562

Fleas found on rabbits and other mammals from a pasture.
21586

Studies on the mechanism of interferon action.
22033

Pharmacologic properties of a slobber-inducing mycotoxin from Rhizoctonia leguminicola.
22647

Susceptibility of cultured mammalian cells to infection with virulent and modified hog cholera viruses.
22704

On the question of latent virus infections in wild-living small mammals (insectivores and rodents). Second communication: Isolation of murine encephalomyelitis viruses.
22745

California encephalitis-group virus infections in small wild mammals and insects in a deciduous forest area of southwestern Wisconsin.
23338

Helminths of some wild mammals in the southeastern United States.
23369

MAMMARY GLANDS

Transmammary passage of Ancylostoma caninum larvae in dogs.
17618

The effect of intramammary infection during the dry period on the milk production of the affected quarter at the start of the succeeding lactation.
18194

Experimental mastitis in leukopenic cows: Immunologically induced neutropenia and response to intramammary inoculation of Aerobacter aerogenes.
20720

Local immunity in the mammary gland following the infusion of a staphylococcal cell-toxoid vaccine.
21281

Haematomas over the mammary veins in cows.
21295

Skin tumors in the dog.
21355

Drying-off therapy for bovine mastitis: A comparative field trial.
21381

Incidence of intramammary infections during lactation in dairy cattle repeatedly exposed to Streptococcus agalactiae and Acrobacter aerogenes.
21391

Immunologic and histologic studies of a hamster adenovirus tumor and a mouse mammary tumor.
22143

Pathogenesis of coliform mastitis in cattle. II. A comparison of morphological findings in coliform mastitis in cattle and in the experimentally induced arthus phenomenon in the mammary glands of rabbits.
22707

Experimental Streptococcus agalactiae mastitis in cattle: Attempts to superimpose the organism in lactating glands harboring unrelated bacterial infections and in glands with experimentally induced sterile inflammation.
22713

MAMMILLARIA

The aphids that feed on cacti.
20227

MAN

What veterinarians can do about the Salmonella problem.
14609

The impact of fungi on man. QK603.T3.
17934

MANAGEMENT

Mastitis testing...a six-year summary of Fresno County's DHIA program.
21250

The face fly, Musca Autumnalis... A new livestock fly is now moving toward California.
21456

Prevention, surveillance and management of invading pest insects.
22316

MANATEES

Manatees as a naturalistic biological mosquito control method.
13877

MANDARIN ORANGES

Foreign quarantine notices. Fruits and vegetables. Administrative instructions prescribing method of treatment of oranges, grapefruit, citrons (citrus medica) and tangerines for Mediterranean fruit fly.
20842

MANDIBULAR GLANDS

Source of a substance in Heliothis virescens (Lepidoptera: Noctuidae) that elicits a searching response in its habitual parasite Cardiochiles nigriceps. (Hymenoptera: Braconidae.
16471

Biting in Orthoptera and their allies.
17826

MANDUCA QUINQUEMACULATA

Evaluation of experimental insecticides for control of hornworms on tobacco.
13914

Procedure used to recover a sex attractant for the male tobacco hornworm.
14148

Tobacco hornworms. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15764

Adaptation of insects to nornicotine.
17118

Biochemical aspects of insect metamorphosis.
17144

Catch of insects at different heights in traps equipped with blacklight lamps.
17736

MANDUCA SEXTA

Observations on feeding and movement of tobacco hornworm larvae.
13825

Evaluation of experimental insecticides for control of hornworms on tobacco.
13914

Tobacco hornworms. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15764

Marking tobacco hornworm moths for night recovery with a blacklight lamp.
16998

Loss of hostplant specificity by Manduca sexta after rearing on an artificial diet.
17196

Catch of insects at different heights in traps equipped with blacklight lamps.
17736

Influence of population level and trap spacing on capture of tobacco hor-worm moths in blacklight traps with virgin females.
17861

Artificial pupal cell for the tobacco hornworm.
22409

Crystalline regions on the axon membrane surface of insect photoreceptor cells.
22983

Toxicity of Nicotiana and Petunia species to larvae of the tobacco hornworm.
23020

MANEB

Notice of filing of petition regarding pesticides.
14681

Notice of withdrawal of petitions for pesticide and food additive maneb (manganese ethylenebisdithiocarbamate).
14694

Notice of withdrawal of petition regarding pesticides.
14728

Control of cucumber scab due to Cladosporium cucumberinum.
15092

Control of asparagus rust with a mixture of maneb and nickel sulfate.
15109

Determination of the degradation products of ethylenebis(dithiocarbamates) by thin-layer chromatography and some investigations of their decomposition in vitro.
16241

Influence of foliage rust on yield, test weight, and oil percentage of safflower seed.
18760

Cantaloupe. Leaf blight, Alternaria cucumerina.
18850

Wheat, winter. Leaf rust, Puccinia recondita.
18982

Parathion, a selective rust fungicide, compared with maneb in the control of cereal rusts.
19818

Tomato transit rot control trials 1965--66.
20070

Assays of new products for the control of rust mite of citrus--Phyllocoptruta oleivora (Ash.).
23036

MANGANESE

An attempt to produce swayback in lambs born to ewes dosed with high levels of molybdenum, inorganic sulphate and manganese during pregnancy.
14504

Pesticide-manganese interrelationships in pregnancy. (Abstract).
17508

Biochemical relationships in chlorotic leaves of macadamia (Macadamia tetraphylla L. Johnson) under conditions of iron and manganese deficiency.
17688

Effects of a low manganese diet on certain ovine characteristics.
18274

Manganese toxicity in celery.
18413

Effects of manganese and iron application on their solubility, absorption and growth of oat plants.
20912

Micronutrient effects on the in vitro growth and pathogenicity of Fusarium oxysporum f. sp. lycopersici.
21956

MANGE

Sarcoptic mange (Sarcoptes tapiri nov. spec.) of tapir (Tapirus terre stris L.).
14076

MANGEL-WURZEL

Stimulations of oviposition by the cabbage root fly Erioischia brassicae.
15820

Some observations on the economic importance of sugar-beet downy mildew in England.
21106

MANGOES
Of mangoes and plums from Mexico and plums from Guatemala.
16103

MANNITOL
Metabolism of glucose-14C, pyruvate-14C, and mannitol-14C by Melampsora lini. I. Uptake.
16939

MANNOSE
Aspergillus oryzae amylase activity and its carbohydrate content. (Abstract).
17697

MANOMETRY
Mechanisms of inhibition and uncoupling of oxidative phosphorylation in housefly mitochondria.
17899

MANSONIA
Evaluation of insecticides against four species of adult mosquitoes in the Panama Canal Zone, 1967.
14303

MANSONIA PERTURBANS
Swarming behavior of Mansonia perturbans (Walker).
14274

MANTIDAE
A review of the praying mantises of Ghana Dictyoptera Mantodea).
20969

Description of the neuro-endocrine reflex arcs behind the ocelli in the Dictyopteran Mantidae.
22361

MANTIS RELIGIOSA
The distribution of Mantis religiosa L. (Dictyoptera, Mantidae).
18515

MANTISPIDAE
Some notes on the life history of Plega banksi (Neuroptera Mantispidae).
14845

MANUALS
PPC (Plant Pest Control) Manual.
15584

MANURES
Oviposition behavior of the face fly in caged cow manure pats.
17128

Microorganisms in paddy soil. S597.R3.
18751

Bovine manure as an overwintering medium for Coleoptera in South Dakota.
19664

The influence of organic fertilizers and of the proceeding crop on the antiphytopathogenic potential (A.P.) of the soil.
20508

MAPS
Mapping columns of discolored and decayed wood in sugar maple. (Abstract).
18939

Contour maps of infestation incidence useful in epizootiology of screw-worms, Cochliomyia hominivorax (coquerel).
19099

MARINE BIOLOGY
Food chain studies.
16192

Organochlorine residues in marine organisms.
19149

DDT residues in pacific sea birds: a persistent insecticide in marine food chains.
19257

MARINE BORERS
Estimation of marine-borer attack on wooden surfaces.
15252

MARKETING
Opportunities and challenges are ahead for fertilizer industry.
15694

The volume myth in formulated pesticide sales.
20937

MARKETING RESEARCH
Marketing of lac in India. 280.39 in2.
21066

MARKOV CHAINS
Some stochastic models for microorganism death kinetics.
17718

MARMOR TABACI
Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus.
16607

MARSHES
Thiokol Swamp Spryte equipped with automatic compressed air spraying units for applying granule and liquid insecticides.
13876

The accumulation of 36Cl ring-labeled DDT in a freshwater marsh.
17630

A cooperative water management program conducted on marshes in Utah.
20161

Some effects on microcrustaceans of coastal impoundments for Aedes sollicitans control.
20850

A multipurpose mosquito control project- Fishing creek.
20936

MARUCA TESTULALIS
Insecticidal control of Maruca testulalis on cowpea in Nigeria.
13918

MASS SPECTRA
Mass spectra of some carbamates and related ureas. II.
20120

MASTITIS
Influence of a penicillin-streptomycin preparation on lamb mortality.
14517

Corynebacterium ulcerans infections in a dairy herd.
14521

A clinical and pathologic study of the Mastitis-meritis Agalactia syndrome of sows.
14535

Reactions following intramammary infusion of E. coli endotoxin.
14544

Food additives permitted in the feed and drinking water of animals of for the treatment of food-producing animals. food additives permitted in food for human consumption. erythromycin.
15484

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. furaltadone.
16086

Mycoplasmas: their role in bovine disease.
18264

Pathology a-d immunofluorescence studies of bovine mycoplasma mastitis.
18267

Effects of temporary hormonal suppression of lactation on milk constituents, clinical mastitis, colostrum, and the estrous cycle.
19950

Mastitis-metritis-agalactia syndrome.
20658

Experimental mastitis in leukopenic cows: Immunologically induced neutropenia and response to intramammary inoculation of Aerobacter aerogenes.
20720

The relation between milk production and sensitivity of the udder for infection with Sc. agalactiae.
20759

Spiramycine in the treatment of bovine mastitis by the parenteral route.
20790

Investigation into electronic cell number counting Brabanter Mastitis-Reaction, Whiteside Mastitis test and lab coagulation time of milk.
20791

Mastitis testing...a six-year summary of Fresno County's DHIA program.
21250

Research about a polyvalent treatment of serious mastitis.
21329

The evaluation of a teat-dipping formulation of chlorhexidine.
21344

Drying-off therapy for bovine mastitis: A comparative field trial.
21381

Laboratory diagnosis and treatment of infectious mastitis in dairy cows.
21403

Survey shows weakness in mastitis control.
22054

Steps can be taken to curb mastitis.
22057

Influence of egg albumin-induced leukopenia on experimental Aerobacter aerogenes mastitis and on natural infection of mammary gland with coagulase-negative Staphylococcus in a cow.
22096

Effect of toxin in bovine mycoplasmal mastitis.
22700

Pathogenesis of coliform mastitis in cattle. II. A comparison of morphological findings in coliform mastitis in cattle and in the experimentally induced arthus phenomenon in the mammary glands of rabbits.
22707

Experimental Streptococcus agalactiae mastitis in cattle: Attempts to supcrimpose the organism in lactating glands harboring unrelated bacterial infections and in glands with experimentally induced sterile inflammation.
22713

Experimental Pseudomonas aeruginosa mastitis in cattle.
22714

Immunisation with staphylococcal cell walls against mastitis.
22728

Microbiological studies of two Nocardia strains.
23309

Mastitis as a herd problem.
23321

The in vitro effect of ketone bodies on the growth curves of mastitis organisms in milk.
23348

MASTRUS LAPLANTEI
New Canadian Cryptinae (Ichneumonidae: Hymenoptera).
20236

MATHEMATICAL ANALYSIS
Numerical analysis of the genus Trichodorus. (Abstract).
14344

Some stochastic models for microorganism death kinetics.
17718

mathematical models for infectivity dilution curves of plant viruses.
21877

The ergonomics of caste in the social insects.
22473

On the dispersal of Drosophila.
22480

Dispersion of Drosophila pseudoobscura.
22481

MATHEMATICS
A further note on sample size for Chi-square test: The rXc table.
16983

Some considerations in dealing with respiratory disease in calves.
19987

mathematical models for infectivity dilution curves of plant viruses.
21877

MATSUCOCCUS ACALYPTUS
Control of pinyon needle scale with dimethoate.
23202

MAYETIOLA
Insecticidal control of paedogenetic cecid larvae in mushroom beds. I. incorporation of insecticides into coonpost. II. incorporation of insecticides in the casing layer. 15241

MAYETIOLA DESTRUCTOR
Peculiarities of development and harmful activity of the Hessian fly (Mayetiola destructor Say.) under conditions of irrigation. 18119

MAYETIOLA RIGIDAE
Life history and habits of the willow beaked gall midge, Mayetiola rigidae (Diptera: Cecidomyiidae), in Michigan. 15829

MAZZARD CHERRIES
Relation of boron to cherry rosette disease in Oregon, and the possible implication of a virus. 17954

Tomato bushy stunt virus from Prunus avium L. I. Field studies and virus characterization. 18764

Tomato bushy stunt virus and Prunus avium L. I. Field studies and virus characterization. 18765

Cherry (sweet). Root lesion nematode, Pratylenchus penetrans. 19038

Tomato bushy stunt virus from Prunus avium L. I. Field studies and virus characterization. 21815

Tomato bushy stunt virus from Prunus avium. II. Serological typing and the characterization of antibody types and activities. 21816

The incidence of virus diseases in English sweet cherry orchards and their effect on yield. 23153

MEAL
Culture survey of Salmonella at a broiler-raising plant. 16024

Availability to the chick of zinc phytate complexes isolated from oil seed meals by an in vitro digestion method. 17531

MEASLES VIRUS
Development of a cell culture system susceptible to measles, canine distemper, and rinderpest viruses. 14549

An abortive infection produced by measles virus. (Abstract). 17494

Naturally occurring giant cell pneumonia in the rhesus monkey (Macaca mulatta). 19986

Rinderpest protection in cattle by measles virus. Application in calves with passive immunity from material antibodies. 20769

MEASUREMENT
Quantitative measurement of the emanation of water from underground plant parts. (Abstract). 15942

Metabolic changes in oxygen-deficient tomato roots. 17261

Survivability of the foot-and-mouth disease virus outside the host. Transl. 16891. 17554

Measurement of the antithyrotoxic factor content of various roughages and cow feces. (Abstract). 17584

Parasitic hypoalbuminaemia: Studies on type II ostertagiasis of cattle. 17603

The biology of fungi bacteria viruses. QR41.S7. 17628

The development of analytical methods for the determination of chlorinated hydrocarbon insecticides in soils and waters. 17647

Developmental characteristics of five lethal mutants of Drosophila melanogaster. 17908

Some nutritional aspects of dietary magnesium in ruminants and poultry. 18227

California-encephalitis-group viruses in Florida rabbits: Report of experimental and sentinel studies. 18265

Quantitative studies on the kinetics of establishment and expulsion of intestinal nematode populations in susceptible and immune hosts. Nippostrongylus brasiliensis in the rat. 18364

The statistical description of a spray in terms of drop velocity, size, and position. 18488

Engineering and biological aspects of designing and using a selective flame weeder. 18493

Experiments concerning the influence of insecticides on arthropod populations. 18578

Pattern recognition in bees. 18697

Methods of measuring the prevalence of pathogenic fungi on potato tubers. 18843

An evaluation of three methods for measuring leaf water potential in Dutch elm-diseased seedlings. (Abstract). 18919

The relationship between bean yellow mosaic virus and pea mosaic virus. 18958

The blood pressure in canine interstitial nephrites. 19153

Receptor potentials of single visual cells of Calliphora erythrocephala: An analysis. 20447

Serum electrolyte, acid-base balance, and enzyme changes in acute halogeton glomeratus poisoning in sheep. 20874

Effects of cycocel and B-nine on cold hardiness of wheat plants. 20915

Mechanical properties of the flight muscle of the bee, I resting elasticity and its ultrastructural interpretation. 20994

The effect of temperature and relative humidity on the flight performance of female Aedes aegypti. 21022

Leaf blade folding and motor cells of some blue grasses. 21075

Studies on the movement of soil water. II. On the measurement of the free water in the soil of every kind by the freezing point depression method and its self-recording. 21081

Predicting and measuring the solubility of p,p'-DDT in water. 23386

MEASURING EQUIPMENT
The effect of protein sources and of the frequency of egg collection on egg production by the housefly (Musca domestica L.). 20426

MEAT
Notice of filing of petition regarding pesticides. 14672

Notice of filing of petition regarding pesticides. 14713

Notice of filing of petition regarding pesticides. 14715

Secondary poisoning associated with anticoagulant-killed nutria. 14758

Periodic measurement of growth and carcass development following diethylstilbestrol implantation of boars. 16034

Use of radioisotopes in the detection of residues in meat and milk. In:Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16, April 1965. SB953.P32. 16125

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl O-p-(dimethylsulfamoyl)phenyl phosphorothioate. 16130

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ethyl 4,4:-dichlorobenzilate. 16131

Milk, eggs, meat, and/or poultry. Pesticide tolerances; policy statement. 16140

Notice of filing of petition regarding pesticides. 16149

Notice of filing of petition regarding pesticides. 16150

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Pesticide tolerances regarding milk, eggs, meat, and/or poultry; statement of policy. 16174

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ethyl 4,4:-dichlorobenzilate. 16178

The spread of sarcosporidiosis in cattle and swine and its importance for the estimation of meat value. 17491

Notice of amended filing of petition regarding pesticides. 17643

Ethion. Proposed establishment of pesticide tolerances. 17644

Viruses, serums, toxins, and analogous products. Labels. 19155

Iron injection and ham acceptability. 20784

Presence of Salmonella in ground beef meat from a brucellosis region. 20846

Host - parasite relationship--I. Studies on the productivity of sheep as affected by Haemonchosis. 21472

Notice of filing of petition regarding pesticide chemicals. 21493

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ethion. 21501

Arsenic. Proposed tolerances for residues in edible tissues and byproducts of swine. 21504

National poultry and turkey improvement plans and auxiliary provisions. Notice of proposed rule making. 22045

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid. 22190

Methoxychlor residues in the meat and milk of cattle following limited applications of methoxychlor for the control of buffalo fly (Haematobia exigua). 22192

MEAT INSPECTION
An analysis of current inspection procedures for detecting bovine cysticercosis. 14502

Thoughts on the Salmonella problem. 22180

On the legal classification of inspected meat from slaughtered animals in which Salmonella was detected. 22181

MEAT PACKING INDUSTRY
Thoughts on the Salmonella problem. 22180

MEAT PRESERVATION
Experiments on the prevention of fly-maggot infection of meat. 20061

MECARBAM
An insecticidal application for integrated control of the brown planthopper in paddy rice. 14444

MECHANICS
Some problems in studying the infection mechanism. 17277

Anaerobic processes. Microbiology and mechanism. 18405

Patterns of cross resistance to organophosphates and carbamates in Musca domestica. 20172

MECHANIZATION
Phytopathological consequences of changing agricutural methods. II. Cereals. 17426

Mechanization of plant protection in fruit growing. 19326

The use of the mouthparts of Orthoptera during feeding. 20343

Mechanical properties of the flight muscle of the bee, I resting elasticity and its ultrastructural interpretation. 20994

How flies fly. 21709

MECHANORECEPTORS
Structure and physiology of a chordotonal organ in the locust leg. 16469

MECOPROP
loxynil: Its effect on wheat yield and weed populations. 21220

MEDICAL ENTOMOLOGY
Literature references to mosquitoes and mosquitoe-borne diseases. 14324

Erature references to mosquitoes and mosquito-borne diseases. 14325

La lutte chimique contre les insects nuisibles. (chemical control of insect pests). ed. 3. 14906

Biology of vector-associated diseases in Vietnam. 17913

Index catalogue to Russian, central and eastern European, and Chinese literature in medical entomology. Control measures for Arthropods of medical importance. 241.74 M36. 19794

A bibliographical guide to the animal parasites and arthropod pests of Ceylon. 19939

Studies on the possibilities of using blowflies (Dipt.) as medicolegal indicators in Finland. I. Report of four indoor cases from the city of Helsinki. 21717

MEDICINE
Helminths as vehicles and synergists of microbial infections. 18376

Antibiotics, use in animals. 19145

Organophosphorus substances. QD412.PIK33. 19320

Recent techniques concerning the serodiagnosis of human and animal hydatidosis. II Evidence of flocculation with bentonite. 20029

MEDITERRANEAN
Rhizopulvinaria of Mediterranean pinks. (Coccoidea-coccidae). 19571

MEDOCOSTES
Medocostidae-a new family of Cimicomorphan Heteroptera based on a new genus and two new species from tropical Africa. i. descriptive part. 13753

MEDOCOSTIDAE
Medocostidae-a new family of Cimicomorphan Heteroptera based on a new genus and two new species from tropical Africa. i. descriptive part. 13753

MEGACHILE ROTUNDATA
Controlling insect enemies of the alfalfa leaf-cutter bee, Megachile rotundata. 16400

Chromosome number in the leaf-cutter bee, Megachile rotundata. 19648

MEGACHILIDAE
The immature instars of the Cleptoparasitic genus Dioxys (Hymenoptera: Megachilidae). 15730

On the teratology of the genus Megachile Latr. (Hym., Apidae). 19704

First recorded occurrence of the genus Dioxys in Idaho (Hymenoptera: Megachilidae). 20200

The identity of Megachile rotundata (Fabricius) and M. argentata (Fabricius) (Hymenoptera: Apoidea). 20207

Contribution to the knowledge of the genus Megachile Latr. (Hym. Apidae): Subgenus Eutricharaea and its hitherto known species. 20251

MEGALYRIDAE
Notes on Megalyridae (Hym. Ichneumonoidea) and description of new species from Madagascar. 17751

MEGASELIA SCALARIS
Whole body turnover of potassium traced by radiorubidium in adult Drosophila (Drosophilidae) and Megaselia (Phoridae). 16384

Infestation of emulsion paint by the fly Megaselia scalaris (Loew)(Dipt., Phoridae). 18640

MEGASTIGMUS
Megastigmus spp. (Hymenoptera: Torymidae) associated with the seeds of Pinus spp. 17030

MEIOSIS
Rapid allocyclic changes in the centric and an arm segment 0f the X chromosome in meiosis of male Omophoita superba Weise (Coleoptera, Alticidae). 14301

Induction of multipolar spindles in the meiosis of Triticum aestivum as effected by acetone. 16404

Chromosomal alternations in pearl millet induced by gammarays. 18465

Karyokinetic spindles and the behavior of centrioles in the spermatocyte meiosis of silkworms and grasshoppers. 19681

Chromosomal aberrations induced by pesticides in meiotic cells of barley. 19862

Cytological effects of pesticides. II. Meiotic effects of some phenols. 19926

The non-random chromosome segregation in spermatocytes of gryllotalpa hexadactyla. 20451

Cytological analysis of the sex chromosome from testis cells of grasshoppers--a review. 20468

New type of nuclear life cycle in Hemileia vastatrix. 20557

Synthesis of ribonucleic acid and histone change during spermatogenesis in the grasshopper Chortophaga viridifasciata. 20988

Possible use of translocations to fix desirable genes in insect pest populations. 21038

The meiotic behavior of tandem acrocentric compound x chromosomes in Drosophila melanogaster. 21041

The transfer of blue mold resistance to tobacco from Nicotiana debneyi: Pt ii, chromosome studies. 21111

The incorporation of alien disease resistance in wheat by genetic interference with the regulation of meiotic chromosome synapsis. 21152

Multiple core complexes in grasshopper spermatocytes and spermatids. 22478

Distortional meiotic segregation of a supernumerary chromosome producing differential frequencies in the sexes in the short-horned grasshopper Phaulacridium vittatum. 23076

The effect of X-irradiation on male meiosis in Schistocerca gregaria (Forskal). 1. Chiasma frequency response. 23083

MELAMPSORA LINI
Flax rust resistance induced by a previous inoculation. (Abstract). 15902

Electron microscopy of uredospores of Melampsora lini and of rust infected flax. 16633

Metabolism of glucose-14C, pyruvate-14C, and mannitol-14C by Melampsora lini. I. Uptake. 16939

Some relationships of phenolic acids to the development of rust infection in flax cotyledons. 17671

Quantitative histology of Melampsora lini resistance in flax. (Abstract). 17941

MELANINS
A study of a melanic mutant of the blowfly Lucilia cuprina. 16395

Evidence of winged insect sexual dimorphism in Philophylla heraclei (Dipt. Trypetidae) through use of a photopterometre. 16419

X-ray analysis of hyphal and sclerotill walls of Sclerotium rolfsii Sacc. 17674

MELANOPHILA DRUMMONDI
Wood- and bark-feeding Coleoptera of felled western larch in British Columbia. 14612

MELANOPLUS
Grasshopper damage on short-grass rangeland of the San Carlos Apache Indian Reservation, Arizona. 15247

MELANOPLUS BIVITTATUS
Nosema acridophagus sp n, a microsporidian isolated from grasshoppers. 15761

A note on the influence of a range of plant chemicals on the growth and survival of Aedes aegypti L. larvae. 16396

MELANOPLUS DIFFERENTIALIS
Nosema acridophagus sp n, a microsporidian isolated from grasshoppers. 15761

A gynandromorph grasshopper with an ovotestis (Orthoptera, Acrididae).
21029

MELANOPLUS SANGUINIPES
Nosema acridophagus sp n, a microsporidian isolated from grasshoppers.
15761

An improved method for embedding and sectioning eggs of the migratory grasshopper, Melanoplus sanguinipes Fab. (Orthoptera: Acrididae).
17106

Resistance of forage plants to the feeding of Melanoplus sanguinipes.
19625

MELANOSIS
Inherited melanism in the large milkweed bug, Oncopeltus fasciatus (Heteroptera: Lygaeidae).
17226

A local survey of the distribution of industrial melanic forms in the moth Biston betularia and estimates of the selective values of these in an industrial environment.
18594

Melanism in Connecticut Charadra deridens (Guenee) (Lepidoptera: Noctuidae).
19779

MELANOZETES
Biology of Melanozetes mollicomus (Koch) (Oribatei, Ceratozetidae).
20261

MELICERIA
Meliceria Raffr and Cyrtoplectus Norm. (Col. Pselaphidae).
14031

MELIGETHES AENEUS
Some control experiment in the laboratory of the rape beetle (Meligethes aeneus F.) and the cabbage seedpod weevil (Ceutorphynchus assimilis. Payk.).
14450

Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera).
15990

MELLITOTORYMUS GREGALIS
Two new species of palaearctic Torymidae and Cleonymidae.
22920

MELOCACTUS
The aphids that feed on cacti.
20227

MELOIDAE
Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 69th contribution. Coleoptera: Meloidae.
14068

Bionomics, sexual behavior, and adult anatomy of the albida group of the genus Epicauta (Coleoptera: Meloidae).
16430

Important development of Lytta vesicatoria (L.) (Coleopt., Meloidae) in the laboratory and the time period of cantharide synthesis. (sum).
20390

MELOIDOGYNE
The occurrence of a Phytophthora root and leaf disease of black pepper in Jamaica.
15106

Chemotherapeutic control of a root-knot nematode.
15258

Soil fumigation by injection and irrigation for the control of nematodes on hops.
15261

Studies on the cross infectivity and pathogenicity of fifteen isolates of root-knot nematodes.
16005

The utility of polyacrylamide-gel electrophoresis for distinguishing between species of Meloidogyne and showing taxonomic relationships. (Abstract).
17422

Tobacco, flue-cured (plant bed), damping-off and root rot soil-borne pathogens including; Phytophthora parasitica var. nicotianae, and Meloidogyne sp., Control of weeds.
19016

Tobacco root-knot and lesion nema., Meloidogyne sp. and Pratylenchus sp.
19022

Tobacco root-knot nematode, Meloidogyne sp.
19087

Meloidogyne coffeicola destructive and insidious nematode of the coffee tree.
19869

Present situation concerning the attack by the nematode, Meloidogyne coffeicola on Sao Paulas coffee culture and means for its control.
19920

Diseases of Florida flue-cured tobacco in 1968.
21141

Efficacy of Vorlex on mites and nematodes on gladiolus corm debris in sandy soils of Florida. (Abstract).
22004

Growth substances in roots of tomato (Lycopersicon esculentum Mill.) infected with root-knot nematodes (Meloidogyne spp.).
23220

MELOIDOGYNE HAPLA
The influence of crop-rotation on the attack of carrots by Meldidogyne hapla Chitw. and symptom formation.
18068

Susceptibility of eighteen potato varieties to Meloidogyne hapla.
21209

MELOIDOGYNE INCOGNITA
A technique for isolating and maintaing cultures of Meloidogyne.
13940

Relationship of root knot nematodes to pathogenic variability in Fusarium oxysporum f. sp. lycopersici.
14373

The influence of Meloidogyne incognita on Rhizoctonia root rot in tobacco. (Abstract).
15855

Effect of temperature on the development of Meloidogyne incognita in sweetpotato. (Abstract).
16604

The hatching response of Meloidogyne incognita eggs as affected by amino and nonamino acid fractions of root exudates.
16718

Seasonal population dynamics of Belonolaimus longicaudatus, Meloidogyne incognita, Pratylenchus zeae, Trichodorus christiei and Tylenchorhynchus claytoni. (Abstract).
17415

Occurrence of Heterodera glycines from the Golden Island, Giza, U. A. R.
17421

Resistance of Cucumis species to root-knot nematode, Meloidogyne incognita acrita. (Abstract).
17425

Interaction of Meloidogyne javanica and Phytophthora parasitica var nicotianae on Nicotiana tabacum (N. C. 95.' (Abstract).
18036

Effect of temperature and variety on nematode development and gall production on soybeans infected with Meloidogyne incognita acrita. (Abstract).
18131

Bean (lima), sweet potato, Root-knot nematode, Meloidogyne incognita.
19006

Tobacco (burley) root-knot nematode, Meloidogyne incognito.
19080

Sweet potato, root-knot nematode, Meloidogyne incognita.
19081

Tobacco (burley) root-knot nematode, Meloidogyne incognita.
19082

Pathogenicity and development of root-knot nematodes on ampalaya.
19921

Activity of dehydrogenases in tomato root-knots infected with the root-knot nematode.
19922

Breeding peaches for root-knot nematode resistance.
21800

MELOIDOGYNE INCOGNITA ACRITA
Organ culture of Meloidogyne incognita acrita. (Abstract).
16720

The effect of certain chemical soil treatments and methods of application in the control of Meloidogyne incognita acrita and effect of these treatments on flue-cured tobacco yield and value. (Abstract).
17444

Tobacco root-knot nematode, Meloidogyne incognita acrita.
19052

Tobacco root-knot nematode, Meloidogyne incognita acrita.
19053

Tobacco root-knot nematode, Meloidogyne incognita acrita.
19054

Tobacco root-knot nematode, Meloidogyne incognita acrita.
19055

Enzyme localization in Lee soybeans infected with the root knot nematode, Meloidogyne incognita acrita. (Abstract).
19111

MELOIDOGYNE JAVANICA
Changes associated with parasitism in nematodes. i. morphology and physiology of preparasitic and parasitic larvae of Meloidogyne javanica.
13938

Changes associated with parasitism in nematodes. Ii. Histochemical and microspectrophotometric analyses of preparasitic and parasitic larvae of Meloidogyne javanica.
14455

Undulatory locomotion of the plant parasitic nematode Meloidogyne javanica.
17217

Inoculation trail with Meloidogyne javanica on okra (Abelmoschus esculentus).
17416

Supply of oxygen during hatching of the nematode Meloidogyne javanica under non-competitive conditions.
17419

The influence of systemic plant growth substances on the galls induced by the root knot nematode Meloidogyne javanica.
17443

Interaction of Meloidogyne javanica and Phytophthora parasitica var nicotianae on Nicotiana tabacum (N. C. 95.' (Abstract).
18036

Changes associated with parasitism in nematodes. IV. Cytochemical studies on the ampulla of the dorsal esophageal gland of Meloidogyne javanica and on exudations from the buccal stylet.
18586

Breeding peaches for root-knot nematode resistance.
21800

MELOLONTHA MELOLONTHA
Experiments on simultaneous infections of the common cockchafer, Melolontha melolontha.
16985

Morphological study of the virus of the spindle disease of Coleoptera.
23062

MELONS
Pathogenicity and development of root-knot nematodes on ampalaya.
19921

Insect control on cucumbers, melons, squash and pumpkins. 21185

MELOPHAGUS OVINUS
Effects of vitamin A deficiency and ked resistance on the feeding of Dermacentor andersoni on sheep. 16094
Control and eradication of sheep lice and ked. 23245
Weight gains and wool growth in sheep infested with the sheep ked Melophagus ovinus. 23356

MELTING OUT (POA)
Low light intensity promotes melting out of bluegrass. (Abstract). 18026

MELTING POINTS
Insecticidal tertiary alcohols. Patent 3,402,209. 16953
Freeze-resistant pesticidal composition. Patent 3,399,991. 16961
Studies on the movement of soil water. II. On the measurement of the free water in the soil of every kind by the freezing point depression method and its self-recording. 21081

MEMBRACIDAE
Six new species of Membracidae (Hemiptera: Homoptera) from South Africa. 17011
On a new Monocentrus (Membracidae Centrotinae), harmful to the cultivated pepper trees in central Africa. 19356
A new Leptocentrus (Homoptera: Membracidae) from the Congo. 19370
A new treehopper record for Wisconsin (Homoptera, Membracidae). 19379
Telamona Archboldi, a new treehopper from Florida (Homoptera: Membracidae). 19400
The treehoppers of Wisconsin in relation to the tension zone (Homoptera, Membracidae). 21602

MEMORY
Time memory of bees under the influence of narcosis and of social pacemaking signals (Zeitgeber). 14917

MENACANTHUS STRAMINEUS
Control of chicken body, shaft, and wing lice on laying hens by self-treatment with insecticide dusts and granules. 14580
Methods for the study of tracheal system and copulatory apparatus in Menacanthus stramineus. 19795

MENAZON
The use of menazon seed dressing to decrease spread of virus yellows in sugar-beet root crops. 18098
Research and determination of dell'O,O-dimetil-S-(4,6-diammino-s-triazinil)-ditiofosfato (Menazon) nell'olio di oliva. 20890

MENINGITIS
Salmonella dublin meningitis in piglets. 18287

MENINGO-ENCEPHALITIS
Cryptococcus neoformans infection in a dog. 20012

MENOPON GALLINAE
Control of chicken body, shaft, and wing lice on laying hens by self-treatment with insecticide dusts and granules. 14580
Dust containing Bacillus thuringiensis for control of chicken body, shaft, and wing lice. 15504

MENOPONIDAE
The genus Psittacobrosus (Mallophaga: Menoponidae) of the Neotropical Psittaciformes. 17054
A review of the genus Turacoeca with description of a new species (Mallophaga: Menoponidae). 19471
A new species of Dennyus (Mallophagai Menoponidae) from the Malaysian Spine-tailed Swift. 22867

MENTHA SPICATA
Record of two Longidorus species from Sudan. 15274

MERCAPTO COMPOUNDS
A comparison of the effects of ozone and sulfhydryl reagents on plants. (Abstract). 16233

MERCAPTO GROUP
Studies on the absorption of 75 Selenium in chicks. (Abstract). 17515
Effects of metabolic poisons on rice: the comparative sensitivity of aerobic and anaerobic modes of germination. 17704
The ozone resistance of leaves as related to their sulfhydryl and adenosine triphosphate content. 17708

MERCURY
Vascular disease in organomercurial poisoning in swine. (Abstract). 17580
Studies on the effects of Hg(II) and sucrose on the mechanical transmission of tobacco mosaic virus ribonucleic acid to pinto bean (Phaseolus vulgaris L.). 18011
Analytical problems: Mercury in the general environment. 18408
The toxicity and distribution of mercury. 18410
Low temperature irradiation applied to neutron activation analysis of mercury in human whole blood. 18484
Mercury poisoning in pigs. 19984

MERCURY COMPOUNDS
Fungicidal activity and phytotoxicity of certain mercurials used to control Fusarium basal rot of narcissus bulbs. 14399
Comparative fungitoxicity of some organic and inorganic mercury fungicides. (Abstract). 15864
Distribution of mercury compounds in fish and birds. 18180
Mercury content in feathers of Swedish birds from the past 100 years. 18198
Methyl mercury compounds in fish. 18199
The toxicity and distribution of mercury. 18410
Swedish studies of game that had been found dead as well as specimens that had been shot. 18411
The toxicology of different organo-mercurials used as fungicides. 18418
Swedish restrictions concerning the use of mercury compounds for seed disinfection. 18441
Mercury poisoning in pigs. 19984
IUPAC commission on the development, improvement, and standardization of methods of pesticide residue analysis. 20077
Deterioration of treated and untreated cottonseed during humid storage. 21952
Mercury residues in apples in relation to spray date, variety and chemical composition of fungicide. 23400

MERICIA AMPELUS
Defense reactions of Malacosoma neustria against tachinid larvae with simultaneous occurrence of a nuclear polyhedrosis. (1) (2). 23000

MERITIS
A clinical and pathologic study of the Mastitis-meritis Agalactia syndrome of sows. 14535

MERMIS
Biological notes on eye-frequenting moths from N. Thailand. 14575

MERMITHIDAE
New records of parasites of Ceratopogonidae. 14172
Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicitans (Walker) in Louisiana. 18654
Parasitic development of Filipjevimermis leipsandra Poinar and Welch (Mermithidae) in Diabrotica u. undecimpunctata (Chrysomelidae). 23219

MEROBRUCHUS
Notes on the systematics, host plants, and bionomics of the Bruchid genera Merobruchus and Stator. (Coleoptera: Bruchidae). 18537

MEROMYZA AMERICANA
Guide lines for the testing of materials on fallow flies. 20598

MESONYSSUS
New records and a new species of Mesonyssus (Mesostigmata: Rhinonyssidae) from parrots (Psittaciformes: Psittacidae). 14134

MESONYSSUS CHALCOPSITTAE
New records and a new species of Mesonyssus (Mesostigmata: Rhinonyssidae) from parrots (Psittaciformes: Psittacidae). 14134

MESOSTIGMATA
Some generic descriptions and name changes in the family Phytoseiidae (Acarina:Mesostigmata). 20238
New nasal mites Ptilonyssus and Paraneonyssus (Acarina: Mesostigmata), from Taiwan and New guinea. 22327

METABOLISM
The metabolism of radioactive fumaric acid and some other substrates by whole adult Echinococcus granulosus (Cestoda). 13982
Ethanol suppresses uptake and metabolism of glucose by Armillaria mellea. (Abstract). 14370
Metabolic transformation of 14C-glucose into tissue proteins of Ancylostoma caninum. 14599
Diazinon absorption, translocation, and metabolism in bean plants. 14634
Respiratory changes during development of rust diseases. 15034
Experimental water intoxication in calves. 15396
Metabolism of TOK herbicide in dairy cow. 15564
Determination of linuron and its known and/or suspected metabolites in crop materials. 15566

Metabolism of dDT and some other chlorinated organic compounds by Aerobacter aerogenes. 15571

Metabolism of 14C-labelled insecticides in microorganisms, insects and mammals. 15778

Steroid metabolism in the rabbit. Biliary and urinary excretion of metabolites of (4-14C)testosterone. 16042

The biochemical mechanism of action of the anthelmintic drug tetramisole. 16100

Metabolism of triazine and 2,4-D herbicides, and problems with their residues in soils and plants. In:Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16 April 1965 SB953.P32. 16123

Fructose diphosphate aldolase from Fusarium oxysporum f lycopersici. III. Studies on the mechanism of reaction. 16206

Amino acid requirements and sulfur amino acid metabolism in the pea aphid, Acyrthosiphon pisum (Harris). 16334

Uptake and metabolism of indoleacetic acid, naphaleneacetic acid, and 2,4-dichlorophenoxyacetic acid by pea root segments in relation to growth inhibition during and after auxin application. 16511

Effect of tobacco mosaic virus infection on glucose metabolism in Nicotiana tabacum var. Samsun. i. Investigations with 14C-labeled sugars. 16543

Effects of cytokinins on the absorption of victorin. 16627

The effect of Anaplasma marginale infection on the metabolic and osmotic behavior of bovine erythrocytes. 16813

Studies on the absorption and metabolism of D-(u-14C) glucose by Polymorphus minutus (Acanthocephala) in vitro. 16873

Purification and properties of fructose diphosphate aldolase from Fusarium oxysporum f. lycopersici. 16924

Growth and metabolism of live vaccine strain of Pasteurella tularensis. 16966

Mode of action of organic thiocyanates as insecticides and carbamate synergists. 17073

A convenient synthesis of mixed isomers of juvenile hormone. 17083

Choline activity during the development of Drosophila melanogaster. 17111

Anaerobic induction of primary chemical attractancy for ambrosia beetles. 17115

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal.). III. Metabolic changes and their bearing on the cessation and delay of moulting. 17177

Annual review of plant physiology. 17265

The role of mixed function oxidases in diterpene metabolism. 17267

Metabolic changes in biotin-deficient Aspergillus nidulans. 17272

Lipid metabolism in clubroot of cabbage. 17344

Effect of diet on metabolism of fenthion in animals. 17468

Effect of glycine and serine on the metabolism of methionine. (Abstract). 17469

Vitamin B6 requirement of the mink. 17492

Electron microscopic observations on scrapie in the mouse, with reference to glucosaminidase activity. 17497

Niacin requirement of growing mink. 17585

Studies on pathogenic Leptospirae. VI. Effect of Tween 80 on the growth of Leptospira canicola and Leptospira icterohaemorrhagiae. 17594

Comparative drug metabolism in five mammalian species. (Abstract). 17595

Parasitic hypoalbuminaemia: Studies on type II ostertagiasis of cattle. 17603

The biology of fungi bacteria viruses. QR41.S7. 17628

Intracellular and extracellular metabolism of 3-indoleacetic acid in the aseptic and nonaseptic cultures of Pisum sativum root tips. 17676

The effect of cycloheximide on the metabolism of Neurospora crass 10780. 17711

Selective recovery of volatile products from house flies treated with radioactive insecticide chemicals and synergists. 17796

Metabolism of C14-labeled hemel in male house flies. 17798

Ordered chromosomal DNA synthesis in Drosophila melanogaster. 17835

Tyrosine metabolism and its hormonal control after eclosion in the adult fleshfly Sarcophaga bullata Parker (Diptera: Sarcophagidae). 17879

Some aspects of isolevcine metabolism in the yellow fever mosquito, Aedes aegypti (L.). 17891

Anaerobic metabolism of Albugo candida-infected radish cotyledons. 17953

An investigation of the tobacco mosaic virus multiplication process and its effect on the metabolism of the host. 17998

Effect of organo-Phosphorus insecticides on the warm blooded animals and cure thereof. 18193

Relationships between zinc nutrition and alkaline phosphatase activity in the chick. 18220

Actions of vitamin D3 and sex hormones on calcium metabolism of bone in birds, particularly in hens. 18226

Degradation of cellular ribonucleic acid in Newcastle disease virus infected cells. 18258

Oxalate metabolism in sheep II. Effect of low level Halogeton glomeratus intake on electrolyte metabolism. 18262

Food intake and growth of burro foals after 250 roentgens of cobalt-60 whole-body gamma irradiation. 18271

Copper and ascorbic acid in guinea pig tissues as effected by dietary intake. 18290

Changes in protein and nucleic acid metabolism in baby hamster kidney cells infected with foot-and-mouth disease virus. 18308

Administration of glycuronic acid and its excretion in dairy cows. 18333

The effect of diet on the utilization of stable and radioactive copper in ruminants. 18334

Degradation of diazinon by synergistic microbial action. 18384

Effect of thiram upon glucose catabolism by Fusarium oxysporum. (Abstract). 18425

Active uptake of Helminthosporium carbonum toxin and its effect on CO2 dark fixation by corn. (Abstract). 18453

Oxalate biosynthesis and pathways for glucose catabolism in Sclerotium rolfsii Sacc. 18459

Light stimulated biosynthesis of gibberellins in Fusarium moniliforme. 18462

Wound-induced gibberellins. 18467

Red light induction of gibberellin synthesis in leaves. 18468

Acetylcholinesterase insensitivity in the biarra strain of the cattle tick Boophilus microplus, as a cause of resistance to organophosphorus and carbamate acaricides. 18666

Further observation on the time requirement for hypersensitive cell death of potatoes infected by phytophthora infestans and its relation to metabolic activity. 18961

Virulence of Verticillium albo-atrum in cotton in relation to colony characteristics and endopolygalacturonase production. (Abstract). 18985

Pesticide-induced enzyme breakdown of steroids in birds. 19148

Metabolism of 'propham' (isopropyl N-phenylcarbamate) in the rat. 19245

Effects of F-2, an estrogenic metabolite from Fusarium, on sexual reproduction of certain ascomycetes. (Abstract). 19287

Template activity and RNA synthesis from germinating bean rust uredospores. (Abstract). 19292

Metabolism of 3,4-dichloropropionanilide in plants: The metabolic fate of the 3,4-dichloroaniline moiety. 19306

Oxidative metabolic patterns displayed by Pseudomonas sauastanoi on carbohydrate and amino substrates. (Abstract). 19315

Malarial parasite metabolism: the Pentose Cycle in Plasmodium berghei. 19653

Degradation of hydrocarbon by members of the genus Candida. III. Oxidative intermediates from 1-Hexadecene and 1-Heptadecene by Candida lipolytica. 19977

Lipid metabolism in the adult cestode Hymenolepis diminuta. 19996

Metabolic transformation of 14C-glucose into tissue proteins of Ancylostoma caninum. 20036

Sensitivity of trypanosomes to metabolic inhibitors. 20040

Bibliography on the biochemistry of endoparasites. 20051

Pharmacodynamic study of DDT in cockerels. 20091

Detoxification of DDT by the perfused bovine liver. 20107

Use of radioactive isotopes in insecticide research. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20127

Metabolic changes in liver associated with spontaneous ketosis and starvation in cows. 20304

Estimation of pathways of carbohydrate metabolism in insects. 20321

Copper-molybdenum interaction in sheep and chicks. 20332

A copper-molybdenum complex: its effects and movement in the piglet and sheep. 20333

Biochemical, skeletal and allometric changes due to zinc deficiency in the baby pig. 20392

Relationship of oxygen requirements to index-organism classification of immature aquatic insects. 20408

Hormonal control of carbohydrate metabolism in insects. 20433

Metabolic changes in biotin-deficient Aspergillus nidulans. 20507

RNA synthesis in cell-free extracts of barley leaves in fected with bromegrass mosaic virus. 20564

Toxicology of the herbicide dichlobenil (2,6-dichlorobenzonitrile) and its main metabolites. 20650

The effect of propylene glycol on blood and non-esterified fatty acids (NEFA) in ruminants. 20654

Metabolism of carbonyl-C14-labeled imidan, N-(mercaptomethyl)phthalimide-S-(O,O-dimethyl-phosphorodithioate), in rats and cockroaches. 20656

The effect of altering metabolic rate on the mortality and incubation time of rabies. 20701

Pyrimidine nucleotide metabolism and pathways of thymidine triphosphate biosynthesis in Salmonella typhimurium. 20758

Malaria: Extracellular amino acid requirements for in vitro growth of erythrocytic forms of Plasmodium knowlesi. 20768

Piperazine in veterinary medicine. 20808

Influence of induction of hepatic microsomal enzymes by phenobarbital on toxicity of organic phosphate insecticides. 20870

Serum electrolyte, acid-base balance, and enzyme changes in acute halogeton glomeratus poisoning in sheep. 20874

Site of action of aflatoxin on human liver cells in culture. 20886

Atrazine metabolism in resistant corn and sorghum. 20911

Incorporation of lysine-6-C14 into the protein of the adult boll weevil, Anthonomus grandis. 21011

Cytological changes in the fat body of Rhodnius during starvation, feeding and oxygen want. 21034

Polyploidy and nuclear fusion in the fat body of Rhodnius (Hemiptera). 21046

Effect of B-indolylacetic acid on the growth and the auxin catabolism of Lactobacillus bulgaricus. 21086

A comparison of the ability of the Japanese quail and light breed chicken to metabolize and utilize energy. 21241

Effect of pyridoxine deficiency on lipid metabolism in the chick. 21247

Chromium-51 in food metabolizability and passage rate studies with the ring-necked pheasant. 21249

Influence of aldosterone on PSE pork muscle. (Abstract). 21282

Biochemical abberrations with ammonia intoxication. (Abstract). 21287

Influence of calcium in laying rations on shell quality and interior quality of eggs. 21288

Strontium metabolism in chicks. 21304

Effect of chronic reserpine on metabolism and chemical constituents of turkey testis. 21336

Biosynthesis and occurrence of free amino acids in eggs of the grasshopper, Aulocara elliotti. 21666

A biochemical look at insect diapause. 21684

Action of insect hormones on the fate of C-glucose in the diapausing, brainless pupa of Samia cynthia pryeri (Lepidoptera: Saturniidae). 21695

Susceptibility to tobacco mosaic virus in relation to RNA and protein synthesis in tobacco and bean plants. 21876

Alterations in the peach trees (cv. red haven) attacked by Taphrina deformans with particular reference to the nitrogen metabolism in infected and non-infected leaves. 21916

Lettuce tipburn and nitrogen metabolism. (Abstract). 21921

Tumour metabolic inhibition of serum from partially hepatectomized rats as a specific lack of compensation mechanisms in tumour cells. 22141

Diffusion chambers for inducing immunity to Trichinella spiralis in mice. 22161

L-Lysine carboxylyase in Ascaris lumbricoides and Moniezia expansa. 22168

The fate of paraquat in soils. 22187

Fungal detoxication-IX. Metabolism of 1-naphthaleneacetic acid by Aspergillus niger van Tiegh. 22206

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on intermediary metabolism of 14C-labelled organic acids by pea root tips. 22215

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on the uptake and metabolism of 14C-glucose and on the incorporation of 14C-labelled amino acids into protein in pea root tips. 22216

Metabolism of sporulation in filamentous fungi. I. Glucose and acetate oxidation in sporulating and nonsporulating cultures of Endothia parasitica. 22221

Utilization of carbon compounds by Fusarium solani f. aurantifoliae Bhat. and Prasad. 22494

The relation between the liver reserves of vitamin A and some intestinal parasites in Dokki 4 chicks. (a). In chicks affected with cecal coccidiosis. 22627

Pantothenic acid metabolism during avian malaria infection: Pantothenate kinase activity in duck erythrocytes and in Plasmodium lophurae. 22630

Stimulation of leptospiral growth by glucose. 22653

Serological response of pigs to infection with Mycoplasma. Demonstration of growth and metabolism-inhibiting antibodies in sera of pigs inoculated intranasally with Mycoplasma hyorhinis. II. 22661

RNA metabolism in the brains of mice clinically affected with scrapie. 23302

Effect of intake of copper, molybdenum and sulphate on copper metabolism in the sheep. Iii. Studies with radioactive copper in male castrated sheep. 23336

Studies on plant growth-regulating substances. XXVII. The growth-regulating activity and metabolism of 2,4-dichlorophenoxyethylamine and related compounds in higher plants. 23424

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. I. Studies with 14CO2, quinate-U-14C, and shikimate-U-14C as precursors. 23429

METABOLISM DISEASES

Metabolic disorders of sheep: earlier planes of nutrition. 16029

Selenium-responsive diseases of animals in New Zealand. 16746

Corticosteroid overdosage in dogs. 16907

Ration evaluation and ketosis prevention. 20696

METABOLITES

Notice of filing of petition regarding pesticide chemicals. 13999

Plant uptake of 14C-diuron in modified soil. 14008

Antibiotics used in food-producing animals. 14561

Aflatoxin and its control. 14607

A metabolic study of 3-(3,4-dichlorophenyl)-1,1-dimethylurea (diuron) applied to corn seedlings. 14624

Determination of fenthion and five of its metabolites in corn, grass, and milk. 14629

The fate of 4-amino-3,5,6-trichloropicolinic acid in spring wheat and soil. 14637

Notice of withdrawal of petition regarding pesticide chemicals. 14674

Notice of establishment of temporary tolerance. 14686

Notice of filing of petition regarding pesticides. 14704

Notice of filing of petition regarding pesticides. 14708

Notice of filing of petition regarding pesticides. 14724

Interaction of DDT and the gastrointestinal microflora of the rat. 14754

Temik-S35 metabolism in a lactating cow. 14757

Distribution of bidrin in the foliage of treated trees. 15230

Dicamba and its metabolite. notice of establishment of temporary tolerance.
15591

Metabolism of 2-chloro-4,5-dimethyplhenyl N-methylcarbamate in bean plants.
15619

Infrared absorption spectra and polymeric structures of three s-Triazine herbicides and their metabolites.
15657

Steroid metabolism in the rabbit. Biliary and urinary excretion of metabolites of (4-14C)testosterone.
16042

Pesticide monitoring programs.
16113

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid.
16159

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethyl 2,3,5,6-tetrachloroterephthalate.
16160

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dicamba.
16161

The metabolism of carbaryl in man, monkey, pig, and sheep.
16193

Gibberellin and the growth of peach and apricot fruits.
16207

Physiological aspects of fluometuron in cotton and cucumber.
16227

Hexosamine metabolism in imaginal disks of Drosophila melanogaster.
16388

The metabolism of carbaryl (1-naphthyl-N-methylcarbamate) by the fat body of the blowfly larva Calliphora erythrocephala.
16440

Determination of volatile acid production of Clostridium by gas chromatography.
16626

Trans-aldrin glycol as a metabolite of dieldrin in larvae of the southern house mosquito.
17211

Effect of B-group vitamins and ethyl alcohol on aflatoxin production by Aspergillus oryzae.
17249

Effect of diet on metabolism of fenthion in animals.
17468

Blood concentration of chloramphenicol in horses after intramuscular or oral administration.
17477

Relationship of histidine. its metabolites and other factors to the arthritic syndrome in zinc-deficient chicks.
17557

Notice of amended filing of petition regarding pesticides. duggan, r e.
17646

Studies on toxicity of tannic acid and the mechanism(s) for its detoxication in chickens.
17663

Some relationships of phenolic acids to the development of rust infection in flax cotyledons.
17671

Phenylacetic acid, a metabolite of Xanthomonas oryzae (Uyeda et Ishiyama) Dowson in culture affecting upon the depressive growth of young roots of rice seedlings.
17683

Metabolism of C14-labeled hemel in male house flies.
17798

Studies on the pathogen and vector of dutch elm disease. A. Morphogenesis in Ceratocystis ulmi. B. Chemicals stimulating feeding by Scolytus multistriatus. II. An improved method for the isolation of a toxic metabolite from Rhizoctonia leguminicola.
18051

Chemical control of nutsedge (Cyperus rotundus L.) and the metabolism of 3,6-dichloro-O-anisic acid (dicamba).
18169

Levels of 5 beta-pregnan-3 alpha, 6 alpha-diol-20-one in urine and its relationship to other metabolites of progestrone in urine of the non-pregnant domestic sow.
18189

Comparison of metabolites of progesterone-4-14C in urine from a nonpregnant domestic sow.
18190

Isolation and purification of metabolites found in the urine of male rats fed aldrin and dieldrin.
18379

Analytical problems: Mercury in the general environment.
18408

Isolation of a new toxin from cultures of Aspergillus flavus.
18416

Metabolism of amitrole (3-amino-1,2,4-triazole) in relation to the differential susceptibility of Cirsium arvense (L.) scop. ecotypes.
18474

Persistence of the acaricide binapacryl.
18875

The breakdown of 14-C-chlorfenvinphos in soils and in.
19239

Metabolism of 'propham' (isopropyl N-phenylcarbamate) in the rat.
19245

Investigations on the development of simple rapid methods and equipment for qualitative detection of pesticides and their metabolites in plant and animal products. Final technical report, June 29- December 31, 1966. SB959.S7.
19250

Effects of F-2, an estrogenic metabolite from Fusarium, on sexual reproduction of certain ascomycetes. (Abstract).
19287

Mass spectra of some carbamates and related ureas. II.
20120

Allele specific patterns of suppression of the vermilion locus in Drosophila melanogaster.
20475

A metabolite of Macrophomina phaseoli (Maubl) Ashby, with thin-layer chromatographic behavior similar to that of aflatoxin B.
20496

Toxicology of the herbicide dichlobenil (2,6-dichlorobenzonitrile) and its main metabolites.
20650

Metabolism of carbonyl-C14-labeled imidan, N-(mercaptomethyl)phthalimide-S-(O,O-dimethyl-phosphorodithioate), in rats and cockroaches.
20656

Water pesticides. 2.
20851

Procedures for extracting residues of phosphorus insecticides and metabolites from field-treated crops.
20852

Research and determination of dell'O,O-dimetil-S-(4,6-diammino-s-triazinil)-ditiofosfato (Menazon) nell'olio di oliva.
20890

Detection of cholinesterase-inhibiting pesticides following separation on thin layer chromatograms.
20932

Predacious hyphomycetes and their application in the control of pathogenic nematodes. QK625.M74S63.
21031

Enterohepatic circulation of 3H-vitamin A metabolites in sheep. (Abstract).
21242

Comparison of metabolites of progesterone-4-14C in urine from a nonpregnant domestic sow.
21262

Large amounts of ribosomal RNA in colchicine-induced tetraploides of Solanum tuberosum L.
21536

Determination of bidrin, azodrin, and their metabolites with the thermionic detector.
21551

Determination of residues of di-syston and metabolites by thermionic emmission flame gas chromatography.
21570

Relative quantities of antifungal metabolites produced in resistant and susceptible soybean plants inoculated with Phytophthora megasperma var. sojae and closely related nonpathogenic fungi.
21858

Fungal detoxication-IX. Metabolism of 1-naphthaleneacetic acid by Aspergillus niger van Tiegh.
22206

Utilization of 14C metabolites, incorporation of 32P and changes in respiration occurring in leaves from dalapon treated beans.
22819

Translocation of herbicides in American pondweed (Potamogeton nodosus Poir.).
22820

Murine toxicity of Cochliobolus carbonum.
23380

Thin layer chromatographic separation of linuron and diuron and some of their known or suspected soil metabolites.
23442

METACERCARIA

On the Metacercaria of Prosthogonimus putschkowskii in Sympetrum decoloratum (Odonata: insecta) with observations on its development in chicks.
18370

METAL HOSE

Metal hose simplifies bird bait application.
13947

METALS

Water pollution. Effects of pollution on fish life. General aspects of water pollution biology.
18395

Laboratory tests of heavy metal salts as mosquito larvicides.
20405

Trace metal alterations following sub-acute exposure to endrin.
23404

METAMORPHOSIS

Field observations on twenty-eight broods of floodwater mosquitoes resulting from controlled floodings of a natural habitat in the Tennessee Valley.
13716

Temperature conditions and maternal effect as modifying factors in the photoperiodic control of the seasonal form in Polygonia c-aureum (Lepidoptera, nymphalidae).
13808

The stages of Spanogonicus albofasciatus and their development (Hemiptera: Miridae).
13832

Differences in insect abundance and diversity between wetter and drier sites during a tropical dry season.
14066

The submaginal cuticle of the mayfly Callibaetis sp. (Ephemeroptera).
14942

Inhibition of metamorphosis and of ecdysis in mosquitoes.
14959

Life-history and population studies on the Simuliidae of North Wales.
15725

Stable flies. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15774

Biology of Trypoxylon in trap nests in Wisconsin (Hymenoptera: Sphecidae). 15790

The laboratory colonization of Culicoides arakawae (Diptera: Ceratopogonidae). 15795

Ecdysone and ecdysone-analogues: their assay and action on diapausing pupae of the cynthia silkworm. 15838

Results of experimental studies on the development of preinvasive stages of worms of the genus Thelazia Bosc., 1819 (Spirurata: nematoda), parasitic in the eye of cattle. 16101

Variations of phospholipids in the course of metamorphosis of Tribolium confusum (Coleoptera). 16360

Biology of Deltocephalus sonorus (Homoptera: Cicadellidae). 16394

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm. 16418

The effect of temperature upon the development of the heartand-dart moth (Agrotis exclamationis L.). 16431

Number of instars of the larva of Herse convolvuli L. 16454

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions. 16485

The life cycle of Trichinella spiralis. I. Intestinal phase of development. 16509

A new anti-coccidial drug (M and B 15,497): activity studies against laboratory and field strains of Eimeria. 16789

The reproductive biology of Hippelates collusor. III. Effect of temperature on oogenesis. 17067

Biological studies on chironomids with emphasis on the temperature relations of the developmental stages. 17079

Effect of relative humidity on the developmental stages of Tribolium castaneum (Coleoptera: Tenebrionidae). 17088

Effects of the chemosterilant hempa on gypsy moth metamorphosis. 17098

The protein components of a latent phenoloxidase system in the prepupae of housefly. 17110

Active transport by the cecropia midgut. V. Loss of potassium transport during larval-pupal transformation. 17122

Caddis larvae. Larvae of the British Trichoptera. QL517.4.H5. 17126

Brood rearing by caged honey bees in response to inositol and certain pollen fractions in their diet. 17174

Photoperiod in relation to diapause in Hypera postica from California. 17193

Effects of juvenile hormone on protein synthesis during the metamorphosis of the polyphemus silkmoth. 17788

Studies of caste differentiation in Myrmica rubra L. 9. Maternal environment and the caste bias of larvae. 17791

About lepidopterous immatures. 17857

Nucleoprotein synthesis during metamorphosis in Drosophila virilis. 17872

Biology of the elm leaf beetle in southern Arizona. 17898

Changes in the efficacy of three anthelmintics during the maturation of a nematode (Trichinella spiralis). 18357

Parasitic development of Obeliscoides cuniculi in rabbits. 18375

Variation in the pattern of the free amino acids in females and workers of Formica polyctena Forst. (Hym. Formicidae) during metamorphosis. 19562

Experimental investigation into the physiology of molting of spiders. 19597

Comparison of the size and physiological activity of the corpora allata of Locusta migratoria L. 19635

Studies on the posterior silk gland of the silkworm Bombyx mori. III. Ultrastructural changes of posterior silk gland cells in the fourth larval instar. 19673

Notes on the biology of two species of Rhapaidophoridae (Orthoptera) in Tasmania. 19709

Caterpillar and pupation of Schrankia costaestrigalis Stephens (Lep., Noctuidae). 19747

A clonal system of differential gene activity in Drosophila. 19766

Cellular degeneration in wing development of the mutant vestigial of Drosophila melanogaster. 19773

Clonal analysis of determination dynamics in cultures of imaginal disks in Drosophila melanogaster. 19774

Biology of Melanozetes mollicomus (Koch) (Oribatei, Ceratozetidae). 20261

Developmental production of embryonic blastema of Drosophila after culture in the adult host. 20349

Simulium damnosum Theobald in a dry savannah (region of Garango, Upper Volta) (Dipter,. Simuliidae). III. Division of evolutionary stages in the course of a year. 20375

The number of larval instars in some bark beetle species. 20378

The two juvenile hormones from the Cecropia silk moth. 20391

Insect answers; the alfalfa seed chalcid. 21001

Mitosis and the cell cycle in the metamorphic moult of the milkweed bug, Oncopeltus fasciatus. A radioautographic study. 21006

Growth and partial metamorphosis of imaginal disks of the greater wax moth, Galleria mellonella, in vitro. 21015

Insect answers; the green peach aphid. 21021

The face fly, a livestock pest. 21410

Larval diapause in the tick Ixodes ricinus L. and its dependence on external conditions. IV. Interaction between exogenous and endogenous factors in the regulation of larval diapause. 21655

Observations on the hibernation of Psila rosae F. 21660

Developmental changes in the late larva of Calliphora stygia. I. Olymph. 21692

Effects of parental age on the life cycle of the southern green stink bug, Nezara viridula L. (Heteroptera: Pentatomidae. 21693

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 21698

A cytological study of changes in the fat body of Trogoderma granarium during metamorphosis, with special reference to the proteinaceous globules. 21710

Changes in the acid-soluble nucleotides during the pupal development of the rice stem borer, Chilo suppressalis walker (Lepidoptera: Pyralidae). 21745

Transdetermination in the layout of the organs of the Drosophila fly. 21753

Late-season feeding and emergence of the tobacco flea beetle. 22386

Observations on the immature stages of Gimnomera cerea and G. incisurata (Diptera: Anthomyiidae, Scatophaginae). 23016

Studies on the Sitka spruce weevil, Pissodes sitchensis, in British Colombia. 23046

METARRHIZIUM ANISOPLIAE

The effect of certain insecticides on the entomogenous fungi Beauveria bassiana and Metarhizium anisopliae. 13743

Appressorium-like structures in insect parasitizing deuteromycetes. 14224

METASTASIS

Bone-metastasizing lung carcinoma in a cat. 16784

Incidence and types of canine rectal carcinomas. 20779

METASTRONGYLUS

A comparative analysis of the localization of cholinesterase in some parasitic nematodes. I, Strongylus edentatus, S. vulgaris, Metastrongylus elongatus and Choerostrongylus pudendotectus. 20841

METASTRONGYLUS APRI

Anthelmintic evaluation of tetramisole against the swine lungworm, Metastrongylus apri. 16890

METAXAGLAEA SEMITARIA

A new species of Metaxaglaea. (Lepidoptera, Noctuidae, Cuculliinae). 17018

METEOROLOGY

Some recent changes in the approach to studies of climatic effects on insect populations. 17125

Salt damage to vegetation in the Washington, D. C. area during the 1966-67 winter. 17276

Meteorological factors affecting the activity of night flying Macro-Lepidoptera. 17832

Sugar beet. Leaf spot, Cercospora beticola. 18908

Micro-meteorological studies of coffee berry disease. A field investigation into the incidence of

the physical conditions favourable for spore germination.
21169

Ticks (Ixodoidea) of domestic animals in Iraq; spring and early summer infestations in the Liwas of Baghdad, Kut, Amara, and Basra.
22755

METEPA

Sterilization of the azuki bean weevil, Callosobruchus chinensis, by metepa and hempa.
17080

Uptake and persistence of metepa and hempa in the house fly.
17171

Chemical sterilization of the stable fly Stomoxys calcitrans (Linne), with metepa and hempa.
17797

Reproductive behavior of the potato tuberworm, Phthorimaea operculella (Zeller), (Lepidoptera: Gelechiidae) and the effect of the chemosterilant metepa.
17836

Effect of the chemosterilant metepa on the housefly, Musca domestica L.
17848

Chemosterilant effects of tepa, apholate, and metepa on the alfalfa weevil.
23012

METHACRYLATE

Feeding by Reticulitermes spp on radiation-processed wood-plastic combinations.
14145

METHACRYLIC ACID

Feeding by Reticulitermes spp on radiation-processed wood-plastic combinations.
14145

METHANOL

Influence of pre-storage treatments on the mortality of the San Jose scale (Homoptera: Diaspididae) on apples held in storage.
15532

Plant growth regulations in Ditylenchus dipsaci, Ditylenchus triformis and host tissues.
18437

METHEMOGLOBIN

Influence of nitrite and hydroxylamine on performance and vitamin A and carotene metabolism of ruminants.
18183

METHEMOGLOBINEMIA

An attempt to produce chronic nitrite toxicosis in swine.
14761

METHIMAZOLE

Notice of filing of petition for food additives diethylstilbestrol and methimazole.
16058

METHIONINE

Systemic and fungicidal activity of D-, L-, and DLethionine, S-alkyl-DL-HOMOCYSTEIN derivatives, and methionine antagonists.
15138

Methionine as a precursor of methyl sulfide in cows' milk.
16190

Amino acid requirements and sulfur amino acid metabolism in the pea aphid, Acyrthosiphon pisum (Harris).
16334

Dietary amino acid requirements of the aphid, Myzus persicae.
16375

Avirulence of a methionine-sensitive leucine mutant of Penicillium expansum in Jonathan apple. (Abstract).
16545

Fatty liver studies in laying hens.
16750

Effect of glycine and serine on the metabolism of methionine. (Abstract).
17469

The roles of vitamin E, selenium, and methionine in dietary liver necrosis and nutritional muscular dystrophy in the pig.
17549

The effect of cycloheximide on the metabolism of Neurospora crass 10780.
17711

Influence of body composition, methionine deficiency or toxicity and ambient temperature on feed intake in the chick.
20503

Milk production response to feeding methionine hydroxy analog to lactating dairy cows.
20651

Methionine excess and chick growth.
21256

Evidence for a methionine-controlled homoserine dehydrogenase in Salmonella typhimurium.
22639

METHODOLOGY

Stabilized pesticide compositions and methods for making same. Patent 3,393,990.
16244

Economics of biological control.
16263

Insecticidal 2-halo- and 2,4-dihaloalkylphenyl carbamate compositions and method for controlling insects. Patent 3,402,245.
16417

Methods of killing pests selected from the group consisting of mites and insects with phosphonothioates. Patent 3,401,220.
16461

Process for oxidizing soluble alkylene bisdithiocarbamates to produce an oxygen containing product, and the product of said process. Patent 3,401,182.
16591

Monofluorophenyl-4'-nitrophenylether derivatives as herbicides. Patent 3,401,031.
16728

Herbicidal method. Patent 3,403,994.
16730

Herbicidal composition and method comprising 1-(tetrahydrodicyclopentadienyl)-3,3-dimethyl urea and a salt of methyl arsonic acid. Patent 3,403,017.
16731

Method of controlling the growth of weeds. Patent 3,399,988.
16735

Method of controlling fungi with sulfonium iodides. Patent 3,402,248.
16930

Method for the preparation of O,O-dimethyl-S-(1,2-dicarbethoxyethyl)dithiophosphate. Patent 3,403,201.
16942

Fungicidal and bactericidal compositions and methods employing isothiazolecarboxylates. Patent 3,403,209.
16945

Method for preparation of wettable sulfur. Patent 3,398,227.
16951

Non-irritant quaternary ammonium compound composition. patent 3,402,242.
16960

Metal salts of phosphorus acids and process. Patent 3,401,185.
16962

Collecting pupae of the fall arymworm from rearing containers.
16980

Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States.
17036

An improved method for embedding and sectioning eggs of the migratory grasshopper, Melanoplus sanguinipes Fab. (Orthoptera: Acrididae).
17106

Method of predicting the most active days of stem borer. transl. 16902.
17132

Control methods for insects and diseases by spraying of insecticides. Transl. 16909.
17149

A technique for the determination of the action level of inhibitors.
17536

Survivability of the foot-and-mouth disease virus outside the host. Transl. 16891.
17554

The formation of the cuticular ridges in the larval pharynx of the blowfly (Calliphora vicina R.-D.).
17809

New techniques to bioassay the sex attractant of pink bollworms with olfactometers.
17829

Medium and techniques for mass rearing the red-banded leaf roller.
17843

Costelytra zealandica (White) sex attraction.
17845

Fungi in stored products.
18377

The toxicity and distribution of mercury.
18410

Engineering and biological aspects of designing and using a selective flame weeder.
18493

Simple techniques for the rearing of Collembola and a note on the use of a fungistatic substance in the cultures.
18503

Leaf dip serology for electron microscopic identification of plant viruses.
18772

Seed transmission of viruses in red clover: Evidence and methodology of detection.
18838

Technics for the isolation of Mycoplasma from cattle.
19152

Investigations on the development of simple rapid methods and equipment for qualitative detection of pesticides and their metabolites in plant and animal products. Final technical report, June 29- December 31, 1966. SB959.S7.
19250

Standardized rearing methods of insects of stored goods and materials.
19631

Breeding experiment with Clostera anachoreta F. (Lep., Notodontidae).
19636

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Sampling pasture insects.
19640

The rearing of the house mite, Dermatophagoides pteronyssinus (Trt. 1897).
19728

Growth of Colorado tick fever (CTF) virus in primary tissue cultures of its vector, Dermacentor andersoni Stiles (Acarina:Ixodidae), with notes on tick tissue culture.
19763

A modification of the growth-inhibition test and its use for detecting Mycoplasma mycoides var. mycoides.
19958

Elevated temperature incubation of enrichment media for the isolation of salmonellas from heavily contaminated materials.
19965

Passive haemagglutination test in ducks and fowls artificially infected with Mycobacterium avium.
19978

Application of a fluorescent-antibody technique for the detection of Mycoplasma mycoides antigen and antibody.
19989

Heterogeneity of antibody response to Salmonella lipopolysaccharide measured by passive hemagglutination and hemolysis in mice.
19997

Immunization experiments against bovine viral diarrhea. II. Active immunization.
20002

Immunization experiments against bovine viral diarrhea. I. The production and application of hyperimmune serum. 20003

Feeding mechanism of Haematopinus suis on the transilluminated mouse ear. 20023

A simple method for marking parasitic helminth in animals. 20027

Toxoplasma gondii in tissue culture and maintenance at low temperatures. 20033

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Training ecologists in the university. 20147

The breeding of Callambulyx tatarinovi (Lep., Sphingidae). 20307

Experimental determination of fitness interactions in drosophila melanogaster by the method of marginal populations. 20482

A metabolite of Macrophomina phaseoli (Maubl) Ashby, with thin-layer chromatographic behavior similar to that of aflatoxin B. 20496

Control of the leaf-cutting ant, Atta capiguara, Gonlalves, 1944--a pasture pest, with ant-killers: Dusts, liquified gases, powdered and pelleted baits. 20587

Guide lines for the testing of materials on fallow flies. 20598

Guide lines for the testing of materials on onion flies on onions. 20600

Guide lines for the testing of insecticides on cabbage flies in cabbage. 20601

Guide lines for the official testing of plant-protection materials on wire-worms. 20603

Guide lines for the testing of materials on beet Hemiptera. 20604

Guide lines for the testing of materials on spider mites in vegetable beds. 20609

Determination of sulfadimethoxine in animal tissues. 20648

Estimating the number of animals: A rapid method for unidentified individuals. 20652

Plaque formation by rhinoviruses. 20695

Isolation of a bovine rhinovirus. 20749

Spot method in agar for the quantitative assay of antiSalmonella antibody. 20756

Lyophilized anti sheep-pox, with sensitized virus. 20773

Guide lines for the testing of spray compounds and automatic sprays against clothes moths. 20845

Procedures for extracting residues of phosphorus insecticides and metabolites from field-treated crops. 20852

Research and determination of dell'O,O-dimetil-S-(4,6-diammino-s-triazinil)-ditiofosfato (Menazon) nell'olio di oliva. 20890

Chemical thinning of plums and peaches. 20892

Detection of cholinesterase-inhibiting pesticides following separation on thin layer chromatograms. 20932

A trial for the integrated (chemical and biological) control of Musca domestica L. in the Lipari Islands- preliminary note. 21023

The effect of chemical control of insects on beekeeping. 21030

Studies on the movement of soil water. II. On the measurement of the free water in the soil of every kind by the freezing point depression method and its self-recording. 21081

Method of controlling the growth of undesirable vegetation. Patent 3,413,109. 21231

The face fly, a livestock pest. 21410

Beef cattle dipping program in Southeastern, Idaho. (Abstract). 21458

Method of controlling plant growth with pentaerythritol arsenite chlorobenzoates. Patent 3,411,895. 21531

Manufacture of herbicidal materials. Patent 3,413,111. 21548

Herbicidal and defoliating composition and method. patent 3,410,677. 21559

On preserving beetle larvae. 21629

Introducing queen bees. 21657

Breeding insects with artificial food. 21661

The reliability of a method of sampling stream invertebrates. 21670

The effects of integrated plant protection methods. 21797

Chenopodium test for the demonstration of the presence of the lettuce mosaic virus 1 in seeds. 21980

Changed method of nata use in the control of Agropyron repens on arable land. 22014

Rat baits incorporating paraffin wax. 22031

Cradles make footrot treatment easier. 22059

Studies on effectiveness of suspensibility with preparation technique of W.P. formulations. 22237

A new effective flotation method for the collection of nidicolous parasites and other nest inhabitants. 22293

Tagging aphids. 22319

To the methods of studying the environmental temperature of the tick Ixodes ricinus L. 22381

Culture of scorpion cells. 22436

A laboratory method for continuously rearing the green stink bug. 22469

Mass breeding of the khapra beetle. 22474

The knowledge of the interdependence between soil pests, weeds, and their control measures. 22487

Early detection of infection of sugarcane by ratoonstunting disease (RSD). 22502

Problems in plant pathology and entomology field trials. 22524

On sampling and extracting technique for soil micro-arthropods. 22621

Direct assay for bluetongue virus by intravascular inoculation of embryonating chicken eggs. 22656

The fluorescent staining complement for the serodiagnosis of toxoplasmosis. 22679

Entero-toxaemia of sheep and lambs. 22708

Some studies on pigeon pox virus in tissue culture. 22729

Fluorescent antibody studies of Vibrio fetus: Staining characteristics in semen, preputial exudate, and pure culture. 22733

Recent techniques for the serodiagnosis of human and animal hydatidosis. III. Evidence of indirect hemagglutination (HAI). 22762

Laboratory methods for evaluation of toxicants for the bed bug and the oriental rat flea. 22946

Symposium on the titration of Bacillus thuringiensis Berliner preparations. (Paris, 5-7 March 1964). 22953

Development of an autosterilization technique for the house fly. 22976

A contribution to the technique of the mass reproduction of the Angoumois grain moth Sitotroga cerealella (Oliv.). 23017

Evaluation of methods of the artificial infection of wheat Ustilago tritici (Pers.) Jens. 23122

Studies of the differentiation of foot-and-mouth disease virus types O, A, and C in the cell culture using the direct Coons method. 23303

Antigens of Salmonella cholerae suis. --Preparation by means of ultrasound, autolysis, and alternative freezing and defreezing. 23305

The influence of gelatine on the filtration of foot and mouth disease virus through filters of Seitz EK type. 23322

Accuracy and forethought are essential in plunge dipping. 23353

Toxicological-chemical method of detecting Warfarin in material of animal origin and in animal feeds. 23410

METHOXYCARBONYL-1-PROPEN-2-YL DIMETHYLPHOSPHATE, 1-

Pesticide tolerance. Proposed establishment. 16155

METHOXYCHLOR

Notice of filing of petition regarding pesticides. 14711

Extraction of chlorinated pesticide residues from nonfatty samples of low moisture content. 15550

Metabolism of dDT and some other chlorinated organic compounds by Aerobacter aerogenes. 15571

Residues of diazinon, coumaphos, ciodrin, methoxychlor, and rotenone in cow's milk from treatments similar to those used for ectoparasite and fly control on dairy cattle, with notes on safety of diazinon and ciodrin to calves. 18403

Water pesticides. 2. 20851

Notice of filing of petition regarding pesticide chemical. 21495

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Methoxychlor. 22189

Methoxychlor residues in the meat and milk of cattle following limited applications of methoxychlor for the control of buffalo fly (Haematobia exigua). 22192

METHYL
Methyl mercury compounds in fish. 18199
Growth and fruit drop of young fruit trees sprayed with acaricides demeton-methyl or tetradifon. 19262
Experiments on the time of application of insecticide to decrease the spread of yellowing viruses of sugar beet, 1954-66. 21073
Virucidal properties of dimethyl sulfoxide. 21549
Method of controlling weeds. Patent 3,399,049. 21550

METHYL BROMIDE
Reproductive capacity of two strains of Cryptolestes turcicus (Coleoptera: Cucujidae). 14154
Escape of methyl bromide through wallboards. 15581
The effect of soil fumigation colonization of the spermosphere. (Abstract). 15966
Bionomics and control of Tarsonemus myceliophagus (Acarina: Tarsonemidae) in mushroom composts. 15979
Foreign quarantine notices. fruits and vegetables. okra from certain South American countries. 15991
Permeability to methyl bromide of wrappers found on shipments of imported plants. 17274
Comparative studies concerning toxicity and selectivity of sterilization measures for soil microorganisms. 17330
Herbicides are taking over aquatic weed control. 17459
Response of conifer seedlings and weeds to seedbed fumigants. 17460
Soil fumigants tested for control of crown gall. 17973
Reinfestation of forest sites by the Texas leaf-cutting ant. 18107
The tolerance of imported commodities to fumigation with methyl bromide. 18112
The effects of methyl bromide fumigation and grafting on yield and root diseases of tomatoes. 18966
Fumigation of shallot seed with methyl bromide to control stem eelworm, Ditylenchus dipsaci. 19119
On the lethal effects of methyl bromide to broad bean weevil (Bruchus rufimanus Boheman). SB608.B3Y63. 21203
Chemical disinfection of the soil through methylbromide. 22202
Effect of methyl bromide treatments on several species of conifer seed. 22579

METHYL DEMETON
Evaluation of the effectiveness of some organophosphorus insecticides against two species of aphids. 14255
A small scale field trial attempting to control red spider mites on groundnuts with aramite and metasystoy at Arusha in the dry season. 14447
The effect on honeybee mortality of applying insecticides as sprays or granules to flowering field beans. 18604

METHYL ISOTHIOCYANATE
Comparative studies concerning toxicity and selectivity of sterilization measures for soil microorganisms. 17330
Efficacy of Vorlex on mites and nematodes on gladiolus corm debris in sandy soils of Florida. (Abstract). 22004

METHYL N-((METHYLCARBAMOYL)OXY) THIOACETIMIDATE, S
Notice of filing of petition regarding pesticides. 16147

METHYL N-((METHYLCARBAMOYL)OXY)THOACETIMIDATE, S
Notice of filing of petition regarding pesticides. 14712

METHYL PARATHION
Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields. 15985
Parathion or its methyl homolog. Proposed establishment of pesticide tolerance. 21498
New methods of pest control. 21989
Methyl parathion adsorbed on the skin and blood cholinesterase levels of persons checking cotton treated with ultralow-volume sprays. 22795
Methyl parathion resistance in a laboratory strain of the bollworm. 23445

METHYL SULFIDE
Methionine as a precursor of methyl sulfide in cows' milk. 16190

METHYL TESTOSTERONE
Notice of filing of petition for food additives. 21271

METHYL-1-NITROSOUREA, 1-
Morphological conversion of cells in vitro by N-nitrosomethylurea. 20880

METHYL-2-(METHYLTHIO)PROPIONALDEHYDE O-(METHYLCARBAMOYL)OXI PLANT METABOLISM
Metabolism of UC-21149 (2-methyl-2-(methylthio)propionaldehyde O-(methylcarbamoyl)oxime) in cotton plants and soil in the field. 23412
Systemic activity of 2-methyl-2-(methylthio)propionaldehyde O-(methyl-carbamoyl)oxime (UC-21149) in the cotton plant with special reference to the boll weevil. 23428

METHYL-2,6-DICHLOROTHIOBENZAMIDE COMPOUNDS
Method of combatting the growth of undesired plants. Patent 3,374,084. 14488

METHYL-4-CHLOROPHENOXY)BUTYRIC ACID, 4-(2-
Action and effectiveness of certain classes of herbicides. 15667
Control of undesirable grasses of manobi by the preemergence and pre-planting application of herbicides. 17462
Processing pea responses to MCPB applications at different growth stages. 22612

METHYL-4-CHLOROPHENOXYACETIC ACID, 2-
NACA industry task force on phenoxy herbicide tolerances. Notice of withdrawal of petition regarding pesticides. 16167
NACA industry task force on phenoxy herbicide tolerances. Notice of filing of petition regarding pesticides. 16169

Ioxynili its effect on wheat yield and weed populations. 20633
Ioxynil: Its effect on wheat yield and weed populations. 21220
Flurenol- a herbicide with new properties. 22010
Control of Whitebrush (Aloysia lycioides Cham.) with picloram. 22592

METHYLAMINE
The partitioning and distribution of simazine and propanil in spinach chloroplasts. 16927

METHYLCYCLOHEXANEMETHYLAMINE ALPHA
Method of ameliorating the effects of and preventing influenza infections. Patent 3,376,196. 19175

METHYLENE BUTYROLACTONE, ALPHA
Effective antibiotic substances of tulips (Tulipa gesneriana). 19940

METHYLENE CHLORIDE
A sex pheromone in the Pacific coast wireworm. 17180
Note on the determination of carbaryl residues in hen skin. 18406
Volatility of trail marking substance of the town ant. 21012

METHYLENE-SUCCINAMIC ACID, 2(OR 3)
Process for controlling fungi with ithaconamic esters. Patent 3,375,158. 14401

METHYLINDOLE-3-ACETALDEHYDE, 1-
The oxidation of indole-3-acetaldehyde and its 1-methyl derivative by horseradish peroxidase. 16941

METHYLTHIO-3,5-XYLYL METHYLCARBAMATE, 4-
Alternatives to DDT for the control of the pea moth on dry harvesting peas. 13917

METHYRIDINE
Changes in the efficacy of three anthelmintics during the maturation of a nematode (Trichinella spiralis). 18357
Anthelmintic treatment for Capillaria feliscati in the cat. 20837

METICLORPINDOL
Studies on the mode of action of quinolone and pyridone coccidiostats. 14543
Coccidiostatic activity of meticlorpindol effectiveness against single infections of five species of Eimeria in the domestic fowl. 21477

METOBROMURON
Notice of filing of petition regarding pesticides. 14727

METOPOLOPHIUM
On alpine rose- and grass-infesting species of Metopolophium Morovilko, 1914, with descriptions of two new species (Homoptera, Aphididae). 13730

METORCHIS CONJUNCTUS
Lesions caused by the hepatic trematode, Metorchis conjunctus, Cobbold, 1860; A comparative study in Carnivora. 18369

METRITIS
Mastitis-metritis-agalactia syndrome. 20658
Three cases of metritis. 21434

MEVINPHOS

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 1emethoxycarbonyl-1-propen-2-yl dimethylphosphate and its beta isomer.
13996

Food additives permitted in food for human consumption. 1-methoxycarbonyl-1-propen-2-yl dimethylphosphate and its beta isomer.
13997

Evaluation of the effectiveness of some organophosphorus insecticides against two species of aphids.
14255

A laboratory and field investigation of adjuvants to increase the residual toxicity of dichlorvos, mevinphos and malathion to Mexican bean beetle and southern armyworm larvae.
17666

Residues of Mevinphos on cauliflower.
20082

The pear and cherry slug.
21984

MEXICO

Mexican Border regulations. Treatments, permits, and fees for fumigation.
16258

MIASTOR CASTANEAE

Pupal paedogenesis in the Cecidomyiidae (Diptera). 3. a reclassification of the Heteropezini.
13763

MICE

The effect of warfarin on plasma clotting time in wild house mice (Mus musculus L.).
14002

Monopsyllus thambus (Joroan, 1929) from the alpine in Colorado.
14218

Histochemical study of drug effects on mice infected with Trichinella spiralis.
14595

Chemosterilant properties, cytotoxicity, and mammalian toxicity of apholate and other P-N ring chemicals.
14766

Mammalian detoxification of insecticides.
14989

Exterotoxemia of sheep. I. Effects of Clostridium perfringens type D toxin on the brains of sheep and mice.
15377

Oxyuriasis in laboratory mouse colonies.
15386

Mammalian detoxification of insecticides.
15602

Viral group specific antigen in mammalian Rous tumours detected by complement--fixation and fluorescent antibody tests.
16040

The occurrence of Skrjabinus muri's Stscherbakova, 1942 (Trematoda), in Apodemus flavicollis in Hungary.
16097

Rearing of the hog louse Haematopinus suis on mice.
16426

The study of fertility of the rat fleas (Xenopsylla cheopis Rothsch. and Ceratophyllus fasciatus Bosc.) under their feeding on different animals.
16449

Ukauwa virus proliferation in mosquitos.
16507

Natural antibody in mammalian serum reacting with an antigen in some Leptospires.
16771

Scrapie agent in blood.
16773

Antibody response and protection induced by immunization with smooth and rough strains in experimental Salmonellosis.
16798

Colorado tick fever virus: an electron microscopic study.
16827

Comments on the role of natural antibody in immunologic competence.
16843

Laboratory evaluation of bovine respiratory disease vaccines for safety.
16852

Isolation of Listeria monocytogenes from vegetation.
16857

Studies on the biology and immunology of Ascaris suum in mice.
16877

Population ecology of feral house mice.
16899

Migration of Toxocara cati larvae in mice.
16900

Acute toxicity of n-alpha-olefin sulfunates.
16912

Immunogenicity of cell walls from various Mycobacteria against airborne tuberculosis in mice.
17493

Electron microscopic observations on scrapie in the mouse, with reference to glucosaminidase activity.
17497

Pathogenesis and incidence of spontaneous glomerulonephritis (S.G.) in sheep and other ruminants. (Abstract).
17535

Pneumonia due to Mycoplasma in gnotobiotic mice. Iii Lesions in the lungs of gnotobiotic mice after multiple intranasal inoculations of broth cultures of Mycoplasma pneumoniae.
17558

Cellular immunity of mice infected with Listeria monocytogenes in diffusion chambers.
17559

Metabolic mechanisms affecting aflatoxin b, toxicity in two species. (Abstract).
17565

Infectious inheritance of pathogenicity in Aspergillus. (Abstract).
17566

Observations on the early migration of the larvae of Ascaris suum Goeze, 1782 in white mice.
17605

Intestinal malabsorption of D-glucose in mice infected with Trichinella spiralis.
17610

Acquired immunity to Fasciola hepatica in the laboratory white mouse.
17627

Protective effect of chlorpromazine on parathion and paraoxon toxicity in mice. (Abstract).
17667

Studies on selection in natural and experimental populations of Drosophila pseudoobscura.
17781

Avirulent mutant of a strain of ornithosis agent obtained by gamma irradiation.
18195

Does the agent of scrapie replicate without nucleic acid.
18205

Antibody response to immunization in experimental Salmonellosis.
18269

Prevalence of Trichinella spiralis in wild animals on two Illinois swine farms.
18282

Mitochondrial involvement in the host-parasite relationship.
18305

Influence of statolon-induced interferon on rabies virus infection in mice.
18322

Experimental studies in mice on the therapy of trichinellosis (Thiabendazole, Neguvon, cortisone, azulen, sera).
18366

Anthelminthic activity of some carbamate derivatives.
18374

A method for evaluation of vaccines containing pasteurella multocida.
18380

The toxicity and distribution of mercury.
18410

Changes of the virulent properties of salmonella in intracellular multiplication in vitro.
19157

Toxicity studies of Listeria monocytogenes grown in vivo.
19171

Method of ameliorating the effects of and preventing influenza infections. Patent 3,376,196.
19175

Inhibition of multiplication of foot and mouth disease virus in adult mice pretreated with Freund's complete adjuvant.
19180

A new species of Listrophorus from Mus musculus in Hawaii (Astigmata: Listrophoridae).
19525

Pathologic physiology and chemotherapy of Plasmodium berghei. I. Suppression of parasitemia by sulfones and sulfonamides in mice.
19943

Concerning the larva Migrans visceralis of Ascaris lumbricoides in the experimental host (Mice).
19949

Effect of endogenic and exogenic interferon on viruses of pseudorabies.
19960

Naturally occurring oxyuriasis in mice.
19966

Heterogeneity of antibody response to Salmonella lipopolysaccharide measured by passive hemagglutination and hemolysis in mice.
19997

Feeding mechanism of Haematopinus suis on the transilluminated mouse ear.
20023

Histochemical study of drug effects on mice infected with Trichinella spiralis.
20041

Effects of stress upon acquired immunity to the dwarf tapeworm, Hymenolepis nana.
20057

Prevalence of Trichinella spiralis in wild animals on two Illinois swine farms.
20614

Relationship of donor age to adsorption of foot-and-mouth disease virus by mouse tissues.
20684

An attempt to modify scrapie in mice by the administration of interferon.
20707

Transfer agent of immunity. I. Immune ribonucleic acid which induces antibody formation to Salmonella flagella.
20748

Enhancement of Candida albicans virulence in mice infection and efficacy of hamycin.
20763

Experimental studies on Ancylostomiasis in cats. VII. experimental infection and visceral migration of larvae of Ancylostoma tubaeforme and Ancylostoma caninum in mice and chickens.
20830

The carcinogenicity of insecticide-sprayed tobacco in mice. (abstract).
20878

Modification of a strain of mouse-adapted scrapie by passage through rats.
21283

Functional and structural effects of magnesium deficiency and cortisone treatment in mice.
21337

Acute and chronic Erysipelothrix rhusiopathiae infection in white mice.
21343

Action of disinfectants on experimental mouse scrapie. 21351

Some biochemical aspects of mouse scrapie. 21364

Glycosidase histochemistry in normal and scrapie mice, rats, sheep and goats. 21384

Determination of the dosage-response curve of mice inoculated with scrapie. 21399

Relationships between chemical changes and histological damage in the brains of scrapie affected mice. 21400

Unsuccessful studies in the dialysis of the mouse scrapie agent. 21401

Spread of scrapie by contact in mice. 21455

Teratogenic response by hamsters, rats and mice to aflatoxin b1. 21514

Carcinogenicity of the herbicide maleic hydrazide. 21515

Amyloidosis induced in mice by Escherichia coli endotoxin. 22034

Regrowth of primary cell cultures after infection with foot-and-mouth disease virus. 22064

Toxicity studies of Listeria monocytogenes grown in vivo. 22075

Laboratory differences between the WS strain of influenza A virus and its neurotropic variants. 22092

Cytologic studies in polyoma virus-infected mouse embryo cells. 22104

Passive hemolytic antibody response of primed, partially resistant mice to heat-killed Salmonella typhimurium vaccine. 22128

Immunologic and histologic studies of a hamster adenovirus tumor and a mouse mammary tumor. 22143

Diffusion chambers for inducing immunity to Trichinella spiralis in mice. 22161

The effect of DDT on reproduction in mice. 22619

Influence of litter size, age, variation, and selective breeding of mice on susceptibility to foot-and-mouth disease virus. 22640

Specificity of the anamnestic response produced by Listeria monocytogenes or Mycobacterium tuberculosis to challenge with Listeria monocytogenes. 22644

Specificity of acquired resistance produced by immunization with Listeria monocytogenes and listeria fractions. 22645

Effect of lysogenicity on the virulence of Bacillus anthracis. 22741

RNA metabolism in the brains of mice clinically affected with scrapie. 23302

Infectious nucleic acid from a transmissible agent causing gastroenteritis in pigs. 23318

Immunization of laboratory animals with the soil nematode Rhabditis axei (Cobbold 1884) against subsequent invasion by Ascaris suum (Goeze 1782). 23360

Murine toxicity of Cochliobolus carbonum. 23380

MICROANALYSIS

Determining minor elements. 19823

MICROBIOLOGY

A temperature controlled shaker for microbial cultures. 14791

Microbiologic study of strains of Mycoplasma gallisepticum isolated in Argentina. 16020

Antagonism of bacteria from elm to Ceratocystis ulmi in vitro. (Abstract). 16606

Enzymatic and morphologic modifications in Brucella treated with interferon. 16921

Blood concentration of chloramphenicol in horses after intramuscular or oral administration. 17477

The biology of fungi bacteria viruses. QR41.S7. 17628

Simple field and laboratory method for recovering living ticks (Ixodoidea) from hosts. 17733

Notes on microanalytical techniques in the analysis of foods for extraneous materials. 17792

Microflora associated with agalactia syndrome of sows. 18207

Estimation of radiation resistance values of microorganisms in food products. 18383

Degradation of diazinon by synergistic microbial action. 18384

Microbiology. Gastrointestinal outbreaks. 18392

Anaerobic processes. Microbiology and mechanism. 18405

Identity of feline ataxia virus with feline panlgucopenia virus. 19185

Studies on leptospiral lipase. I. Characterization of lipases from pathogenic and saprophytic strains. 19952

Mycoplasma taxonomy studied by electrophoresis of cell proteins. 19998

Report of subcommittee F on recommendations of referees. 20058

Report on microbiological methods for the analysis of food. 20069

In vitro and in vivo rumen microbiological studies with 2-chloro-4,6-bis(isopro-pylamino)-S-triazine (Propazine). 20798

Microbiological decomposition of atrazine and diuron in soil. (abstract). 20849

Salmonella and total count reduction in poultry treated with sodium hypochlorite solutions. 21300

Method of detecting or classifying microorganisms using agar reagent sheets. Patent 3,416,998. 21547

Virucidal properties of dimethyl sulfoxide. 21549

New antibacterial agent (U-24,544) isolated from Streptomyces griseus. 21781

Aflatoxin production by Aspergillus flavus as related to various temperatures. 21798

The incidence of crown rot of boxed bananas in relation to microbial populations of the crown tissue. 21886

Studies on the mechanism of interferon action. 22033

Structure and antigenic properties of a staphylococcal L form. 22038

Experimental immunity to tuberculosis in rabbits immunized with BCG microsomal fraction. 22060

Testing of the pathogenicity of virus strains of the Newcastle disease in pigeons. 22100

Effect of dextrose in medium for the preparation of Mycoplasma gallisepticum plate antigens. 22233

Calculating the grade of effectiveness of a microbiological control action against insect pests. 22395

Microbiological studies of two Nocardia strains. 23309

The microbiological condition of wood of living balsam fir and black spruce in Quebec. 23417

MICROBISIUM CONFUSUM

Systematic studies of some pseudoscorpions (Arachnida: Pseudoscorpionida) from the southeastern United States. 17036

MICROCLIMATE

The distribution of Dermacentor ticks in Canada in relation to bioclimatic zones. 16350

Bioclimatic studies of the aphid parasite Praon exsoletum. 1. Effects of temperature on the functional response of females to varying host densities. 16432

To the methods of studying the environmental temperature of the tick Ixodes ricinus L. 16974

The concept of microclimate from an entomological point of view. 22376

To the methods of studying the environmental temperature of the tick Ixodes ricinus L. 22381

MICRODRYMADUSA

Some Orthopteroid insects of the orders Blattoptera, Orthoptera and Dermaptera from Afghanistan. 13712

MICROLEPIDOPTERA

A new species of Opostegidae from Florida. 19392

Eggs of moths among the Ethmiidae, Acrolophidae and Hepialidae--Microlepidoptera. 19468

Some eggs of moths from several families of Microlepidoptera. 19693

MICRONUTRIENTS

The effect of amino acids, vitamins, and trace elements on the development of Acyrthosiphon pisum Harris (Hom., Aphididae). 15787

In vitro uptake of Selenium-75 by red blood cells from the immature ovine during varying Selenium intakes. 16027

Influence of various soil incorporated fungicides and nematocides on macro and micro element constituents of Zea mays and Phaseolus vulgaris. 16201

Effect of trace-elements bound to superphosphates on the resistance of potato tubers to Phytophthora infestans (Mont.) de Bary. 16643

Response of Rhizoctonia bataticola to growth regulators, trace elements and vitamins. 17333

Selenium deficiency in chicks and its effect on the requirement for vitamin E. (Abstract). 17578

Determining minor elements. 19823

The use of a biochemical indicator for diagnosing micronotrient deficiencies of grapefruit trees under field conditions.
20514

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. disodium EDTA.
21268

Micronutrient effects on the in vitro growth and pathogenicity of Fusarium oxysporum f. sp. lycopersici.
21956

Role of trace elements in the growth and morphology of five ascosporic Aspergillus species.
22201

Trace metal alterations following sub-acute exposure to endrin.
23404

MICROORGANISM ISOLATION

The isolation of infectious bovine Rhinotracheitis virus from bovine semen.
20005

MICROORGANISMS

The effect of Bacillus thuringiensis Berliner on Drosophila melanogaster Meigen.
14194

Comparison of rumen microbial inhibition resulting from various essential oils isolated from relatively unpalatable plant species.
14537

The pathogenicity for honey-bee larvae of microorganisms associated with European foulbrood.
14855

Transmission of bacterial pathogens by the ovipositor of a hymenotterous parasite.
14867

Sensitivity spectrum of Bacillus thuringiensis var. thuringiensis Berliner to antibiotics, sulfonamides, and other substances.
14895

Index to genera of pathogens listed in the Index of Plant Diseases in the United States. 1.
15073

Cankers of ornamental crabapples associated with Physalospora obtusa and other microorganisms.
15105

Microorganisms on cucumber seedlings.
15107

Inoculation of microbes into the intestinal tracts of small animals.
15298

Nocardia asteroides as a mammary pathogen of cattle. II. the sources of nocardial infection and experimental reproduction of the disease.
15432

Degradation of carbamate herbicides in soil.
15567

Metabolism of 14C-labelled insecticides in microorganisms, insects and mammals.
15778

Notice of withdrawal of petition for food additive gamma radiation.
16111

Microbial decomposition of diquat adsorbed on montmorillonite and kaolinite clays.
16117

The probable significance of saprophytic colonization of wheat straw in the field by Cephalosporium gramineum.
16556

Ceratocystis fagacearum distribution within bur and red oak seedlings. (Abstract).
16586

Antagonism of bacteria from elm to Ceratocystis ulmi in vitro. (Abstract).
16606

The microflora of fodders associated with bovine respiratory disease.
16805

Non-irritant quaternary ammonium compound composition. patent 3,402,242.
16960

Experiments on simultaneous infections of the common cockchafer, Melolontha melolontha.
16985

Microorganisms and the inorganic nutrition of higher plants.
17248

A Pyrenophora-Cochliobolus (Helminthosporium) disease complex in barley.
17304

Metabolism of 75Se-selenite and 75Se-selenomethionine by rumen microorganisms. (Abstract).
17587

Notice of filing of petition regarding pesticide chemicals.
17641

Some stochastic models for microorganism death kinetics.
17718

The pathogenicity of secondary and tertiary basidiospores of Cronartium fusiforme.
18052

Microflora associated with agalactia syndrome of sows.
18207

Placental pathology of experimentally-induced enzootic abortion in ewes.
18300

Fungi in stored products.
18377

Estimation of radiation resistance values of microorganisms in food products.
18383

Degradation of diazinon by synergistic microbial action.
18384

Influence of micro-organisms on the distribution in roots of phosphate labelled with phosphorus-32.
18424

Symposium on microenvironment and biology of soil. Invitational papers presented at the fifty-ninth annual meeting of the American Phytopathological Society, Washington, D. c., August 20-24, 1967.
18530

Effects of aerated steam and selected fumigant treatment of casing soil on mushroom production and microbial populations of the soil. (Abstract).
18991

Tobacco, flue-cured (plant bed), damping-off and root rot soil-borne pathogens including; Phytophthora parasitica var. nicotianae, and Meloidogyne sp., Control of weeds.
19016

The incidence of crown rot of boxed bananas in relation to microbial populations of the crown tissue.
19229

Some new hosts for Verticillium nigrescens.
19817

The affect of insecticides on microorganisms. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
19822

Epidemiology and control of Ascochyta pinodes on field peas in Canada.
19861

Modification of the intestinal flora of calves with milk treated with oxytetracycline.
19979

Pathogens and parasites in Louisiana Culicidae and Chaoboridae.
20320

Mastitis-metritis-agalactia syndrome.
20658

Host range and variation in virulence of Mycosphaerella ligulicola.
21108

Studies on the survival of Mycosphaerella pinodes and Ascochyta pisi.
21116

The isolation and recognition of viruses.
22093

MICROPHTHALMA EUROPAEA

The biology of Microphthalma europaea Egg., a tachinid parasite of the larvae of Scarabaeidae.
22991

MICROPHYSIDAE

Venation of metathoric wings and notes on the relationships of Microphysidae (Heteroptera).
23054

MICROPLITIS CROCEIPES

A three-year study of parasites of the bollworm and the tobacco budworm in Mississippi.
17156

MICROPLITIS RUFIVENTRIS

Studies on Microplitis rufiventris Kok. 1. (Hymenoptera: Braconidae).
14192

MICROSCOPY

The function of combs in fleas.
15769

Some illustrations of microsculpture in the Hymenoptera.
17101

Juvenile bovine leukosis; an epizootiological, clinical, patho-anatomical and experimental study.
17129

Electron microscopic observations of Catenaria sp., a nematophagous fungus. (Abstract).
17413

Inoculation trail with Meloidogyne javanica on okra (Abelmoschus esculentus).
17416

Effects of hydrogen fluoride accumulation on plant cell microstructure and ultrastructure.
17706

Larch sawfly survival in relation to water levels and microtopography in tamarak bogs.
17839

A case of porcine endocarditis associated with Staphylococcus aureus.
18248

Some veterinary and human aspects of histoplasmosis.
19168

Experimental infections of calves with Trichostrongylus axei: Observations on lethal infections.
19223

Chromosome number in the leaf-cutter bee, Megachile rotundata.
19648

A comparison between different mounting techniques commonly employed in acarology.
19723

Fine structure of Dirofilaria immitis body-wall musculature.
20043

Ultraviolet microscopy of purines and amino acids in the vacuole of Candida albicans.
20108

Canine visceral leishmaniasis in Iran.
20771

Transmission of receptor potential in dipteran chemoreceptors.
21020

Leaf blade folding and motor cells of some blue grasses.
21075

Observations on the development of ruminal lesions in calves fed on barley.
21251

The fine structure of the gastric caeca of Aedes aegypti larvae.
21687

Current activities--Lasswade.
22039

Vaccination against Johne's disease and the creation of carriers.
22077

Comparison of three methods of extracting the flower thrips from rose flowers.
22317

A staining technique for jack-pine budworm egg masses.
22415

Light and electron microscopic examinations of a new bovine herpes virus.
22721

A rickettsial disease of the desert locust (Schistocerca gregaria Forsk.).
23061

Trabeculae in the grapevine infected with leafroll virus.
23129

Ultrastructural changes during zoospore formation in Phytophthora parasitica.
23420

MICROSOMES

Effects of aflatoxin and benzpyrene on microsomal hydroxylation. (Abstract).
17656

Protective effect of chlorpromazine on parathion and paraoxon toxicity in mice. (Abstract).
17667

Influence of induction of hepatic microsomal enzymes by phenobarbital on toxicity of organic phosphate insecticides.
20870

Effect of carbon monoxide on metabolism of insecticides in vivo.
21519

MIDDELBURG VIRUS

The multiplication of Middelburgs and I plaque viruses in Aedes aegypti mosquitoes.
17735

MIKOLETZKYA PIERCI

Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species.
13925

MILDEW (BARLEY)

Nucleotide composition of RNA in healthy and mildew-infected leaves of barley.
15120

Physiologic race changes in barley mildew 1964-67.
18130

MILK

Acute infectious bovine rhinotracheitis and Salmonellosis in a dairy herd.
13976

The iodine content of bulk herd milk in summer in relation to estimated dietary iodine intake of cows.
14493

Antibiotics used in food-producing animals.
14561

Toxic groundnut meal: The relationship between aflatoxin B1 intake by cows and excretion of aflatoxin M, in milk.
14626

Determination of fenthion and five of its metabolites in corn, grass, and milk.
14629

Notice of filing of petition regarding pesticides.
14672

Notice of filing of petition regarding pesticides.
14713

Notice of filing of petition regarding pesticides.
14715

Temik-S35 metabolism in a lactating cow.
14757

Note on extraction of a polar insecticide (Imidan) from milk.
15551

Determination of Niagara NIA-10242 and its phenol degradation product in corn silage and milk and determination of other carbamates by GLC of their thiophosphoryl derivatives.
15552

Simple ultrasensitive test for detecting penicillin in milk.
15575

Rapid screening method for DDT in milk with gas chromatography.
15580

Sweep co-Distillation cleanup of milk for determination of organophosphate and chlorinated hydrocarbon pesticides.
15601

Concentrations of penicillin in milk of cows following intramuscular administration.
16017

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. furaltadone.
16086

Use of radioisotopes in the detection of residues in meat and milk. In:Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16, April 1965. SB953.P32.
16125

Rubidium-87 concentration in market milk.
16126

Milk, eggs, meat, and/or poultry. Pesticide tolerances; policy statement.
16140

Notice of filing of petition regarding pesticides.
16149

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Pesticide tolerances regarding milk, eggs, meat, and/or poultry; statement of policy.
16174

Methionine as a precursor of methyl sulfide in cows' milk.
16190

Excretion of foot-and-mouth disease virus prior to the development of lesions.
16755

Attempts to produce cross-reactions for Brucella in cattle treated with hemorrhagic septicemia bacterins.
16830

Isolation of Brucella abortus from goats and sheep in the Punjab.
17541

Passage of antibiotics through the digestive tract of normal and scouring calves and their effect upon the bacterial flora.
17552

Effect of pollution of air with ozone on flavor of-spraydried.milks. (Abstract).
17629

Ethion. Proposed establishment of pesticide tolerances.
17644

An epidemiological study of pesticide contamination in milk on an operating dairy farm.
17651

The effect of intramammary infection during the dry period on the milk production of the affected quarter at the start of the succeeding lactation.
18194

Pathology a-d immunofluorescence studies of bovine mycoplasma mastitis.
18267

Acute infectious bovine rhinotracheitis and salmonellosis in a dairy herd.
18344

Studies on the laboratory soiling of milking equipment.
18409

Iodine-131 concentrations in Australian milk resulting from the 1967 French nuclear weapon tests in Polynesia.
19241

Method for recovery of viruses from milk and milk products.
20661

Sr-85 and Cs-134 activity in milk after a single contamination of pasture.
20714

Diazinon residues in the milk of cows and fat of sheep after feeding on pasture treated with diazinon. (Abstracted from New Zealand Jour. Agric. Res.9(1):1-7 1966.
20857

The evaluation of a teat-dipping formulation of chlorhexidine.
21344

Studies on the application to cattle of the low-toxicity 32P-labeled phosphonic acid ester butonate.
21457

DDT contamination of feed and residues in milk.
21488

Notice of filing of petition regarding pesticide chemicals.
21493

Notice of filing of petition regarding pesticide chemical.
21495

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ethion.
21501

Crystalline aflatoxin M1 from urine and milk.
21520

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid.
22190

Methoxychlor residues in the meat and milk of cattle following limited applications of methoxychlor for the control of buffalo fly (Haematobia exigua).
22192

Studies on pesticide residues. 2. Carbaryl residues in the body tissues and milk of cattle following dermal application.
22794

The in vitro effect of ketone bodies on the growth curves of mastitis organisms in milk.
23348

Secretion of DDT in milk by fresh cows.
23389

Effects of feeding cattle forage treated with Mobam.
23403

MILK ANALYSIS

The detection of antibody against Leptospira pomona in composite herd milk samples.
15337

Heptachlor and heptachlor epoxide residues on fall-treated alfalfa and in milk and cow tissue.
17653

Niagara NIA-10242 insecticide residues: Their persistence in coastal bermudagrass, corn, and silages, and their effect, fed in silage, on lactating cows.
18400

Residues of diazinon, coumaphos, ciodrin, methoxychlor, and rotenone in cow's milk from treatments similar to those used for ectoparasite and fly control on dairy cattle, with notes on safety of diazinon and ciodrin to calves.
18403

Effects of temporary hormonal suppression of lactation on milk constituents, clinical mastitis, colostrum, and the estrous cycle.
19950

Electron microscopy of virus-like particles found in bovine leukemia.
20757

Spiramycine in the treatment of bovine mastitis by the parenteral route.
20790

Investigation into electronic cell number counting Brabanter Mastitis-Reaction, Whiteside Mastitis test and lab coagulation time of milk.
20791

Some properties of the extracellular proteolytic enzymes of the milk-spoiling organism Pseudomonas aeruginosa ATCC 10145.
21264

Milk production of cows fed diets deficient in vitamin A.
21294

The passage of Staphylococci through the bovine test canal.
21340

A modified brucella ring test of cream. 21486

Notice of filing of petition regarding pesticide chemical. 21495

Vaccination against Johne's disease and the creation of carriers. 22077

Mastitis as a herd problem. 23321

MILK FAT
Study of modifications of the Mills procedure for chlorinated pesticides in dairy products. 15562

Screening method for the detection of chlorinated hydrocarbon pesticide residues in the fat of milk, cheese, and butter. 15572

MILKERS' NODULES
Bovine papular stomatitis, pseudo-cow-pox and milker's nodules. 15489

MILKY DISEASE
Milky disease bacteria. 21590

Epizootiological research on milky disease caused by Bacillus popilliae (Melolontha). 21686

MILLET
New results on the control of the millet caterpillar, Laphygma frugiperda. 16701

Important plant protection problems in Bavarian agriculture. 21776

MILO
Residue of bensulide in turfgrass soil following annual treatments for crabgrass control. 13991

MIMICRY
Possible mimicry between certain Carabidae and Chrysomelidae. 14153

Mimicry in plants and animals. 21644

MIMOSA
Mimosa wilt Fusarium carried in seed. 21124

MINERAL OIL
Effect of growth-regulating and other compounds on bacterial spot of pepper. 15219

Pesticides' unsung assistants. 15663

Mineral oil spray suppressed symptoms of virus yellows on sugar beets. (Abstract). 16563

Laboratory investigations of resistance to warfarin of Rattus norvegicus Berk. in Montgomeryshire and Shropshire. 17655

Preliminary observations on the effect of alcohol and oil films on the oviposition of Culex pipiens quinquefasciatus (Say). 17844

New directions in virus control in vegetable and potato cultivation. 22231

MINERALIZATION (NUTRIENTS)
Effect of zinc defiency on bone mineralization and plasma proteins of turkey poults. 21273

MINERALS
Some factors affecting mineral utilization by the baby pig. 16788

Effects of high dietary EDTA, zinc or copper on mineral content of turkey poult tissue. (Abstract). 17527

Action of potatoe peel extracts in modifying tuber dormancy. 19312

Ration evaluation and ketosis prevention. 20696

Feline urethral obstruction: Mineral aspects. 20774

Uptake and transport of systemic fungicides and bactericides. 20889

Different levels of diethylstilbestrol and certain minerals for cattle fed an all-concentrate finishing ratio. (Abstract). 21254

Influence of aldosterone on PSE pork muscle. (Abstract). 21282

The effects of high levels of dietary EDTA, zinc or copper on the mineral contents of some tissue of turkey poults. 21299

Mineral and chlortetracycline supplementation to all-concentrate NPN supplemented feedlot rations. (Abstract). 21342

MINKS
The transmission of a specific encephalopathy of mink to the goat. 14574

Secondary poisoning associated with anticoagulant-killed nutria. 14758

Pathological studies on Aleutian disease of mink. 16803

Studies on urinary incontinence and 'wet belly' in ranch mink (Mustela vison). 17486

Vitamin B6 requirement of the mink. 17492

Niacin requirement of growing mink. 17585

Aleutian disease gammopathy of mink induced with an ultrafiltrable agent. 19162

The Chediak-Higashi Syndrome. 19198

Susceptibility of mink to Clostridium botulinum type C toxin. 20663

Congenital hydrops in mink. 20711

Studies on the activity of motion of minks. 21334

The hydrazide of isonicotinic acid in preventing and treatment of tuberculosis in minks. 21368

The Aleutian disease in minks- plasmocytosis. III. 21440

Effects of progesterone treatments on delayed implantation in mink. 22620

MIREX
Notice of filing of petition regarding pesticides. 14703

Subterranean termite studies in southern Ontario. 17747

Use of a new lure in the base Dodecacloro (Mirex 0.450) for the control of ants: Atta sexdens rubropilosa (Forel, 1908) and Atta laevigata (F. Smith, 1858)--Hymenoptera, Formicidae. 19541

Comparison between Adlrin and Milrex as principle ingredients of pelleted bait in control of the leaf-cutting ant: Atta sexdens rubropilosa Forel, 1908 and Atta laevigata (F. Smith, 1858) Hymenoptera, Formicidae. 20588

MIRIDAE
Taxonomic review: Miridae of the Nevada test site and the western United States. 13732

The stages of Spanogonicus albofasciatus and their development (Hemiptera: Miridae). 13832

Biology of three species of Leiophron (Hymenoptera: Braconidae, Euphorinae) parasitic on Miridae on broom. 14281

Studies on the salivary physiology of plant-bugs: Experimental induction of galls. 16433

Neotropical Mirids, XCVIII: three new species of the tribes Bryocorini and Orthotylini (Hemoptera). 17742

A new genus and two new species of mirid bugs (Heteroptera, Miridae) from the eastern regions of the USSR. 17755

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera). 19028

Neotropical Mirids, XCIX: a new genus and two new species from Bolivia. 20177

A taxonomic study of some genera of the Ethiopian Miridae (Hemiptera). 20243

Heteroptera beaten from blackcurrants at Long Ashton Research Station in 1967. 21645

Eurycolpus enslini n. sp., a new species of Phylini DGL. SC. from southern Turkey (Heteroptera Miridae). 22330

A new contribution to the taxonomy of the genus Sthenarus Fieber and Psallus Fieber(Hem. Het. Miridae). 22341

The hosts and life histories of three mirid bugs of economic importance with notes on their control. 22543

MISSISSIPPI
A report of the occurrence of Camellia flower blight in Mississippi. 15027

MISSOURI
A list of Missouri mosquitoes. 14118

MISTICIINAE
Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species. 13925

MISTICIUS MUSTUS
Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species. 13925

MITES
Phytoseiidae of sand-pine litter. 13739

Acarina Thrombidiidae of Madagascar. 13744

Influence of the proportion of fruiting to non-fruiting clusters on the distribution of insect predators on apple trees. 13824

Mites of Crataegus and Amelanchier in Hood River Valley, Oregon. 13919

Two new feather mite genera with polymorphic males (Analgoideai Proctophyllodidae). 14021

The feather mite genus Laminalloptes (Proctophyllodidae: Alloptinae). 14022

The discovery of Listrophorus leuckarti Pagenstecher on Microtus pennsylvanicus pennsylvanicus from North America (Acarina: Listrophoridae). 14091

Dolichomotes navei, a new genus and new species of pyemotid mite (Acarina: Pyemoyidae). 14116

Parasitization of social halictine bees in southern Ontario. 14219

Mites from noctuid moths. 14275

Occurrence of brevipalpus mites, leprosis, and false leprosis on citrus in Florida. 14442

A mite as a pest of young plum trees. 14446

Ectoparasites of Canadian birds and mammals. 14584

The susceptibility of honey bees of different ages to infestation by Acarapis woodi (Rennie). 14905

Several insects cause concern. 14991

Three plans for using acaricides to control mites on apple. 15223

Variety of soybean insects are active in several states. 15232

The control of poultry lice and mites with several organic incecticides. 15240

Experimentally induced bovine psoroptic acariasis in a rabbit. 15407

To the knowledge of mites of the subfamily Nycteriglyphinae (Acarina: Rosensteinidae) from Cuba. 15707

Ecological specialization and production of forms in Oribatoid mites. 15718

Phytophagous mites. In:Smith, C.N.Insect colonization and mass production. QL497.S6. 15772

Bionomics and control of Tarsonemus myceliophagus (Acarina: Tarsonemidae) in mushroom composts. 15979

A new approach to the physiological host plant-parasite relationship. A technique in the field of applied entomology. 15989

Parasitic mites. In: Smith,C.N.Insect colonization and mass production. QL497.S6. 16091

Prosarcoptic scabies (Prosarcoptes pitheci Philippe, 1948) in a capuchin monkey (Cebus c. capucinus). 16092

Two new species of the genus Ewingana (Acarina: Myobiidae) from Cuba. 16288

Some raphignathoid mites from Israel. 16298

Taxonomy and the integrated control of mites. 16363

Laboratory research on Acarapis woodi Rennie, the causative agent of acarine disease of the honeybee. note 5. 16393

Preliminary report on the introduction of Phytoseiulus persimilis to Poland. 16421

Methods of killing pests selected from the group consisting of mites and insects with phosphonothioates. Patent 3,401,220. 16461

Triplosporium tetranychi sp. n. (Phycomycetes, Entomophthoraceae), a fungus infecting the red mite Tetranychus althaeae Hanst. 16476

Investigations of new insecticides. 16480

Relationships between Tetranychus urticae Koch and some plant viruses. 16651

External parasites of domestic pigeon in United Arabic Republic. 16869

Sampling methods for red spider mites. 17096

Rates of spontaneous mutation in certain genes of an Arrhenotokous mite, Tetranychus pacificus. 17234

Summary of recent abstracts. VII. Rickettsial diseases. 17240

Control of the white mite on cotton with various powder and dust products. 17369

Insect pests in food stores. 17623

Biological and ecological studies on Caloglyphus mite (Acarinai Acaridae) associated with Scarabaeidae. 17743

Two new species of Thyasidae (Acarina) from Nikko National Park Japan. 17752

A new genus and species of the phytophagous mite (Bryobiidae, Acariformes). 17757

A new species of the gamasid mite Ichoronyssus mirabilis Senotrusova et Tagiltsev sp. n. (Acariformes, Gamasoidea) from whiskered millers of the Zaisan hollow. 17769

Northern fowl mite control on mature turkeys on range. 18350

Karotypes and developmental stages of Harpyrhynchus novoplumaris sp. n. (Acari: Cheyletoidea: Harpyrhynchidae), a parasite of North American birds. 18548

Hatching of the winter eggs of the fruit-tree red spider mite (Panonychus ulmi (Koch)). 18637

Vagrant Eriophyid mites on Elm. 18662

Control of tarsonemid mites in fungal cultures. 18680

Chemical insect control handbook. SB951.W3. 18693

Identification of eriophyid mites trapped on silicone grease-coated slides. (Abstract). 19048

A mite that is harmful to young plum trees. 19051

Red spider mite in deciduous fruit orchards. 19083

Observations on Pergamasus. III. Sub-genus Amblygamasus Berlese, 1903 (Acarina anactinotriches: Parasitidae). 19342

Observations on Pergamasus. II. Sub-genus Pergamasus Berlese, 1904 (Acarina anactinotriches: Parasitidae). 19343

Redescription of Megisthanus floridanus with observations on its biology. (Acarina: Megisthanidae). 19367

Contribution to the study of Caeculidae. Third. Postlarval development of Neocaeculus luxtoni n. gen., n. sp. 19373

Water mites of the genus Stygomomonia in North America (Acarina, Momoniidae). 19374

Little known and new litter-inhabiting Laelapine mites (Acari, Mesostigmata) from Israel. 19375

On a new predatory mite of economic importance from Sudan (Acarina: Phytosciidae). 19386

Some predatory mites of the genera Typhlodromus and Amblyseius from the United Arab Republic (Acarina: Phytosciidae). 19387

Two new species of Dermatophagoidinae. Connection of this sub-family with the Pyroglyphidae (Sarcoptiformes). 19394

New genera of the family Analgidae, Trouessart and Megnin. 19402

Five new genera of the family Analgidae, Trouessart and Megnin. 19403

Note on several phytophagous mites from the island of Reunion with a description of a new species of the genus Eotetranychus Oudemans (Tetranychidae). 19409

Digamasellid mites associated with bark beetles and litter in North America. 19417

Rhysotritia ardua larva (C. L. Koch) 1836 (Acarina, Oribates). 19438

Myocoptes ondatrae spec. nov., a new parasite of Ondatra zibethica L. (Listrophoridae: Sarcoptiformes). 19441

Two new species of Scutacaridae (Acari) from Vietnam Zoologische ergebnisse der forschungen von Dr. T. Pocs . 19444

A redescription of Radfordilaelaps meridionalis Zumpt, 1950, with a new description of the protonymph and a discussion on the intraspecific variation of the species. 19445

The spider mite family Tetranychidae in New Zealand. III.--THE genus schizotetranychus. 19451

The spider mite family Tetranychidae in New Zealand. I. The genus Bryobia. 19452

Contribution to the study of acarine parasites of Madagascan Orthoptera. I. The genus Podapolipus (Podapolipidae): Preliminary diagnosis of new species. 19462

Oribatei from a bird nest. 19474

Moyanella gigax Boshell and Kerr 1942, type of Moyanellinae n. sub.-fam. (Acarina-Thrombidiidae). 19478

Revision of Tanaupodinae and Lasseniinae (Acarina: Thrombidiidae). Preliminary. 19479

Paraneonyssus dendrocitti, a new species of Rhinonyssidae (Acari: mesostigmata) from Taiwan. 19485

A new Laelaptidae of Central Africa: Scutanoloclaps mehelyae n. sp.. 19499

Acarine associates of the pales weevil, Hylobius pales (Coleoptera: Curculionidae). 19504

General introduction to the classification, terminology, ontogenesis and evolution of mites. 19509

Revision of the genus Tecomatlana Hoffmann, 1947 (Acarina: Trombiculidae). 19512

Note on xhexidionis n. g. and Pentidionis n. sg.. 19513

A new species of Listrophorus from Mus musculus in Hawaii (Astigmata: Listrophoridae). 19525

A new species of Cheylostigmaeus Willmann (Acari, Stigmaeidae) from New Zealand. 19528

A new species of Carabodes from Jamaica (Acari: Cryptostigmata). 19529

Otorhinophila, a new genus of chiggers (Acarina, Trombiculidae) from western North America. 19532

New observations on Oribates. (5). 19617

The use of nematodes and oligochaetes for rearing predatory mites. 19724

The response of some Macrochelids to temperature and humidity (Acarina: Macrochelidae). 19725

The rearing of the house mite, Dermatophagoides pteronyssinus (Trt. 1897). 19728

Studies on timing for control of the citrus rust mite, Phyllocoptruta oleivora (Ashm) in the state of Sao Paulo. 19897

The hypopial stage of Falculifer rostratus in the turtledove. 20019

Acarous (Pneumonyssus simicola) arteritis in rhesus monkeys. 20025

Contamination indexes in degerminated corn products. 20062

Water mites from puddles 'Vechten'. 20173

Two new species of Gamasellus Berlese (Mesostigmata: Rhodacaridae) from Canada. 20186

New hypopes living in a phoretic association on rodents and marsupials (Acarina: Glycyphagidae). 20189

Some Cheyletid and Pseudocheylid mites from Israel. 20199

Pygmephorus species (Acarina: Pyemotidae) associated with cultivated mushrooms. 20204

Three species of Proctolaelaps (Acarina, Mesostigmata) from noctuid moths. 20269

The life cycle of Trisetacus kirghisorum V. Shev. (Acarina, Tetrapodili)--the pests of Juniperus semiglobosa Rgl. 20567

The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats. 20968

The effects on soil fauna of insecticides tested against wireworms (Agriotes spp.) in wheat. 21070

A progress report...Olive yield decline study in Tehama County. 21199

Effects of oil sprays for controlling pacific mite on grapevines. 21201

Adaptive significance of mycophagy in stored-product Arthropoda. 21764

Mites of camellia. 21972

Efficacy of Vorlex on mites and nematodes on gladiolus corm debris in sandy soils of Florida. (Abstract). 22004

Scaly leg in poultry--a parasitic disease. 22150

Insects and mites on tea in Africa and adjacent islands. 22243

Initial survey of arthropod predators of the European red mite in south-central Pennsylvania. 22282

Citrus diseases and pests. 22490

Mites as house vermin and storage pests in northwest Germany. 22787

Jamesonia, a new genus (Acarina: Myobiidae) with seven new species from Cuban bats. 22864

Data on the oribatids (Acari) of Spitsbergen. 22884

Fauna of Paraguay. 3 Acari: Pyemotidae and Scutacaridae. 22896

Redescription of Microthrombidiinae of Bolivia described by J. Boshell and J. A. Kerr in 1942 (Acari, Thrombidiidae). II. 22910

Contributions to the knowledge of the genus Tyrophagus Oudemans. 22911

Gamasid mites of Chiroptera (Parasitiformes, Gamasdidea) in Azerbaijan. 22977

Comparative study of the methods of counting Panonychus ulmi Koch populations. 23008

Infection of the citrus red mite with virus in central and southern California. 23042

Feeding and reproduction of the grain mite and the mushroom mite on some species of Penicillium. 23047

Overseas experts are working at Lincoln,New Zealand, on insecticide resistance in mites. 23177

Hypope parasites of the cellular tissues of birds. 23276

MITOCHONDRIA

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria. 16916

Metabolic changes in biotin-deficient Aspergillus nidulans. 17272

The effects of gossypol on certain enzymes in cellular fractions of animal tissues. 17661

Oxidative activity of Botrytis cinerea extracts in alcohol. (Abstract). 17680

Mechanisms of inhibition and uncoupling of oxidative phosphorylation in housefly mitochondria. 17899

Cytochrome oxidase and mitochondrial protein in extracts of leaves of Nicotiana glutinosa L. Infected with tobacco mosaic virus. 18045

Cytomorphological features ofTMV-INFECTED tobacco callus cells in tissue culture. 18063

Mitochondrial involvement in the host-parasite relationship. 18305

Peroxidase activity in platyhelminth cuticular mitochondria. 20048

Metabolic changes in biotin-deficient Aspergillus nidulans. 20507

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria. 20628

Cytological changes in the fat body of Rhodnius during starvation, feeding and oxygen want. 21034

The fine structure of the gastric caeca of Aedes aegypti larvae. 21687

Studies on the terminal respiratory systems in the minute (2)z mutant of Drosophila melanogaster. 22475

MITOSIS

Nuclear condition and division in vegetative hyphae of Rhizoctonia solani. 15644

The effect of chloramphenicol on soybean callus tissue. 16917

Controlled mating, karyology, morphology, and sex-ratio in the Dendroctonos ponderosae complex. 16987

Mitotic activity of the circulating hemocytes of the large milkweed bug, Oncopeltus fasciatus. 17107

Induced changes in the mitotic activity of hemocytes of the large milkweed bug, Oncopeltus fasciatus. 17108

Mitotic chromosomes of Glossina pallidipes Austen. 17905

Mitotic recombination in conidiophores of verticillium alboatrum. 17922

Ring-canals and intercellular communication within the eggchamber of a tsetse fly species. 20407

Mitosis and the cell cycle in the metamorphic moult of the milkweed bug, Oncopeltus fasciatus. A radioautographic study. 21006

Cytological changes in the fat body of Rhodnius during starvation, feeding and oxygen want. 21034

Chemical induction of mitotic crossing-over in Aspergillus. (Abstract). 21546

Effect of cytokinins on apple shoot development from axillary buds. 21953

Alterations in mitosis induced by isomers of hexachlorocyclohexane. II. The delta isomer. The possible mechanism of action of hexachlorocyclohexane. 22568

MIYAGAWANELLA GROUP VIRUSES

Partial purification of the organism of psittacosis grown in chicken embryo yolk sac. 13954

Sporadic bovine encephalomycliyis isolation and identification of a Psittacosis Lymphogranuloma venereum (PLV) agent. 14525

Psittacosis-lymphogranuloma venereum agent isolated during an abortion epizootic in goats. 18286

The isolation of a Psittacosis-Lymphogranuloma Venereum (PL) agent from an emperor penguin (Aptenodytes forsteri) chick. 20683

On the isolation of some strains of the Miyagawanella psittaci virus. 21450

MODE

Effects of metabolic poisons on rice: the comparative sensitivity of aerobic and anaerobic modes of germination. 17704

MODIFIED WOOD

Feeding by Reticulitermes spp on radiation-processed wood-plastic combinations. 14145

MOLASSES

Possibilities for flight detection of harmful moths of the Noctuidae family on sugar beet. 20330

Grass tetany in cattle--using molasses--magnesium oxide mixtures to prevent it. 22090

MOLDS

Virus-like particles of a fraction of a statolon, a mould product. 15617

Controlled aeration of rice in bulk. 16110

The microflora of fodders associated with bovine respiratory disease. 16805

Fungus flora, germinability and fat acidity values of stored corn. 16895

An outbreak of atypical interstitial pneumonia of cattle.
17505

Moldy corn poisoning as the major cause of an encephalomalacia syndrome in egyptian equidae.
19156

Report on extraneous materials in foods and drugs.
20063

Use of potassium sorbate, diethylpyrocarbonate and heat for the preservation of prunes at high moisture levels.
20068

Metabolic changes in biotin-deficient Aspergillus nidulans.
20507

A new antifungal substance produced by Myrothecium.
20930

Moldy corn poisoning as the major cause of an encephalomalacia syndrome in Egyptian equidae.
22048

MOLECULAR WEIGHT

Chemical composition and biophysical properties of tomato ringspot virus.
16690

Physicochemical studies of Newcastle disease virus. III. The content of virus nucleic acid and its sedimentation pattern.
17553

Drosophila alcohol dehydrogenase. Purification and partial characterization.
17650

Heterogeneity of Clostridium botulinum type A toxin.
17657

Preparation and properties of the protein and nucleic acid components of Pea Enation Mosaic Virus.
19074

The fine structure of vesicular stomatitis virus.
19193

MOLECULES

Relationship between the molecular structure of cytokinins and victorin activity. (Abstract).
15904

Molecular sieving of hydrophilic molecules by the rectal intima of the desert locust (Schistocerca gregaria).
17052

Biochemical transformations of anilide herbicides in soil.
17716

Gas chromatographic detector for simultaneous sensing of phosphorus and sulfur-containing compounds by flame photometry.
18483

Molecular structure of nonionic surfactants in relation to laboratory insecticidal activity.
23009

MOLLUSCACIDES

Gastropodicidally effective substituted 5-halo-3-phenylsalicylanilides. Patent 3,382,145.
14489

Economics of the application of molluscicides to flowing water.
16403

Structure and activity in molluscicides.
20924

Control of the action of chemical molluscicides on zoophytic associations in fresh water.
22798

The effect of Gramoxone (N,N-dimethyl-p,p-dipyridilium salt) on the various developmental stages of B. glabrata.
23241

Carbamate insecticides. Where are they headed .
23402

Toxic effect of some molluscacide mixtures.
23408

MOLLUSKS

Economics of the application of molluscicides to flowing water.
16403

Malaria control on impounded water. RA644.M2U55.
17723

Dichlorophene for control of tunicates in cultures of artificially reared bivalve mollusks.
23341

MOLTING (INSECTS)

Inhibition of metamorphosis and of ecdysis in mosquitoes.
14959

Growth, feeding activity, and the utilization of reserves in larvae of Locusta.
16399

The life cycle of Trichinella spiralis. I. Intestinal phase of development.
16509

Effects of sub-lethal high temperature on an insect, Rhodnius prolixus (Stal.). III. Metabolic changes and their bearing on the cessation and delay of moulting.
17177

The molting behavior of the black widow spider, Latrodectus mactans.
17830

Experimental investigation into the physiology of molting of spiders.
19597

On the circadian rhythms of emergence of caddisflies (Trichoptera).
19743

Studies on the biology of Athalia proxima Klug (Tenthredinidae; Hymenoptera).
22449

Effect of starvation on molting and growth in Aedes aegypti and A. vexans.
22945

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles.
23034

MOLYBDENUM

An attempt to produce swayback in lambs born to ewes dosed with high levels of molybdenum, inorganic sulphate and manganese during pregnancy.
14504

Effect of trace-elements bound to superphosphates on the resistance of potato tubers to Phytophthora infestans (Mont.) de Bary.
16643

The influence of various rates of iron, boron, zinc, molybdenum and copper on symptoms of virus necrosis of vine.
18968

Crop responses to applied molybdenum and copper on Podzol soils.
19276

Micronutrient effects on the in vitro growth and pathogenicity of Fusarium oxysporum f. sp. lycopersici.
21956

Effect of intake of copper, molybdenum and sulphate on copper metabolism in the sheep. Iii. Studies with radioactive copper in male castrated sheep.
23336

MOLYBDENUM COMPOUNDS

Molybdenum deficiency symptoms in cotton.
18733

Copper-molybdenum interaction in sheep and chicks.
20332

A copper-molybdenum complex: its effects and movement in the piglet and sheep.
20333

MOMORDICA CHARANTIA

Pathogenicity and development of root-knot nematodes on ampalaya.
19921

MONACROSPORIUM RUTGERIENSIS

Monacrosporium rutgeriensis sp. n., a nematode-trapping hyphomycete.
16561

MONGOOSE

A new species of Suricatoccus (Mallophaga: Trichodectidae) from the Congo.
14043

MONIEZIA

L-Lysine carboxylyase in Ascaris lumbricoides and Moniezia expansa.
22168

MONILIALES

Nitrogen nutrition of some nematode-trapping fungi.
23431

MONILIASIS

Systemic candidiasis in calves on prolonged antibiotic therapy.
13964

Albicans infection in chickens. I. Effect of vitamin A nutritional factors influencing experimental Candida deficiency.
15393

Effects of vitamin-A deficiency and high-level chlortetracycline on experimental candidiasis of turkeys.
15479

Growth, morphogenesis, and virulence of Candida albicans after oral inoculation in the germ-free and conventional chick.
19944

Predacious hyphomycetes and their application in the control of pathogenic nematodes. QK625.M74S63.
21031

MONILIFORMIS DUBIUS

Ultrastructural enzyme localization in the surface of Moniliformis dubius (Acanthocephala).
16099

Production of ethanol and succinate by Moniliformis dubius (Acanthocephala).
21207

MONILINIA FRUCTICOLA

Effects of drying on the viabilty of germinated spores of Botrytis cinerea, Cercospora musae, and Monilinia fructicola.
14372

Comparison of phytoalexin produced by two soybean varieties differing by a single gene. (Abstract).
15876

Calcium hypochlorite added to selected fungicide sprays improves effectiveness in disease control. (Abstract).
15924

The isolation and partial characterization of monilicolin A, a polypeptide with phaseollin-inducing activity from Monilinia fructicola.
16203

Peach, Brown rot and rhizopus rot, Monilinia fructicola Rhizopus sp.
18798

Peach. Brown rot and rhizopus rot; Monilinia fructicola and Rhizopus sp.
18801

Biochemical factors affecting sporulation of the brown rot fungus, Monilinia fructicola (Wint.) honey.
18825

A cellophane transfer bioassay for determining persistence of fungicides. (Abstract).
18893

MONILINIA LAXA

Fluctuations in numbers of Monilinia laxa spores in an apricot orchard. (Abstract).
15871

Dispersal patterns of Monilinia laxa spores in peach, prune, apricot, and almond trees during early spring. (Abstract).
18435

MONKEYS

Preliminary report on soluble antigen fluorescent antibody technique for identification of host source of mosquito blood meals. 13789

Simian malarias in man; facts, implications, and predictions. 14307

Studies on the transmission of simian malaria. III. Infection and transmission of Plasmodium coatneyi with Anopheles freeborni and A. balabacensis balabacensis mosquitoes. 14308

Transmission of Plasmodium fieldi by Anopheles maculatus, A. stephensi, and A. balabacensis balabacensis. 14310

Encephalomyocarditis virus infections in Florida. 1960-1966. 14509

A contagious pox disease in monkeys. 14516

Studies on the transmission of simian malarias. iI. transmission of the H strain of Plasmodium knowlesi by Anopheles balabacensis balabacensis. 14577

Prosarcoptic scabies (Prosarcoptes pitheci Philippe, 1948) in a capuchin monkey (Cebus c. capucinus). 16092

The metabolism of carbaryl in man, monkey, pig, and sheep. 16193

Onchocerca-Simulium complexes. V. The intake and subsequent fate of microfilariae of a Guatemalan strain of Onchocerca volvulus in forest and Sudan-savanna forms of West African Simulium damnosum. 17099

Human malaria in non-human primates: Experimental mosquito transmission and infection. 18711

Diagnosis and handling of B virus in a rhesus monkey (Macaca mulatta). 19953

Pulmonary tuberculosis in a squirrel monkey (Saimiri sciureus). 19968

Naturally occurring giant cell pneumonia in the rhesus monkey (Macaca mulatta). 19986

Tuberculosis of the spine (Pott's disease) in a rhesus monkey (Macaca mulatta). 19988

Acarous (Pneumonyssus simicola) arteritis in rhesus monkeys. 20025

Cysticercosis in four rhesus brains. 20056

Method for recovery of viruses from milk and milk products. 20661

Vervet monkey disease: Experimental infection of guineapigs and monkeys with the causative agent. 22136

Effect of different species of Trichomonads on monkey kidney cell cultures. 22680

Experimental mosquito-transmission of Plasmodium knowlesi to man and monkey. 23084

MONOAMINE OXIDASE

The distribution of nerves, monoamine oxidase and cholinesterase in the skin of poultry. 21362

MONOCENTRUS CARAYONI

On a new Monocentrus (Membracidae Centrotinae), harmful to the cultivated pepper trees in central Africa. 19356

MONOJOUBERTIA

Four new species of Monojoubertia from one species of bird (Analgoidea: Proctophyllodidae). 14020

MONOLINURON

The decomposition of urea herbicides in soil. 17717

MONOMETHYL 2,3,5,6-TETRACHLOROTEREPHTHALATE

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethyl 2,3,5,6-tetrachloroterephthalate. 16160

MONOMORIUM PHARAONIS

The natural history of Monomorium pharaonis (L.) (Hym., Formicidae) infesting houses in Nigeria. 18683

MONOPSYLLUS THAMBUS

Monopsyllus thambus (Joroan, 1929) from the alpine in Colorado. 14218

MONOSODIUM ACID METHANEARSONATE

The herbicidal activity of MSMA and DSMA on purple nutsedge. 22026

MONTANDONIELLA MORAGUESI

The biology of Montandoniella moraguesi Puton, a predator of Gynaikothrips ficorum Marchal, in Egypt (HemipteraHeteroptera: Anthocoridae). 14271

MONTEREY-PINE NEEDLE MINER

Life history of the Monterey pine needle miner, Argyresthia pilatella (Lepidoptera' Yponomeutidae). 14898

MONTMORILLONITE

Microbial decomposition of diquat adsorbed on montmorillonite and kaolinite clays. 16117

Montmorillonite-S-triazine interactions. 21491

MONURON

Action and effectiveness of certain classes of herbicides. 15667

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(41-chlorophenyl)-1,1-dimethylurea (monuron). 20498

Effect of several herbicides on the proteolytic activity in squash. 22804

MORAXELLA

Keratoconjunctivitis produced by Moraxella bovis in laboratory animals. 22127

MORAXELLA BOVIS

Keratocontunctivitis produced by Moraxella bovis in laboratory animals. 19200

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Determination of optimal irradiation. 21356

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Resistance to re-exposure with homologous and heterologous Moraxella bovis. 21357

Experimental bovine infectious keratoconjunctivitis caused by sunlamp irradiation and Moraxella bovis infection: Correlation of hemolytic ability and pathogenicity. 21418

MORIA (PEARS)

Research on pear moria; pear decline disease. Final technical report, September 11, 1962-September 10, 1967. sb608.p4r4. 19065

MORPHOLOGY

Boophilus kohlsi Hoogstraal and Kaiser 1960 (Acarina: Ixodidae). life cycle and morphology of larva. 14073

Three new spiders (Argiope, Boethus and Cispius) from Japan. 14139

Research on the properties of the pathogenic Aspergillus; the major species Aspergillus fumigatus A. clavatus, A. flavus. 14524

The pre-infective larval stages of Stephanofilaria assamensis, the causative parasite of humpsore of Indian cattle. 14604

The stridulatory mechanism in three species of Pentalobus (Coleoptera, Passalidae). 15744

Electron microscopical studies on Ditylenchus dipsaci (Kuhn). Stomatal region. 16484

The life cycle of Trichinella spiralis. I. Intestinal phase of development. 16509

Watermelon mosaic virus: Tubular inclusions in pumpkin leaves and aggregates in leaf extracts. 16658

A physiological study of the development of the egg of Fasciola hepatica L., the common liver fluke. 16891

Enzymatic and morphologic modifications in Brucella treated with interferon. 16921

Controlled mating, karyology, morphology, and sex-ratio in the Dendroctonos ponderosae complex. 16987

Postembryonic reproductive-systems development in Empoasca fabae. 17124

Some recent changes in the approach to studies of climatic effects on insect populations. 17125

Present state of insect tissue culture. Transl. 16704. 17167

Mermithid parasites of the mosquito Aedes vexans Meigen in British Columbia. 17214

Ecology and control of small brown planthopper (Laodelphax striatellus Fallen). Transl. 16695. 17385

Morphological and biological studies of thysanopterous insects on rice plants. Transl. 16727. 17406

Taxonomy life cycle and host range of Heterodera mexicana n. sp. (Nematoda Heteroderidae). 17418

Development of the reproductive system in some Pratylenchus species. (Abstract). 17447

The influence of the stage of development of lesion nematodes on population dynamics and subsequent host response. (Abstract). 17452

The morphological characteristics of African swine fever virus and its resemblance to Tipula iridescent virus. 17482

The biology of fungi bacteria viruses. QR41.S7. 17628

A review of recent literature on the host plant range of the genus Liriomyza mik (Diptera: Agromyzidae) in the Continental United States and Hawaii, excluding Alaska. 17770

Mitotic chromosomes of Glossina pallidipes Austen. 17905

Morphology and longevity of Verticillium albo-atrum in cotton leaves. (Abstract). 17957

Occurrence of Agrophron mosaic virus in Montana. 18058

Introduction to Bacillus thuringiensis and its uses. 18103

Effect of temperature and variety on nematode development and gall production on soybeans infected with Meloidogyne incognita acrita. (Abstract). 18131

Electron microscope studies of some cephalic structures of Xiphinema americanum. 18142

Characterization studies on feline panleucopenia virus. (with). II. Pathogenesis in the host. 18233

Electron microscopic studies on the development of vesicular stomatitis virus. 18236

A case of porcine endocarditis associated with Staphylococcus aureus. 18248

Basic biological characteristics of mycoplasma. 18277

Liver granulomas of turkeys caustive agents and mechanism of infection. 18294

Eight feline viruses: An electron microscopic study. 18324

An electron microscope study of the tegument and associated structures of the procercoid of Diphyllobothrium latum (L.). 18355

On the development of Cysticercus fasciolaris in albino rat liver and its reaction on the host tissue. 18381

Inorganic composition and microscopy of citrus roots grown under several copper and soil amendment conditions. 18428

The efficiency of aphidophagous insects in control of Aphis fabae Scop. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18498

The Agromyzidae (Diptera) of Woodwalton Feni Supplement. 18532

Biometric data for Rhopalosiphum fitchii Sand. (Hem., aphididae) with notes on synonymy. 18555

Observation on the effect of temperature on the development and the leg coloration of Oscinella frit L. (Dipt., Oscinellidae). 18591

Mouthparts of the biting and blood-sucking type in Tanyderidae and Chironomidae (Diptera). 18601

Coloration of the desert locust (Schistocerca gregaria Forskal) reared in isolation. 18618

A note on the polymorphism of Philaenus spumarius (L.) (Homopt., Cercopidae) in Britain. 18619

Variation in male genitalia of Drosophila auraria collected in nature. 18634

The golden buprestid (Col.) in Britain- a post-script. 18674

Studies on the scutellar bristles of Drosophila melanogaster, I, Basic variability, some temperature and culture effects, and responses to short-term selection in the oregon-RC strain. 18675

X-ray induction of autosomal translocations in mature oocytes of Drosophila melanogaster. 18689

Importance of intraspecific competition in aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18696

Morphological and chemical analyses of red pine (Pinus resinosa Ait.) buds. Their relationships to tree growth on a K-deficient to nondeficient site continuun. 18741

Leaf dip serology for electron microscopic identification of plant viruses. 18772

Influence of developmental stage of rice plant on susceptibility to hoja blanca virus. 18861

Research on a new isometric virus of Atropa belladonna L. I. Symptomatology, purification, morphology, physical and chemical characteristics. 18901

Aggregated filaments in extracts from Lupinus infected with watermelon mosaic virus. 18913

Wheat (spring marquis). Leaf and stem rust; Puccinia recondita and Puccinia graminis tritici. 18922

The relationship between bean yellow mosaic virus and pea mosaic virus. 18958

Virus particles in chlordplasts of plants infected with the U5 strain of Tobacco Mosaic Virus. 19073

Studies on ergot of wheat: Claviceps purpurea (Fr.) Tul. 19128

Development and survival on pasture of gastrointestinal nematode parasites of cattle. 19220

Advances in plant virus research. 19804

The establishment of hop tissue cultures and their infection by downy mildew Pseudoperonospora humuli (Miy. and Tak.) Wilson under aseptic conditions. 19821

Respiratory changes accompanying leishmania to leptomonad transformation in Leishmania donovani. 19972

Fine structure of Dirofilaria immitis body-wall musculature. 20043

The measurement of environmental factors in the terrestrial environment: Note on a symposium of the British Ecological Society at the University, Reading, on 28-31 march, 1967. 20146

Biology of Hyphantria cunea Drury (Lepidoptera: Arctiidae) in, Japan. III. Photoperiodic induction of diapause in relation to the seasonal life cycle. 20156

Some new and little-known species of Philornis (Diptera: Muscidae). 20185

Host records for some North American Pompilidae (Hymenoptera) with a discussion of factors in prey selection. 20221

Effect of desiccation on survival of the free-living stages of Trichostrongylus colubriformis. 20297

Observations on the nesting behavior of some species of Tachytes (Hymenoptera: Sphecidae, Larrinae). 20338

The natural infection rate of Simulium damnosum with Onchocerca volvulus in Savannah regions of Guinea. 20344

Global events concerning mosquitoes in 1966. 20431

Growth of listeria monocytogenes in corn silage extract medium. 20518

Chemotaxonomic and ultrastructural studies on three species of Tilletia occurring on wheat. 20543

The sensitivity of soil fungi against herbicides. 20577

Horn flies on cattle. How to control them. 20642

Transmission in invertebrate and vertebrate ganglia. 20662

Occurrence and morphology of spontaneous arteriosclerosis in domestic and wild pigs. 20727

Electron microscopy of virus-like particles found in bovine leukemia. 20757

Cluster flies in the home. 20945

Infectivity of Trypanosoma rhodesiense to tsetse flies fed through animal membranes. 21013

Respiration in developing honeybee larvae. 21025

Predacious hyphomycetes and their application in the control of pathogenic nematodes. QK625.M74S63. 21031

Almond sticktights contribute to navel orangeworm infestations. 21177

Morphological changes in a parasitic nematode due to acquired resistance of the host. 21190

Effect of chronic reserpine on metabolism and chemical constituents of turkey testis. 21336

Pseudocowpox in germany. 21372

Differential diagnosis of bovine stomatitis of viral origin. 21373

Plaque morphology of newcastle disease virus as influenced by cell type and environmental factors. 21429

Electron microscopic detection of an avian tumor virus in mononuclear cells from the blood of chickens with experimental osteopetrosis. 21430

Application of scanning microscopy in the study of virus transmission of aphids. 21584

A waxed-paper laboratory cage for sterilization studies with the Oriental fruit moth, Grapholitha molesta (Busck) (Lepidoptera: Torticidae). 21682

Description of the adult Tetranychus telarius L. (Acarina, Tetranychidae). 21740

Range of host plants and larval feeding in Phytomyza atricornis Meigen (Dipt., Agromyzidae). 21746

Chemical alteration of sex expression in cucumbers and cantaloupes. (Abstract). 21783

Auxin and gibberellin-like activity in blueberry flowers and fruit. (Abstract). 21790

Development of downy mildew resistant broccoli, cabbage, and collards. (Abstract). 21821

Biochemical changes during the development of cork spot of 'York Imperial' apples. (Abstract). 21846

The inheritance and nature of Albinism, involucre shape, and chlorophyll deficiency in lettuce. (Abstract). 21923

Effect of cytokinins on apple shoot development from axillary buds. 21953

Transmission and morphological studies of diseased H victoriae. 22002

The morphological and biological effects of various antisera on avian infectious bronchitis virus. 22052

Role of trace elements in the growth and morphology of five ascosporic Aspergillus species. 22201

Concerning the influence of various light colors and the different population densities on the lifespan and egg production of the carrot fly, Psila rosea Fabr. 22310

Studies on the biology of Athalia proxima Klug (Tenthredinidae; Hymenoptera). 22449

The situation of the African swine fever virus in viral systematics. 22687

Investigations on an avian adenovirus. 22699

Pathogenesis of coliform mastitis in cattle. II. A comparison of morphological findings in coliform mastitis in cattle and in the experimentally induced arthus phenomenon in the mammary glands of rabbits. 22707

Pathology of pneumonia in intensively-reared calves. 22731

Two morphologically different types of lymphocytes in cattle. 22737

Hard to kill pests of fruit trees--Mealy bugs. 22850

Phytoseiidae (Acarina: Mesostigmata) in the New Jersey apple orchard environment with descriptions of spermathecae and three new species. 22918

Morphological study of the virus of the spindle disease of Coleoptera. 23062

Cytogenetics. Reduced fertility in SD males and its bearing on Segregation Distortion in Drosophila melanogaster. 23079

Microbiological studies of two Nocardia strains. 23309

MORTALITY

Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae). 13782

Effect of post-treatment temperature on toxicity of insecticides to resistant and susceptible house flies. 13784

Further studies of effects of antibiotics and other compounds on fecundity and mortality of the two-spotted spider mite. 13801

Mutilation and survival of sterile oriental fruit flies and melon flies emerging in drop boxes. 13802

Toxicity of five carbamate insecticides to the two-spotted spider mite and larvae of the southern armyworm and tobacco budworm. 13862

Increased susceptibility to bacterial endotoxin of pigs with iron-deficiency anemia. 13965

Ecological studies on the resting stage of the pink bollworm in Egypt (Lepidoptera:Gelechiidae). 14099

The ecology of cold hardiness in different populations of the black currant gall mite, Cecidophyopsis ribis. 14124

Winter survival and overwintering area of the potato leafhopper. 14181

A cytoplasmic polyhedrosis of the cabbage looper, Trichoplusia ni. 14279

Studies on the garden symphylan, Scutigerella immaculata (Symphyla: Scutigerellidae). 14284

Effects of drying on the viabilty of germinated spores of Botrytis cinerea, Cercospora musae, and Monilinia fructicola. 14372

The survival in soil of Itersonilia pastinacae Channon, the cause of parsnip canker. 14412

Listeric myelitis in sheep. 14510

Influence of a penicillin-streptomycin preparation on lamb mortality. 14517

Determination of nematode mortality. 15255

The development of a chicken embryo lethal strain of avian encephalomyelitis virus. 15413

Influence of pre-storage treatments on the mortality of the San Jose scale (Homoptera: Diaspididae) on apples held in storage. 15532

Mortality of the San Jose scale (Homoptera: Diaspididae) on stored apples of different varieties and harvest dates. 15533

Effect of a synthetic juvenile hormone on adult cabbage aphids and their progeny. 15828

The susceptibility of nematodes to subfreezing temperatures. (Abstract). 15999

Effects of vitamin A deficiency and ked resistance on the feeding of Dermacentor andersoni on sheep. 16094

Mortality of boll weevils in squares of genotypically different lines of cotton. 16267

Temperature effect on mortality of confused flour beetles, treated with CO2 or Nz before fumigation. 16276

Ecology of insect populations in theory and practice. QL496.C55. 16283

Mortality of nasal bots in sheep treated with systemic insecticides. 16330

The effects of cadmium compounds on reproduction and growth of the stable fly, Stomoxys calcitrans (Linnaeus). 16410

Effects of ionizing radiation on the European chafer, the plum curculio, and the large milkweed bug. 16422

The effect of temperature upon the development of the heartand-dart moth (Agrotis exclamationis L.). 16431

Some physiological effects of sublethal doses of DDT on flour beetles. 16462

Survival and development of several grasshopper species on extracts of selected plant species. 16465

Response and recovery on X-irradiated Tribolium confusum larvae. 16482

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions. 16485

Diseases of pitted-fruit trees, in 1966. 16621

Fall death rates of drone honey bees. 16640

Survival of root-infecting fungi in soil. VI. Effect of amendments on bean root rot caused by Thielaviopsis basicola and on inoculum density of the causal organism. 16653

The impact of tuliptree scale feeding on its host, yellowpoplar. 16704

Pathologic effects of Escherichia coli 083:K:NM in gnotobiotic pigs. 16753

Comments on control and management of respiratory diseases in beef cattle. 16775

Comments on managment of respiratory diseases of dairy cattle. 16777

Comments on combination vaccines for bovine respiratory diseases. 16793

Comments on complications that arise after vaccination against bovine respiratory diseases. 16835

Experiments on simultaneous infections of the common cockchafer, Melolontha melolontha. 16985

A comparison of the toxicity of some varieties of Bacillus thuringiensis Berliner for silkworm larvae. 17070

Sexual differential in time of hatch of eggs of the gypsy moth. 17154

Diapause in gypsy moth. 17155

The differing effectiveness of purified and nonpurified suspensions of the nuclear-polyhedrosis virus of Porthetria dispar. 17159

Carbamate cross resistance in a carbaryl-resistant strain of the German cockroach. 17162

Mosquito control agents derived from petroleum hydrocarbons. II. Laboratory evaluation of a new petroleum derivative, FLIT MLO. 17164

Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease. 17182

Mermithid parasites of the mosquito Aedes vexans Meigen in British Columbia. 17214

Population models for the winter moth. 17216

Present status of biological control of the pear psylla in southern Oregon. 17218

Establishment of a nursery for evaluation of resistance of strains of wheat to the wheat stem sawfly. 17398

Comparison of infections with Leucocytozoon simondi in black ducks (Anas rubripes), mallards (Anas platyrhynchos) and white Pekins (Anas bochas). 17519

Susceptibility of chicks with genetic muscular dystrophy to gout induced by high protein diets. (Abstract). 17562

Congenital goitre in Merino sheep due to an inherited defect in the biosynthesis of thyroid hormone. 17568

Selenium deficiency in chicks and its effect on the requirement for vitamin E. (Abstract). 17578

Protective effect of chlorpromazine on parathion and paraoxon toxicity in mice. (Abstract). 17667

Some stochastic models for microorganism death kinetics. 17718

Activation of malathion by the locust bodywall. 17777
Preliminary evaluation of a granulosis virus for control of the codling moth. 17822
Effect of the chemosterilant metepa on the housefly, Musca domestica L. 17848
Premature death of adult rusted wheat plants in relation to carbon dioxide evolution by root systems. 17964
Additional information on the pathogenicity of Scleroderris lagerbergii. 18065
Bacterial canker of tomato; inoculum level needed for infection. 18071
Attack of the black turpentine beetle on roots of slash pines. 18118
Anthocoris melanocerus as a predator of the green peach aphid on sugar beets and broccoli. 18121
Mortality staging of dominant lethals induced in the F1 generation of sugarcane borer; Diatraea saccharalis (F.). 18127
Treatment for poisoning by slug bait. 18187
Characterization studies on feline panleucopenia virus. (with). II. Pathogenesis in the host. 18233
An enzootic of pseudorabies in swine in California. 18257
Duck plague. 18263
Increased incidence of avian leukosis in response to excess vitamin A. 18280
Acute infectious bovine rhinotracheitis and salmonellosis in a dairy herd. 18344
Pyrrolizidine alkaloid poisoning in calves. 18412
Food ecology of aphidophagous insects. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18676
Importance of intraspecific competition in aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18696
Factors affecting growth and survival of the mycoparasite Darluca filum. (Abstract). 18779
Effect of temperature, crop, and depth of burial on the survival of Typhula idahoensis sclerotia. 18846
Survival of tobacco mosaic virus in space. 18900
Further observation on the time requirement for hypersensitive cell death of potatoes infected by phytophthora infestans and its relation to metabolic activity. 18961
Further studies of effects of antibiotics and other compounds on fecundity and mortality of the two-spotted spider mite. 19025
Effect of continuous feeding of aflatoxin to chickens. 19169
Experimental herpes virus infection in young puppies. 19211
Swine toxicosis associated with fumigated grain. 19252
The fitness of single-species populations of Drosophila. 19551
The mortality of honey bees by means of an unknown agent. 19604
Study of a Diprion pini population in the Fontainebleau forest (Hym. Diprionidae). II. establishing a mortality table. 19612
Factors affecting the winter mortality in the southern green stink bug, Nezara viridula L. 19647
Role of relative humidity in the survival of airborne Mycoplasma pneumoniae. 20016
Influence of temperature and moisture on the survival of cocoons, and on adult emergence of Bucculatrix canadensisella. 20309
New insecticides that show residual toxicity to adults of Anopheles quadrimaculatus. 20342
Studies on the increment of the efficacy of insecticides. (VII). On the effect of synergized on various strains of house flies. 20353
DDT-RESISTANCE in two strains of Culex pipiens pipiens Linnaeus from New Jersey. 20355
Tests (1966) with black fly larvicides. 20440
Effect of management system on the growth of lambs and development of internal parasitism. II. Field trials involving medication with national formulary and purified grades of phenothiazine. 20599
The effect of altering metabolic rate on the mortality and incubation time of rabies. 20701
Oncolytic capacity in vivo of the Newcastle virus with respect to the Yoshida peritoneal sarcoma. 20718
Natural dissecting aneurysm (aortic rupture) and blood pressure in the turkey. 20728
Blindness in chicks associated with Salmonella typhimurium infection. 20729
Progress report: Duck plague surveillance of American anseriformes. 20730
Transmission of rinderpest from goats to cattle in Tanzania. 20736
An outbreak of mucosal disease in Kenya. 20776
Effects of temperature on the development of the dog heartworm, Dirofilaria immitis, in Aedes solicitans. 20804
A survey of diseases found in dogs in Kenya. 20827
Studies on the efficiency of collecting and counting Anopheles gambiae in verandah-trap huts. 20954
X-radiation of Oncomelania formosana, snail host of Schistosoma japonicum. Effect on reproductivity and mortality. 20987
Genetics of natural populations. xl. Heterotic and deleterious effects of recessive lethals in populations of Drosophila pseudoobscura. 21039
Synthetic lethality and semi-lethality among functionally related mutants of Drosophila melanogaster. 21040
Morphological changes in a parasitic nematode due to acquired resistance of the host. 21190
Heritable resistance to warfarin in rats. 21234
The response of commercial egg production stocks to experimental infection with Eimeria tenella and its relation to field mortality. 21323
Duck plague in American anseriformes. 21371
Teratogenic response by hamsters, rats and mice to aflatoxin b1. 21514
Carcinogenicity of the herbicide maleic hydrazide. 21515
Cockroach insecticides. How repellent are they. 21589
Mortality due to Bacillus thuringiensis in postlarval stages of some Lepidoptera. 21650
Significance of the time factor in the irradiation of imago insects (experiments on granary weevils). 21667
Ecological studies of certain natural mortality factors of the sugarcane borer, Diatraea saccharalis (Fabricius) in Louisiana. 21714
Protection against Pseudomonas aeruginosa infection by immunisation with fractions of culture filtrates of Ps. aeruginosa. 21784
In vivo production of a toxin(s) by Listeria monocytogenes. 22113
Nerve gas: Dugway accident linked to Utah sheep kill. 22195
Calculating the grade of effectiveness of a microbiological control action against insect pests. 22395
Toxicity of selected insecticides against adult striped horse flies in laboratory tests. 22472
Effect of lysogenicity on the virulence of Bacillus anthracis. 22741
Infectivity of Anaplasma marginale in bovine blood after prolonged freezing. 22778
Survival of infective larvae of the cattle nematodes, Cooperia punctata, Trichostrongylus axei, and Oesophagostomum radiatum. 22782
Behavior of irradiated boll weevils. II. Reproduction and mortality in cages with untreated boll weevils. 22934
Behavior of irradiated boll weevils. I. Feeding, attraction, mating, and mortality. 22938
Daily susceptibility of house flies to malathion. 22975
A biological assay technique for the assessment and comparison of systemic insecticide residues. 22978
Defense reactions of Malacosoma neustria against tachinid larvae with simultaneous occurrence of a nuclear polyhedrosis. (1) (2). 23000
Effect of temperature on infection of the garden symphylan by Entomophthora coronata. 23053
Experiences with the use of the phosphorus-hydrogen preparation Phostoxin in Yugoslavia. 23193
The effect of Gramoxone (N,N-dimethyl-p,p-dipyridilium salt) on the various developmental stages of B. glabrata. 23241
Tissue residue and oral safety of furazolidone in four species of trout. 23249
Isobornyl thiocyanoacetate as a fish drugging agent and selective toxin. 23251
Occurrence, types and therapy of cattle limb diseases. 23273
Thrombocytopenic purpura of pigs. 23330

MORUS
Allotropa in the Samarkand region. 19039

MOSAIC
Broad-bean stain and true broad-bean mosaic viruses. 21123
The isolation and identification of rhubarb viruses occurring in Britain. 21164
Transmission of tobacco mosaic virus in grape seeds. 21855
Identification of two serotypes in squash mosaic virus strains. 21878
Effect of maize dwarf mosaic virus infection on respiration and photosynthesis of corn. 21942
Comparisons of chloroplasts and photosynthetic rates of plants infected and not infected by maize dwarf mosaic virus. 21943
Studies on the infection of cucumber mosaic virus, III. Time of the infection after inoculation with whole virus or with viral nucleic acid. 22498
Further studies on mosaic disease of maize (Zea mays L.). 22512
Chenopodium amaranticolor nutrition affects cucumber mosaic virus infection. 23128

MOSAIC (ALFALFA)
Alfalfa mosaic virus transmitted through alfalfa seed. 15055
First report on plant virus diseases in Lebanon, Jordan, and Syria. 17323
Enhancement of infectivity by combination of two ribonucleic acid components from alfalfa mosaic virus. 20579
Alfalfa mosaic virus: Comparative investigation of top component a and bottom component by means of fingerprinting and immunological techniques. 20903

MOSAIC (APPLES)
Transmission of apple mosaic and stem-pitting viruses through root grafts. 15126
Apple proliferation, mosaic and certain latent viruses as manifested on apple test plants. 18963
Virus diseases of deciduous fruit trees: Apple mosaic. 21898

MOSAIC (ARABIS)
Strains of Prunus,necrotic ringspot virus in hop (Humulus lupulus L.). 21103

MOSAIC (BEANS)
Seed transmission of bean mosaic viruses. 15130
The role of seed transmission in the epidemiology of bean mosaics in central Washington. 15163
A difference in the translocability of two viruses in bean plants. 15170
A comparison of species of Aphididae with species of three other aphid families regarding virus transmission and probe behavior. 16700
Stimulation of tobacco mosaic virus-induced lesions on bean by fluoride. 17352
Inhibition of the transmission by aphids of some plant viruses by oil pulverization. 17355

MOSAIC (BEETS)
In vitro increase in virus infectivity. 18994

MOSAIC (BROADBEANS)
An outbreak of broadbean diseases in Iran. 15091

MOSAIC (BROMUS)
Particle structure and concentration of bromegrass mosaic virus in thin sections of barley (Mordeum vulgare L.). 20560
RNA synthesis in cell-free extracts of barley leaves in fected with bromegrass mosaic virus. 20564
Serological studies on bromegrass mosaic virus and its protein fragments. 20582
Serological studies on bromegrass mosaic virus and its protein fragments. 21945

MOSAIC (CAULIFLOWER)
DNA in cauliflower mosaic virus. 18938

MOSAIC (CHENOPODIUM)
The identity of a seed-borne mosaic virus of Chenopodium amaranticolor and C. quinoa. 23125

MOSAIC (CORN)
Effect of insecticidal sprays on stunt and mosaic virus diseases of corn in small field plots in Mississippi. 14403
Further studies on mosaic disease of maize (Zea mays L.). 14410
An ultrastructural comparison of maize dwarf mosaic virusand sugarcane mosaic virus-infected leaf cells of Zea mays. (Abstract). 15893
Preliminary studies on the identity of a mosaic virus from corn in Ohio. (Abstract). 15969
The effects of maize dwarf mosaic virus on macro- and microelement accumulation in corn tissue of resistant and susceptible hybrids. (Abstract). 16631
Two genetic systems control disease reaction to strains A and B of maize dwarf mosaic virus. (Abstract). 16695
Effects of maize dwarf mosaic on grain sorghum performance. (Abstract). 17349
Maize dwarf mosaic virus ratings of corn hybrids and inbreds tested in Arkansas in 1968. 23121

MOSAIC (COWPEAS)
Peroxidase isozymes in virus-infected tobacco and cowpea. (Abstract). 20554
Studies on the relationship of cowpea mosaic virus and its vector Aphis craccivora Koch. 20607
Delayed acquisition of virus infectivity. (Abstract). 23173

MOSAIC (CUCUMBERS)
Impatiens parviflora DC.- a natural host of cabbage black ringspot and cucumber mosaic viruses. 14404
Effects of temperature and light on plant susceptibility to cucumber mosaic virus by aphid transmission. 15194
Metabolite changes induced by cucumber mosaic virus in resistant and susceptible strains of cowpea. 15217
Effect of chloramphenicol on the concentrations of free amino acids and amides in healthy and cucumber mosaic virus (CMV-Y) infected plants. 15655
Studies on the necrotic fleck disease of Easter lily, Lilium longiflorum. 17283
First report on plant virus diseases in Lebanon, Jordan, and Syria. 17323
Some properties of a cucumber mosaic virus strain isolated from Prunus spp. 17351
In vitro increase in virus infectivity. 18994
Tobacco leaf veins as sources of a cucumber mosaic virus for aphids. 20519
Properties of a plant virus-induced RNA polymerase in cucumbers infected with cucumber mosaic virus. 20534
Serological behavior of cucumber mosaic virus (strain Y) and the virus protein. 20563
Tobacco leaf veins in sources of a cucumber mosaic virus for aphids. 21832
Serological behavior of cucumber mosaic virus (strain Y) and the virus protein. 21928
New directions in virus control in vegetable and potato cultivation. 22231
Impatiens parviflora DC.--A natural host of cabbage black ringspot and cucumber mosaic viruses. 22508

MOSAIC (EGGPLANT)
Occurence of a mosaic disease on brinjal. 14418
A new mosaic disease of brinjal (Solanum melongena L.). 18116

MOSAIC (LETTUCE)
Effect of MCPA on lettuce pre-inoculated with lettuce mosaic virus. 18075
Aphid sampling efficiency of Moericke traps affected by height and background. 19064
Evaluation of lettuce varieties and breeding lines for resistance to common lettuce mosaic. 21154
Chenopodium test for the demonstration of the presence of the lettuce mosaic virus 1 in seeds. 21980

MOSAIC (PEANUTS)
Reactions of groundnut varieties to the groundnut viruses. 21132

MOSAIC (PEAS)
The relationship between bean yellow mosaic virus and pea mosaic virus. 18958

MOSAIC (RADISHES)
Transmission of radish mosaic virus. 15024
Radish mosaic viruses. 15084

MOSAIC (SAFFLOWER)
Inheritance of reactions in safflower to lettuce mosaic virus. 15892

MOSAIC (SUGAR BEETS)
Inclusion bodies associated with sugar beet mosaic. 15056
In vitro increase in virus infectivity. il. 15221
Inhibition of the transmission by aphids of some plant viruses by oil pulverization. 17355
Delayed acquisition of virus infectivity. (Abstract). 23173

MOSAIC (SUGARCANE)
Soil transmission of sugarcane mosaic virus in sorghum. (Abstract). 14345

A new strain of sugarcane mosaic virus.
14994

Mosaic susceptibility of sugarcane seedlings as determined by mechanical inoculation and natural infection.
15036

Studies on a strain of sugarcane mosaic virus causing severe mosaic disease on Co. 527 cane at Nellikuppam.
15944

Relationship between free amino acids and symptom expression in corn infected with maize dwarf mosaic virus or sugarcane mosaic virus. (Abstract).
17982

Ultrastructure of Zea mays leaf cells infected with Johnson grass strain of sugarcane mosaic virus. (Abstract).
17986

The relationship between sugar-cane mosaic virus and mosaic viruses of maize and johnson grass in Australia.
20572

Chemical, physical and biological properties of four strains of sugarcane mosaic virus.
21828

MOSAIC (TOBACCO)

Subtle effects of freezing on the sensitivity of tobacco mosaic virus to alkaline degradation. (Abstract).
14361

Studies on a new defective strain of tobacco mosaic virus. (Abstract).
14379

Electron microscopy of double-stranded RNA induced by turnip yellow mosaic virus and tobacco mosaic virus.
14421

Accumulation of fluorescent compounds in tobacco associated with tobacco mosaic virus hypersensitivity.
15072

Intracellular labeling of TMV antigen with ferritin-antibody conjugate.
15177

Uridine-H3 incorporation in tobacco infected by tobacco mosaic virus.
15190

Transmission of tobacco mosaic virus in tomato seed.
15198

Failure to confirm the synthesis of TMV in a cell-free system.
15208

Temperature sensitive mutations in the tobacco mosaic virus. I. In vivo actibity. II. In vitro activity.
15885

Immunoradioautographic evidence for the synthesis of TMV antigen in the nucleus. (Abstract).
15895

Time after inoculation as a factor in the aphid transmissibility of strains of cucumber mosaic virus. (Abstract).
15923

Studies on the removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. (Abstract).
15945

Changes in virulence of tobacco mosaic virus after passage through a susceptible or a semiresistant tomato. (Abstract).
15974

Effect of tobacco mosaic virus infection on glucose metabolism in Nicotiana tabacum var. Samsun. i. Investigations with 14C-labeled sugars.
16543

Competitive inhibition by foreign nucleic acid and induced interference by yeast-RNA with the infection of tobacco mosaic virus.
16581

Susceptibility and hypersensitivity to tobacco mosaic virus in wild species of potatoes.
16603

Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus.
16607

Relationships between Tetranychus urticae Koch and some plant viruses.
16651

Concerning the evidence of tobacco mosaic virus in grape vines.
17279

Movement of tobacco mosaic virus within Nicotiana glutinosa plant grafted with tobacco.
17300

Studies on the chemotherapy for plant virus diseases. XII. Methods of applying antiviral chemicals against infected plants.
17301

Isolation of polyribosome from tobacco plants infected with tobacco mosaic virus.
17308

Inhibition of tobacco mosaic virus infection by coumarin.
17320

First report on plant virus diseases in Lebanon, Jordan, and Syria.
17323

Evidence for multiplicity reactivation of ultraviolet light irradiated ribonucleic acid isolated from tobacco mosaic virus.
17347

Biochemical examination of strains of tobacco mosaic virus mutants.
17362

The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus.
17366

A technique for the determination of the action level of inhibitors.
17536

Local lesion development in Turkish tobacco leaves heated after inoculation with tobacco mosaic virus. (Abstract).
17983

Investigations of the mechanism of the necrotic response of Nicotiana tabacum L. var. Samsun NN to infection with tobacco mosaic virus.
17985

High-temperature-induced insoluble coat protein in tobacco mosaic virus (TMV) -infected plants. (Abstract).
17993

An investigation of the tobacco mosaic virus multiplication process and its effect on the metabolism of the host.
17998

Studies on the effects of Hg(II) and sucrose on the mechanical transmission of tobacco mosaic virus ribonucleic acid to pinto bean (Phaseolus vulgaris L.).
18011

Cytokinin effect of benzyladenine: Increase of nucleic acid and protein synthesis in bean leaves.
18048

Cytomorphological features ofTMV-INFECTED tobacco callus cells in tissue culture.
18063

Location of unique sequences in tobacco mosaic virus ribonucleic acid.
18457

Tobacco mosaic virus-induced resistance to Pseudomonas tabaci in tobacco.
18871

Survival of tobacco mosaic virus in space.
18900

Antigenic study of the protein from a defective strain of tobacco mosaic virus.
18914

Formation of large necrotic lesions by sublethal physical and chemical treatments of Pinto bean primary leaves infected with tobacco mosaic virus (TMV). (Abstract).
18990

The purification of insoluble coat proteins from defective mutants of tobacco mosaic virus (TMV). (Abstract).
18996

Virus particles in chlordplasts of plants infected with the U5 strain of Tobacco Mosaic Virus.
19073

Production of plant virus antiserum in a horse.
19150

Peculiarities of an isolated clone originating from a thermophilic root of the tobacco mosaic virus.
19836

Contribution to the study of the hypersensitivity phenomenon to the tobacco mosaic virus.
19837

Disease development in cultured cells of Nicotiana tabacum L. var. Samsun NN injected with tobacco mosaic virus.
19844

Reason for the low content of tobacco mosaic virus in tobacco tissue cultures.
19853

The serological relationship between tobacco mosaic virus and cucumber viruses 3 and 4.
20517

Multiplication of tobacco mosaic virus in suspension culture of tobacco cells.
20552

Peroxidase isozymes in virus-infected tobacco and cowpea. (Abstract).
20554

Freezing and thawing of the suspension to purify the infectious tobacco mosaic virus.
21100

Further study of the latent strain of the tobacco mosaic virus.
21140

Amino acid sequence of a common Japanese strain of tobacco mosaic virus.
21145

Transmission of tobacco mosaic virus in grape seeds.
21855

Tobacco mosaic virus strains in greenhouse tomatoes.
21868

Studies on some strains of tobacco mosaic virus in orchids. I. Biological, chemical, and serological studies.
21871

Susceptibility to tobacco mosaic virus in relation to RNA and protein synthesis in tobacco and bean plants.
21876

Trabeculae in the grapevine infected with leafroll virus.
23129

Increased resistance to tobacco mosaic virus in gamma irradiated tobacco leaves.
23135

MOSAIC (TOMATOES)

Changes in virulence of tobacco mosaic virus after passage through a susceptible or a semiresistant tomato. (Abstract).
15974

The adaptation of tomato mosaic virus to resistant tomato plants.
21113

MOSAIC (TULIPA)

Susceptibility of Darwin hybrid tulips to tulip breaking virus.
17364

MOSAIC (TURNIPS)

A virus disease of rhubarb in British Columbia.
16681

Effects of ultrasonic treatment on turnip mosaic virus and potato virus X.
16688

A virus disease of rhubarb in British Columbia.
23208

MOSAIC (VERBASCUM)

The mosaic disease of mullein, Verbascum thapsiforme Schrader, occuring in Czechoslovakia.
14405

MOSAIC (WATERMELONS)

Studies on the host range of watermelon mosaic virus in Hawaii. 15200

Watermelon mosaic virus: Tubular inclusions in pumpkin leaves and aggregates in leaf extracts. 16658

Identification of strains of watermelon mosaic virus by serology and other characteristics. (Abstract). 18037

Aluminum foil and white polyethylene mulches to repel aphids and control watermelon mosaic. 18083

Local lesion reactions of Chenopodium species to watemelon mosaic virus 2. 18818

Aggregated filaments in extracts from Lupinus infected with watermelon mosaic virus. 18913

Identification of two serotypes in squash mosaic virus strains. 21878

MOSAIC (WHEAT)

Some factors affecting vector transmission of soil-borne wheat mosaic virus from root washings and soil debris. 15867

Serological detection of wheat striate mosaic virus in extracts of wheat plants and vector leafhoppers. 16677

In vitro polymerization of winter wheat mosaic virus antigen. 18767

Purification and antigenicity of wheat streak mosaic virus. 18789

MOSAIC (WHITE CLOVER)

Changes in the heterologous reactions of antisera against members of the potato virus X group during the immune response. 18856

MOSQUITO IRIDESCENT VIRUS

Louisiana lab takes intensive look at parasites for mosquito control. 14170

Laboratory studies with the mosquito iridescent virus (MIV). 17224

MOTHPROOFING

Mothproofing investigations with barthrin and dimethrin. 14165

MOTHS

The distribution, life history, and economic importance of the winter moth, Operophtera brumata (L.) (Lepidoptera, Geometridae) in Nova Scotia. 14811

Effects of hormones and injury on RNA synthesis in saturniid moths. 14861

Food-plant spectrum and elimination of disease of cinnabar moth larvae, Hypocrita jacobaeae (L.) (Olepidoptera: Arctiidae). 15276

The labial gland: a salt-secreting organ of saturniid moths. 16405

A brief review of the principles of light trap design with a description of an efficient trap for collecting noctuid moths. 16979

Rearing stored product insects for laboratory studies: Six species of moths. 17887

Moths unrecorded from Shikoku. 18550

A local survey of the distribution of industrial melanic forms in the moth Biston betularia and estimates of the selective values of these in an industrial environment. 18594

Larvae of the grey chimoth, antitype (Polia) chi (L.) (Lep., Caradrinidae), feeding on leaves of onion (Allium cepa). 18644

Circadian oscillation controlling hatching: Its ontogeny during embryogenesis of a moth. 18645

Migration records, 1965. 19397

Eggs of moths among the Ethmiidae, Acrolophidae and Hepialidae--Microlepidoptera. 19468

Melanism in Connecticut Charadra deridens (Guenee) (Lepidoptera: Noctuidae). 19779

The systematical placement of some Gelechiidae. (Lepidoptera). 20258

Guide lines for the testing of spray compounds and automatic sprays against clothes moths. 20845

Warning sounds of moths. 21673

The abdominal scent organ male hawk moths. Supplements to the knowledge of hawk moths (III) (Lep. Sphingidae). 22418

MOTION PICTURES

Mechanism of locust jumping. 17793

MOTTLE (COWPEAS)

Purification, serology, and properties of a new cowpea virus. 15103

MOTTLE (STRAWBERRIES)

Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts. 19021

MOTTLE (TOBACCO)

Certain effects of benzimidazole on young tobacco plants. 17256

MOUTH

Structure of the labellar chemoreceptors of the house fly, Musca domestica vicina (L.) (Diptera: Muscidae). 14119

The structure of the head capsule and mouthparts of Culicoides schultze; (Ender) (Diptera: Chironomidae). 15799

Blood concentration of chloramphenicol in horses after intramuscular or oral administration. 17477

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: serologic and intradermal tests. 17546

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of dehydrogenase activities. 17547

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: histochemical localization of hydrolase activities. 17548

Efficiency of oral and intravaginal estrous synchronization in ewes. (Abstract). 20742

Experimental paratuberculosis in sheep after oral, intratracheal; or intravenous inoculation: Histochemical localization of dehydrogenase activities. 21394

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities. 21395

Experimental paratuherculosis in sheep after oral, intratracheal, or intravenous inoculations Serologic and intradermal tests. 21396

Osteodystrophic diseases of sheep. III. Dental mal-occlusion in young sheep. 21404

MOUTH PARTS

Types of feeding and structure of mandibles in different life forms of grasshopers. 16371

Comparative studies of the labellar sensitivity of female tabanids (Diptera) to sucrose and sodium chloride. 16413

Structure and formation of coaptations of the maxillary stylets of Rhodnius prolixus. (Heter. Reduviidae). 16439

Rhipicephalus sanguineus: Mouth parts. SF991.K6. 17148

Mouthparts of the biting and blood-sucking type in Tanyderidae and Chironomidae (Diptera). 18601

Feeding mechanism of Haematopinus suis on the transilluminated mouse ear. 20023

The use of the mouthparts of Orthoptera during feeding. 20343

Contribution to the development of the anterior head and the mouth region of Periplaneta americana. 21730

The morphological and functional evolution of the mouthparts in adult Lepidoptera. 22419

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 14, no. 46. Trichoptera: Head, imagos. 22959

On the morphology and the bionomics of the insects of economic importance II--HEAD appendages in Alphitobius diaperinus (Panz.) (Tenebrionidae--Coleoptera). 23037

Feeding apparatus in the scorpion, Heterometrus fulvipes. 23064

MOWING

Effect of clipping frequency on root rot of red clover. (Abstract). 20568

Saffron thistle control in cereals. 23225

MOZZARELLA CHEESE

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Drugs. Gentamicin. Miscellaneous amendments. 16118

MUCINS

Incidence and types of canine rectal carcinomas. 20779

MUCK SOILS

Control of Verticillium wilt of peppermint by soil fumigation in muck soil. 15065

Persistence of two systemic carbamate insecticides in three types of soils. 15541

MUCORACEAE

Value of a plant growth retardant for isolating soil fungi. 16920

MUCOSAL DISEASE

Comments on complications following vaccination of cattle against bovine respiratory diseases. 16754

Comments on complications following vaccination against bovine respiratory diseases. 16779

Comments on vaccination for bovine viral diarrhea-mucosal disease. 16785

Comments on bovine viral diarrhea-mucosal disease. 16791

Comments on bovine respiratory infections in northeastern dairy cattle. 16796

Comments on clinical signs of respiratory diseases in feedlot cattle. 16812

Bovine respiratory infections. 16816

Complications following vaccination of cattle against infectious bovine rhinotracheitis, bovine viral diarrhea-mucosal disease, and parainfluenza type 3. 16841

Comments on bovine viral diarrhea-mucosal disease. 16851

Duck plague. 18263

An outbreak of mucosal disease in Kenya. 20776

Comparative fluorescence-immunological and cytopathological studies with various virus strains of the mucosal disease of cattle. 21366

Cytopathologic changes of lymphatic tissues of cattle with the bovine virus diarrhea-mucosal disease complex. 21412

Comparative fluorescence-immunological and cytopathological studies with various virus strains of the mucosal disease of cattle. 22676

Cytopathologic changes of lymphatic tissues of cattle with the bovine virus diarrhea-mucosal disease complex. 22703

MUCOUS MEMBRANE

Electron-microscopic findings in the lingual mucosa of healthy and foot-and-mouth diseased cattle. 22742

MUELLERIUS CAPILLARIS

Pneumonia of sheep in Kenya. I. Bacterial and parasitic pneumonia. 16855

MULCHES

Aluminum foil and white polyethylene mulches to repel aphids and control watermelon mosaic. 18083

The effects of petroleum mulch and herbicides on lettuce. 22554

Incorporation of herbicides in mulches. 22584

MULCHING

Effects of mulching and nitrogen on corn borer susceptibility in corn. 15248

MULES

Shift to chemical weed control hastens change from mules to tractors. 15278

MUNG BEANS

Permeability changes in Phaseolus aureus associated with infection by Rhizoctonia solani. 16620

MURAMIDASE

Lysozyme-like action of enzymes from the cockroach Periplaneta americana and from some other sources. 14934

Electron microscopy of immune disruption of leptospires: Action of complement and lysozyme. 17483

Results concerning humoral immunity of Pyrrhocoris apterus l. and Galleria mellonella F. 17842

Immunoreactions of insects. I. Lysozyme as a fundamental antibacterial factor in humoral protective mechanisms of insects. 23014

MURGANTIA

European corn borer survey finds counts generally lower. 14436

MUSA PARADISICA

Obseruations on Odioporus longicollis (Coleoptera, Curculionidae) in Kathmandu Valley and its suburbs. 14955

MUSCA

Variety of soybean insects are active in several states. 15232

MUSCA AUTUMNALIS

The insect inhabitants of undisturbed cattle droppings in northern California. 13742

Some relationships of face fly feeding, ovarian development, and incidence on dairy cattle. 14233

The synchronization of the life cycle of diapausing face flies, Musca autumnalis, and of the nematode, Heterotylenchus autumnalis. 14265

Nematode parasite (Heterotylenchus sp.) of face fly in New York State. 14266

Observations on Heterotylenchus autumnalis in relation to the face fly. 14276

Preliminary evaluation of heliotrine as a sterility agent for face fly. 14293

The face fly, Musca autumnalss (Der Geer), in Manitora. 14583

Results of experimental studies on the development of preinvasive stages of worms of the genus Thelazia Bosc., 1819 (Spirurata: nematoda), parasitic in the eye of cattle. 16101

Heterotylenchus autumnalis Nickle (1967)--a parasite of pasture flies. 16346

A systematic insecticide for control of the face fly, Musca autumnalis. 16865

Properties of an acetylcholinesterase from the face fly, Musca autumnalis. 17082

Oviposition behavior of the face fly in caged cow manure pats. 17128

A device for obtaining flies of known age. 17166

Distribution of the nematode Heterotylenchus autumnalis, a parasite of the face fly, in New England with notes on its origin. 17207

Further studies on the effect of bovine diet on face fly development. 17766

Laboratory propagation of Muscidifurax raptor on face fly pupae. 17794

Gonadotrophic cycles in the face fly, Musca autumnalis. 19669

Spraying cattle by air. 20022

The face fly, a livestock pest. 21410

The face fly, Musca Autumnalis... A new livestock fly is now moving toward California. 21456

Oviposition and development of the face fly in feces of six species of animals. 22940

Field experiments with attractants for the face fly. 22967

MUSCA CONDUCENS

The pre-infective larval stages of Stephanofilaria assamensis, the causative parasite of humpsore of Indian cattle. 14604

MUSCA DOMESTICA

Causes of resistance to DOT in a diazinon-selected and a DDT-SELECTED strain of house flies. 13783

Effect of post-treatment temperature on toxicity of insecticides to resistant and susceptible house flies. 13784

Conjugation of 1-naphthol and p-nitrophenol in flies: formation of glucoside-6-phosphates. 13805

Laboratory procedures. in: Principles of insect chemosterilization, G. C. LaBrecque and C. N. Smith, ed. S959.L3. 13819

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera). 13844

A gross analysis of two DDT-RESISTANT house fly strains. 13869

Two types of sesamex-suppressible resistance in the housefly. 13871

Field test to determine the effectiveness of coumaphos as a feed additive to control house fly larva under caged layers. 13980

The susceptibility of house flys reared under various photoperiods to insecticide residues. 13992

Structure of the labellar chemoreceptors of the house fly, Musca domestica vicina (L.) (Diptera: Muscidae). 14119

The response of the labellar taste receptors of DDT-RESISTANT and non-resistant houseflies (Musca domestica) to DDT. 14163

The effect of gas velocity on the absorption of fumigant nicotine by Musca domestica (L.). 14186

House-fly adenosinetriphosphatases and their inhibition by insecticidal organotin compounds. 14243

Entomologists exchange '59 research results. 14329

Selective synergism of carbamate insecticides on houseflies by aryloxyalkylamines. 14759

Chemosterilant properties, cytotoxicity, and mammalian toxicity of apholate and other P-N ring chemicals. 14766

Laboratory tests with sixty-five compounds as repellents against houseflies. 14847

The effectiveness of commercial formulations of Bacillus thuringiensis Berliner on house-fly larvae. 14864

A photoperiodic effect on the daily susceptibility of the house fly to trichlorfon. 14877

Gametogenesis in the house fly, Musca domestica. 14879

Inhibition of housefly acetylcholinesterase by carbamates. 14891

An investigation of the housefly heartbeat through transection experiments. 14893

Sterol storage and reporduction in the house fly. 14922

The fate of dietary H3-beta-sitosterol in the adult house fly. 14923

Effect on adult emergence of whole and partial X-irradiation of pupae of the housefly, Musca domestica nebulo.
14926

The effect of apholate and thiotepa on nucleic acid synthesis and nucleotide ratios in housefly eggs.
14930

Studies on fine-particle, coarse-particle, and concentrated aerosols.
14948

Notes: Effect of certain carcinogenic 2-fluorenamine derivatives on larvae of the house fly, Musca domestica Linnaeus.
14952

A bioassay technique for determining the insecticidal activity of preparations containing Bacillus thuringiensis Berliner.
14960

Exposure of house flies and oriental rat fleas on a highaltitude balloon flight.
14962

The effectiveness of liquefied-gas-propelled concentrated allethrin aerosols and air-atomized dibrom aerosols against normal and resistant house flies.
14984

Feed additives for control of house fly larvae in livestock feces.
15503

Pick-up of insecticide through different pairs of house fly tarsi.
15806

House flies. In: Smith,C.N.Insect colonization and mass production. QL497.S6.
15812

Sterility in house flies offered a choice of untreated diets and diets treated with chemosterilants.
16297

Inhibition by 5-fluoroorotic acid of the ovarian development of house flies, Musca domestica.
16322

Dispersal patterns and populations of the house fly affected by sanitation and weather in rural Maryland.
16331

Immunochemical analysis of the origin of a sex-specific accumulated blood protein in female houseflies.
16364

Embryology of the house fly, Musca domestica (Diptera: Muscidae), to the blastoderm stage.
16477

Resistance levels in diazinon-pressured and non-pressured polyresistant house flies.
16493

Parathion resistance in house fly populations in the Savannah, Georgia, area.
16495

Control of larvae of the house fly and the horn fly in manure of insecticide-fed cattle.
16866

Insecticides in dry sugar baits against two strains of house flies.
17072

Mode of action of organic thiocyanates as insecticides and carbamate synergists.
17073

Insect oxidases and detoxication of carbamate insecticides.
17103

Resistance patterns and fecundity of house flies (Musca domestica L.) selected with diazinon, dimetilan, and combinations of the two insecticides.
17105

The protein components of a latent phenoloxidase system in the prepupae of housefly.
17110

Micro-potentiometric pH determinations of muscoid maggot digestive tracts.
17117

Effect of commercial proteins on house fly reproduction.
17170

Uptake and persistence of metepa and hempa in the house fly.
17171

Genetics of insect vectors of disease. RA639.W7.
17246

The distribution of houseflies in a simulated dining room after knockdown by aerosols containing pyrethrins and aerosols containing D. D. V. P.
17705

Organothiocyanates as insecticides and carbamate synergists.
17785

Selective recovery of volatile products from house flies treated with radioactive insecticide chemicals and synergists.
17796

Metabolism of C14-labeled hemel in male house flies.
17798

Effect of the chemosterilant metepa on the housefly, Musca domestica L.
17848

Mechanisms of inhibition and uncoupling of oxidative phosphorylation in housefly mitochondria.
17899

The development of the external male genitalia of the housefly, Musca domestica linn.
19337

Isolation and characterization of ribonucleic acid from musca domestica (L.).
19548

Dipterous eggs as food for adult Coccinellidae (Coleoptera: Coccinellidae).
19611

Quantitative aspects of the synergism between carbaryl and some 1,3-benzodioxole (methylenedioxyphenyl) compounds in houseflies.
19626

Anticholinesterase action of some organophosphorus insecticides on the central nervous system of Musca domestica.
19701

Residual sprays for the control of house flies, Musca domestica, in dairy barns.
20074

Patterns of cross resistance to organophosphates and carbamates in Musca domestica.
20172

Oostatic hormone production in houseflies, Musca domestica, with developing ovaries.
20293

Evaluation of chemosterilant damage to the testes of the housefly, Musca domestica, by microscopic observation and by measurement of the uptake of 14C-compounds.
20323

Studies on the increment of the efficacy of insecticides. (VII). On the effect of synergized on various strains of house flies.
20353

On the effect of the vapor phase of some insecticides on common house flies (Musca domestica L.).
20417

Propynyl naphthyl ethers as selective carbamate synergists.
20421

The effect of protein sources and of the frequency of egg collection on egg production by the housefly (Musca domestica L.).
20426

The biological method and integrated control of house and stable flies in California.
20947

Acrylamide gel electrophoresis of housefly esterases.
20989

A trial for the integrated (chemical and biological) control of Musca domestica L. in the Lipari Islands- preliminary note.
21023

Genetics of insect vectors of disease. RA639.W7.
21047

Effect of carbon monoxide on metabolism of insecticides in vivo.
21519

The organization of the sarcoplasmic reticulum and T system in the femoral muscle of the housefly, Musca domestica.
21721

On the existence of cells with vacuoles in the brain of Musca domestica L.
21725

Egg production of house-fly adults fed human blood containing various supplements.
22384

Induction of resistance to Bacillus thuringiensis in a laboratory strain of house flies.
22471

Stabilization of aqueous solutions of the insect chemosterilant m-Xylohydroquinone (m-XHQ) by vitamin C.
22752

Daily susceptibility of house flies to malathion.
22975

Development of an autosterilization technique for the house fly.
22976

The anatomy of the nervous system of the third instar larva of Musca domestica nebulo Fabr. (Diptera--Cyclorrhapha-Muscidae).
23026

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants.
23031

MUSCA DOMESTICA NEBULO

Toxicity of bacterial spores to fly and mosquito larvae.
22439

MUSCARINE

Mushroom poisoning.
23405

MUSCI

Studies on the moss mites of Snowdonia (Acari: Oribatei). I. Moel Hebog.
13749

The leaching of auxin from air layers.
21771

MUSCIDAE

Notes on some Australasian Muscidae (Diptera) described by J. Macquart.
16332

Influence of photoperiod and temperature on diapause in the face fly, Musca autumnalis (Diptera: Muscidae).
16340

Heterotylenchus autumnalis Nickle (1967)--a parasite of pasture flies.
16346

The effect of temperature and moisture on the development of Fannia canicularis (L.) and Fannia femoralis (Stein) (Diptera: Muscidae).
17095

On morphology of larvae of the III instar in synanthropic species of flies from the genus Hydrotaea R.D. (Diptera, Muscidae).
17758

Some Muscidae (Diptera) from the Philippine Islands and the Bismarck Archipelago. I. The genus Myiophaca Enderlein.
18552

Notes on the Muscidae of New Guinea (Diptera). IV. Species described by Stein from 1910 to 1920.
20248

On the effect of the vapor phase of some insecticides on common house flies (Musca domestica L.).
20417

Synanthropic Diptera of the genera Dasyphora R. D. and Morellia R. D. (Diptera,Muscidae) in Soviet Central Asia.
22157

MUSCIDIFURAX RAPTOR

Laboratory propagation of Muscidifurax raptor on face fly pupae. 17794

MUSCLES

Toxic myopathy in Texas cattle. 16033

Inhibition by acetylcholine of malpighian tubule muscle of the cockroach Periplaneta americana. 16450

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia. 16464

Oscillatory mechanism in fibrillar insect flight muscle. 17195

Blood concentration of chloramphenicol in horses after intramuscular or oral administration. 17477

Penicillin concentration in canine blood and urine after intramuscular injection. 17571

Mechanism of locust jumping. 17793

Mechanical and electrical activity in the indirect flight muscles of the honey bee. 17820

Permeability and excitation of insect muscle. 17896

Myoglobin in control and dystrophic chickens. 18250

The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles. 18638

The pterothoracic musculature of Deropeltis erythrocephala, a cockroach with a wingless female, and the origin of wing movements in insects. 19603

Fine structure of Dirofilaria immitis body-wall musculature. 20043

The head of Pseudomenopon pilosum (Scopoli) (MallophagaAmblycera). 20352

On the head morphology of twisted-winged insects (Strepsiptera, Insecta). 20366

The development of the thoracil musculature of Periplaneta after disconnection of individual nerves. Preliminary report. 20406

The cephalic and prothoracic skeletomusculature and nervous system in Lethocerus (Heteroptera, Belostomatidae). 20412

An investigation of the content of selenium and phosphorus in winter feeding of lambs, compared with the outbreak of nutritional muscular degeneration in the spring. 20710

The location of the parasites in muscle Cysticercosis. 20785

Co-ordinated neuromuscular activity in insect spiracles at sub-zero temperatures. 20984

The fine structure and mechanism of breakdown of larval intersegmental muscles in the blowfly Calliphora erythrocephala. 20990

Mechanical properties of the flight muscle of the bee, I resting elasticity and its ultrastructural interpretation. 20994

Influence of aldosterone on PSE pork muscle. (Abstract). 21282

The fine structure of the gastric caeca of Aedes aegypti larvae. 21687

How flies fly. 21709

The organization of the sarcoplasmic reticulum and T system in the femoral muscle of the housefly, Musca domestica. 21721

Cross-bridges and periods in insect flight muscle. 21726

ATP-DRIVEN oscillation of glycerol-extracted insect fibrillar muscle: Mechano-chemical coupling. 21732

Ultrastructure of moth alary muscles and their attachment to the heart wall. 21733

Insect neuromuscular mechanisms. 21748

Carbon tetrachloride injections for liver fluke control. 22170

The distribution pattern of indirect flight muscle fibres in Aedes aegypti (L.) (Diptera: Culicidae). 22354

Occurrence of giant muscle fibers in the flight muscle of Pantala flavescens (F.) (Libellulidae: Odonata). 22355

An investigation of Factor S, a neuromuscular excitatory substance from insects and crustacea. 22374

Evidence for the appearance of calcium in muscle fibers by the chlorating action of potassium and the toxin of scorpion venom (Androctonus australis). 22459

The effect of colchicine on myogenesis in vivo in Rana pipiens and Rhodnius prolixus (Hemiptera). 22466

A stable phosphorus compound in the body-wall muscle of Ascaris lumbricoides. 22764

The location of the parasites in muscle cysticercosis. 22776

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 14, no. 47. Diptera: Head, larvae. 22958

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 14, no. 46. Trichoptera: Head, imagos. 22959

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 16, no. 50. Coleoptera: Abdomen and genitalia of the male. 22961

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 17, no. 51. Orthoptera: head. 22962

Musculature, nervous system and glands of pregenital abdominal segments of the female of Nomia melanderi Ckll. (Hymenoptera, Apoidea). 23073

Acute degeneration and necrosis of longissimus muscle in pigs. 23262

MUSCOIDEA

Micro-potentiometric pH determinations of muscoid maggot digestive tracts. 17117

MUSCOVY DUCKS

Case report: Salmonella pullorum in a Muscovy (Cairina moschata) duck. 16019

MUSCULAR DYSTROPHY

Factors affecting the development of nutritional muscular dystrophy in northern Ontario. 13958

A suspected case of muscular dystrophy in a horse. 16749

Nucleoside phosphorylase and xanthine dehydrogenase in dedevelopment of normal and dystrophic chickens. (Abstract). 17485

The roles of vitamin E, selenium, and methionine in dietary liver necrosis and nutritional muscular dystrophy in the pig. 17549

Susceptibility of chicks with genetic muscular dystrophy to gout induced by high protein diets. (Abstract). 17562

Effects of selenium and vitamin E on nutritional muscular dystrophy in lambs. 18242

Myoglobin in control and dystrophic chickens. 18250

Abnormalities in the electrocardiograms of young sheep and lambs grazing natural pastures low in selenium. 19179

MUSHROOMS

Insecticidal control of paedogenetic cecid larvae in mushroom beds. I. incorporation of insecticides into coonpost. II. incorporation of insecticides in the casing layer. 15241

Bionomics and control of Tarsonemus myceliophagus (Acarina: Tarsonemidae) in mushroom composts. 15979

Mode of action of organic thiocyanates as insecticides and carbamate synergists. 17073

Control of nematodes in horticultural crops in Great Britain. 17260

Effects of aerated steam and selected fumigant treatment of casing soil on mushroom production and microbial populations of the soil. (Abstract). 18991

Pygmephorus species (Acarina: Pyemotidae) associated with cultivated mushrooms. 20204

Some effects of cultural treatments on virus diseases of cultivated mushroom, Agaricus bisporus. 21135

Some effects of the nematodes Ditylenchus myceliophagus and Aphelenchoides composticola on the yield of the cultivated mushroom. 21205

The effects of Aphelenchoides saprophilus, A. coffeae, Aphelenchus avenae and Panagrolaimus sp. on the cropping of cultivated mushroom. 22549

Mushroom poisoning. 23405

MUSKMELONS

The effect of inoculum potential on the response of muskmelon varieties to Fusarium oxysporum f. sp. melonis. (Abstract). 14363

Effect of soil sterilization and soil type on apparent susceptibility of two muskmelon varieties to Fusarium oxysporum f. sp. melonis. (Abstract). 17976

The tolerance of imported commodities to fumigation with methyl bromide. 18112

Aggregated filaments in extracts from Lupinus infected with watermelon mosaic virus. 18913

MUSKRATS

The distribution of the musk rat and its control in Bavaria. 22032

Modifications of the American muskrat's (Ondatra zibethica L.) parasitic fauna due to acclimatization. 23374

MUSTARD
The army cutworm as a pest of mustard. 14440

MUTAGENS
The mutagenicity in Drosophila Melanogaster of caffeine and of other compounds which produce chromosome breakage in human cells in culture. 15837
On the multiplication of Dunaliella bioculata in the prescence of the gaseous phase of cigarette smoke and on obtaining mutations in the presence of acrolein. 17694
Caffeine-induced mutagenesis in Drosophila. 18700

MUTATION
Complementation in dikaryons and diploids. (Abstract). 14355
Antibiotic resistance and mutation rates of mycoplasma. 15353
Temperature sensitive mutations in the tobacco mosaic virus. I. In vivo actibity. II. In vitro activity. 15885
Avirulence of a methionine-sensitive leucine mutant of Penicillium expansum in Jonathan apple. (Abstract). 16545
A genetic study of leaf rust resistance in wheat. 16623
Hereditary change of an eye color mutant induced by DNA in Ephestia. 16742
The developmental genetics of the eyeless-dominant mutation in Drosophila melanogaster (Meig.). 17227
Temperature-sensitive mutations in Drosophila melanogaster. II. Frequency among second chromosome recessive lethals induced by ethyl methanesulfonate. 17228
The inheritance of fertility in Drosophila melanogaster. 17230
Rates of spontaneous mutation in certain genes of an Arrhenotokous mite, Tetranychus pacificus. 17234
Physiological genetics of melanotic tumors in Drosophila melanogaster . V. Amino acid metabolism and tumor formation in the tu bw; st su-tu strain. 17902
Gamma-ray-induced mutations in Drosophila melanogaster oocytes: The phenomenon of dose rate. 17904
Tetraploid females in the hymenopteron, Mormoniella. 17906
Developmental characteristics of five lethal mutants of Drosophila melanogaster. 17908
Induced resistance to bacterial wilt in susceptible tobacco cuttings pretreated with avirulent mutants of Pseudomonas. (Abstract). 18029
Phenol oxidases of a lozenge mutant of Drosophilia. 18653
Caffeine-induced mutagenesis in Drosophila. 18700
The inheritance of a pearl-eyed mutation of Trogoderma granarium Everts (Col., Dermestidae). 18704
The purification of insoluble coat proteins from defective mutants of tobacco mosaic virus (TMV). (Abstract). 18996
Cellular degeneration in wing development of the mutant vestigial of Drosophila melanogaster. 19773
Histidine and aromatic permeases of Salmonella typhimurim. 19942
Radiation-sensitive and radiation-resistant mutants of Haemophilus influenzae. 19945
Cabbage aphid: Effect of isolation on form and on endocrine activity. 20443
Gene activity dependent on chromosome synapsis in the polytene chromosomes of Drosophila melanogaster. 20448
A mutant gene maintained at high frequency in spite of complete selection against the homozygote. 20457
Cell affinities in antennal homoeotic mutants of Drosophila melanogaster. 20461
A possible model for speciation by cytoplasmic isolation in the Culex pipiens complex. 20466
The effect of temperature and genetic background on the phenotypic expression of several vestigial strains of drosophila melanogaster. 20471
The effects of chemicals on the phenotypic expression of a vestigial mutant in Drosophila melanogaster. 20472
Mutation in Thanatephorus cucumeris. 20531
Conditional lethal mutants of rabbitpox virus. III. Temperature-sensitive (ts) mutants; physiological properties, complementation and recombination. 20762
Possible use of translocations to fix desirable genes in insect pest populations. 21038
Synthetic lethality and semi-lethality among functionally related mutants of Drosophila melanogaster. 21040
Cytoplasmic inclusion body in the epidermal cells of normal and transparent silkworm larvae. 21044
Heritable repression due to paramutation in maize. 22036
Studies on the terminal respiratory systems in the minute (2)z mutant of Drosophila melanogaster. 22475
The evolution of resistance in hosts and pests. 22497

MUTATIONS
Induced polygenic mutations in hexaploid wheats. 15621
Auxotrophic mutants of Phytophthora species. (Abstract). 18432
Phenotypic restoration of fertility in a male-sterile mutant by treatment with gibberellic acid. 21002

MYCELIUM
Immunofluorescent staining as a means of identifying mycelium of rhizoctonia solani on slides used in soil ecological studies. (Abstract). 18877

MYCELIUM RADICIS ATROVIRENS
Effect of an Aphelenchoides species on the growth of a mycorrhizal and a pseudomycorrhizal fungus. 16000

MYCETOMA
Mycetoma in a dog. 18221

MYCETOMES
Investigations on the developmental physiology of the embryonic mycetom of Euscelis plebejus F. (Homoptera, Cicadina). I. Isolation and abnormal combinations of detailed components of the symbiontic systems. 19717

MYCETOPHILIDAE
Mycetophilidae and Sciaridae from Spitsbergen, collected by Dr. J. Kaisila in 1965. 22928

MYCOBACTERIUM
Immunogenicity of cell walls from various Mycobacteria against airborne tuberculosis in mice. 17493
The possibility of producing tuberculin sensitivity by feeding poultry litter. 20688
A diagnostic antigen for nocardiosis: Comparative tests in cattle with nocardiosis and mycobacteriosis. 20766

MYCOBACTERIUM AVIUM
Studies on the antigenic structure of mycobacteria. II. antigenic structure and lipid fractions of Mycobacterium avium and avium-like strains. 13971
Passive haemagglutination test in ducks and fowls artificially infected with Mycobacterium avium. 19978
Mycobacterium avium infection in cattle: A case series. 20691
Mycobacterium avium infection in cattle: A case series. 22066

MYCOBACTERIUM BOVIS
Bovine tuberculosis eradication in Wisconsin. 13962
Immunologic response of rabbits to Mycobacterium bovis; chemical, electrophoretic and antigenic analyses of bacillary extracts. 16766
Antigenic, chemical, chromatographic, and electrophoretic analyses of unheated culture filtrates of Mycobacterium bovis. 16767

MYCOBACTERIUM JOHNEI
Detection of antibodies to Mycobacterium johnei by immunofluorescence. 21346

MYCOBACTERIUM PARATUBERCULOSIS
The effect of management on the incidence of clinical Johne's disease. 14529
Comparison of examination and test methods for early detection of paratuberculosis cattle. 21393
Uterine infection in bovine paratuberculosis. 22677
Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of hydrolase activities. 22696
Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Serologic and intradermal tests. 22697
Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Histochemical localization of dehydrogenase activities. 22698

MYCOBACTERIUM TUBERCULOSIS
Inhibition of multiplication of foot and mouth disease virus in adult mice pretreated with Freund's complete adjuvant. 19180

Pulmonary tuberculosis in a squirrel monkey (Saimiri sciureus). 19968

Potentiation by silica of the growth of Mycobacterium tuberculosis in macrophage cultures. 22044

Isolation of the group-specific polysaccharide of Mycobacterium tuberculosis. 22130

Specificity of the anamnestic response produced by Listeria monocytogenes or Mycobacterium tuberculosis to challenge with Listeria monocytogenes. 22644

MYCOLEPTODISCUS TERRESTRIS

Effect of container characteristics on variability of soil temperatures and disease reaction in the greenhouse. (Abstract). 20556

MYCOLOGY

The occurrence and decline of downy mildew on lima beans in the Middle Atlantic states. 15215

Mechanisms of variations in Verticillium albo-atrum. 15618

Prevention of photodynamic killing of fungal cells by carotenoids. 15620

Pectin trans-eliminase and polygalacturonase production by Rhizoctonia solani and other fungi. 15645

Formation of the basidial stage of some isolates of Rhizoctonia. 15648

Mycotic abortion in ewes produced by Aspergillus fumigatus: pathologic changes. 18184

Fungi in stored products. 18377

A latin diagnosis of new species and varieties described in volume 5 of The prodrome of a mycological flora of Madagascar. 20494

Six powdery mildews from Jammu and Kashmir state. 21912

Utilization of carbon compounds by Fusarium solani f. aurantifoliae Bhat. and Prasad. 22494

MYCOMYIINI

A synopsis of American Mycomyiini with descriptions of new species (Diptera: Mycetophilidae). 22858

MYCOPLASMA

Role of mycoplasma in bovine respiratory infection. 16786

A growth medium for mycoplasmas and its modification for longer survival of M. mycoides in culture. 16946

Influence of dust and ammonia on the development of air sac lesions in turkeys. 17484

Pneumonia due to Mycoplasma in gnotobiotic mice. Iii Lesions in the lungs of gnotobiotic mice after multiple intranasal inoculations of broth cultures of Mycoplasma pneumoniae. 17558

Mycoplasmas: their role in bovine disease. 18264

Basic biological characteristics of mycoplasma. 18277

Technics for the isolation of Mycoplasma from cattle. 19152

Immunochemical analysis of serologically active lipids of Mycoplasma pneumoniae. 19946

A modification of the growth-inhibition test and its use for detecting Mycoplasma mycoides var. mycoides. 19958

Mycoplasma taxonomy studied by electrophoresis of cell proteins. 19998

Unexpected serotypes of mycoplasmas isolated from pigs. 20007

Role of relative humidity in the survival of airborne Mycoplasma pneumoniae. 20016

Lysis of the limiting membrane of Mycoplasma gallisepticum by chemical agents. 20017

Growth inhibition of Mycoplasma by inhibitors of polyterpene biosynthesis and its reversal by cholesterol. 20119

Mycoplasma: suspected etiologic agent of corn stunt. 20535

Sanitation in poultry husbandry. 20666

Isolation of mycoplasma from calf lungs. 21330

The isolation and comparative biological and physical characteristics of T-mycoplasmas of cattle. 21443

Current activities--Lasswade. 22039

Immunodiffusion reactions between human sera and Mycoplasma pneumoniae. 22072

Experimental transmission of bovine mycoplasma in calves and turkeys. 22663

Effect of toxin in bovine mycoplasmal mastitis. 22700

Cultivation of mycoplasmas from pig lungs. 23287

Investigation of the growth properties of mycoplasmas in bouillon medium. 23333

MYCOPLASMA AGALACTIAE

Pathology a-d immunofluorescence studies of bovine mycoplasma mastitis. 18267

MYCOPLASMA GALLISEPTICUM

The effect of the use of antibacterial drugs, particularly as food additives, on the emergence of drug-resistant strains of bacteria in animals. 15467

Notice of filing of petition for food additive spectinomycin dihydrochloride pentahydrate. 16018

Mycoplasma gallisepticum infection and boiler weight. 16820

Preliminary investigation of methods for evaluating inactivated vaccines for infectious bronchitis virus. 16821

Serological tests for the detection of antibodies to Mycoplasma gallisepticum in chickens and turkeys. 18266

A medium for the isolation of avian mycoplasmas. 20649

Serological survey on infectious respiratory diseases of poultry in Okinawa. 20737

Mechanism of egg transmission of Mycoplasma gallisepticum. 21421

Inactivated culture vaccine against Mycoplasma gallisepticum infection in chickens. 21452

Use of formalinized Mycoplasma gallisepticum antigens and chicken erythrocytes in hemagglutination and hemagglutination-inhibition studies. 21766

Effect of dextrose in medium for the preparation of Mycoplasma gallisepticum plate antigens. 22233

Immunologic response of fowl to Mycoplasma gallisepticum and its relationship to latent infection. 22710

Non-specific antibodies in chickens inoculated intratracheally with Mycoplasma gallisepticum. 23301

MYCOPLASMA GALLISEPTICUM ANTIGENS

Experiences concerning the preparation and application of mycoplasma antigen. 22119

MYCOPLASMA HYORHINIS

Serological response of pigs to infection with Mycoplasma. Demonstration of growth and metabolism-inhibiting antibodies in sera of pigs inoculated intranasally with Mycoplasma hyorhinis. II. 22661

MYCOPLASMA MELEAGRIDIS

Influence of dust and ammonia on the development of air sac lesions in turkeys. 17484

Mycoplasma meleagridis ('N' strain mycoplasma - PPLO): Relationship of air sac lesions and isolations in day old turkeys (Meleagridis Gallopavo). 18211

A medium for the isolation of avian mycoplasmas. 20649

MYCOPLASMA MYCOIDES

The glycerolipids of Mycoplasma mycoides. 15439

Contagious bovine pleuropneumonia and the problems associated with its control. 18276

Application of a fluorescent-antibody technique for the detection of Mycoplasma mycoides antigen and antibody. 19989

Contagious bovine pleuropneumonia: Development of a satisfactory and safe vaccine . 20715

Preliminary studies on living culture and inactivated vaccines against contagious bovine pleuropneumonia. 20783

MYCOPLASMA SUIPNEUMONIAE

Attempts to recover Mycoplasma suipneumoniae from experimental and natural cases of enzootic pneumonia in pigs. 22088

Production of enzootic pneumonia in pigs with Mycoplasma suipneumoniae grown in embryonated hen's eggs. 22089

MYCOPLASMA SYNOVIAE

A medium for the isolation of avian mycoplasmas. 20649

MYCOPLASMOSIS

Risk of resistance to chloramphenicol. 14573

Cultivation of Mycoplasma of avian origin. 15314

Coexistence of infectious bronchitis and infectious laryngotracheitis. 15451

The isolation of T-strains of Mycoplasma from pneumonic calf lungs. 19181

MYCORRHIZA

A nematode (Meloidodera sp). on Douglas-fir mycorrhizae. 15275

Effect of an Aphelenchoides species on the growth of a mycorrhizal and a pseudomycorrhizal fungus.
16000

The effect of certain fungitoxicants on the formation of endotrophic mycorrhiza by Endogone fasciculata on corn and on root development in seedling corn.
16649

Effect of the nematode Aphelenchus avenae on some ectotrophic, mycorrhizal fungi and on a red pine mycorrhizal relationship.
16721

Investigations on the mycotrophy of the spruce-Picea excelsa (Lam.) Lk. in Poland. (TT 65-50356) Transl. 16788.
17287

Investigations of pure culture of mycorrhizal fungi of pine, Pinus silvestris L. QK608.P7P3.
17325

Effect of an Aphelenchoides species on the growth of mycorrhizal fungi. (Abstract).
17446

MYCOSIS
Observations of the spread of mycosis in mosquitoes.
16438

An epizootic of aspergillosis in Canada geese.
17544

Influence of a virus disease on the hemocytic anticryptogramic reactions in insects.
17893

Mycetoma in a dog.
18221

The clinical features of guttural pouch mycosis in the horse.
21325

MYCOSPHAERELLA
Studies on the influence of leaf washings on infection by Mycosphaerella ligulicola.
21102

Host range and variation in virulence of Mycosphaerella ligulicola.
21108

MYCOSPHAERELLA MELONIS
Examination of cucumber seed for Mycosphaerella melonis.
19160

MYCOSPHAERELLA MUSICOLA
Observations on the formation and dispersal of conidia of Mycosphaerella musicola Leach.
18859

MYCOSPHAERELLA PINODES
Epidemiology and control of Ascochyta pinodes on field peas in Canada.
19861

Studies on the survival of Mycosphaerella pinodes and Ascochyta pisi.
21116

MYCOTIC DERMATITIS
Mycotic dermatitis in sheep. I. Clinical observations in Great Britain.
14518

The transmission of Dermatophilosis (mycotic dermatitis) in sheep.
22102

MYCOTOXICOSIS
Fungi in stored products.
18377

Pharmacologic properties of a slobber-inducing mycotoxin from Rhizoctonia leguminicola.
22647

A toxic fungus (Sclerotium rolfsii) isolated from groundnuts.
22734

Mycotoxicosis in animals, its causes and remedies.
23298

On the actual problems of mycotoxicoses of farm animals in Czechoslovakia and of their prophylaxis.
23343

MYIASIS
Rearing and biology of Wohlfahrtia vigil (Diptera: Sarcophagidae).
14875

Remarkable new description of the behavior of the bot fly, Oestromyia leporina (Pallas, 1778) in Germany.
15809

MYIOPHAEA
Some Muscidae (Diptera) from the Philippine Islands and the Bismarck Archipelago. I. The genus Myiophaea Enderlein.
18552

MYMARIDAE
The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle.
16357

MYOBIIDAE
Two new species of the genus Ewingana (Acarina: Myobiidae) from Cuba.
16288

MYOCARDITIS
Eighth seminar on trypanosomiasis, abstract of papers.
16986

MYOFIBRILS
The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles.
18638

MYOGLOBIN
Myoglobin in control and dystrophic chickens.
18250

MYOPATHY
Toxic myopathy in Texas cattle.
16033

Selenium-responsive diseases of animals in New Zealand.
16746

MYOSINS
Cross-bridges and periods in insect flight muscle.
21726

MYRIOPHYLLUM
Evaluation of diquat as an aquatic herbicide applied at 2 gallons per surface acre, under Minnesota conditions.
22586

MYRIOPHYLLUM SPICATUM
Eurasian watermilfoil (Myriophyllum spicatum L.) in the Tennesee Valley.
22608

MYRMECIA GULOSA
Constituents of Dufour's gland in Myrmecia gulosa.
14872

MYRMECOPHILOUS INSECTS
A new species of myrmecophilous Coccinellidae, with notes on other Hyperaspini (Coleoptera).
14036

A culture method for myrmecophilous root aphids.
14237

MYRMELEONTIDAE
Danish Myrmeleontidae and their distribution.
14841

MYRMICA
Myrmica schencki Em. (Hym. Formicidae) in East Kent.
20190

MYRMICA AMERICANA
Comparative studies on the behaviour of three species of ants (Hymenoptera: Formicidae). i. prey finding, capture, and transport.
13765

MYRMICA RUBRA
An anatomical and histological study of the male myrmicine ant, Myrmica rubra, L. (Hymenoptera: Formicidae).
17212

Studies of caste differentiation in Myrmica rubra L. 9. Maternal environment and the caste bias of larvae.
17791

MYROTHECIUM
A new antifungal substance produced by Myrothecium.
20930

MYXOMATOSIS
Myxomayosis: The preparation of myxoma virus for inoculation via the eye.
14491

Observations and speculations concerning the flea vector of myxomatosis in Britain.
18710

MYXOVIRUS PARAINFLUENZA-3
In utero infection of bovine fetuses with Myxovirus parainfluenza-3.
21427

MYXOVIRUS YUCAIPA
Propagation and cytopathic effect of Myxovirus Yucaipa in chicken kidney cell culture.
16025

MYXOVIRUSES
Studies on the differentiation of myxovirus induced interferon and endogenous pyrogen from rabbits.
14527

Isolation of an unidentified myxovirus from chickens with a respiratory disease.
15320

The morphological characteristics of African swine fever virus and its resemblance to Tipula iridescent virus.
17482

Reaction of young adult sheep to vaccination and infection with myxovirus parainfluenza 3.
23284

MYZUS
Transmission of virus Y by instars of Myzus persicae (Homoptera: Aphidae).
14949

MYZUS CERASI
Pests and diseases threatening our cherries.
23210

MYZUS PERSICAE
The spray warning scheme for control of sugar beet yellows in England; summary of results between 1959-66.
13897

Use of chemical defoliants on peach trees in integrated program to suppress populations of green peach aphids.
13933

Effects of soil fertility on abundance of green peach aphids on Maryland tobacco.
13937

The artificial feeding of phosphamidon to Myzus persicae: i. intraspecific differences exhibited by this aphid on feeding through a parafilm membrane.
14241

Occurence of a mosaic disease on brinjal.
14418

Alate aphids trapped in potato fields in Cumberland, Westmorland and Northumberland.
15729

Time after inoculation as a factor in the aphid transmissibility of strains of cucumber mosaic virus. (Abstract).
15923

Testing of different pesticides as contact poisons against the adults of Myzus persicae Sulz (Homoptera: Aphididae).
15988

A new approach to the physiological host plant-parasite relationship. A technique in the field of applied entomology.
15989

Dietary amino acid requirements of the aphid, Myzus persicae.
16375

Mineral oil spray suppressed symptoms of virus yellows on sugar beets. (Abstract).
16563

Possible particles of beet western yellows virus in the intestines of viruliferous aphids.
16666

A virus disease of rhubarb in British Columbia.
16681

Inhibition of the transmission by aphids of some plant viruses by oil pulverization.
17355

Some observations on vectors and transmission of tobacco etch virus.
17373

Comparative aphid-transmissibility of bean yellow mosaic virus from pea and bean correlated with cytoplasmic inclusions. (Abstract).
17377

Tests with insecticides for the control of resistant Myzus persicae (Sulzer) on year-round chrysanthemums.
18095

Isolation and electron microscopy of potato leafroll virus from plants.
18102

A new mosaic disease of brinjal (Solanum melongena L.).
18116

Anthocoris melanocerus as a predator of the green peach aphid on sugar beets and broccoli.
18121

Egg distribution as a factor in suppressing the green peach aphid by pruning.
18122

Research on a new isometric virus of Atropa belladonna L. I. Symptomatology, purification, morphology, physical and chemical characteristics.
18901

Some effects of spraying with thiabendazole on the susceptibility of sugar beet to yellowing viruses and on their vector, Myzus persicae (Sulz.).
19070

Studies on the relations of insects and host plant. II. effects of water stress in host plants on the fecundity of myzus persicae (Sulz.) and Brevicoryne brassicae (L.).
19093

Aphidiid parasites of the green peach aphid, Myzus persicae (Sulzer), in Japan (Hymenoptera, Aphidiidae).
19518

Aspects of parthenogenic ovogenesis in different groups of aphids.
19687

The effect of aggregations of the green peach aphid, Myzus persicae (Sulzer), on the spatial distribution and parasitization of a hymenopterous parasite, Aphidius gifuensis Ashmead.
19721

Contact and fumigant toxicity of oils, surfactants, and insecticides to two aphid and three beetle species.
19757

Investigation of the protective effect of oils on virus transmission through plant aphids.
19884

Studies on alternate hosts of Myzus persicae (Sulz.) in Rhodesia.
20162

Difference in flight capacity between naturally occurring spring and summer forms of Myzus persicae (Sulz.) (Hemiptera: Aphididae).
20623

Insect answers; the green peach aphid.
21021

Potato leaf roll virus transmission as affected by plant locality.
21101

Russet crack; a menace to the sweetpotato industry. II. Natural transmission.
21128

The isolation and identification of rhubarb viruses occurring in Britain.
21164

Sexual reproduction of 'green peach aphid' Myzus persicae (Sulz) in Mendoza (Argentina).
21679

A list of Sinhalese aphids (Hem., Aphididae).
21688

New directions in virus control in vegetable and potato cultivation.
22231

Tagging aphids.
22319

A virus disease of rhubarb in British Columbia.
23208

NA O-PHENYLPHENATE

Polyethylene liners and fungicides for peaches and nectarines.
15526

NABAM

Action of soil fungicides. IV. changes in the spectrum of soil fungi. V. sensitivity of soil organism in vitro.
15041

Wilt disease of golf greens and its control with nabam.
15116

Tomato transit rot control trials 1965--66.
20070

NABIDAE

Kalmanius, a new genus of the subfamily Nabinae (Heteroptera: Nabidae).
22854

NABIS AMERICOFERUS

Field and laboratory studies on the ecology and morphology of Nabis americoferus Carayon and its parasites in California.
17834

NAJAS GUADALUPENSIS

Results of pre-emergent aquatic herbicides in Illinois.
22574

Control of submerged aquatic weeds in rice fields.
22604

NALED

Some factors affecting kill of the stable fly, Stomoxys calcitrans (L.), with insecticidal thermal aerosols.
13873

Evaluation of insecticides against four species of adult mosquitoes in the Panama Canal Zone, 1967.
14303

ULV aerial insecticide application for adult mosquito control in Kentucky.
14318

Ultra-low volume nonthermal aerosols of malathion and naled for adult mosquito control.
14321

What:s best for controlling stored products insects, including roaches.
14611

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2,2-dichlorovinyl dimethyl phosphate.
14667

The effectiveness of liquefied-gas-propelled concentrated allethrin aerosols and air-atomized dibrom aerosols against normal and resistant house flies.
14984

Control of mosquitoes with Dursban insecticide applied as a thermal fog.
18707

Ultra-low volume and conventional aerial sprays for control of adult salt-marsh mosquitoes, Aedes sollicitans (Walker) and Aedes taeniorhynchus (Wiedemann), in Florida.
18709

Evaluation of thermal and nonthermal fogs against four species of mosquitoes.
18714

NALORPHINE HYDROBROMIDE

Death of a dog under sedation.
20858

NANOPHYETUS SALMINCOLA

Salmon poisoning disease. IV. Transmission of the disease to dogs by Nanophyetus salmincola eggs.
14536

Transmission of salmon poisoning disease to dogs by Nanophyetus salmincola eggs.
18301

NAPHTHALENEACETIC ACID

Contribution to the question of direct influence of alphanaphthaleneacetic acid on initiation of fruit buds on apple trees.
14782

Uptake and metabolism of indoleacetic acid, naphaleneacetic acid, and 2,4-dichlorophenoxyacetic acid by pea root segments in relation to growth inhibition during and after auxin application.
16511

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. alphanaphthaleneacetic acid.
18397

The effects of plant growth regulators on growth and flowering in chrysanthemum.
21533

Foliar penetration of naphthaleneacetic acid. (Abstract).
21779

Penetration of naphthaleneacetic acid and naphthaleneacetamide through isolated pear leaf cuticle.
21793

The effect of some growth regulators on starch depletion in apple shoots.
23426

NAPHTHALENEACETIC ACID DEHYDROGENASE

Alcohol dehydrogenase from Drosophila: Interconversion of isoenzymes. (Abstract).
17137

Biochemical abberrations with ammonia intoxication. (Abstract).
21287

NAPHTHALENEACETIC ACID, ALPHA

Alpha-naphthaleneacetic acid. Proposed establishment of pesticide tolerance.
16168

NAPHTHALENEACETIC ACID, 1-

Fungal detoxication-IX. Metabolism of 1-naphthaleneacetic acid by Aspergillus niger van Tiegh.
22206

NAPHTHALOPHOS

Action of Naphthalophos and Yomesan against Ascaridia galli and Heterakis gallinarum in chickens.
14591

Notice of filing of petition for food additive naphthalophos.
16061

Efficacy of naphthalophos and coumaphos against nematodes of goats.
17543

Anthelmintic activity of two organic phosphorus compounds, coumaphos and naphthalophos, against gastrointestinal nematodes of cattle.
21466

Efficacy of naphthalophos and coumaphos against nematodes of goats.
21476

Efficacy of Naphthalophos and Coumaphos against nematodes of goats.
22694

NAPHTHOL

Conjugation of 1-naphthol and p-nitrophenol in flies: formation of glucoside-6-phosphates.
13805

Propynyl naphthyl ethers as selective carbamate synergists.
20421

NAPHTHOLS

Pesticidal N-acyl-N-lower alkyl carbamates of phenols and naphthols with decreased mannalian toxicity. Patent 3,404,208.
16913

NAPHTHOQUINONE COMPOUNDS

Naphthoquinone compounds. Patent 3,393,211.
16774

NAPHTHYLPHTHALAMIC ACID, N-1-
Herbicide combinations.
22614

NARCISSUS
Frequency of occurrence of free living nematodes in Danish nurseries, tulip, narcissus and vegetable fields, and the effect of some soil disinfestants on the nematode population in the soil of some nursery crops.
21213

NARCISSUS PSEUDONARCISSUS
Control of nematodes in horticultural crops in Great Britain.
17260

NARCOSIS
Time memory of bees under the influence of narcosis and of social pacemaking signals (Zeitgeber).
14917

NARCOTICS
Narcotic and toxic action of organic compounds on barnacle larvae.
14756

Influence of induction of hepatic microsomal enzymes by phenobarbital on toxicity of organic phosphate insecticides.
20870

NASONIA
Tetraploid females in the hymenopteron, Mormoniella.
17906

NATURAL CONTROL (INSECTS)
The insect inhabitants of undisturbed cattle droppings in northern California.
13742

Outbreaks of two-spotted spider-mites and cotton aphids following pesticide treatment. i. pest stimulation vs natural enemy destruction as the cause of outbreaks.
14155

The conservation and augmentation of natural enemies. in: FAO symposium on integrated pest control, Rome, 1965. Proceedings.
14290

Seasonal activity of mosquito predators in woodland pools in Ontario.
14316

The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae).
14454

Insecticidal and natualistic control chironomid larvae in Lake Dalwigk, Vallejo, California.
14919

A comparison of the developmental rates of one- and two-year cycle spruce budworm.
14951

Biotic factors in the control of Aedes aegypti.
15846

An observation concerning the basic question of the efficiency and worth of natural enemies of pests.
15983

The role of parasites and predators in integrated control. In: FAO symposium on integrated pest control, Rome, 1965. Proceedings.
15992

Economics of biological control.
16263

Observations over restraining the stink bug (Perillus bioculatus (Fabr.) (Pentatomidae) facing its prey Leptinotarsa decemlineata (Say) (Chrysomelidae).
16978

Some parameters in the role of enemies in the natural control of insect abundance.
16984

Biology and natural control of the white-pine weevil in Virginia.
17024

Further notes on Aypera postica (Gyllenhal) and its natural enemies.
17188

Bionomics, enemies and population dynamics of Javesella pellucida (F.) (Hom., Delphacidae).
17875

Some notes on natural enemies of Lygaeidae (Hem.).
18603

The fall webworm are infestations limited by natural control.
18620

Defense and avoidance reaction of plant lice (Apaididae) upon threat by predators and parasites.
18630

The old house borer.
18642

A review of biology on spider mites and their predators in Japan.
19672

The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae).
19915

A new concept: total insect population suppression.
20316

Cutworms and armyworms.
21983

The biology of Microphthalma europaea Egg., a tachinid parasite of the larvae of Scarabaeidae.
22991

The white-fir needle miner, Epinotia meritana, in Utah-.
23011

Studies on the Sitka spruce weevil, Pissodes sitchensis, in British Colombia.
23046

NATURAL SELECTION
A local survey of the distribution of industrial melanic forms in the moth Biston betularia and estimates of the selective values of these in an industrial environment.
18594

Natural selection and feeding speed in a blood-sucking insect.
18703

Cumulative parental age effects in Drosophila subobscura.
20481

NAUPHOETA CINEREA
Left colleterial proteins in the viviparous cockroach Nauphoeta cinerea.
16354

Response characteristics and probable behavioural roles for abdominal vibration receptors of some cockroaches.
21680

NA2,4,5-TRICHLOROPHENOXIDE
Control of diseases of shallots.
15521

NEARCTIC REGION
Revision of the tribe Chalepini of America north of Mexico. I. Genus Xenochalepus Weise. (Coleoptera: Chrysomelidae).
17010

NEBRASKA
A five-year study of potential western corn rootworm resistance to diazinon and phorate in Nebraska.
13766

Seasonal changes in daily activity periods of the sweetclover weevil.
13775

NECATOR AMERICANUS
The significance of the stay of Necator americanus larvae in the puppy lung on their further development.
18283

NECATORIASIS
The significance of the stay of Necator americanus larvae in the puppy lung on their further development.
18283

NECK ROT (ONIONS)
A further look at neck rot in onions.
21882

NECROBACILLOSIS
Calf diphtheria.
16811

NECROSIS
A possible biochemical basis for the hypersensitive reaction induced in plants by pathogenic bacteria. (Abstract).
14374

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus.
16613

Movement of tobacco mosaic virus within Nicotiana glutinosa plant grafted with tobacco.
17300

Studies on virus diseases of stone fruits. I. Peach necrotic ringspot and prune dwarf virus in Japan.
17309

The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus.
17366

The roles of vitamin E, selenium, and methionine in dietary liver necrosis and nutritional muscular dystrophy in the pig.
17549

Effects of watering frequency and saturation time on fine root necrosis of peach caused by Pythium spp. (Abstract).
17952

Investigations of the mechanism of the necrotic response of Nicotiana tabacum L. var. Samsun NN to infection with tobacco mosaic virus.
17985

Tobacco necrosis virus and its satellite virus.
18007

Host-parasite relationship in safflower resistant and susceptible to Phytophthora root rot.
18852

The influence of various rates of iron, boron, zinc, molybdenum and copper on symptoms of virus necrosis of vine.
18968

Heat-induced susceptibility of black shank-resistant tobacco to Phytophthora parasitica var. nicotianae. (Abstract).
18987

Formation of large necrotic lesions by sublethal physical and chemical treatments of Pinto bean primary leaves infected with tobacco mosaic virus (TMV). (Abstract).
18990

Studies with hinde attenuated African swine fever virus.
19167

Abnormalities in the electrocardiograms of young sheep and lambs grazing natural pastures low in selenium.
19179

Stem necrosis of grapes.
19259

Inhibition of tobacco necrosis virus by guanide carbonate.
20578

Toxicology of the herbicide dichlobenil (2,6-dichlorobenzonitrile) and its main metabolites.
20650

Pathological studies on fat necrosis (Lipomatosis) in cattle.
20717

A sodium-linked disease of ponderosa pine in Denver, Colorado.
21159

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus.
21875

Radial mosaic virus of grapevines.
21918

Virus like particles in Ficus elastica Roxb.
22513

Skin necroses in pigs caused by GR virex.
22736

The effect of darkening on the susceptibility of French bean to tobacco necrosis virus.
23133

Olpidium brassicae: Electrophoretic mobility of zoospores associated with their ability to transmit tobacco necrosis virus.
23150

Acute degeneration and necrosis of longissimus muscle in pigs.
23262

NECROSIS (GUAR)

Reaction of guar to strains of tobacco ringspot virus.
15925

NECROTIC FLECK

Studies on the necrotic fleck disease of Easter lily, Lilium longiflorum.
17283

NECROTIC RING SPOT (CHERRIES)

Spread of necrotic ringspot virus in a sour cherry orchard.
21114

Investigations concerning the serological proof of the necrotic ringspot virus of the sour cherry. III. The serological variability of the necrotic ringspot virus of the sour cherry.
21925

NECROTIC RING SPOT (PRUNUS)

Strains of Prunus,necrotic ringspot virus in hop (Humulus lupulus L.).
21103

NECTAR

Nectar of peach leaf glands as insect food.
14937

The secretion of the systemic insecticides dimethoate and phorate into nectar.
21537

NECTARINES

Polyethylene liners and fungicides for peaches and nectarines.
15526

2,6-dichloro-4-mitroaniline. Notice of extension of temporary tolerance.
16134

2,6-dichloro-4-nitroaniline. Notice of establishment of temporary tolerance.
16145

NEEDLE BLIGHT (PINUS)

Dothistroma needle blight of pines. 6. field control with timed copper sprays.
14381

Infection of needles of Pinus strobus by Lophodermium pinastri. (Abstract).
16562

Ozone damage and semimature-tissue needle blight of eastern white pine.
16925

The relationships of ozone, Lophodermium pinastri and Pullularia pullulans to needle blight of Eastern white pine.
17972

Ozone damage and semimature-tissue needle blight of eastern white pine.
21884

Histological studies of symptoms in semimature-tissue needle blight of eastern white pine.
21885

NEEDLE CAST (PINUS)

Effects of Lophodermium pinastri and Pullularia pullulans on healthy and ozone-injured needles of Pinus strobus. (Abstract).
15872

NEMASTOMATIDAE

A secretory aperture on the first segment of the chelicera in the Nemastomatidae, and its use in taxonomy (Opilionidea).
14260

NEMATOCIDES

Allyl dialkylthiolcarbamate nematocides. Patent 3,382,144.
14456

Field trials of new nematocides in 1960 for controlling root-knot nematodes.
15256

A method for assaying nematocidal activity of experimental chemicals.
15260

New nematocides.
15268

The penetration of organic-halide nematocides into Aphelenchos avenae. (Abstract).
15998

Phosphate and carbamate inhibition of three nematode esterases. (Abstract).
16004

Nematocidal activity of phorate and Disyston in woody ornamentals.
16016

Influence of various soil incorporated fungicides and nematocides on macro and micro element constituents of Zea mays and Phaseolus vulgaris.
16201

2,6-Substituted cyclohexanones as insecticides, miticides, fungicides, nematocides and herbicides. Patent 3,389,986.
16948

Bromodichloroacetanilides. Patent 3,405,176.
16952

Nematocidal 2,4-dihalophenyl esters of ethanesulfonic acid ethers and alcohols. Patent 3,401,222.
16956

N,N'-sulfonyl-bis-(carbamoylphosphonic acid esters). patent 3,401,214.
16959

Some effects of Pratylenchus brachyurus upon Spanish peanuts. (Abstract).
17417

The dynamics of the permeation of nematodes by nematodes and other chemicals.
17437

The effect of certain chemical soil treatments and methods of application in the control of Meloidogyne incognita acrita and effect of these treatments on flue-cured tobacco yield and value. (Abstract).
17444

Evaluation of nematocides for controlling reniform nematodes on sweetpotatoes.
17918

Chemical control of the stem nematode Ditylenchus dipsaci.
18137

Effect of variety and fumigation on nematode populations in oats, wheat, and rye.
18147

Cotton. Nematodes, various nematodes.
19002

Soybeans nematodes, various nematodes.
19003

Tobacco root-knot nematode, Meloidogyne incognita acrita.
19053

Fungicide-nematocide tests; results for 1967.
19077

Tobacco root-knot nematode, Meloidogyne sp.
19087

Nematology department.
19105

Contribution to the evaluation of biological activity of nematicides on cystforming plant nematodes-laboratory methods.
19110

Composition and methods for controlling insect, mite and nematode pests with O-ethyl-S-(N'-methoxy-N'-methylacetamide)-N-isopropylthiophosphoramide. Patent 3,390,047.
19324

A nematicidal trial against root knot disease of tomato.
19924

Dynamics of the permeation of nematodes by water, nematocides and other substances.
20045

Nonliving nematode vaccines. Patent 3,395,218.
21212

Soil fumigation for control of Verticillium wilt of eggplant.
23144

The feasibility of using plant pathogenic nematodes produced in monoxenic culture for nematocide screening. (Abstract).
23218

Carbamate insecticides. Where are they headed .
23402

NEMATODA

On the locomotive behavior of Panagrellus redivivus (Nematoda).
21210

NEMATODE VECTORS

Population development of Xiphinema americanum in relation to its role as a vector of tobacco ringspot virus.
17292

Vector-efficiency of Xiphinema index in the transmission of grapevine fanleaf virus.
17420

NEMATODE-TRAPPING FUNGI

Interactions of Aphelenchus avenae and some nematodetrapping fungi in dual culture.
18134

NEMATODES

The nature of Achromobacter nematophilus as an insect pathogen.
13838

Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species.
13925

A soil population study of Ditylenchus dipsaci (Kuhn) Filipjev in an alfalfa field.
13941

The ultrastructure of the alimentary tract of the skinpenetrating larva of Nippostrongylus brasiliensis (Nematoda).
13983

A comparative study of thiabendazole and phenothiazine as anthelmintics for the castrointestinal nematodes of the goat.
13984

Louisiana lab takes intensive look at parasites for mosquito control.
14170

Nematode parasites of Culicidae and Chaoboridae in Louisiana.
14171

New records of parasites of Ceratopogonidae.
14172

The synchronization of the life cycle of diapausing face flies, Musca autumnalis, and of the nematode, Heterotylenchus autumnalis.
14265

Nematode parasite (Heterotylenchus sp.) of face fly in New York State.
14266

Observations on Heterotylenchus autumnalis in relation to the face fly.
14276

Changes associated with parasitism in nematodes. II. Histochemical and microspectrophotometric analyses of preparasitic and parasitic larvae of Meloidogyne javanica.
14455

Histochemical studies of carboxylic esterase activity in Fasciola hepatica.
14592

A survey of intestinal helminths in dogs from Albuquerque New Mexico.
14593

The structure of the cleaning brush on the pedipalps of some African Amblypygi (Arachnida).
14596

Observations on the effect of nematodes on Ips confusus (LeConte) and other bark beetles.
14928

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicatans in Louisiana. (abstract).
14933

NEMATODES

Nematode parasites and associates of the smaller European elm bark beetle, Scolytus multistriatus (Marsham). 14947

Comparison of heat and quick freezing for relaxing nematodes prior to permanent mounting. 15082

Control of nematodes on blue spruce. 15263

Survey on the helminths of dromedary in Chad, with special referrence to gastro-intestinal strongylosis and haemonchosis (Haemonchus longistipes). 15514

Three gastro-intestinal nematodes recently recorded from British cattle. 15518

Survival of infective larvae of the cattle nematodes, Cooperia punctata, Trichostrongylus axei, and Oesophagostomum radiatum. 15519

Note on staining as an aid in counting vinegar eelworms in vinegar. 15534

A note on plant parasitic nematodes of the Kathmandu Valley. 15995

Resolute research to defeat grassgrub. 15996

Effects of temperature on the fecundity and hatch of the soil flatworm reared on free-living and plant-parasitic nematodes. (Abstract). 16002

Studies on the cross infectivity and pathogenicity of fifteen isolates of root-knot nematodes. 16005

Soybean cyst nematode. Regulated areas. 16006

Results of experimental studies on the development of preinvasive stages of worms of the genus Thelazia Bosc., 1819 (Spirurata: nematoda), parasitic in the eye of cattle. 16101

Heterotylenchus autumnalis Nickle (1967)--a parasite of pasture flies. 16346

Amino acids from Heterodera glycines larvae. (Abstract). 16535

Monacrosporium rutgeriensis sp. n., a nematode-trapping hyphomycete. 16561

Organ culture of Meloidogyne incognita acrita. (Abstract). 16720

Spirocerca lupi infection in two central Texas dogs. 16872

Helminthiasis in sheep. 16881

Anthelmintics for Dictyocaulus filaria in sheep. 16886

Studies on immunity of calves to Dictyocaulus viviparus reinfection. II. Relationship between the age of calves and the dose of larvae causing clinical and lethal course of dictyocaulosis. 16888

Studies on immunity of calves to Dictyocaulus viviparus reinfection. I. Immunization with single and double doses of normal or irradiated larvae. 16889

Anthelmintic evaluation of tetramisole against the swine lungworm, Metastrongylus apri. 16890

The longevity of the parasitic stages and the dynamics of egg production of the nematode Syngamus trachea (Montagu, 1811) in chicken and turkeys. 17075

Distribution of the nematode Heterotylenchus autumnalis, a parasite of the face fly, in New England with notes on its origin. 17207

Mermithid parasites of the mosquito Aedes vexans Meigen in British Columbia. 17214

Population development of Xiphinema americanum in relation to its role as a vector of tobacco ringspot virus. 17292

Field tests for control of red pine seedling diseases. 17346

Lesion nematode injury to cabbage. (Abstract). 17410

Inheritance of resistance to Heterodera avenae in barley. 17411

Variation in infection ability of cysts of Heterodera avenae. 17412

Electron microscopic observations of Catenaria sp., a nematophagous fungus. (Abstract). 17413

Assays of natural populations of certain plant-parasite nematodes as influenced by storage conditions and extraction procedures. (Abstract). 17414

Seasonal population dynamics of Belonolaimus longicaudatus, Meloidogyne incognita, Pratylenchus zeae, Trichodorus christiei and Tylenchorhynchus claytoni. (Abstract). 17415

Inoculation trail with Meloidogyne javanica on okra (Abelmoschus esculentus). 17416

Some effects of Pratylenchus brachyurus upon Spanish peanuts. (Abstract). 17417

Taxonomy life cycle and host range of Heterodera mexicana n. sp. (Nematoda Heteroderidae). 17418

Supply of oxygen during hatching of the nematode Meloidogyne javanica under non-competitive conditions. 17419

Occurrence of Heterodera glycines from the Golden Island, Giza, U. A. R. 17421

The utility of polyacrylamide-gel electrophoresis for distinguishing between species of Meloidogyne and showing taxonomic relationships. (Abstract). 17422

Thermotropic response of Pratylenchus penetrans and Ditylenchus dipsaci. (Abstract). 17424

Resistance of Cucumis species to root-knot nematode, Meloidogyne incognita acrita. (Abstract). 17425

Phytopathological consequences of changing agricutural methods. II. Cereals. 17426

On the classification and life history of Fergusobia curriei (Sphaerulariidae: Nematoda). (Abstract). 17427

Population patterns of nematodes in Lake Champlain. (Abstract). 17428

Population fluctuation of three Pratylenchus spp. on peach under Central Georgia conditions. (Abstract). 17429

Ecology and vector relationship of Longidorus macrosoma Hooper. 17430

Heterodera crucifera Franklin 1945, Brassica root eelworm in Yugoslavia. 17431

The response of a population of Heterodera rostochiensis to cropping rotations that include resistant potatoes. (Abstract). 17432

Effect of organic and inorganic nitrogen on nematode populations feeding on turf. (Abstract). 17433

Influence of soil moisture on Pratylenchus penetrans. 17434

Overwintering of Pratylenchus penetrans in a sandy loam and a clay loam soil at Ithaca, New York. 17435

Research on the oats-nematode problem. 17436

The dynamics of the permeation of nematodes by nematodes and other chemicals. 17437

Mode of reproduction of Heterodera tabacum. (Abstract). 17438

The role of calcium in resistance of alfalfa to Ditylenchus dipsaci. (Abstract). 17439

Studies on the feeding and reproduction of seven mycophagous nematodes on Rhizoctonia, Fusarium, and Verticillium. (Abstract). 17440

Migratory endoparasitic nematodes reared on carrot discs. 17441

Observations on seasonal population changes of Tylenchulus semipenetrans and the influence of temperature on egg hatch. (Abstract). 17442

The influence of systemic plant growth substances on the galls induced by the root knot nematode Meloidogyne javanica. 17443

The effect of certain chemical soil treatments and methods of application in the control of Meloidogyne incognita acrita and effect of these treatments on flue-cured tobacco yield and value. (Abstract). 17444

Effect of an Aphelenchoides species on the growth of mycorrhizal fungi. (Abstract). 17446

Development of the reproductive system in some Pratylenchus species. (Abstract). 17447

The formation of giant cells in tomato roots infected by the potato cyst nematode, Heterodera rostochiensis and the grey sterile fungus, G.S.F.. 17448

The effect of nine parasitic nematode species on growth. yield and quality of peanuts as determined by soil fumigation and correlation of nematode populations with host response. (Abstract). 17449

The influence of the stage of development of lesion nematodes on population dynamics and subsequent host response. (Abstract). 17452

Effect of some physical factors on variability within the X. americanum group. (Abstract). 17453

Quantitative evaluation of the effect of Pratylenchus penetrans on root development of seedling soybeans under defined conditions. (Abstract). 17454

Separation of eggs of Pratylenchus penetrans from plant tissue culture by sucrose gradient centrifugation. (Abstract). 17455

A survey of plant-parasitic nematodes around roots of great millet (Sorghum vulgare) from Rajasthan, India. 17456

The permeability of the cyst of the tobacco root eelworm, Heterodera tabacum. 17457

Compared tests on the resistance of various tropical types of wood to worm-attack on the coast of West Africa. (TT 8544) Transl. 16896. 17464

International dispersal of nematodes. 17466

Efficacy studies on a new processed. I. Micron refined phenothiazine against gastro-intestinal nematodes in feeder lambs. 17478

Unsuccessful attempts to transmit scrapie by nematode parasites. 17509

Efficacy of naphthalophos and coumaphos against nematodes of goats. 17543

Cruzia brasiliensis sp. n. (Nematoda-Cruziidae) parasite of Sus domesticus. 17601

Parasitic hypoalbuminaemia: Studies on type II ostertagiasis of cattle. 17603

Helminthic infestations of piglets with reference to lesions encountered. 17607

Biochemical observations of Ascaris suum lung-stage larvae. 17614

Interaction of Meloidogyne javanica and Phytophthora parasitica var nicotianae on Nicotiana tabacum (N. C. 95.' (Abstract). 18036

Effect of temperature and variety on nematode development and gall production on soybeans infected with Meloidogyne incognita acrita. (Abstract). 18131

Attempted cultivation of nematode cells. (Abstract). 18133

Interactions of Aphelenchus avenae and some nematodetrapping fungi in dual culture. 18134

Quantitative changes in organic acids in roots and leaves from grapefruit seedlings infected with Rhadopholus similis. 18138

Control of endo- and ecto-parasitic nematodes in turf by hot-water treatments. 18139

Injury to Heterodera tabacum by high soil temperatures. (Abstract). 18143

The influence of an organic soil amendment on infectivity and reproduction of Tylenchulus semipenetrans on two citrus rootstocks. 18144

Effect of variety and fumigation on nematode populations in oats, wheat, and rye. 18147

Thread worms in the rhizosphere of the normal cotton and of that infected with the verticillous cotton wilt. 18149

Factors influencing the population fluctuation of Pratylenchus penetrans in soil. III. Host plant species. 18156

Gastrointestinal parasitism in feeder calves of southern Illinois. 18279

Epizootiologic observations of canine filariasis in Georgia. 18330

Effect of desiccation on survival of the free-living stages of Trichostrongylus colubriformis. 18353

Changes in the efficacy of three anthelmintics during the maturation of a nematode (Trichinella spiralis). 18357

Dirofilaria immitis parasitic in the spinal cavity of a dog. 18362

Quantitative studies on the kinetics of establishment and expulsion of intestinal nematode populations in susceptible and immune hosts. Nippostrongylus brasiliensis in the rat. 18364

Studies on parasitic granuloma in the dog. 18365

Studies on the spring phenomenon in ovine helminthiasis. I. Spring rise in stabled sheep. 18372

Parasitic development of Obeliscoides cuniculi in rabbits. 18375

Use of fluorescent brightener as aid to studies of fungistasis and nematophagous fungi in soil. 18440

Changes associated with parasitism in nematodes. IV. Cytochemical studies on the ampulla of the dorsal esophageal gland of Meloidogyne javanica and on exudations from the buccal stylet. 18586

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicitans (Walker) in Louisiana. 18654

Parasitology of the strawberry. 18729

Potato. Verticillium wilt, Verticillium alboatrum and Verticillium dahliae. 18934

Potato. Verticillium wilt, Verticillium alboatrum and Verticillium dahliae. 18935

Cotton. Nematodes, various nematodes. 19002

Soybeans nematodes, various nematodes. 19003

Tobacco osbornes cyst nematode. (Being described by Dr. L. I. Miller). 19056

Research on pear moria; pear decline disease. Final technical report, September 11, 1962-September 10, 1967. sb608.p4r4. 19065

Plant-parasitic nematodes associated with southern hardwood and coniferous forest trees. 19069

Results of trials on the disinfection of vineyard soils in the south of France. 19097

A comparison of Pratylenchus spp. (Nematoda) population densities in grass and apple roots. 19101

Nematology department. 19105

Responses to postplanting and preplanting soil fumigation in California peach, walnut, and prune orchards. 19106

The Fusarium root rot complex of Zea mays as affected by Diabrotica longicornis, the northern corn rootworm. (Abstract). 19107

The host-parasite relations and ecology of Trichodorus viruliferus on apple roots, as observed from an underground laboratory. 19108

Enzyme localization in Lee soybeans infected with the root knot nematode, Meloidogyne incognita acrita. (Abstract). 19111

Distribution of plant-parasitic nematodes associated with forest trees of the world. aQL391.N4R8. 19130

Development and survival on pasture of gastrointestinal nematode parasites of cattle. 19220

Experimental infections of calves with Trichostrongylus axei: Observations on lethal infections. 19223

Neural and hormonal influence on the fecundity and egglaying of certain oxyurid nematodes inhabiting the hind gut of the cockroach, Periplaneta americana L.. 19678

The use of nematodes and oligochaetes for rearing predatory mites. 19724

Methods of the transmission of plant pathogenic viruses with nematodes. 19819

Sterol composition of the nematodes Ditylenchus triformis and Ditylenchus dipsaci, and host tissues. 19919

Present situation concerning the attack by the nematode, Meloidogyne coffeicola on Sao Paulas coffee culture and means for its control. 19920

Electron microscopical studies on Ditylenchus dipsaci II. Oesophagus. 19925

Immunogenic effect of ultraviolet treated larvae of Nippostrongylus brasiliensis in rats. 19975

Fine structure of the intestine of the nematodes. Ancylostoma caninum and Phocanema decipiens. 20026

Macroglobulin antibody response to Ascaris suum infection. A comparison of precipitating antibody in rats and mice. 20030

Epizootiology of Trichostrongylidae infestations of sheep in Leon. 20031

The anthelmintic activity of the optical isomers of tetramisole in sheep and cattle. 20032

Thibenzole for Syngamosis therapy. 20038

Body-fat composition of male Ascaris lumbricoides before and after starvation. 20039

Fine structure of Dirofilaria immitis body-wall musculature. 20043

Dynamics of the permeation of nematodes by water, nematocides and other substances. 20045

Transmammary passage of infective-stage nematode larvae. 20052

The Rictularia (Nematoda: Spiruridae), and oximena (Nematoda: Oxyuridae) from the intestines of foxes in Spanish provinces. 20055

Pathogens and parasites in Louisiana Culicidae and Chaoboridae. 20320

Occurrence and distribution of diseases and pests in rice and their control in Thailand. 20610

Assessment of crop losses caused by nematodes in the United states. 20632

Effects of an ultraviolet radiation on invasions of Ascaridia galli. 20813

Recovery of porcine liver from damage caused by migrating x-irradiated and nonirradiated larvae of Ascaris suum. 20814

Studies on the interrelationships between vitamin A intake and Dictyocaulus viviparus infection in calves. 20820

The process of the penetration of invasive larvae of Bundstomum phlebotomum (Railliet, 1900) into the host body. 20831

Parasitic nematodes of the alimentary tract of horses in the Lublin Palatinate. 20833

Experimental studies of the relationship between the somatic property and the physiological activity of the nematode Ascaridia galli. 20840

A comparative analysis of the localization of cholinesterase in some parasitic nematodes. I, Strongylus edentatus, S. vulgaris, Metastrongylus elongatus and Choerostrongylus pudendotectus. 20841

Predacious hyphomycetes and their application in the control of pathogenic nematodes. QK625.M74S63. 21031

On cyst colour changes, bionomics and distribution of potato cyst-eelworm (Heterodera rostochiensis Woll.) pathotypes in the East Midlands. 21071

The soybean cyst nematode threat. 21176

Morphological changes in a parasitic nematode due to acquired resistance of the host. 21190

Some effects of the nematodes Ditylenchus myceliophagus and Aphelenchoides composticola on the yield of the cultivated mushroom. 21205

A comparison of cereal root eelworm resistant and susceptible spring barley genotypes at two sites. 21206

Resistance to the potato cyst-nematode, Heterodera rostochiensis, in the plant genus Lycopersicon. 21208

Nonliving nematode vaccines. Patent 3,395,218. 21212

Frequency of occurrence of free living nematodes in Danish nurseries, tulip, narcissus and vegetable fields, and the effect of some soil disinfestants on the nematode population in the soil of some nursery crops. 21213

Nematode damage in cereals. 21214

Some ultrastructural features of the intestinal epithelium of Ascaris lumbricoides var. suum. 21229

Dr. Mayfield hog wormer. Drugs for veterinary use - drug efficacy study implementation. 21473

Efficacy of naphthalophos and coumaphos against nematodes of goats. 21476

Oral thiabendazole. Effect on immature and adult Hyostrongylus rubidus in experimentally-infected pigs. 21483

Breeding peaches for root-knot nematode resistance. 21800

Pests of cultivated plants in Finland in 1967. 21888

Virus diseases of the rose. 21958

DD-136 nematode that can kill many insect pests. 21991

Transmission and morphological studies of diseased H victoriae. 22002

Problems of nematode control in Bavarian potato cultures. 22003

Concerning the distribution of freely occurring nematodes of the genus Pratylenchus on agriculturally used areas in westphalia-Lippe. 22005

Problems of the control of the cereal cyst nematode (Heterodera avenae) in Bavaria. 22007

Purina poultry worming tablets. Drugs for veterinary use; drug efficacy study implementation. 22152

Internal parasites in sheep on the northern tablelands. 22163

Influence of different forms of management on the incidence of helminth parasitism in poultry. 22164

Some aspects of nutrition in parasites. 22171

Seasonal incidence and bionomics of some common gastrointestinal nematode larvae of sheep and goats. 22174

Process for the control of nematodes using petroleum oil and water emulsions. Patent 3,426,126. 22552

The action of calcium cyanamide on some fungus predators of nematodes. 22553

Efficacy of Naphthalophos and Coumaphos against nematodes of goats. 22694

Parasitic nematodes of birds of the order Colymbiformes in Czechoslovakia. 22757

Investigation of the helminthofauna of beasts of prey. 22779

Process of killing fungi, bacteria or nematodes. Patent 3,422,197. 22832

The interrelationships of the causal fungus of brown root rot of tomatoes and potato root eelworm, Heterodera rostochiensis Woll. 23096

Detecting seed-borne diseases. 23142

Extraction, standardization and assessment of the volatility of the sex attractants of Heterodera rostochiensis Woll. and H. schachtii Schm. 23216

Ruby...a newly-released, nematode-resistant sweet potato variety. 23217

Parasitic development of Filipjevimermis leipsandra Poinar and Welch (Mermithidae) in Diabrotica u. undecimpunctata (Chrysomelidae). 23219

Growth substances in roots of tomato (Lycopersicon esculentum Mill.) infected with root-knot nematodes (Meloidogyne spp.). 23220

Nematode orientation mechanisms. I. A method for determination. (Abstract). 23228

Studies on the suitability of the albino rat for testing anthelmintic activity against Fasciola hepatica. 23358

Immunization of laboratory animals with the soil nematode Rhabditis axei (Cobbold 1884) against subsequent invasion by Ascaris suum (Goeze 1782). 23360

Sarconema eurycerca, infection in whistling swans, Cygnus columbianus, in Chesapeake Bay. 23362

Philometra lusiana (Nematoda, Dracunculidae)--parasite of the carp. 23365

New host records of intestinal nematodes of Maryland rodents and suppression of Capillaria bonnevillei Grundmann and Frandsen, 1960 as a synonym of C. americana Read 1949. 23367

Drenching of sheep and cattle important for parasite control. 23368

Helminths of some wild mammals in the southeastern United States. 23369

Incidence and pathology of Spirocerca lupi in Kenya. 23371

Modifications of the American muskrat's (Ondatra zibethica L.) parasitic fauna due to acclimatization. 23374

The method of invasion of the metacyclic larvae of Litomosoides chrnii Chandler 1931 (Filariidae). 23376

Nitrogen nutrition of some nematode-trapping fungi. 23431

NEMATODIASIS

Nematodiasis in Louisiana dairy cattle. Impact of host nutrition upon experimental ostertagiasis in the bovine. 18212

Histopathology of resistant reactions in pea seedlings to two populations of Ditylenchus dipsaci. (Abstract). 19104

Notes on a collection of nematode parasites of livestock of Karachi. 20821

Anthelmintic activity of two organic phosphorus compounds, coumaphos and naphthalophos, against gastrointestinal nematodes of cattle. 21466

Further observations on Capillaria feliscati infections in the cat. 22175

NEMATODIRUS

Nematodirus of domestic sheep, Ovis aries, in the United States with a key to the species. 13981

Efficacy of naphthalophos and coumaphos against nematodes of goats. 17543

Bursal bosses as a diagnostic character in Nematodirus of domestic sheep, ovis aries, in the United States. 19224

NEMATODIRUS BATTUS

The action of the anthelmintic tetramisole on Nematodirus battus infection in lambs. 21470

NEMATOLOGY

A technique for isolating and maintaing cultures of Meloidogyne. 13940

Comparison of heat and quick freezing for relaxing nematodes prior to permanent mounting. 15082

Host-parasite relationships of garden balsam and some nematodes. 15265

Symposium on microenvironment and biology of soil. Invitational papers presented at the fifty-ninth annual meeting of the American Phytopathological Society, Washington, D. c., August 20-24, 1967. 18530

NEMOURIDAE

Nemouridae of Assam (Plecoptera). 14023

NEOCORYLOBIUM

A review of twelve aphid species described as new by Edith M. Patch. 21624

NEODIPRION

Candling and sighting techniques used in laser investigations of the European pine sawfly, Neodiprion sertifer (Hymenoptera: Diprionidae). 14902

NEODIPRION SERTIFER

Histological changes produced by a ruby laser in Neodiprion sertifer Geoff. 17145

Inclusions in adults of the European pine sawfly, Neodiprion sertifer (Geoff.). 17208

Variations in the photoperiodic response of Neodiprion sertifer. 17209

The European pine sawfly, Neodiprion sertifer (Geoff.) Hymenoptera: Diprionidae), a review with emphasis on studies in Ontario. 20613

European pine sawfly control with aircraft application of concentrate insecticidal sprays. 23213

NEODIPRION SWAINEI
The nature of cysts found in pupae and adults of Neodiprion swainei. 13850

NEODYSDERCUS INTERMEDIUS
Natural and synthetic materials with insect hormone activity. 3. juvenile hormone activity of derivatives of p-(1,5-dimethyl-hexyl) benzoic acid. 13849

NEOMARASMIA SUSPICALIS
Neomarasmia suspicalis Wkr a new pyralid leafroller of sugarcane in India. 13920

NEOMYCIN
Multiple drug resistance. 16965
Studies on urinary incontinence and 'wet belly' in ranch mink (Mustela vison). 17486
Passage of antibiotics through the digestive tract of normal and scouring calves and their effect upon the bacterial flora. 17552

NEOPLASMS
Pulmonary adenomatosis of sheep-metastasizing bronchiolar tumors. 15347
Neoplasms of the canine and feline urinary bladder: Clinical findings, diagnosis, and treatment. 15423
Study of chicken sarcoma (strain 13) by vent exposure. 15471
Some biochemical effects of alkylating agents. 15676
Nosema acridophagus sp n, a microsporidian isolated from grasshoppers. 15761
Clonal analysis of embryonic Chinese hamster cells transformed by Schmidt--Ruppin RSV in vitro. 16023
Avian helper cell and its role in the in vitro transfer of Rous virus (Prague strain) genome from rat tumour cells to chick cells. 16038
Viral group specific antigen in mammalian Rous tumours detected by complement--fixation and fluorescent antibody tests. 16040
Physiological genetics of melanotic tumors in Drosophila melanogaster. IV. Gene-environment interactions of tu-bw with different third chromosome backgrounds. 16498
Bone-metastasizing lung carcinoma in a cat. 16784
Requirement of young chick embryos for phenylalanine and tyrosine. (Abstract). 17487
Response of weanling rats to infection, reblockade and dietary protein. (Abstract). 17528
Cardiac lesions in the offspring of rats fed copper deficient diet with low-level multipesticide supplementation. (Abstract). 17626
Studies on selection in natural and experimental populations of Drosophila pseudoobscura. 17781
Histopathological aids to the diagnosis of certain poultry diseases. 18284
Experimental transmission of two canine neoplasms: Lymphosarcoma and mast cell leukemia. 18310
Neoplasms of the canine and feline urinary bladder: Incidence, etiologic factors, occurrence and pathologic features. 19195
Developmental production of embryonic blastema of Drosophila after culture in the adult host. 20349
Lung changes and Aelurostrongylus abstrusus infestation in English cats. 20647
Statistical studies on skin tumours in domestic animals. 20704
Pathological studies on fat necrosis (Lipomatosis) in cattle. 20717
Oncolytic capacity in vivo of the Newcastle virus with respect to the Yoshida peritoneal sarcoma. 20718
Bovine lymphatic leucosis in the Netherlands; a histopathological study. 20746
Uracil nucleotide-rich segments in the nucleic acid molecule of BAI strain A (myeloblastosis) virus and the question of their possible participation in the specific shape of the absorbance-temperature profile of high molecular weight virus nucleic acid (V-RNA) in standard citrate buffer. 20775
Carcinogenic action of groundnut meal containing aflatoxin in rats. 20868
The carcinogenicity of insecticide-sprayed tobacco in mice. (abstract). 20878
Transfer of Rous virus genome from rat tumour cells to chick cells at high temperature. 21347
Skin tumors in the dog. 21355
Immunologic properties of canine transmissible venereal sarcoma. 21415
In vivo effects of canine lymphosarcoma deoxyribonucleic acid. 21416
Hamster ascites tumor cell line BHK 21/C.13/T.6/ascite useful in submerged serum-free agar cultures to support virus growth. (Patent 3,418,210). 21425
Induction of tumours in hamsters with infectious canine hepatitis virus. 21426
The complement-fixation test for avian leukosis. 22085
Tumour metabolic inhibition of serum from partially hepatectomized rats as a specific lack of compensation mechanisms in tumour cells. 22141
Immunologic and histologic studies of a hamster adenovirus tumor and a mouse mammary tumor. 22143
Avian leukosis from the point of view of avian viral tumors. 22744
Particle counts of wound tumour virus during its peak concentration in leafhoppers. 22980
Ultracytochemical studies on aberrant structures in avian virus tumor cells. 23296
Some neoplasms of Michigan cottontail rabbits. 23310
Tumours of the endocrine glands in cattle, sheep and pigs found in a British abattoir survey. 23329

NEOPLASTIC DISEASES
Clinical and hematologic studies of lymphosarcoma in a herd of cattle. 15477
Non-specific phosphatases of normal and neoplastic rabbits endometrium. (Abstract). 17488
Effects of genetic cellular resistance on cell transformation and virus replication in chicken hematopoietic cell cultures infected with avian myeloblastosis virus (BAI-A). 18295

NEOPLECTANA
The nature of Achromobacter nematophilus as an insect pathogen. 13838

NEORICKETTSIA HELMINTHOECA
Salmon poisoning disease. IV. Transmission of the disease to dogs by Nanophyetus salmincola eggs. 14536
Transmission of salmon poisoning disease to dogs by Nanophyetus salmincola eggs. 18301

NEOTROPICAL REGION
Notes on Neotropical Tabanidae (Diptera). X. The species described by J. R. Schiner and others. 17016
Review of South American genus Belopoeus Schoenherr (Coleoptera, Curculionidae, Rhynchophorinae). 17062
Key to the Central and South American species of the subgenera Spilota of the genus Anomala including some new descriptions (Col. Scarabaeidae, Rutelinae). 20196
A revision of the Neotropical biting midges of the hylas group of Culicoides (Diptera, Ceratopogonidae). 20283
Life history of Gesta gesta invisus (Lepidoptera: Hesperiidae). 20324

NEPHELIUM LITCHI
Leaf spot diseases of Nephelium litchi Camb. 15929

NEPHOTETTIX
Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice. 22522
Leafhopper transmission of a virus disease of rice locally known as padi jantan in Krian, Malaysia. 23164

NEPHOTETTIX CINCTICEPS
Infections of leafhoppers and its tissues cultivated in vitro with Chilo iridescent virus. 15793
Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields. 15985
Susceptibility to insecticides of the green rice leafhopper, Nephotettix cincticeps Uhler, collected from various localities. 15994
The statistico-physiological consideration on the estimation of synergistic action of insecticides applied jointly. 20368
Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields. 21588
Studies on the feeding behavior of green rice leafhopper, Nephotettix cinticeps Uhler. II. Probing frequency of the adult leafhopper. 21711
Transmission of transitory yellowing virus of rice by two leafhoppers. 21965
Susceptibility to insecticides of the green rice leafhopper, Nephotettix cincticeps Uhler, collected from various localities. 22001

NEPHRITIS
The blood pressure in canine interstitial nephrites. 19153
Experimental reproduction of canine interstitial nephritis. 21311

NEPHROBLASTOMA

Studies on the transmission and pathology of a viral-induced avian nephrablastoma (embryonal ephroma).
15490

NERIIDAE

Studies on Odontoloxozus longicornis (Diptera: Neriidae.) Part I. Life history and descriptions of immature stages.
14839

NERVES

The functional significance of the nervi corporis allati 1 and nervi corporis allati 2 in Gryllodes sigillatus.
15742

The innervation of the terminal abdominal segments (VII-XI) of the desert locust, Schistocera gregaria.
16451

Oedema disease in pigs.
16758

Characterization of cardio-accelerators from nerves and tissues associated with the heart of the cockroach, Periplaneta americana Linne.
17200

Electrical activity in insect nerve cell bodies.
17846

The head of Pseudomenopon pilosum (Scopoli) (MallophagaAmblycera).
20352

On the head morphology of twisted-winged insects (Strepsiptera, Insecta).
20366

The development of the thoracil musculature of Periplaneta after disconnection of individual nerves. Preliminary report.
20406

Fibre groups in the auditory nerve of the locust.
20965

The distribution of nerves, monoamine oxidase and cholinesterase in the skin of poultry.
21362

Gamma aminobutyric acid changes in the spontaneous firing rates of insect neurons.
22451

Primary lesions in cardiac ganglia of the pig after Herpesvirus suis infection.
22628

Crystalline regions on the axon membrane surface of insect photoreceptor cells.
22983

NERVOUS SYSTEM

Morphology of the nervous system of the noctuid larvae Prodenia litura Fabr and Trichoplusia ni Hubner.
14089

A possible mechanism for the regulation of the female reproductive cycle in Tenebrio molitor (Coleoptera: Tenebrionidae).
14190

The nervous system of certain abdominal segments and the innervation of the male reproductive system and genitalia of Hyalophora cecropia. (Lepidoptera: Saturniidae).
14907

Barrier systems in insect ganglia and their implication for toxicology.
15802

A comparison of the larval and pupal nervous systems of the corn earworm, Heliothis zea (Lepidoptera: Noctuidae).
16279

Humor control of the water equilebrium in Locusta migratoria migratorioides.
16370

Segmentation and organogenesis in Limnoria lignorum (Rathke) (Isopoda).
16460

Scrapie agent in blood.
16773

Localization of nucleoli of tow pericardial nerves of Dictyoptera, Blaberidae and Blattidae.
17084

Neurophysiology of insect chemical senses.
17134

The structure of a pregenital abdominal ganglion of the desert locust Schistocerca gregaria (Forskal).
17197

Evidence for phonoreception in the lubber grasshopper Romalea microptera).
17204

Content and synthesis of gamma aminobutyric acid in the larval brain of Drosophila melanogaster.
17799

On the innervation of the prothoracic glands in Papilio demoleus L. (Lepidoptera).
17884

Permeability and excitation of insect muscle.
17896

Does the agent of scrapie replicate without nucleic acid.
18205

Histopathological aids to the diagnosis of certain poultry diseases.
18284

Electron microscopic studies of the nervous system of Trichodorus christiei (Abstract).
18447

Generalization, in various Insecta, of deutocerebrale inervation of the corpora cardiaca and neurosecretory role of the Nervi corporis cardiaci IV.
19561

The pterothoracic musculature of Deropeltis erythrocephala, a cockroach with a wingless female, and the origin of wing movements in insects.
19603

Description of the metameric neurohemal organs in the ventral nervous system of two Coleoptera: Chrysocarabus auronitens Fabr. (Carabidae) and Oryctes rhinoceros L. (Scarabaeidae).
19620

Electrophysiological action of carbamate insecticides in the central nervous system of the American cockroach.
19668

Neural and hormonal influence on the fecundity and egglaying of certain oxyurid nematodes inhabiting the hind gut of the cockroach, Periplaneta americana L..
19678

Evidence of metameric neurohemal organs associated with the ventral nervous system in Vespa crabro L. and Vespula germanica Fabr. (Hymenoptera Vespidae).
19697

Anticholinesterase action of some organophosphorus insecticides on the central nervous system of Musca domestica.
19701

Contribution to the study of the morphology of the cephalic nervous system of termites.
19708

A teratological specimen of Pycnoscelus surinamensis.
19711

Research on the neuro-endocrine control of oviposition in Carausius morosus Br. (Phasmides-Cheleutoptera).
19739

Nonautonomy in differentiation of pattern-determining genes in Drosophila. II. Transplantation of eyeless-dominant leg disks.
19788

The cephalic and prothoracic skeletomusculature and nervous system in Lethocerus (Heteroptera, Belostomatidae).
20412

Transmission in invertebrate and vertebrate ganglia.
20662

Chemical and morphological changes in the brains of copperdeficient guinea pigs.
20703

Transmission of receptor potential in dipteran chemoreceptors.
21020

Action of disinfectants on experimental mouse scrapie.
21351

Some biochemical aspects of mouse scrapie.
21364

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development.
21698

How flies fly.
21709

Virus-like particles in the spiral ganglion of the guinea pig cochlea.
22037

Nerve gas: Dugway accident linked to Utah sheep kill.
22195

Phalaris can be poisonous.
22198

The antennal origin of the neuro-endocrine reflexes of the Dictyoptera Blaberidae and Blattidae.
22359

Localization of the nuclear origin in the paracardiac nerves of Dictyoptera Blaberidae and Blattidae.
22360

Description of the neuro-endocrine reflex arcs behind the ocelli in the Dictyopteran Mantidae.
22361

The post-cephalic stomodial nervous system of Schistocerca gregaria Forsk. (Orthoptera) and Blabera craniifer Burm. (Dictyoptera).
22380

Regenerating tissues from the cockroach, Leucophaea maderae: Nerve regeneration in vitro.
22425

The effect of castration on the ventral neurosecretion cells of the infraesophageal ganglion in the phasmid, Carausius morosus (Phasmidae-Orthoptera).
22429

Central nervous system control of circadian rhythmicity in the cockroach. I. Role of the pars intercerebralis.
22433

Action of DDT on the peripheral nervous system of the grass frog Rana pipiens.
22800

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 48-D. Lepidoptera: 1) Nervous system in Galleria. 2) Morphology of the caterpillar Lithocolletis.
22964

A histological study of neurosecretion in ants (Formicoidea).
22981

The anatomy of the nervous system of the third instar larva of Musca domestica nebulo Fabr. (Diptera--Cyclorrhapha-Muscidae).
23026

Studies on the insecticidal action of Nereistoxin, 4-N,N-dimethylamino-1,2-dithiolane. V. Blocking action on the cockroach ganglion.
23035

Cercal potentials in the Periplaneta americana. .
23072

Musculature, nervous system and glands of pregenital abdominal segments of the female of Nomia melanderi Ckll. (Hymenoptera, Apoidea).
23073

NERVOUS SYSTEM DISEASES

Requirement of young chick embryos for phenylalanine and tyrosine. (Abstract).
17487

An enzootic of pseudorabies in swine in California.
18257

Effect of high levels of carbon dioxide on pigs infected with porcine enterovirus.
20726

NESTING

Observations on the nesting behavior of some species of Tachytes (Hymenoptera: Sphecidae, Larrinae).
20338

Contributions to the biology of the bumble bee.
22387

NET BLOTCH (BARLEY)

A Pyrenophora-Cochliobolus (Helminthosporium) disease complex in barley.
17304

NETHERLANDS

Migrating Lepidoptera in the Netherlands in 1966.
20226

NETTLEHEAD (HOPS)

Strains of Prunus,necrotic ringspot virus in hop (Humulus lupulus L.).
21103

NEUROLOGY

The structure of a pregenital abdominal ganglion of the desert locust Schistocerca gregaria (Forskal).
17197

Co-ordinated neuromuscular activity in insect spiracles at sub-zero temperatures.
20984

Insect neuromuscular mechanisms.
21748

An investigation of Factor S, a neuromuscular excitatory substance from insects and crustacea.
22374

Ultrastructural observations on neurons of the sympathetic ganglia in grass sickness.
22643

NEUROPTERA

A numerical taxonomy of orthopteroid insects.
14032

On a new species of Neuroptera (Family Osmylidae) from India.
17020

The genus Mucroberotha Tjed. and its systematic position (Neuroptera).
20268

Wesmaelius balticus Tjeder, 1931 (Neuroptera, Planipennin) new to Norway.
21605

Bibliography on the systematics of entomophagous insects. VII.
22950

NEUROSPORA CRASSA

The effect of cycloheximide on the metabolism of Neurospora crass 10780.
17711

Studies on the fungitoxicity of captan. Vi. Decomposition of 35S-labelled captan by Neurospora crassa conidia.
18469

NEUROTROPIC VIRUSES

Laboratory differences between the WS strain of influenza A virus and its neurotropic variants.
22092

Immunization of horses against African horsesickness with attenuated neurotropic viral strains propagated in chicken embryos.
22662

NEUTRALIZATION

Detection of antibodies neutralizing the virus of infectious bovine rhinotracheitis in the serum of French cattle.
16782

NEUTRON ACTIVATION ANALYSIS

Low temperature irradiation applied to neutron activation analysis of mercury in human whole blood.
18484

NEUTROPENIA

Experimental mastitis in leukopenic cows: Immunologically induced neutropenia and response to intramammary inoculation of Aerobacter aerogenes.
20720

Aetiology of enzootic staphyloccal infection (tick pyaemia) in lambs; field investigations into the relationship between tick-borne fever and tick pyaemia.
23277

NEW JERSEY

Forecasting downy mildew of lima bean in Cape May County, New Jersey.
15087

NEW SPECIES

Japygidae of South America. 4`The genus Austrjapyx and descriptions of new species.
14843

NEW ZEALAND

Control of grassgrub and porina.
19873

NEWCASTLE DISEASE

Newcastle disease immunity in broilers and caponettes vaccinated with killed-virus and live-virus vaccines.
15349

Revaccination of chickens against Newcastle disease by vent, wing-web, and intramuscular routes.
15495

Degradation of cellular ribonucleic acid in Newcastle disease virus infected cells.
18258

Pathological changes of acute Newcastle disease in an outbreak in Miyazaki Prefecture with special reference to those of the cloaca.
18268

The influence of interferon on the dynamics of antibody formation in chicken in pseudoplaque of fowl.
19983

An outbreak of subclinical Newcastle disease in Northern Ireland.
20743

Duration of immunity against Newcastle disease in birds vaccinated with BPL inactivated vaccine.
21316

Newcastle disease in a flock of Japanese quails.
21353

Newcastle disease in England and Wales control by vaccination--the first year.
22111

NEWCASTLE DISEASE VACCINES

Newcastle disease: Preliminary field tests of beta-propiolactone-killed vaccine.
15371

Response of birds to one intranasal vaccination with B-1 strain of Newcastle disease virus.
15449

Duration of immunity against Newcastle disease in birds vaccinated with BPL inactivated vaccine.
21316

NEWCASTLE DISEASE VIRUS

The kinetics of the hemolysin of Newcastle disease virus.
17507

Physicochemical studies of Newcastle disease virus. III. The content of virus nucleic acid and its sedimentation pattern.
17553

Isolation and characterization of three plaque-type clones of the hickman strain of newcastle disease virus.
18235

Newcastle disease: A legal interpretation.
18245

Specific interference among strains of Newcastle disease virus. II. Comparison of interference by active and inactive virus.
19158

Specific interference among strains of Newcastle disease virus. III. Mechanisms of interference.
19159

Evidence of common segments in virus RNA of avian myeloblastosis virus (AMV) and Newcastle disease virus (NDV).
19999

Infectivity stability of Newcastle diseases virus vaccine pD-113 under body heat.
20672

Specific interference among strains of Newcastle disease virus. I. demonstration and measurement of interference.
20677

Oncolytic capacity in vivo of the Newcastle virus with respect to the Yoshida peritoneal sarcoma.
20718

Concentration and purification of newcastle disease virus.
21397

Plaque morphology of newcastle disease virus as influenced by cell type and environmental factors.
21429

Propagation of the Newcastle disease virus on tissue cultures at different temperatures.
22067

Uncoating of newcastle disease virus.
22071

Testing of the pathogenicity of virus strains of the Newcastle disease in pigeons.
22100

Vaccination of congenitally-immune chicks against Newcastle disease virus.
22139

Relation of interferon synthesis to abortive replication of Newcastle disease virus in L cells.
22145

Preparation of inactivated vaccine against Newcastle disease. I. Inactivation of Newcastle disease virus by beta-propiolacton and formalin.
23437

NEZARA VIRIDULA

Secretions from the lazeral scent glands of the green vegetable bug, Nezara viridula.
18608

Factors affecting the winter mortality in the southern green stink bug, Nezara viridula L.
19647

Effects of parental age on the life cycle of the southern green stink bug, Nezara viridula L. (Heteroptera: Pentatomidae.
21693

NIA 10242

Effect of soil clay and organic matter content upon systemic efficacy of two carbamate insecticides.
16259

NICARBAZIN

Testing the effectivity of coccidiostatics by using radio Iron-59 for the quantitative estimation of blood in the caeca and feces of chickens.
16842

NICKEL COMPOUNDS

Factors affecting field performance of nickel salt plus dithiocarbamate fungicide mixtures for the control of wheat rusts.
15201

NICKEL SULFATE

Notice of withdrawal of petitions for pesticide chemical and food additive nickel sulfate.
14741

Control of asparagus rust with a mixture of maneb and nickel sulfate.
15109

NICOTIANA

Toxicity of Nicotiana and Petunia species to larvae of the tobacco hornworm.
23020

NICOTIANA DEBNEYI

The transfer of blue mold resistance to tobacco from Nicotiana debneyi: Pt ii, chromosome studies.
21111

NICOTIANA GLUTINOSA

Use of tissue cultures to assay Botran toxicity in higher plants. (Abstract).
16213

Movement of tobacco mosaic virus within Nicotiana glutinosa plant grafted with tobacco.
17300

The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus.
17366

Cytochrome oxidase and mitochondrial protein in extracts of leaves of Nicotiana glutinosa L. Infected with tobacco mosaic virus. 18045

Antiserum for tomato spotted wilt virus. 21339

NICOTIANA LONGIFLORA

Stem resistance to black shank in burley tobacco derived from Nicotiana longiflora. (Abstract). 16595

NICOTIANA SYLVESTRIS

Further study of the latent strain of the tobacco mosaic virus. 21140

NICOTINAMIDE

Alcohol dehydrogenase of Drosophila: Interconversion of isoenzymes. 18625

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(41-chlorophenyl)-1,1-dimethylurea (monuron). 20498

NICOTINE

The effect of gas velocity on the absorption of fumigant nicotine by Musca domestica (L.). 14186

Effect of nicotine sulphate on the performance and carcass quality of growing pigs. 20106

Toxicity of tobacco smoke to the spotted alfalfa aphid Therioaphis maculata (Buckton). 21003

Insecticides from plants. 21802

NICOTINIC ACID

Niacin requirement of growing mink. 17585

NIGERIA

Insecticidal control of Maruca testulalis on cowpea in Nigeria. 13918

Anaplasma in northern Nigeria. 20671

NILAPARVATA LUGENS

An insecticidal application for integrated control of the brown planthopper in paddy rice. 14444

The density effect on the appearance of two wing-forms in the brown planthopper, Nilaparvata lugens and smaller brown plant-hopper, Laodelphax striatellus. 15737

On the conditions regulating the egg-hatching of Nilaparvata lugens. 15818

NINHYDRIN REACTION

Pathogenesis in dutch elm disease. 17339

Unidentified ninhydrin positive substance found in the culture filtrate of plant pathogenic fungi when cultured on the medium containing authentic amino acid. I. 17682

Release of the free Ninhydrin-positive substance in Phormia and Drosophila by means of two dimensional high voltage electrophoresis. 20322

NIPPONODIPLOSIS

A systematic revision and biological review of the cecidomyiid predators (Diptera: Cecidomyiidae) on world Coccoidea (Hemiptera:Homoptera). 14056

NIPPOSTRONGYLUS BRASILIENSIS

The ultrastructure of the alimentary tract of the skinpenetrating larva of Nippostrongylus brasiliensis (Nematoda). 13983

The structure of the cleaning brush on the pedipalps of some African Amblypygi (Arachnida). 14596

The effect of a low protein diet and a glucose and filter paper diet on the course of infection of Nippostrongylus brasiliensis. 17090

Unsuccessful attempts to transmit scrapie by nematode parasites. 17509

Quantitative studies on the kinetics of establishment and expulsion of intestinal nematode populations in susceptible and immune hosts. Nippostrongylus brasiliensis in the rat. 18364

Immunological unresponsiveness to helminth parasites: I. The pattern of Nippostrongylus brasiliensis infection in young rats. 22166

NITELLA

The influence of rooted aquatic plants on the dissolved oxygen content of water. 22805

NITIDULIDAE

Completion of my monograph of the Dynastinae: Cyclocephalini (Coleoptera). 17015

Phasil behaviour shown by two Carpophilus species (Coleoptera, Nitidulidae) in various humidity gradients and its ecological significance. 19542

The identity of Brachypterolus linariae (Stephens) (Col., Nitidulidae), with notes on its occurrence in Britain. 22290

NITRATES

Factors affecting concentrations of dimethylated indolealkylamines in Phalaris tuberosa L. 16030

Nitrate toxicity, guidelines for livestock men. 21522

NITRIC ACID

A simple method for combusting tissues for chlorine-C136 analysis. (Abstracted from Analyt. Biochem. 17(1):24-37. 1966). 20913

NITRIFICATION

The fate of paraquat in soils. 22187

NITRITES

An attempt to produce chronic nitrite toxicosis in swine. 14761

Influence of nitrite and hydroxylamine on performance and vitamin A and carotene metabolism of ruminants. 18183

NITRO-4-HYDROXYPHENYLARSONIC ACID, 3-

Notice of filing of petition for food additives. 14562

Notice of filing of petition for food additives. 16074

Notice of filing of petitions for food additives buquinolate, chlortetracycline, sodium sulfate, arsanilic acid, 3-nitro-4-hydroxyphenylarsonic acid. 16079

Notice of filing of petitions for food additives amprolium, ethopabate, arsanilic acid, 3-nitro-4-hydroxyphenylarsonic acid. 21270

NITRODAN

Nitrodan; proposed revocation. 14568

Nitrodan; notice of withdrawal of approval of new-drug application. 14570

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Nitrodan; revocation. 16199

NITROFURANS

The control and eradication of salmonellosis in a closed pig herd. 14520

Nitrofurans and antibiotic therapy of artificially induced swine salmonellosis. 17572

NITROFURANTOIN

Studies on urinary incontinence and 'wet belly' in ranch mink (Mustela vison). 17486

NITROGEN

Rearing methods for studying the effect of the physiological condition of the host plant on the population development of Panonychus ulm: (Koch). 14267

Changes in peach trees (cv. Red Haven) attacked by Taphrina deformans, with particular reference to nitrogen metabolism in infected and non-infected leaves. 14408

Effect of fertilization on chemical composition, nutritive value, and silica content of rough fescue, Festuca scabrella. 14497

Quantitative studies on purine excretion in the greater wax moth, Galleria mellonella. 14966

Nitrogen as a factor in the development of exocortis of citrus. 15203

Effects of mulching and nitrogen on corn borer susceptibility in corn. 15248

Carbon and nitrogen nutrition in relation to sexual reproduction in species of Phytophthora. (Abstract). 15896

Alteration of starch and nitrogen in soybean leaves infected by Pseudomonas glycinea. (Abstract). 15950

Germination of Polyporous dryophilus var. vulpinus basidiospores. (Abstract). 16216

The utilization of L-asparagine by two species of Phytophthora. 16521

Effects of N, P, K, and inoculum density of Verticillium dahliae on populations of Pratylenchus penetrans in roots of American elm and sugar maple. (Abstract). 16570

Effects of nitrogen sources on growth of Phythium aphanidermatum and Pythium ultimum. 16616

The influence of simazine on the quality and composition of pome fruit. 16919

The effect of differential nitrogen and calcium nutrition and B-Nine (N-dimethyl amino succinamic acid) application on foliar analysis and flowering quality of Red Wing azaleas. 16926

Process for preparing benzimidazole N-oxides. Patent 3,398,157. 16947

Bipyridylium compounds and herbicidal compositions containing the same. Patent 3,398,154. 16949

Metabolic changes in oxygen-deficient tomato roots. 17261

The association of free amino acids of cotton leaves with resistance to xanthomonas malvacearum caused by the B4 gene and the influence of nitrogen and potassium nutrition. 17314

The nucleic acids of crown-gall tumors from pinto bean leaves and their significance to crown-gall tumor induction by Agrobacterium tumefaciens. 17318

Effect of organic and inorganic nitrogen on nematode populations feeding on turf. (Abstract). 17433

Synthesis and physiological activity of several 1-substituted indole-3-acetic acids and esters. 17687

Effects of nitrogen and potassium on the iron metabolism of greenhouse-grown apple trees. 17714

The effect of carbon source, carbon to nitrogen ratios, and organic amendments on survival of propagules of Verticillium albo-atrum in soil. 17921

Influence of nitrogen form on the incidence and severity of Aphanomyces root rot of peas. (Abstract).
17966

Influence of nitrogen nutrition on Fusarium root rot of pinto bean and on its suppression by barley straw.
18028

Oxalate metabolism in sheep and its effect on the anion-cation balance.
18188

The interrelationships of Rhizoctonia solani and Helminthosporium vagans, nitrogen, and variety on alkaloids in Festuca arundinacea. (Abstract).
18443

Effect of defoliants on carbohydrate and nitrogen metabolism in cotten plant leaves.
18448

Exudation of amino acids by intact and damaged roots of wheat and peas.
18718

Microorganisms in paddy soil. S597.R3.
18751

Effect of nitrogen and chloride nutrition on susceptibility and effect of fungicide applications on control of Fusicoccum canker of peach.
18811

Relation of nitrogen fertilizers and manure to vascular wilt of Egyptian cotton caused by four fusaria species and strains.
18892

New herbicides containing nitrogen.
19116

Effect of root temperature on hypocotyls of cotton seedlings as a source of nutrition for Rhizoctonia solani.
19278

Effect of leafhopper infestation on the metabolism of carbohydrate and nitrogen in castor varieties in relation to their resistance to Empoasca flavescens (F.) (Homoptera, Jassidae).
19879

Ultraviolet microscopy of purines and amino acids in the vacuole of Candida albicans.
20108

Variation in decay susceptibility of sapwood with season of cutting. (Abstract).
20545

Selective nitrogen assimilation by Poria weirii.
21189

Observantions on a poisoning case in sheep grazed on nitrogen treated pastures.
21307

The modification of adult life span in Bracon hebetor (Hymenoptera: Braconidae) by irradiation in nitrogen.
21671

Alterations in the peach trees (cv. red haven) attacked by Taphrina deformans with particular reference to the nitrogen metabolism in infected and non-infected leaves.
21916

Lettuce tipburn and nitrogen metabolism. (Abstract).
21921

Nitrogen and phosphorus content of greenbugs reared on fertilized wheat.
22383

Influence of some aminotriazine herbicides on some soil fungi.
22593

Acaricidal composition containing N-substituted and unsubstituted alkyl and alkenyl-2-dimethylamino-benzhydrylcarbamates. Patent 3,422,199.
22835

Effect of carbon and nitrogen sources on growth of Helminthosporium atrovirens (Abstract).
23115

Chenopodium amaranticolor nutrition affects cucumber mosaic virus infection.
23128

Studies on biological treatment of livestock excreta with special reference to removal of ammoniac nitrogen from media by zooglea-forming bacteria.
23388

Chlorophyll and total nitrogen in barley rust infection.
23413

Nitrogen nutrition of some nematode-trapping fungi.
23431

NITROGEN COMPOUNDS

Effects of early and late inoculations of Ulmus americana with Ceratocystis ulmi on the relative concentrations of nitrogenous compounds in the xylem sap. (Abstract).
15947

Rodent damage to fertilized Pacific silver fir in Western Washington.
16736

Pathogenesis in dutch elm disease.
17339

Role of nitrogen in wood deterioration. VI. Mycelial fractions and model nitrogen compounds as substrates for growth of Polyporus versicolor and other wood-destroying and wood-inhabiting fungi.
18018

Effect of different nitrogen sources and antibiotics in all-concentrate finishing rations. (Abstract).
21253

Survival of root-infecting fungi in soil. II. Influence of amendment and soil carbon-to-nitrogen balance on Fusarium root rot of beans.
21913

NITROGEN MUSTARDS

Some biochemical effects of alkylating agents.
15676

NITROGEN-FIXATION

Strain variation and host specificity of Rhizobium. II. Host specificity of Rhizobium trifolii on European clovers.
22510

NITROPHENOL

Conjugation of 1-naphthol and p-nitrophenol in flies: formation of glucoside-6-phosphates.
13805

NITROPYRROLES

1-Methyl or 2-hydroxy ethyl-2-carbamyl-5-nitropyrkoles. Patent 3,393,201.
16251

NITROURACIL, 5-

Method of combatting herpes virus with 5-nitrouracil. Patent 3,423,508.
22701

NITROUS ACID

Application of stresses to foot-and-mouth disease virus.
22080

NITROXINIL

Fascioliasis: Field trials of nitroxynil in sheep.
14586

NOCARDIA

Canine nocardiosis due to Nocardia caviae.
20753

Microbiological studies of two Nocardia strains.
23309

NOCARDIA ASTEROIDES

A diagnostic antigen for nocardiosis: Comparative tests in cattle with nocardiosis and mycobacteriosis.
20766

NOCARDIOSIS

Canine nocardiosis due to Nocardia caviae.
20753

A diagnostic antigen for nocardiosis: Comparative tests in cattle with nocardiosis and mycobacteriosis.
20766

Microbiological studies of two Nocardia strains.
23309

NOCTUIDAE

Two new species of noctuids (Lepidoptera, Noctuidae, Noctuinae).
14049

Three species of Noctuidae new for CSSR (Lepidoptera).
14087

Mites from noctuid moths.
14275

Biological notes on eye-frequenting moths from N. Thailand.
14575

Sex pheromones of noctuid moths. VIII. Orientation to light by pheromone-stimulated males of Trichoplusia ni (Lepidoptera: Noctuidae).
14881

Sex pheromones of noctuid moths. VII. Quantitative aspects of the production and release of pheromone by females of Trichoplusia ni (Lepidoptera:Noctuidae).
14882

Oligia versicolor vojnitsi ssp. n. (Lepidoptera: Noctuidae).
15717

Resistance to starvation of pale and black larvae of the armyworm, Leucania separata Walker (Lepidoptera: Noctuidae).
15771

A method of mass rearing of caterpillars of the small mottled willow moth Laphygma exigua Hb. (Lepidoptera, Noctuidae).
15776

Observations on the larvae of Hippotion celerio L. (Lepid., Sphingidae in Tanzania. (Abstract).
16262

Observations on the breeding of Lycophotia molothina (Lepidoptera, Noctuidae).
16308

The effect of temperature upon the development of the heartand-dart moth (Agrotis exclamationis L.).
16431

Biological notes on, and eradication of Trichogramma semifumatum from laboratory cultures of eight species of Noctuidae.
16458

Dietary requirements of the bollworm, Heliothis zea (Lepidoptera: Noctuidae), for lipids, choline, and inositol and the effect of fats and fatty acids on the composition of the body fat.
16470

New results on the control of the millet caterpillar, Laphygma frugiperda.
16701

A brief review of the principles of light trap design with a description of an efficient trap for collecting noctuid moths.
16979

List of new Amphipyrinae from French Equatorial Africa with notes on synonomies (Lepidoptera: Noctuidae).
17008

A new species of Metaxaglaea. (Lepidoptera, Noctuidae, Cuculliinae).
17018

Data to the knowledge of Callogonia virgo Tr. and the description of a new subspecies (Lepidoptera: Noctuidae).
17034

New Zealand Noctuidae (Lepidoptera): Summary of known host plants and a bibliography relevant to the biology of the group.
17749

Correction coefficients for prognosing the development of insects by sums of effective temperatures (Agrotis segetum Schiff taking of example).
17810

Meteorological factors affecting the activity of night flying Macro-Lepidoptera.
17832

Diagnosis of new African Euteliinae (Lepidoptera, Noctuidae).
19351

Pandesma muricolor n. sp. and Subpandesma n. gen. (Lepidoptera, Noctuidae).
19352

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). I. Introduction, methods, phylogeny, biology and ecology, economic importance, distribution, terminology, glossary, historical review, key to related genera, generic descriptions, key to species groups.
19563

Caterpillar and pupation of Schrankia costaestrigalis Stephens (Lep., Noctuidae).
19747

Melanism in Connecticut Charadra deridens (Guenee) (Lepidoptera: Noctuidae).
19779

Three species of Proctolaelaps (Acarina, Mesostigmata) from noctuid moths.
20269

Possibilities for flight detection of harmful moths of the Noctuidae family on sugar beet.
20330

Flight of moths (Lepidoptera, Noctuidea) to different sources of light in the mountain-forest zone of Crimea.
20367

Morphology of the male reproductive system and spermatophore of the red bollworm, Diparopsis castanea (Hmps.) and the possible effect of the chemosterilant tepa on the gross structure.
21017

Two new species of noctuid moths of the genus Palluperina Hmps. (Lepidoptera, Noctuidae).
21616

Porphyrinia purpurina Hb. (Lep., Noctuidae), new for Finland.
21649

The rate of passage of food and the effect of temperature in two noctuid caterpillars.
21702

Cutworms and armyworms.
21983

The rearing of Luperina nickerlii knilli Boursin (1964) (Lep., Noctuidae) under laboratory conditions.
22430

Madopa salicalis Sciff. and Pyrausta palustralis Hb., new to the Swedish fauna (Lep.).
22882

A granulosis of Eupsilia transversa Hufn. (Lepidoptera, Noctuidae) in West Norway.
22969

An artificial medium for rearing Prodenia litura F. and two other noctuids.
23015

NODULES (PLANTS)

Changes in the structure of different varieties of wheat culm in different localities after treatment with CCC.
18749

Soybeans and peanuts. Seed and seedling diseases, several fungi.
18782

NOMADA

Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 68th contribution. hymenoptera: Apidae. III. (Genus Nomada Scopoli).
14111

NOMADA LUCIDULA

Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 68th contribution. hymenoptera: Apidae. III. (Genus Nomada Scopoli).
14111

NOMADACRIS SEPTEMFASCIATA

Observations on the structure of hopper bands and movement of hoppers of the Red Locust (Nomadacris septemfasciata Serville).
14040

NOMENCLATURE

The trivial name of the potato tuberworm (Lepidoptera: Gelechiidae.
14823

Problems of insect taxonomy with special reference to the International Code of Zoological Nomenclature.
17063

List of Phytopathological terms.
17932

Two subgenera of Pyrgomorphidae (Orth., Acridoidea) raised to generic status on the basis of their phallic structures.
18507

The genus Aprostocetus Westwood, Sensu Lato (Hym., Eulophidae); notes on the synonymy of European species.
18531

On the nomenclature of some insects related to lac.
18573

Agrilus cupripes (Carter) comb. n. (Coleoptera: Buprestidae).
19363

Standard names for common insects.
19389

A preliminary review of the genus Homochaetothrips gen. n., with brief description of a new species (Thysanoptera: Thripidae).
19486

On a reported new genus of Ptiliidae, Macdonaldium Abd. and Abd., from Canada.
19498

Nomenclature and synonymy of the North American ants of the genera Ponera and Hypoponera (Hymenoptera: Formicidae).
19501

General introduction to the classification, terminology, ontogenesis and evolution of mites.
19509

Viruses and virus diseases of the grapevine.
19825

Pesticide reference standards of the Entomological Society of America.
20136

Principles for the selection of common names for pesticides and plantgrowth regulants.
20150

Cis castaneus Mell. (Col., Ciidae)--a correction.
20153

Common names of herbicides.
21216

Tology - the science of weed research and control. II.
21226

Brucellosis. Changes in list of public stockyards.
21407

Some considerations on the name bovine malaria
.
22133

A synopsis of American Mycomyiini with descriptions of new species (Diptera: Mycetophilidae).
22858

Chironomus, not a Tendipedidae. A note on a decision of the I. C. Z. N., of the International Zoological Commission for Nomenclature.
22870

Evidence that Ormocerus borges Walker is the male of Epicopterus choreiformis Westwood (Hym., Chalcidoidea, Pteromalidae).
22985

Revision of the genus Radopholus Thorne, 1949 (Nematoda: Tylenchoidea).
23221

NOMIA MELANDERI

The effect of age, SKF 525- a hydrochloride, and chlorcyclizine dihydrochloride on the toxicity of parathion to adult alkali bees, Nomia melanderi ckll.
21708

Musculature, nervous system and glands of pregenital abdominal segments of the female of Nomia melanderi Ckll. (Hymenoptera, Apoidea).
23073

NONYL ACETATE, N

Defense mechanisms of arthropods. XXI. Formic acid and n-nonyl acetate in the defensive spray of two species of Helluomorphoides.
17816

NOREA

Notice of withdrawal of petition for permanent tolerance and establishment of temporary tolerance.
16133

Notice of filing of petition regarding pesticides.
16141

Herbicide persistence with different incorporators.
22827

NOREPINEPHRINE

The estimation of epinephrine, norepinephrine, and aldrin (ą chlorinated naphthalene derivative) in mammalian tissue employing biological and chemical methods of assay, and some considerations of toxicological effects of aldrin.
16908

NORNICOTINE

Adaptation of insects to nornicotine.
17118

Insecticides from plants.
21802

NORTH AMERICA

The hymenopterous parasites (Hymenoptera: Aphidiidae et Aphelinidae) of the pea aphid in eastern North America.
14830

NORTH CAROLINA

Burley tobacco naturally infected with peanut stunt virus in North Carolina. (abstract).
21856

NORTHEASTERN STATES

Comments on bovine respiratory infections in northeastern dairy cattle.
16796

NORTHEASTERN UNITED STATES

Gypsy moth defoliation.
15235

NOSEMA

Plistophora scolyti sp. n. (Protozoa, Microsporidia), a new parasite of Scolytus scolytus F. (Col., Scolytidae).
16475

Interactions between a microsporidian pathogen of the lawn-armyworm and hymenopterous parasite Apanteles marginiventris.
17150

NOSEMA ACRIDOPHAGUS

Nosema acridophagus sp n, a microsporidian isolated from grasshoppers.
15761

NOSEMA APIS

In vitro phagocytosis of Nosema apis spores by honey-bee hemocytes.
13725

Nosema apis and dysentery of the honeybee.
16359

Fatty acids in honey bees (Apis mellifera) infected with the Protozoan Nosema apis.
17190

NOSEMA DISEASE

The effects of sampling sites on Nosema determination.
14904

Nosema apis and dysentery of the honeybee.
16359

Abnormalities in Nosema-diseased worker bees.
19546

Sanitary legislation of the well known contagious diseases of bees in France; loques, acarine disease, nosema disease.
20294

Four important bee diseases.
21674

NOSEMA TRACHEOPHILA

The biology and life history of Nosema tracheophila sp n (Protozoa: Cnidospora: Microsporidea) found in Coccinella septempunctata Linnaeus (Coleoptera: Coccinellidae).
13774

NOSEMATIDAE
Stempellia magna (Kudo) (Nosematidae: Microsporidia) in Culex restuans Theobald from Virginia.
14152

New records of parasites of Ceratopogonidae.
14172

NOTODONTIDAE
Meteorological factors affecting the activity of night flying Macro-Lepidoptera.
17832

Breeding experiment with Clostera anachoreta F. (Lep., Notodontidae).
19636

Secretion of the metathoracic glands of the waterbug Notonecta glauca L. (.
20413

NOVA SCOTIA
The distribution, life history, and economic importance of the winter moth, Operophtera brumata (L.) (Lepidoptera, Geometridae) in Nova Scotia.
14811

NOZZLES
Preliminary trials with UCAR mist nozzle.
20933

NUCLEAR WARFARE
Iodine-131 concentrations in Australian milk resulting from the 1967 French nuclear weapon tests in Polynesia.
19241

NUCLEASES
A possible reservoir of tyrosinase substrates in Drosophila melanogaster.
17691

NUCLEIC ACIDS
Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera).
13844

Influence of some nucleic acid metabolism inhibitors on the synthesis of alkaline protease and alpha-amylase in Aspergillus oryzae.
14417

Nucleic acids extracted from the virus polyhedra of the silkworm, Bombyx mori (Linnaeus).
14850

The effect of apholate and thiotepa on nucleic acid synthesis and nucleotide ratios in housefly eggs.
14930

Nucleic acid and specific infectivity changes in bottom component of tobacco ringspot virus. (Abstract).
15940

Hybridization of avian myeloblastosis virus RNA and DNA from chick embryo cells.
16088

Competitive inhibition by foreign nucleic acid and induced interference by yeast-RNA with the infection of tobacco mosaic virus.
16581

Isolation and characterization of barley stripe mosaic virus protein.
16588

In vivo and in yitro decline of specific infectixity of tobacco ringspot virus correlated with nucleic acid degradation.
16671

Chemical composition and biophysical properties of tomato ringspot virus.
16690

Cytochemical studies with African horse sickness virus by fluorescent microscopy.
16822

Mode of action of 2,6-dichloro-4-nitroaniline (DCNA) in Rhizopus arrhizus.
16937

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants.
17253

Studies on the necrotic fleck disease of Easter lily, Lilium longiflorum.
17283

Nucleoside phosphorylase and xanthine dehydrogenase in dedevelopment of normal and dystrophic chickens. (Abstract).
17485

Physicochemical studies of Newcastle disease virus. III. The content of virus nucleic acid and its sedimentation pattern.
17553

Effects of trifluralin on nucleic acid metabolism and other physiological processes.
17703

Cytokinin effect of benzyladenine: Increase of nucleic acid and protein synthesis in bean leaves.
18048

Does the agent of scrapie replicate without nucleic acid.
18205

Degradation of cellular ribonucleic acid in Newcastle disease virus infected cells.
18258

Studies on the replication of African horse-sickness virus in two different cell line cultures.
18304

Wound-induced gibberellins.
18467

Preparation and properties of the protein and nucleic acid components of Pea Enation Mosaic Virus.
19074

Nature of scrapie agent.
19178

The fine structure of vesicular stomatitis virus.
19193

Reactions of folpet with purified enzymes, nucleic acids, and subcellular components of Saccharomyces pastorianus.
19303

Sensitivity of trypanosomes to metabolic inhibitors.
20040

Evaluation of chemosterilant damage to the testes of the housefly, Musca domestica, by microscopic observation and by measurement of the uptake of 14C-compounds.
20323

Phage Xp12 of Xanthomonas oryzae (Uyeda et Ishiyama) dowson.
20505

Exocortis virus of citrus: Association of infectivity with nucleic acid preparations.
20565

Uracil nucleotide-rich segments in the nucleic acid molecule of BAI strain A (myeloblastosis) virus and the question of their possible participation in the specific shape of the absorbance-temperature profile of high molecular weight virus nucleic acid (V-RNA) in standard citrate buffer.
20775

Serologic detection of a virus of transmissible gastroenteritis of swine and determination of its nucleic acid type.
21322

Pseudocowpox in germany.
21372

Influence of growth regulators on the concentration of protein and nucleic acids in grape flowers. (Abstract).
21805

Studies on the infection of cucumber mosaic virus, III. Time of the infection after inoculation with whole virus or with viral nucleic acid.
22498

Investigations on an avian adenovirus.
22699

Physico-chemical properties of avian reovirus and its nucleic acid.
22724

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants.
23031

Infectious nucleic acid from a transmissible agent causing gastroenteritis in pigs.
23318

NUCLEOPROTEINS
Properties of peanut stunt virus. (Abstract).
15959

The physiology of host-parasite relations. XIX. Further observations on nucleoprotein changes in wheat leaf nuclei during rust infection.
16547

Nucleoprotein synthesis during metamorphosis in Drosophila virilis.
17872

The fine structure of vesicular stomatitis virus.
19193

Critical considerations for the translocation of viral nucleoproteins into plants.
21096

Freezing and thawing of the suspension to purify the infectious tobacco mosaic virus.
21100

NUCLEOSIDES
Effect of Corpora allata on protein and RNA synthesis in colleterial glands of Blattella germanica.
16486

Nucleoside phosphorylase and xanthine dehydrogenase in dedevelopment of normal and dystrophic chickens. (Abstract).
17485

NUCLEOTIDES
Nucleotide composition of RNA in healthy and mildew-infected leaves of barley.
15120

Polynucleotide homologies of Brucella deoxyribonucleic acids.
16794

D-lactate specific pyridine nucleotide lactate dehydrogenase in animals.
20653

Pyrimidine nucleotide metabolism and pathways of thymidine triphosphate biosynthesis in Salmonella typhimurium.
20758

Isolation of an adenosine-peptide nucleotide from chlamydospores of Tilletia foetida. (Abstract).
20908

Changes in the acid-soluble nucleotides during the pupal development of the rice stem borer, Chilo suppressalis walker (Lepidoptera: Pyralidae).
21745

Free nucleotides and their derivatives in the fat body of the oak silkworm larva Antheraea pernyi G.
23041

Synthesis of uridilic nucleotides and TMP in bone marrow of chicks infected with the avian myeloblastosis virus.
23281

NURSERIES
Establishment of a nursery for evaluation of resistance of strains of wheat to the wheat stem sawfly.
17398

Alternaria tenuis on Antirrhinum.
18033

Ornamentals.
18164

Observations on the use of a predator to control red spider mite on commercial cucumber nurseries.
18504

Frequency of occurrence of free living nematodes in Danish nurseries, tulip, narcissus and vegetable fields, and the effect of some soil disinfestants on the nematode population in the soil of some nursery crops.
21213

The woody plant nursery--a useful tool for evaluation of herbicides.
22576

NUTRIA
Secondary poisoning associated with anticoagulant-killed nutria.
14758
The remarks on enzootic pseudotuberculosis in nutria.
21428

NUTRIENT SOLUTIONS (PLANTS)
Virulence of Rhizoctonia solani as influenced by nutritional status of inoculum. (Abstract).
16238
Effect of pH on recovery of fungi from foods.
16894
The biology and ecology of sicklepod (Cassia obtusifolia L.).
17252
Metabolic changes in oxygen-deficient tomato roots.
17261
The role of calcium in resistance of alfalfa to Ditylenchus dipsaci. (Abstract).
17439
Toxic effects of aluminum on Vitis vinifera, Merlot variety, cultivated in a control medium.
17681
Experiments and considerations on the anomolies of tomatoes of the super marmande type in hot houses, connections with the use of some plant hormones.
17933
Effect of calcium availability on alfalfa grown in calcareous high sodium soils.
18464
Characterization of differential aluminum tolerance among varieties of wheat and barley.
18728
Molybdenum deficiency symptoms in cotton.
18733
The effect of silica on the growth of rice plant.
18746
Plant treatment in relation to the rhizosphere effect I. Pretreatment of roots of rice seedlings to certain chemicals and antibiotics on the rhizosphere microflora.
18750
Differing efficiences of potassium utilization in strains of snapbeans, Phaseolus vulgaris L.
18937
Production of pectic and cellulytic enzymes by Phytophthora infestans de By. I. Culture of the fungus in a nutrient solution.
22212

NUTRITION
Effect of food on the susceptibility of Trogoderma granarium Everts (Dermestidae: Coleoptera) to insecticides.
17151
Fungistatic properties of soils exposed to different antecedent environments.
17360
Influence of nitrogen nutrition on Fusarium root rot of pinto bean and on its suppression by barley straw.
18028
A comparative nutritional study of Alternaria raphani, A. brassicae, and A. brassicola with special reference to A. raphani.
18069
Physiology of germination of chlamydospores of Phytophthora cinnamomi.
18463
Decline of quince-rooted pear trees in Santa Clara County.
18745
Nutrition of phytopathogenic pseudomonads. (Abstract).
19300
Bibliography on the biochemistry of endoparasites.
20051
Abstracts of papers presented at the meeting of the North Atlantic Section, A.S.A.S. August 19-20, 1968, Burlington, Vermont.
20644
Food additives and chemical carcinogens: On the concept of zero tolerance.
20885
Nutrition stress in relation to Fusarium wilt and root rot of alfalfa.
21064
Contribution to the study of the calcium, of the nutrition and of the chemistry in cattle infected with virus fever.
21332
Growth and nutritional requirements of two serotypes of ovine Vibrio fetus.
21445
Some aspects of nutrition in parasites.
22171
Egg production of house-fly adults fed human blood containing various supplements.
22384
Experimental study of the effect of nutrition on cyclecompletion in Pythidae parasites in tropical cultures.
22440

NUTS
2-(p-tert-butylphenoxy) cyclohexyl 2-propynyl sulfite. notice of establishment of temporary tolerances.
14648
Notice of filing of petition regarding pesticide chemical.
14655
Notice of filing of petition regarding pesticide chemicals.
14695
Proposed reduction in tolerance in or on bananas.
14738
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diuron.
16182

NYCTERIBIIDAE
An illustrated catalogue of the Rothschild collection of Nycteribiidae (Diptera) in the British Museum (Natural History); with keys and short description for the identification of subfamilies, genera, species and subspecies. QL468.T45.
15736
The parasites of British birds and mammals. XXXVI. New records of bat parasites.
18688

NYCTERIGLYPHUS STURNIRAE
To the knowledge of mites of the subfamily Nycteriglyphinae (Acarina: Rosensteinidae) from Cuba.
15707

NYGMIA PHAEORRHOEA
Gypsy moth and brown-tail moth. proposed quarantine in Pennsylvania.
14129
Domestic quarantine notices. Gypsy moth and brown-tail moth. I. Quarantine and regulations. II. Regulated areas. III. Exemptions.
21463

NYMPHALIDAE
Temperature conditions and maternal effect as modifying factors in the photoperiod control of the seasonal form in Polygonia c-aureum (Lepidoptera, Nymphalidae).
13807
Temperature conditions and maternal effect as modifying factors in the photoperiodic control of the seasonal form in Polygonia c-aureum (Lepidoptera, nymphalidae).
13808
A migration of Vanessa cardui (Nymphalidae) in Ohio.
17029
On the modification of the eye pattern on the wings of Inachis io (Lep., Nymphalidae) with analogous temperature experiments.
19624
Mimetic versus disruptive coloration in intergrading populations of Limenitis arthemis and astyanax butterflies.
21763

NYMPHS
A note on the influence of a range of plant chemicals on the growth and survival of Aedes aegypti L. larvae.
16396
Radioactive studies on the feeding of larvae, nymphs, and adults of the cattle tick, Boophilus microplus (Canestrini).
16995
Alarm, defense, and construction behavior relationships in termites (Isoptera).
17056
Sugar for the survival of Lygus hesperus on alfalfa.
17087
Gel filtration of insect haemolymph proteins.
17157
Carbamate cross resistance in a carbaryl-resistant strain of the German cockroach.
17162
Present status of biological control of the pear psylla in southern Oregon.
17218
The development of Theileria parva in the salivary glands of the tick, Rhipicephalus appendiculatus.
17873
Cross protection between a plant virus and potato psyllid yellows.
18067
The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 5. A. (P.) zumpti, new species, a parasite of the South African Cape vulture.
19415
Cytogenetics of Ticks. 4. Chromosomes of Argas (Persicargas) zumpti.
19464
Ticks (Ixodoidea) of Mt. Sontra, Danang, Republic of Vietnam.
19628
A teratological specimen of Pycnoscelus surinamensis.
19711

NYSSA
A new disease of swamp tupelo.
15271

OASES
Ecology of an oasis.
14809

OAT STRAW
Survival of root-infecting fungi in soil. III. The effect of cellulose amendment on Chlamydospore germination of Fusarium solani f. sp. phaseoli in soil.
21814

OATS
Herbicides or oat companion crops for alfalfa establishment and forage yields.
13946
Plant uptake of 14C-diuron in modified soil.
14008
Effects on three species of grain aphids (Homoptera: Aphididae) reared on wheat, oats or barley and transferred as adults to wheat, oats or barley.
14150
Leafhopper transmission of the oat blue dwarf virus extracted from oats or barley. (Abstract).
14336
Nuclear reassociation in Puccinia coronata f. sp. avenae. (Abstract).
14338
Thermal stability of stem rust resistance in oat seedlings.
14394
The oat cyst nematode attacks all spring grain.
14460
Use of soil contaminated with Sr-90 for seed production.
14618
Notice of filing of petition regarding pesticides.
14705
Notice of filing of petition regarding pesticides.
14708

Identification and distribution of oat smuts of the Southeastern United States. 15114

Comparative effects of Helminthosporium carbonum and H. victoriae toxins on susceptible tissue. (Abstract). 15894

Relationship between the molecular structure of cytokinins and victorin activity. (Abstract). 15904

Effect of Helminthosporium victoriae toxin on germination, enzyme secretion, and P-uptake by oat seeds. (Abstract). 15936

Notice of withdrawal of petition regarding pesticides. 16153

The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle. 16357

Effects of cytokinins on the absorption of victorin. 16627

Cereal root eelworm pathotypes in England and Wales. 16717

Fungistatic properties of soils exposed to different antecedent environments. 17360

Phytopathological consequences of changing agricutural methods. II. Cereals. 17426

Research on the oats-nematode problem. 17436

Synthesis and physiological activity of several 1-substituted indole-3-acetic acids and esters. 17687

Effect of moderate adult resistance on penetration, hyphal growth rates, and urediospore production by crown rust of oats. (Abstract). 17995

Tolerance to barley yellow dwarf in winter oats. 18050

Stand loss of small grains in Florida. 18057

Natural acquisition compared with mechanical inoculation of six-spotted leafhoppers for transmission of the oat blue dwarf virus. (Abstract). 18085

Effect of variety and fumigation on nematode populations in oats, wheat, and rye. 18147

Effect of 3-indoleacetic acid on phospholipid membrane components of Avena coleoptiles. 18481

Resistance to Pseudomonas coronafaciens in oats. (abstract). 18799

Factors affecting the copper content of oats grown in peat. 18800

Immunofluorescent staining as a means of identifying mycelium of rhizoctonia solani on slides used in soil ecological studies. (Abstract). 18877

Wetting ability of cationic surface-active agents and their control of oat powdery mildew. 18953

The yield of uredospores per unit of sporulating area as a possible measure of tolerance of oats to crown rust. (Abstract). 18962

The role of helminthosporium victoriae toxin in the initial phase of pathogenesis on oats. (Abstract). 18995

Parathion, a selective rust fungicide, compared with maneb in the control of cereal rusts. 19818

Oats: Pests and diseases. 20593

Effects of manganese and iron application on their solubility, absorption and growth of oat plants. 20912

Production of auxin by detached leaves. 21091

Production of aflatoxin on wheat and oats: Measurements with a recording densitometer. 21807

Rate of movement of barley yellow dwarf virus out of inoculated cereal leaves. 21854

Thermal stability of stem rust resistance in oat seedlings. 21889

Contribution to the physiological study on the effect of the substance isolated from conidia of the fungus Erysiphe graminis f. sp. hordei Marchal. 21944

Changes in the yield and protein quantity of oat caused by Rhopalosiphum padi (L.) (Hom., Aphididae). 21992

Calcium localization within live oat leaves using a semiconductor detector assembly. 22041

Penetration and accumulation of fenuron in forest soils. 22796

Trinucleate cells and other nuclear abnormalities in race 6 of oat stem rust. 23120

Effects of three species of aphids on barley, wheat or oats at various stages of plant growth. 23178

OBELISCOIDES CUNICULI

Parasitic development of Obeliscoides cuniculi in rabbits. 18375

OBESITY

Zinc requirement of baby pigs on casein diets. 20782

OCCUPATIONAL DISEASES

Serological investigations concerning the incidence of leptospiral infection among the personnel employed in the care of animals in some zootechnical farms. 22735

OCTOSPOREA MUSCAEDOMESTICAE

Effects of an octosporeosis on the locomotor activity of adult Phormia regina (Meigen). (Dipt. Calliphoridae). 22997

OCTYLBICYCLOHEPTENEDICARBOXI IDE, N

Notice of filing of petition regarding pesticides. 14713

ODIOPORUS LONGICOLLIS

Obseruations on Odioporus longicollis (Coleoptera, Curculionidae) in Kathmandu Valley and its suburbs. 14955

ODONATA

Respiration and tracheal ventilation in locusts and other flying insects. 14286

Odonata from Venetia. (Contribution to the knowledge of Odonata). 17041

On the Metacercaria of Prosthogonimus putschkowskii in Sympetrum decoloratum (Odonata: insecta) with observations on its development in chicks. 18370

Range extensions of Odonata in southeastern states. 19376

Dragonfly types from the Dobson collection, with the designation of lectotypes. 19519

Methodical reference and council on the breeding of fresh water mite larva parasitic on air insects on (Acari Hydrachnellae). 19676

Regeneration of appendages in damselflies. 19688

Records and notes on Philippine Odonata. 20169

Host exploitation of two closely related water mites. 20393

Relationship of oxygen requirements to index-organism classification of immature aquatic insects. 20408

Considerations on the evolution of the chromosome complement in Odanata. 20465

A review of the genus Oligoaeschna Selys in southeast Asia. 20963

Weather conditions and daily activity of dragonflies (Odonata). 21656

Australian dragonflies. 21752

Genetic variability in Ischnuran damselflies. 21760

Occurrence of giant muscle fibers in the flight muscle of Pantala flavescens (F.) (Libellulidae: Odonata). 22355

Demography of the damselfly, Argia plana Calvert (Odonata Coenagriidae). 22356

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 15, no. 48-C. Odonata: abdomen of Aeschna. 22965

ODONTRIA VARIECOLORATA

Resolute research to defeat grassgrub. 15996

ODORS

Toxic effects of odorous trace organics. 18417

OECOPHORIDAE

Faunistic news (Lep. Oecophoridae and Tortricidae). 22278

OEDIPODA COERULESCENS

On the tetrapyrrolic pigments, essential constituents of homochrome:coloration in Oedipoda coerulescens L. (Acridae, Orthoptera). 17895

OESOPHAGOSTOMUM

Experiences with a new broad-spectrum anthelmintic dichlorvos, in the adult pig. 16740

Development and survival on pasture of gastrointestinal nematode parasites of cattle. 19220

Gastro-enteritis in Kenya goats caused by Globidium gilruthi. 20754

Seasonal incidence and bionomics of some common gastrointestinal nematode larvae of sheep and goats. 22174

Survival of infective larvae of the cattle nematodes, Cooperia punctata, Trichostrongylus axei, and Oesophagostomum radiatum. 22782

OESOPHAGOSTOMUM DENTATUM

The routine differentiation of the ova and larvae of two parasites of swine, Hyostrongylus rubidus (Hassall et Stiles, 1892) and Oesophagostomum dentatum (Rud., 1803). 17604

Helminthic infestations of piglets with reference to lesions encountered. 18371

OESTRIDAE

Remarkable new description of the behavior of the bot fly, Oestromyia leporina (Pallas, 1778) in Germany. 15809

Leptomonas oestri n.sp., a flagellate parasite of the digestive tract of Oestrus ovis. 16328

Mortality of nasal bots in sheep treated with systemic insecticides. 16330

Contribution on plantgalls by Oestridae. 20620

Remarkable new demonstration of the occurrence of the botfly Oestromyia leporina (Pallas, 1778) in Germany. 23038

OESTROMYIA LEPORINA

Remarkable new description of the behavior of the bot fly, Oestromyia leporina (Pallas, 1778) in Germany. 15809

Remarkable new demonstration of the occurrence of the botfly Oestromyia leporina (Pallas, 1778) in Germany. 23038

OESTRUS OVIS

A temperature study of the overwintering site of the sheep bot fly Oestrus ovis L. 18373

A temperature study of the overwintering site of the sheep bot fly, Oestrus ovis L. 20641

Controlled test of anthelmintic activity of trichlorfon and thiabendazole in lambs, with observations on Oestrus ovis. 22768

OIDIUM

VI: A new Oidium gathered in Taiwan (Formosa) on Carica papaya: Oidium caricae-papayae Yen (n. sp.). 20585

A study of the fungus parasites of southeast Asia. V. Note on some Malaysian species of Oidium. 20586

Powdery mildew of the grapevine. 21899

OILS

Effect of growth-regulating and other compounds on bacterial spot of pepper. 15219

Lindane in diesel oil prevents western pine beetle attacks for at least one year. 15251

Toxicity of topically applied fats and oils. 15520

Analysis of chlorinated pesticide residues in fats and oils, utilizing dimethyl sulfoxide: a collaborative study. 15558

Oils for summer control of pear psylla and their effects on pear trees. 16488

Inhibition of the transmission by aphids of some plant viruses by oil pulverization. 17355

Pyrethum as an insect repellent. II. A laboratory technique for its evaluation as a mosquito repellent, and the influence of formulation on persistence. 17720

Attempts at combatting oystershell scale, Lepidosaphes ulmi (L.),on appletrees in orchards of Quebec. 18109

Contact and fumigant toxicity of oils, surfactants, and insecticides to two aphid and three beetle species. 19757

Turf herbicide Rx: add oil. 19933

Two-spotted mite control in walnuts. 21186

Effects of oil sprays for controlling pacific mite on grapevines. 21201

Method of controlling the growth of undesirable vegetation. Patent 3,413,109. 21231

Those durable oils. II. Insecticidal oils. 21552

Agricultural spray oils. Patent 3,410,787. 21560

The use of attractants in pest control. 21981

OILSEEDS

A comparison of annual crops for seed and residue in the semi-arid region of western Canada. 16510

Relation of invasion of cereal grains and oil seeds by storage fungi to increase in total and major individual fatty acids. (Abstract). 18031

The pollination of oilseed rape (Brassica napus) and the behaviour of bees on the crop. 19605

OKRA

Evaluation of the effectiveness of some organophosphorus insecticides against two species of aphids. 14255

Foreign quarantine notices. fruits and vegetables. okra from certain South American countries. 15991

Relative toxicity of some insecticides as contact poisons to the larvae of Earias fabia Stoll. 17210

Inoculation trail with Meloidogyne javanica on okra (Abelmoschus esculentus). 17416

Okra production. 21227

OLEANDOMYCIN

Notice of filing of petition f0r food additives oleandomycin and diethylstilbestrol. 16070

OLEFINS

Acute toxicity of n-alpha-olefin sulfunates. 16912

OLEIC ACID

Fatty acids of the mosquito, Anopheles freeborni. 17123

Lipid changes during the life cycle of Sarcophaga bullata. 17158

The absorption of zinc and oleic acid from digestive tracts parasitized in the ileum, ceca, and colon. (Abstract). 17582

OLEORESINS

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Ii. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness. 21180

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Iii. Effect of injury on oleoresin composition, phloem carbohydrates, and phloem pH. 21193

OLESICAMPE

Concerning some types of Limneria Hlgr. (Hym. Ichn. Ophioninae). 22876

OLETHREUTIDAE

Estimation of carcass analysis of the growth requirements for amino acids in the codling moth, Carpocapsa pomonella (Lepidoptera: Olethreutidae). 16335

The European pine shoot moth, Rhyacionia buoliana (Lepidopterai Olethreutidae), another introduced forest pest. 19877

New Danish leafroller, Laspeyresia conicolana Heylaerts (Lep., Tortr.). 20288

The oriental fruit moth Grapholitha molesta (Busck) (Lepidoptera: Olethreutidae) in Ontario. 20944

Rearing of caterpillars of the eudemis moth (Lobesia botrana Schiff.) on some substituted natural foods. 21728

OLFACTOMETERS

Reaction thresholds and specificity of an odor receptor on the antenna of Locusta. 14863

Repellents. In: kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17181

New techniques to bioassay the sex attractant of pink bollworms with olfactometers. 17829

Pre-imaginal conditioning in Drosophila. 17858

OLIGIA

Oligia versicolor vojnitsi ssp. n. (Lepidoptera: Noctuidae). 15717

OLIGOSACCHARIDES

Oligosaccharidases from Macracanthorhynchus hirudinaceus (Acanthocephala) from swine. 16875

Oligosaccharidases from Macracanthorhynchus hirudinaceus (Acanthocephala) from swine. 18186

Occurrence and nature of invertase activity in adult blackflies (Simuliidae). 21036

OLIOGONYCHUS VITIS

Oliogonychus vitis n. sp. (Acarina: Tetranychidae). 14141

OLIVES

Chemical induction of fruit abscission in olives. 20501

Chemical induction of fruit abscission in olives. 21072

A progress report...Olive yield decline study in Tehama County. 21199

OLPIDIUM BRASSICAE

The ultrastructure of Olpidium brassicae. I. Formation of sporangia. 17348

Olpidium brassicae: Electrophoretic mobility of zoospores associated with their ability to transmit tobacco necrosis virus. 23150

OMMOCHROMES

The formation of ommochromes in the eyes during the pupal development of Plodia interpunctella Hb. 19539

A possible precursor of ommin in synthesis of ommochrome of Plodia interpunctella Hb. and of Ephestia kuhniella Z. 19540

OMOPHOITA

Rapid allocyclic changes in the centric and an arm segment 0f the X chromosome in meiosis of male Omophoita superba Weise (Coleoptera, Alticidae). 14301

ONAGRACEAE

Records of fifty-six British and European aphids (Hem., Aphididae) with a note concerning aphids found on Onagraceae. 15738

ONCHOCERCA VOLVULUS

Onchocerca-Simulium complexes. V. The intake and subsequent fate of microfilariae of a Guatemalan strain of Onchocerca volvulus in forest and Sudan-savanna forms of West African Simulium damnosum. 17099

The natural infection rate of Simulium damnosum with Onchocerca volvulus in Savannah regions of Guinea. 20344

ONCHOCERCIASIS
Review of some recent research on Onchocerca vectors. 17039
Indirect fluorescent antibody test for the serodiagnosis of Onchocerciasis. 20015
The natural infection rate of Simulium damnosum with Onchocerca volvulus in Savannah regions of Guinea. 20344
Onchocerciasis in Kenya 9, 11 and 18 years after elimination of the vector. 20490

ONCOGENIC VIRUSES
An epizootic of histiocytic sarcomas in chickens induced by a cell-free agent. 15430
Oncogenesis in the (tu) y2v;vg strain of Drosophila melanogaster. 17787

ONCOPELTUS
Feeding behavior of the large milkweed bug, Oncopeltus fasciatus. 14858

ONCOPELTUS FASCIATUS
Effects of ionizing radiation on the European chafer, the plum curculio, and the large milkweed bug. 16422
The ultrastructure of insect surfaces by scanning electron microscopy. 16448
Mitotic activity of the circulating hemocytes of the large milkweed bug, Oncopeltus fasciatus. 17107
Induced changes in the mitotic activity of hemocytes of the large milkweed bug, Oncopeltus fasciatus. 17108
Inherited melanism in the large milkweed bug, Oncopeltus fasciatus (Heteroptera: Lygaeidae). 17226
Life history and population consequences of density, photoperiod, and temperature in a migrant insect, the milkweed bug Oncopeltus. 20329
Mitosis and the cell cycle in the metamorphic moult of the milkweed bug, Oncopeltus fasciatus. A radioautographic study. 21006
The regulation of cyclic reproductive and feeding activity in the milkweed bug Oncopeltus by temperature and photoperiod. 22364

ONIONS
Attack of onions by phytophthora porri. 14415
Some observations on the number of root lesion nematodes necessary to cause injury to seedling onions. 15048
Selective isolation of soft-rot bacteria of onion. 15094
Pathogenicity of the stubby root nematode to onion. 15259
The increased attack of Ditylenchus dipsaci on onion caused by some fungicides. 18132
Factors influencing the population fluctuation of Pratylenchus penetrans in soil. III. Host plant species. 18156
Larvae of the grey chimoth, antitype (Polia) chi (L.) (Lep., Caradrinidae), feeding on leaves of onion (Allium cepa). 18644
Genetic effects of ferbam on Aspergillus niger and Allium cepa. 18911
The breakdown of 14-C-chlorfenvinphos in soils and in. 19239
Employment of maleic hydrazide in the storage of onion bulbs. 20059
Guide lines for the testing of materials on onion flies on onions. 20600
Gray mold of green onions on the market. 21099
Dormancy of onion sets as influenced by irradiation, gibberellin and temperature treatments. (Abstract). 21782
A further look at neck rot in onions. 21882
Alterations in mitosis induced by isomers of hexachlorocyclohexane. II. The delta isomer. The possible mechanism of action of hexachlorocyclohexane. 22568
Herbicide combinations. 22614
The feasibility of using plant pathogenic nematodes produced in monoxenic culture for nematocide screening. (Abstract). 23218
Employment of maleic hydrazide in the storage of onion bulbs. 23377

ONTARIO
Scotylid vectors of the Dutch elm disease in Ontario. 15214

OOGENESIS
Ultrastructural aspects of oocyte development and shell formation in Ascaris lumbricoides. 14589
The reproductive biology of Hippelates collusor. III. Effect of temperature on oogenesis. 17067
Influence of the corpora allata on ovarian functioning in the male Pieris brassicae L. (Lepidoptera). 19639
Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 19785
Growth of follicular cells in Aphids. A cytophotometric and autoradiographic study. 20409
The endocrine and nutritional control of egg maturation in the fleshfly Sarcophaga bullata. 20444
The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles. 23034

OOSPORES
Factors in lima bean and hemp seed required for oospore formation by species of Phytophthora. harnish, w n. 15615

OPEROPHTERA BRUMATA
Population models for the winter moth. 17216
Notes on three species of Actia (Dipt., Tachinidae), parasites of Oak-feeding caterpillars. 22371

OPHIOBOLUS
Influence of direct-drilling of winter wheat on incidence of take-all and eyespot. 21104
Disease control in lawn turf, 1968. 21529
Disease control in putting turf; 1968. 21530

OPHIONINAE
Concerning some types of Limneria Hlgr. (Hym. Ichn. Ophioninae). 22876

OPHIONYSSUS
Control of the snake mite (Ophionyssus natricis), other mites, and certain insects with the sorptive dust, SG 67. 15507

OPIINAE
Bred Opiinae from Europe (Hymenoptera, Braconidae). 18526

OPISTHORCHIS
Helminthic infestations of piglets with reference to lesions encountered. 18371
Opistorchiasis in swine. 22165
On the trematodes: Euparyphium inerme (Fuhrman, 1904) (Echinostomatidae) and Haplorchis taichui (Nishigori, 1924) Witenberg, 1930); (Heterophyidae) in Indian dogs. 23373

OPISTHOSCELIS
Studies on the morphology and relationships of male Apiomorpha and Opisthoscelis (Hemiptera: Coccoidea). 14125

OPIUS
Pygidial glands in male Opius (Hymenoptera: Braconidae). 16367

OPOSSUMS
Cyanide as a poison in opossum control. 16194

OPUNTIA
With pests in the luggage. 18126

OPUNTIA EXALTATA
The effect of hot water treatment on a virus of Opuntia exaltata. 17354

OPUNTIA LEPTOCAULIS
Control of Whitebrush (Aloysia lycioides Cham.) with picloram. 22592

ORAESIA EXCAVATA
Naturally occurring insect control chemicals. Isoboldine, a feeding inhibitor, and cocculolidine, an insecticide in the leaves of Cocculus trilobus DC. 16234

ORANGES
Notice of filing of petition regarding pesticides. 14697
Domestic quarantine notices. Unshu oranges. Quarantine. 15961
Notice of withdrawal of petition for food additive gamma radiation. 16112
Notice of establishment of temporary tolerances for Pesticide chemical. 16170
2-(p-tert-butylphenoxy) cyclohexyl 2-propynyl sulfite. Notice of establishment of temporary tolerances for pesticide chemical. 16179
Entry of stem-end rot fungi in Florida oranges. (Abstract). 16555
Mode of entry of Diplodia natalensis and Phomopsis citri into Florida oranges. 17282
Exocortis in Ortanique orange. 18001
The influence of an organic soil amendment on infectivity and reproduction of Tylenchulus semipenetrans on two citrus rootstocks. 18144
Anatomy of greening-diseased sweet orange shoots. 18933
Citrus. Black spot, Guignardia citricarpa. 18949
Citrus. Black spot, Guignardia citricarpa. 18950

Chemical attractants for navel orangeworm moths.
19061

Phloem necrosis associated with the greening disease of sweet orange (Citrus sinensis). (Abstract).
20561

Foreign quarantine notices. Fruits and vegetables. Administrative instructions prescribing method of treatment of oranges, grapefruit, citrons (citrus medica) and tangerines for Mediterranean fruit fly.
20842

Foreign quarantine notices. Citrus fruits.
20843

The role of wounds in the infection of oranges by Penicillium digitatum Sacc.
21079

Notice of amended filing of petition regarding pesticides.
21499

The effect of several dithiocarbamate fungicides on black spot control and fruit quality in Valencia oranges.
21874

Effects of air pollutants on lemons and navel oranges.
23108

ORCHARDS

Occurrence and pathogenicity of Pythium in peach orchard soils. (Abstract).
18885

Weed control with paraquat in plantation crops.
19928

Orchard sanitation and brown rot control.
21870

Adapting chemical weed control programs to meet orchard conditions.
22603

ORCHIDACEAE

Orchid. Flower spot, Botrytis cinerea.
18747

Predators of aphids, associated with orchards. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
19049

The significance of Coccinellidae in the biological control of apple-tree aphids in the Alma-Ata fruit-growing region. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
19072

Responses to postplanting and preplanting soil fumigation in California peach, walnut, and prune orchards.
19106

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Diaspididae on commercially grown orchids in New Zealand.
19912

Spread of necrotic ringspot virus in a sour cherry orchard.
21114

Studies on some strains of tobacco mosaic virus in orchids. I. Biological, chemical, and serological studies.
21871

Virus diseases and orchids.
23091

OREGON

Biology of the black cherry aphid in the Willamette Valley, oregon.
15238

ORGANIC COMPOUNDS

Narcotic and toxic action of organic compounds on barnacle larvae.
14756

The penetration of organic-halide nematocides into Aphelenchos avenae. (Abstract).
15998

Stabilized pesticide compositions and methods for making same. Patent 3,393,990.
16244

The adsorption of chlorinated hydrocarbon pesticides on an unconsolidated aquifer substrate.
16901

A mechanism of resistance to organophosphorus acaricides in a strain of the cattle tick Boophilus microplus.
16993

Mode of action of organic thiocyanates as insecticides and carbamate synergists.
17073

Degradation of insecticides by esterases of the American cockroach.
17160

Vascular disease in organomercurial poisoning in swine. (Abstract).
17580

The effect of organic substrates on germination of the condia of Helminthosporium spp.8(Abstract).
17695

Biochemical transformations of anilide herbicides in soil.
17716

Organothiocyanates as insecticides and carbamate synergists.
17785

Selective recovery of volatile products from house flies treated with radioactive insecticide chemicals and synergists.
17796

Tests with insecticides for the control of resistant Myzus persicae (Sulzer) on year-round chrysanthemums.
18095

Methyl mercury compounds in fish.
18199

Toxic effects of odorous trace organics.
18417

Acetylcholinesterase insensitivity in the biarra strain of the cattle tick Boophilus microplus, as a cause of resistance to organophosphorus and carbamate acaricides.
18666

The effect of four organophosphorous insecticides on coccinellids and chrysopids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18759

Organochlorine residues in marine organisms.
19149

Chlorinated hydrocarbons in British wildlife.
19246

Organophosphorus substances. QD412.PIK33.
19320

On the compatibility of oranophosphorus insecticides with fungicides.
19325

Patterns of cross resistance to organophosphates and carbamates in Musca domestica.
20172

Esterases of mouse brain active in hydrolyzing organophosphate and carbamate insecticides.
20659

Determination of insecticide residue in animal and plant tissues. V. A device of preparing the specific detector of gas chromatography highly sensitive to organophosphorus insecticides.
20863

Detection of cholinesterase-inhibiting pesticides following separation on thin layer chromatograms.
20932

Control of strawberry mite (cyclamen mite) Steneotarsonemus pallidus (Banks 1901). 5th contribution.
21195

Organic insecticides and some recent trends in pest control.
21200

Studies on the synergetic effect of certain organophosphorus insecticides.
21204

Organic acids and grass tetany.
21277

The behavior of 32P labeled insecticidal organophosphorus compounds following intracisternal application to cattle, a contribution to the resorption of biologically active substances. 2. From the udder of cattle: trichlorfon, butonate, DDVP, and dimethoate.
21492

Organochlorine pesticides in Antarctica.
21509

The soil macrofauna and organochlorine insecticide residues at twelve agricultural sites near Huntingdon.
21513

Organic insecticides and fungicides. II. Some guanidine derivatives.
21557

Organotin-substituted s-triazines. Patent 3,412,090.
21558

Effect of growth-regulators on translocation and distribution of amino acids, organic acids, and sugars in Muscat of Alexandria grapes. (Abstract).
21930

Commonwealth of Australia Dept of Health Public Health Branch. Pesticides Review.
22184

A proposed method for evaluation of wetting agents on organic amendments used in horticulture. (Abstract).
22200

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on intermediary metabolism of 14C-labelled organic acids by pea root tips.
22215

Effect of amino acids and organic acids on the sexual reproduction of species of Phytophthora and Pythium.
22504

Evaluation of organic pesticides for possible use as fish toxicants.
23406

ORGANIZATIONS

Organisation of anti-rat campaigns.
18177

The Bavarian Department for Agriculture, Planting and Plant Protection, and its 'Group Plant Protection'.
21791

ORGANOPHOSPHATE COMPOUNDS

Residual sprays for the control of house flies, Musca domestica, in dairy barns.
20074

ORGANOPHOSPHATES

Pyrimidine nucleotide metabolism and pathways of thymidine triphosphate biosynthesis in Salmonella typhimurium.
20758

ORGANOPHOSPHORUS

A resistance mechanism in organophosphorus-resistant strains of sheep blowfly (Lucilia cuprina).
16994

ORGANOPHOSPHORUS COMPOUNDS

A comparison of the toxicity of various carbamate, organophosphorus and organochlorine compounds to the codling moth sB951.G7.
13793

Structure of organophosphorus compounds in relation to control of the southern chinch bug.
13813

ULV aerial insecticide application for adult mosquito control in Kentucky.
14318

New insecticides as nonthermal aerosols for control of adult mosquitoes.
14322

Control of mosquito adults and larvae with ultra-low volume aerial applications of Baygon and Baygon-Baytex mixture.
14326

The determination of phosphorus distribution by thin layer chromatography. 14788

New nematocides. 15268

Gas chromatographic determination of residues of organophosphorus pesticides with a modified flame ionization detector. 15561

Sweep co-Distillation cleanup of milk for determination of organophosphate and chlorinated hydrocarbon pesticides. 15601

Toxicity of insecticides to stable flies. 15796

Inheritance of resistance to organophosphorus acaricides in the cattle tick, Boophilus microplus. 15815

Brain cholinesterase activity and its inheritance in cattle tick (Boophilus microplus) strains resistant and susceptible to organophosphorus acaricides. 15816

Field evaluation of insecticides for control of the alfalfa weevil in Maryland, 1962-66. 15975

Resistance pattern in four strains of insecticideresistant green rice leafhopper, Nephotettix cincticeps Uhler, collected in fields. 15985

Testing of different pesticides as contact poisons against the adults of Myzus persicae Sulz (Homoptera: Aphididae). 15988

Method of controlling undesirable plant growth. Patent 3,385,689. 16013

The examination of surface waters and sewage effluents for organo-chlorine pesticides. SB951.A6. 16114

Investigations with the new organic phosphorus compounds. 16369

Effect of insecticide-free rearing on the reproductive potential of organophosphorus-resistant African strains of Aedes aegypti (L.). 16402

Metal salts of phosphorus acids and process. Patent 3,401,185. 16962

Extraction of organochlorine and organophosphate insecticides from lake waters. 16964

A review of drug toxicity in the cat. 18420

Cockroach control - past, present and future. 19567

The affect of insecticides on insects. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19616

Control of grassgrub and porina. 19873

Systemic phosphorous insecticides. A new method to study the uptake and translocation in plants. 19911

Preliminary trials of Fenthion, Ciodrin, and Chlorofenvinphos for the control of Boophilis microplus Can 1888, on cattle. 19990

Report of subcommittee E on recommendations of referees. (transactions of the association of official analytical chemists). 20076

IUPAC commission on the development, improvement, and standardization of methods of pesticide residue analysis. 20077

IUPAC commission on terminal residues. 20078

Toxicity of insecticides to fish. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20087

Toxicity of insecticides to warm blooded animals. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20088

Precautions of working closely with insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20092

Pharmacological affect of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20095

Macro- and microanalytical chemistry of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20128

Report on multiple residue methods. 20129

Report on phosphated pesticides. 20130

A new acaricide to control phosphate ester resistent spider mites through resistance--induced enhanced susceptibility. 20434

Influence of induction of hepatic microsomal enzymes by phenobarbital on toxicity of organic phosphate insecticides. 20870

Poisoning with organophosphorus insecticides. (abstract). 20882

Value of ED50 testing in assessing hazards of acute poisoning by carbamates and organophosphates. (abstract). 20883

The gas chromatographic determination of organophosphorus pesticides. II. A comparative study of hydrolysis rates. 20931

The effects on soil fauna of insecticides tested against wireworms (Agriotes spp.) in wheat. 21070

The toxicity of some soil insecticides to carabid predators of the cabbage root fly (Erioischia brassicae (Bouche)). 21523

Effect of temperature and humidity on the susceptibility of bedbugs to insecticides. 22455

An estimate of the area of Danish forestry which is treated with pesticides other than herbicides. 22518

Insecticides for control of insects attacking alfalfa seed in Eastern Nebraska. 22995

Developments in the resistance status of the southern cattle tick to organophosphorus and carbamate insecticides. 23043

Field tests of acaricides against Pacific spider mite on grapevines. 23209

Residues of Gardona in the body tissues of cattle sprayed to control Hypoderma spp. 23395

Methyl parathion resistance in a laboratory strain of the bollworm. 23445

Field tests of systemic insecticides for the control of sitka-spruce weevil. 23195

ORGANOTIN BORATES

Method for preventing plant growth with organotin borates. patent 3,361,554. 14487

ORGANOTIN COMPOUNDS

House-fly adenosinetriphosphatases and their inhibition by insecticidal organotin compounds. 14243

ORGILUS LEPIDUS

A new braconid parasite of the potato tuberworm (Hymenoptera). 14236

ORIBATEI

Studies on the moss mites of Snowdonia (Acari: Oribatei). 1. Moel Hebog. 13749

Ecological specialization and production of forms in Oribatoid mites. 15718

New Oribatids (Acari) from Vietnam. 17003

New Orbatids (Acari) from New Guinea. 17004

Gamasid mites (Gamasoidea) as vectors of the disease causative agents. 17915

Rhysotritia ardua larva (C. L. Koch) 1836 (Acarina, Oribates). 19438

Oribatei from a bird nest. 19474

New observations on Oribates. (5). 19617

Biology of Melanozetes mollicomus (Koch) (Oribatei, Ceratozetidae). 20261

ORIBATIDAE

Data on the oribatids (Acari) of Spitsbergen. 22884

ORIENTAL REGION

A tropic relict in the desert fauna of braconids (Hymenoptera, Braconidae) of Middle Asia. 16344

Phytoseiid mites from Okinawa Island (Acarina: Mesostigmata). 19598

Golanudiplosis japonicus--a new midge attacking comstock mealybug in Japan (Diptera: Itonididae). 22274

ORNAMENTAL PLANTS

Occurrence of Rhizoctonia spp. in seeds of small grains and other plants. 14354

Further additions to the list of fungus pathogens recorded in Chile. 15145

Parasitic fungi of the main subtropical ornamental plants in Abkhaz. 15873

Physical and chemical factors controlling the development of infection structures from urediospore germ tubes of rust fungi. 15907

Pathogenic variability within Phytophthora parasitica as related to formation of post-infectional antifungal substances in Peperomia. 16678

Virus diseases in ornamental plants. 17358

Ornamentals. 18164

Diseases of crops and ornamental plants incited by air pollutants. 19233

Influence of low levels of ozone on flowering of carnations. 19270

Diseases of greenhouse plants, 1967. 20569

Insects attacking agricultural crops and ornamental plants in Ontario in 1965. 20605

Experiment results and problems of phytopathogenic viruses in German Democratic Republic. 21134

Incorporation of herbicides in mulches. 22584

The influence of volatile 2,4-D upon zinnias, snapdragons, and other bedding plants as affected by other gases such as SO2 and NH3.
22822

ORNITHODOROS

Descriptive notes on Ornithodoros ticks from gull nests on the Farallon Islands and isolation of a variant of Hughes virus.
14108

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. The argasid tick Ornithodoros capensis Neumann, from the Kermadec Islands.
19472

Presence in Gaudeloupe of the ornithodoros Alectorobius puertoricensis (Fox, 1947) (Acarina: Ixodoidea).
20237

ORNITHONYSSUS SYLVIARUM

Synergism of malathion against the northern fowl mite.
14238

Northern fowl mite control on mature turkeys on range.
18350

ORNITHOSIS

The histopathologic characteristics of diseases producine inflamation of the air sacs in turkeys-a comparative study.
15324

Case report- An outbreak of ornithosis in New Mexico.
15367

Factors affecting the production and detection of ornthosis antibodies in infected turkeys.
15425

Histologic changes and inclusion bodies in chickens inoculated with an ornithosis agent.
17490

Avirulent mutant of a strain of ornithosis agent obtained by gamma irradiation.
18195

An outbreak of Ornithosis in fowls.
18318

Detection of or ornithosis in the western urals. gorovitz, e s.
19209

On the isolation of some strains of the Miyagawanella psittaci virus.
21450

OROBANCHE

Control of Orobanche under natural and artificially infested conditions.
22583

OROTIC ACID

Incorporation of H3- and C14-labeled orotic acid into ribonucleic acid of isolated bean rust mycelium. (Abstract).
14358

ORTHOPODOMYIA

A prodrome of the genus Orthopodomyia (Diptera, Culicidae).
17775

ORTHOPTERA

Some Orthopteroid insects of the orders Blattoptera, Orthoptera and Dermaptera from Afghanistan.
13712

A numerical taxonomy of orthopteroid insects.
14032

The evolution of genitalia and mating behavior in crickets (Gryllidae) and other Orthoptera.
14146

The phylogenetic development of food selection in certain orthopteroids.
17825

Biting in Orthoptera and their allies.
17826

On the tetrapyrrolic pigments, essential constituents of homochrome:coloration in Oedipoda coerulescens L. (Acridae, Orthoptera).
17895

Two subgenera of Pyrgomorphidae (Orth., Acridoidea) raised to generic status on the basis of their phallic structures.
18507

Grasshoppers (Orth., Acrididae) in Radnorshire.
18514

Two Gloucestershire orthopteroids.
18529

Histological and histochemical data on the female genital organs and on the ootheeal secretions of several Acridids (Orth. Acridoidea).
19431

Studies in Nearctic desert sand dune Orthoptera. XI. A new arenicolous species of Stenopelmatus from Coachella valley with Key and biological notes.
19506

Cannibalism during copulation in the brown bush cricket, Hapithus agitator (Gryllidae).
19538

On the hemopoietic nature of the phagocytic organ (Cuenot) of Grillus bimaculatus (Orthoptera Ensifera).
19627

Notes on the biology of two species of Rhapaidophoridae (Orthoptera) in Tasmania.
19709

Effects of different concentrations of sodium, potassium and calcium on the rate of heart beat of Madiera cockroach, Leucophaea maderae Fabr.
19720

The Italian locust Calliptamus italicus L. (Orthoptera, Acrididae) in Kara-Kalpakia.
19733

Some Californian oedipodine grasshoppers, particularly three species given the specific name occidentalis by Lawrence Bruner (Orthoptera, Acrididae).
20203

The collection of Dr. M. Gaillard in Kolda, Senegal. Orthoptera and closely related orders.
20254

A study of the genus Chrotogonus (Orthoptera). VIII. Patterns of variation in external morphology.
20308

The use of the mouthparts of Orthoptera during feeding.
20343

A key to the grasshopper species (Orthoptera:Acridoidea) recorded from Ghana.
20962

Some Orthopteroid insects of the orders Blattoptera, Orthoptera, and Dermaptera from Afghanistan.
21594

Additions and corrections to volume 8 of the work of P. P. Grasse (Morphology of the Arthropods). Part 17, no. 51. Orthoptera: head.
22962

The characteristics of the over-ground and soil zoomicrobiological complexes of the steppe landscapes in western and middle Siberia.
23051

ORYCTOLAGUS CUNICULUS

Fleas found on rabbits and other mammals from a pasture.
21586

ORYZAEPHILUS

Fumigant toxicity of 1,2,3-tribromopropene, ethyleneimine, crotyl bromide and carbon tetrachloride to stored-product insects.
14888

ORYZAEPHILUS SURINAMENSIS

Some observations on Oryzaephilus surinamensis L. (Col., Silvanidae) in a temperature-moisture gradient.
13764

Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae).
13782

Glutamic acid requirements of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae).
16286

Quantitative dietary requirments of Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae) for phenylalanine and tyrosine.
16378

Small chamber tests of ethylene dibromide and ethylene dichloride on adult grain-infesting Coleoptera.
16382

The occurrence of Oryzaephilus surinamensis (L.) (Col., Silvanidae) on dried chicory.
19095

OSBORNIELLA

A new species of Osborniella (Mallophaga: Menoponidae) from Trinidad.
20287

OSCINELLA FRIT

The control of frit fly, oscinella frit (L.), in sweet corn (Zea mays) by Thimet (O,O-diethyl S-ethylthiomethyl phosphorodithioate).
14441

Observation on the effect of temperature on the development and the leg coloration of Oscinella frit L. (Dipt., Oscinellidae).
18591

The occurence of frit flies (Diptera, Chloropidae) in cereal crops in Sweden 1961-1963.
20589

A contribution to the fruit fly resistence in certain lines of corn and hybrids.
21966

OSMOSIS

The effect of Anaplasma marginale infection on the metabolic and osmotic behavior of bovine erythrocytes.
16813

OSMOTIC PRESSURE

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus.
16613

Nutrition stress in relation to Fusarium wilt and root rot of alfalfa.
21064

The regulation of osmotic pressure in Galleria mellonella L.
22428

OSTEOPETROSIS

Electron microscopic detection of an avian tumor virus in mononuclear cells from the blood of chickens with experimental osteopetrosis.
21430

OSTERTAGIA

Nematodiasis in Louisiana dairy cattle. Impact of host nutrition upon experimental ostertagiasis in the bovine.
18212

Anthelmintic activity of two organic phosphorus compounds, coumaphos and naphthalophos, against gastrointestinal nematodes of cattle.
21466

Experimental infections of Ostertagia ostertagi in calves: Results of two regimens of multiple inoculations.
22756

Effect of the levo form of tetramisole on Ostertagia, Trichostrongylus, and Cooperia in cattle.
22772

OSTERTAGIA OSTERTAGI

The possible existence of two strains of Ostertagia ostertagi.
14581

Efficacy of tetramisole. Studies on the efficacy of tetramisole in the treatment of pre-type II and type II bovine ostertagiasis.
16882

Oral tetramisole; effect on Dictyocaulus viviparus, Ostertagia ostertagi and Cooperia oncophora in experimentallyinfected calves.
16883

Morphological changes in a parasitic nematode due to acquired resistance of the host. 21190

OSTERTAGIASIS

Efficacy of tetramisole. Studies on the efficacy of tetramisole in the treatment of pre-type II and type II bovine ostertagiasis. 16882

Efficacy of naphthalophos and coumaphos against nematodes of goats. 17543

Parasitic hypoalbuminaemia: Studies on type II ostertagiasis of cattle. 17603

Calcium and magnesium absorption in the young calf following induced parasitism, Ostertagia spp. (Abstract). 17621

Nematodiasis in Louisiana dairy cattle. Impact of host nutrition upon experimental ostertagiasis in the bovine. 18212

OSTRINIA

European corn borer survey finds counts generally lower. 14436

Effects of mulching and nitrogen on corn borer susceptibility in corn. 15248

OSTRINIA NUBILALIS

Isolation of a sex pheromone of the European corn borer. 13816

Preliminary report of the effects of bacterial species upon the European corn borer. 14239

European corn borer. In:Smith, C.N.Insect colonization and mass production. QL497.S6. 15807

Differences in ecological responses of three biotypes of Ostrinia nubilalis from the north central United States. 16280

Nutrition of European corn borer, Ostrinia nubilalis. VI. A larval rearing medium without crude plant fractions. 17077

Field tests of chemicals for control of the European corn borer. 17831

Results of efficiency studies on carbaryl in granular form at 5 per cent and 7.5 per cent of the active ingredient for the control of pyralids of corn. 21976

Daily weight gain of the European corn borer reared on artificial media (Lepidoptera: Pyraustidae). 22373

OTITESELLINI

Redescription of Sycophaginae from Ceylon and India, with designation of lectotypes, and a world catalogue of the Otitesellini (Hymenoptera Chalcidoidea, Torymidae). 13762

OTITIS

Detection of antibiotic-fast staphylococci in otitis externa in dogs. 18346

The association of yeasts with chronic otitis externa in the dog. 20004

OTOBIUS MEGNINI

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia. 19903

OULEMA MELANOPA

Cereal leaf beetle. proposed quarantine in Illinois and certain other states. 14130

OULEMA MELANOPUS

The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle. 16357

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions. 16485

Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 16713

Resistance of barley (Hordeum vulgare L. Emend. Lam.) to cereal leaf beetle (Oulema melanopus L.). 17379

OUTLOOK

Integrated control of forest pests. in: FAO symposium on integrated pest control, Rome, 1965. Proceedings SB951.F62. 15978

OVA

Iodine uptake by ova of hens given excess iodine and effect upon ova development. 14534

Action of aqueous iodine on ova of Ascaris lumbricoides an Ascaris suum. 16716

Studies on the spring phenomenon in ovine helminthiasis. I. Spring rise in stabled sheep. 18372

OVARIAN CYSTS

Cystic ovarian disease in dairy cattle: With special reference to its treatment using a combination of Chorionic gonadotrophin and progesterone. 18200

Effects of temperature on in vitro excystation of various Eimeria species. 22091

OVARIES

Immunofluorescence studies on Bombyx mori ovarian tissue cultures infected with nuclear-polyhedrosis virus. 13817

A simple method of mosquito ovary dissection. 13827

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera). 13844

Some relationships of face fly feeding, ovarian development, and incidence on dairy cattle. 14233

Variations in uterine response to experimental infection due to the hormonal state of the ovaries. II. The mobilization of leukocytes and their importance in uterine bactericidal activity. 15288

Solubility and electrophoretic properties of ovarial protein of the cockroach, Leucophaea maderae. 15752

The effects of cadmium compounds on reproduction and growth of the stable fly, Stomoxys calcitrans (Linnaeus). 16410

Experimental prediction of occurrence of leafhopper. 5. ovary maturing condition and egg-laying in the weeds of leafhopper hibernated imago. Transl. 16901. 17169

Analysis of the development of oviducts and the developmental relations between oviducts and ovaries in Drosophila virilis. Part one: Development of oviducts under normal and experimental conditions. Part two: Analysis of alterations occurring in oviducts during imaginal life. 17782

On the biology of several Trechinae and Sphodrinae. (Insecta, Coleoptera). 17808

Dry season biology of Anopheles gambiae Giles in the sudan. 18651

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical formes to vermicules. 19606

Influence of the corpora allata on ovarian functioning in the male Pieris brassicae L. (Lepidoptera). 19639

The fecundity of females of Tabanus bovinus and Hybomitra solstitialis in relation to their physiological state. 19691

Oostatic hormone production in houseflies, Musca domestica. with developing ovaries. 20293

A study on gonotrophic cycle of the mosquito Aedes vexans Meig. in South Moravia. 20350

Results of ovary transplantations in Locusta migratoria imagos. 20441

Three cases of metritis. 21434

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 21698

Results of the transplantation of the ovaries of imagos to Locusta migratoria (L.). 21749

The sterilizing action of parathion on the ovaries of quail and chicken embryos in in vitro culture. 22424

Histological observations of the formation of elementary and reproductive ova in the ovaries of Plagiolepis pygmaea Latr. (Hymenoptera Formicidae). 22435

The determining factor in the stabilization of the acid content (hydroxy-10 decene-2 oique) in the ovaries of Apis mellifica L. 22442

The pattern of movements of adults of the Northern corn rootworm inside and outside of corn fields. 22952

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants. 23031

Biological observations on some sand flies (Phlebotomus) of Rancho Grande (Venezuela). 5. Gonadotrophic characteristics of Phlebotomus towsendi. 23039

Apholate-induced sterility in Bracon hebetor. 23063

Histological studies of ovaries in rats treated with hydroxyurea triphenyltin acetate, and triphenyltin chloride. 23407

OVICIDES

Ovicidal activity of aliphatic amines and petroleum oil against two species of mosquitoes. 13883

Chemical ovicidal measures as applied to Taenia hydatigena, Taenia ovis, Taenia pisiformis, and Echinococcus granulosus. 15516

Chemistry of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19682

OVIDUCTS

Analysis of the development of oviducts and the developmental relations between oviducts and ovaries in Drosophila virilis. Part one: Development of oviducts under normal and experimental conditions. Part two: Analysis of alterations occurring in oviducts during imaginal life. 17782

Experimental colibacillosis and the development of carries in laying hens. 18206

OVIPOSITION

Reproductive capacity of two strains of Cryptolestes turcicus (Coleoptera: Cucujidae).
14154

The biology of the fir tree borer, Semanotus litigiosus (Coleoptera: Cerambycidae), in California.
14288

Life history and habits of the willow beaked gall midge, Mayetiola rigidae (Diptera: Cecidomyiidae), in Michigan.
15829

Observations on oviposition and life history of an aquatic bug, Sphaerodema rusticum Fabr. (Hemiptera).
17071

Habitat selection by Lipara lucens Mg. (Diptera, Chloropidae) and its survival value.
17761

Association of folin positive material with the blood proteins of the American cockroach and the oviposition cycle.
18659

Studies on the oviposition behavior and the development of the type of Aedes aegypti L. (Dipt., Culicidae). V.
18684

Ovulation and induced egg laying by copulation among Drosophila; drop in the percentage of germinating eggs as a function of the duration of their retention.
19667

Egg laying mechanism in Rhipicephalus sanguineus (Latreille) (Acarina: Ixodidae).
19679

Oviposition cycles and the stimulus for oviposition in Dermestes maculatus DeGeer (Coleoptera: Dermestidae).
20372

Biology of the black widow spider, Latrodectus hasselti Thorell (Araneida: Theridiidae).
21697

A note on the oviposition of Simulium (S.) abgyreatum Meigen.
22437

OVIPOSITORS

A comparison of the toxicity of various carbamate, organophosphorus and organochlorine compounds to the codling moth sB951.G7.
13793

Supplementary observations of the early developmental stages of Albia caerulea (Acarina: Axonopsidae).
14176

Insemination without spermatophores in the oriental fruit moth, Grapholitha molesta (Lepidoptera: Tortricidae).
14189

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera).
14201

Laboratory observations of aedine mosquito oviposition (Dipthera, Culicidae, Aedes).
14976

The diel oviposition periodicity of the black fly, Simulium vittatum.
16372

Life history of the looper Phigalia titea in Virginia.
17889

Anthocoris melanocerus as a predator of the green peach aphid on sugar beets and broccoli.
18121

Association of folin positive material with the blood proteins of the American cockroach and the oviposition cycle.
18659

Drosophila endobranchia, a new drosophilid associated with land crabs in the West Indies.
19575

Gonadotrophic cycles in the face fly, Musca autumnalis.
19669

Aspects of mating behavior of the gypsy moth.
19771

A study on gonotrophic cycle of the mosquito Aedes vexans Meig. in South Moravia.
20350

The effect of protein sources and of the frequency of egg collection on egg production by the housefly (Musca domestica L.).
20426

Fine-structural changes in relation to ion and water transport in the rectal papillae of the blowfly, Calliphora.
21487

Selection of aphid prey by Adalia bipunctata L. and Coccinella 7-punctata L.
21512

Comparative study of the methods of counting Panonychus ulmi Koch populations.
23008

OVULATION

Two semiartificial oviposition media for the smaller European elm bark beetle.
13792

Pulsed ultrasonic sound for control of oviposition by cabbage looper moths.
13835

Effect of gamma irradiation on female Culex pipiens quinquefasciatus.
13851

Temperature responses of the periodical 17-year Cicada, Magicicado cassini (Homoptera, Cicadidae).
14059

The ecology of cold hardiness in different populations of the black currant gall mite, Cecidophyopsis ribis.
14124

The effect of illumination and pool brightness on oviposition by Culex restuans (Theo.) in the field.
14157

The influence of soil moisture and some soil physical factors on the ovipositional behavior of the prairie grain wireworm, Ctenicera destructor.
14182

A note on the oviposition of Simulium (S.) argyreatum Meigen.
14245

Cabbage loopers. In: Smith, C.N.Insect colonization and mass production. QL497.S6.
15760

Tobacco hornworms. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15764

Stimulations of oviposition by the cabbage root fly Erioischia brassicae.
15820

Colonization of Wyeomyia smithii (Coquillett) from Connecticut.
15825

Estimation of oviposition by the fir engraver, Scolytus ventralis (Coleoptera: Scolytidae).
16361

Biology of Deltocephalus sonorus (Homoptera: Cicadellidae).
16394

The effects of cadmium compounds on reproduction and growth of the stable fly, Stomoxys calcitrans (Linnaeus).
16410

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm.
16418

Bioclimatic studies of the aphid parasite Praon exsoletum. I. Effects of temperature on the functional response of females to varying host densities.
16432

Ovarioles of the Blattaria.
16445

Biological notes on, and eradication of Trichogramma semifumatum from laboratory cultures of eight species of Noctuidae.
16458

Some physiological effects of sublethal doses of DDT on flour beetles.
16462

Effects of some physical and biological factors on the reproduction, development, survival, and behavior of the cereal leaf beetle, Oulema melanopus (Linnaeus), under laboratory conditions.
16485

Time of arrival of gravid Culex pipiens fatigans at an oviposition site, the oviposition cycle and the relationship between time of feeding and time of oviposition.
16500

Cane-sugar feeding in Culex pipiens fatigans.
16501

Biophysical and biochemical studies on the nature of resistance of pineapples to the oriental fruit fly.
16710

Individual egging device for tephritid flies.
16981

Sterilization of the azuki bean weevil, Callosobrochus chinensis, by metepa and hempa.
17080

An improved method for embedding and sectioning eggs of the migratory grasshopper, Melanoplus sanguinipes Fab. (Orthoptera: Acrididae).
17106

Oviposition behavior of the face fly in caged cow manure pats.
17128

Crowding effects on plum curculios reared at several densities on two sizes of green apples.
17136

Histological changes produced by a ruby laser in Neodiprion sertifer Geoff.
17145

Diapause in gypsy moth.
17155

Further studies on the effect of bovine diet on face fly development.
17766

Laboratory propagation of Muscidifurax raptor on face fly pupae.
17794

Preliminary observations on the effect of alcohol and oil films on the oviposition of Culex pipiens quinquefasciatus (Say).
17844

Winter oviposition by the alfalfa weevil in Virginia.
17900

Oviposition preferences of western corn rootworms for various soil surface conditions.
18100

Response of beef cows to exogenous progesterone and estradiol at various stages postpartum.
18192

Stimulation of yolk deposition in an ichneumonid parasitoid by feeding synthetic juvenile hormone.
18588

Quantity of aphids required for reproduction by Hippodamia spp. in the laboratory. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18612

Effect of blood fractions upon oviposition in Culex(Culex) fatigans Wiedemann (Dipt., Culicidae).
18671

Studies on the oviposition behavior and development of the type form of Aedes aegypti L. (Dipt., Culicidae). IV. Light intensity.
18685

Studies on the oviposition behaviour and development of the type form of Aedes aegypti L. (Dipt., Culicidae). III. Temperature.
18686

Ovulation and induced egg laying by copulation among Drosophila; drop in the percentage of germinating eggs as a function of the duration of their retention. 19667

Oviposition cycles and the stimulus for oviposition in Dermestes maculatus DeGeer (Coleoptera: Dermestidae). 20372

Effect of oviposition sites on egg production and longevity of Trogoderma parabile (Coleoptera: Dermestidae). 20383

Teflon and cornstarch-coated paper as substrates for oviposition by cabbage looper moths. 22408

Oviposition and development of the face fly in feces of six species of animals. 22940

Some factors influencing the occurrence and site of oviposition by aphidophagous Syrphidae (Diptera). 22951

The pattern of movements of adults of the Northern corn rootworm inside and outside of corn fields. 22952

OXALATES

In vitro degradation of oxalate and of cellulose by rumen ingesta from sheep fed halogeton glomeratus. 15390

Pigweed (Amaranthus retroflexus). an oxalate-containing plant. 15404

Oxalate metabolism in sheep and its effect on the anion-cation balance. 18188

Oxalate metabolism in sheep II. Effect of low level Halogeton glomeratus intake on electrolyte metabolism. 18262

Oxalate biosynthesis and pathways for glucose catabolism in Sclerotium rolfsii Sacc. 18459

Pigweed (Amaranthus retroflexus): An oxalate-containing plant. 22690

OXALIC ACID

Oxalic acid biosynthesis by Sclerotium rolfsii. (Abstract). 18460

Influence of carbon source and pH on the accumulation of oxalic acid in culture filtrates of Sclerotium rolfsii. (Abstract). 20902

Organic acids and grass tetany. 21277

OXALIDACEAE

Weeds worth watching... The soursobs . 22611

OXALIS CERNUA

On the dispersal of the bulbs of Oxalis cernua Thunb. by mole-rats (Spalax ehrenbergi Nehring). 18163

OXATHIINS, 1,4-

2,3-dihydro-5-carboxamido-6-methyl-1,4-oxathiins and method of making same, Patent 3, 393,202. 23443

OXIDASES

Indoleacetic acid oxidase activity in banana roots. 16629

Insect oxidases and detoxication of carbamate insecticides. 17103

The role of mixed function oxidases in diterpene metabolism. 17267

Phenol oxidases of a lozenge mutant of Drosophilia. 18653

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(41-chlorophenyl)-1,1-dimethylurea (monuron). 20498

Effect of B-indolylacetic acid on the growth and the auxin catabolism of Lactobacillus bulgaricus. 21086

OXIDATION

Oxidative metabolic patterns displayed by Pseudomonas sauastanoi on carbohydrate and amino substrates. (Abstract). 19315

OXIDATION-REDUCTION POTENTIAL

The effect of wilting on redox potential of cereal leaves. 14771

Oxidative activity of Botrytis cinerea extracts in alcohol. (Abstract). 17680

Effects of manganese and iron application on their solubility, absorption and growth of oat plants. 20912

OXIDES

Process for preparing benzimidazole N-oxides. Patent 3,398,157. 16947

The comparative histochemistry of some hydrolytic and oxidative enzymes in the livers of several domestic and laboratory animals. 21255

OXOACIDS

Production of keto acids by Ceratocystis fagacearum and Ceratocystis coerulescens. 19265

OXODEC-TRANS-ENOIC ACID, 9-

Effects of chemosterilants and growth regulators on the pea aphid fed an artificial diet. 13769

OXODECENOIC ACID, 9-

A sex attractant acting as an aphrodisiac in the honeybee (Apis mellifera L.). 14169

OXYDEMETONMETHYL

Control of the elm leaf beetle in Arizona. 18128

The effect on honeybee mortality of applying insecticides as sprays or granules to flowering field beans. 18604

Effectiveness of the systemic insecticide oxydemetonmethyl applied in liquid fertilizer for green peach aphid control on chrysanthemum. 19910

Poisoning of bees by insecticides. 22183

Results of integrated pest control in plum cultures. 23059

Field tests of systemic insecticides for the control of sitka-spruce weevil. 23195

European pine sawfly control with aircraft application of concentrate insecticidal sprays. 23213

OXYGEN

Respiratory environments of grain-infesting weevils. i. comparison of culture-jar and laboratory rearing-room atmospheres. 13861

Influence of oxygen supply on survival of plant parasitic nematodes in soil. 15272

Oxygen consumption by soil larvae of insects in dependence on its tension. 16442

Photosynthetic activities of cotton plants infected with Verticillium albo-atrum. 16634

Oxygen consumption and germination of Cronartium fusiforme aeciospores. 16694

Process for preparing benzimidazole N-oxides. Patent 3,398,157. 16947

Anaerobic induction of primary chemical attractancy for ambrosia beetles. 17115

The effects of various oxygen tensions on embryogeny and larval responses of Aedes aegypti. 17141

A study of radiation-induced dominant lethals and translocations in Drosophila virilis in an oxygen atmosphere at 4 C. 17235

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants. 17253

Metabolic changes in oxygen-deficient tomato roots. 17261

Supply of oxygen during hatching of the nematode Meloidogyne javanica under non-competitive conditions. 17419

Effect of a lathyrogen on oxygen consumption and C1402 respiratory pattern of C14-labeled amino acids in developing chick embryos. (Abstract). 17471

Effects of lathyrogens and nonlathyrogens on chick embryo oxygen consumption when injected onto various sites. (Abstract). 17475

Dependence on fatty acid chain length of oxygen uptake and decarboxyylation by Cronartium fusiforme aeciospores. 17712

Mechanisms of inhibition and uncoupling of oxidative phosphorylation in housefly mitochondria. 17899

Developmental characteristics of five lethal mutants of Drosophila melanogaster. 17908

Exudation of amino acids by intact and damaged roots of wheat and peas. 18718

Oxygen uptake by Trypanosoma lewisi--complex cells. IV. E and Sp isolates. 20044

Relationship of oxygen requirements to index-organism classification of immature aquatic insects. 20408

Cytological changes in the fat body of Rhodnius during starvation, feeding and oxygen want. 21034

Notice of amended filing of petition regarding pesticides. 21499

Measurement of oxygen consumption of wheat stem rust uredospores with an oxygen electrode. 21834

Oxygen consumption in adult Echinostoma revolutum. 22172

Respiratory and enzymatic studies with Verticillium alboatrum from cotton. 22219

The influence of rooted aquatic plants on the dissolved oxygen content of water. 22805

C02:02 ratios in relation to weed seed germination. 22821

OXYGENATED ORGANIC SOLVENT

Post-emergence herbicidal mixture and method of use. patent 3,340,042. 14482

OXYOPES SALTICUA

A comparison of predator populations in cotton under different control programs in Mississippi. 17389

OXYRHACHIS
A clarification of certain structures in the thoracic region of Oxyrhachis (Homoptera'-Membracidae). 14821

OXYTETRACYCLINE
Food additives permitted in food for human consumption. oxytetracycline, carbomycin. 14768

Chemicals for plant disease control. 15128

The influence of terephthalic acid on oxytetracycline serum levels in chickens. Studies on mode of action, 1. 15442

The effect of the use of antibacterial drugs, particularly as food additives, on the emergence of drug-resistant strains of bacteria in animals. 15467

The therapeutic value of terramycin-TPA on CRD. 15491

Notice of filing of petition for food additive oxytetracycline. 15585

Absorption, translocation, and persistence of radio-labeled dimethyl sulfoxide applied as a foliar spray to peach trees. (Abstract). 16122

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 16157

Food additives permitted in feed and drinking water of foodproducing animals. Amprolium, oxytetracycline, zoalene. 17521

Qualitative identification of chlortracycline and oxytetracycline in feeds. 18491

Modification of the intestinal flora of calves with milk treated with oxytetracycline. 19979

Notice of withdrawal of petition for food additive oxytetracycline. 21272

Necrotic enteritis of chickens. 22049

OXYTETRACYCLINE HYDROCHLORIDE
Oxytetracycline hydrochloride. 16080

OXYTETRACYCLINE-HYDROCHLORIDE
Notice of filing of petition for food additive Oxytetracycline. 16073

OXYTOCIN
Effects of oxytocin administered during the dry period on the succeeding lactation. 13948

OXYURIASIS
Oxyuriasis in laboratory mouse colonies. 15386

Naturally occurring oxyuriasis in mice. 19966

OYSTERS
Pesticide monitoring programs. 16113

Food chain studies. 16192

OZONE
An exposure chamber for forestry air pollution studies. (Abstract). 14342

Comparative effectiveness of some equipment and methods of measuring low concentrations of ozone. 15180

Characterization of the plant damage problem by air pollutants in New Jersey. 15538

Effects of Lophodermium pinastri and Pullularia pullulans on healthy and ozone-injured needles of Pinus strobus. (Abstract). 15872

Effects of ozone injury to ponderosa pine. (Abstract). 16215

A comparison of the effects of ozone and sulfhydryl reagents on plants. (Abstract). 16233

An exposure chamber for studying the effects of air pollution on plants. (Abstract). 16532

Relative sensitivity of twenty-two tree species to ozone. (abstract). 16565

Effects of ozone on conidiophores and conidia of Alternaria solani. 16663

Factors affecting acute injury of Pinus strobus by ozone. (Abstract). 16674

Ozone damage and semimature-tissue needle blight of eastern white pine. 16925

Effect of pollution of air with ozone on flavor of spraydried.milks. (Abstract). 17629

The ozone resistance of leaves as related to their sulfhydryl and adenosine triphosphate content. 17708

Selective staining of dead cells in bean leaves injured by ozone. 17931

The relationships of ozone, Lophodermium pinastri and Pullularia pullulans to needle blight of Eastern white pine. 17972

The response of bean to ozone as related to infection by Pseudomonas phaseolicola. (Abstract). 18009

Influence of low levels of ozone on flowering of carnations. 19270

Sensitivity of tobacco leaf discs to ozone. (Abstract). 19295

Ozone injury on Bel W-3 tobacco controlled by at least two genes. (Abstract). 19307

Relation of lipid content to ozone resistance of tobacco leaves. (Abstract). 19308

Effect of temperature on response of plants to ozone as conducted in a specially designed plant fumigation chamber. 21062

Ozone damage and semimature-tissue needle blight of eastern white pine. 21884

PACHYLOBIUS PICIVORUS
Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species. 13925

A description of the pupa of the pales weevil, Hylobius pales, and a method for identifying its sex. 17773

PACIFIC NORTHWEST
The equine respiratory disease syndrome in the Pacific Northwest. 18272

PACIFIC REGION
Aedes aegypti in the Western Pacific region. 15841

The control of Aedes aegypti in South-East Asia and the Western Pacific. 15844

PACKING
Permeability to methyl bromide of wrappers found on shipments of imported plants. 17274

The ramifications of salmonellosis. 17622

Penicillium and Botrytis rot of mcintosh apples in water. 18783

PAEONIA
Pyrethrum in peonies. 20500

PALEARCTIC REGION
Ecological specialization and production of forms in Oribatoid mites. 15718

New data concerning the parasitic relationships of Conopids (Diptera, Conopidae). 15831

The genera of the Palearctic Tortricidae. II The subfamily Olethreutinae. Eight parts and conclusion with a total index of all parts. 17046

Contribution to the knowledge of Staphylinidae. XCVII. Cryptobium of the western palearctic. 20188

Contribution to the study of Dipterous malacophages VI. Pherbellia fuscipes (Macquart, 1835), a valid Palearctic species, similar to P. dorsata (Zetterstedt, 1846) (Diptera Sciomyzidae). 20273

Notes on the morphology of a rare Palearctic Opilionid (Opilionidae). 22915

PALEOENTOMOLOGY
Palaeoasemum crowsoni and P. duffyi, a new genus and two new species of the Asemini (Coleoptera, Cerambycidae) from the Baltic amber. 20164

Amber bark beetles from the Zoological Museum of the University of Copenhagen. 247. Contribution to the systematics and morphology of the Scolytoidea. 20422

A revision of the Tertiary fossil species of the Kalotermitidae (Isoptera). 22270

On the occurrence of fossil insects in the mesozoic rocks of western Australia. 22325

PALEXORISTA
A revision of the oriental species of Palexorista Townsend (Diptera: Tachinidae, Sturmiini). 17744

PALLOPTERA USTA
An observation concerning the basic question of the efficiency and worth of natural enemies of pests. 15983

PALMAE
On the life history and habits of the palm weevil, Rhynchophorus palmarium. 14820

The presence of Omphalia sp. Bliss in a Mauritanian palm grove. 21544

PALMITIC ACID
Fatty acids of the mosquito, Anopheles freeborni. 17123

Lipid changes during the life cycle of Sarcophaga bullata. 17158

PALYNOLOGY
Comparative study of pollen sources of honeybees and bumble bees. 16408

PANAMA
Cycloguanil pamoate in the treatment of cutaneous leishmaniasis. Initial trials in Panama. 21054

PANAMA CANAL ZONE
Culicoides control in the Canal Zone by water management. 17912

PANAMA DISEASE (BANANAS)
Banana diseases in the Pacific area. 20520

PANCALIA
The systematic status of some genera of the Heliodinidae/ Schreckensteiniidae together with a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera).
14052

PANCREAS
Nucleoside phosphorylase and xanthine dehydrogenase in dedevelopment of normal and dystrophic chickens. (Abstract).
17485

Alterations in the response and functions of the chicken pancreas induced by feeding unheated and autoclaved soybean meal.
18314

Opistorchiasis in swine.
22165

PANDEMIS CERASANA
The natural history of three oak-feeding Tortricids: Ptycholoma lecheana (L.), Pandemis cerasana (Hb.) and Batodes angustiorana (Haw.).
17161

PANICUM MAXIMUM
Observations on the use of preplant herbicides in pasture establishment in the wet tropics.
22557

PANISOPSIS
Two new species of Thyasidae (Acarina) from Nikko National Park Japan.
17752

PANMEDE
A growth medium for mycoplasmas and its modification for longer survival of M. mycoides in culture.
16946

PANOGEN
Seedling disease of wheat caused by Sclerotium rolfsii.
15098

Evidence for systemic protection against Rhizoctonia solani with Vitavax in cotton seedlings.
18788

PANONYCHUS
Fecundity, longevity, and transinfectivity of citrus red mites (Panonychus citri) infected with a noninclusion virus.
14883

PANONYCHUS CITRI
Biotic potential of phytoseiid mites fed on virus-infected citrus red mites.
14950

A virus disease of the European red mite Panonychus ulmi (Koch).
16362

Introducing and establishing the noninclusion virus of the citrus red mite in citrus groves.
18117

Infection of the citrus red mite with virus in central and southern California.
23042

Responses of the Pacific spider mite and the citrus red mite to laboratory field applications of tricyclohexyl tin hydroxide.
23194

PANONYCHUS ULMI
The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera).
14201

European red mite and two-spotted spider mite control on apple trees.
16358

A virus disease of the European red mite Panonychus ulmi (Koch).
16362

Population sample counts on spider mites.
17215

The aetiology and development of damage in young fruit trees infested with fruit tree red spider mite, Panonychus ulmi (Koch).
17371

Hatching of the winter eggs of the fruit-tree red spider mite (Panonychus ulmi (Koch)).
18637

Apple. Scab, mildew, mites; Venturia inaequalis Podosphaera leucotricha, Panonychus ulmi, and Tetranychus telarius.
18738

Apple. Scab, mildew, mites; Venturia inaequalis, Podosphaera leucotricha, Panonychus ulmi, and Tetranychus telarius.
18864

An appraisal of methods of sampling apple trees and results of some tests using a sample unit common to insect predators and their prey.
19040

The performance of 13 chemical compounds with an acaricidal action against the European red spider mite (Panonychus ulmi; Acarina, Tetranychidae).
19076

Petroleum oils in orchard mite control.
19872

Effects of two carbamates on several pests of peach.
21829

Initial survey of arthropod predators of the European red mite in south-central Pennsylvania.
22282

Red mite control in Hawke's Bay orchards.
22529

Comparative study of the methods of counting Panonychus ulmi Koch populations.
23008

Observations on predaceous mites on plum trees.
23060

The effect of an experimental spray schedule on the population of Metatetranychus ulmi Koch and Typhlodromus pyri Scheuten.
23067

Population densities of the European red mite and the predaceous mite Typhlodromus (A.) fallacis on apple foliage following treatment with various insecticides.
23211

PANORPA
Larval descriptions of two species of Panorpa (Mecoptera: Panorpidae), with notes on their biology.
14927

PANTOTHENATE
Pantothenic acid metabolism during avian malaria infection: Pantothenate kinase activity in duck erythrocytes and in Plasmodium lophurae.
22630

PANTOTHENIC ACID
Pantothenic acid metabolism during avian malaria infection: Pantothenate kinase activity in duck erythrocytes and in Plasmodium lophurae.
22630

PAPAIN
A growth medium for mycoplasmas and its modification for longer survival of M. mycoides in culture.
16946

PAPAVER
The study of the effect of amitrol on the respiration and activity of some enzymes in poppy plants (Papaver somniferum L.).
18479

PAPAVER DUBIUM
Bionomics and distribution of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae).
23206

PAPAVER ORIENTALE
Bionomics and distribution of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae).
23206

PAPAVER RHOEAS
Bionomics and distribution of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae).
23206

PAPAVER SOMNIFERUM
The study of the effect of amitrol on the respiration and activity of some enzymes in poppy plants (Papaver somniferum L.).
18479

Bionomics and distribution of the poppy-head gall midge Clinodiplosis papaveris (Kjell.) (Diptera, Itonididae).
23206

PAPAYAS
Symptoms of tobacco ringspot virus on papaya.
15129

VI: A new Oidium gathered in Taiwan (Formosa) on Carica papaya: Oidium caricae-papayae Yen (n. sp.).
20585

PAPER
Teflon and cornstarch-coated paper as substrates for oviposition by cabbage looper moths.
22408

PAPILIO DEMOLEUS
On the innervation of the prothoracic glands in Papilio demoleus L. (Lepidoptera).
17884

PAPILIONIDAE
The genetics of Chilasa clytia lankeswara (the common mime).
22477

PAPILLOMA
The response of various tissues in neonate calves to bovine papilloma virus (BPV).
18251

Neoplasms of the canine and feline urinary bladder: Incidence, etiologic factors, occurrence and pathologic features.
19195

Cutaneous and penile bovine fibropapillomatosis and its control.
20761

Microspectrophotometry of deoxyribonucleic acid in shope papilloma and derived carcinoma.
21563

PARA-DIMETHYLAMINOBENZENEDIAZO SODIUM SULFONATE
The presence of Omphalia sp. Bliss in a Mauritanian palm grove.
21544

PARACACOXENUS
An annotated key to drosophilid genera with bare or micropubescent aristae and a revision of Paracacoxenus (Diptera: Drosophilidae).
16316

PARACTENOPSYLLUS ALBIGNACI
New fleas from Madagascar, Paractenopsyllus randrianasoloi n sp, P albignaci n sp and Dinopsyllus tsaratananae n sp. (Siphonaptera).
14072

PARACTENOPSYLLUS RANDRIANASOLOI
New fleas from Madagascar, Paractenopsyllus randrianasoloi n sp, P albignaci n sp and Dinopsyllus tsaratananae n sp. (Siphonaptera).
14072

PARADOXOSOMATIDAE
A revision of the Papuan Paradoxosomatidae (Diplopoda, Polydesmida) in the Museo Civico di Storia Naturale at Genoa.
14067

PARAFFIN OILS
Viscosity of naphthenic and paraffinic spray oils in relation to phytotoxicity and Sigatoka disease control on banana leaves.
15023

PARAFFIN WAX
Effect of wax and lanolin emulsions on the efficiency of potato-blight fungicides in laboratory tests.
21139

Rat baits incorporating paraffin wax.
22031

PARAFFINS
The structure-activity relationships of a new group of pyridine alkane and carbinol fungicides. (Abstract).
14347

The growth of various filamentous fungi and yeasts on n-alkanes and ketones. I. Studies on substrate specificity.
14776

PARAINFLUENZA-1 VIRUS
Quantitative assay system for the transmission of RSV genome from virogenic mammalian cells

into the chicken cell with the help of hte Sendai virus.
16041

Influence of Sendai virus on RSV formation in mixed culture of virogenic mammalian cells and chicken fibroblasts.
20789

PARAINFLUENZA-3

Isolation of a parainfluenza virus from sentry dogs with upper respiratory disease.
20697

Reaction of young adult sheep to vaccination and infection with myxovirus parainfluenza 3.
23284

Participation of the P 1--3 virus in respiratory infections of cattle at large-capacity breeding installations.
23314

Immunofluorescence demonstration of the bovine strain of myxovirus parainfluenzae-3 in a calf kidney tissue culture.
23344

PARAINFLUENZA-3 VACCINES

Comments on combination vaccines for bovine respiratory diseases.
16800

Comments on bovine parainfluenza-3 immunization procedures.
16804

Comments on bovine parainfluenza-3 immunization procedures.
16834

Comments on combination vaccines for bovine respiratory diseases.
16836

Potency evaluation of vaccines used against bovine respiratory diseases.
16838

Complications following vaccination of cattle against infectious bovine rhinotracheitis, bovine viral diarrhea-mucosal disease, and parainfluenza type 3.
16841

Laboratory evaluation of bovine respiratory disease vaccines for safety.
16852

PARAINFLUENZA-3 VIRUS

Preliminary evaluation of a trivalent bovine vaccine.
14515

Serological investigation in French cattle; research on hemagglutination inhibiting antibodies due to myxovirus parainfluenza-3.
15338

Comments on bovine parainfluenza-3 immunization procedures.
16804

The natural history of bovine myxovirus parainfluenza-3.
16860

Isolation and experimental infection of calves with parainfluenza-3 virus.
22626

Interferon production with strain SF-4 of parainfluenza-3 virus.
22712

PARAKERATOSIS

Biochemical, skeletal and allometric changes due to zinc deficiency in the baby pig.
20392

Zinc requirement of baby pigs on casein diets.
20782

PARALYSIS

Lumbar paralysis of a calf caused by aberration of an immature liver fluke into the spinal cord.
16892

In vitro toxin production by the fungus Beauveria bassiana and bioassay in greater wax moth larvae.
17668

Tuberculosis of the spine (Pott's disease) in a rhesus monkey (Macaca mulatta).
19988

Four important bee diseases.
21674

PARAMETERS

Some parameters in the role of enemies in the natural control of insect abundance.
16984

The effect of temperature and relative humidity on the flight performance of female Aedes aegypti.
21022

PARAMPHISTOMUM CERVI

Histochemical studies of cholinesterase activity in Paramphistomum cervi and Diplodiscus subclavatus.
20822

PARAMYELOIS TRANSITELLA

Morphology of the internal reproductive organs of the navel orangeworm, Paramy elois transitella.
13726

Morphology of the internal reproductive organs of the navel orangeworm, Paramyelois transitella.
13800

The effects of gamma radiation on the navel orangeworm, Paramyelois transitella (Walker) (Lepidoptera: Phycitidae) and the feasibility of control with irradiated adults.
17185

Chemical attractants for navel orangeworm moths.
19061

Almond sticktights contribute to navel orangeworm infestations.
21177

PARAOXON

Protective effect of chlorpromazine on parathion and paraoxon toxicity in mice. (Abstract).
17667

PARAQUAT

Factors in paraquat-induced chlorosis with Phaseolus foliar tissues.
14005

Action and effectiveness of certain classes of herbicides.
15667

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Paraquat.
16143

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Paraquat.
16175

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Paraquat.
16176

Extermination of Eichhornia azurea Kunth, Aguape de cordao , on the Ribeira river by means of herbicide applications.
18166

Paraquat-surfactant combinations for control of downey brome.
19118

Control of Hawaiian jungle with aerially applied herbicide.
19125

Weed control with paraquat in plantation crops.
19928

Tall fescue can be controlled.
19934

Influence of direct-drilling of winter wheat on incidence of take-all and eyespot.
21104

Production and viability of eggs from hens treated with paraquat.
21517

Controlling hairgrass (Deschampsia caespitosa).
22019

The fate of paraquat in soils.
22187

Observations on the use of preplant herbicides in pasture establishment in the wet tropics.
22557

Orchard weed control programs for 1968.
22566

Use of Bipyridyl and Triazine herbicides in raspberries.
22569

Weed control in young peach orchards.
22601

Investigations with paraquat (Gramoxone) as a herbicide for weed control in low-grown tea.
22613

Persistence of herbicides in ponded water and soils.
22790

The effects of applying paraquat, atrazine and simazine for weed control in raspberries in coastal British Columbia.
23227

The effect of Gramoxone (N,N-dimethyl-p,p-dipyridilium salt) on the various developmental stages of B. glabrata.
23241

Toxic effect of some molluscacide mixtures.
23408

PARASCARIS EQUORUM

Field trials in horses with pyrantel tartrate.
20812

PARASITES

Two new feather mite genera with polymorphic males (Analgoideai Proctophyllodidae).
14021

The feather mite genus Laminalloptes (Proctophyllodidae: Alloptinae).
14022

Life history and habits of Rhabdophaga sp (Diptera: Cecidomyiidae), a gall midge attacking willow in Michigan.
14291

Incidence of Toxocara canis and other helminth parasites of dogs in Mexico City.
14605

Parasites and predators associated with five species of leaf-mining insects in black locust.
14814

Pyruvate kinase in Haemonchus contortus larvae.
16349

Effect of the nematode Aphelenchus avenae on some ectotrophic, mycorrhizal fungi and on a red pine mycorrhizal relationship.
16721

The routine differentiation of the ova and larvae of two parasites of swine, Hyostrongylus rubidus (Hassall et Stiles, 1892) and Oesophagostomum dentatum (Rud., 1803).
17604

Defense and avoidance reaction of plant lice (Apaididae) upon threat by predators and parasites.
18630

Bibliography on the biochemistry of endoparasites.
20051

Concerning the attempts to release Prospaltella perniciosi Tower (Hymenoptera, Aphelinidae) against the San Jose scale (Quadraspidiotus perniciosus Comstock) in BadenWuerttemberg.
23018

Food specificity in the Aphidiidae (Hymenoptera).
23050

PARASITIC ARTHROPODS

Jamesonia, a new genus (Acarina: Myobiidae) with seven new species from Cuban bats.
22864

PARASITIC BRONCHITIS

Studies on the acquired resistance of sheep to Dictyocaulus filaria (Rudolphi, 1809) Railliet and Henry, 1907.
17529

PARASITIC INSECTS

A new Ateleute from the United States (Hymenoptera: Ichneumonidae).
13853

Some notes on fleas (Siphonaptera) of domestic animals in Northern Tanzania (East africa).
13977

A record of Canops flavipes L (Dipt., Conopidae) parasitizing Vespula rufa (L.).
14019

Four new species of Monojoubertia from one species of bird (Analgoidea: Proctophyllodidae).
14020

Host discrimination in Pseudeucoila bochei (Hymenoptera: Cynipidae).
14027

Louisiana lab takes intensive look at parasites for mosquito control.
14170

Notes on spider parasites, including a reference list.
14183

Studies on Microplitis rufiventris Kok. 1. (Hymenoptera: Braconidae).
14192

Growth cabinet for the efficient handling of containers used for rearing insects.
14214

Monopsyllus thambus (Joroan, 1929) from the alpine in Colorado.
14218

Parasitization of social halictine bees in southern Ontario.
14219

On the parasites of the pine caterpillar, Dendrolimus spectabixis Butler, in a pure stand Akamatsu-pine forest in the suburbs of Seoul in Korea.
14222

A new braconid parasite of the potato tuberworm (Hymenoptera).
14236

Parasites of the leaf rollers Archips argyrospilus and A griseus in Connecticut.
14248

Notes on the life history of Aleochara bilineata (Gyll.) (Coleoptera:Staphylinidae), and on its potential value as a control agent for the cabbage maggot, Hylemya brassicae (Bouche) (Diptera: Anthomyiidae).
14251

Nematode parasite (Heterotylenchus sp.) of face fly in New York State.
14266

Mites from noctuid moths.
14275

Biology of three species of Leiophron (Hymenoptera: Braconidae, Euphorinae) parasitic on Miridae on broom.
14281

Spiders associated with the fall webworm, Hyphantria cunea (Lepidopterai Arctiidae).
14282

Low-volume application of malathion by helicopter for controlling larch casebearer.
14433

Occurrence of Bracon gelechiae Ashmead as a parasite of potato tuber moth, Gnorimoschema opercuella (Zeller) in the field in Mysore State and Assam and its other hosts recorded in India.
14448

The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae).
14454

Ectoparasites of Canadian birds and mammals.
14584

The coexistence of insect parasites and hosts in laboratory ecosystems.
14801

Viability of the chalcid parasite Tetrastichus pyrillae Crawford from the host Pyrilla perpusilla Walker egg.
14829

Parasitism of Sirex noctilio F by Schlettererius cinctipes (Cresson) (Hymenoptera: Stephanidae).
14965

The influence of climate and weather on population age distribution. In:FAO symposium on integrated pest control, Rome, 1965. Proceedings. SB951.F62.
15701

Shipment of Rhyssa persuasoria himalayensis Wilkinson to Australia and New Zealand.
15706

To the knowledge of mites of the subfamily Nycteriglyphinae (Acarina: Rosensteinidae) from Cuba.
15707

Occurrence of Macrosteles cristatus (Ribaut) Homoptera, Auchenorrhyncha) in Britain with notes on related species.
15727

The immature instars of the Cleptoparasitic genus Dioxys (Hymenoptera: Megachilidae).
15730

The biology of Eurytoma roseni Claridge (Hym., Eurytomidae).
15743

Host specificity tests with Uroplata girardi Pic., a leafmining hispid from Lantana camara L.
15747

Parasites of sugarcane stem borers in Nigeria.
15773

False wireworms. In:Smith, C.N. Insect colonization and mass production. QL497.S6.
15788

Reduviid bugs. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15808

Insect parasites and predators. In: Smith, C.N. Insect colonization and mass production. QL497.S6.
15810

New data concerning the parasitic relationships of Conopids (Diptera, Conopidae).
15831

Introduction of Copidosoma koehleri Blanchard for the control of the potato tuber moth, Gnorimoschema operculella (Zeller) in India and its supply to Tanzania and Mauriyius.
15986

The role of parasites and predators in integrated control. In: FAO symposium on integrated pest control, Rome, 1965. Proceedings.
15992

Parasitic mites. In: Smith,C.N.Insect colonization and mass production. QL497.S6.
16091

Small mammals and their ectoparasites from the Scottish islands of Handa (Sutherland), Muck, Pabay, Scalpay and Soay (Inner hebrides).
16285

On some new species of Tetramesa Walk., with notes on their parasites (Hymenoptera: Chalcidoidea).
16342

The biology and ecology of Anaphes flavipes (Hymenoptera: Mymaridae), an exotic egg parasite of the cereal leaf beetle.
16357

Pygidial glands in male Opius (Hymenoptera: Braconidae).
16367

Laboratory research on Acarapis woodi Rennie, the causative agent of acarine disease of the honeybee. note 5.
16393

Controlling insect enemies of the alfalfa leafcutter bee, Megachile rotundata.
16400

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm.
16418

Bioclimatic studies of the aphid parasite Praon exsoletum. 1. Effects of temperature on the functional response of females to varying host densities.
16432

Defense reactions of Drosophila species (Diptera: Drosophilidae) to the parasite Pseudeucoila bochei(Hymenoptera: Cynipidae).
16459

Source of a substance in Heliothis virescens (Lepidoptera: Noctuidae) that elicits a searching response in its habitual parasite Cardiochiles nigriceps. (Hymenoptera: Braconidae.
16471

External parasites of domestic pigeon in United Arabic Republic.
16869

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 4. Argas (P.) robertsi, new species, a parasite of Australian fowl, and keys to Australian argasid species.
17028

Review of some recent research on Onchocerca vectors.
17039

Studies on the observation of the rice stem borer about the relation between the weight and the growth of overwintering larvae. (report 1). Transl. 16792.
17143

A three-year study of parasites of the bollworm and the tobacco budworm in Mississippi.
17156

The natural history of three oak-feeding Tortricids: Ptycholoma lecheana (L.), Pandemis cerasana (Hb.) and Batodes angustiorana (Haw.).
17161

Role of the host plant concerning the sexual attractiveness of Acrolepia assectella Zeller. (Lep. Plutellidae).
17186

Present status of biological control of the pear psylla in southern Oregon.
17218

Microbial pesticides. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5.
17405

A survey of plant-parasitic nematodes around roots of great millet (Sorghum vulgare) from Rajasthan, India.
17456

Notes on Megalyridae (Hym. Ichneumonoidea) and description of new species from Madagascar.
17751

Laboratory propagation of Muscidifurax raptor on face fly pupae.
17794

The development of Theileria parva in the salivary glands of the tick, Rhipicephalus appendiculatus.
17873

Bionomics, enemies and population dynamics of Javesella pellucida (F.) (Hom., Delphacidae).
17875

Life history of the looper Phigalia titea in Virginia.
17889

Tetraploid females in the hymenopteron, Mormoniella.
17906

Cereal leaf miner in the South-east Region.
18092

Resistance of cattle to the tick Boophilus microplus (Canestrini). II. Stages of the life cycle of the parasite against which resistance is manifest.
18351

Efficiency of aphidophagous insects in Iraq. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18497

Some records of ectoparasites from birds collected at the jersey Bird Observatory.
18572

Stimulation of yolk deposition in an ichneumonid parasitoid by feeding synthetic juvenile hormone.
18588

The fall webworm are infestations limited by natural control .
18620

Defense and avoidance reaction of plant lice (Apaididae) upon threat by predators and parasites.
18630

Food ecology of aphidophagous insects. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18676

Natural selection and feeding speed in a blood-sucking insect.
18703

Population dynamics of the parasites and hyperparasites of Brevicoryne brassicae (L.). In: Hodek, I., Ed. Ecology of aphidophagous insects. SB975.S9.
19058

Plant-parasitic nematodes associated with southern hardwood and coniferous forest trees.
19069

Observations on the effect of flowers on the activity of parasitic hymenoptera.
19090

A new chalcidoid parasite of a ceratopogonid midge (Hymenoptera, Encyrtidae).
19366

Redescription of Megisthanus floridanus with observations on its biology. (Acarina: Megisthanidae).
19367

A new Pulvinaria of the Mediterranean coast: Rhizopulvinaria maritima n. sp. (Coccoidea, Coccidae).
19369

A new species of Microctonus (Hymenoptera: Braconidae) parasitizing the alfalfa weevil.
19385

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 5. A. (P.) zumpti, new species, a parasite of the South African Cape vulture.
19415

Some avian ectoparasites in New England.
19421

Myocoptes ondatrae spec. nov., a new parasite of Ondatra zibethica L. (Listrophoridae: Sarcoptiformes).
19441

A redescription of Radfordilaelaps meridionalis Zumpt, 1950, with a new description of the protonymph and a discussion on the intraspecific variation of the species.
19445

A new species of Alysia parasitic on carrion-feeding flies (Hymenoptera: Braconidae).
19453

Three new southeastern parasitic Hymenoptera.
19459

Contribution to the study of acarine parasites of Madagascan Orthoptera. I. The genus Podapolipus (Podapolipidae): Preliminary diagnosis of new species.
19462

A review of the genus Turacocca with description of a new species (Mallophaga: Menoponidae).
19471

Notes on the Trombiculidae.
19514

A new species of Listrophorus from Mus musculus in Hawaii (Astigmata: Listrophoridae).
19525

Rhizopulvinaria of Mediterranean pinks. (Coccoidea-coccidae).
19571

Parasites and other organisms associated with nests of Amegilla Friese (Hymenoptera: Anthophorinae).
19574

Research on the attractiveness of various conifers in regard to Ips sexdentatus.
19579

Contribution to the laboratory study of Pnigalio mediterraneus. (Hym. Chalcidoidea Eulophidae).
19591

Ticks (Ixodoidea) of Mt. Sontra, Danang, Republic of Vietnam.
19628

Acuticauda erigerontis n. sp. a gall former on Erigeron (Hom. Aphididae).
19654

Methodical reference and council on the breeding of fresh water mite larva parasitic on air insects on (Acari Hydrachnellae).
19676

The effect of aggregations of the green peach aphid, Myzus persicae (Sulzer), on the spatial distribution and parasitization of a hymenopterous parasite, Aphidius gifuensis Ashmead.
19721

The hypopial stage of Falculifer rostratus in the turtledove.
20019

New Canadian Cryptinae (Ichneumonidae: Hymenoptera).
20236

Presence in Gaudeloupe of the ornithodoros Alectorobius puertoricensis (Fox, 1947) (Acarina: Ixodoidea).
20237

Entomocaenological and biological studies in Rosa damascena Mill. plantations. I. Lepidoptera.
20240

Ants, aphids, and jack pine in Manitoba.
20313

Reactivity of several experimental Heteroptera hosts to the larva of a monophage Diptera, Phasiinae.
20335

On the teratology of the primary-and hyperparasites of Brevicoryne brassicae (L.).
20410

Canine visceral leishmaniasis in Iran.
20771

Small mammals and their ectoparasites from the Scottisch islands of Handa (Sutherland), Muck, Pabay, Scalpay and Soay (Inner Hebrides).
20806

The Macronyssidae and Laelapidae (Acarina: Mesostigmata) parasitic on bats.
20968

Research and biology of the Taphrina deformans and the method to control these parasites.
21171

Morphological changes in a parasitic nematode due to acquired resistance of the host.
21190

A study on the helminth fauna of Philippine goats.
21388

Notes on mallophaga on the Asiatic wild ass and bisons.
21595

Psephenus (Coleoptera: Psephenidae) parasitized by a new chalcidoid (Hymenoptera: Eulophidae). I. Description of the parasite.
21597

A new species of Fahrenholzia (Anoplura: Hoplopleuridae) from Texas, with a key to the species of the genus and a list of their known hosts.
21626

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks.
21654

How to get rid of ectoparasites of poultry.
22156

Emergence of parasites associated with the cabbage aphid during a chemical-control program.
22400

Red mite control in Hawke's Bay orchards.
22529

Some North American parasites of Aclerda (Hymenoptera, Encyrtidae).
22949

Observations on the biology of Prospaltella perniciosi Tow. in the Po Valley.
22979

The biology of Microphthalma europaea Egg., a tachinid parasite of the larvae of Scarabaeidae.
22991

Braconidae as parasites of staphylinidae.
23002

The white-fir needle miner, Epinotia meritana, in Utah-.
23011

Utilisation of Trichogramma cacoeciae March., Hym. Trichogrammatidae in control of the plum moth Lep. Tortricidae depending on the numbers used and time of introduction.
23068

The decay of citrus fruits caused by Fusarium lateritium Nees (Gibberella baccata (Wallr.) Sacc.).
23187

Hypope parasites of the cellular tissues of birds.
23276

PARASITIC MITES

Three new species of Phytoseiid mites preying on the cotton white fly, Bemisia tabaci in the Sudan (Acarina: Phytoseiidae).
22256

Three new species of bird mites (Analgoidae) parasites of Procellariiformes.
22753

PARASITIC NEMATODES

Nematode parasite (Heterotylenchus sp.) of face fly in New York State.
14266

PARASITIC PLANTS

Complementation in dikaryons and diploids. (Abstract).
14355

Appraisal of biological control of Arceuthobium campylopodum F. campylopodum by Colletotrichum gloeosporioides.
15283

Biological control of Cuscuta spp. I. Cuscuta spp. and insects associated with these in West Pakistan.
16008

Domestic quarantine notices. Witchweed.
16015

The physiology of host-parasite relations. XIX. Further observations on nucleoprotein changes in wheat leaf nuclei during rust infection.
16547

Studies on the observation of the rice stem borer about the relation between the weight and the growth of overwintering larvae. (report 1). Transl. 16792.
17143

A survey of plant-parasitic nematodes around roots of great millet (Sorghum vulgare) from Rajasthan, India.
17456

Eastern dwarf mistletoe on jack pine in Manitoba.
17926

Influence of oats on soil-borne populations of Fusarium roseum f. sp. cerealis 'Culmorum'.
18805

Some viewpoints on the phylogeny of rust fungi. IV. Biogenic radiation.
18863

PARASITISM

Rate of tick attachment to a white-tailed fawn.
13880

Economic losses due to parasitic diseases of livestock in Ceylon.
13985

Distribution and parasitization of some Lygus spp in western United States and central Mexico.
14037

Taxonomy of final-instar larvae of the hymenopterous and dipterous parasites of Acrobasis spp. (Lepidoptera: Phycitidae) in the Ottawa Region.
14047

Some effects of the big-headed ant on populations of the pink sugarcane mealybug.
14048

Biology and ecology of ticks (Ixodoidea) from the Ivory Coast.
14144

Reproductive capacity of two strains of Cryptolestes turcicus (Coleoptera: Cucujidae).
14154

Louisiana lab takes intensive look at parasites for mosquito control.
14170

Nematode parasites of Culicidae and Chaoboridae in Louisiana.
14171

New records of parasites of Ceratopogonidae.
14172

Parasitization of social halictine bees in southern Ontario.
14219

The synchronization of the life cycle of diapausing face flies, Musca autumnalis, and of the nematode, Heterotylenchus autumnalis.
14265

Nematode parasite (Heterotylenchus sp.) of face fly in New York State.
14266

Observations on Heterotylenchus autumnalis in relation to the face fly.
14276

Parasitic trombidiid mites on Dasyhelea mutabilis (Coquillett) (Diptera: Ceratopogonidae).
14287

Summary of parasite and predator liberations in Canada and of insect shipments from Canada in 1966. sB975.C3.
14289

Changes associated with parasitism in nematodes. Ii. Histochemical and microspectrophotometric analyses of preparasitic and parasitic larvae of Meloidogyne javanica.
14455

A bibliographical guide to the animal parasites and arthropod pests of Ceylon.
14582

Ectoparasites of Canadian birds and mammals.
14584

The hymenopterous parasites (Hymenoptera: Aphidiidae et Aphelinidae) of the pea aphid in eastern North America.
14830

Parasites of the red-pine sawfly, Neodiprion nanulus nanulus (Hymenoptera: Diprionidae), in New Brunswick.
14844

Transmission of bacterial pathogens by the ovipositor of a hymenotterous parasite.
14867

Propagation of braconid parasites of the pea aphid.
14887

The susceptibility of honey bees of different ages to infestation by Acarapis woodi (Rennie).
14905

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicatans in Louisiana. (abstract).
14933

Note: Elimination of microsporidiosis in laboratory-reared European corn borers by the use of heat.
14939

Nematode parasites and associates of the smaller European elm bark beetle, Scolytus multistriatus (Marsham).
14947

Evidence for functional cytochrome oxidase in tissues infected by obligate parasites.
15033

Preliminary laboratory tests utilizing Beauveria bassiana (Balsamo) Vuillemin on Calomycterus setarius Roelofs.
15234

Spicaria rileyi (Farlow) Charles, an entomogenous fungus of Trichoplusia ni Huebner).
15237

A pasture trial using 2 immunizing doses of a parasitic bronchitis vaccine.
15391

Cellular response to endogenous stages of Coccidia in cattle, with observations of the influence of chemicals upon the host-parasite relationship.
15509

Effect of major and minor gene interaction on adaptive parasitism in phytophthora infestans.
15631

Effects of concentration of pyridoxine and biotin on parasitic development of the mycoparasite, Gonatobotryum fuscum. (Abstract).
15861

Prosarcoptic scabies (Prosarcoptes pitheci Philippe, 1948) in a capuchin monkey (Cebus c. capucinus).
16092

Studies on experimental infections with Fasciola hepatica, with particular reference to acute fascioliasis in sheep.
16095

Results of experimental studies on the development of preinvasive stages of worms of the genus Thelazia Bosc., 1819 (Spirurata: nematoda), parasitic in the eye of cattle.
16101

Leptomonas oestri n.sp., a flagellate parasite of the digestive tract of Oestrus ovis.
16328

Some ectoparasites from West Virginia mammals. II.
16339

Heterotylenchus autumnalis Nickle (1967)--a parasite of pasture flies.
16346

An interesting parasite of Thysanoptera: Tetrastichus gentilei (Hym. Chalcididae).
16365

Immunological relationships between the parasite Cardiochiles nigriceps Vierick and certain Heliothis species.
16420

Biological notes on, and eradication of Trichogramma semifumatum from laboratory cultures of eight species of Noctuidae.
16458

Ion uptake of sweet potato roots infected by the black rot fungus.
16519

Growth of the hyperparasite Darluca filum on a chemically defined medium.
16544

Carbon dioxide exchange by radish tissue infected with Albugo candida measured with an infrared C02 analyzer.
16548

Host-parasite relationships between protozoans and their arthropod and vertebrate hosts.
16808

Advances in parasitology.
16874

Efficacy of tetramisole. Studies on the efficacy of tetramisole in the treatment of pre-type II and type II bovine ostertagiasis.
16882

Oral tetramisole; effect on Dictyocaulus viviparus, Ostertagia ostertagi and Cooperia oncophora in experimentallyinfected calves.
16883

Epidemiological studies of fascioliasis; a third season of comparative studies with cattle.
16884

Anthelmintics for Dictyocaulus filaria in sheep.
16886

Trypanosoma dafilae sp. n. and Leucocytozoon anatis Wickware, 1915 in the northern pintail (Dafila acuta acuta L.).
16893

Some parameters in the role of enemies in the natural control of insect abundance.
16984

The longevity of the parasitic stages and the dynamics of egg production of the nematode Syngamus trachea (Montagu, 1811) in chicken and turkeys.
17075

Onchocerca-Simulium complexes. V. The intake and subsequent fate of microfilariae of a Guatemalan strain of Onchocerca volvulus in forest and Sudan-savanna forms of West African Simulium damnosum.
17099

Community studies on Hymenoptera found on Brassica napus C. V. Cynipoids (Cynipoidea).
17165

Distribution of the nematode Heterotylenchus autumnalis, a parasite of the face fly, in New England with notes on its origin.
17207

Mermithid parasites of the mosquito Aedes vexans Meigen in British Columbia.
17214

Further observations of dwarf mistletoe on eastern larch in Minnesota.
17275

Biological control. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5.
17374

Electron microscopic observations of Catenaria sp., a nematophagous fungus. (Abstract).
17413

Assays of natural populations of certain plant-parasite nematodes as influenced by storage conditions and extraction procedures. (Abstract).
17414

The utility of polyacrylamide-gel electrophoresis for distinguishing between species of Meloidogyne and showing taxonomic relationships. (Abstract).
17422

Clumping of the plant parasitic nematode Ditylenchus dipsaci in water.
17423

On the classification and life history of Fergusobia curried (Sphaerulariidae: Nematoda). (Abstract).
17427

Population patterns of nematodes in Lake Champlain. (Abstract).
17428

Population fluctuation of three Pratylenchus spp. on peach under Central Georgia conditions. (Abstract).
17429

Research on the oats-nematode problem.
17436

Migratory endoparasitic nematodes reared on carrot discs.
17441

The effect of nine parasitic nematode species on growth. yield and quality of peanuts as determined by soil fumigation and correlation of nematode populations with host response. (Abstract).
17449

International dispersal of nematodes.
17466

Efficacy studies on a new processed. I. Micron refined phenothiazine against gastro-intestinal nematodes in feeder lambs.
17478

Feline infectious anaemia: A first case.
17498

Unsuccessful attempts to transmit scrapie by nematode parasites.
17509

Comparison of infections with Leucocytozoon simondi in black ducks (Anas rubripes), mallards (Anas platyrhynchos) and white Pekins (Anas bochas).
17519

The absorption of zinc and oleic acid from digestive tracts parasitized in the ileum, ceca, and colon. (Abstact).
17582

PARASITISM

Studies on pathogenicity and fatty acid composition of Raillictina cesticillus (Cestoda). 17599

Cruzia brasiliensis sp. n. (Nematoda-Cruziidae) parasite of Sus domesticus. 17601

Parasitic hypoalbuminaemia: Studies on type II ostertagiasis of cattle. 17603

Observations on the early migration of the larvae of Ascaris suum Goeze, 1782 in white mice. 17605

Helminthic infestations of piglets with reference to lesions encountered. 17607

Experimental studies on ancylostomiasis in cats. VI. Visceral migration of larvae of Ancylostoma tubaforme and A. caninum in dogs. 17609

Intestinal malabsorption of D-glucose in mice infected with Trichinella spiralis. 17610

Fascioliasis in cattle: A study of the disease in the field. 17613

Biochemical observations of Ascaris suum lung-stage larvae. 17614

Heterologous immunity in avian hosts infected with Plasmodium relictum and Plasmodium lophurae (Sporozoa: Haemosporina). 17615

Contribution to the knowledge of parasitic fauna in fowls within Serbia. V. Ectoparasites of fowls in the vinicity of Lazarevac. 17616

Changes in pathogenicity among three isolates of Geotrichum candidum after serial passage on the chorioallantoic membrane of embryonated chicken eggs. (Abstract). 17684

Histopathology of Geotrichum candidurn in the chorioallantoic membrane of embryonated chicken eggs. (Abstract). 17685

Parasitic and free-living cycles in entomogenous nematodes of the genus Deladenus. 17731

Simple field and laboratory method for recovering living ticks (Ixodoidea) from hosts. 17733

The infection of Boophilus microplus with Babesia bigemina. 17795

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17813

Field and laboratory studies on the ecology and morphology of Nabis americoferus Carayon and its parasites in California. 17834

Pathogenic and cultural variation in Phytophthora nicotianae var parasitica from greenhouse plants. 18064

The summer biology of Puccinia striiformis in southeastern Washington. I. Induction of infection during the summer. 18072

Ultrastructure of host and parasite in compatible and incompatible ineractions of Zea mays L. with Puccinia sorghi Schw. 18074

Survival of the balsam woolly aphid on Abies logs. 18084

Control of endo- and ecto-parasitic nematodes in turf by hot-water treatments. 18139

Studies of the suitability of certain Heliothis spp. as a host for Cardiochiles nigriceps Vierick. 18141

The influence of an organic soil amendment on infectivity and reproduction of Tylenchulus semipenetrans on two citrus rootstocks. 18144

Plant-parasitic nematodes in grape and raspberry soils of Ontario and a comparison of extraction techniques. 18153

Gastrointestinal parasitism in feeder calves of southern Illinois. 18279

The connection between sunspot cycles and mass mortality among vertebrates and non-vertebrates due to parasitic activity. 18327

Relationship between infecting dose, muscle parasitism,and antibody response in experimental trichinosis in rabbits. 18329

Effect of desiccation on survival of the free-living stages of Trichostrongylus colubriformis. 18353

Experimental infection of gnotobiotic Tenebrio molitor and white rats with Hymenolepis diminuta (Cestoda: Cyclophyllidea). 18363

Lesions caused by the hepatic trematode, Metorchis conjunctus, Cobbold, 1860; A comparative study in Carnivora. 18369

Studies on the spring phenomenon in ovine helminthiasis. I. Spring rise in stabled sheep. 18372

A temperature study of the overwintering site of the sheep bot fly Oestrus ovis L. 18373

Parasitic development of Obeliscoides cuniculi in rabbits. 18375

Helminths as vehicles and synergists of microbial infections. 18376

A new wide-spectrum coccidiostat. 18499

Behavioural responses of parasites to the symbiotic fungus associated with Sirex noctilio F. 18506

Egg parasites of larch swaflies in Great Britain. 18539

A host catalogue of British entomogenous fungi: First supplement. 18540

Observations on the mirid (Hem.) hosts of Braconidae (Hym.) in Britain. 18542

Some records of ectoparasites from birds collected at the jersey Bird Observatory. 18572

Changes associated with parasitism in nematodes. IV. Cytochemical studies on the ampulla of the dorsal esophageal gland of Meloidogyne javanica and on exudations from the buccal stylet. 18586

Some notes on natural enemies of Lygacidae (Hem.). 18603

Host selection by the polyphagous species Phytomyza atricornis Meigen (Dipt., agromyzidae). 18621

Some hymenopterous parasites of caterpillars on oak twigs in winter. 18627

Preliminary observations on the incidence and biology of a mermithid nematode of Aedes sollicitans (Walker) in Louisiana. 18654

Records of hymenopterous parasites and hyperparasites of certain fruit-tree aphids. 18664

The parasites of British birds and mammals. XXXV. The ectoparasites of the swallow (Hirundo rustica rustica L.). 18687

The parasites of British birds and mammals. XXXVI. New records of bat parasites. 18688

The interrelationship of the aphid Acyrthosiphon pisum, and its parasite, Aphidius smithi, in a stable environment. 18691

Bark beetle aggregation: Effects of feeding on the release of pheromones in Dendroctonus and Ips. 18692

Parasitology of the strawberry. 18729

Factors affecting growth and survival of the mycoparasite Darluca filum. (Abstract). 18779

The Leeuwenhoek lecture,1966, obligate parasitism in fungi. 18792

Host-parasite relationship in safflower resistant and susceptible to Phytophthora root rot. 18852

On the parasitism by fungi of the genus Cytospora on apples. 18884

Nematology department. 19105

The host-parasite relations and ecology of Trichodorus viruliferus on apple roots, as observed from an underground laboratory. 19108

Distribution of plant-parasitic nematodes associated with forest trees of the world. aQL391.N4R8. 19130

Investigations on Trichinellosis with special reference to epidemiology, immunodiagnosis, host-parasite relationships, clinical and therapeutic aspects. Final report. RC186.T815K6. 19186

Free amino-acids of blood plasma and erythrocytes of normal ducks and ducks infected with malarial parasite, Plasmodium lophurae. 19204

The parasites of British birds and mammals. XL. Ectoparasites of deer in Britain. 19217

Development and survival on pasture of gastrointestinal nematode parasites of cattle. 19220

Bursal bosses as a diagnostic character in Nematodirus of domestic sheep, ovis aries, in the United States. 19224

Parasites and other organisms associated with nests of Amegilla Friese (Hymenoptera: Anthophorinae). 19574

The 1958 pine tip moth collapse in Ohio. 19613

Notes on the biology and distribution of Florida leafmining flies of the genus Phytobia lioy, subgenus Calycomyza Hendel (Diptera: Agromyzidae). 19730

Sterol composition of the nematodes Ditylenchus triformis and Ditylenchus dipsaci, and host tissues. 19919

Pathologic physiology and chemotherapy of Plasmodium berghei. I. Suppression of parasitemia by sulfones and sulfonamides in mice. 19943

Concerning the larva Migrans visceralis of Ascaris lumbricoides in the experimental host (Mice). 19949

Use of insecticides in veterinary medicine. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20020

Metabolic transformation of 14C-glucose into tissue proteins of Ancylostoma caninum. 20036

Experiments with pyrantel tartrate in the treatment of gastro-intestinal parasitosis in goats. 20037

Histochemical study of drug effects on mice infected with Trichinella spiralis. 20041

Hymenopterous parasites of the horn fly, Haematobia irritans (Diptera: Muscidae), in Alberta. 20182

Main results and directions of protozoological studies in the USSR. 20215

Chigger mites on small mammals of Spain. (P-sorergatidae: Trombidiformes). 20232

Contribution to the study of Diptera Malacophage. IV. Identification of Pherbellia obtusa (Fallen) (1820) and the description of a new palearctic species Pherbellia argyra sp. n. (Diptera, Sciomyzidae). 20274

Parasitism of the oriental fruit moth, Grapholitha molesta (Busck) (Lepidoptera: Tortricidae) in Ontario, 1956-1965. 20336

The pecan nut casebearer, Acrobasis caryae (Lepidoptera: Pyralidae) on mockernut hickory, Carya tomentosa. 20354

Observations on the habits and control of Culex pipiens fatigans in Guyana. 20484

Onchocerciasis in Kenya 9, 11 and 18 years after elimination of the vector. 20490

VI: A new Oidium gathered in Taiwan (Formosa) on Carica papaya: Oidium caricae-papayae Yen (n. sp.). 20585

A study of the fungus parasites of southeast Asia. V. Note on some Malaysian species of Oidium. 20586

Effect of management system on the growth of lambs and development of internal parasitism. II. Field trials involving medication with national formulary and purified grades of phenothiazine. 20599

Innoculation of the cecidomyiidae shell of Oligotrophus reaumurianus on the linden leaf. 20618

Elephant skin disease of cattle--a bushveld problem. 20674

The location of the parasites in muscle Cysticercosis. 20785

Piperazine in veterinary medicine. 20808

Field trials in horses with pyrantel tartrate. 20812

Studies on avian malaria in Japan. II. Pathogenicity of the parasite. 20819

The occurrence of Leucocytozoon caulleryi in domestic fowls in the Philippines. 20824

Experimental studies on Toxascaris leonina. V. Experimental infection of dogs and cats with eggs of canine, feline and felidae strains. 20828

Hookworms and other helminths in dogs, cats and man in surinam. 20832

Relationship between infecting dose, muscle parasitism, and antibody response in experimental trichinosis in rabbits. 20836

Hematology, growth and efficiency of lambs as influenced by H. contortus infection. (Abstract). 20838

Present status of the sawfly family Diprionidae (Hymenoptera) in Ontario. 20957

Some effects of microbial pathogens on insects. 20976

A review of the literature on the spruce budworm Choristoneura fumiferana (Clemens). aQL561.T8M3. 21009

Predacious hyphomycetes and their application in the control of pathogenic nematodes. QK625.M74S63. 21031

Treatment of American cutaneous leishmaniasis with cycloguanil pamoate. 21057

Production of ethanol and succinate by Moniliformis dubius (Acanthocephala). 21207

Coccidiosis susceptibility in layer flock replacement programs. 21211

Fractionated Dirofilaria immitis antigens for the differential diagnosis of canine filariasis. 21386

Anaplasmosis. XX. Electron microscopy of the causative agent stained by the negative contrast technique. 21420

Effect of coccidial infection upon passage rates of digestive tract contents of chicks. 21465

Pathophysiology of fascioliasis in the rabbit. Studies on albumin turnover. 21467

The pathology of experimental fascioliasis in calves. 21468

Studies on re-infestation of the cat with Aelurostrongylus abstrusus. 21471

Efficacy of naphthalophos and coumaphos against nematodes of goats. 21476

Some comparative observations on unthriftiness in grazing lambs. 21479

An evaluation of copper sulfate as anthelmintics in cattle. 21480

An evaluation of some newer anthelmintics. (Abstract). 21481

Oral thiabendazole. Effect on immature and adult Hyostrongylus rubidus in experimentally-infected pigs. 21483

The anthelmintic activity of tetramisole in the dog. 21484

Research on biological pest control. 21734

Relative significance of parasitism versus saprophytism in colonization of wheat straw by Fusarium roseum Culmorum in the field. 21839

The Alysiinae (Hym. Braconidae) parasites of the Agromyzidae (Diptera). VI. The parasites of Cerodontha rondani s. i. 22272

Hymenopteran parasites of Lonchaea fugax Becker (Diptera: Lonchaeidae). 22353

Notes on three species of Actia (Dipt., Tachinidae), parasites of Oak-feeding caterpillars. 22371

Feeding and parasitism in gnats (Dipt.), also some finds. 22431

Manifestations of competition in parasite complexes as a problem in biological pest control. 22438

The small gooseberry sawfly (Pristiphora pallipes Lep.), a little-known pest of gooseberries. 22542

Schizogony and gametogony of Leucocytozoon simondi and associated reactions in the avian host. 22650

Studies on the problems associated with the activation of latent or inapparent salmonelloses by means of vaccination as well as on the possibility of simultaneous vaccination against salmonellosis and swine fever. 22747

The relation between the liver reserves of vitamin A and some intestinal parasites in Dokki 4 chicks. (b). In chicks infested with Ascaridia galli. 22758

The number of Aelurostrongylus abstruses larvae required to produce pulmonary disease in the cat. 22763

Studies on Eimeria mivati in chickens and a comparison with Eimeria acervulina. 22766

Bird ectoparasites from South Farallon Island, California. 22770

The location of the parasites in muscle cysticercosis. 22776

Method of visual control of the infestations of arthropod parasites of apple trees. 22937

Investigations on parasites of Tortrix viridana L. I. Spectrum of species, frequency and dominance. (An evaluation of the literature). 22942

Investigations on parasites of Tortrix viridana L. Ii. Determination tables of larvae and pupae of some Tortricidae feeding on oaks as an aid in the rearing of parasites. Iii. On the phenology of some important species of parasites. 22943

The Trichogrammid parasites of Proceras sacchariphagus Boj., a sugarcane borer of Madagascar. I. Ecology of the autochtonous parasite Trichogramma australicum Gir. The effects of strengthening the parasite population. 22944

Bibliography on the systematics of entomophagous insects. VII. 22950

The interrelations between apple aphids and their parasites and hyperparasites. 22971

A contribution to the biology of Eurytoma curculionum Mayr (Hym., Eurytomidae). 22972

Gamasid mites of Chiroptera (Parasitiformes, Gamasdidea) in Azerbaijan. 22977

An attempt at the liquidation of a primary center of mass appearance of injurious insect. 22996

Study of the efficacy of Prospaltella perniciosi Tow. in Switzerland as a parasite of the San Jose scale. 23007

The entomo-parasitic specialization of some Eulophidae (Hym., Chalcidoidea). 23065

Asolcus bennisi n. sp. (Hymenoptera, Proctotrupoidea) an oophagous parasite of Graphosoma lineata L. (Het. Pentatomidae). 23066

Host reactions to three strains of aster yellows virus from Manitoba. 23158

Cell biological aspects of host-parasite relations of obligate fungal parasites. 23161

A revision of the genus Rotylenchulus Linford and Oliveira, 1944 (Nematoda: Tylenchidae). 23215

Parasitic development of Filipjevimermis leipsandra Poinar and Welch (Mermithidae) in Diabrotica u. undecimpunctata (Chrysomelidae). 23219

Revision of the genus Radopholus Thorne, 1949 (Nematoda: Tylenchoidea).
23221

The anaemia in fascioliasis: Studies with 51Cr-labelled red cells.
23297

Pathologic confirmation of malaria (Plasmodium elongatum) in African penguins (Spheniscus demersus).
23359

Sarconema eurycerca, infection in whistling swans, Cygnus columbianus, in Chesapeake Bay.
23362

Philometra lusiana (Nematoda, Dracunculidae)--parasite of the carp.
23365

New host records for Allassostoma (Trematoda: Digenea) and Neoechinorhynchus (Acanthocephala) from Pseudemys concinna.
23366

New host records of intestinal nematodes of Maryland rodents and suppression of Capillaria bonnevillei Grundmann and Frandsen, 1960 as a synonym of C. americana Read 1949.
23367

Helminths of some wild mammals in the southeastern United States.
23369

Immunoglobulin binding by the miracidia of Fasciola hepatica.
23370

Incidence and pathology of Spirocerca lupi in Kenya.
23371

Ectoparasitic infections on fish of Volta Lake, Ghana.
23372

Parasites of rabbits from North Carolina.
23375

Genetic aspects of parasitism.
23425

PARASITOLOGY

Host-parasite relationships of garden balsam and some nematodes.
15265

A physiological study of the development of the egg of Fasciola hepatica L., the common liver fluke.
16891

A mechanism of resistance to organophosphorus acaricides in a strain of the cattle tick Boophilus microplus.
16993

The effect of a low protein diet and a glucose and filter paper diet on the course of infection of Nippostrongylus brasiliensis.
17090

A bibliographical guide to the animal parasites and arthropod pests of Ceylon.
19939

Concerning the larva Migrans visceralis of Ascaris lumbricoides in the experimental host (Mice).
19949

Electron microscope studies of the nutrition of Coccidia in cell cultures. (Eimeria tenella).
20001

Indirect fluorescent antibody test for the serodiagnosis of Onchocerciasis.
20015

Fine structure of the intestine of the nematodes. Ancylostoma caninum and Phocanema decipiens.
20026

Parasitological studies in the province of Granada. Soil nematodes parasitic on plants. Parasite population of Granada, their quantitative geographic distribution and possible or known economic importance.
20626

Anthelmintic treatment for Capillaria feliscati in the cat.
20837

The effects of experimental microascaridic infections by Ascaris suum in guinea pigs subjected to total body X-irradiation LD 50/30.
22761

Czechoslovak and Soviet parasitology: History, interrelations and work.
22844

PARATHION

The effect of certain insecticides on the entomogenous fungi Beauveria bassiana and Metarhizium anisopliae.
13743

Persistence and biological effects of parathion residues in waterfowl habitats.
13993

Evaluation of the effectiveness of some organophosphorus insecticides against two species of aphids.
14255

Relative toxicity of some insecticides to the hairy caterpillar, Diacrisia obliqua (Arctidae: Lepidoptera).
14277

Effect of temperature, aeration, pH, and the presence of soil on the toxicity of various insecticides to mosquito larvae.
14817

Efficiency of granulated insecticides influenced by solvents used for impregnation.
14978

Mammalian detoxification of insecticides.
14989

Interference with the biological control of cottony-cushion scale by insecticides and attempts to re-establish a favorable natural balance.
15224

Safety of wildlife is important to planners of gnat-control program.
15239

Effect of soil treatments of heptachlor and parathion on predators and parasites of root maggots attacking rutabagas on Prince Edward Island.
15249

A sensitive procedure for urinary p-nitrophenol determination as a measure of exposure to parathion.
15559

Correlation of the effects of parathion on erythrocyte cholinesterase with symptomatology in pigs.
15574

Mammalian detoxification of insecticides.
15602

Parathion resistance in house fly populations in the Savannah, Georgia, area.
16495

Biology and control of the onion thrips in India.
17152

Large scale granular parathion pre-treatment of a duck club area in the Colusa mosquito abatement district.
17219

Pesticide-manganese interelationships in pregnancy. (Abstract).
17508

Cardiac lesions in the offspring of rats fed copper deficient diet with low-level multipesticide supplementation. (Abstract).
17626

Protective effect of chlorpromazine on parathion and paraoxon toxicity in mice. (Abstract).
17667

Effects on populations of corn rootworms of aldrin residues in soil four years after application.
18087

Anticholinesterase action of some organophosphorus insecticides on the central nervous system of Musca domestica.
19701

Current status of parathion resistance in Utah.
19758

Sensorial analysis on tubers of native potatoes treated with insecticides.
19806

Parathion, a selective rust fungicide, compared with maneb in the control of cereal rusts.
19818

The susceptibility of Culex pipiens fatigans larvae to insecticides in Rangoon, Burma.
20419

Respiratory exposure to organophosphorus insecticides. (abstract).
20872

Parathion or its methyl homolog. Proposed establishment of pesticide tolerance.
21498

Removal of DDT, parathion, and carbaryl from spinach by commercial and home preparative methods.
21505

The effect of age, SKF 525-a hydrochloride, and chlorcyclizine dihydrochloride on the toxicity of parathion to adult alkali bees, Nomia melanderi ckll.
21708

The sterilizing action of parathion on the ovaries of quail and chicken embryos in in vitro culture.
22424

Results of integrated pest control in plum cultures.
23059

PARATHYROID GLANDS

Mineral and endocrine interrelationships in renal calcification.
18292

PARATRIOZA COCKERELLI

Cross protection between a plant virus and potato psyllid yellows.
18067

PARDOSA

Aeronautic behavior in the genus Pardosa (Araneae, Lycosidae).
18663

PARIS GREEN

The use of organochlorine insecticides and possible alternatives against leatherjackets.
16715

PAROTID GLAND

The relation between the composition of parotid saliva and mixed saliva in sheep during the induction of sodium deficiency.
15659

PARROTS

New records and a new species of Mesonyssus (Mesostigmata: Rhinonyssidae) from parrots (Psittaciformes: Psittacidae).
14134

Control of psittacosis by group chemotherapy of infected parrots.
20667

PARSLEY

Food additives permitted in food for human consumption. 1-methoxycarbonyl-1-propen-2-yl dimethylphosphate and its beta isomer.
13997

Stemphylium leaf spot of parsley.
15108

Notice of filing of petition regarding pesticides.
16135

Pesticide tolerance. Proposed establishment.
16155

Weed control in carrots, celery, and parsley.
21221

PARTHENIUM

Parthenium weed in Madhya pradesh.
22587

PARTHENOCARPY

Development of parthenocarpic and non-parthenocarpic syconia of Ficus carica L. cv. King in relation to endogenous and exogenous growth regulators.
17927

PARTHENOGENESIS

A chromosome study of two parthenogenetic scolytid beetles.
14270

A study of the capability of the rice weevils Sitophilus sasakii and S. oryzae to reproduce parthenogenetically.
14816

Role of genetic factors and fowl pox virus in parthenogenesis in turkey eggs. 16831

Studies on the morphology and biology of Lecanium fletcheri Ckll. (Homoptera, Coccoidea) and related species. 17100

Parthenogenesis in gum emperor moth Antheraea eucalypti (Scott). 17840

Parthenogenic production of males in Heterarthrus (0 Phyllotoma) ochropodus (Klug). 19544

Solenobia triquetrella Hubner, a flightless parthenogenetic moth, in British Columbia (Lepidoptera: Psychidae). 19655

Aspects of parthenogenic ovogenesis in different groups of aphids. 19687

Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 19785

Origin and evolution of parthenogenetic reproduction in the grasshopper Moraba virgo (Eumastacidae: Morabinae). 19790

Contribution of a biological study of Pissodes notatus F. (Col. Curculionidae). 22366

PARTICLE SIZE DETERMINATION

Studies on fine-particle, coarse-particle, and concentrated aerosols. 14948

Improved deposition of airborne uredospores of Puccinia graminis and P. striiformis on glass slides and on wheat leaves by use of a turntable. (Abstract). 15913

The adsorption of chlorinated hydrocarbon pesticides on an unconsolidated aquifer substrate. 16901

Studies on the necrotic fleck disease of Easter lily, Lilium longiflorum. 17283

The statistical description of a spray in terms of drop velocity, size, and position. 18488

The influence of atmospheric dispersion on the exposure of plants to airborne pollutants. 19235

Preliminary trials with UCAR mist nozzle. 20933

Determination of the suitability of a microdoser for topical application of insecticides to the Colorado potato beetle. 22458

PARTURITION

The effect of intramammary infection during the dry period on the milk production of the affected quarter at the start of the succeeding lactation. 18194

PASSALIDAE

The stridulatory mechanism in three species of Pentalobus (Coleoptera, Passalidae). 15744

Contribution to the faunal list of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LVIII. Coleoptera Passalidae. 20278

PASTEURELLA

Present status of immunization procedures for pasteurellosis. 16770

Comments on bovine myxovirus parainfluenza-3. 16787

Reoviruses. 16806

The natural history of bovine myxovirus parainfluenza-3. 16860

Gross lesions observed in turkeys infected with fowl cholera via the drinking water. 21314

PASTEURELLA BACTERINS

Studies on shipping fever of cattle. II. Prevalence of Pasteurella species in nasal secretions from normal calves and calves with shipping fever. 15387

PASTEURELLA HAEMOLYTICA

Pasteurellae in bovine respiratory disease. 16762

Pneumonia of sheep in Kenya. I. Bacterial and parasitic pneumonia. 16855

Enzootic pneumonia of sheep in the Mafeking district. 17583

PASTEURELLA MULTOCIDA

Pasteurellae in bovine respiratory disease. 16762

A study of immunity against Pasteurella multocida in buffalo calves and their carrier status. 16823

Pneumonia of sheep in Kenya. I. Bacterial and parasitic pneumonia. 16855

Enzootic pneumonia of sheep in the Mafeking district. 17583

A method for evaluation of vaccines containing pasteurella multocida. 18380

Comparative efficacy of commerial fowl cholera bacterins and autogenous bacterin in white leghorn hens artificially infected with Pasteurella multocida. 21313

Experimental production of the cranial form of fowl cholera in turkeys. 21406

Experimental pasteurellosis: Comparative studies on Pasteurella multocida from Asia, Africa, and North America. 22666

PASTEURELLA TULARENSIS

Growth and metabolism of live vaccine strain of Pasteurella tularensis. 16966

Quantitation of susceptibility of swine to infection with Pasteurella tularensis. 22053

Immunochemical characteristics of two geographic varieties of Pasteurella tularensis. 23326

PASTEURELLOSIS

Studies on pasteurellosis. IV. killed fowl cholera vaccine absorbed on aluminum hydroxide. 15381

Studies on pasteurellosis. III. Control of experimental fowl cholera in chickens and turkeys with an emulsified killed vaccine. 15382

An unusual aspect of Pasteurella pseudotuberculosis in turkeys. 15395

Studies on fowl cholera. I. A biochemic study of avian Pasteurella multocida strains. 16021

Diseases observed in rabbits during 1963-67 in the state of Sao Paulo--Brazil. 23285

PASTURE MANAGEMENT

A fern poisoning-like disease observed in an improved pasture. 18261

Control of the leaf-cutting ant, Atta capiguara, Gonlalves, 1944--a pasture pest, with ant-killers: Dusts, liquified gases, powdered and pelleted baits. 20587

Lindane residues on pasture and in the fat of sheep grazing pasture treated with lindane prills. 20854

Observations on the use of preplant herbicides in pasture establishment in the wet tropics. 22557

Grassgrub problem awaits solution. 23199

PASTURES

The marsh crane fly, Tipula paludosa Mg., a new pest in British Columbia (Diptera: Tipulidae). 14454

A pasture trial using 2 immunizing doses of a parasitic bronchitis vaccine. 15391

Heterotylenchus autumnalis Nickle (1967)--a parasite of pasture flies. 16346

A thesis of Mme G. Ricou, on lasting prairie pasturage, a biocenological study of natural environment. 16514

Some economics of air pollution control. 16972

Determination of cesium-137 and related sampling problems of dairy cattle feeds, 1962-1967. 18197

Chemical weed control handbook. SB951.W32. 19132

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Sampling pasture insects. 19640

Acari an Collembola of moorland soils from Yorkshire, England. II. Vertical distribution in four grassland soils. 19760

Control of grassgrub and porina. 19873

Insecticides and pest control. 19898

Science probing deep and wide to combat menace of grassgrub. 19899

Sheep control ring fern on steep country. 19935

Diazinon residues in the milk of cows and fat of sheep after feeding on pasture treated with diazinon. (Abstracted from New Zealand Jour. Agric. Res.9(1):1-7 1966. 20857

Trichlorfon residues on pasture. 20864

Observantions on a poisoning case in sheep grazed on nitrogen treated pastures. 21307

The incidence of plant oestrogens in Finish pasture and fodder plants with special reference to their possible effects in cases of sterility in ruminants. SF98.E8K3. 21534

Fleas found on rabbits and other mammals from a pasture. 21586

The field thistle (Cirsium arvense Scop.)in the grasslands. Biology and means of control. 22016

New knowledge about the use of herbicides in permanent grassland. 22030

Mist sprayers for applying insecticides of low volume. 22239

Pesticide residues in diary produce. 22797

Comparison between Heptachlor powder and other chlorinated hydrocarbons to combat the ants Atta sexdens rubropilosa Forel 1908 and Atta laevigata (F. Smith, 1858). 23175

An ant Atta capiguara, plague of pastures. 23176

PATENTS

Acaricidal agents. Patent 3,378,437. 14151

PATENTS

Process for controlling insects with phenylthiocrotonate. Patent 3,378,436. 14209

Compositions and methods for controlling fungi. Patent 3,378,438. 14371

Method of protecting plants with 2,1,3-benzodithiadiazole compounds. Patent 3,382,146. 14389

Controlling fungi with 1,2-dichlorovinyl hydroxyethyl sulfide. patent 3,345,255. 14407

Allyl dialkylthiolcarbamate nematocides. Patent 3,382,144. 14456

Herbicidal compositions and processes of controlling undesirable plant species in the presence of crops therewith. patent 3,351,458. 14463

Method of destroying a weed. patent 3,352,663. 14466

Process for killing growing plants. patent 3,348,939. 14467

Dialkyl and diphenyl esters of aryloxyacetylphosphonic acid as herbicides. Patent 3,382,060. 14468

Herbicidal composition and method employing substituted benzimidazoles. patent 3,325,271. 14469

Process of killing weeds employing acylated urea derivatives. patent 3,342,586. 14471

Herbicidal methods and compositions comprising 2-amino and lower alkanoamido-5-halothiazoles. Patent 3,374,082. 14472

Method for preventing plant growth. patent 3,340,043. 14473

Phytotoxic compositions and method of use. patent 3,325,270. 14474

Method of controlling the growth of undesirable plants. patent 3,342,583. 14479

Method for the control of weeds. patent 3,333,944. 14480

Post-emergence herbicidal mixture and method of use. patent 3,340,042. 14482

Herbicidal phenylureas. patent 3,326,663. 14483

Herbicidal mixture and method. patent 3,333,948. 14484

Method of controlling undesirable plant growth. patent 3,360,356. 14485

Benzene hexachloride as a preemergence herbicide. patent 3,356,486. 14486

Method for preventing plant growth with organotin borates. patent 3,361,554. 14487

Method of combatting the growth of undesired plants. Patent 3,374,084. 14488

Gastropodicidally effective substituted 5-halo-3-phenylsalicylanilides. Patent 3,382,145. 14489

Purification of amphoteric and basic antibiotics. Patent 3,376,339. 14552

Method of controlling plant growth. Patent 3,375,096. 14773

Method for regulating plant growth. Patent 3,376,126. 14777

Defoliation of plants. Patent 3,378,364. 14779

Method for treating animals infested with pests of the phylum arthropoda. patent 3,367,831. 15508

Herbicidal method utilizing glycol esters of 2,3,6-trichlorophenylacetic acid as herbicides. patent 3,325,273. 15670

Antibiotic streptogan and process for preparation. patent 3,334,015. 15671

Tifungal compositions and methods for their use. patent 3,370,957. 15675

Methods of destroying insects with nitro-substituted salicylanilides. Patent 3,385,756. 15755

Combatting insects with O-(2-lower alkyl-quinolyl-(8))Nmethyl carbamates. Patent 3,384,538. 15763

Synergistic alpha-naphthyl N-methylcarbamate insecticide admixed with meta-acetylphenyl or meta-propionylphenyl N-methyl carbamate. Patent 3,384,539. 15794

Method of controlling weeds. Patent 3,393,994. 16007

Method of controlling weeds. Patent 3,393,995. 16009

Method for controlling growth of seedling weed grasses. Patent 3,385,693. 16011

Method for the control of weeds employing halobenzyl esters of polybasic acids. Patent 3,338,702. 16012

Method of controlling undesirable plant growth. Patent 3,385,689. 16013

Method for controlling plant growth. Patent 3,385,691. 16014

Process for contacting plants with growth effecting chemical Patent 3,393,992. 16214

Stabilized pesticide compositions and methods for making same. Patent 3,393,990. 16244

S-triazines having herbicidal and fungicidal properties. Patent 3,385,854. 16247

1-Methyl or 2-hydroxy ethyl-2-carbamyl-5-nitropyrkoles. Patent 3,393,201. 16251

Insecticidal 2-halo- and 2,4-dihaloalkylphenyl carbamate compositions and method for controlling insects. Patent 3,402,245. 16417

Methods of killing pests selected from the group consisting of mites and insects with phosphonothioates. Patent 3,401,220. 16461

Method of inhibiting plant growth. Patent 3,390,978. 16522

Ammoniation process for detoxifying the seeds of Crambe abyssinica and rape. Patent 3,392,026. 16527

Process for oxidizing soluble alkylene bisdithiocarbamates to produce an oxygen containing product, and the product of said process. Patent 3,401,182. 16591

Lower aliphatic esters of N-phenyl and N-m-Chlorophenyl carbamic acid containing an acyl group. Patent 3,393,224. 16724

Herbicidal tropolone esters. Patent 3,399,989. 16725

Method of controlling weeds in soil. Patent 3,393,065. 16726

3'4'-Dichloropionanilide. Patent 3,382,280. 16727

Monofluorophenyl-4'-nitrophenylether derivatives as herbicides. Patent 3,401,031. 16728

Herbicidal ether. Patent 3,388,171. 16729

Herbicidal method. Patent 3,403,994. 16730

Herbicidal composition and method comprising 1-(tetrahydrodicyclopentadienyl)-3,3-dimethyl urea and a salt of methyl arsonic acid. Patent 3,403,017. 16731

Method of destroying undesirable plants. Patent 3,397,977. 16732

Herbicidal composition and method. Patent 3,393,064. 16733

Method of côntrolling the growth of weeds. Patent 3,399,988. 16735

Naphthoquinone compounds. Patent 3,393,211. 16774

Novel thiazine and thiazoline anthelmintic agents. Patent 3,390,148. 16870

Coated 2,2-dichlorovinyl phosphate and polyvinyl chloride resin anthelmintic compositions. Patent 3,398,225. 16871

Pesticidal N-acyl-N-lower alkyl carbamates of phenols and naphthols with decreased mannalian toxicity. Patent 3,404,208. 16913

Method of controlling fungi with sulfonium iodides. Patent 3,402,248. 16930

Method for the preparation of O,O-dimethyl-S-(1,2-dicarbethoxyethyl)dithiophosphate. Patent 3,403,201. 16942

Fungicidal and bactericidal compositions and methods employing isothiazolecarboxylates. Patent 3,403,209. 16945

Process for preparing benzimidazole N-oxides. Patent 3,398,157. 16947

2,6-Substituted cyclohexanones as insecticides, miticides, fungicides, nematocides and herbicides. Patent 3,389,986. 16948

Bipyridylium compounds and herbicidal compositions containing the same. Patent 3,398,154. 16949

Method for preparation of wettable sulfur. Patent 3,398,227. 16951

Bromodichloroacetanilides. Patent 3,405,176. 16952

Insecticidal tertiary alcohols. Patent 3,402,209. 16953

3-Amino-2,5,6-trichlorobenzoic acid. Patent 3,391,185. 16954

M-alkylphenyl N-chloroacetyl-N-methylcarbamates and their use as pesticides. Patent 3,402,246. 16955

Nematocidal 2,4-dihalophenyl esters of ethanesulfonic acid ethers and alcohols. Patent 3,401,222. 16956

Dimethylthiocarbamoyl s-alkyldithiocarbonates. Patent 3,398,181. 16957

Triazine derivatives with herbicidal and fungicidal properties. Patent 3,403,151. 16958

N,N'-sulfonyl-bis-(carbamoylphosphonic acid esters). patent 3,401,214. 16959

Non-irritant quaternary ammonium compound composition. patent 3,402,242.
16960

Freeze-resistant pesticidal composition. Patent 3,399,991.
16961

Metal salts of phosphorus acids and process. Patent 3,401,185.
16962

Imidocarbonates. Patent 3,401,201.
16967

M-(carbamoyloxy)-carbanilates as herbicides. Patent 3,404,975.
16968

2-alkylaminobenzimidazoles as herbicides. Patent 3,399,987.
16969

2-alkylaminobenzimidazoles. Patent 3,401,174.
16970

Benz(d)indolo(3,2-b)thiopyrylium compounds. Patent 3,401,177.
16971

Method for the control of undesirable vegetation with 3,5,6-substituted uracils. Patent 3,374,083.
17463

Benzimidazole anthelmintic compositions and method of use. Patent 3,326,753.
17600

Herbicidal composition and method. Patent 3,407,056.
18471

Heterocyclically substituted monohalogeno-1,3,5-triazines. Patent 3,407,201.
18490

Stabilized insecticidal phosphorodithioates in powders of substantially iron-free kieselguhr with low volatile solvent oils. Patent 3,390,048.
18598

Method for regulating plant growth. Patent 3,376,125.
18744

Agent for the combatment of moulds. Patent 3,376,190.
18858

Aquatic herbicidal methods. Patent 3,376,127.
19123

Herbicidal method employing trihalothionoacetamides. Patent 3,389,985.
19131

Method of ameliorating the effects of and preventing influenza infections. Patent 3,376,196.
19175

Compositions and methods for modifying ling coccidiosis in poultry. Patent 3,382,148.
19207

Method for controlling apple scald. Patent 3,376,142.
19228

Methods of producing pesticidal compositions containing pecan shell flour as a carrier and a product therefrom. Patent 3,376,191.
19323

Herbicidally active cycloalkenyl dihydric fluoroalcohols and method of controlling weeds therewith. Patent 3,393,993.
20631

Herbicidal composition and method. Patent 3,393,991.
20927

Method of controlling the growth of undesirable vegetation. Patent 3,413,109.
21231

Propagation of ICH virus in swine-lung tissue culture. patent 3,399,113.
21321

Hamster ascites tumor cell line BHK 21/C.13/T.6/ascite useful in submerged serum-free agar cultures to support virus growth. (Patent 3,418,210).
21425

Process for purification of fungal alpha amylase. Patent 3,416,997.
21525

Method of controlling plant growth with pentaerythritol arsenite chlorobenzoates. Patent 3,411,895.
21531

Herbicidal compositions. (Patent 3,418,102).
21541

Method of detecting or classifying microorganisms using agar reagent sheets. Patent 3,416,998.
21547

Manufacture of herbicidal materials. Patent 3,413,111.
21548

Method of controlling weeds. Patent 3,399,049.
21550

Controlling phytopathogenic fungi on plants with 3-pyridyl methane derivatives. Patent 3,397,273.
21554

Benzimidazole ureas. Patent 3,399,212.
21555

2-Chloro-6-(trichloromethyl)pyridine compounds. (Patent 3,418,323.
21556

Organotin-substituted s-triazines. Patent 3,412,090.
21558

Herbicidal and defoliating composition and method. patent 3,410,677.
21559

Agricultural spray oils. Patent 3,410,787.
21560

Pesticides. (Patent 3,418,364).
21562

Erythromycin derivative and process for the preparation thereof. Patent 3,417,077.
21564

Didecyl quatenary ammonium compounds. (Patent 3,418,355).
21566

Herbicidal concentrate composition. Patent 3,397,050.
21567

N-methyl 3-methyl-5-ethyl phenyl carbamate as an insecticide Patent 3,422,198.
22357

Pentachlorobenzyl alcohol, acetate, propionate and butyrate for combatting rice blast. Patent 3,426,135.
22515

Process for the control of nematodes using petroleum oil and water emulsions. Patent 3,426,126.
22552

Amine-phosphorus pentafluoride complexes as herbicides. Patent 3,420,655.
22559

Herbicidal 1-substituted 2,4,5-tribromoimidazoles. Patent 3,423,420.
22560

2-Trichloromethylbenzoxazole as a herbicide. Patent 3,423,200.
22575

Herbicidal composition. Patent 3,425,820.
22580

Composition and method for controlling undesirable plant growth. Patent 3,425,821.
22596

Aquatic herbicide. Patent 3,421,880.
22598

Tissue culture hog cholera vaccine. Patent 3,422,188.
22638

Rabies vaccine and process for preparation thereof. Patent 3,423,505.
22646

Method of combatting herpes virus with 5-nitrouracil. Patent 3,423,508.
22701

Control of coccidiosis in poultry. Patent 3,422,200.
22771

Method for modifying the growth characteristics of plants. Patent 3,421,881.
22814

Bis-sulfonyl dihalomethanes as fungicides and bactericides. Patent 3,426,138.
22828

Triazines. Patent 3,423,409.
22829

Fungicidal compositions containing copper bis-dimethyl acrylate. Patent 3,426,132.
22831

Process of killing fungi, bacteria or nematodes. Patent 3,422,197.
22832

Water dispersible powdered pesticide concentrates. Patent 3,421,882.
22833

Acaricidal composition containing N-substituted and unsubstituted alkyl and alkenyl-2-dimethylamino-benzhydrylcarbamates. Patent 3,422,199.
22835

Pesticidal preparations and compounds. Patent 3,423,470.
22836

Pesticidal preparation and method of use. Patent 3,421,883.
22837

2-phenyl-3-tertiary-aminoalkoxy phenyl- and corresponding tertiaryaminoalkyl thio benzofurans substituted in the benzo nucleus with an alkoxy or tertiaryamino alkoxy or alkylthio group. Patent 3,394,125.
23243

2,3-dihydro-5-carboxamido-6-methyl-1,4-oxathiins and method of making same, Patent 3,393,202.
23443

PATHOGEN
Dutch elm disease found in South Dakota.
17329

PATHOGENESIS
Stemphylium ray speck of chrysanthemum.
15195

A second pathogenic race of Pseudomonas sesami.
15199

Pathogenicity of Bacillus thuringiensis Berliner for two species of webworms.
15768

PATHOLOGY
Pathogenesis and incidence of spontaneous glomerulonephritis (S.G.) in sheep and other ruminants. (Abstract).
17535

PAURODONTIDAE
Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species.
13925

PAUROPODA
First record of Pauropoda in cultivated lands at Giza Region.
13721

PAVEMENTS
Post-surface control of bermudagrass on highway shoulder pavements.
19124

PEACHES
Effect of alcohols on spores of Sclerotinia fructicola and other peach fruit-rotting fungi in California.
13901

Use of chemical defoliants on peach trees in integrated program to suppress populations of green peach aphids.
13933

Dormant season susceptibility of peach to bacterial canker not related to movement of Pseudomonas syringae. (Abstract).
14364

Changes in peach trees (cv. Red Haven) attacked by Taphrina deformans, with particular reference to nitrogen metabolism in infected and non-infected leaves.
14408

Nectar of peach leaf glands as insect food.
14937

Maintaining virus-free cultivars of peach in Michigan.
15026

Time of pruning and infection of peach trees by Pseudomonas syringiae.
15042

Behavior of western X virus in wellrogued peach and cherry orchards.
15075

Reduction of peach decays by hydrocooling with chemical solutions and chemically treated ice.
15188

Ammonia injury to apples and peaches in storage.
15522

Polyethylene liners and fungicides for peaches and nectarines.
15526

Food and food products. tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 0-Phenylphenol and its sodium salt.
15593

A virus from golden elderberry. (Abstract).
15877

Calcium hypochlorite added to selected fungicide sprays improves effectiveness in disease control. (Abstract).
15924

Variation in pathogenicity and virulence in single-spore isolates of Armillaria mellea. (Abstract).
15931

Testing of different pesticides as contact poisons against the adults of Myzus persicae Sulz (Homoptera: Aphididae).
15988

Absorption, translocation, and persistence of radio-labeled dimethyl sulfoxide applied as a foliar spray to peach trees. (Abstract).
16122

Calcium oxytetracycline. Notice of establishment of temporary tolerance.
16163

Gibberellin and the growth of peach and apricot fruits.
16207

Activity of soil fumigants in relation to increased growth response and control of decline and bacterial canker in trees of Prunus persica. (Abstract).
16566

Diseases of pitted-fruit trees, in 1966.
16621

A canker condition in peach (Prunus persica (L.) Batsch) induced by chilling and its relationship to bacterial canker (Pseudomonas syringae van Hall).
17286

Morphology of stomata of peach cultivars differing in resistance to bacterial spot. (Abstract).
17321

Population fluctuation of three Pratylenchus spp. on peach under Central Georgia conditions. (Abstract).
17429

Effects of watering frequency and saturation time on fine root necrosis of peach caused by Pythium spp. (Abstract).
17952

Dispersal patterns of Monilinia laxa spores in peach, prune, apricot, and almond trees during early spring. (Abstract).
18435

Peach, Brown rot and rhizopus rot, Monilinia fructicola Rhizopus sp.
18798

Peach. Brown rot and rhizopus rot; Monilinia fructicola and Rhizopus sp.
18801

Effect of nitrogen and chloride nutrition on susceptibility and effect of fungicide applications on control of Fusicoccum canker of peach.
18811

A biocide produced by pathogenic isolates of Pseudomonas syringae and its possible role in the bacterial canker disease of peach trees.
18821

Biochemical factors affecting sporulation of the brown rot fungus, Monilinia fructicola (Wint.) honey.
18825

Detecting the infection of peach tree branches by fungi of the genus Cytospora.
18835

Rhizopus rot of peaches.
18840

Brown rot of peaches.
18841

Peach. Rhizopus rot, Rhizopus stolonifer.
18872

Occurrence and pathogenicity of Pythium in peach orchard soils. (Abstract).
18885

Peach. Bacterial spot, Xanthomonas pruni.
18909

Control of Fusicoccum amygdali.
18920

Distribution of phony peach vectors in South Carolina.
19034

Morphology, biology, and phytopathological significance of the genus Appelia C.P. (Aphidoidea: Aphididae). I.
19047

Responses to postplanting and preplanting soil fumigation in California peach, walnut, and prune orchards.
19106

The transplanting reactions of peach in relation to the presence of peach residues in the substrate.
19291

Attempt to control the aduncous mite -- Tetranychus aduncus Flechtm. and Baker, 1967 (Acarina:Tetranychidae) new pest of the peach tree.
19893

Relationship between the seasonal development of the tarnished plant bug, Lygus lineolaris (Beauv.) (Hemiptera: Miridae) and its injury to peach fruit.
20617

Chemical thinning of plums and peaches.
20892

The oriental fruit moth Grapholitha molesta (Busck) (Lepidoptera: Olethreutidae) in Ontario.
20944

An infestation of Comstock mealybug, Pseudococcus comstocki (Kuw.) (Homoptera: Coccoidea) on peach in ontario.
20952

Research and biology of the Taphrina deformans and the method to control these parasites.
21171

2-aminobutane. Notice of establishment of temporary tolerance.
21494

Breeding peaches for root-knot nematode resistance.
21800

Effects of two carbamates on several pests of peach.
21829

Canker of peaches by Fusicoccum amygdali . Biology of the parasite and methods of control.
21859

Alterations in the peach trees (cv. red haven) attacked by Taphrina deformans with particular reference to the nitrogen metabolism in infected and non-infected leaves.
21916

Fruit diseases in Illinois in 1967.
22509

Control peach leaf curl.
22511

Weed control in young peach orchards.
22601

Adapting chemical weed control programs to meet orchard conditions.
22603

Seasonal distribution of the lesser peach tree borer in Southern Indiana.
22932

Integrated control problems of citrus and peach aphid pests in Italy orchards.
23049

PEANUT BUTTER

A semi-quantitative determination of aflatoxin B in groundnut meal, groundnuts and peanut butter.
15292

PEANUT MEAL

Toxic groundnut meal: The relationship between aflatoxin B1 intake by cows and excretion of aflatoxin M, in milk.
14626

A semi-quantitative determination of aflatoxin B in groundnut meal, groundnuts and peanut butter.
15292

Penicillium mycelium waste as protein supplement in animals.
23242

PEANUTS PEANUTS

Verticillium wilt resistance in peanuts (Arachis hypogaea). Verticillium wilt resistance in peanuts (Arachis hypogaea).
13907

13907

Method of laboratory screening of peanut germ plasm for resistance to the lesser cornstalk borer.
13922

Notice of filing of petition regarding pesticide chemicals.
13995

A small scale field trial attempting to control red spider mites on groundnuts with aramite and metasystoy at Arusha in the dry season.
14447

Aflatoxin and its control.
14607

Succinic acid 2,2-dimethylhydrazide. notice of establishment of temporary tolerance.
14643

Notice of amendment of petition regarding pesticides.
14652

Notice of filing of petition regarding pesticide chemicals.
14656

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-propyl dipropylthiocarbamate.
14657

Notice of filing of petition regarding pesticide chemicals.
14671

Notice of filing of petition regarding pesticides.
14699

Notice of filing of petition regarding pesticides.
14719

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. N-butylN-ethyl-alpha,alpha,alpha-trifluoro-2,6-dinitro-p-toluidine.
14739

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. N-butylN-ethyl-alpha,alpha,alpha-trifluoro-2,6-dinitro-p-toluidine.
14745

Peanut stunt disease survey in Virginia, 1966.
15124

A semi-quantitative determination of aflatoxin B in groundnut meal, groundnuts and peanut butter. 15292

A. V. C. Agreport. 3. 15858

Blight disease of groundnut in India. 15934

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dodine. 16180

Laboratory evaluation of peanut varieties for resistance to the southern corn rootworm. 16277

Pythium pod rot of peanut. 16575

Residues of aldrin, endrin, and heptachlor in peanuts grown in treated soil. 16904

A note on the relative susceptibility of some groundnut (Arachis hypogaea) varieties to Cercospora personata. 17257

Some effects of Pratylenchus brachyurus upon Spanish peanuts. (Abstract). 17417

The effect of nine parasitic nematode species on growth, yield and quality of peanuts as determined by soil fumigation and correlation of nematode populations with host response. (Abstract). 17449

Control of undesirable grasses of manobi by the preemergence and pre-planting application of herbicides. 17462

Notice of amended fuling of petition regarding pesticides. 17638

Effect of soil fungicides on development of fungi in soil and on kernels of groundnut. 18003

Factors influencing aflatoxin accumulation in peanut kernels and the associated mycoflora. 18043

Extent of Aspergillus flavus and Fusarium oxysporum germination in soil and in the rhizosphere of peanut. (Abstract). 18445

Peanut. Seedling blight: Rhizoctonia, Fusarium, and Thielaviopsis spp. 18761

Soybeans and peanuts. Seed and seedling diseases, several fungi. 18782

Leptosphaerulina-Cercospora complex on peanuts in Texas. (Abstract). 18905

Effect of different dates of sowing of groundnut on the development and intensity of leaf-spot disease by Cercospora spp. 19842

Control of grasses in manobi groves with mixtures of Trifuralin and Diuron in three regions of Sao Paulo State. 19931

Green rosette virus of groundnuts in South africa. 20539

Carcinogenic action of groundnut meal containing aflatoxin in rats. 20868

Distribution of peanut stunt virus in white clover in South Carolina and its relationship to peanut culture. 21109

The effect of rosette virus on flowering in the groundnut (Arachis hypogaea L.). 21122

Reactions of groundnut varieties to the groundnut viruses. 21132

Studies on the transmission of groundnut rosette virus by Aphis craccivora Koch. 21167

The vectors and alternative hosts of groundnut rosette virus in Central Province Malawi. 21170

Effect of carbon dioxide, temperature, and relative humidity on production of aflatoxin in peanuts. 21545

Host range of peanut stunt virus in Trifolium spp. (Abstract). 21837

The occurrence of an ash-colored mold on peanuts in the state of Sao Paulo. 21847

Burley tobacco naturally infected with peanut stunt virus in North Carolina. (abstract). 21856

Aflatoxins: Production of the toxins in vitro in relation to temperature. 21926

Growth responses of some common peanut mycoflora to various extracts from peanut seed. (Abstract). 22207

Effects of hoeing-weeding-cum-manuring on the yield of rainfed groundnut in the Punjab. 22564

A toxic fungus (Sclerotium rolfsii) isolated from groundnuts. 22734

Fumigants in India. 22784

PEARLMILLET
- Fall armyworm resistance in pearl millet. 17390
- Chromosomal alternations in pearl millet induced by gammarays. 18465

PEARS
- Notice of withdrawal of petition regarding pesticides. 14661
- Notice of establishment of temporary tolerance. 14686

Typical field symptoms of pea viroses produced in greenhouse by deferring inoculation until flowering time or later.
15157

Survival of Typhula sclerotia in the rhizosphere of four crop plants at two soil temperatures. (Abstract).
15884

Uptake and metabolism of indoleacetic acid, naphaleneacetic acid, and 2,4-dichlorophenoxyacetic acid by pea root segments in relation to growth inhibition during and after auxin application.
16511

Factors limiting the survival of Ascochyta spp. of peas in soil.
17357

Comparative aphid-transmissibility of bean yellow mosaic virus from pea and bean correlated with cytoplasmic inclusions. (Abstract).
17377

Intracellular and extracellular metabolism of 3-indoleacetic acid in the aseptic and nonaseptic cultures of Pisum sativum root tips.
17676

Comparative gibberellin relationships in tall and dwarf peas (Pisum sativum L.).
17916

Mechanism of increased root rot in virus-infected peas.
17950

Number of zoospores of Aphanomyces euteiches required for infection on peas. (Abstract).
17951

Influence of nitrogen form on the incidence and severity of Aphanomyces root rot of peas. (Abstract).
17966

The role of cotton and bean seed exudate in preemergence infection by Rhizoctonia solani.
17994

Cultural and pathogenicity studies of induced variants of bean and pea root rot Fusarium species.
18078

Resistance of southern peas to the cowpea curculio.
18125

Nutritional requirements of a tomato tissue culture: Growth promoting factors from peas.
18478

Exudation of amino acids by intact and damaged roots of wheat and peas.
18718

Effect of temperature, crop, and depth of burial on the survival of Typhula idahoensis sclerotia.
18846

Histopathology of resistant reactions in pea seedlings to two populations of Ditylenchus dipsaci. (Abstract).
19104

Invasion of plant tissue by bacteria under in vitro conditions.
19824

Epidemiology and control of Ascochyta pinodes on field peas in Canada.
19861

Parallelism between the variations in growth and tendril movement of peas, tied to genetic dwarfishness, gibberellic acid treatments and temperature changes.
20110

Penetration of lindane into plants of various photoperiodic groups and its biological activity depending upon the light conditions.
20637

Gibberellic acid-promoted lignification and phenylalanine ammonia-lyase activity in a dwarf pea (Pisum sativum).
20891

Isolation of the methyl ester of chloro-3-indolylacetic acid from the immature seeds of the pea, Pisum sativum L.
20894

The inability of gibberellic acid to stimulate amylase activity in pea cotyledons.
20914

Gibberellic acid and the light inhibition of stem elongation.
20919

Studies on plant growth-regulating substances. XXV. The plant growth-regulating activity of cinnamic acids.
21094

Effect of soil fumigants on Fusarium wilt and nodulation of peas (Pisum sativum L.).
21118

Translocation of tritium-labelled gibberellic acid in pea stem segments and potato tuber cylinders.
21527

Factors governing zoospore responses of Phytophthora megasperma var. sojae to plant roots.
21864

Isolation, incidence, and virulence of Ascochyta spp. of peas from the soil.
21947

The effects of indoleaectic acid and 2,4-dichlorophenoxyacetic acid on intermediary metabolism of 14C-labelled organic acids by pea root tips.
22215

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on the uptake and metabolism of 14C-glucose and on the incorporation of 14C-labelled amino acids into protein in pea root tips.
22216

Processing pea responses to MCPB applications at different growth stages.
22612

Inhibition of the Hill reaction of isolated chloroplasts by amide-containing herbicides.
22817

Isolation and some physiological properties of natural plant growth inhibitors.
22825

Fungal colonization of Pisum leaves.
23126

Effect of application rates of disulfoton and phorate, and of irrigation on aphid control and residues in canning peas.
23182

PEAT

The influence of an organic soil amendment on infectivity and reproduction of Tylenchulus semipenetrans on two citrus rootstocks.
18144

Factors affecting the copper content of oats grown in peat.
18800

Lettuce growth and tipburn incidence under controlled humidity. (Abstract).
21768

A proposed method for evaluation of wetting agents on organic amendments used in horticulture. (Abstract).
22200

PEBULATE

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-propyl butylethylthiocarbamate.
16139

Control of undesirable grasses of manobi by the preemergence and pre-planting application of herbicides.
17462

PECANS

Notice of filing of petition regarding pesticides.
14699

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dodine.
16180

Morphological and nuclear phenomena of Fusicladium effusum. (Abstract).
17281

New fungicides effective for pecan scab control in Georgia.
18989

PECTIN TRANSELIMINASE

Auxin effects on the activity of pectin-transeliminase in vitro.
18430

PECTINASE

Pectin trans-eliminase and polygalacturonase production by Rhizoctonia solani and other fungi.
15645

Induction and repression of polygalacturonase synthesis in Verticillium albo-atrum. (Abstract).
16223

Effect of sugars and sugar alcohols on production of polygalacturonase by Fusarium oxysporum f. sp. lycopersici. (Abstract).
16224

The relationship of mating capacities and polygalacturonase production in Cochliobolus carbonum. (Abstract).
16646

Effect of phenols and cytokinins on polygalacturonase production by Verticillium albo-atrum in culture.
17700

Virulence of Verticillium albo-atrum in cotton in relation to colony characteristics and endopolygalacturonase production. (Abstract).
18985

Production of polygalacturonase by Verticillium albo-atrum and Fusarium oxysporum f. sp. lycopersici in vitro and in vascular tissue of susceptible and resistant hosts. (Abstract).
19286

PECTINIBRUCHUS LONGISCUTUS

On the genus Rhipibruchus Bridwell, with descriptions of a new species and a closely related new genus (Coleoptera: Bruchidae: Bruchinae).
14071

PECTINOPHORA

Temperature effect on reproduction and longevity of laboratory-reared adult pink bollworm (Lepidoptera: Gelechiidae).
16494

PECTINOPHORA GOSSYPIELLA

Hatch, larval development, and adult longevity of four lepidopterous species after thermal treatment of eggs.
13798

Photoactic response of first-instar larvae of the pink bollworm to light of different wavelengths.
14085

Ecological studies on the resting stage of the pink bollworm in Egypt (Lepidoptera:Gelechiidae).
14099

Laboratory and field cage tests with Bacillus thuringiensis against pink-bollworm larvae.
14207

A natural sex lure extracted from female pink bollworms.
14297

Mating studies of the pink bollworm, Pectinophora gossypiella (Lepidoptera: Gelechiidae), based on presence of spermatophores.
14880

Mating frequency of female pink bollworms collected from light traps.
14884

Foreign quarantine notices. fruits and vegetables. okra from certain South American countries.
15991

Domestic quarantine notices. Pink bollworm. Regulated areas.
17729

Domestic quarantine notices. Pink bollworm.
17730

A simplified field cage for trapping pink bullworm adults.
17819

New techniques to bioassay the sex attractant of pink bollworms with olfactometers. 17829

Circadian oscillation controlling hatching: Its ontogeny during embryogenesis of a moth. 18645

The westward movement of pink bollworm. 21995

A feeding stimulant for pink bollworm larvae in water extracts of cotton. 22434

Development and structure of the compound eye in the cotton leaf-worm, Prodenia litura F., and the pink boll-worm, Pectinophora gossypiella S. (Lepidoptera). 22970

PECTINS

Breakdown of pectin at pH values encountered in Fusarium solani f. sp. cucurbitae-infected squash hypocotyls. (Abstract). 14378

Pectin trans-eliminase and polygalacturonase production by Rhizoctonia solani and other fungi. 15645

Pectic enzymes associated with black root rot of tobacco. (Abstract). 18965

Histochemical studies on the alteration of lignin and pectic substances in white elm infected by Ceratocystis ulmi. 21852

Production of pectic and cellulolytic enzymes by Phytophthora infestans de By. II. Infection of potato tubers. 21860

Production of pectic and cellulytic enzymes by Phytophthora infestans de By. I. Culture of the fungus in a nutrient solution. 22212

PEDICULARIS CANADENSIS

Observations on the immature stages of Gimnomera cerea and G. incisurata (Diptera: Anthomyiidae, Scatophaginae). 23016

PEDICULUS HUMANUS

Treatment and control of scabies, lice and flea infestation of man. 17244

Five years' experience maintaining colonies of Pediculus humanus in the laboratory. 17245

Studies on the biological properties of Toxoplasma gondii in the body of insects, using Pediculus humanus L. as test animals. 17812

PEDICULUS HUMANUS CAPITIS

A problem in the diagnosis of head lice. 21696

PEDICULUS HUMANUS HUMANUS

Gas chromatographic determination of diethyl fumarate in malathion extracts and preparations used for control of body lice. 14785

PEDIPALPIDA

From the tropical rain forest of the Amazon II. 20979

Taxonomy and biology of Trithyreus brasiliensis n. sp. (Arach., Pedipalpi, Schizopeltidia). 22295

PEKIN DUCKS

Eastern encephalitis in white Pekin ducklings on long island. 15356

Studies on Pasteurella anatipestifer infection in white Pekin ducks. 15441

PELARGONIUM

Pelargonium viruses; symptoms, diagnosis and control. 14413

PELARGONIUM HORTORUM

Natural occurrence of tobacco ringspot virus Pelargonium in Ontario. 16611

Geranium plants differentiated in vitro from stem tip and callus cultures. 16929

Trifluralin-treated cloth controls weeds in geranium plantings. (Abstract). 22012

PEMPHIGUS BURSARIUS

Overwintering in Pemphigus bursarius (L.). 15243

Seasonal development and emergence of two species of gall-forming aphids, Pemphigus bursarius and P. nortoni, associated with poplar trees in California. 17297

PEMPHIGUS NORTONI

Seasonal development and emergence of two species of gall-forming aphids, Pemphigus bursarius and P. nortoni, associated with poplar trees in California. 17297

PENGUINS

Pathologic confirmation of malaria (Plasmodium elongatum) in African penguins (Spheniscus demersus). 23359

PENICILLIN

Bacterial endocarditis in a dog. 13960

Notice of filing of petition for food additives chlortetracycline, penicillin, sulfamethazine. 13973

Influence of a penicillin-streptomycin preparation on lamb mortality. 14517

Safety and tissue residue evaluations in swine fed rations containing chlortetracycline, sulfamethazine, and penicillin. 15411

The effect of the use of antibacterial drugs, particularly as food additives, on the emergence of drug-resistant strains of bacteria in animals. 15467

Simple ultrasensitive test for detecting penicillin in milk. 15575

Concentrations of penicillin in milk of cows following intramuscular administration. 16017

Polyarthritis in a dog. 16028

Notice of filing of petition for food additives chlortetracycline, sulfathiazole, and penicillin. 16060

Penicillin concentration in canine blood and urine after intramuscular injection. 17571

A comparative study of cell wall glycopeptide structure of some bovine vibrios. 18247

Psittacosis-lymphogranuloma venereum agent isolated during an abortion epizootic in goats. 18286

Antibiotics, use in animals. 19145

Residual penicillin in the tissues of pigs. 21506

Effect of antibiotic therapy on experimental leptospirosis infection and development of acquired resistance in guinea pigs. 22669

PENICILLIUM

Soil microbial degradation of aldrin. 14010

The effect of corn root exudate on the growth of five fungi associated with corn roots. 15132

The effect of soil fumigation colonization of the spermosphere. (Abstract). 15966

A possible synergism between Phytophthora parasitica var. nicotianae and a penicillium sp. in causing black shank of tobacco. (Abstract). 15971

Fungi in stored products. 18377

Screening of antifungal microorganisms from West Bengal soils. 20515

Fungicidal activity in soil in relation to time, concentration, and Penicillium population. (Abstract). 20553

The use of heat to control the rotting of Cox's Orange Pippin apples by Gloeosporium spp. 21528

Feeding and reproduction of the grain mite and the mushroom mite on some species of Penicillium. 23047

Penicillium mycelium waste as protein supplement in animals. 23242

PENICILLIUM DIGITATUM

Citrus fruit decay in South Africa caused by Penicillium digitatum Sacc. 18921

The role of wounds in the infection of oranges by Penicillium digitatum Sacc. 21079

PENICILLIUM EXPANSUM

Avirulence of a methionine-sensitive leucine mutant of Penicillium expansum in Jonathan apple. (Abstract). 16545

Method of determining the sensitivity of fungus spores to hot water. 16656

Thiabendazole control of Penicillium rot of McIntosh apples. 18721

Penicillium and Botrytis rot of mcintosh apples in water. 18783

PENICILLIUM FUNICULOSUM

Interfruitlet corking of pineapple first caused by Penicillium funiculosum. (Abstract). 15880

PENICILLIUM STOLONIFERUM

Virus-like particles of a fraction of a statolon, a mould product. 15617

PENIOPHORA GIGANTEA

Survival of Fomes annosus in the presence of competing fungi in loblolly pine roots. (Abstract). 17312

PENNSYLVANIA

Additions to the list of Aedes species in Pennsylvania. 14133

PENSTEMON

Observations on the immature stages of Gimnomera cerea and G. incisurata (Diptera: Anthomyiidae, Scatophaginae). 23016

PENTACHLORO-4-KETOPENTENOIC ACID, CIS-2,3,5,5,5-

Cis-2,3,5,5,5-pentachloro-4-ketopentenoic acid; notice of establishment of temporary tolerance. 14746

PENTACHLOROBENZYL ACETATE

Pentachlorobenzyl alcohol, acetate, propionate and butyrate for combatting rice blast. Patent 3,426,135. 22515

PENTACHLOROBENZYL ALCOHOL

Pentachlorobenzyl alcohol, acetate, propionate and butyrate for combatting rice blast. Patent 3,426,135. 22515

PENTACHLOROBENZYL BUTYRATE

Pentachlorobenzyl alcohol, acetate, propionate and butyrate for combatting rice blast. Patent 3,426,135. 22515

PENTACHLOROBENZYL PROPIONATE

Pentachlorobenzyl alcohol, acetate, propionate and butyrate for combatting rice blast. Patent 3,426,135. 22515

PENTACHLORONITROBENZENE

An anomalous effect of pentachloronitrobenzene on the incidence of damping-off caused by a Phythium sp. 15058

Effect of pentachloronitrobenzene. 15178

Control of diseases of shallots. 15521

Accumulation of chlorinated hydrocarbon pesticides by microorganisms in soil. (Abstract). 16115

Some effects of Pratylenchus brachyurus upon Spanish peanuts. (Abstract). 17417

The suppression of actinomycetes by PCNB in culture media used for enumerating soil bacteria. 17980

Sorghum. Seedling blight, Rhizoctonia sp. and Fusarium sp. 18740

Beans (dry field). Root rot, Fusarium solani f. phaseoli. 18925

Accumulation and concentration of chlorinated hyrocarbon pesticides by microorganisms in soil. 20504

Effect of pentachloronitrobenzene on quality of potatoes. 21093

Rhizoctonia stem rot. 21901

Sclerotium stem rot. 21904

The suppression of actinomycetes by PCNB in culture media used for enumerating soil bacteria. (Abstract). 23127

PENTACHLOROPHENOL

Notice of withdrawal of petition for food additives. 15590

Action and effectiveness of certain classes of herbicides. 15667

Field test evaluates termite tubing on wood treated with preservatives. 15785

Chromatographic studies on preservatives in the wood of some conifers, especially of the genus Abies, Picea, and Pinus. 16105

PENTAERYTHRITOL

Method of controlling plant growth with pentaerythritol arsenite chlorobenzoates. Patent 3,411,895. 21531

PENTALOBUS

The stridulatory mechanism in three species of Pentalobus (Coleoptera, Passalidae). 15744

PENTATOMIDAE

Observations over restraining the stink bug (Perillus bioculatus (Fabr.) (Pentatomidae) facing its prey Leptinotarsa decemlineata (Say) (Chrysomelidae). 16978

A new Panamanian stink bug (Heteroptera; Pentatomidae, Discocephalinae). 18557

Studies on the structure of the eggs of an Indian Stink Bug Cyclopelta siccifolia Westwood (Hemiptera-Heteroptera Penthtomidae). 19557

Preliminary studies of the 'uradenies' of certain Heteroptera Pentatomorphs. 19740

A new species of Glaucias Kirkaldy from New Guinea heteroptera: Pentatomidae). 20255

New species of Banasa from the Caribbean area and comments on the status of Schraderi Sailer (Hemiptera: Pentatomidae). 20257

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries LXVII. Hemiptera Pentatomidae. 20277

Heteroptera beaten from blackcurrants at Long Ashton Research Station in 1967. 21645

Asolcus bennisi n. sp. (Hymenoptera, Proctotrupoidea) an oophagous parasite of Graphosoma lineata L. (Het. Pentatomidae). 23066

PENTHALEUS MAJOR

Some answers to the clover mite problem. 19335

The blue oat mite Penthaleus major (Duges) (Acarina: Eupodidae). 21975

Red legged earth mite and pea mite revised control recommendation. 22539

PENTOSES

Pyridine nucleotide-linked enzymatic reduction of triose, pentose, and hexose phosphates associated with rust infection. 15625

Malarial parasite metabolism: the Pentose Cycle in Plasmodium berghei. 19653

PEPEROMIA

Pathogenic variability within Phytophthora parasitica as related to formation of post-infectional antifungal substances in Peperomia. 16678

PEPEROMIA OBTUSIFOLIA

Pathogenic and cultural variation in Phytophthora nicotianae var parasitica from greenhouse plants. 18064

PEPONAPIS PRUINOSA

Nest construction and life history of the eastern cucurbit bee, Peponapis pruinosa (Hymenoptera: Apoidea). 20387

PEPPER (SPICE)

Pepper. Bacterial spot, Xanthomonas vesicatoria. 18888

PEPPERMINT OIL

Pre-imaginal conditioning in Drosophila. 17858

PEPPERS

Comparative morphological and physilogical studies of the progenies from intraspecific matings of Phytophthora capsici. 16669

PEPSINOGEN

Experimental infections of calves with Trichostrongylus axei: Observations on lethal infections. 19223

PEPTIDES

Isolation and characterisation of malformin. 15673

The isolation and partial characterization of monilicolin A, a polypeptide with phaseollin-inducing activity from Monilinia fructicola. 16203

Cardioaccelerator release in Periplaneta americana (L.). 18628

Release of the free Ninhydrin-positive substance in Phormia and Drosophila by means of two dimensional high voltage electrophoresis. 20322

The protein subunit of potato virus X. 20549

Production of auxin by detached leaves. 21091

Amino acid sequence of a common Japanese strain of tobacco mosaic virus. 21145

Action of gramicidin S on photophosphorylation in virusinfected tobacco plants. 23423

The chlorosis toxin from Alternaria tenuis is a cyclictetrapeptide. (Abstract). 23435

PERCHLORIC ACID

Synthesis and distribution of RNA in Cecropia oocyte differentiation. 17184

PERENNIAL PLANTS

Virus diseases in ornamental plants. 17358

Herbaceous annual and perennial weeds. 18174

Weed control with paraquat in plantation crops. 19928

PERICONIA

Periconia circinata. 20528

Periconia macrospinosa. 20529

PERIDERMIUM HOLWAYI

A distinction between Pucciniastrum goeppertianum and P. epilobii with clarification of status of Peridermium holwayi and Per. ornamentale. 21863

PERIDERMIUM ORNAMENTALE

A distinction between Pucciniastrum goeppertianum and P. epilobii with clarification of status of Peridermium holwayi and Per. ornamentale. 21863

PERIDROMA SAUCIA

Temperature-induced wing malformation in alfalfa loopers and variegated cutworms. 13848

PERILLUS BIOCULATUS

Field trials to control Colorado beetle, leptinotarsa decemlineata, with Perillus bioculatus. 16474

Observations over restraining the stink bug (Perillus bioculatus (Fabr.) (Pentatomidae) facing its prey Leptinotarsa decemlineata (Say) (Chrysomelidae). 16978

PERIODATES

Notice of filing of petition for food additive calcium periodate. 19146

PERIPLANETA

Distribution and fate of 4-C14 cholesterol in the adult male American cockroach. 14896

Temperature effects on nerve activity in DDT-TREATED American cockroaches. 16289

The structure of a pregenital abdominal ganglion of the desert locust Schistocerca gregaria (Forskal). 17197

PERIPLANETA AMERICANA

Lysozyme-like action of enzymes from the cockroach Periplaneta americana and from some other sources. 14934

Barrier systems in insect ganglia and their implication for toxicology. 15802

Ultrastructural enzyme localization in the surface of Moniliformis dubius (Acanthocephala). 16099

Histochemical localization of catecholamines in the brain of normal and drug-treated cockroaches. 16389

Inhibition by acetylcholine of malpighian tubule muscle of the cockroach Periplaneta americana. 16450

The toxicity of Oklahoma spider (Araneae) venoms using a new venom recovery and testing technique. 16910

On histopathology and histochemistry of insecticide-treated insects. I-Non-specific phosphatases in the midgut and caeca of pyrethrins treated Periplaneta americana L. 17055

Cockroaches (Periplaneta americana (L.)) as predators. 17081

Localization of nucleoli of tow pericardial nerves of Dictyoptera, Blaberidae and Blattidae.
17084

Degradation of insecticides by esterases of the American cockroach.
17160

Characterization of cardio-accelerators from nerves and tissues associated with the heart of the cockroach, Periplaneta americana Linne.
17200

Effect of insecticides and insecticide treated cockroach blood on the heart beat of Periplaneta americana L.
17237

Influence of repellency on the efficacy of blatticides. IV. Comparison of four cockroach species.
17814

Studies on insect (Periplaneta americana L.) phosphofructokinase.
17827

Electrical activity in insect nerve cell bodies.
17846

Permeability and excitation of insect muscle.
17896

Cardioaccelerator release in Periplaneta americana (L.).
18628

Association of folin positive material with the blood proteins of the American cockroach and the oviposition cycle.
18659

The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress.
19537

Electrophoretic studies of insect esterases.
19545

Examination concerning the free amino acids of the hemolymph by Periplaneta americana (L.) in relation to different formations and functional phases.
19649

Electrophysiological action of carbamate insecticides in the central nervous system of the American cockroach.
19668

Neural and hormonal influence on the fecundity and egglaying of certain oxyurid nematodes inhabiting the hind gut of the cockroach, Periplaneta americana L..
19678

Effect of insecticides and insecticide treated cockroach blood on the heart beat of Periplaneta americana L.
19734

Preliminary report on olfactory neurons specific to the sex pheromone of the American cockroach.
20291

The development of the thoracil musculature of Periplaneta after disconnection of individual nerves. Preliminary report.
20406

Haemocytes and the measurement of potassium in insects blood.
20983

The ultrastructure of the perineurium in two insect species, Carausius morosus and Periplaneta americana.
21007

Production of ethanol and succinate by Moniliformis dubius (Acanthocephala).
21207

Response characteristics and probable behavioural roles for abdominal vibration receptors of some cockroaches.
21680

Contribution to the development of the anterior head and the mouth region of Periplaneta americana.
21730

On the alkaline and acid phosphatase in the alimentary tract of Periplaneta americana L. (Blattaria: Blattidae).
21741

Hemolymph proteins and reproduction in Periplaneta americana: The nature of conjugated proteins and the effect of cardiac-allatectomy on protein metabolism.
22346

Chromatographic evidence for murein from the bacteroid symbiotes of Periplaneta americana (L.).
22382

The histology and histochemistry of the anterior mid-gut of Periplaneta americana L. (Dictyoptera: Blattidae) with reference to the formation of the peritrophic membrane.
22422

Central nervous system control of circadian rhythmicity in the cockroach. I. Role of the pars intercerebralis.
22433

Studies on the insecticidal action of Nereistoxin, 4-N,N-dimethylamino-1,2-dithiolane. V. Blocking action on the cockroach ganglion.
23035

Cercal potentials in the Periplaneta americana. .
23072

PERIPLANETA BRUNNEA
Results of 1966 NPCA-SPONSORED research at VPI on cockroach control.
13794

PERITHECIA
Ecology and possible significance of Perithecia of Calonectria nivalis in the Pacific Northwest.
17971

Effect of fungal estrogen F-2 on the production of perithecia by Fusarium roseum Graminearum'. (Abstract).
18442

Prevention of perithecial development by Venturia inaequalis by late-season applications of fungicides. (Abstracts).
18803

Experiments using sterilized apple-leaf discs to study the mode of action of urea in suppressing perithecia of Venturia inaequalis (Cke.) Wint.
19297

PERITONEUM
Oncolytic capacity in vivo of the Newcastle virus with respect to the Yoshida peritoneal sarcoma.
20718

PERITONITIS
An observation on feline infectious peritontis.
21451

PERITROPHIC MEMBRANE
The histology and histochemistry of the anterior mid-gut of Periplaneta americana L. (Dictyoptera: Blattidae) with reference to the formation of the peritrophic membrane.
22422

PERMEABILITY
Permeability changes caused by victorin.
15651

Permeability changes in Phaseolus aureus associated with infection by Rhizoctonia solani.
16620

Permeability to methyl bromide of wrappers found on shipments of imported plants.
17274

The dynamics of the permeation of nematodes by nematodes and other chemicals.
17437

The hypersensitive reaction in tobacco: A reflection of changes in host cell permeability.
17689

Permeability and excitation of insect muscle.
17896

Dynamics of the permeation of nematodes by water, nematocides and other substances.
20045

Study on the permiability of the sensory organs of the appendages of the head in the larvae of Speophyes lucidulus (Delar.) (Coleoptera).
22375

Transmembrane ionic gradients in Lepidoptera as related to cardiac electrical activity.
22426

PERONOSPORA FARINOSA
Some factors affecting germination of Peronospora farinosa conidia in water.
21153

PERONOSPORA PARASITICA
Laboratory tests of fungicides against Peronospora parasitica (Pers. ex. Fr.) Fr.
18433

PERONOSPORA TABACINA
The role of temperature in the development of blue mould (Peronospora tabacina Adam.) disease in tobacco seedlings. III. The effect of preinoculation temperature and of shade on plant growth and disease development.
20538

A strain of Nicotiana exigua which by the cotyledones test proved to be especially resistant to Peronospora tabacina (downy mildew).
20541

Analysis of epidemics of the tobacco (Peronospor tabacina Adam) mildew in the Gembloux area.
21867

PEROXIDASES
Peroxidase activity in virus-infected sweet potatoes.
15113

Peroxidases and their relation to vascular browning in banana roots.
15117

The role of peroxidase in resistance of tobacco to Pseudomonas tabaci. (Abstract).
15903

The oxidation of indole-3-acetaldehyde and its 1-methyl derivative by horseradish peroxidase.
16941

The electrophoresis and histochemical localization of certain respiratory ensymes of tobacco infected by Phytophthora parasitica var. Nicotianae.
17356

Effects of gibberllic acid on metabolism of barley seeds. (Abstract).
17701

The peroxidase enzyme in black shank-infected tobacco. (Abstract).
18969

Transformation of horseradish peroxidase into photosensitive compounds in the presence of indole-3-acetic acid.
19317

Peroxidase activity in platyhelminth cuticular mitochondria.
20048

The use of a biochemical indicator for diagnosing micronotrient deficiencies of grapefruit trees under field conditions.
20514

Peroxidase isozymes in virus-infected tobacco and cowpea. (Abstract).
20554

PEROXIDES
Supplement to the publication 'On the variations of free amino acids and proteins in chicken eggs after preliminary treatment of killed Salmonella'. I--consideration of the H2O2-catalase process.
20725

PEROXYACETIC ACID
Sporicidal effect of peracetic acid vapor.
23382

PEROXYACETYL NITRATE
An exposure chamber for studying the effects of air pollution on plants. (Abstract).
16532

PERSIAN WALNUTS
Bacteriophage interrelations and pathological capabilities of two Erwinia species affecting the Persian walnut.
18998

PERSICARGAS
The subgenus Persicargas, new subgenus (Ixodoidea, Argasidae, Argas). I. A. (P.) arboreus, an egyptian Persicus-like parasite of wild bees, with a redefinition of the subgenus Argas.
14828

PEST CONTROL

Pesticides: plant protection. sB951.V6. 13894

Garden pests and diseases; a guide to recognition and control. sB603.5.H4. 14438

Research on pests and their control. 14798

Several insects cause concern. 14991

Population ecology and pest control. 14993

U.SDA's long range objectives in meeting agricultural pest problems. 15286

Sterilization of Culex pipiens fatigans Wiedemann by apholate. 16377

Radiation-induced sterilization. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 16988

A comparison of season-long cotton-pest-control programs in California during 1966. 17378

Electromagnetic energy. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17395

Microbial pesticides. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17405

Antifeedants. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17408

Pesticides in the coming struggle for food. 17936

Studies on the chemical control of rice blast caused by Piricularia oryzae Cav. 17942

The effect of polyploidy on plant virus replication and control. 17991

Introduction to Bacillus thuringiensis and its uses. 18103

Alberta, 255,000 square miles, free of rats. 18175

Fumigation-an effective method of rat control in Kuttanad in Alleppey district (Kerala). 18176

Organisation of anti-rat campaigns. 18177

Pest infestation research 1967. 423.92 G792. 18579

Invisible insects which cause itches may be a source of business for PCOS. 18668

X-ray stalks old house borer. 18699

Results with Botrytis control in viticulture. 18780

Soil fumigants tested for control of crown gall. 18813

Systemic-chemical paints for the control of Cytospora canker disease in prune trees. 18839

Fungicides to control Cercospora disease of vines. 18891

Control of Fusicoccum amygdali. 18920

Summing-up of the section V. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19078

Effect of immunization on serum protein levels in the horse. 19166

Mechanization of plant protection in fruit growing. 19326

Is a saving in the cost of disease control possible. 19328

Index catalogue to Russian, central and eastern European, and Chinese literature in medical entomology. Control measures for Arthropods of medical importance. 241.74 M36. 19794

Agricultural entomology in the Lebanon. 19868

The toxicology of pesticides. 19874

Present situation concerning the attack by the nematode, Meloidogyne coffeicola on Sao Paulas coffee culture and means for its control. 19920

Coumaphos as a bird repellent in grain plots. 19936

Mechanical removal of Rhipicephalus sanguineus from the dog. 20024

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Insects and birds on two New Zealand airfields. 20066

Laboratory and field trials with a new raticide selective toxic for rats. 20067

Rye: Pests and diseases. 20591

Control and therapy of foot-rot in sheep in the province of Friesland. 20796

Control of powdery mildew on cantaloupe. 21147

Bent grass: A golden opportunity to do away with a pest. 21194

Heritable resistance to warfarin in rats. 21234

Aldrin, dieldrin, endrin, and chlordane persistence--a 3-year study. 21593

Important plant protection problems in Bavarian agriculture. 21776

Project and problems of plant protection in the developing countries. 21810

Control of bachacs. 21959

The use of attractants in pest control. 21981

Problems of the control of the cereal cyst nematode (Heterodera avenae) in Bavaria. 22007

Probelm of avian leukosis in Lahore. 22134

Prevention, surveillance and management of invading pest insects. 22316

Developments in pest control. I. The present status of resistance. II. The future of pest control. 22363

The knowledge of the interdependence between soil pests, weeds, and their control measures. 22487

Effects and possibilities of using coumarin preparations in rodent control. 22618

Definition of terms in large scale rat control. 22622

Pesticide residues in diary produce. 22797

Some notes on the short-term and long-term economics of pest control. 22840

Threshold values in the economics of insect pest control in agriculture. 22841

Port officers keep constant watch against carpenter ants. 23378

PEST CONTROL OPERATORS

Care and maintenance of the one-gallon stainless steel sprayer. 14790

Where do we stand now. 14797

Potential uses of phosphine by pest control operators. 20065

PESTICIDE ANALYSIS

Notice of filing of petition regarding pesticide chemicals. 13995

Notice of filing of petition regarding pesticide chemicals. 13999

A metabolic study of 3-(3,4-dichlorophenyl)-1,1-dimethylurea (diuron) applied to corn seedlings. 14624

Quantitative measurement of combinations of aramite, DDT, toxaphene, and endrin in crop residues. 14627

Determination of fenthion and five of its metabolites in corn, grass, and milk. 14629

Determination of alkyl dinitrophenyl carbonates and other esters, with particular reference to dinobuton, in fruit and vegetables. 14630

Application of the rapid micromethod of sample cleanup for gas chromatographic analysis of common organic pesticides in ground water, soil, plant and animal extracts. 14633

Residues in spinach grown in disulfoton- and phoratetreated soil. 14635

The fate of 4-amino-3,5,6-trichloropicolinic acid in spring wheat and soil. 14637

Notice of filing of petition regarding pesticide chemicals. 14660

Notice of filing of petition regarding pesticide chemicals. 14662

Notice of filing of petition regarding pesticide chemicals. 14663

Potentiometric determination of phosphine. 14786

Selective residue determination of sulfur-, halogen-, and phosphorus-containing pesticides by helium-plasma emission spectrometry. 15656

The examination of surface waters and sewage effluents for organo-chlorine pesticides. SB951.A6. 16114

Development of double isotope derivative assays for measurement of pesticide residues. In:Radioisotopes in the detection of pesticide residues; proceedings of a panel Vienna, 12-16 April 1965. SB953.P32. 16121

Metabolism of triazine and 2,4-D herbicides, and problems with their residues in soils and plants. In:Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16 April 1965 SB953.P32. 16123

A rapid procedure for the identification of organochlorine pesticides in blood and tissues. 16950

Thin-layer chromatographic determination of polybutene residues in plants. 19242

Report of subcommittee E on recommendations of referees. (transactions of the association of official analytical chemists). 20076

IUPAC commission on the development, improvement, and standardization of methods of pesticide residue analysis.
20077

Report on carbamate pesticides.
20121

Analysis of carbaryl in formulations.
20122

Report on chlorinated pesticides.
20123

Report on analytical methods for pesticide formulations.
20124

Handbook of insecticide knowledge. SB951.E4.
20125

Macro- and microanalytical chemistry of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
20128

Report on multiple residue methods.
20129

Report on phosphated pesticides.
20130

Separation, identification and determination of fluoroacetamide residues in water, biological materials and soils. II. Identification and determination by gas-liquid chromatography.
20132

Separation, identification and determination of fluoroacetamide residues in water, biological materials and soils. I. analytical technique.
20133

Report on eleventh annual meeting of the Collaborative Pesticides Analytical Committee of Europe.
20134

Report on fungicides, fumigants, and miscellaneous.
20135

Physical testing of commercial preparations of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
20137

Report on herbicides and plant growth regulators.
20140

A bioassay technique to determine amount of termite control insecticide in soils. (Abstracted from PestControl 34(1). 32-38. 1966).
20847

Water pesticides. 2.
20851

A simple method for combusting tissues for chlorine-C136 analysis. (Abstracted from Analyt. Biochem. 17(1):24-37. 1966).
20913

The examination of toxaphene by gas chromatography. (Abstracted from Bull. Environ. Contam. Toxicol. 1(1):21-28. 1966.
20922

PESTICIDE APPLICATION

Laboratory procedures. in: Principles of insect chemosterilization, G. C. LaBrecque and C. N. Smith, ed. S959.L3.
13819

Evaluation of systemic insecticides incorporated in the soil for control of lepidopterous larvae of cole crops in southern California.
13931

Where do we stand now .
14797

Pesticides handbook published by USDA.
14799

New nematocides.
15268

Integrated control of forest pests. in: FAO symposium on integrated pest control, Rome, 1965. Proceedings SB951.F62.
15978

Economics of the application of molluscicides to flowing water.
16403

Investigations on fungicidal activity of combined fungicides.
16638

Herbicidal composition and method. Patent 3,393,064.
16733

Field evaluation of insecticides for control of the alfalfa weevil in Maryland, 1962-66.
17091

The effect of certain chemical soil treatments and methods of application in the control of Meloidogyne incognita acrita and effect of these treatments on flue-cured tobacco yield and value. (Abstract).
17444

Flame, alone and in combination with herbicides, for weed control in corn, potatoes, and several cole crops.
17465

The I.I.S.R. bullock-drawn chemical applicator.
17721

Helicopter application of phytoactin to whitebark pine. (Abstract).
17958

Further evaluation of acaricides for brown wheat mite control on winter wheat in Kansas, 1963-65.
18091

Preventing fish and wildlife losses.
18385

Effect of nitrogen and chloride nutrition on susceptibility and effect of fungicide applications on control of Fusicoccum canker of peach.
18811

On the combined application of insecticides, iron chelates and urea in fruit orchards.
19024

Insecticides and fungicides department.
19060

A preliminary assessment of herbicides and defoliation.
19115

Controlling weeds in tobacco with benefin.
19117

Devices for seed dressing with liquid materials.
19264

Kinetic study of the sorption of 2.4-D on some clays.
19319

Micro-encapsulation.
19322

Potential uses of phosphine by pest control operators.
20065

The effect on the two-spotted spider mite, Tetranychus urticae, of dicofol concentration and deposit distribution on the leaf surface.
20341

Low volume aerial applications of DDT to cotton in central Tanzania 1966.
20616

Pesticide mobility: Determination by soil thin layer chromatography.
20859

Pesticide safety handbook; a guide for users and agriculturalists. SB56.C3.
20938

Pesticide regulations.
20939

Regulations by the mile.
20941

Effects of insecticidal treatment on the biology of surviving insects.
21028

Armyworms, when to spray - and when not to.
21233

Design and development of new granular applicators.
21573

Guiding experiments concerning the influence of herbicides on the spicule development of spring barley after applications.
22230

The knowledge of the interdependence between soil pests, weeds, and their control measures.
22487

New injection system for killing or curing trees.
22488

Phragmites control in Delaware, 1965.
22570

Results of pre-emergent aquatic herbicides in Illinois.
22574

Rooting of grasses as affected by siduron.
22581

Evaluation of diquat as an aquatic herbicide applied at 2 gallons per surface acre, under Minnesota conditions.
22586

Bioassay evaluation of depth distribution of incorporated soybean preemergence herbicides.
22605

Translocation and persistence of dicamba in Canada thistle, tartary buckwheat, quackgrass and Kentucky bluegrass.
22826

Herbicide persistence with different incorporators.
22827

Pesticidal preparation and method of use. Patent 3,421,883.
22837

Thimet (phorate) applications.
23214

PESTICIDE MIXTURES

Evaluation of fenthion and Baygon mixtures for control of adult Aedes aegypti (L.) when applied as thermal-fog.
13888

Herbicidal mixture and method. patent 3,333,948.
14484

Investigations on fungicidal activity of combined fungicides.
16638

The examination of mixtures of Captan and Phaltan by gas chromatography.
16944

Some observations on Tordon-2,4-D herbicide combinations.
19114

Toxic effect of some molluscacide mixtures.
23408

PESTICIDE RESIDUES

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. deletion of requirement to analyze carrot tops for pesticide residues.
13998

What:s behind the DDT hassle .
14625

Application of the rapid micromethod of sample cleanup for gas chromatographic analysis of common organic pesticides in ground water, soil, plant and animal extracts.
14633

The partial photolysis of 6-chloropicolinic acid in aqueous solution.
14636

Succinic acid 2,2-dimethylhydrazide. notice of establishment of temporary tolerance.
14643

Notice of filing of petition regarding pesticide chemicals.
14663

Notice of filing of petition regarding pesticide chemicals.
14671

Notice of filing of petition regarding pesticides.
14685

Notice of filing of petition regarding pesticides.
14700

Notice of filing of petition regarding pesticides.
14710

Cis-2,3,5,5,5-pentachloro-4-ketopentenoic acid; notice of establishment of temporary tolerance.
14746

PESTICIDE RESIDUES

Relation between residues of folpet and control of brown rot on sour cherry fruit in Door County, Wisconsin, 1962. 15137

Safety of wildlife is important to planners of gnat-control program. 15239

The spectrophotofluorometric determination of buquinolate in poultry tissue and eggs. 15511

Guide to the analysis of pesticide residues. sB953.b8. 15554

Fish, wildlife unaffected by boll weevil program. 15557

Analysis of chlorinated pesticide residues in fats and oils, utilizing dimethyl sulfoxide: a collaborative study. 15558

Gas chromatographic determination of residues of organophosphorus pesticides with a modified flame ionization detector. 15561

DDT reportedly discovered in antarctic seals and fish. 15563

Note on identification of azinphosmethyl in human tissues. and in figs. 15579

PPC (Plant Pest Control) Manual. 15584

Notice of filing of petition regarding pesticides. 15586

Notice of filing of petition regarding pesticides. 15588

Notice of withdrawal of petition for food additives. 15590

Food and food products. tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 0-Phenylphenol and its sodium salt. 15593

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. procedural regulations. fees. specific tolerances. general provisions. 15598

Selective residue determination of sulfur-, halogen-, and phosphorus-containing pesticides by helium-plasma emission spectrometry. 15656

Electron capture gas chromatography. 15674

Absorption, translocation, and persistence of radio-labeled dimethyl sulfoxide applied as a foliar spray to peach trees. (Abstract). 16122

Use of radioisotopes in the detection of residues in meat and milk. In:Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16, April 1965. SB953.P32. 16125

Economic poisons containing certain pesticide chemicals for certain uses. Cancellation of registration. 16128

2,6-dichloro-4-mitroaniline. Notice of extension of temporary tolerance. 16134

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ammonium nitrate; exemption from requirement of tolerance. 16138

Milk, eggs, meat, and/or poultry. Pesticide tolerances; policy statement. 16140

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Paraquat. 16143

Pesticide tolerance. Proposed establishment. 16155

Calcium oxytetracycline. Notice of establishment of temporary tolerance. 16163

Food additives permitted in food for human consumption. Aluminum phosphide. 16165

Alpha-naphthaleneacetic acid. Proposed establishment of pesticide tolerance. 16168

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Pesticide tolerances regarding milk, eggs, meat, and/or poultry; statement of policy. 16174

Use of Daphnia magna for the microbioassay of pesticides. I. Development of standardized techniques for rearing Daphnia and preparation of dosase-mortality curves for pesticides. 16295

Use of Daphnia magna for the microbioassay of pesticides. II. Comparison of microbioassay with gas chromatography for analysis of pesticide residues in plant extracts. 16296

Toxicological criteria applied for establishment of the tolerances of pesticide residues. 16903

The tactics of a predator. 17127

The inorganic bromide content of foodstuffs due to soil treatment with fumigants. 17631

Influence of various persistent chlorinated insecticides on the macro and micro element constituents of Zea mays and Phaseolus vulgaris growing in soil containing various amounts of these materials. 17633

The photodecomposition of dieldrin residues in water. 17635

Notice of amended fuling of petition regarding pesticides. 17638

Notice of amended filing of petition regarding pesticides. 17639

Tolerances and exemptions from tolerances for pesticides chemicals in or on raw agricultural commodities. Demeton. 17640

Notice of filing of petition regarding pesticide chemicals. 17641

Gas chromatographic analysis of malathion in water and in fish. 17648

A survey of chlorinated pesticide residues in black duck eggs. 17649

An epidemiological study of pesticide contamination in milk on an operating dairy farm. 17651

Effect of selected pesticides on quality of strawberries. 17652

Preventing fish and wildlife losses. 18385

The effect of environmental and biological factors on the persistence of malathion applied in low volume technical and emulsifiable concentrate forms to cotton plants. 18386

Detoxification of pesticidal residues in fish and shellfish. 18393

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diuron. 18396

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. alphanaphthaleneacetic acid. 18397

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin. 18398

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ethyl 4,4'-Dichlorobenzilate. 18399

Analytical problems: Mercury in the general environment. 18408

Notice of filing of petition regarding pesticide chemicals. kirk, j k. 18476

Studies on the persistence and effects on soil fauna of some soil-applied systemic insecticides. 18695

A cellophane transfer bioassay for determining persistence of fungicides. (Abstract). 18893

Control of Hawaiian jungle with aerially applied herbicide. 19125

The effect of sulphur-containing fungicides on the corrosion of plain cans of fruit. 19240

Thin-layer chromatographic determination of polybutene residues in plants. 19242

Lead accumulation in Nova Scotia orchard soils. 19243

Pesticides containing phosphorus paste intended for use in or around the home. Notice of proposed interpretation 26 under federal insecticide, fungicide, and rodenticide act. 19244

Chlorinated hydrocarbons in British wildlife. 19246

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-ethyl dipropylthiocarbamate. 19247

Report of the pesticide residues committee. SB951.N36. 19249

Investigations on the development of simple rapid methods and equipment for qualitative detection of pesticides and their metabolites in plant and animal products. Final technical report, June 29- December 31, 1966. SB959.S7. 19250

Accumulation of DDT in fruit plantings when used continuously. 19251

Petroleum oils in orchard mite control. 19872

Persistent pesticides. Part 3. 20072

Report of subcommittee E on recommendations of referees. (transactions of the association of official analytical chemists). 20076

IUPAC commission on the development, improvement, and standardization of methods of pesticide residue analysis. 20077

IUPAC commission on terminal residues. 20078

Persistence of herbicides in soil. 20079

The injurious effect of insecticides on plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20080

Official FDA tolerances complete through December 31, 1967. 20083

Mass spectra of some carbamates and related ureas. II. 20120

Report on carbamate pesticides. 20121

Macro- and microanalytical chemistry of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20128

Report on multiple residue methods. 20129

Report on phosphated pesticides. 20130

Separation, identification and determination of fluoroacetamide residues in water, biological materials and soils. II. Identification and determination by gas-liquid chromatography. 20132

Separation, identification and determination of fluoroacetamide residues in water, biological materials and soils. I. analytical technique. 20133

Report on fungicides, fumigants, and miscellaneous. 20135

Report on herbicides and plant growth regulators. 20140

Course in agricultural pesticides. 20148

German pesticide law may pose problems for U. S. farm trade. 20149

Some effects on microcrustaceans of coastal impoundments for Aedes sollicitans control. 20850

Amine derivatives for pesticide residue analysis. 20856

Pesticide mobility: Determination by soil thin layer chromatography. 20859

Danger to the community through use of chemical plant preservatives. 20865

DDT contamination of feed and residues in milk. 21488

The effect of the chemical control of insects on wildlife conservation: evaluation of the present in the light of past experience. 21490

Removal of DDT, malathion, and carbaryl from green beans by commercial and home preparative procedures. 21496

Residues of 2-methyl-2-(methylthio)propionaldehyde O-(methylcarbamoyl)-oxime(Temik)in citrus following soil applications. 21497

Notice of amended filing of petition regarding pesticides. 21499

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ethion. 21501

Removal of DDT, parathion, and carbaryl from spinach by commercial and home preparative methods. 21505

Pesticides and public health problems. 21507

Trends in the development of production and use of pesticides. 21508

Organochlorine pesticides in Antarctica. 21509

Protecting honey bees from pesticides. 21510

Basic trends in the development of instrumental procedures for analyzing residual quantities of pesticides. 21511

Determination of residues of di-syston and metabolites by thermionic emmission flame gas chromatography. 21570

Contribution to the knowledge of the possible influence of pesticides on game. 22186

A relative study of the composition and tenacity of the Karathane deposits on bean leaves. 22188

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Methoxychlor. 22189

Food additives permitted in food for human consumption arsenic. 22194

Polarography of trace doses of Karathane. 22234

Control of the action of chemical molluscicides on zoophytic associations in fresh water. 22798

A biological assay technique for the assessment and comparison of systemic insecticide residues. 22978

Toxicity, tissue residue, and efficacy of enheptin given orally to rainbow trout for hexamitiasis. 23323

Changes in guppy populations resulting from exposure to dieldrin. 23390

Dieldrin residues in the gallinules Porphyrula martinica L. and Gallinula chloropus L. and its effect on clutch size and hatchability. 23391

Effects of apholate, an insect sterilant, on an estuarine fish, shrimp, and gastropod. 23392

Effects of diquat on bluegills and their food organisms. 23393

Trial monitoring of pesticides in wings of mallards and black ducks. 23394

Insecticide residues in pronghorn antelope of South Dakota. 23397

The degradation of 2,4-D in forest litter. 23398

Mercury residues in apples in relation to spray date, variety and chemical composition of fungicide. 23400

PESTICIDES

Pesticides: plant protection. sB951.V6. 13894

Repulsion of green sunfish by certain chemicals. 14003

Encephalomyocarditis virus infections in Florida. 1960-1966. 14509

Veterinary therapeutics with emphasis on anthelmintics. 14587

Gas chromatography. A method for the determination of pesticide residues. 14616

The safe use of pesticides. 14762

Pesticide chemicals, the magic of modern farming. 14796

Pesticides handbook published by USDA. 14799

Mammalian detoxification of insecticides. 14989

An obstacle course in ragweed control. 15281

U.SDA's long range objectives in meeting agricultural pest problems. 15286

Method for treating animals infested with pests of the phylum arthropoda. patent 3,367,831. 15508

Water pollution control and abatement. tD420.w45. 15548

Rachel Carson influence gains momentum as book appears. 15549

WACA discussions cover 'silent spring'. 15570

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. procedural regulations. fees. specific tolerances. general provisions. 15598

Farm chemicals handbook. 1968 ed. 15692

Pesticide safety and use in Europe. 15695

Liability for misuse of pesticides. 15697

A. V. C. Agreport. 3. 15858

Pesticide monitoring programs. 16113

Accumulation of chlorinated hydrocarbon pesticides by microorganisms in soil. (Abstract). 16115

Pesticides containing sodium arsenite and arsenic trioxide compounds intended for use by homeowner. Notice of proposed interpretation under federal insecticide, fungicide, and rodenticide act. 16195

Determination of the degradation products of ethylenebis(dithiocarbamates) by thin-layer chromatography and some investigations of their decomposition in vitro. 16241

Stabilized pesticide compositions and methods for making same. Patent 3,393,990. 16244

Pesticides information manual. SB951.P4. 16256

Protecting honeybees from chemical poisons. Sf538 .n3. 16435

Methods of killing pests selected from the group consisting of mites and insects with phosphonothioates. Patent 3,401,220. 16461

Investigations of new insecticides. 16480

The adsorption of chlorinated hydrocarbon pesticides on an unconsolidated aquifer substrate. 16901

Pesticidal N-acyl-N-lower alkyl carbamates of phenols and naphthols with decreased mannalian toxicity. Patent 3,404,208. 16913

The literature of pesticide chemistry. 16943

M-alkylphenyl N-chloroacetyl-N-methylcarbamates and their use as pesticides. Patent 3,402,246. 16955

Dimethylthiocarbamoyl s-alkyldithiocarbonates. Patent 3,398,181. 16957

Freeze-resistant pesticidal composition. Patent 3,399,991. 16961

Metal salts of phosphorus acids and process. Patent 3,401,185. 16962

Waterfowl interests in relation to vector control programs. 16989

Control of the white mite on cotton with various powder and dust products. 17369

Microbes and toxic chemicals in the struggle against plant pests. (JPRS 44,489) Transl. 16903. 17386

Microbial pesticides. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17405

Comparative drug metabolism in five mammalian species. (Abstract). 17595

Comparative metabolism of malathion-C in plants and animals. 17632

Halogenated pesticides; Localization of dieldrin in wheat tissue. 17634

Notice of filing of petition regarding pesticide chemicals. 17642

Notice of amended filing of petition regarding pesticides. duggan, r e. 17646

An epidemiological study of pesticide contamination in milk on an operating dairy farm. 17651

Effect of selected pesticides on quality of strawberries. 17652

Pesticides and pollution. SB959.U4. 17863

Pesticides in the coming struggle for food. 17936

Increasing the efficacy of fungicidal control of black pod rot of cacao incited by Phytophthora palmivora. (Abstract). 18041

Tests with insecticides for the control of resistant Myzus persicae (Sulzer) on year-round chrysanthemums. 18095

The effect of exposure to dieldrin on avoidance response extinction and conditioned heart rate in sheep. 18196

Water pollution. Effects of pollution on fish life. General aspects of water pollution biology. 18395

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. alphanaphthaleneacetic acid. 18397

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Ethyl 4,4'-Dichlorobenzilate. 18399

Macroinvertebrates. Fresh water. 18402

Toxic effects of odorous trace organics. 18417

Notice of filing of petition regarding pesticide chemicals. kirk, j k. 18476

Pesticides, their use and misuse. 18495

Studies on the carrier of pesticides. 18652

Pests and diseases of vegetables and their control. SB951.R42. 18915

A report on forests, pests, and pesticides. Report, May 11, 1967. SB761.B4. 19008

Tobacco, flue-cured (plant bed), damping-off and root rot soil-borne pathogens including; Phytophthora parasitica var. nicotianae, and Meloidogyne sp., Control of weeds. 19016

Study of pesticides in shellfish and estuarine areas of Louisiana. SH153.S8. 19144

Pesticide-induced enzyme breakdown of steroids in birds. 19148

Carbon-14 milk constituents from cows fed carbamate labeled with carbon-14 on the carbonyl. 19173

Pesticides containing phosphorus paste intended for use in or around the home. Notice of proposed interpretation 26 under federal insecticide, fungicide, and rodenticide act. 19244

Report of the pesticide residues committee. SB951.N36. 19249

Investigations on the development of simple rapid methods and equipment for qualitative detection of pesticides and their metabolites in plant and animal products. Final technical report, June 29- December 31, 1966. SB959.S7. 19250

Physiological processes taking place in vines under the influence of pesticides. 19267

Proceedings: Twentieth Annual Meeting of the Utah Mosquito Abatement Association. 19582

The Utah Community pesticide study. 19754

Contact and fumigant toxicity of oils, surfactants, and insecticides to two aphid and three beetle species. 19757

Chromosomal aberrations induced by pesticides in meiotic cells of barley. 19862

Agricultural entomology in the Lebanon. 19868

The toxicology of pesticides. 19874

Cytological effects of pesticides. II. Meiotic effects of some phenols. 19926

Preventing fish and wildlife losses. 20071

Persistent pesticides. Part 3. 20072

Sen. Ribicoff introduces pesticide control bill. 20085

Occupational hazards. 20089

The safe use of modern pesticides. 20101

Safety aspects in handling agricultural chemicals. 20104

Pesticide reference standards of the Entomological Society of America. 20136

A primer for dealers: the practical use of aerial application. 20143

German pesticide law may pose problems for U. S. farm trade. 20149

Principles for the selection of common names for pesticides and plantgrowth regulants. 20150

The antimetabolite Imidazole as a pesticide. (abstract). 20415

Tests (1966) with black fly larvicides. 20440

Vines: Pest and diseases. 20493

Accumulation and concentration of chlorinated hyrocarbon pesticides by microorganisms in soil. 20504

Bananas: Pests and diseases. 20590

Rye: Pests and diseases. 20591

Chromosomal aberrations induced in somatic cells of Vicia faba by pesticides. 20638

Controlling pollution. The pesticide industry takes action. 20848

Some effects on microcrustaceans of coastal impoundments for Aedes sollicitans control. 20850

Pesticide mobility: Determination by soil thin layer chromatography. 20859

Handling animal poisoning complaints. 20869

Insecticide poisoning: Danger area for the practitioner. 20875

Recommended analytical methods for pesticides. 37. Methods of analysis for metam-sodium. 20926

The gas chromatographic determination of organophosphorus pesticides. II. A comparative study of hydrolysis rates. 20931

Detection of cholinesterase-inhibiting pesticides following separation on thin layer chromatograms. 20932

The volume myth in formulated pesticide sales. 20937

Pesticide safety handbook; a guide for users and agriculturalists. SB56.C3. 20938

Pesticide regulations. 20939

The pesticides program activities of the public health service. 20940

Analysis of spray droplet distributions from agricultural aircraft. 20943

The campaign against the citrus fruit fly in 1966-67. 21000

Some current problems in plant protection. 21077

Pesticides and the Washington scene. Report, 1966 meeting, november 30, 1966. Washington. SB951.M42. 21083

A guide to the use of pesticides for the control of agricultural and household pests. 423.9 SO822. 21175

Seasonal population trends of pests and predators under pesticide treatments in apple orchards with release of some predators. 21187

Control of strawberry mite (cyclamen mite) Steneotarsonemus pallidus (Banks 1901). 5th contribution. 21195

Notice of filing of petition regarding pesticide chemicals. 21493

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 21500

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate; correction. 21502

Pesticides and public health problems. 21507

Trends in the development of production and use of pesticides. 21508

Organochlorine pesticides in Antarctica. 21509

Protecting honey bees from pesticides. 21510

Basic trends in the development of instrumental procedures for analyzing residual quantities of pesticides. 21511

Effects of combinations of pesticides applied to cotton. 21526

2-Chloro-6-(trichloromethyl)pyridine compounds. (Patent 3,418,323. 21556

Pesticides. (Patent 3,418,364). 21562

Professional responsibility. 21576

Aldrin, dieldrin, endrin, and chlordane persistence-ia 3-year study.
21593

Important plant protection problems in Bavarian agriculture.
21776

The Bavarian Department for Agriculture, Planting and Plant Protection, and its 'Group Plant Protection'.
21791

Concentrate spray-thinning of apples. (Abstract).
21808

Commonwealth of Australia Dept of Health Public Health Branch. Pesticides Review.
22184

Contribution to the knowledge of the possible influence of pesticides on game.
22186

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Methoxychlor.
22189

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid.
22190

Pesticides and water. TD427.P38G3.
22197

Tests of the flight against the 'melting of seed' of summer onions in Nord Finistere.
22204

Pesticides in water. Amitrole concentrations in creek waters downstream from an aerially sprayed watershed sub-basin.
22241

The evolution of resistance in hosts and pests.
22497

Pesticides and modern plant production.
22499

Process for the control of nematodes using petroleum oil and water emulsions. Patent 3,426,126.
22552

Pesticides use and health hazards.
22802

Process of killing fungi, bacteria or nematodes. Patent 3,422,197.
22832

Water dispersible powdered pesticide concentrates. Patent 3,421,882.
22833

Acaricidal composition containing N-substituted and unsubstituted alkyl and alkenyl-2-dimethylamino-benzhydrylcarbamates. Patent 3,422,199.
22835

Pesticidal preparations and compounds. Patent 3,423,470.
22836

Pesticidal preparation and method of use. Patent 3,421,883.
22837

Safe handling of pesticides.
22843

Where do we stand on safe use of pesticides.
22845

The available data on the effect of spray chemicals on useful arthropods in orchards.
22941

Trial monitoring of pesticides in wings of mallards and black ducks.
23394

Evaluation of organic pesticides for possible use as fish toxicants.
23406

Factors that influence utilization of pesticides by selected vegetable producers in Tennessee.
23446

Pesticide regulations affecting crop production.
23448

PETROBIA LATENS

Further evaluation of acaricides for brown wheat mite control on winter wheat in Kansas, 1963-65.
18091

Petrobia latens (Muller)(Acarina, Tetranychidae) recorded on fruit in kent.
18639

Some answers to the clover mite problem.
19335

PETROLATUM

Patch canker of Hevea brasiliensis caused by Phytophthora palmivora.
17967

PETROLEUM

Mosquito control agents derived from petroleum hydrocarbons. II. Laboratory evaluation of a new petroleum derivative, FLIT MLO.
17164

Petroleum oils in orchard mite control.
19872

The performance, phytotoxicity and persistence of three petroleum oils for control of the pear pyslla.
19889

Those durable oils. II. Insecticidal oils.
21552

Agricultural spray oils. Patent 3,410,787.
21560

Process for the control of nematodes using petroleum oil and water emulsions. Patent 3,426,126.
22552

The effects of petroleum mulch and herbicides on lettuce.
22554

PETS

Ancylostoma ceylanicum infection in dogs, cats, and man in Taiwan.
16102

Azak - a new crabgrass herbicide.
22590

PETUNIA

Exocortis virus of citrus: Association of infectivity with nucleic acid preparations.
20565

Toxicity of Nicotiana and Petunia species to larvae of the tobacco hornworm.
23020

PHAENICIA

Conjugation of 1-naphthol and p-nitrophenol in flies: formation of glucoside-6-phosphates.
13805

PHAEOGENES GILVILABRIS

The Phaeogenes sensu stricto of North America.
19340

PHAEOGENES OPHTHALMICUS AMERICANUS

The Phaeogenes sensu stricto of North America.
19340

PHAGOCYTES

On the hemopoietic nature of the phagocytic organ (Cuenot) of Grillus bimaculatus (Orthoptera Ensifera).
19627

PHAGOCYTOSIS

In vitro phagocytosis of Nosema apis spores by honey-bee hemocytes.
13725

On the hemopoietic nature of the phagocytic organ (Cuenot) of Grillus bimaculatus (Orthoptera Ensifera).
19627

Interactions between macrophages of guinea pigs and salmonellae. I. Fate of Salmonella typhimurium within macrophages of normal guinea pigs.
19970

Blood serum factors associated with erythrophagocytosis in calves with anaplasmosis.
22131

PHALANGIDA

Contribution to the knowledge of the daddy longlegs fauna of the Soviet Central Asia (Arach., Opilionidea).
13750

Three species of opiliones from Nepal.
14122

A secretory aperture on the first segment of the chelicera in the Nemastomatidae, and its use in taxonomy (Opilionidea).
14260

On the duct of secretory glands on the first cheliceral segment in the family Nemastimatidae and the application of this character in taxonomy (Opilionidea).
22450

Notes on the morphology of a rare Palearetic Opilionid (Opilionidae).
22915

PHALARIS ARUNDINACEA

Biology of the pseudo root knot nematode Hypsopcrine ottersoni.
19112

PHALARIS TUBEROSA

Factors affecting concentrations of dimethylated indolealkylamines in Phalaris tuberosa L.
16030

Phalaris can be poisonous.
22198

Phalaris staggers need not be a bogey.
22636

PHARMACOLOGY

Pharmacology and toxicology of carbon tetrachloride in the sheep. iV. reduction and augmentation of toxicity to sheep.
15397

Pharmacological affect of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
20095

The pharmacological effect of Baymix (coumaphos) on poultry.
21279

Pharmacology properties of the toxins in the venom of the scorpion (Androctonus australis).
21743

Effects and possibilities of using coumarin preparations in rodent control.
22618

Pharmacologic properties of a slobber-inducing mycotoxin from Rhizoctonia leguminicola.
22647

PHARYNGEAL GLANDS

Invertase in the hypopharyngeal glands of the honeybee.
21026

PHARYNX

Excretion of foot-and-mouth disease virus prior to the development of lesions.
16755

The formation of the cuticular ridges in the larval pharynx of the blowfly (Calliphora vicina R.-D.).
17809

PHASE-CONTRAST MICROSCOPY

Studies on phase-shifts in endogenous rhythms. I. Effects of light pulses on the eclosion rhythms in Drosophila pseudoobscura.
20318

Studies on phase-shifts in endogenous rhythms. II. The dual effect of light on the entrainment of the eclosion rhythm in Drosophila pseudoobscura.
20319

PHASMATIDAE

Improvement of a method for culturing the eggs of the Phasmid Carausius morosus Br. deprived of the chorion.
17894

Notes on the biology of some Australian stick insects (Phasmatodea).
19552

Observations on sound transmission in the Phasmid of the Congo, Palophus centaurus. (Chelcut. Phasmidae).
19594

Research on the neuro-endocrine control of oviposition in Carausius morosus Br. (Phasmides-Cheleutoptera).
19739

Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae).
19785

The effect of castration on the ventral neurosecretion cells of the infraesophageal ganglion in the phasmid, Carausius morosus (Phasmidae-Orthoptera).
22429

PHEASANTS

Case report- botulism type C outbreak on a pheasant game farm.
15486

The incidence of antibodies of some arboviruses in men, domestic and wild animals living in the natural focus of the Tahyna virus in the south of Moravia.
17501

Helminthofauna of domestic fowl, pheasants and partridges in the country.
20809

Chromium-51 in food metabolizability and passage rate studies with the ring-necked pheasant.
21249

A gynandromorph of Oxylipeurus mesopelios (Nitzsch) (Mallophaga) from Phasianus colchicus L..
22432

Comparison of the resistance of different-aged pheasants to eastern encephalitis virus from different sources.
22664

Escherichia coli septicemia in pheasants.
23269

PHEIDOLE MEGACEPHALA

Some effects of the big-headed ant on populations of the pink sugarcane mealybug.
14048

PHENOL COMPOUNDS

Accumulation of phenols in resistant plant-fungus interactions.
17280

Lesion nematode injury to cabbage. (Abstract).
17410

Studies on the phenylphenol derivaties with biological activity. II. The herbicidal activity of chloro-substitud phenylphenols.
20495

PHENOL REACTION

Color formation on phenol-containing media as related to lignin breakdown by wood-rotting basidiomycetes.
15630

PHENOLASES

Evidence for a lipid activator of prophenolase in Tenebrio molitor.
15762

Tyrosinase activity in Hestina larva at the beginning of overwintering.
15803

A study of a melanic mutant of the blowfly Lucilia cuprina.
16395

Insect oxidases and detoxication of carbamate insecticides.
17103

The protein components of a latent phenoloxidase system in the prepupae of housefly.
17110

Gel filtration of insect haemolymph proteins.
17157

A possible reservoir of tyrosinase substrates in Drosophila melanogaster.
17691

Phenolase activity in tomato fruit in relation to growth and to various ripening disorders.
18844

Phenol oxidase activity and phenotypic expression of the melanotic tumor strain tug in Drosophila melanogaster.
21048

A new polyphenoloxidase test for distinguishing between wood-rotting fungi.
23160

PHENOLS

Accumulation of phenols in soybean after inoculation with fungi nonpathogenic to soybean. (Abstract).
14343

Inhibition of phenol oxidation by Erwinia carotovora in potato tuber tissue and its significance in disease resistance.
14392

Wood tannins. isolation and significance in host resistance to Verticillium Wilt disease.
14414

The diphenylamine reaction and transmission experiments with phenol extracts of plants infected with potato leaf roll virus.
15101

Determination of Niagara NIA-10242 and its phenol degradation product in corn silage and milk and determination of other carbamates by GLC of their thiophosphoryl derivatives.
15552

Food and food products. tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 0-Phenylphenol and its sodium salt.
15593

Systemic action of 2-chloro-4-diisobutyl-6-nitrophenol against powdery mildew of snapbean. (Abstract).
16572

Polyphenols and discoloration in the elm disease investigated by histochemical techniques.
16580

Pesticidal N-acyl-N-lower alkyl carbamates of phenols and naphthols with decreased mannalian toxicity. Patent 3,404,208.
16913

Accumulation of phenols in resistant plant-fungus interactions.
17280

The effects of gossypol on certain enzymes in cellular fractions of animal tissues.
17661

Some relationships of phenolic acids to the development of rust infection in flax cotyledons.
17671

Effect of phenols and cytokinins on polygalacturonase production by Verticillium albo-atrum in culture.
17700

Characterization of bovine viral diarrhea viruses by their interactions with susceptible host cells.
18243

Phenol oxidases of a lozenge mutant of Drosophilia.
18653

Relationships of tannins, polyphenolics, and reducing sugars to Verticillium wilt resistance of strawberry cultivars.
18896

Inhibition of growth of Verticillium albo-atrum sporelings by tannins and polyphenols from infected crowns of Verticillium-resistant and -susceptible strawberry cultivars.
18897

Proteins of Rous sarcoma virus.
19174

Cytological effects of pesticides. II. Meiotic effects of some phenols.
19926

Exocortis virus of citrus: Association of infectivity with nucleic acid preparations.
20565

Difference in phenolic extracts from healthy Douglas-fir roots and those infected with Poria weirii.
21822

Effects of phenols on the plant.
21961

PHENOTHIAZINE

A comparative study of thiabendazole and phenothiazine as anthelmintics for the castrointestinal nematodes of the goat.
13984

Tranquillising horses with promazine hydrochloride.
15291

Efficacy studies on a new processed. I. Micron refined phenothiazine against gastro-intestinal nematodes in feeder lambs.
17478

Effect of management system on the growth of lambs and development of internal parasitism. II. Field trials involving medication with national formulary and purified grades of phenothiazine.
20599

Evaluation of foliar sprays for control of weather fleck on flue-cured tobacco.
23171

PHENOXYACETIC ACID

NACA industry task force on phenoxy herbicide tolerances. Notice of withdrawal of petition regarding pesticides.
16167

NACA industry task force on phenoxy herbicide tolerances. Notice of filing of petition regarding pesticides.
16169

NACA industry task force on phenoxy herbicide tolerances. Notice of filing of petition regarding pesticides.
23401

PHENOXYACETIC ACIDS

NACA industry task force on phenoxy herbicide tolerances. Notice of filing of petition regarding pesticides.
16171

PHENYLACETIC ACID

Phenylacetic acid, a metabolite of Xanthomonas oryzae (Uyeda et Ishiyama) Dowson in culture affecting upon the depressive growth of young roots of rice seedlings.
17683

Identification of phytotoxins obtained from plant residues decomposing in soil. (Abstract).
20916

PHENYLALANINE

Quantitative dietary requirments of Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae) for phenylalanine and tyrosine.
16378

Requirement of young chick embryos for phenylalanine and tyrosine. (Abstract).
17487

Physiological genetics of melanotic tumors in Drosophila melanogaster . V. Amino acid metabolism and tumor formation in the tu bw; st su-tu strain.
17902

PHENYLBUTAZONE

Polyarthritis in a dog.
16028

PHENYLBUTYRIC ACID

Identification of phytotoxins obtained from plant residues decomposing in soil. (Abstract).
20916

PHENYLCARBAMATES

M-alkylphenyl N-chloroacetyl-N-methylcarbamates and their use as pesticides. Patent 3,402,246.
16955

Electrophysiological action of carbamate insecticides in the central nervous system of the American cockroach.
19668

PHENYLMERCURIC ACETATE

Stomatal conductivities in K-deficient leaves of maize (Zea mays, L.).
17268

Effects of metabolic poisons on rice: the comparative sensitivity of aerobic and anaerobic modes of germination.
17704

Mercury residues in apples in relation to spray date, variety and chemical composition of fungicide.
23400

PHENYLMERCURIC CHLORIDE
Prevention of perithecial development by Venturia inaequalis by late-season applications of fungicides. (Abstracts). 18803

PHENYLPHENOL
Chromatographic studies on preservatives in the wood of some conifers, especially of the genus Abies, Picea, and Pinus. 16105

PHENYLSALICYLANILIDES, 3-
Gastropodicidally effective substituted 5-halo-3-phenylsalicylanilides. Patent 3,382,145. 14489

PHENYLTHIOCROTONATE
Process for controlling insects with phenylthiocrotonate. Patent 3,378,436. 14209

PHENYLUREAS
Herbicidal phenylureas. patent 3,326,663. 14483

PHEOPHYTINS
Constituents of the cotton bud. XIII. Further studies on a nonpolar feeding stimulant for the boll weevil. 18124

PHERBELLIA ARGYRA
Contribution to the study of Diptera Malacophage. IV. Identification of Pherbellia obtusa (Fallen) (1820) and the description of a new palearctic species Pherbellia argyra sp. n. (Diptera, Sciomyzidae). 20274

PHERBELLIA OBTUSA
Contribution to the study of Diptera Malacophage. IV. Identification of Pherbellia obtusa (Fallen) (1820) and the description of a new palearctic species Pherbellia argyra sp. n. (Diptera, Sciomyzidae). 20274

PHERMONES
Reproductive behavior of the potato tuberworm, Phthorimaea operculella (Zeller), (Lepidoptera: Gelechiidae) and the effect of the chemosterilant metepa. 17836

A pheromone-like dispersant affecting the local distribution of the European house cricket, Acheta domestica. 22448

PHEROMONE
Chemical releases of social behavior-IV. The hindgut as the source of the odor trail pheromone in the neotropical army ant genus Eciton. 14807

PHEROMONES
Male pheromones of Culex quinquefasciatus, C. tarsalis, and C. pipiens that attract females of these species. 13791

A bioassay of the pheromone of Trogoderma granarium males as an attractant for both sexes of the species. 14292

Sex pheromones of noctuid moths. VIII. Orientation to light by pheromone-stimulated males of Trichoplusia ni (Lepidoptera: Noctuidae). 14881

Sex pheromones of noctuid moths. VII. Quantitative aspects of the production and release of pheromone by females of Trichoplusia ni (Lepidoptera:Noctuidae). 14882

Source of the trail pheromone and method of trail laying in the ant Crematogaster peringueyi. 16385

A sex pheromone in the Pacific coast wireworm. 17180

Pheromones. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17198

Field studies of sex attraction in the boll weevil. 17790

Difference in response of two strains of screwworm flies to the male pheromone. 17823

A sex pheromone from the citrus mealybug. 17828

Bark beetle aggregation: Effects of feeding on the release of pheromones in Dendroctonus and Ips. 18692

Insect population control by the use of sex phermones to inhibit orientation between the sexes. 20995

Sex pheromone specificity tests in the Tortricidae--an introductory report. 21729

The use of attractants in pest control. 21981

Research on the sexual behavior of Pityokteines spinidens Reit. (Coleoptera Scolytidae polygamous) and a study of the factors that make the male more attractive to the female. 22370

Isolation of the population aggregating pheromone of the southern pine beetle. 22441

Insect and host factors in the aggregation of the southern pine beetle. 22463

Observations on host selection by Tomicobia tibialis Ashmead (Hymenoptera: Pteromalidae). 23032

PHIGALIA TITEA
Life history of the looper Phigalia titea in Virginia. 17889

PHILAENUS SPUMARIUS
Modes of balance in the polymorphism of Philaenus spumarius (L.)(Homoptera). 13867

A note on the polymorphism of Philaenus spumarius (L.) (Homopt., Cercopidae) in Britain. 18619

The polymorphism in Philaenus spumarius (L.) (Hemiptera: Cercopidae) in british Columbia. 19772

PHILARONIA BILINEATA
Note on damage to grasses in the Peace River region by the spittlebug, Philaronia bilineata Say, (Cercopidae: Hemiptera). 14425

PHILODROMUS
Life histories and habits of two species of Philodromus (Araneida: Thomisidae) in Ontario. 14936

PHILOPTERIDAE
Two new Mallophaga species of the genus Ardeicola Clay, 1935 (Ischnocera: Philopteridae). 16302

A new species of Ardeicola Clay (Mallophaga: Philopteridae). 19368

A new species of Rhynonirmus from Thailand (Mallophaga: Philopteridae). 19388

The degree of infestation of several bird species with mallophaga. 19718

PHILORNIS
Some new and little-known species of Philornis (Diptera: Muscidae). 20185

Philornis flies from Trindad (Diptera: Muscidae). 20331

PHLEBOTOMUS
The rearing of Phlebotomus sandflies (Diptera: Psychodidae) II. Development and behavior of Panamanian sandflies in laboratory culture. 14899

Key to rapid identification of antropophilic Phlebotomus in the cutaneous area of leishmaniasis in Mexico. 17241

Some observations on compulsory feeding of sandflies (Diptera, Phlebotominae) with the culture of leptomonads. 17778

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). I. Description of a limited area of a cloudy forest and the taxonomy of the Phlebotomus (Diptera, Psychodidae). 22329

Contributions to the morphological differentiation between the females of Phlebotomus major and Phlebotomus perfiliewi (Diptera, Psychodidae) in Romania. 22377

Investigations concerning the morphological characters of the variaty Phlebotomus chinensis balcanicus Theodor 1958. 22379

New nomenclature for the species Phlebotomus towsendi n. sp. and Phlebotomus adleri n. sp. 22892

Biological observations on some Phlebotomus from Rancho Grande (Venezuela). I.Description of a limited area of the cloud forest and the Phlebotomus taxonomy. 22914

Biological observations on some sand flies (Phlebotomus) of Rancho Grande (Venezuela). 5. Gonadotrophic characteristics of Phlebotomus towsendi. 23039

Biological observations on some sand flies (Phelebotomus) of Rancho Grande (Venezuela). 5. Gonamicroclimatic factors determining endemisms of the Phlebotomus--fauna of Rancho Grande. 23040

PHLEUM
Contarinia kanervoi Barnes (Dipt., Itonididae), bionomics, damage and control. 19900

PHLOEM
Effects of phloem temperature and moisture content of the Southern pine beetle. 14187

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants. 17253

Movement of tobacco mosaic virus within Nicotiana glutinosa plant grafted with tobacco. 17300

Phloem necrosis associated with the greening disease of sweet orange (Citrus sinensis). (Abstract). 20561

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Ii. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness. 21180

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Iii. Effect of injury on oleoresin composition, phloem carbohydrates, and phloem pH. 21193

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23190

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23191

PHLORIZIN
Metabolism in vitro of phloridzin and other compounds by Venturia inaequalis. 15627

PHLYCTINUS
Experiments on sterilization of the snout-beetles, Philyctinus callosus Boh. and eremnus setulosus Boh., on export grapes in cold-storage. 20064

PHOENIX DACTYLIFERA
Eutogenes punctata n sp (Acarina: Cheyletidae). 14140

PHOMA
Fungi associated with :Purple Patch: of subterranean clover in western Australia. 13905
Fungi isolated from black stem of alfalfa and the influence of temperature on lesion formation and disease severity. 15160
Phoma leaf spot of tomato and potato in Hawaii. 21146

PHOMA VALERIANELLAE
A new cryptogamic disease of corn salad discovered in romand Switzerland. 23094

PHOMOPSIS
Studies on the etiology and disease cycle of blueberry cankers in Michigan. (Abstract). 18983
Studies on collar and branch canker of young tea (Phomopsis theae Petch). II--INFLUENCE of soil moisture on the disease. 19856

PHOMOPSIS CITRI
Entry of stem-end rot fungi in Florida oranges. (Abstract). 16555
Mode of entry of Diplodia natalensis and Phomopsis citri into Florida oranges. 17282

PHOMOPSIS JUNIPEROVORA
A study of symptoms and control of Phomopsis juniperovora on Arizona cypress. 15127

PHONOCARDIOGRAMS
Cardiopulmonary values in normal and heartworm-infected dogs. 22144

PHONY DISEASE (PEACHES)
Distribution of phony peach vectors in South Carolina. 19034

PHORATE
A five-year study of potential western corn rootworm resistance to diazinon and phorate in Nebraska. 13766
Notice of filing of petition regarding pesticide chemicals. 13995
The control of frit fly, oscinella frit (L.), in sweet corn (Zea mays) by Thimet (O,O-diethyl S-ethylthiomethyl phosphorodithioate). 14441
Residues in spinach grown in disulfoton- and phoratetreated soil. 14635
Notice of filing of petition regarding pesticides. 14676
Reduction of aster yellows. 15053
Preliminary study on some of the factors affecting control of western corn rootworm larvae with soil insecticides. 15246
Nematocidal activity of phorate and Disyston in woody ornamentals. 16016
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Drugs. Gentamicin. Miscellaneous amendments. 16118
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Phorate; tolerances for residues. 16173
Field evaluation of insecticides for the control of aphids on potatoes. 16657
Insecticides applied to the soil for control of eight species of insects on Irish potatoes in Virginia. 16706
Loss of phorate from a granular formulation applied in the soil. 18110
Notice of filing of petition regarding pesticide chemicals. 18388
The effect on honeybee mortality of applying insecticides as sprays or granules to flowering field beans. 18604
Insecticidal laboratory studies on sisal weevil (Scyphophorus interstitialis Gyll., Curculionidae, Coleoptera). III. Systemic insecticides applied to soil. 19043
Effects of insecticide location on phorate absorption by bean plants from three soils. 20862
Effect of seed coating with Phorate and Disyston on the growth and mineral contents of cotton seedlings. 21068
The secretion of the systemic insecticides dimethoate and phorate into nectar. 21537
Poisoning of bees by insecticides. 22183
Effect of application rates of disulfoton and phorate, and of irrigation on aphid control and residues in canning peas. 23182
Thimet (phorate) applications. 23214

PHORESY
Biological and ecological studies on Caloglyphus mite (Acarinai Acaridae) associated with Scarabaeidae. 17743
New hypopes living in a phoretic association on rodents and marsupials (Acarina: Glycyphagidae). 20189

PHORIDAE
Infestation of emulsion paint by the fly Megaselia scalaris (Loew)(Dipt., Phoridae). 18640

PHORMIA
Alkaline phosphomonoesterase activity in insects. 2.Activity in various cell fractions from the blow fly Phormia regina. 14892
Transmission of receptor potential in dipteran chemoreceptors. 21020

PHORMIA REGINA
Free amino acids and derivatives in eggs of Drosophila, Culex and Phormia. 13777
Micro-potentiometric pH determinations of muscoid maggot digestive tracts. 17117
The physiology of labellar electrolyte receptors of the blowfly, Phormia regina. 17206
Release of the free Ninhydrin-positive substance in Phormia and Drosophila by means of two dimensional high voltage electrophoresis. 20322
The effect of aqueous solutions of some 1:1 electrolytes on the electrical response of the type 1 ('salt') chemoreceptor cell in the labella of Phormia. 21018
The effect of electrolytes of the general formula XCl2 on the response of the type 1 labellar chemoreceptor of the blowfly, Phormia. 21019
Fine structure of the tip of chemosensitive hairs in two blow flies and the stable fly. 22457
Effects of an octosporosis on the locomotor activity of adult Phormia regina (Meigen). (Dipt. Calliphoridae). 22997

PHORODON HUMULI
Two-spotted spider mite and hop aphid control on cluster hops with acaricides. 23184

PHORTIOECA PHORASPOIDES
Reproduction of some poorly known species of Blattaria. 17765

PHOSFON
Value of a plant growth retardant for isolating soil fungi. 16920
The effects of plant growth regulators on growth and flowering in chrysanthemum. 21533

PHOSPHAMIDON
The effect of certain insecticides on the entomogenous fungi Beauveria bassiana and Metarhizium anisopliae. 13743
Insecticidal control of Maruca testulalis on cowpea in Nigeria. 13918
The artificial feeding of phosphamidon to Myzus persicae: i. intraspecific differences exhibited by this aphid on feeding through a parafilm membrane. 14241
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. phosphamidon. 14658
Field studies on control of lygus bugs and onion thrips infesting safflower. 16567
Field evaluation of insecticides for the control of aphids on potatoes. 16657
On the effect of phosphate esters on several Arthropods within the apple-trees biozones independent of their density. 19536
Studies on the Sitka spruce weevil, Pissodes sitchensis, in British Colombia. 23046

PHOSPHATASES
Properties of purified acid phosphatases from healthy and rust-infected bean leaves. 15652
On histopathology and histochemistry of insecticide-treated insects. I-Non-specific phosphatases in the midgut and caeca of pyrethrins treated Periplaneta americana L. 17055
Non-specific phosphatases of normal and neoplastic rabbits endometrium. (Abstract). 17488
Sub-units of acid phosphatase-1 in Drosophila melanogaster: Reversible dissociation in vitro. 17862
Electron microscope studies of Fasciola hepatica. VI. The ultrastructural localization of phosphatases. 22173
Virus-host interactions, with emphasis on certain cytopathic phenomena. 23156

PHOSPHATES
Anthelmintic activity of an organic phosphate in cattle and sheep. 15515
Phosphate and carbamate inhibition of three nematode esterases. (Abstract). 16004
Degradation of insecticides by esterases of the American cockroach. 17160

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants. 17253

Influence of micro-organisms on the distribution in roots of phosphate labelled with phosphorus-32. 18424

Persistent pesticides. Part 3. 20072

Patterns of cross resistance to organophosphates and carbamates in Musca domestica. 20172

Esterases of mouse brain active in hydrolyzing organophosphate and carbamate insecticides. 20659

The influence of phosphate on the phytotoxicity of 3-Amino1,2,4-triazole. 22229

PHOSPHINE

Potentiometric determination of phosphine. 14786

Sorption of phosphine by cereal products. 16240

Studies on hydrogen phosphide against the red flour beetle in a column of paddy. 18113

Study on the use of phosphine to combat the white louse of the potato--Pseudococcus maritimus (Ehrh). 19894

Potential uses of phosphine by pest control operators. 20065

Experiences with the use of the phosphorus-hydrogen preparation Phostoxin in Yugoslavia. 23193

PHOSPHINE SULFIDES

Method of controlling the growth of undesirable plants. patent 3,342,583. 14479

PHOSPHOLIPASE

The phospholipase and gelatinase activity of gram-negative bacteria isolated from diseased insects, and typing of strains of Serratia marcescens. 14246

PHOSPHOLIPIDS

Isolation of ceramide phosphorylethanolamine from the blowfly Calliphora erythrocephala. 14180

The glycerolipids of Mycoplasma mycoides. 15439

The origin of phospholipid ethanolamine and choline in a sawfly, Acantholyda nemoralis. 15830

Variations of phospholipids in the course of metamorphosis of Tribolium confusum (Coleoptera). 16360

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria. 16916

Lipid changes during the life cycle of Sarcophaga bullata. 17158

Lipids of Venezuelan equine encephalomyelitis virus and their relationship to the lipids of the host. 18256

Effect of 3-indoleacetic acid on phospholipid membrane components of Avena coleoptiles. 18481

PHOSPHONOTHIOIC ACID COMPOUNDS

Methods of killing pests selected from the group consisting of mites and insects with phosphonothioates. Patent 3,401,220. 16461

PHOSPHORIC ACID ESTERS

Comparative toxicity (Mammalia, Insecta, Acarina) of recent S,S-dimethyl S-benzyl derivatives substituted for tri- and tetrathiophosphoric acids. 17800

Studies on the application to cattle of the low-toxicity 32P-labeled phosphonic acid ester butonate. 21457

PHOSPHOROTHIOIC ACID

Toxicologic effects of a phosphorothioic acid insecticide in sheep. 15609

Toxicologic effects of a phosphorothioic acid insecticide in cattle. 15610

PHOSPHOROTHIOIC ACID ESTERS

Synthesis of S35-((methylthio)aryl) phosphorothioates. 14015

PHOSPHORUS

Effect of fertilization on chemical composition, nutritive value, and silica content of rough fescue, Festuca scabrella. 14497

Phosphorus fertilization and the phytotoxicity of simazine. 15613

Effect of Helminthosporium victoriae toxin on germination, enzyme secretion, and P-uptake by oat seeds. (Abstract). 15936

Effects of N, P, K, and inoculum density of Verticillium dahliae on populations of Pratylenchus penetrans in roots of American elm and sugar maple. (Abstract). 16570

Some factors affecting mineral utilization by the baby pig. 16788

Translocation to and accumulation of phosphorus-32 in sclerotia of Sclerotium rolfsii. 16938

Metabolic and environmental factors affecting absorption and translocation of 2,4,5-trichlorophenoxyacetic acid in winged elm. 16940

A mechanism of resistance to organophosphorus acaricides in a strain of the cattle tick Boophilus microplus. 16993

The nucleic acids of crown-gall tumors from pinto bean leaves and their significance to crown-gall tumor induction by Agrobacterium tumefaciens. 17318

Calcium status studies on adult sheep. 17555

Notice of filing of petition regarding pesticide chemicals. 17642

Tests with insecticides for the control of resistant Myzus persicae (Sulzer) on year-round chrysanthemums. 18095

Effect of organo-Phosphorus insecticides on the warm blooded animals and cure thereof. 18193

Mineral and endocrine interrelationships in renal calcification. 18292

Phosphorus content during development of Claviceps purpurea. 18454

Acetylcholinesterase insensitivity in the biarra strain of the cattle tick Boophilus microplus, as a cause of resistance to organophosphorus and carbamate acaricides. 18666

Pesticides containing phosphorus paste intended for use in or around the home. Notice of proposed interpretation 26 under federal insecticide, fungicide, and rodenticide act. 19244

Organophosphorus substances. QD412.PIK33. 19320

On the compatibility of oranophosphorus insecticides with fungicides. 19325

Phosphorus disturbances associated with potato leafroll virus infection. 19858

The effects of the use of chemical means of plant protection on bird species breeding in caves or niches in fruit orchards. 20660

An investigation of the content of selenium and phosphorus in winter feeding of lambs, compared with the outbreak of nutritional muscular degeneration in the spring. 20710

Procedures for extracting residues of phosphorus insecticides and metabolites from field-treated crops. 20852

Determination of insecticide residue in animal and plant tissues. V. A device of preparing the specific detector of gas chromatography highly sensitive to organophosphorus insecticides. 20863

Detection of cholinesterase-inhibiting pesticides following separation on thin layer chromatograms. 20932

Studies on plant growth-regulating substances. XXIV. Factors influencing kinetin-induced phosphorus mobilization in detached radish cotyledonary leaves. 21059

Phosphorus deficiency decreases stomatal activity and water use of plants. 21166

Control of strawberry mite (cyclamen mite) Steneotarsonemus pallidus (Banks 1901). 5th contribution. 21195

Studies on the synergetic effect of certain organophosphorus insecticides. 21204

Factors contributing to ovine phosphatic urolithiasis. (Abstract). 21258

Concentration and purification of newcastle disease virus. 21397

Studies on the application to cattle of the low-toxicity 32P-labeled phosphonic acid ester butonate. 21457

Commonwealth of Australia Dept of Health Public Health Branch. Pesticides Review. 22184

Stimulation by 2,4-D and 2,4-D plus Fe EDTA of 32P uptake by bean seedlings (Phaseolus vulgaris). 22208

Nitrogen and phosphorus content of greenbugs reared on fertilized wheat. 22383

Studies on the terminal respiratory systems in the minute (2)z mutant of Drosophila melanogaster. 22475

Amine-phosphorus pentafluoride complexes as herbicides. Patent 3,420,655. 22559

Titer determinations of preparations of Bacillus thuringiensis Berliner. 22982

Chenopodium amaranticolor nutrition affects cucumber mosaic virus infection. 23128

Is the occurrence of the sniffing disease (atrophic rhinitis) in the pig a nutritional problem. 23266

PHOSPHORUS COMPOUNDS

Method for the preparation of O,O-dimethyl-S-(1,2-dicarbethoxyethyl)dithiophosphate. Patent 3,403,201. 16942

Method for preparation of wettable sulfur. Patent 3,398,227.
16951

Gas chromatographic detector for simultaneous sensing of phosphorus and sulfur-containing compounds by flame photometry.
18483

Anthelmintic activity of two organic phosphorus compounds, coumaphos and naphthalophos, against gastrointestinal nematodes of cattle.
21466

Control of the hamster pest.
22155

A stable phosphorus compound in the body-wall muscle of Ascaris lumbricoides.
22764

Experiences with the use of the phosphorus-hydrogen preparation Phostoxin in Yugoslavia.
23193

PHOSPHORUS ISOTOPES

Uptake of P32 by yellow-fever mosquito larvae of equal age, and those pupating synchronously: its loss and transfer during development, mating, and oviposition.
13841

Labeling larvae of the elm sawfly with P32.
13932

Further comment on P32 labeling material in the body of Aphis fabae Scop. and its larvae (Homoptera, Aphididae).
14432

A new approach to the physiological host plant-parasite relationship. A technique in the field of applied entomology.
15989

Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera).
15990

Stimulation by 2,4-D and 2,4-D plus Fe EDTA of 32P uptake by bean seedlings (Phaseolus vulgaris).
16573

The effects of hypo- and hyperthyroidism on the testes and anterior pituitary glands of cockerels.
17532

Food distribution within colonies of the Argentine ant, Iridomyrmex humilis (Mayr).
17859

Influence of micro-organisms on the distribution in roots of phosphate labelled with phosphorus-32.
18424

32-Phosphorus tracer studies of a horseweed-aphid-ant food chain.
18599

The behavior of 32P labeled insecticidal organophosphorus compounds following intracisternal application to cattle, a contribution to the resorption of biologically active substances. 2. From the udder of cattle: trichlorfon, butonate, DDVP, and dimethoate.
21492

The mechanism of lymphopenia produced by chronic irradiation of the rat spleen.
22083

Utilization of 14C metabolites, incorporation of 32P and changes in respiration occurring in leaves from dalapon treated beans.
22819

Accumulation and transfer of 32P by male southern house mosquitoes.
23021

PHOSPHORYLASES

Nucleoside phosphorylase and xanthine dehydrogenase in dedevelopment of normal and dystrophic chickens. (Abstract).
17485

PHOSPHORYLATION

Effect of Corpora allata on protein and RNA synthesis in colleterial glands of Blattella germanica.
16486

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria.
16916

Mechanisms of inhibition and uncoupling of oxidative phosphorylation in housefly mitochondria.
17899

Effect of 2,4-Dichlorophenoxacetic acid on oxidative phosphorylation in various plants.
23226

Action of gramicidin S on photophosphorylation in virusinfected tobacco plants.
23423

PHOTINUS

The prairie peninsula and secondary intergradation in Photinus fireflies (Coleoptera: Lampyridae).
22301

PHOTOCHEMISTRY

The partial photolysis of 6-chloropicolinic acid in aqueous solution.
14636

Preparation of the photoisomers of aldrin and dieldrin.
14789

Inhibition of photochemical activity of isolated chloroplasts by acylanilides.
15280

Prevention of photodynamic killing of fungal cells by carotenoids.
15620

Phototactic response of adults of confused flour beetle and red flour beetle and larvae of black carpet beetle to flashes of blue-white light.
16456

The photodecomposition of dieldrin residues in water.
17635

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Ii. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness.
21180

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Iii. Effect of injury on oleoresin composition, phloem carbohydrates, and phloem pH.
21193

Partitioning and distribution of herbicides in spinach chloroplasts.
22816

Air pollution and agriculture today.
23101

PHOTOGRAPHY

Nature's paradise.
16260

The ultrastructure of insect surfaces by scanning electron microscopy.
16448

Sex attraction in the Mediterranean flour moth, Anagasta kuhniella: location of the female by the male.
16467

Parthenogenesis in gum emperor moth Antheraea eucalypti (Scott).
17840

The statistical description of a spray in terms of drop velocity, size, and position.
18488

PHOTOMETRY

Accumulation of sodium and calcium by seedlings of some cereal crops under saline conditions.
14007

Evidence of winged insect sexual dimorphism in Philophylla heraclei (Dipt. Trypetidae) through use of a photopterometre.
16419

Gas chromatographic detector for simultaneous sensing of phosphorus and sulfur-containing compounds by flame photometry.
18483

PHOTOMICROGRAPHY

Growth of follicular cells in Aphids. A cytophotometric and autoradiographic study.
20409

PHOTOPERIODISM

Temperature conditions and maternal effect as modifying factors in the photoperiod control of the seasonal form in Polygonia c-aureum (Lepidoptera, Nymphalidae).
13807

Temperature conditions and maternal effect as modifying factors in the photoperiodic control of the seasonal form in Polygonia c-aureum (Lepidoptera, nymphalidae).
13808

Influence of photoperiod, temperature, and food on initiation of diapause in the apple maggot.
13840

The susceptibility of house flys reared under various photoperiods to insecticide residues.
13992

A photoperiodic effect on the daily susceptibility of the house fly to trichlorfon.
14877

Photoperiod effects in Pieris rapae.
14913

Diurnal periodicity in Helminthosporium and Alternaria spores in the air. (Abstract).
15946

Two effects of photoperiod on wing development in Gryllodes sigillatus (Walk).
16429

Some effects of photoperiod, temperature, and food on the induction of diapause in the boll weevil.
17092

Fatty acids of the mosquito, Anopheles freeborni.
17123

Diel periodicity in spermatophore formation in the house cricket, Acheta domesticus (L.).
17163

Photoperiod in relation to diapause in Hypera postica from California.
17193

Variations in the photoperiodic response of Neodiprion sertifer.
17209

Electromagnetic energy. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5.
17395

Photoinhibitory function of the dorsal ocelli in the phototactic reaction of the migratory locust Locusta migratoria L.
17786

Studies of caste differentiation in Myrmica rubra L. 9. Maternal environment and the caste bias of larvae.
17791

Ecological characteristics of the diapause of the Phytonome of the Luzerne Hypera variabilis. (Col. Curculionidae).
17817

Field and laboratory studies on the ecology and morphology of Nabis americoferus Carayon and its parasites in California.
17834

Endogenous diurnal rhythm of pupation in a mosquito population.
17868

Role of photoperiod, temperature, and injury in induction and termination of the pupal diapause of Heliothis zea (Boddie).
17877

The growth, development and control of common ragweed.
18160

Growth, development and control of wild radish.
18162

Red light induction of gibberellin synthesis in leaves.
18468

The development and fecundity of Adalia bipunctata L. and coccinella septempunctata L.

feeding on various species of aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18587

The effect of light quantity and quality on soybean leaves infected by Pseudomonas glycinea. (Abstract).
18951

Transformation of horseradish peroxidase into photosensitive compounds in the presence of indole-3-acetic acid.
19317

Research on the determination of the production of winged sexupares in the male Dysaphis plantaginea Pass. (Hom. Aphididae).
19555

Contribution to the study of the photoperiodic phenomena of Megoura viciae. (Homi Aphididae).
19560

Summary of the photoperiodic effects and determination of the phase characteristics in Locusta migratoria migratorioides, gregarious phase.
19577

Differential sensibility of the common May-bug, Melolontha melolontha, L. (Col. Scarabeidae) to certain wavelengths of the visible spectrum.
19585

Developmental duration and hatching of the pupae of Aedes (Ochlerotatus) punctor (Kirby) (Diptera, Culicidae) under long daylight conditions in northern Sweden.
19742

Photoperiodic induction of the diapause in caterpillars of the pine moth.
19746

Determining the developmental cycle of Locusta migratoria around latitude 44 degrees N.: followed by a note by P. P. Grasse (1924).
19748

Color vision of the female stable fly, Stomoxys calcitrans.
19752

Biology of Hyphantria cunea Drury (Lepidoptera: Arctiidae) in, Japan. III. Photoperiodic induction of diapause in relation to the seasonal life cycle.
20156

Determination of the photosensitive period in the African migratory locust, Locusta migratoria migratorioides (R. et F.), phase gregaria.
20317

Studies on phase-shifts in endogenous rhythms. I. Effects of light pulses on the eclosion rhythms in Drosophila pseudoobscura.
20318

Studies on phase-shifts in endogenous rhythms. II. The dual effect of light on the entrainment of the eclosion rhythm in Drosophila pseudoobscura.
20319

Life history and population consequences of density, photoperiod, and temperature in a migrant insect, the milkweed bug Oncopeltus.
20329

Penetration of lindane into plants of various photoperiodic groups and its biological activity depending upon the light conditions.
20637

Intracellular responses from the grasshopper eye.
21035

Photoperiodism as a factor in feeding rhythms of broiler chicks.
21303

Larval diapause in the tick Ixodes ricinus L. and its dependence on external conditions. IV. Interaction between exogenous and endogenous factors in the regulation of larval diapause.
21655

The regulation of cyclic reproductive and feeding activity in the milkweed bug Oncopeltus by temperature and photoperiod.
22364

Daily susceptibility of house flies to malathion.
22975

Correlation of photoperiod with tuberization and susceptibility of potato to Verticillium albo-atrum.
23118

PHOTOSENSITIZATION

Ingestion of Ammi visnaga seeds and photosensitization - The cause of vesicular dermatitis in fowls.
15478

Experimental photosensitization by spring parsley (Cymopterus watsonii) in chicks.
15494

Phototactic response of adults of confused flour beetle and red flour beetle and larvae of black carpet beetle to flashes of blue-white light.
16456

Studies on lettuce seed germination. I. Coumarin induced dormancy.
16513

Photoinhibitory function of the dorsal ocelli in the phototactic reaction of the migratory locust Locusta migratoria L.
17786

Transformation of horseradish peroxidase into photosensitive compounds in the presence of indole-3-acetic acid.
19317

Differential sensibility of the common May-bug, Melolontha melolontha, L. (Col. Scarabeidae) to certain wavelengths of the visible spectrum.
19585

Studies on phase-shifts in endogenous rhythms. II. The dual effect of light on the entrainment of the eclosion rhythm in Drosophila pseudoobscura.
20319

Light-inhibition of flashing in the firefly Photuris missouriensis.
22369

Slow and spike potentials recorded from retinula cells of the honeybee drone in response to light.
22939

PHOTOSYNTHESIS

Effect of tobacco etch virus on photosynthesis. (Abstract).
14385

Photosynthesis in healthy and rust-affected tissues.
15112

Respiration, photosynthesis, and dark fixation of C1402 by healthy and rusted bean leaves.
15653

Physiological aspects of fluometuron in cotton and cucumber.
16227

Carbon dioxide exchange by radish tissue infected with Albugo candida measured with an infrared C02 analyzer.
16548

Photosynthetic activities of cotton plants infected with Verticillium albo-atrum.
16634

Effects of herbicides on carbon dioxide uptake by pine seedlings.
16668

Annual review of plant physiology.
17265

A quantitative study of the effects of gibberellic acid on the growth of Festuca arundinacea.
17266

Stomatal conductivities in K-deficient leaves of maize (Zea mays, L.).
17268

The aetiology and development of damage in young fruit trees infested with fruit tree red spider mite, Panonychus ulmi (Koch).
17371

CO2 absorption in four wheat varieties and differential responses to infection by Septoria nodorum. (Abstract).
18930

An effect of kinetin on the translocation of 14C-labelled photosynthate in citrus.
19280

Effect of DDT on photosynthesis in certain varieties of barley.
19281

Enzyme detoxication of 3',4'-dichloropropionanilide in rice and barnyard grass, a factor in herbicide selectivity.
19305

The inhibition of photoreactions of chloroplasts by ioxynil,.
20896

Structure--activity correlation of 1,2,4-Triazonen, a new group of photosynthesis inhibitors.
20925

Effect of maize dwarf mosaic virus infection on respiration and photosynthesis of corn.
21942

Comparisons of chloroplasts and photosynthetic rates of plants infected and not infected by maize dwarf mosaic virus.
21943

Up to date weed control in horticulture.
22022

Utilization of 14C metabolites, incorporation of 32P and changes in respiration occurring in leaves from dalapon treated beans.
22819

Translocation of herbicides in American pondweed (Potamogeton nodosus Poir.).
22820

PHOTOTROPISM

Phototactic choice between two white light sources of various intensity in blowfly, Calliphora erythrocephala Meig.
13823

Photoactic response of first-instar larvae of the pink bollworm to light of different wavelengths.
14085

The effect of illumination and pool brightness on oviposition by Culex restuans (Theo.) in the field.
14157

Attraction of pear psylla to blacklight.
14212

Photoinhibitory function of the dorsal ocelli in the phototactic reaction of the migratory locust Locusta migratoria L.
17786

A circadian pattern in the respiration of larvae of the mosquito Culex pipiens.
18590

Color vision of the female stable fly, Stomoxys calcitrans.
19752

Slow and spike potentials recorded from retinula cells of the honeybee drone in response to light.
21653

PHRAGMITES

Phragmites control in Delaware, 1965.
22570

PHRAGMITES COMMUNIS

Environmental control at Boston-Logan International Airport.
22563

PHTHALIC ACID

Metabolism of carbonyl-C14-labeled imidan, N-(mercaptomethyl)phthalimide-S-(O,O-dimethylphosphorodithioate), in rats and cockroaches.
20656

PHTHIRUS PUBIS

Treatment and control of scabies, lice and flea infestation of man.
17244

PHTHORIMAEA OPERCULELLA

A new braconid parasite of the potato tuberworm (Hymenoptera).
14236

The trivial name of the potato tuberworm (Lepidoptera: Gelechiidae.
14823

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm.
16418

Reproductive behavior of the potato tuberworm, Phthorimaea operculella (Zeller), (Lepidoptera: Gelechiidae) and the effect of the chemosterilant metepa. 17836

PHYCITIDAE
Morphology of the internal reproductive organs of the navel orangeworm, Paramy elois transitella. 13726
Contribution to the distribution of the HomoeosomaEphestia genera in Rumania (Lep., Pyralidae). 20176
Mating behavior and fitness as a function of single allele differences in Ephestia kuhniella Z.. 20452
Investigation of sterilizing doses for Ephestia kunniella L. in irradiation in various stages of development. 21755

PHYLLACHORA MAYDIS
Preliminary studies on Phyllachora maydis affecting corn in Central America. (Abstract). 18054

PHYLLOBIUS VIRIDICOLLIS
A noteworthy attack by Phyllobius viridicollis in clover field. 14427

PHYLLOCOPTRUTA OLEIVORA
Studies on timing for control of the citrus rust mite, Phyllocoptruta oleivora (Ashm) in the state of Sao Paulo. 19897
Assays of new products for the control of rust mite of citrus--Phyllocoptruta oleivora (Ash.). 23036

PHYLLODY
On the presence of mycoplasma-like particles in the inner bark of plants damaged by diseases of the yellow type (Aster Yellow, Phyllody of clover, Stolbur of tomatoes) and on the relationship of these particles to the ones found in various Insecta Homoptera. 22505

PHYMATIDAE
A new species of the genus Macrocephalus swederus from Mexico (Hemiptera: Phymatidae). 19429

PHYMATOTRICHUM OMNIVORUM
Pectolytic enzyme production by Phymatotrichum omnivorum. (Abstract). 18427
Germination of spores of Phymatotrichum omnivorum. (Abstract). 23434

PHYSALIS
Some observations on vectors and transmission of tobacco etch virus. 22495

PHYSALIS HETEROPHYLLA
Some observations on vectors and transmission of tobacco etch virus. 17373

PHYSALOSPORA
A dry rot of acorn squash, Cucurbita pepo. L. 15040

PHYSICAL CHEMISTRY
Physicochemical studies of Newcastle disease virus. III. The content of virus nucleic acid and its sedimentation pattern. 17553
Physicorhemical characteristics of glycogen from Anthonomus grandis Boheman. 20306

PHYSIOLOGY
Autoecology and reproductive capacity of Macrocheles muscaedomesticae (Scopoli) (Acari: Mesostigmata). 13787
Viruses contributing to the cytopathic effect of hog cholera strain PAV-1. 14496
The stridulatory mechanism in three species of Pentalobus (Coleoptera, Passalidae). 15744
Temperature sensitive mutations in the tobacco mosaic virus. I. In vivo actibity. II. In vitro activity. 15885
Physical and chemical factors controlling the development of infection structures from urediospore germ tubes of rust fungi. 15907
Cultivation in vitro of Plasmodium gallinaceum oocysts. 16036
Avian helper cell and its role in the in vitro transfer of Rous virus (Prague strain) genome from rat tumour cells to chick cells. 16038
Effects of vitamin A deficiency and ked resistance on the feeding of Dermacentor andersoni on sheep. 16094
Comparative morphological and physilogical studies of the progenies from intraspecific matings of Phytophthora capsici. 16669
Characteristics of a C strain of foot-and-mouth disease virus propagated in BHK21 cells. 16769
The growth cycle of equine herpes 3 virus as compared with other viruses of the herpes group. 16797
Pathologic physiology and chemotherapy of Plasmodium berghei. III. Renal function in rats infected with Plasmodium berghei. 16801
A physiological study of the development of the egg of Fasciola hepatica L., the common liver fluke. 16891
Growth and metabolism of live vaccine strain of Pasteurella tularensis. 16966
A method of collecting planthoppers and leafhoppers in the field in winter. Transl. 16921. 16992
Determinants of abundance in a population of the Queensland fruit fly. 17076
Studies on the process of the occourence of white-black and brown planthoppers up to their primary outbreak. 17135
Experimental prediction of occurrence of leafhopper. 5. ovary maturing condition and egg-laying in the weeds of leafhopper hibernated imago. Transl. 16901. 17169
A monograph of the immature stages of Oriental timber beetles (Cerambycidae) QL596.C4D8. 17375
Intra-specific mechanisms with special reference to aphid populations. 17407
Mode of reproduction of Heterodera tabacum. (Abstract). 17438
Studies on the feeding and reproduction of seven mycophagous nematodes on Rhizoctonia, Fusarium, and Verticillium. (Abstract). 17440
Observations on seasonal population changes of Tylenchulus semipenetrans and the influence of temperature on egg hatch. (Abstract). 17442
Effect of an Aphelenchoides species on the growth of mycorrhizal fungi. (Abstract). 17446
Development of the reproductive system in some Pratylenchus species. (Abstract). 17447
The influence of the stage of development of lesion nematodes on population dynamics and subsequent host response. (Abstract). 17452
Studies on pathogenic Leptospirae. VI. Effect of Tween 80 on the growth of Leptospira canicola and Leptospira icterohaemorrhagiae. 17594
Experimental studies on Toxascaris leonina. IV. Development of eggs of three ascarids, T. leonina, Toxocara canis and Toxocara cati, in dogs and cats. 17608
The biology of fungi bacteria viruses. QR41.S7. 17628
Growth of arboviruses in monolayers from subcultured mosquito embryo cells. 17870
The effect of carbon source, carbon to nitrogen ratios, and organic amendments on survival of propagules of Verticillium albo-atrum in soil. 17921
Relation of uredial and urediospore counts to epiphytotic development of wheat rusts and the value of the counts in predicting disease. (Abstract). 17962
Serological diagnostic method without isolation of Erwinia amylovora culture from a diseased plant. 18002
Physiologic race changes in barley mildew 1964-67. 18130
The effect of ultra-violet radiation on the invasion, survival and fertility of larvae of Heterodera rostochiensis. 18136
The effect of amino acid antimetabolites on four nematode species and their host plants. 18146
Gamma irradiation of Heterodera schachtii. 18152
The effect of environment on sex determination in Heterodera rostochiensis. 18154
Hyperglyceamia induced by 5-hydroxytryptamin in Achatina fulica (gastropod mollusca). 18178
Electron microscopic studies on the development of vesicular stomatitis virus. 18236
Basic biological characteristics of mycoplasma. 18277
A fluorescent micro-plaque assay for hog cholera virus. Localization of infection with homologous antiserum. 18291
Studies on the replication of African horsesickness virus in two different cell line cultures. 18304
Biochemical and biophysical properties of canine distemper virus. 18306
Changes in protein and nucleic acid metabolism in baby hamster kidney cells infected with foot-and-mouth disease virus. 18308
Some factors affecting interferon production by foot-andmouth disease virus in bovine tissue cultures. 18316
Interference between modified and virulent strains of footand-mouth disease virus. 18317
Two new species of Longitarsus Latr. (Col., Chrysomelidae) in Britain. 18508
The British species of the genus Longitarsus Latreille (Col., Chrysomelidae). 18538
Karotypes and developmental stages of Harpyrhynchus novoplumaris sp. n. (Acari: Cheyletoidea: Harpyrhynchidae), a parasite of North American hirds. 18548
Studies on the life history of the smaller brown planthopper (Laodelphax striatellus Fallen). 18582

Flight behaviour of the African migratory locust (Locusta migratoria migratorioides R. and F.). 18647

Morphological and chemical analyses of red pine (Pinus resinosa Ait.) buds. Their relationships to tree growth on a K-deficient to nondeficient site continuun. 18741

Effects of malic acid salts on growth of young cotton embryos in vitro. 18743

Some physiological properties of Pseudomonas syringae van Hall tested on various isolations. 18855

Research on a new isometric virus of Atropa belladonna L. I. Symptomatology, purification, morphology, physical and chemical characteristics. 18901

Differing efficiences of potassium utilization in strains of snapbeans, Phaseolus vulgaris L. 18937

Prevalence of physiologic races of Puccinia graminis f. sp. avenae and tritici in the USA in 1966. 18956

To the question of the regularity of the Circadian Rule . 19707

Ecology: A modern viewpoint. 19800

Advances in plant virus research. 19804

Some physical and chemical factors of tree rot holes. 19916

Oxygen uptake by Trypanosoma lewisi--complex cells. IV. E and Sp isolates. 20044

Ultrastructural enzyme localization in the surface of Moniliformis dubius (Acanthocephala). 20049

Growth inhibition of Mycoplasma by inhibitors of polyterpene biosynthesis and its reversal by cholesterol. 20119

Philornis flies from Trindad (Diptera: Muscidae). 20331

Global events concerning mosquitoes in 1966. 20431

A comparison of the protein quality of pollens for growth. stimulation of the hypopharyngeal glands and longevity of honey bees, Apis mellifera L. (Hymenoptera: Apidae). 20432

Phage Xp12 of Xanthomonas oryzae (Uyeda et Ishiyama) dowson. 20505

Growth of listeria monocytogenes in corn silage extract medium. 20518

The role of temperature in the development of blue mould (Peronospora tabacina Adam.) disease in tobacco seedlings. III. The effect of preinoculation temperature and of shade on plant growth and disease development. 20538

Effect of management system on the growth of lambs and development of internal parasitism. II. Field trials involving medication with national formulary and purified grades of phenothiazine. 20599

Abstracts of papers presented at the meeting of the North Atlantic Section, A.S.A.S. August 19-20, 1968, Burlington, Vermont. 20644

Transmission in invertebrate and vertebrate ganglia. 20662

A buffy coat stimulating effect in serum from cattle with persistent lymphocytosis. 20698

Conditional lethal mutants of rabbitpox virus. III. Temperature-sensitive (ts) mutants; physiological properties, complementation and recombination. 20762

Effects of temperature on the development of the dog heartworm, Dirofilaria immitis, in Aedes solicitans. 20804

Oral toxicity of linuron (3-(3,4-dichlorophenyl)-1-methoxyl-methylurea) in rats and dogs. 20873

Fibre groups in the auditory nerve of the locust. 20965

The ultrastructure of a rickettsia pathogenic to a saturnid moth. 20993

The ultrastructure of the perineurium in two insect species, Carausius morosus and Periplaneta americana. 21007

Growth and partial metamorphosis of imaginal disks of the greater wax moth, Galleria mellonella, in vitro. 21015

Genetics of insect vectors of disease. RA639.W7. 21047

Nutrition stress in relation to Fusarium wilt and root rot of alfalfa. 21064

Effect of seed coating with Phorate and Disyston on the growth and mineral contents of cotton seedlings. 21068

Effect of B-indolylacetic acid on the growth and the auxin catabolism of Lactobacillus bulgaricus. 21086

Tween 20 as an adjuvant for systemic soil fungicides for Verticillium in cotton. 21151

Weed control on Fenland soil. 21219

Some ultrastructural features of the intestinal epithelium of Ascaris lumbricoides var. suum. 21229

In vitro agglutination of bovine erythrocytes infected with Babesia argentina. 21246

Physiological effects of feeding high levels of antibiotics and vitamins to turkeys. 21252

Growth and proteinase production in Pseudomonas spp. cultivated under various conditions of temperature and nutrition. 21263

The pharmacological effect of Baymix (coumaphos) on poultry. 21279

Influence of calcium in laying rations on shell quality and interior quality of eggs. 21288

Influence of dust and ammonia on the development of air sac lesions in turkeys. 21310

Effect of chronic reserpine on metabolism and chemical constituents of turkey testis. 21336

Activity of sorbitol dehydrogenase (S.D.) in the serum of sheep and cattle with liver damage. 21341

Effects of increased flow of pulmonary blood on pulmonary vascular resistance and structure in calves. 21390

The isolation and comparative biological and physical characteristics of T-mycoplasmas of cattle. 21443

Pathophysiology of fascioliasis in the rabbit. Studies on albumin turnover. 21467

Effect of Halogeton glomeratus on pH values in rumen of sheep. 21518

Effect of carbon dioxide, temperature, and relative humidity on production of aflatoxin in peanuts. 21545

Milky disease bacteria. 21590

Use of formalinized Mycoplasma gallisepticum antigens and chicken erythrocytes in hemagglutination and hemagglutination-inhibition studies. 21766

Inhibition of axillary bud growth of Chrysanthemum morifolium with fatty acids esters. (Abstract). 21789

The effect of the near ultra-violet light (3000A4000A) on the physiological development of cucumbers Cucumis sativius, cultivar Spartan Dawn. (Abstract). 21792

Effects of Alar treatment on growth, flowering, and fruiting of greenhouse tomato cultivars, (Abstract). 21796

Aflatoxin production by Aspergillus flavus as related to various temperatures. 21798

Influence of growth regulators on the concentration of protein and nucleic acids in grape flowers. (Abstract). 21805

Chemical, physical and biological properties of four strains of sugarcane mosaic virus. 21828

Variation in response to iron nutrition among some corn inbreds. (Abstract). 21891

Fine structure of inclusions formed by the aucuba strain of tobacco mosaic virus. 21948

The effect of scab resistance on fruit length in slicing cucumbers. (Abstract). 21955

Potentiation by silica of the growth of Mycobacterium tuberculosis in macrophage cultures. 22044

Laboratory differences between the WS strain of influenza A virus and its neurotropic variants. 22092

Cytologic studies in polyoma virus-infected mouse embryo cells. 22104

Cardiopulmonary values in normal and heartworm-infected dogs. 22144

Some aspects of nutrition in parasites. 22171

Oxygen consumption in adult Echinostoma revolutum. 22172

Electron microscope studies of Fasciola hepatica. VI. The ultrastructural localization of phosphatases. 22173

Developments in pest control. I. The present status of resistance. II. The future of pest control. 22363

A neglected diagnostic character of the Apoidea (Hymenoptera). 22421

Experimental study of the effect of nutrition on cyclecompletion in Pythidae parasites in tropical cultures. 22440

Light reflexes of caterpillars of Bomhyx mori L. (Lepid.). 22446

Stimulation of leptospiral growth by glucose. 22653

The situation of the African swine fever virus in viral systematics. 22687

Virus-host interactions, with emphasis on certain cytopathic phenomena. 23156

Investigation of the growth properties of mycoplasmas in bouillon medium. 23333

The in vitro effect of ketone bodies on the growth curves of mastitis organisms in milk. 23348

Dieldrin residues in the gallinules Porphyrula martinica L. and Gallinula chloropus L. and its effect on clutch size and hatchability. 23391

Effects of diquat on bluegills and their food organisms. 23393

Regulation of messenger RNA synthesis in Escherichia coli. 23439

PHYTATES

Effect of histidine or soybean meal additions on Zn deficiency symptoms. (Abstract). 17530

Availability to the chick of zinc phytate complexes isolated from oil seed meals by an in vitro digestion method. 17531

PHYTOACTIN

Helicopter application of phytoactin to whitebark pine. (Abstract). 17958

Isolation, identification, purification, and biological properties of the antibiotic phytoactin. 18489

Chemistry and physiologic action of the antibiotic phytoactin. 18492

PHYTOALEXIN

Phytoalexin production in corn resistant to Helminthosporium turcicum. 18020

PHYTOBIA

Notes on the biology and distribution of Florida leafmining flies of the genus Phytobia lioy, subgenus Calycomyza Hendel (Diptera: Agromyzidae). 19730

PHYTODECTA OLIVACEA

Appressorium-like structures in insect parasitizing deuteromycetes. 14224

PHYTOMYZA ATRICORNIS

Chemical control of chrysantemum leaf miner and some observations on varietal preference. 13915

Host selection by the polyphagous species Phytomyza atricornis Meigen (Dipt., agromyzidae). 18621

Range of host plants and larval feeding in Phytomyza atricornis Meigen (Dipt., Agromyzidae). 21746

PHYTOPATHOLOGY

Longevity of the fire blight organism, Erwinia amylovora on pear trees in the greenhouse as demonstrated by infection after sandblast injury. 14901

The ribonucleic acids of leaves and pods of peas infected with pea enation mosaic virus. 15017

Fungi isolated from black stem of alfalfa and the influence of temperature on lesion formation and disease severity. 15160

Morphology, biology, and phytopathological significance of the genus Appelia C.b (Aphidoidea: Aphididae). 17172

Proceedings International Symposium on Plant Diseases and Pests in a Developing Europe. 17247

Phytopathological developments in an integrating Europe. 17250

Some problems in studying the infection mechanism. 17277

Electron microscopic studies on plant viruses. 17335

Virus diseases in ornamental plants. 17358

International dispersal of fungi. 17367

Infectious inheritance of pathogenicity in Aspergillus. (Abstract). 17566

List of Phytopathological terms. 17932

Annals of the Phytopathological Society of Japan. 18044

Abstracts of the 1968 annual meeting of the Potomac division of The American Phytopathological Society. 18756

A method of screening for resistance to early blight on tomato seedlings. (Abstracts). 18774

Increase of Diaporthe phaseolorum var. sojae on soybean pods due to corn earworm. (Abstracts). 18808

Occurrence and pathogenicity of Pythium in peach orchard soils. (Abstract). 18885

CO2 absorption in four wheat varieties and differential responses to infection by Septoria nodorum. (Abstract). 18930

Investigation on the harmfulness of the ring pattern mosaic of pear. 19845

The performance, phytotoxicity and persistence of three petroleum oils for control of the pear pyslla. 19889

Pathogenicity and development of root-knot nematodes on ampalaya. 19921

The influence of organic fertilizers and of the proceeding crop on the antiphytopathogenic potential (A.P.) of the soil. 20508

Virus reactions and taxonomy. 20513

Experiment results and problems of phytopathogenic viruses in German Democratic Republic. 21134

Emergence and phytopathological properties of a new strain of Claviceps purpurea (Fr.) Tul. on rye. 21138

Controlling phytopathogenic fungi on plants with 3-pyridyl methane derivatives. Patent 3,397,273. 21554

Early detection of infection of sugarcane by ratoonstunting disease (RSD). 22502

PHYTOPHAGOUS MITES

The effect of an experimental spray schedule on the population of Metatetranychus ulmi Koch and Typhlodromus pyri Scheuten. 23067

PHYTOPHTHORA

A serial dilution end-point method for estimating disease potentials of citrus Phytophthoras in soil. 14416

The occurrence of a Phytophthora root and leaf disease of black pepper in Jamaica. 15106

Systemic and fungicidal activity of D-, L-, and DLethionine, S-alkyl-DL-HOMOCYSTEIN derivatives, and methionine antagonists. 15138

Base composition of soluble ribonucleic acid from Phytophthora infestans. 15149

Factors in lima bean and hemp seed required for oospore formation by species of Phytophthora. harnish, w n. 15615

Effect of major and minor gene interaction on adaptive parasitism in phytophthora infestans. 15631

Carbon and nitrogen nutrition in relation to sexual reproduction in species of Phytophthora. (Abstract). 15896

The production of indolelactic acid from L-tryptophan by species of Phytophthora. (Abstract). 16212

Differentiation of three species of Phytophthora by polyacrylamide gel electrophoresis. (Abstract). 16583

Relation of sterols to the differential sensitivity of spores and mycelia of Phytophthora to polyene antibiotics. 17690

A Phytophthora from subterranean clover roots that attacks soybean and other legumes. (Abstract). 18004

Germination of Phytophthora zoospores: Kinetics of encystment and cell wall differentiation. (Abstract). 18960

Some factors in resistance of citrus to Phytophthora spp. 21080

Systematic breeding programme to combine resistance to Phytophthora and the quality of the potato variety Bintje. 21915

The use of polyacrylamide gel disc electrophoresis in delimiting three species of Phytophthora. 22211

Experimental study of the effect of nutrition on cyclecompletion in Pythidae parasites in tropical cultures. 22440

Effect of amino acids and organic acids on the sexual reproduction of species of Phytophthora and Pythium. 22504

PHYTOPHTHORA CACTORUM

Intergrafting, preventive measures against the 'collar rot' on apples. 16528

The role of IAA in host reaction to different isolates of Phytophthora cactorum. (Abstract). 17955

PHYTOPHTHORA CAPSICI

Comparative morphological and physilogical studies of the progenies from intraspecific matings of Phytophthora capsici. 16669

Auxotrophic mutants of Phytophthora species. (Abstract). 18432

PHYTOPHTHORA CINNAMOMI

Intracellular and extracellular enzymes from Phytophthora cinnamomi. (Abstract). 14377

PHYTOPHTHORA CINNAMONI

Physiology of germination of chlamydospores of Phytophthora cinnamomi. 18463

Relative susceptibility of blueberry cultivars to Phytophthora cinnamoni. 18883

PHYTOPHTHORA CITRICOLA

The utilization of L-asparagine by two species of Phytophthora. 16521

PHYTOPHTHORA CRYPTOGEA

The effects of methyl bromide fumigation and grafting on yield and root diseases of tomatoes. 18966

PHYTOPHTHORA DRECHSLERI

Auxotrophic mutants of Phytophthora species. (Abstract). 18432

Genetics and cytology of Phytophthora. 18606

Host-parasite relationship in safflower resistant and susceptible to Phytophthora root rot.
18852

PHYTOPHTHORA FRAGARIAE

The relationship of Phytophthora fragariae Hickman to the fungal flora in the rhizosphere of the strawberry plant.
16612

Serological investigations of races 1-8 of Phytophthora fragariae. (Abstract).
16684

A defined method for the laboratory study of red stele of strawberries. (Abstract).
20584

PHYTOPHTHORA HEVEAE

The utilization of L-asparagine by two species of Phytophthora.
16521

Pod rot of cocoa in Malaysia caused by Phytophthora heveae.
20576

PHYTOPHTHORA INFESTANS

Effect of irrigation method and frequency on development of Phytophthora infestans on potatoes under arid conditions.
15166

Effect of trace-elements bound to superphosphates on the resistance of potato tubers to Phytophthora infestans (Mont.) de Bary.
16643

Effect of genetic recombination on the pathogenicity of Phytophthora infestans.
17273

The relation of rainfall, relative humidity, and temperature to late blight of potato in Sedes, Sindos-Lahanokipi of Nomos Thessaloniki.
17925

Genetics and cytology of Phytophthora.
18606

Potato. Late blight, Phytophthora infestans.
18795

Potato. Late blight, Phytophthora infestans.
18796

Differentiation in Phytophthora infestans. I. A comparative study of eight different biotypes.
18820

Potato. Late blight, Phytophthora infestans.
18880

Potato. Late blight, Phytophthora infestans.
18927

Further observation on the time requirement for hypersensitive cell death of potatoes infected by phytophthora infestans and its relation to metabolic activity.
18961

Fungicides for the control of diseases on the aerial portion of the plant.
19812

Restoration of virulence of stored cultures of Phytophthora infestans.
19827

Field assays of fungicides on small potatoes.
19927

Experiments on the quantity of sprayfluid in preventive spraying against late blight.
20530

Effect of wax and lanolin emulsions on the efficiency of potato-blight fungicides in laboratory tests.
21139

Spontaneous variability of single isolates of Phytophthora infestans. I. Cultural variation.
21772

Accumulation of hypoxanthine in potato leaves and its effect on spore germination in Phytophthora infestans.
21838

Production of pectic and cellulolytic enzymes by Phytophthora infestans de By. II. Infection of potato tubers.
21860

Production of pectic and cellulytic enzymes by Phytophthora infestans de By. I. Culture of the fungus in a nutrient solution.
22212

Investigation of the toxicity of fungicidal aerosols to late blight (Phytophtora infestans (Mont.)de Bary) under laboratory conditions.
22801

Field trials with fungicides for potatoes.
23119

PHYTOPHTHORA MEADII

Phytopthora leaf fall and pod rot of Hevea brasiliensis in Thailand.
14349

PHYTOPHTHORA MEGASPERMA

Isolation of Phytophthora megasperma var- sojae in soil dilution plates.
15623

Anatomy of beads on flagella of zoospores of Phytophthora megasperma var. sojae.
16599

Mycelial growth and production of oospores as affected by beta-sitosterol, and the germination of oospores of Phytophthora megasperma var. sojae. (Abstract).
17979

Phytophthora (Phytophthora megasperma) root rot of alfalfa.
21121

Relative quantities of antifungal metabolites produced in resistant and susceptible soybean plants inoculated with Phytophthora megasperma var. sojae and closely related nonpathogenic fungi.
21858

Factors governing zoospore responses of Phytophthora megasperma var. sojae to plant roots.
21864

Anatomy of beads on flagella of zoospores of Phytophthora megasperma var. sojae.
22214

PHYTOPHTHORA MEGASPERMA SOJAE

Comparison of phytoalexin produced by two soybean varieties differing by a single gene. (Abstract).
15876

PHYTOPHTHORA PALMIVORA

Phytopthora leaf fall and pod rot of Hevea brasiliensis in Thailand.
14349

Relation of sterols to the differential sensitivity of spores and mycelia of Phytophthora to polyene antibiotics.
17690

Patch canker of Hevea brasiliensis caused by Phytophthora palmivora.
17967

Increasing the efficacy of fungicidal control of black pod rot of cacao incited by Phytophthora palmivora. (Abstract).
18041

Pod rot of cocoa in Malaysia caused by Phytophthora heveae.
20576

PHYTOPHTHORA PARASITICA

Pathogenic variability within Phytophthora parasitica as related to formation of post-infectional antifungal substances in Peperomia.
16678

The electrophoresis and histochemical localization of certain respiratory ensymes of tobacco infected by Phytophthora parasitica var. Nicotianae.
17356

Relation of sterols to the differential sensitivity of spores and mycelia of Phytophthora to polyene antibiotics.
17690

Tomato. Buckeye rot, Phytophthora parasitica.
18739

Tobacco (cigar-wrapper). Black shank; Phytophthora parasitica var. nicotianae.
18851

Germination of chlamydospores of Phytophthora parasitica in soil. (Abstract).
19309

Ultrastructural changes during zoospore formation in Phytophthora parasitica.
23420

PHYTOPHTHORA PARASITICA NICOTIANAE

A possible synergism between Phytophthora parasitica var. nicotianae and a penicillium sp. in causing black shank of tobacco. (Abstract).
15971

Stem resistance to black shank in burley tobacco derived from Nicotiana longiflora. (Abstract).
16595

Interaction of Meloidogyne javanica and Phytophthora parasitica var nicotianae on Nicotiana tabacum (N. C. 95.' (Abstract).
18036

Pathogenic and cultural variation in Phytophthora nicotianae var parasitica from greenhouse plants.
18064

The peroxidase enzyme in black shank-infected tobacco. (Abstract).
18969

Heat-induced susceptibility of black shank-resistant tobacco to Phytophthora parasitica var. nicotianae. (Abstract).
18987

Tobacco, flue-cured (plant bed), damping-off and root rot soil-borne pathogens including; Phytophthora parasitica var. nicotianae, and Meloidogyne sp., Control of weeds.
19016

A selective medium for isolation of Phytophthora parasitica var. nicotianae from soil. (abstract).
21849

PHYTOPHTHORA PHASEOLI

Lima beans resistant to downy mildew (Phytophtora phaseoli). (Abstract).
18984

The rapid development and spread of strain B of Phytophthora phaseoli in 1967. (Abstract).
18997

PHYTOPHTHORA PORRI

Attack of onions by phytophthora porri.
14415

PHYTOSEIIDAE

Phytoseiidae of sand-pine litter.
13739

Phytoseiidae of sand-pine litter.
15724

Preliminary report on the introduction of Phytoseiulus persimilis to Poland.
16421

Six new Phytoseiidae from Florida (Acarina: Phytoseiidae).
19378

On a new predatory mite of economic importance from Sudan (Acarina: Phytoseiidae).
19386

Some predatory mites of the genera Typhlodromus and Amblyseius from the United Arab Republic (Acarina: Phytoseiidae).
19387

New species and records of Phytoseiidae (Acarina: Mesostigmata) from North Carolina forest litter.
19461

Integrated control of the fruit-tree leaf roller, Archips argyrospilus (Walker), and the eye-spotted bud moth, Spilonota ocellana (Denis and Schiffermuller).
19888

Some generic descriptions and name changes in the family Phytoseiidae (Acarina:Mesostigmata).
20238

Phytoseiidae (Acarina: Mesostigmata) in the New Jersey apple orchard environment with descriptions of spermathecae and three new species.
22918

Observations on predaceous mites on plum trees. 23060

PHYTOSEIULUS PERSIMILIS
Preliminary report on the introduction of Phytoseiulus persimilis to Poland. 16421
Food-chain toxicity of systemic acaricides to predaceous mites. 21475

PHYTOSEIUS
An undescribed Phytoseius from Florida and Mexico. (Acarina: Phytoseiidae). 21601

PHYTOTOXICITY
Deposit rate and spray oil composition in relation to phytotoxicity and Sigatoka disease control on banana leaves. 15022
Phytotoxicity of sticker-fungicide combinations on tomato plants. 20090
Phytotoxic characteristics of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20112
Effect of methyl bromide treatments on several species of conifer seed. 22579
Effects of direct contact of pine seeds or young seedlings with commercial formulations, active ingredients, or inert ingredients of triazine herbicides. 22582
Influence of temperature on phytotoxicity of triazine herbicides to pine seedlings. 23231

PICEA
Notes on a spruce bark weevil, Pissodes alascensis Hopkins (Coleoptera: Curculionidae), in British Columbia. 14434
Mined buds, a hibernation site for spruce budworm. 14804
A comparison of the developmental rates of one- and two-year cycle spruce budworm. 14951
Tolerances of Picea SPP to a nematocide. 15636
Chromatographic studies on preservatives in the wood of some conifers, especially of the genus Abies, Picea, and Pinus. 16105
Tolerance of some imported conifer seeds to fumigation with carbon tetrachloride. 16932
Information on Spruce Sawflies VIII. Egg count and oviposition. 18959
Wood- and bark-feeding Coleoptera of felled spruce in interior British Columbia. 19480
Note on a spruce bark weevil, Pissodes alascensis Hopkins (Coleoptera: Curculionidae), in British Columbia. 19871
Response of conifer seedlings and weeds to seedbed fumigants. 19929
Biological characteristics of Fomes fomentarius found on spruce and birch. 21935
Comparative susceptibility of large and small spruce roots to Polyporus tomentosus. 21950

PICEA ABIES
Biological characteristics of Fomes fomentarius, found on spruce and birch. 15956
Investigations on the mycotrophy of the spruce-Picea excelsa (Lam.) Lk. in Poland. (TT 65-50356) Transl. 16788. 17287
Effect of methyl bromide treatments on several species of conifer seed. 22579

PICEA GLAUCA
Comparative susceptibility of large and small spruce roots to Polyporus tomentosus. 16698
Further observations of dwarf mistletoe on eastern larch in Minnesota. 17275
Response of conifer seedlings and weeds to seedbed fumigants. 17460
Successful tissue transplantation of auxin-dependent tumours and some of its problems. 17935
Free and bound amino acids of spruce budworm larvae feeding on balsam fir and red and white spruce. 20992
Some seasonal aspects of the growth of tumors on the white spruce, Picea glauca. 21949
Effect of methyl bromide treatments on several species of conifer seed. 22579

PICEA MARIANA
Comparative susceptibility of large and small spruce roots to Polyporus tomentosus. 16698
Further observations of dwarf mistletoe on eastern larch in Minnesota. 17275
Factors affecting the infection of black spruce (Picea mariana Mill.) transplants by Cylindrocladium scoparium. 18056
The microbiological condition of wood of living balsam fir and black spruce in Quebec. 23417

PICEA PARRYANA
Control of nematodes on blue spruce. 15263

PICEA PUNGENS
Response of conifer seedlings and weeds to seedbed fumigants. 17460

PICEA RUBENS
Free and bound amino acids of spruce budworm larvae feeding on balsam fir and red and white spruce. 20992

PICEA SITCHENSIS
Studies on the Sitka spruce weevil, Pissodes sitchensis, in British Colombia. 23046
Field tests of systemic insecticides for the control of sitka-spruce weevil. 23195

PICLORAM
Action and effectiveness of certain classes of herbicides. 15667
Effects of added surfactant on toxicity of picloram, 2,4-D and 2,4,5-T to Populus tremuloides Michx. and P. balsamifera L. saplings. 16202
Some observations on Tordon-2,4-D herbicide combinations. 19114
Experiments with Tordon herbicide in small grains. 22013
The field thistle (Cirsium arvense Scop.)in the grasslands. Biology and means of control. 22016
Recent developments in the control of woody weeds in New Zealand. 22588
Control of Whitebrush (Aloysia lycioides Cham.) with picloram. 22592
Effect of several herbicides on the proteolytic activity in squash. 22804
Control of weeds in brassicas. 23234

PICLORAM 101 MIXTURE
Control of Hawaiian jungle with aerially applied herbicide. 19125

PICORNAVIRUSES
Bovine rhinoviruses. 16752
Isolation of a hemagglutinating picornavirus from a primary swine kidney cell culture. 16795
Evidence for a single structural polypeptide in foot-andmouth disease virus. 20010
Serologic comparison of North American and Japanese porcine picornaviruses. 22116

PIERICIDIN A
Inhibition of bacterial respiration by piericidin A and rotenone. (Abstract). 16209
Chemical structure of piericidin A. Part VI. Stereochemistry. 21569

PIERIDAE
Pieris napi in calabria. (Lep., Pieridae). 19360
On the discovery of Leptidea morsei in Styria (Lep., Pieridae). 19473
Special effects and teratological symptoms of the thermostable toxin of B. thuringiensis as a function of the physiological age of insects. 19568
Naviculoid scales in the fore wing terminal borders of Colias species. (Lepidoptera: Pieridae). 19618
Influence of the corpora allata on ovarian functioning in the male Pieris brassicae L. (Lepidoptera). 19639

PIERIS
Supplementary data on the androconial scales of some Holarctic species Pierls (Lepidoptera). 13761
Photoperiod effects in Pieris rapae. 14913
Seasonal shifts in the relative resistance to insect attack of eight commercial cabbage varieties. 15285

PIERIS BRASSICAE
The effect of heat, cold, and prolonged storage on a granulosis virus of Pieris brassicae. 13781
Notes on the toxicity of a commercial preparation of Bacillus thuringiensis var. thuringiensis Berliner on some Lepidoptera and Tenthredinidae larvae. 14250
Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. II. Toxicity of different fractions of the hydrolysate for larvae of Pieris brassicae. 15780
Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. I. Preparations and fractionation of the lysates. 15781
A new aberration of Pieris brassicae (Linn.) Lepidoptera, Pieridae. 16318
Titer determinations of preparations of Bacillus thuringiensis Berliner. 22982
Effect of the toxin of the parasporal inclusion of Bacillus thuringiensis Berliner on the mesentery of Pieris brassicae L. 23005

PIERIS RAPAE
Evaluation of systemic insecticides incorporated in the soil for control of lepidopterous larvae of cole crops in southern California. 13931

A bioassay technique for determining the insecticidal activity of preparations containing Bacillus thuringiensis Berliner. 14960

Control of caterpillars on late cabbage in central Ontario and western Quebec, 1958-1959. 20942

PIEZOSTERNUM CALIDUM

Further observations on the biology of the oyster nut shield bug (Piezosternum calidum Fab.). 22402

PIGEONPOX VIRUS

Some studies on pigeon pox virus in tissue culture. 22729

PIGEONS

Metal hose simplifies bird bait application. 13947

External parasites of domestic pigeon in United Arabic Republic. 16869

Pesticide-induced enzyme breakdown of steroids in birds. 19148

The endoparasites in collard turtle-doves in some Moravian towns. 19957

The hypopial stage of Falculifer rostratus in the turtledove. 20019

Effects of endrin on telencephalic function in the pigeon. (Abstracted from Toxicol. Appl. Pharmacol. 9(1):75-83. 1966). 20879

Fatty acid changes in liver fractions of pigeons after lethal-dose radiation and therapy. 21245

Testing of the pathogenicity of virus strains of the Newcastle disease in pigeons. 22100

PIGMENTATION

Pigment-producing variants of Bacillus thuringiensis Berliner from the silkworm. 14953

Sampling methods for red spider mites. 17096

Rates of spontaneous mutation in certain genes of an Arrhenotokous mite, Tetranychus pacificus. 17234

PIGMENTS

Evidence of winged insect sexual dimorphism in Philophylla heraclei (Dipt. Trypetidae) through use of a photopterometre. 16419

X-ray analysis of hyphal and sclerotill walls of Sclerotium rolfsii Sacc. 17674

Techniques of marking insects with micronized fluorescent dust with especial emphasis on marking millions of Lygus hesperus for dispersal studies. 17886

Oral toxicity of linuron (3-(3,4-dichlorophenyl)-1-methoxy1-methylurea) in rats and dogs. 20873

Colour affects the landing of bloodsucking black flies (Diptera: Simuliidae) on their hosts. 20991

PIGMENTS (INSECT)

A study of a melanic mutant of the blowfly Lucilia cuprina. 16395

On the tetrapyrrolic pigments, essential constituents of homochrome:coloration in Oedipoda coerulescens L. (Acridae, Orthoptera). 17895

The formation of ommochromes in the eyes during the pupal development of Plodia interpunctella Hb. 19539

A possible precursor of ommin in synthesis of ommochrome of Plodia interpunctella Hb. and of Ephestia kuhniella Z. 19540

On the relationship between pigmentation and perceptibility of the potato beetle Leptinotarsa decemlineata Say. A contribution to the physiological importance of carotinoid pigment with the demonstration of vitamin A in insects. 19705

A clonal system of differential gene activity in Drosophila. 19766

Some observations on variegation in Drosophila. 19775

PIGMENTS (PLANT)

Some factors related to the production of a brown diffusible pigment by Xanthomonas phaseoli var. fuscans (Abstract). 16542

Far-red sensitive dark processes essential for light- and gibberellin-induced germination of lettuce seed. 17699

PIMARICIN

Relation of sterols to the differential sensitivity of spores and mycelia of Phytophthora to polyene antibiotics. 17690

PIMIENTOS

Blossom end rot of the tomato. 21843

PINE CONES

Pine cone rust in the highlands of Guatemala. 15169

PINE NEEDLES

The possible use of pine needles as spore traps. 15077

Ozone damage and semimature-tissue needle blight of eastern white pine. 16925

A staining technique for jack-pine budworm egg masses. 22415

PINEAPPLE DISEASE

Studies of the host-parasite relationship in the pineapple disease of sugarcane. 21830

PINEAPPLE DISEASE SUGARCANE)

Storage and germination of cuttings and soil microorganisms as they relate to the pineapple disease of sugar cane. 15016

PINEAPPLES

Notice of filing of petition regarding pesticides. 15586

Interfruitlet corking of pineapple first caused by Penicillium funiculosum. (Abstract). 15880

Notice of withdrawal of petition regarding pesticides. 16154

Alpha-naphthaleneacetic acid. Proposed establishment of pesticide tolerance. 16168

Biophysical and biochemical studies on the nature of resistance of pineapples to the oriental fruit fly. 16710

Notice of amended filing of petition regarding pesticides. 17639

PINUS

The life history of Ips calligraphus (Coleoptera: Scolytidae) with notes on its biology in California. 13863

On the parasites of the pine caterpillar, Dendrolimus spectabilis Butler, in a pure stand Akamatsu-pine forest in the suburbs of Seoul in Korea. 14222

Soil and stand conditions related to southern pine beetle activity in Hardin County, Texas. 14443

Susceptibility of eastern white pine to chlorotic dwarf. 15039

Effect of light on the rate of decay of three wood destroying fungi. 15044

Physiological factors in the etiology and alleviation of salt-induced decline of roadside maples and pines. 15102

The biology and ecology of Dendroctonus valens Flee., and the biology, ecology, and control of Dendroctonus frontalis (Mexicans)Zimm in central Mexico(Coleopterai Scolytidae). 15165

Fungi associated with a wood wasp in dying pines in Tasmania. 15205

Plant- parasitic nematodes associated with shortleaf pine showing symptoms of littleleaf. 15269

Coneworms. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15791

Chromatographic studies on preservatives in the wood of some conifers, especially of the genus Abies, Picea, and Pinus. 16105

The pine engraver, Ips pini (Coleoptera: Scolytidae), in the southern Appalachian Mountains. 16282

Prescribed fire as a possible control for Fomes annosus. (Abstract). 16577

Histology of canker rusts in pines. 16618

Tolerance of some imported conifer seeds to fumigation with carbon tetrachloride. 16932

Delayed symptom expression of Fomes annosus root rot of pine. (Abstract). 17361

Treatment of seeds of the common pine tree with fungicides. Transl. 16706. 17624

The pathogenicity of secondary and tertiary basidiospores of Cronartium fusiforme. 18052

Two new species of Cinara (Homoptera: Aphididae) associated with pine rust lesions. 19507

Record of Neodiprion warreni (Hymenoptera: Diprionidae) in Florida. 19523

Corticole fauna of the Sea-Pine: Elatophilus nigricornis. (Hem. Anthocoridae). 19553

-Response of conifer seedlings and weeds to seedbed fumigants. 19929

The relation of growth regulators to the development of symptoms and expression of stem resistance in white pine infected with blister rust. 21831

Erratum: Reactions of lodgepole pine to attack by Dendroctonus ponderosae Hopkins and blue stain fungi. 21919

Biological control of forest pathogens. 23134

Materials on destructive insects of Pinus pithiusa Stev. in Pitzunda (Georgian Soviet Socialist Republic). 23197

Effects of herbicides on carbon dioxide uptake by pine seedlings. 23430

PINUS ALBICAULIS

Helicopter application of phytoactin to whitebark pine. (Abstract). 17958

PINUS BANKSIANA

Effects of x-irradiation of seed on x-1 and x-2 generations in Pinus banksiana Lambert. 15643

Eastern dwarf mistletoe on jack pine in Manitoba. 17926

Ants, aphids, and jack pine in Manitoba. 20313

PINUS CLAUSA

Phytoseiidae of sand-pine litter. 13739

PINUS CONTORTA

Megastigmus spp. (Hymenoptera: Torymidae) associated with the seeds of Pinus spp. 17030

PINUS CONTORTA LATIFOLIA

Reactions of lodgepole pine to attack by Dendroctonus ponderosae Hopkins and blue stain fungi. 23104

PINUS ECHINATA

Oxygen consumption and germination of Cronartium fusiforme aeciospores. 16694

Insects affecting seed production of Shortleaf pine in the Georgia piedmont. 17748

PINUS EDULIS

Effect of an Aphelenchoides species on the growth of a mycorrhizal and a pseudomycorrhizal fungus. 16000

Control of pinyon needle scale with dimethoate. 23202

PINUS ELLIOTTI

Distance of needle infection from stem affects likelihood of gall development on slash pine by Cronartium fusiforme. 18910

PINUS ELLIOTTII

Resistance to fusiform rust in slash pine as shown by artificial inoculation. 15090

Attack of the black turpentine beetle on roots of slash pines. 18118

PINUS HALEPENSIS

Occurrence of rust on the Aleppo pine in Istria. (TT 67-51309) Transl. 16915. 17310

PINUS MONTICOLA

Histochemical analysis of the blister rust fungus, Cronartium ribicola. (Abstract). 15908

Comparative physiology of Pinus monticola Dougl. resistant and susceptible to Cronartium ribicola J. C. Fisch. ex. Rabenh. 18000

Concentrations of solutes in blister rust infections of western white pine. (Abstract). 18030

PINUS PONDEROSA

Albino Peridermium harknessii in ponderosa pine. 15153

Appraisal of biological control of Arceuthobium campylopodum F. campylopodum by Colletotrichum gloeosporioides. 15283

Effect of an Aphelenchoides species on the growth of a mycorrhizal and a pseudomycorrhizal fungus. 16000

Effects of ozone injury to ponderosa pine. (Abstract). 16215

Controlled mating, karyology, morphology, and sex-ratio in the Dendroctonos ponderosae complex. 16987

Megastigmus spp. (Hymenoptera: Torymidae) associated with the seeds of Pinus spp. 17030

Studies of the insect complex affecting seed production of ponderosa pine in California. 18101

Comandra rust damage to ponderosa pine in Oregon and Washington. aSB608.P6505. 20522

A sodium-linked disease of ponderosa pine in Denver, Colorado. 21159

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Ii. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness. 21180

Studies of the insect complex affecting seed production of Ponderosa pine in California. SB608.P65K6. 21188

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of Ponderosa pine. Iii. Effect of injury on oleoresin composition, phloem carbohydrates, and phloem pH. 21193

Sapsucker damage to ponderosa pine. 22617

PINUS RADIATA

Dothistroma needle blight of pines. 6. field control with timed copper sprays. 14381

Parasitism of Sirex noctilio F by Schletterius cinctipes (Cresson) (Hymenoptera: Stephanidae). 14965

Principal diseases affecting Pinus radiata in Chile. 15008

Variation in pathogenicity and virulence in single-spore isolates of Armillaria mellea. (Abstract). 15931

Resolute research to defeat grassgrub. 15996

Wood inhabiting fungi in a pine plantation in Australia. 17363

Helicopter applies bird repellent seeds. 19134

The leaching of auxin from air layers. 21771

PINUS RESINOSA

Effects of direct contact of pine seeds or young seedlings with commercial formulations, active ingredients, or inert ingredients of triazine herbicides. 14775

Root exudates from red pine seedlings and their effects on Pythium ultimum. 16534

Pathogenicity and physiology of Pythium vexans. (Abstract). 16558

Effects of herbicides on carbon dioxide uptake by pine seedlings. 16668

Effect of the nematode Aphelenchus avenae on some ectotrophic, mycorrhizal fungi and on a red pine mycorrhizal relationship. 16721

Inclusions in adults of the European pine sawfly, Neodiprion sertifer (Geoff.). 17208

Field tests for control of red pine seedling diseases. 17346

Two new hardwood hosts of Fomes annosus. 17930

Red pine meedle structure. 18451

Morphological and chemical analyses of red pine (Pinus resinosa Ait.) buds. Their relationships to tree growth on a K-deficient to nondeficient site continuun. 18741

Effect of pretreatment of pine seeds with herbicides on seed germination and growth of young seedlings. 22226

Effects of direct contact of pine seeds or young seedlings with commercial formulations, active ingredients, or inert ingredients of triazine herbicides. 22582

The impact of insects on second-year cone crops in red pine seed-production areas. 23198

Influence of temperature on phytotoxicity of triazine herbicides to pine seedlings. 23231

PINUS RIGIDA

Radiation-induced damage in vegetative tissues of Pinus rigida Mill. 16526

Pathogenicity and physiology of Pythium vexans. (Abstract). 16558

PINUS STROBUS

Seasonal lipid content of bagworm larvae. 13806

An exposure chamber for forestry air pollution studies. (Abstract). 14342

Recovery of eastern white pine following reduction in levels of ambient air pollution. (Abstract). 14365

Effects of Lophodermium pinastri and Pullularia pullulans on healthy and ozone-injured needles of Pinus strobus. (Abstract). 15872

Pathogenicity and physiology of Pythium vexans. (Abstract). 16558

Infection of needles of Pinus strobus by Lophodermium pinastri. (Abstract). 16562

Leptographium root decline of eastern white pine. (Abstract). 16568

Factors affecting acute injury of Pinus strobus by ozone. (Abstract). 16674

Stem and needle innoculations of eastern white pine with the blister rust fungus. 16692

Ozone damage and semimature-tissue needle blight of eastern white pine. 16925

Biology and natural control of the white-pine weevil in Virginia. 17024

Megastigmus spp. (Hymenoptera: Torymidae) associated with the seeds of Pinus spp. 17030

The relationships of ozone, Lophodermium pinastri and Pullularia pullulans to needle blight of Eastern white pine. 17972

Ozone damage and semimature-tissue needle blight of eastern white pine. 21884

Histological studies of symptoms in semimature-tissue needle blight of eastern white pine. 21885

White-pine weevil control in plantations with heptachlor granules. 23200

PINUS SYLVESTRIS

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L (Coleoptera, Scolytidae) to its host tree. 14213

Histological changes produced by a ruby laser in Neodiprion sertifer Geoff. 17145

Natural infection of Scots pine by lodgepole pine dwarf mistletoe in Canada. 17269

Investigations of pure culture of mycorrhizal fungi of pine, Pinus silvestris L. QK608.P7P3. 17325

Response of conifer seedlings and weeds to seedbed fumigants. 17460

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree. 21691

Effect of methyl bromide treatments on several species of conifer seed. 22579

The damaging occurrence of Aradus cinnamomeous Panz. in Sweden. 23180

European pine sawfly control with aircraft application of concentrate insecticidal sprays. 23213

PINUS TAEDA

Effects of phloem temperature and moisture content of the Southern pine beetle. 14187

Antibiotic treatment of young loblolly pines infected with fusiform rust. 15050

Survival of Fomes annosus in the presence of competing fungi in loblolly pine roots. (Abstract). 17312

Pathogenicity of some blue-stain fungi in the genus Ceratocystis. (Abstract). 17945

Genetic variation in susceptibility to fusiform rust in a wild population of loblolly pine. (Abstract). 18010

The influence of induced soil moisture stress upon Fomes annosus root rot of loblolly pine. 21941

How serious is rabbit damage on loblolly pine seedlings. 22616

Studies on the attack behavior of the southern pine beetle. I. The spreading and collapse of outbreaks. 23189

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23190

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23191

Studies on the attack behavior of the southern pine beetle. IV. Influence of host condition on aggregation pattern. 23212

PIPER NIGRUM

The occurrence of a Phytophthora root and leaf disease of black pepper in Jamaica. 15106

PIPERAZINE

Piperazine in veterinary medicine. 20808

Round worms in pigs. 22773

Comparative evidence with dichlorvos and derivatives of piperazine in the Ascaridosis of the pig. 22780

PIPERONYL BUTOXIDE

Notice of filing of petition for food additives. 14608

Efficacy of some insecticides for treating cereals. 17678

Pyrethrins-piperonyl butoxide applied as a fog in an empty grain bin. 17897

PIRICULARIA ORYZAE

Change in chloroplast proteins of the rice plant infected by the blast fungus, Piricularia oryzae. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 14332

Greenhouse evaluation of fungicides for control of rice blast disease. (Abstract). 14350

Chromosomal number and mitotic division in Piricularia oryzae. (Abstract). 17258

Studies on the chemical control of rice blast caused by Piricularia oryzae Cav. 17942

Rice. Blast, Piricularia orzae. 18814

Differential susceptibility of rice leaves and panicles to Piricularia oryzae. (Abstract). 18986

Yield losses due to pests and diseases in rice crop. Results of ICAR sample survey. 19863

The ultrastructure of Piricularia oryzae Cav. 21812

The use of actidione on the control of rice blast. 21813

Genetic analysis in rice, VIII. Inheritance of resistance to races 4, 22 and 25 of Piricularia oryzae. 21865

PIROPLASMOSIS

Immunogenic properties of babesial serum antigens. 14550

Bovine babesiosis. the passive immunization of calves against Babesia argentina with special reference to the role of complement fixing antibodies. 15517

Texas (splenetic) fever in cattle. Restrictions on interstate movement of cattle, other animals and certain materials from, Guam. 16056

Interstate transportation of animals and poultry. Texas (splenetic) fever in cattle. Changes in areas quarantined. 17727

Immunological strain differences of bovine tick-borne fever agents. 19208

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical formes to vermicules. 19606

Babesia gibsoni in a dog. 19963

Bovine babesiosis: the immunization of cattle with killed Babesia argentina. 19985

Texas (splenetic) fever in cattle. Permitted dips. 22046

PISSODES ALASCENSIS

Notes on a spruce bark weevil, Pissodes alascensis Hopkins (Coleoptera: Curculionidae), in British Columbia. 14434

Note on a spruce bark weevil, Pissodes alascensis Hopkins (Coleoptera: Curculionidae), in British Columbia. 19871

PISSODES SITCHENSIS

Studies on the Sitka spruce weevil, Pissodes sitchensis, in British Colombia. 23046

Field tests of systemic insecticides for the control of sitka-spruce weevil. 23195

PISSODES STROBI

Biology and natural control of the white-pine weevil in Virginia. 17024

White-pine weevil control in plantations with heptachlor granules. 23200

PISUM SATIVUM

Comparative gibberellin relationships in tall and dwarf peas (Pisum sativum L.). 17916

Effect of 3-indoleacetic acid on phospholipid membrane components of Avena coleoptiles. 18481

Effect of soil fumigants on Fusarium wilt and nodulation of peas (Pisum sativum L.). 21118

PITUITARY GLAND

The effects of hypo- and hyperthyroidism on the testes and anterior pituitary glands of cockerels. 17532

The effect of different levels of vitamin A on the anterior pituitary of young bulls. 21345

PLACENTA

Placental pathology of sheep with vibiosis. 15392

Factors affecting the storage, excretion, and placental transfer of dieldrin in dairy cattle. 18218

Placental pathology of experimentally-induced enzootic abortion in ewes. 18300

Infectious bovine rhinotracagitis: correlation of fetal and placental lesions with viral isolations. 19196

PLAGUE

Duck plague on the American continent. 17534

Biology of vector-associated diseases in Vietnam. 17913

Duck plague. 18263

Summary of recent abstracts. VI. Plague. 23087

Classification of duck plague virus. 23306

PLANIPENNIA

The collection of Dr. M. Gaillard in Kolda, Senegal. Orthoptera and closely related orders. 20254

PLANOCOCCUS CITRI

A sex pheromone from the citrus mealybug. 17828

PLANT ABNORMALITIES

Studies on a virus causing stem grooving and graft-union abnormalities in Virginia Crab apple. 15001

Ultrastructure of chloroplasts in Albugo- and kinetininduced green islands on Brassica juncea. (Abstract). 15878

Vein enation and leaf drop of tomatoes grown in controlled environment chambers. (Abstract). 15916

Somatic aberrations in Solanum tuberosum induced by ethyl methane sulfonate and X-irradiation. 16936

The effect of hot water treatment on a virus of Opuntia exaltata. 17354

The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus. 17366

Physiological abnormalities in growth, hormone behavior, and chemical transport in aster yellows infected plants. 17707

Xylem aberration, a transmissible disease of stone fruits. 18869

A note on translocation-trisomic plant from gamma-irradiated barley. 19814

Chromosomal aberrations induced by pesticides in meiotic cells of barley. 19862

Cytological effects of pesticides. II. Meiotic effects of some phenols. 19926

Some effects of cultural treatments on virus diseases of cultivated mushroom, Agaricus bisporus. 21135

The sequence of release of amino acids from germinating crown rust spores. (Abstract). 23433

PLANT ANALYSIS

Leaf constituents, application rates, and inhibition levels associated with sodium saccharin as related to Xanthomonas vesicatoria resistance in pepper (Capsicum annuum). (Abstract). 15891

Fungistatic constituents in citrus varieties resistant to the mal-secco disease. 18046

PLANT ANATOMY

Proliferative symptoms in leafhoppers infected with western X-disease virus. 16696

Structure and development of the flower of Brasenia schreberi Gmel. 16931

Eutypella canker on species of acer in New York state. 17294

Effects of hydrogen fluoride accumulation on plant cell microstructure and ultrastructure. 17706

Red pine meedle structure. 18451

Effect of gibberellic acid on genetically controlled tumour formation and vascularization in tomato. 18717

The peroxidase enzyme in black shank-infected tobacco. (Abstract). 18969

The pathogenicity of Ditylenchus dipsaci to alfalfa and the relationship of temperature to plant infection and susceptibility. 19102

Particle structure and concentration of bromegrass mosaic virus in thin sections of barley (Mordeum vulgare l.). 20560

Comparison of staminate flower production on gynoecious strains of cucumbers by pure gibberellins (A3, A4, A7, and A13) and mixtures. (Abstract. 21774

Fine structural characterization of plant microbodies. 21777

Inhibition of axillary bud growth of Chrysanthemum morifolium with fatty acids esters. (Abstract). 21789

Gibberellin A4/A7, for induction of staminate flowers on the gynoecious cucumber. (Abstract). 21794

PLANT BIOCHEMISTRY

Ergotamine production in submerged culture and physiology of Claviceps purpurea. 14004

Accumulation of sodium and calcium by seedlings of some cereal crops under saline conditions. 14007

Complementation in dikaryons and diploids. (Abstract). 14355

A possible biochemical basis for the hypersensitive reaction induced in plants by pathogenic bacteria. (Abstract). 14374

A survey of green plants for antimicrobial substances. 15186

Evidence for a chemical basis of resistance of lima bean plants to downy mildew. 15206

Mechanisms of variations in Verticillium alboatrum. 15618

Association of polygalacturonate trans-eliminase with southern anthracnose but not with spring black stem or Stemphylium leaf spot of alfalfa. 15624

Analysis of proteins and enzymes of the interaction between Phaseolus vulgaris and Pseudomonas phaseolicola (halo blight of beans). 15642

Fixation of HC14N by fungi. 15649

Protein and isozyme patterns of sweet potatoes as related to acquired immunity. 15650

Properties of purified acid phosphatases from healthy and rust-infected bean leaves. 15652

Effect of chloramphenicol on the concentrations of free amino acids and amides in healthy and cucumber mosaic virus (CMV-Y) infected plants. 15655

Comparative effects of Helminthosporium carbonum and H. victoriae toxins on susceptible tissue. (Abstract). 15894

Predisposition to Thielaviopsis root rot by phytotoxins obtained from decomposing plant residues. (Abstract). 15898

Cellulolytic enzyme activity of Xanthomonas alfalfae in vitro and in association with bacterial leaf spot of alfalfa. (Abstract). 15932

Accumulation of scopolin and scopoletin in tobacco plants infected by Pseudomonas solanacearum. (Abstract). 15943

Alteration of starch and nitrogen in soybean leaves infected by Pseudomonas glycinea. (Abstract). 15950

The isolation and partial characterization of monilicolin A, a polypeptide with phaseollin-inducing activity from Monilinia fructicola. 16203

Fructose diphosphate aldolase from Fusarium oxysporum f lycopersici. III. Studies on the mechanism of reaction. 16206

The production of indolelactic acid from L-tryptophan by species of Phytophthora. (Abstract). 16212

Use of tissue cultures to assay Botran toxicity in higher plants. (Abstract). 16213

The relationship of mating capacities and sterol synthesis among isolates of Cochliobolus carbonum. (Abstract). 16217

An autoxidizable cytochrome of Pseudomonas syringae. (Abstract). 16228

Metabolic fate of C14 and S35 labeled phaltan (N-trichloromethylthiophthalimide) in cells of Saccharomyces pastorianus. (Abstract). 16229

Phytotoxicity of NaCl and CaCl2 to Norway maples. (Abstract). 16235

The influence of simazine on the quality and composition of pome fruit. 16919

The effect of differential nitrogen and calcium nutrition and B-Nine (N-dimethyl amino succinamic acid) application on foliar analysis and flowering quality of Red Wing azaleas. 16926

The partitioning and distribution of simazine and propanil in spinach chloroplasts. 16927

Somatic aberrations in Solanum tuberosum induced by ethyl methane sulfonate and X-irradiation. 16936

Metabolic and environmental factors affecting absorption and translocation of 2,4,5-trichlorophenoxyacetic acid in winged elm. 16940

A quantitative study of the effects of gibberellic acid on the growth of Festuca arundinacea. 17266

Isolation of polyribosome from tobacco plants infected with tobacco mosaic virus. 17308

Evidence for multiplicity reactivation of ultraviolet light irradiated ribonucleic acid isolated from tobacco mosaic virus. 17347

Growth responses of pinto bean and alfalfa to sublethal fluoride concentrations. 17709

Pectin methyl-trans-eliminase as the maceration factor of Sclerotinia fructigena and its significance in brown rot of apple. 17965

Fungistatic constituents in citrus varieties resistant to the mal-secco disease. 18046

The effect of species of Allium on soil bacteria in relation to germination of sclerotia of Sclerotium cepivorum Berk. 18434

Identification of Xanthomonas species by acrylamide-gel disc electrophoresis of soluble bacterial proteins. (Abstract). 18439

Induction of floral hypersexuality in Iberis amara L. (Cruciferes) influenced by 2,4-dichlorophenoxyacetic acid. 18446

Location of unique sequences in tobacco mosaic virus ribonucleic acid. 18457

Amino acid-(phenylazo)-phenylderivatives. xXIII. investigation of the phytotoxic effect of the antipodes of alanine-and phenylalanine-4-(phenylazo)-phenylamides against various plant species. 18472

Cytoplasmic carotenes of race 15B and race 56 of Puccinia graminis f. sp. tritici. 18793

A chemically defined medium for the vegetative growth of Aphanomyces euteiches. (Abstract). 19318

The problem of isolation of the X virus inhibitor from potato leaf sap. 19802

Free amino acids from the leaves of healthy Brassica chinensis or infected with the yellow mosaic virus of turnips. 19816

Study of the RNA protein interactions in the yellow mosaic virus of the turnip. Comparative action of urea on the virus and on the capsids. 19826

Pectic enzyme production and morphogenesis in Helminthosporium atypicum. 19870

Activity of dehydrogenases in tomato root-knots infected with the root-knot nematode. 19922

Interaction of abscisin-II with some growth regulating substances. 20109

Inhibition of gibberellic acid-induced germination by abscisic acid and reversal by cytokinins. 20114

The action of gibberellins on the fruiting of grapes. 20115

The fatty acids of wheat stripe rust uredospores. 20116

Growth inhibition of Mycoplasma by inhibitors of polyterpene biosynthesis and its reversal by cholesterol.
20119

On the normal tissue transformation of Scorsonera in vitro caused by Agrobacterium tumefaciens DNA.
20540

Borax inhibition of cyanogenesis in snow mold of alfalfa.
20544

Penetration of lindane into plants of various photoperiodic groups and its biological activity depending upon the light conditions.
20637

Gibberellic acid-promoted lignification and phenylalanine ammonia-lyase activity in a dwarf pea (Pisum sativum).
20891

Isolation of the methyl ester of chloro-3-indolylacetic acid from the immature seeds of the pea, Pisum sativum L.
20894

Influence of carbon source and pH on the accumulation of oxalic acid in culture filtrates of Sclerotium rolfsii. (Abstract).
20902

Isolation of an adenosine-peptide nucleotide from chlamydospores of Tilletia foetida. (Abstract).
20908

Gibberellin-like substances from vegetative tissue of a conifer, Arizona cypress.
20910

Atrazine metabolism in resistant corn and sorghum.
20911

Identification of phytotoxins obtained from plant residues decomposing in soil. (Abstract).
20916

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree.
21691

Experiments on the precocious flowering of western red cedar and four species of Cupressus with gibberellins A3 and A4/A7 mixture.
22223

Effect of several herbicides on the proteolytic activity in squash.
22804

The action of several inhibitors on the respiration of plant tissues treated with gibberellic acid.
22807

Dodder:Potential research tool.
22808

Partitioning and distribution of herbicides in spinach chloroplasts.
22815

Partitioning and distribution of herbicides in spinach chloroplasts.
22816

Inhibition of the Hill reaction of isolated chloroplasts by amide-containing herbicides.
22817

Translocation of herbicides in American pondweed (Potamogeton nodosus Poir.).
22820

The influence of volatile 2,4-D upon zinnias, snapdragons, and other bedding plants as affected by other gases such as SO2 and NH3.
22822

Isolation and some physiological properties of natural plant growth inhibitors.
22825

Translocation and persistence of dicamba in Canada thistle, tartary buckwheat, quackgrass and Kentucky bluegrass.
22826

Some properties of hyphae isolated from bean leaves infected with the bean rust fungus.
23124

Teratoma induction in Datura meteloides and D. stramonium by crown gall bacterium (Agrobacterium tumefaciens). (Abstract).
23140

A new polyphenoloxidase test for distinguishing between wood-rotting fungi.
23160

Effect of 2,4-Dichlorophenoxacetic acid on oxidative phosphorylation in various plants.
23226

Chlorophyll and total nitrogen in barley rust infection.
23413

Some chemical aspects of curing.
23421

Beta-Glucosidase content of pear blossom tissues and its relation to antibiotic activity of the tissues against Erwinia amylovora. (Abstract).
23427

PLANT BREEDING

Pathogen variability and breeding Verticillium wilt resistant strawberries.
15018

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars.
15911

Mineral nutrition of cacao (Theobroma cacao L.). Comparison of plant growth and nutrient content of leaves of six C.R.I. varieties grown in optimum and deficient conditions in sand culture.
16524

Intergrafting, preventive measures against the 'collar rot' on apples.
16528

A morphological and biological concept of the species Ceratocystis fimbriata.
16530

A genetic study of leaf rust resistance in wheat.
16623

Studies on the development of insect resistant sorghum varieties and hybrids.
16707

The development of a set of upland cotton lines for differentiating races of Xanthomonas malvacearum.
17303

Hybelle and Sanibel, multiple disease resistant F1 hybrid cabbages.
17359

Susceptibility of Darwin hybrid tulips to tulip breaking virus.
17364

Phytopathological consequences of changing agricutural methods. II. Cereals.
17426

Genetics of reaction to Puccinia sorghi Schw. in ten corn inbred lines obtained from Africa and Europe.
17937

A second gene for resistance to Puccinia graminis f sp tritici in the Red Egyptian 2D wheat substitution line.
18024

Genetics of reaction to Puccinia sorghi in ten corn inbred lines from Africa and Europe.
18076

Studies on the plant characters of castor associated with resistance to Empoasca flavescens (Fabr.) (Homoptera: Jassidae) with reference to selection and breeding of varieties.
19880

Experiment results and problems of phytopathogenic viruses in German Democratic Republic.
21134

Verticillium Wilt of tomatoes. Tests with resistant lines.
21857

Systematic breeding programme to combine resistance to Phytophthora and the quality of the potato variety Bintje.
21915

Further observations of the tolerance and susceptibility of tea clones to shot-hole borer infestation.
22541

Root rot tolerance in new alfalfa strains now available to plant breeders.
23139

PLANT BUDDING

Constituents of the cotton bud XI. Studies of a feedingstimulant complex from flower petals for the boll weevil.
17403

Constituents of the cotton bud. XIII. Further studies on a nonpolar feeding stimulant for the boll weevil.
18124

Screening trials of materials for suppressing spore production by Gloeosporium perennans on apple trees.
21112

PLANT COMPOSITION

A note on the influence of a range of plant chemicals on the growth and survival of Aedes aegypti L. larvae.
16396

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria.
16916

The role of secondary plant substances in the food specificity of the Colorado potato beetle.
17380

Selection and specificity of the Colorado potato beetle for solanaceous and nonsolanaceous plants.
17381

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria.
20628

PLANT CONTAMINATION

Selenium-responsive diseases of animals in New Zealand.
16746

Comparative Cs-137 content of agricultural crops grown in a contaminated soil.
18389

PLANT CUTTINGS

A soft rot of elm root cuttings caused by Fusarium solani.
15941

Growth substances isolated from woody cuttings of Alnus glutinosa Medic. and Fraxinus excelsior L.
16525

Geranium plants differentiated in vitro from stem tip and callus cultures.
16929

Induced resistance to bacterial wilt in susceptible tobacco cuttings pretreated with avirulent mutants of Pseudomonas. (Abstract).
18029

Poplar hybrid, storage breakdown; unknown cause.
18723

Losses from Fusarium stem rot caused by Fusarium roseum, in commercial production of cuttings of carnation, Dianthus caryophyllus.
18845

Notes on Bivoltinism in the lesser peach tree borer, Synanthedon pictipes (G and R).
21663

PLANT CYTOLOGY

The cytology of infection structure development in urediospore germ tubes of Uromyces phaseoli var. typica (Pers.) Wint.
14393

Cytology of mixed infections with potato virus X and Y in Nicotinia tabacum leaves. (Abstract).
15887

Cytopathology of mixed infections with potato viruses X and Y in Nicotiana tabacum leaves.
16610

Electron microscopy of X-body formation in cells of cabbage infected with Brassica virus 3. 16665

The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus. 17366

The formation of giant cells in tomato roots infected by the potato cyst nematode, Heterodera rostochiensis and the grey sterile fungus, G.S.F.. 17448

The incorporation of tritiated thymidine in the cytoplasm before the incorporation of the cell nucleus during the germination in Zea mays. 17710

PLANT DISEASE CONTROL

Pelargonium viruses; symptoms, diagnosis and control. 14413

Failure of psorosis virus to protect against citrus variegation virus. 15028

Studies on the control of black rot of crucifers by treating seeds with antibiotics. 15100

Heat-induced susceptibility of tobacco to Tropaeolum mosaic virus. 15110

Chemicals for plant disease control. 15128

Eradication of potato virus X by thermotheraphy. 15953

The present and the future of plant protection. 16531

The sensitivity of fungi to alpha-tomatine. 16536

Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus. 16607

A genetic study of leaf rust resistance in wheat. 16623

Integrated method of control of plant diseases caused by fungi. 16630

The effects of sugar maple stem tissue extracts on spore germination of Fusarium solani. (Abstract). 16655

Method of determining the sensitivity of fungus spores to hot water. 16656

Proceedings International Symposium on Plant Diseases and Pests in a Developing Europe. 17247

Natural infection of Scots pine by lodgepole pine dwarf mistletoe in Canada. 17269

Occurrence of Fomes annosus in intensively managed young-growth western hemlock stands. 17288

Hot-water treatment of Sugarcane seed material. A simple method suitable for rural areas. 17341

International dispersal of fungi. 17367

Epiphytology of onion yellow dwarf. 17391

Phytopathological consequences of changing agricutural methods. II. Cereals. 17426

Phytosanitary measures in a developing Europe. 17725

Stand loss of small grains in Florida. 18057

Abstracts of the 1968 annual meeting of the Potomac division of The American Phytopathological Society. 18756

Reduction of banana anthracnose following hot-water treatment of the green fruit. 19811

Effect of 35 degree C temperature on Vitis rupestris attacked by fanleaf. 19820

Podosphaera tridactyla. 19840

Increased susceptibility of black-currant bushes to the gall-mite vector (Phytoptus ribis Nal.) following infection with reversion virus. 21163

Development of downy mildew resistant broccoli, cabbage, and collards. (Abstract). 21821

The dynamics of virus-induced changes in the release of substances from leaves and sprouts. 21927

Determination of the inhibition activity in the sap from potato leaves with regard to the X-virus by means of a serological method. 22503

Virus diseases and orchids. 23091

Maize dwarf mosaic virus ratings of corn hybrids and inbreds tested in Arkansas in 1968. 23121

Breeding blight resistant pears for southwestern Ontario. 23137

The improvement of the potato with regard to the principal viruses responsible for its degeneration in Belgium. 23146

Virus-free potatoes: A reality. 23165

Soil-borne virus diseases of potatoes. 23169

PLANT DISEASE FORECASTING

Prediction of plant disease occurrence; a pathogeographical approach. 14409

A comparison of the electron microscope, microprecipitin tests, and indicator plants for the detection of potato viruses S, X, and Y. 16667

Diseases and pests of the more important crops in 1966 and the forecast for 1967. 16714

The relation of rainfall, relative humidity, and temperature to late blight of potato in Sedes, Sindos-Lahanokipi of Nomos Thessaloniki. 17925

The European pine shoot moth, Rhyacionia buoliana (Lepidopterai Olethreutidae), another introduced forest pest. 19877

PLANT DISEASE RESISTANCE

Kharchia-65 a new rust-resistant wheat for saline areas. 13895

An association of stem rust and crown rust resistance in Jostrain oats. 13899

Genetics of resistance to cotton-leaf curl in Sakel cotton (Gossypium barbadense). 13906

Verticillium wilt resistance in peanuts (Arachis hypogaea). Verticillium wilt resistance in peanuts (Arachis hypogaea). 13907

13907

Inheritance of resistance to Venturia inaequalis in certain crab apple clones. (Abstract). 14334

Respiratory response of radish varieties resistant and susceptible to vascular infection by Fusarium oxysporum f. conglutinans. 14340

Formation of gossypol in infected or chemically irritated tissues of Gossypium species. 14341

The relation of growth regulators to the development of symptoms and the expression of stem resistance in white pine infected with blister rust. 14346

The effect of Xanthomonas vesicatoria on permeability in resistant and susceptible pepper leaves. (Abstract). 14353

Dormant season susceptibility of peach to bacterial canker not related to movement of Pseudomonas syringae. (Abstract). 14364

Inheritance of mature plant resistance to rust in corn. (Abstract). 14383

Inhibition of phenol oxidation by Erwinia carotovora in potato tuber tissue and its significance in disease resistance. 14392

Thermal stability of stem rust resistance in oat seedlings. 14394

Effect of leaf rust on yield of some stem rust resistant wheats of Maharashtra. 14400

Wood tannins. isolation and significance in host resistance to Verticillium Wilt disease. 14414

Significance of seedling rust resistance of safflower and its relationship to foliage rust resistance. 14423

The effect of wilting on redox potential of cereal leaves. 14771

Pathogen variability and breeding Verticillium wilt resistant strawberries. 15018

Mosaic susceptibility of sugarcane seedlings as determined by mechanical inoculation and natural infection. 15036

Cercosporella leaf spot-resistant radish greens. 15046

Resistance to several viral diseases inherited as a unit. 15083

Resistance to fusiform rust in slash pine as shown by artificial inoculation. 15090

Resistance of Brassica oleracea varieties to downy mildew. 15142

Symptomless hosts of the potato spindle tuber virus. 15146

The effect of growth substances on Verticillium wilt of. 15181

Seasonal fluctuations in susceptibility of young elm seedlings to Dutch elm disease. 15187

Genetics of resistance to Erysiphe polygoni in Trifolium pratense. 15193

Evidence for a chemical basis of resistance of lima bean plants to downy mildew. 15206

Seasonal variation in the incidence of radish yellows and effect of crop rotation on plant survival and yield. 15220

Influence of irrigation and soil infestation with strains of Phytophthora dreschleri on root rot resistance of safflower. 15222

Rates of phenolic synthesis in potato roots resistant and susceptible to Veriteillum alboatrum. patil, s s. 15654

Nature of Verticillium wilt resistance in cotton. 15874

Comparison of phytoalexin produced by two soybean varieties differing by a single gene. (Abstract). 15876

Fungal populations associated with maize roots. Composition and comparison of mycofloras from genotypes differing in root rot resistance. 15883

Leaf constituents, application rates, and inhibition levels associated with sodium saccharin as related to Xanthomonas vesicatoria resistance in pepper (Capsicum annuum). (Abstract). 15891

Inheritance of reactions in safflower to lettuce mosaic virus. 15892

Comparative effects of Helminthosporium carbonum and H. victoriae toxins on susceptible tissue. (Abstract). 15894

Flax rust resistance induced by a previous inoculation. (Abstract). 15902

The role of peroxidase in resistance of tobacco to Pseudomonas tabaci. (Abstract). 15903

Influence of cultural practices on cumin wilt incidence. 15910

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 15911

Some properties of leaf proteins from virus-tolerant and virus-susceptible varieties of apple. 15920

Effect of Helminthosporium victoriae toxin on germination, enzyme secretion, and P-uptake by oat seeds. (Abstract). 15936

Pseudo-allelism at the locus Rp1 for resistance to rust in maize. (Abstract). 15937

Effect of genes for resistance in wheat upon the development of Erysiphe graminis f. sp. tritici. (Abstract). 15949

Alteration of starch and nitrogen in soybean leaves infected by Pseudomonas glycinea. (Abstract). 15950

Stunting of soybeans by Pythium debaryanum and P. ultimum. (Abstract). 15955

Varietal resistance in turmeric to leaf spot disease. 15964

Some Verticillium wilt-resistant cottons obtained by integrated laboratory and field tests. (Abstract). 15968

Changes in virulence of tobacco mosaic virus after passage through a susceptible or a semiresistant tomato. (Abstract). 15974

Intergrafting, preventive measures against the 'collar rot' on apples. 16528

Interaction of major factors influencing severity of bean root rot. (Abstract). 16539

Crown rust resistance in tall oatgrass. (Abstract). 16551

The probable significance of saprophytic colonization of wheat straw in the field by Cephalosporium gramincum. 16556

Substances, inducing plant resistance to pathogenic fungi and the problem of antimetabolites. 16585

Induction of lettuce root rot under controlled environmental conditions. (Abstract). 16590

Application of cotyledonary symptoms in screening for resistance to tomato bacterial canker and in host range studies. 16592

Stem resistance to black shank in burley tobacco derived from Nicotiana longiflora. (Abstract). 16595

Susceptibility and hypersensitivity to tobacco mosaic virus in wild species of potatoes. 16603

Antagonism of bacteria from elm to Ceratocystis ulmi in vitro. (Abstract). 16606

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus. 16613

A genetic study of leaf rust resistance in wheat. 16623

The effects of maize dwarf mosaic virus on macro- and microelement accumulation in corn tissue of resistant and susceptible hybrids. (Abstract). 16631

Interactions between Verticillium albo-atrum and Pratylenchus penetrans in the Verticillium wilt of potatoes. (Abstract). 16642

Symptom expression and varietal susceptibility in carnation, Dianthus caryophyllus, inoculated with the carnation strain of Erwinia chrysanthemi. 16645

Observations on the nature of inheritance of resistance of lucerne to Verticillium Albo-Atrum. 16652

Studies of the development of powdery mildew (Erysiphe graminis f. sp. hordei Marchal) on barley. II. Primary appressoria formation. 16654

Interaction of pathogenicity genes in Puccinia graminis f. sp. tritici and reaction genes in Triticum aestivum ssp. vulgare Marquis, Reliance, and Kota. . 16664

Relationship of clipping frequency to root and crown deterioration in red clover. 16673

Resistance to Puccinia graminis derived from Secale cereale incorporated into Triticum aestivum. 16683

The relative efficiency of ear-to-row and convergent improvement in increasing disease resistance of Zea mays. 16691

Stem and needle innoculations of eastern white pine with the blister rust fungus. 16692

Two genetic systems control disease reaction to strains A and B of maize dwarf mosaic virus. (Abstract). 16695

Comparative susceptibility of large and small spruce roots to Polyporus tomentosus. 16698

Stomatal penetration of wheat seedlings by stem and leaf rusts in relation to effects of carbon dioxide, light, and stomatal aperture. 16699

A biochemical difference between healthy bean leaves resistant and susceptible to the halo-blight disease caused by Pseudomonas phaseolicola. 17291

Bacterial wilt, Pseudomonas solanacearum (Erw. Smith 1896) Erw. Smith 1914 of tomato in the Northern Territory. 17298

Heat-induced susceptibility of beans to rust. 17306

Resistance to brown spot in flue-cured tobacco. (Abstract). 17316

Morphology of stomata of peach cultivars differing in resistance to bacterial spot. (Abstract). 17321

Mass selection for resistance to Selenophoma bromigena in northern and southern types of Bromus inermis. 17340

Hybelle and Sanibel, multiple disease resistant F1 hybrid cabbages. 17359

Susceptibility of Darwin hybrid tulips to tulip breaking virus. 17364

Penetration and colonization of resistant and susceptible soybean pods by Diaporthe sojae. (abstract). 17365

A comparison of cell wall composition in banana plants resistant or susceptible to Fusarium oxysporum f. sp. cubense. 17368

Genetics of reaction to Puccinia sorghi Schw. in ten corn inbred lines obtained from Africa and Europe. 17937

Quantitative histology of Melampsora lini resistance in flax. (Abstract). 17941

Carbohydrate distribution in grafted potato plants representing two types of resistance to virus X. 17948

A mechanism of enhanced resistance to Ceratocystis ulmi in American elms treated with sodium trichlorophenylacetate. 17956

Susceptibility of tomato varieties to Sclerotium rolfsii. 17968

Effect of soil sterilization and soil type on apparent susceptibility of two muskmelon varieties to Fusarium oxysporum f. sp. melonis. (Abstract). 17976

Effectiveness of specific genes and gene combinations in conferring resistance to races of Xanthomonas malvacearum in Upland cotton. (Abstract). 17978

Seedling resistance to powdery mildew of Purdue 5752C1-7-5-1 wheat derived from Triticum timopheevi. (Abstract). 17987

Effect of moderate adult resistance on penetration, hyphal growth rates, and urediospore production by crown rust of oats. (Abstract). 17995

Comparative physiology of Pinus monticola Dougl. resistant and susceptible to Cronartium ribicola J. C. Fisch. ex. Rabenh. 18000

Genetic variation in susceptibility to fusiform rust in a wild population of loblolly pine. (Abstract). 18010

Relationships among races of Pyricularia oryzae. (Abstract. 18016

A second gene for resistance to Puccinia graminis f sp tritici in the Red Egyptian 2D wheat substitution line. 18024

Resistance breakdown in maize to maize dwarf mosaic virus after treatment with atrazine. (Abstract). 18027

Induced resistance to bacterial wilt in susceptible tobacco cuttings pretreated with avirulent mutants of Pseudomonas. (Abstract). 18029

A study on auxin and chlorogenic acid in leaf-roll resistant and susceptible potato varieties. 18032

Fungistatic constituents in citrus varieties resistant to the mal-secco disease. 18046

Cytokinin effect of benzyladenine: Increase of nucleic acid and protein synthesis in bean leaves. 18048

Tolerance to barley yellow dwarf in winter oats. 18050

PLANT DISEASE RESISTANCE

Preliminary studies on Phyllachora maydis affecting corn in Central America. (Abstract). 18054

Alterations in the auxin levels of resistant and susceptible hosts induced by the curly top virus. 18066

Genetics of reaction to Puccinia sorghi in ten corn inbred lines from Africa and Europe. 18076

The yield of potatoes resistant to Heterodera rostochiensis on infested land. 18140

Performance of some grasses against cereal rosts. 18762

Inheritance of resistance to Venturia ineaqualis in crabapples. 18768

A method of screening for resistance to early blight on tomato seedlings. (Abstracts). 18774

Resistance to Pseudomonas coronafaciens in oats. (abstract). 18799

Testing cherry rootstocks for resistance to infection by raspberry ringspot and cherry leaf roll viruses. 18809

Effect of nitrogen and chloride nutrition on susceptibility and effect of fungicide applications on control of Fusicoccum canker of peach. 18811

Differentiation in Phytophthora infestans. I. A comparative study of eight different biotypes. 18820

Testing of fungicides for the control of downy mildew and screening of corn varieties, hybrids, and inbred lines for downy mildew resistance. Final technical report. SB608.M2E9. 18826

Host-parasite relationship in safflower resistant and susceptible to Phytophthora root rot. 18852

Influence of developmental stage of rice plant on susceptibility to hoja blanca virus. 18861

Tobacco mosaic virus-induced resistance to Pseudomonas tabaci in tobacco. 18871

Relative susceptibility of blueberry cultivars to Phytophthora cinnamoni. 18883

Inhibition of growth of Verticillium albo-atrum sporelings by tannins and polyphenols from infected crowns of Verticillium-resistant and -susceptible strawberry cultivars. 18897

Studies on the nature of resistance in tomato plants to Verticillium albo-atrum. 18944

Resistance in flax to seedling blight caused by Rhizoctonia solani. 18970

Studies on the susceptibility of 148 apple varieties to Venturia inaequalis (Cooke) Aderh.). 18971

On the relative susceptibility of apple varieties to powdery mildew. 18972

Lima beans resistant to downy mildew (Phytophtora phaseoli). (Abstract). 18984

Differential susceptibility of rice leaves and panicles to Piricularia oryzae. (Abstract). 18986

Some effects of spraying with thiabendazole on the susceptibility of sugar beet to yellowing viruses and on their vector, Myzus persicae (Sulz.). 19070

Production of polygalacturonase by Verticillium albo-atrum and Fusarium oxysporum f. sp. lycopersici in vitro and in vascular tissue of susceptible and resistant hosts. (Abstract). 19286

The biochemical and physiological nature of resistance and susceptibility to Verticillium wilt in strawberry cultivars. 19288

Relation of lipid content to ozone resistance of tobacco leaves. (Abstract). 19308

Restoration of virulence of stored cultures of Phytophthora infestans. 19827

Active resistance to apple scab. 19828

Erysiphe trifolii. 19829

Efficacy of transmission of fire blight resistance in Pyrus. 19835

A new technique allowing the study and comparison of the reactions of Nicotianae in the presence of Thielaviopsis basicola (B. and B.) Ferraris. 19854

Thielaviopsis basicola. 19857

A note on screening rice varieties for resistance to blast disease caused by Pyricularia oryzae Cav. 19859

Investigation of the protective effect of oils on virus transmission through plant aphids. 19884

Some nutritional and biological factors affecting reaction of soybean to Pseudomonas glycinea. (Abstract). 20511

Virus reactions and taxonomy. 20513

Florida 20, a fleck resistant variety of cigar-wrapped tobacco. 20524

A strain of Nicotiana exigua which by the cotyledones test proved to be especially resistant to Peronospora tabacina (downy mildew). 20541

Enhancement of tobacco rattle virus stable form infection by heterologous short particles. 20566

Inhibition of Xanthomonas vesicatoria in extracts from inoculated leaves of bacterial spot-resistant pepper. (Abstract). 20570

Verticillium wilt of tobacco. V. Varietal screening for resistance to Verticillium dahliae Kleb., and mode of inheritance of resistance. 20583

A defined method for the laboratory study of red stele of strawberries. (Abstract). 20584

Inheritance of reaction to leaf rust in vulgare wheat in the U.A.R. 21085

The adaptation of tomato mosaic virus to resistant tomato plants. 21113

Results of several years of experiments concerning resistance to loose smut in spring wheat and spring barley. 21117

Inheritance of crown rust resistance in Avena sterilis. (Abstract). 21120

Reactions of groundnut varieties to the groundnut viruses. 21132

Inheritance of resistance to black root-rot disease in tobacco. I. Analysis of the gene controlling the resistance. 21143

The incorporation of alien disease resistance in wheat by genetic interference with the regulation of meiotic chromosome synapsis. 21152

Evaluation of lettuce varieties and breeding lines for resistance to common lettuce mosaic. 21154

The need for international testing centers for crop pests and pathogens. 21806

The relation of growth regulators to the development of symptoms and expression of stem resistance in white pine infected with blister rust. 21831

Longevity of tomato plants in diseased fields as affected by breeding. (Abstract). 21853

Verticillium Wilt of tomatoes. Tests with resistant lines. 21857

Relative quantities of antifungal metabolites produced in resistant and susceptible soybean plants inoculated with Phytophthora megasperma var. sojae and closely related nonpathogenic fungi. 21858

Non-random segregation of gene I for Fusarium resistance in the tomato. 21873

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus. 21875

Susceptibility to tobacco mosaic virus in relation to RNA and protein synthesis in tobacco and bean plants. 21876

Respiratory patterns in Trifolium pratense inoculated and noninoculated with Erysiphe polygoni. 21881

Thermal stability of stem rust resistance in oat seedlings. 21889

Genetic study of the resistance of Coffea spp. to leaf rust I. Identification and behavior of four factors conditioning disease reaction in Coffea arabica to twelve physiologic races of Hemileia vastatrix. 21906

Systematic breeding programme to combine resistance to Phytophthora and the quality of the potato variety Bintje. 21915

Erratum: Reactions of lodgepole pine to attack by Dendroctonus ponderosae Hopkins and blue stain fungi. 21919

Penetrance of gene I for Fusarium resistance in the tomato. 21920

Can Taichung Native--I stand up to bacterial blight . 21933

Comparative susceptibility of large and small spruce roots to Polyporus tomentosus. 21950

Varietal resistance of winter barley to loose smut of barley (Ustilago nuda (Jens.) Rostr.). 22493

The evolution of resistance in hosts and pests. 22497

Determination of the inhibition activity in the sap from potato leaves with regard to the X-virus by means of a serological method. 22503

How plants protect themselves against fungus. 22516

Methods of soil fumigation. 23112

Resistance to Sclerotinia trifoliorum in red clover collected from north Africa. 23117

Correlation of photoperiod with tuberization and susceptibility of potato to Verticillium albo-atrum. 23118

Chenopodium amaranticolor nutrition affects cucumber mosaic virus infection. 23128

The effect of darkening on the susceptibility of French bean to tobacco necrosis virus. 23133

A new look at brown root rot of tomatoes. 23136

Breeding blight resistant pears for southwestern Ontario. 23137

Root rot tolerance in new alfalfa strains now available to plant breeders. 23139

The tubers, sapogenins, and virus resistance of Dioscorea species hybrids. 23141

The improvement of the potato with regard to the principal viruses responsible for its degeneration in Belgium. 23146

Delayed acquisition of virus infectivity. (Abstract). 23173

PLANT DISEASE TRANSMISSION

Mechanical transmission of coconut lethal yellowing. 13903

Alteration of feeding behavior and fertility in Aedes aegypti by the chemosterilant apholate. 14211

Leafhopper transmission of the oat blue dwarf virus extracted from oats or barley. (Abstract). 14336

Soil transmission of sugarcane mosaic virus in sorghum. (Abstract). 14345

Effect of insecticidal sprays on stunt and mosaic virus diseases of corn in small field plots in Mississippi. 14403

The mosaic disease of mullein, Verbascum thapsiforme Schrader, occuring in Czechoslovakia. 14405

Occurence of a mosaic disease on brinjal. 14418

Methods of mechanical transmission of bean yellow mosaic virus into white clover. 15002

Transmission of radish mosaic virus. 15024

Maintaining virus-free cultivars of peach in Michigan. 15026

Plant-to-plant transfer of stone fruit ringspot virus in squash by pollination. 15035

Effects of time and temperature on rate of graft transmission of the Prunus ringspot virus. 15054

Alfalfa mosaic virus transmitted through alfalfa seed. 15055

Evidence against seed transmission of green ring mottle virus in mazzard cherry seedlings. 15060

Additional evidence on soil transmission of tobacco ringspot virus. 15076

World status of the plant-protecting agent industry and research with special reference to Hungarian conditions. (JPRS 42,586) Transl. 16933. 21088

Some observations on the economic importance of sugar-beet downy mildew in England. 21106

Effect of wax and lanolin emulsions on the efficiency of potato-blight fungicides in laboratory tests. 21139

The incorporation of alien disease resistance in wheat by genetic interference with the regulation of meiotic chromosome synapsis. 21152

Sources of inoculum of the black spot fungus, Guignardia citricarpa, in infected Rhodesian citrus orchards. 21168

Effects of oil sprays for controlling pacific mite on grapevines. 21201

Disease control in putting turf; 1968. 21530

Studies on biology of Banmalika leaf minor (Agropistis limatus, Moth,Coleoptera,Halticidae.). A serious pest of Banmalike (Jasminum aquestifolium, Vohl.) in Rajasthan. 21706

Important plant protection problems in Bavarian agriculture. 21776

The importance of plant protection for the world harvest. 21785

Plant protection problems in the cultivation of forage plants in Bavaria. 21787

The Bavarian Department for Agriculture, Planting and Plant Protection, and its 'Group Plant Protection'. 21791

Breeding peaches for root-knot nematode resistance. 21800

The need for international testing centers for crop pests and pathogens. 21806

Free amino acids of sunflower hypocotyl tissue during crown gall tumor development. 21824

Tumor formation through deoxyribonucleic acid from Agrobacterium tumefaciens (Smith and Townsend) Conn. 21826

Toxicity of fermentation products accumulating in watercored 'Delicious' apples. (Abstract). 21833

Wrinkled skin disease of apples. 21842

Blossom end rot of the tomato. 21843

Growth regulators to control lettuce bolting. (Abstract). 21850

Histological studies of symptoms in semimature-tissue needle blight of eastern white pine. 21885

Pests of cultivated plants in Finland in 1967. 21888

Bacterial scab, Sclerotinia and Botrytis rots of Gladiolus corms. 21896

Distribution of loose smut of wheat (Ustilago tritici (Pers) in the year of 1965 in Turkey. 21910

Alterations in the peach trees (cv. red haven) attacked by Taphrina deformans with particular reference to the nitrogen metabolism in infected and non-infected leaves. 21916

New records of plant diseases in New South Wales. 21946

Some seasonal aspects of the growth of tumors on the white spruce, Picea glauca. 21949

The effect of scab resistance on fruit length in slicing cucumbers. (Abstract). 21955

Citrus diseases and pests. 22490

Fruit diseases in Illinois in 1967. 22509

Problems in plant pathology and entomology field trials. 22524

Insects and diseases of Siberian pea shrub (Caragana) in North Dakota, and their control. 22849

Yield losses due to pests and diseases in rice crop. 23089

The contribution of chemistry to agriculture. 23097

The effect of gibberellic acid on vegetable tumors. 23114

Evaluation of methods of the artificial infection of wheat Ustilago tritici (Pers.) Jens. 23122

Pests and diseases threatening our cherries. 23210

PLANT DISSEMINATION

Ejection and dissemination of ascospores of Hypoxylon pruinatum. 16578

On the dispersal of the bulbs of Oxalis cernua Thunb. by mole-rats (Spalax ehrenbergi Nehring). 18163

PLANT DWARFING

Parallelism between the variations in growth and tendril movement of peas, tied to genetic dwarfishness, gibberellic acid treatments and temperature changes. 20110

PLANT ECOLOGY

Prediction of plant disease occurrence; a pathogeographical approach. 14409

Competition in experimental populations of weeds with emphasis on the regulation of population size. 14477

On the biology of parasitic picnidial fungi in the foreststeppe district of the Central Tchernozjom zone of the USSR. 15868

Spectral distribution of light in forests of the Douglas fir zone of southern British Columbia. 16518

Rodent damage to fertilized Pacific silver fir in Western Washington. 16736

The biology and ecology of sicklepod (Cassia obtusifolia L.). 17252

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants. 17253

Anastomosis in Venturia inaequalis (Cke.) Wint. 17264

The formation of giant cells in tomato roots infected by the potato cyst nematode, Heterodera rostochiensis and the grey sterile fungus, G.S.F.. 17448

Population studies of plant-parasitic nematodes around sugarcane roots in Nyanza province, Kenya. 17450

Desert grassland mesquite and fire. 17919

Thread worms in the rhizosphere of the normal cotton and of that infected with the verticillous cotton wilt. 18149

Metabolism of amitrole (3-amino-1,2,4-triazole) in relation to the differential susceptibility of Cirsium arvense (L.) scop. ecotypes. 18474

The nature, ecology, and control of Canada thistle. 19120

Studies on collar and branch canker of young tea (Phomopsis theae Petch). II--INFLUENCE of soil moisture on the disease. 19856

Periconia macrospinosa. 20529

On cyst colour changes, bionomics and distribution of potato cyst-eelworm (Heterodera rostochiensis Woll.) pathotypes in the East Midlands. 21071

Leaf blade folding and motor cells of some blue grasses. 21075

Australian sedge in New Zealand. 22020

Pesticides and modern plant production. 22499

Studies of the germination, growth and development of barnyardgrass. 22565

Weed control in young peach orchards. 22601

PLANT EMBRYOS

The incorporation of tritiated thymidine in the cytoplasm before the incorporation of the cell nucleus during the germination in Zea mays. 17710

PLANT ENZYMES

Pectolytic enzyme production by Phymatotrichum omnivorum. (Abstract). 18427

PLANT EXTRACTS

Feeding of horseflies (Diptera: Tabanidae) on plant juices. 13845

Paper chromatographic analysis as a new test method of bactericidal substances in plant extracts and possible relations of these substances to plant growth inhibitors. 14009

Formation of gossypol in infected or chemically irritated tissues of Gossypium species. 14341

Paper chromatographic analysis by a new test method of bactericidal substances in plant extracts and possible relations of these substances to plant growth inhibitors. 14784

Separation of aflatoxin on selectively deactivated silicic acid. 14787

Predisposition to Thielaviopsis root rot by phytotoxins obtained from decomposing plant residues. (Abstract). 15898

Macerating action of extracts of Rhizopus-rotted sweetpotatoes as affected by ions. (Abstract). 15951

Survival and development of several grasshopper species on extracts of selected plant species. 16465

Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus. 16607

Fall armyworm resistance in pearl millet. 17390

Constituents of the cotton bud. XI. Studies of a feedingstimulant complex from flower petals for the boll weevil. 17403

Assays of natural populations of certain plant-parasite nematodes as influenced by storage conditions and extraction procedures. (Abstract). 17414

Inhibitors from carob (Ceratonia siliqua L.) I. nature of the interaction with gibberellic acid on shoot growth. 17677

Effect of seed extract of Trifolium subterraneum on germination and seedling growth rate. 17920

A bioassay technique for screening feeding stimulants for larvae of tobacco budworm. 18096

Resistance in bermudagrass to the fall armyworm. 18104

Constituents of the cotton bud. XIII. Further studies on a nonpolar feeding stimulant for the boll weevil. 18124

The effect of species of Allium on soil bacteria in relation to germination of sclerotia of Sclerotium cepivorum Berk. 18434

Disc electrophoresis of sonic extracts of five phytopathogenic bacteria. (Abstract). 18444

Auxin-induced elimination of a protein in bean hypocotyl. 18470

Phenolase activity in tomato fruit in relation to growth and to various ripening disorders. 18844

Detection of free viral nucleic acid in the potato virus X infected tobacco, by gel electrophoresis. 18882

Inhibition of growth of Verticillium albo-atrum sporelings by tannins and polyphenols from infected crowns of Verticillium-resistant and -susceptible strawberry cultivars. 18897

Aggregated filaments in extracts from Lupinus infected with watermelon mosaic virus. 18913

Pyrethrum in peonies. 20500

RNA synthesis in cell-free extracts of barley leaves in fected with bromegrass mosaic virus. 20564

Inhibition of Xanthomonas vesicatoria in extracts from inoculated leaves of bacterial spot-resistant pepper. (Abstract). 20570

Procedures for extracting residues of phosphorus insecticides and metabolites from field-treated crops. 20852

Fatty acid composition of extract from pyrethrum flowers (Chrysanthemum cinerariaefolium). 20897

Identification of phytotoxins obtained from plant residues decomposing in soil. (Abstract). 20916

Selective nitrogen assimilation by Poria weirii. 21189

Breeding insects with artificial food. 21661

Difference in phenolic extracts from healthy Douglas-fir roots and those infected with Poria weirii. 21822

Production of pectic and cellulolytic enzymes by Phytophthora infestans de By. II. Infection of potato tubers. 21860

Growth responses of some common peanut mycoflora to various extracts from peanut seed. (Abstract). 22207

A feeding stimulant for pink bollworm larvae in water extracts of cotton. 22434

Plant insecticides. 22809

Extraction, standardization and assessment of the volatility of the sex attractants of Heterodera rostochiensis Woll. and H. schachtii Schm. 23216

PLANT GALLS

The relation of growth regulators to the development of symptoms and the expression of stem resistance in white pine infected with blister rust. 14346

Physiological basis of gall formation in blackknot disease of Prunus. 15066

Albino Peridermium harknessii in ponderosa pine. 15153

Studies on the salivary physiology of plant-bugs: Experimental induction of galls. 16433

Seasonal development and emergence of two species of gall-forming aphids, Pemphigus bursarius and P. nortoni, associated with poplar trees in California. 17297

Occurrence of Heterodera glycines from the Golden Island, Giza, U. A. R. 17421

The influence of systemic plant growth substances on the galls induced by the root knot nematode Meloidogyne javanica. 17443

Effect of temperature and variety on nematode development and gall production on soybeans infected with Meloidogyne incognita acrita. (Abstract). 18131

Biologic specialization in Calonectria (Fusarium) rigidiuscula in relation to green point gall of cocoa. 18827

Distance of needle infection from stem affects likelihood of gall development on slash pine by Cronartium fusiforme. 18910

On the knowledge of the gall wasp tribe Aulacini (Hymenoptera, Cynipidae). 19521

Acuticauda erigerontis n. sp. a gall former on Erigeron (Hom. Aphididae). 19654

Some observations on the gall midges Dasyneura epilobii (F. Low) (Diptera: Itonididae) and its gall. 19683

Histogenesis of callus from stem gall of Salvadora persica L. induced by Thomasiniana salvadorae Rao in tissue culture. 19883

Phenological observations for the benefit of gall midge investigations. 19891

Some plant galls from India. 20546

Four-layered membrane in the plastids of galls of Cuscuta australis. 20611

Innoculation of the cecidomyiidae shell of Oligotrophus reaumurianus on the linden leaf. 20618

Contribution on plantgalls by Oestridae. 20620

Plum curculio--Nonfruit hosts and survival (Coleoptera: Curculionidae). 20624

Some seasonal aspects of the growth of tumors on the white spruce, Picea glauca. 21949

PLANT GENETICS

Genetics of resistance to cotton-leaf curl in Sakel cotton (Gossypium barbadense). 13906

Inheritance of mature plant resistance to rust in corn. (Abstract). 14383

Thermal stability of stem rust resistance in oat seedlings. 14394

Inheritance of reactions in safflower to lettuce mosaic virus. 15892

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 15911

Pseudo-allelism at the locus Rp1 for resistance to rust in maize. (Abstract). 15937

Effect of genes for resistance in wheat upon the development of Erysiphe graminis f. sp. tritici. (Abstract). 15949

The relationship of mating capacities and sterol synthesis among isolates of Cochliobolus carbonum. (Abstract). 16217

A genetic study of leaf rust resistance in wheat. 16623

Observations on the nature of inheritance of resistance of lucerne to Verticillium Albo-Atrum. 16652

Resistance to Puccinia graminis derived from Secale cereale incorporated into Triticum aestivum. 16683

Two genetic systems control disease reaction to strains A and B of maize dwarf mosaic virus. (Abstract). 16695

Somatic aberrations in Solanum tuberosum induced by ethyl methane sulfonate and X-irradiation. 16936

Diploidization of induced tetraploid hybrids of Dactylis glomerata by means of X-ray irradiation. 17254

Spermiogenesis in Laccifer lacca (Kerr) (LacciferidaeCoccoidea). 17255

Anastomosis in Venturia inaequalis (Cke.) Wint. 17264

Effect of genetic recombination on the pathogenicity of Phytophthora infestans. 17273

Diallel analyses of the inheritance of resistance in cotton, Gossypium hirsutum L: to races of Xanthomonas malvacearum (E.F.SM.) Dowson. 17290

Isolation of polyribosome from tobacco plants infected with tobacco mosaic virus. 17308

The inheritance of resistance to stem rust races 56 and 15B-1L (Can.) in the wheat varieties Hope and H-44. 17311

Mass selection for resistance to Selenophoma bromigena in northern and southern types of Bromus inermis. 17340

Evidence for multiplicity reactivation of ultraviolet light irradiated ribonucleic acid isolated from tobacco mosaic virus. 17347

Inheritance of resistance to Heterodera avenae in barley. 17411

Infectious inheritance of pathogenicity in Aspergillus. (Abstract). 17566

The incorporation of tritiated thymidine in the cytoplasm before the incorporation of the cell nucleus during the germination in Zea mays. 17710

Mitotic recombination in conidiophores of verticillium alboatrum. 17922

Genetics of reaction to Puccinia sorghi Schw. in ten corn inbred lines obtained from Africa and Europe. 17937

Phytoalexin production in corn resistant to Helminthosporium turcicum. 18020

A second gene for resistance to Puccinia graminis f sp tritici in the Red Egyptian 2D wheat substitution line. 18024

Genetics of reaction to Puccinia sorghi in ten corn inbred lines from Africa and Europe. 18076

Lack of cytoplasmic inheritance of alfalfa resistance to the spotted alfalfa aphid. 18099

Chromosomal alternations in pearl millet induced by gammarays. 18465

Effect of gibberellic acid on genetically controlled tumour formation and vascularization in tomato. 18717

Differentiation in Phytophthora infestans. I. A comparative study of eight different biotypes. 18820

Testing of fungicides for the control of downy mildew and screening of corn varieties, hybrids, and inbred lines for downy mildew resistance. Final technical report. SB608.M2E9. 18826

Lima beans resistant to downy mildew (Phytophtora phaseoli). (Abstract). 18984

Effect of DDT on photosynthesis in certain varieties of barley. 19281

Sources of resistance in cotton to different phases of bacterial blight disease prevalent at Hambantota. 19801

Complementary temperature-labile genes for growth inhibition and dwarfing in flax. 19846

A new technique allowing the study and comparison of the reactions of Nicotianae in the presence of Thielaviopsis basicola (B. and B.) Ferraris. 19854

Chromosomal aberrations induced by pesticides in meiotic cells of barley. 19862

Cytological effects of pesticides. II. Meiotic effects of some phenols. 19926

Parallelism between the variations in growth and tendril movement of peas, tied to genetic dwarfishness, gibberellic acid treatments and temperature changes. 20110

Mutation in Thanatephorus cucumeris. 20531

Verticillium wilt of tobacco. V. Varietal screening for resistance to Verticillium dahliae Kleb., and mode of inheritance of resistance. 20583

The adaptation of tomato mosaic virus to resistant tomato plants. 21113

Inheritance of resistance to black root-rot disease in tobacco. I. Analysis of the gene controlling the resistance. 21143

The incorporation of alien disease resistance in wheat by genetic interference with the regulation of meiotic chromosome synapsis. 21152

Resistance in maize to a third East African race of Puccinia polysora Underw. 21161

Spontaneous variability of single isolates of Phytophthora infestans. I. Cultural variation.
21772

Heritable repression due to paramutation in maize.
22036

The tubers, sapogenins, and virus resistance of Dioscorea species hybrids.
23141

PLANT GEOGRAPHY

Prediction of plant disease occurrence; a pathogeographical approach.
14409

A morphological and biological concept of the species Ceratocystis fimbriata.
16530

Pseudomonas rubrisubalbicans.
19807

Pseudomonas tabaci.
19808

Erwinia stewartii.
19809

Pseudomonas rubrilineans.
19810

Viruses and virus diseases of the grapevine.
19825

Erysiphe trifolii.
19829

Erysiphe graminis.
19830

Erysiphe betae.
19831

Podosphaera leucotricha.
19832

Erysiphe cichoracearum.
19833

Ceratocystis paradoxa.
19839

Podosphaera tridactyla.
19840

Puccinia horiana.
19847

Puccinia chrysanthemi.
19848

Uromyces dianthi.
19849

Uromyces decoratus.
19850

Uromyces ciceris-arietini.
19851

Thielaviopsis basicola.
19857

Alternaria brassicae.
20525

Alternaria chrysanthemi.
20526

Alternaria brassicicola.
20527

Periconia circinata.
20528

Periconia macrospinosa.
20529

Weeds worth watching... The soursobs .
22611

PLANT GRAFTING

Transmission of apple mosaic and stem-pitting viruses through root grafts.
15126

Intergrafting, preventive measures against the 'collar rot' on apples.
16528

Successful tissue transplantation of auxin-dependent tumours and some of its problems.
17935

Carbohydrate distribution in grafted potato plants representing two types of resistance to virus X.
17948

Effects of high temperature on graft transmission of the prunus ringspot virus.
18828

The effects of methyl bromide fumigation and grafting on yield and root diseases of tomatoes.
18966

Green rosette virus of groundnuts in South africa.
20539

A new look at brown root rot of tomatoes.
23136

PLANT GROWTH INHIBITORS

Effects of chemosterilants and growth regulators on the pea aphid fed an artificial diet.
13769

Modes of action of 3-amino-1,2,4-triazole: current status. in: Isotopes in weed research; proceedings of a symposium, vienna, 25-29 October 1965 S589.S9.
14470

Method of controlling plant growth. Patent 3,375,096.
14773

A modified bean root iniation test for auxins and inhibitors.
14780

Paper chromatographic analysis by a new test method of bactericidal substances in plant extracts and possible relations of these substances to plant growth inhibitors.
14784

Factors in the production and stimulation of some antibiotics of fungal origin inhibiting the growth of pathogenic fungi.
15140

Herbicidal control of tall larkspur.
15282

Inhibition of plant growth by halogenated benzoic acids.
15628

Leaf characteristics of Eucalyptus bicostata Maiden et al seedlings affecting the deposition and germination of spores of Phaeoseptoria eucalypti (Hansf.) Walker.
15879

Derivatives of ( )-limonene. Effect of chain length in n-alkyl quaternary ammonium derivatives on plant growth-retardant activity.
16250

Uptake and metabolism of indoleacetic acid, naphaleneacetic acid, and 2,4-dichlorophenoxyacetic acid by pea root segments in relation to growth inhibition during and after auxin application.
16511

Spectral distribution of light in forests of the Douglas fir zone of southern British Columbia.
16518

Effect of boron on ribonucleic acid and indoleacetic acid metabolism in the apical meristems of sunflower plants.
16520

The utilization of L-asparagine by two species of Phytophthora.
16521

Method of inhibiting plant growth. Patent 3,390,978.
16522

Response of zigzag clover genotypes to management practices.
16529

Stimulation by 2,4-D and 2,4-D plus Fe EDTA of 32P uptake by bean seedlings (Phaseolus vulgaris).
16573

Competitive inhibition by foreign nucleic acid and induced interference by yeast-RNA with the infection of tobacco mosaic virus.
16581

C02 assimilation and yield of Little Club wheat infected by Septoria nodorum.
16670

Monofluorophenyl-4'-nitrophenylether derivatives as herbicides. Patent 3,401,031.
16728

Herbicidal composition and method comprising 1-(tetrahydrodicyclopentadienyl)-3,3-dimethyl urea and a salt of methyl arsonic acid. Patent 3,403,017.
16731

The effect of chloramphenicol on soybean callus tissue.
16917

Value of a plant growth retardant for isolating soil fungi.
16920

Inhibitors from carob (Ceratonia siliqua L.) I. nature of the interaction with gibberellic acid on shoot growth.
17677

Phenylacetic acid, a metabolite of Xanthomonas oryzae (Uyeda et Ishiyama) Dowson in culture affecting upon the depressive growth of young roots of rice seedlings.
17683

On the multiplication of Dunaliella bioculata in the prescence of the gaseous phase of cigarette smoke and on obtaining mutations in the presence of acrolein.
17694

Effect of seed extract of Trifolium subterraneum on germination and seedling growth rate.
17920

The influence of plant-growth substances and their inhibitors on the host-parasite relationships of Aphelenchoides ritzemabosi in culture.
18155

Manganese toxicity in celery.
18413

Auxin effects on the activity of pectintranseliminase in vitro.
18430

Effects of malic acid salts on growth of young cotton embryos in vitro.
18743

The effects of various vitamins on growth of Botryosphaeria ribis in vitro. (Abstract).
19268

Some physical and chemical properties of an endogenous germination inhibitor from uredospores of wheat stem rust. (Abstract).
19272

Chymotrypsin inhibitor I from potatoes: a transient protein component in leaves of young potatoe plants.
19299

A plant growth inhibitor from tobacco and its possible involvement in pathogenesis. (Abstract).
19304

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on certain agronomic traits of barley.
19799

The problem of isolation of the X virus inhibitor from potato leaf sap.
19802

Active resistance to apple scab.
19828

Complementary temperature-labile genes for growth inhibition and dwarfing in flax.
19846

Interaction of abscisin-II with some growth regulating substances.
20109

Parallelism between the variations in growth and tendril movement of peas, tied to genetic dwarfishness, gibberellic acid treatments and temperature changes.
20110

Growth inhibition of Mycoplasma by inhibitors of polyterpene biosynthesis and its reversal by cholesterol.
20119

Studies on the phenylphenol derivaties with biological activity. II. The herbicidal activity of chloro-substitud phenylphenols.
20495

The inability of gibberellic acid to stimulate amylase activity in pea cotyledons.
20914

Effects of cycocel and B-nine on cold hardiness of wheat plants. 20915

Growth and antholyanin synthesis in excised Sorghum internodes. I. Effects of growth regulating substances. 20918

Gibberellic acid and the light inhibition of stem elongation. 20919

Vapour action of fungicides against powdery mildews. 21098

Observations on the vapour phase activity of some foliage fungicides. 21129

Isolation and some physiological properties of natural plant growth inhibitors. 22825

Herbicide residues in California agricultural soils. 23098

Employment of maleic hydrazide in the storage of onion bulbs. 23377

Species interactions of growth inhibitors in native plants of Northern Arizona. 23422

PLANT HARDINESS

The effect of storage molds on germination and vigor of canning peas. 15025

Felted grass coccid on Rhodes grass in Queensland. 16703

Tolerance of some imported conifer seeds to fumigation with carbon tetrachloride. 16932

The association of free amino acids of cotton leaves with resistance to xanthomonas malvacearum caused by the B4 gene and the influence of nitrogen and potassium nutrition. 17314

Fall armyworm resistance in pearl millet. 17390

Establishment of a nursery for evaluation of resistance of strains of wheat to the wheat stem sawfly. 17398

Tolerance to barley yellow dwarf in winter oats. 18050

Residues of diazinon in carrots after treatment against cyclodiene-resistant carrot rust fly. 18093

Lack of cytoplasmic inheritance of alfalfa resistance to the spotted alfalfa aphid. 18099

Resistance in bermudagrass to the fall armyworm. 18104

Resistance of southern peas to the cowpea curculio. 18125

Control of endo- and ecto-parasitic nematodes in turf by hot-water treatments. 18139

Insecticide residues in pest control. 18401

Survival and growth of Fomes annosus at high concentrations of borax. (Abstract). 18450

Metabolism of amitrole (3-amino-1,2,4-triazole) in relation to the differential susceptibility of Cirsium arvense (L.) scop. ecotypes. 18474

Changes in the structure of different varieties of wheat culm in different localities after treatment with CCC. 18749

The pickleworm; its control on cucurbits in Alabama. 19009

Possible new approach to the chemical control of plant feeding insects. 19017

Can herbicides be used safely every year . 19277

Effect of DDT on photosynthesis in certain varieties of barley. 19281

Development of young pear trees with different rootstocks in relation to psylla infestation, pear decline, and leaf curl. 20536

Effect of water activity on the heat resistance of Salmonella in dry materials. 21542

Root rot tolerance in new alfalfa strains now available to plant breeders. 23139

PLANT HISTOLOGY

A canker condition in peach (Prunus persica (L.) Batsch) induced by chilling and its relationship to bacterial canker (Pseudomonas syringae van Hall). 17286

Histogenesis of callus from stem gall of Salvadora persica L. induced by Thomasiniana salvadorae Rao in tissue culture. 19883

The action of gibberellins on the fruiting of grapes. 20115

Four-layered membrane in the plastids of galls of Cuscuta australis. 20611

The Erysiphe cichoracearum conidium. (Abstract). 23145

PLANT HORMONES

Uptake and metabolism of indoleacetic acid, naphaleneacetic acid, and 2,4-dichlorophenoxyacetic acid by pea root segments in relation to growth inhibition during and after auxin application. 16511

The effect of chloramphenicol on soybean callus tissue. 16917

Certain effects of benzimidazole on young tobacco plants. 17256

The transport of auxin. 17259

Formation of growth inhibitors in wilting apricot leaves. 17270

Synthesis and physiological activity of several 1-substituted indole-3-acetic acids and esters. 17687

Evidence for indolyl-3-acetaldehyde in tryptophane metabolism of Rhizobium. 17702

Physiological abnormalities in growth, hormone behavior, and chemical transport in aster yellows infected plants. 17707

Experiments and considerations on the anomolies of tomatoes of the super marmande type in hot houses, connections with the use of some plant hormones. 17933

Successful tissue transplantation of auxin-dependent tumours and some of its problems. 17935

Auxin and crown gall tumor initiation. (Abstract). 18023

A study on auxin and chlorogenic acid in leaf-roll resistant and susceptible potato varieties. 18032

Alterations in the auxin levels of resistant and susceptible hosts induced by the curly top virus. 18066

Interaction of growth regulators in the senescence of nasturtium leaf disks. 18426

Auxin effects on the activity of pectin-transeliminase in vitro. 18430

The effect of hormonal herbicides on the radical buds of Cirsium arvense scop. 18480

Plant hormones-V. Thin-layer and gas-liquid chromatography of the gibberellins; direct indentification of the gibberellins in a crude plant extract by gas-liquid chromatography. 18485

Sterol-like compounds with auxin activity in human urine. 18757

Auxin transport in curly top virus-infected tomato. (Abstract). 18952

Inhibition of gibberellic acid-induced germination by abscisic acid and reversal by cytokinins. 20114

Occurence of 20-hydroxy-ecdysone in Vitex megapotamica. 20118

Effects of kinetin, IAA, and gibberellin on ethylene production, and their interactions in growth of seedlings. 20893

Isolation of the methyl ester of chloro-3-indolylacetic acid from the immature seeds of the pea, Pisum sativum L. 20894

Effect of B-indolylacetic acid on the growth and the auxin catabolism of Lactobacillus bulgaricus. 21086

Production of auxin by detached leaves. 21091

Synthesis of a plant hormone by the salivary apparatus of plant-sucking Hemiptera. 21192

Translocation of tritium-labelled gibberellic acid in pea stem segments and potato tuber cylinders. 21527

The leaching of auxin from air layers. 21771

Auxin (plant hormones) production in plants. 21801

Effect of cytokinins on apple shoot development from axillary buds. 21953

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on the uptake and metabolism of 14C-glucose and on the incorporation of 14C-labelled amino acids into protein in pea root tips. 22216

Effect of sucrose, auxins and gibberellic acid on rooting of stem segemnts of Populus nigra under varying light conditions. 22818

The effect of some growth regulators on starch depletion in apple shoots. 23426

PLANT INJURIES

Distribution of plum curculio injury in a sour cherry orchard and sampling procedures for determining the extent of injury. 13928

Factors in paraquat-induced chlorosis with Phaseolus foliar tissues. 14005

Interaction effects of atrazine and CDAA, linuron, amiben, or trifluralin on soybean growth. 14006

Soil treatments with broadcast or band applications of organophosphorous or carbamate insecticides for prevention of wireworm damage to potatoes. 15227

Grasshopper damage on short-grass rangeland of the San Carlos Apache Indian Reservation, Arizona. 15247

Characterization of the plant damage problem by air pollutants in New Jersey. 15538

PLANT INJURIES

Sweetgum lesion caused by Botryosphaeria ribis. 15960

Cyanide as a poison in opossum control. 16194

A comparison of the effects of ozone and sulfhydryl reagents on plants. (Abstract). 16233

Phytotoxicity of NaCl and CaCl2 to Norway maples. (Abstract). 16235

Injury to sugar beet leaves through growth inhibiting herbicides. 16515

Radiation-induced damage in vegetative tissues of Pinus rigida Mill. 16526

Relative sensitivity of twenty-two tree species to ozone. (abstract). 16565

The effect of substituted decenyl succinic acid (DSA), amides, esters, and 1,5-difluoro-2,4-dinitrobenzene (DFDNB) on preventing blossom freezing injury. (Abstract). 16597

Factors affecting acute injury of Pinus strobus by ozone. (Abstract). 16674

The loss of yield in a crop of sweet corn (Zea mays L.) following the complete destruction of some plants at an early stage by brown rats (Rattus norvegicus Berk.). 16737

Ozone damage and semimature-tissue needle blight of eastern white pine. 16925

Tolerance of some imported conifer seeds to fumigation with carbon tetrachloride. 16932

Chrysomelid beetles from the Papuan subregion, 4 (Eumolpinae, 2). 17022

Variations in growth of planthoppers and leafhoppers amoung varieties of Japanese and foreign rice plants. Transl. 16904. 17131

Studies on the observation of the rice stem borer about the relation between the weight and the growth of overwintering larvae. (report 1). Transl. 16792. 17143

Analysis of the injury of brown planthopper on the rice plant. Transl. 16905. 17146

Effects of several insecticides on black rice bug. Transl. 16917. 17173

Present status of biological control of the pear psylla in southern Oregon. 17218

Metabolic changes in oxygen-deficient tomato roots. 17261

On the use of low toxic herbicides in paddy field. Transl. 16690. 17262

The susceptibility of nematodes to subfreezing temperatures. (Abstract). 15999

Effect of an Aphelenchoides species on the growth of a mycorrhizal and a pseudomycorrhizal fungus. 16000

A cyst nematode from birch in Arkansas. (Abstract). 16001

Effects of temperature on the fecundity and hatch of the soil flatworm reared on free-living and plant-parasitic nematodes. (Abstract). 16002

Pseudhalenchus indicus, a new nematode species from India (Tylenchinae: Nematoda). 16003

Phosphate and carbamate inhibition of three nematode esterases. (Abstract). 16004

Electron microscopical studies on Ditylenchus dipsaci (Kuhn). Stomatal region. 16484

Activity of soil fumigants in relation to increased growth response and control of decline and bacterial canker in trees of Prunus persica. (Abstract). 16566

Effects of N, P, K, and inoculum density of Verticillium dahliae on populations of Pratylenchus penetrans in roots of American elm and sugar maple. (Abstract). 16570

Effect of temperature on the development of Meloidogyne incognita in sweetpotato. (Abstract). 16604

Interactions between Verticillium albo-atrum and Pratylenchus penetrans in the Verticillium wilt of potatoes. (Abstract). 16642

Investigations of cherry rasp leaf disease in California. 16693

Aphelenchoides echinocaudatus sp. n. (Nematoda, Aphelenchoididae). 16719

First record of the occurrence of Heterodera rostochiensis in Panama. 16722

Control of nematodes in horticultural crops in Great Britain. 17260

Clumping of the plant parasitic nematode Ditylenchus dipsaci in water. 17423

Population studies of plant-parasitic nematodes around sugarcane roots in Nyanza province, Kenya. 17450

The influence of crop-rotation on the attack of carrots by Meldidogyne hapla Chitw. and symptom formation. 18068

Effects of nematode extraction method, soil mixture, and nematode numbers on the transmission of tobacco ringspot virus by Xiphinema americanum. 18070

The increased attack of Ditylenchus dipsaci on onion caused by some fungicides. 18132

The yield of potatoes resistant to Heterodera rostochiensis on infested land. 18140

Electron microscope studies of some cephalic structures of Xiphinema americanum. 18142

The host-parasite relations and ecology of Trichodorus viruliferus on apple roots, as observed from an underground laboratory. 18145

The effect of amino acid antimetabolites on four nematode species and their host plants. 18146

The relationships between population increase and population density in plant parasitic nematodes. 18148

Parasitism of Tylenchus emarginatus on conifer seedling roots and some observations on the biology of the nematode. 18150

Evaluation of some taxonomic indices in the potato rot nematode Ditylenchus destructor Thorne, 1945. 18151

Gamma irradiation of Heterodera schachtii. 18152

Plant-parasitic nematodes in grape and raspberry soils of Ontario and a comparison of extraction techniques. 18153

The effect of environment on sex determination in Heterodera rostochiensis. 18154

The influence of plant-growth substances and their inhibitors on the host-parasite relationships of Aphelenchoides ritzemabosi in culture. 18155

Investigations on the influence of crop rotation on the population density of free-living nematodes in connection with the corky ringspot disease of potatoes. I. Population density of the nematodes. 18917

On the isolation of the endoparasitic root-nematode. 18992

Sterol composition of the nematodes Ditylenchus triformis and Ditylenchus dipsaci, and host tissues. 19098

The pathogenicity of Ditylenchus dipsaci to alfalfa and the relationship of temperature to plant infection and susceptibility. 19102

Longidorus reneyii sp. nov. (Nematoda: Longidoridae) from. 19109

Biology of the pseudo root knot nematode Hypsoperine ottersoni. 19112

Meloidogyne coffeicola destructive and insidious nematode of the coffee tree. 19869

Red ring disease of the coconut palm, inoculation studies and histopathology. 19918

Sterol composition of the nematodes Ditylenchus triformis and Ditylenchus dipsaci, and host tissues. 19919

Pathogenicity and development of root-knot nematodes on ampalaya. 19921

Activity of dehydrogenases in tomato root-knots infected with the root-knot nematode. 19922

A nematicidal trial against root knot disease of tomato. 19924

Second-year potato culture. 20625

Parasitological studies in the province of Granada. Soil nematodes parasitic on plants. Parasite population of Granada, their quantitative geographic distribution and possible or known economic importance. 20626

Economically important nematodes in Ontario. 20627

New records of plant diseases in New South Wales. 21946

Efficacy of Vorlex on mites and nematodes on gladiolus corm debris in sandy soils of Florida. (Abstract). 22004

Red ring (Radinaphelenchus cocophilus) of the coconut tree in the zone of Tumaco (Narino). 22006

Citrus diseases and pests. 22490

South American origin of European pathotypes of the potato-root eelworm, Heterodera rostochiensis Wollenweber . 22545

Electrophoretic observations on the protein composition of free-living and plant-parasitic nematodes, with a special reference to some components showing a digestive activity. 22547

The effects of Aphelenchoides saprophilus, A. coffeae, Aphelenchus avenae and Panagrolaimus sp. on the cropping of cultivated mushroom. 22549

Pototo cultivation and the root-lesion nematode of tea. 22551

A revision of the genus Rotylenchulus Linford and Oliveira, 1944 (Nematoda: Tylenchidae). 23215

The feasibility of using plant pathogenic nematodes produced in monoxenic culture for nematocide screening. (Abstract). 23218

Revision of the genus Radopholus Thorne, 1949 (Nematoda: Tylenchoidea). 23221

Five new species of Belondiroidea (Nematoda) from Sibsagar, India, with a revised classification of the superfamily. 23222

Relationship between sample size and emergence of Pratylenchus from roots. (Abstract). 23223

Nitrogen nutrition of some nematode-trapping fungi. 23431

PLANT NUTRITION

Effect of nutritional factors on mycelial growth and sporulation of Canadian isolates of Ascochyta imperfecta Peck. 14778

Influence of nutrition, PH, soil temperature, and soil moisture on Phythium blight of highland bentgrass. 15139

Tree nutrition and fire blight development. 15151

Carbon and nitrogen nutrition in relation to sexual reproduction in species of Phytophthora. (Abstract). 15896

Soil fungistasis: Relation to fungal spore nutrition. 16210

Mineral nutrition of cacao (Theobroma cacao L.). Comparison of plant growth and nutrient content of leaves of six C.R.I. varieties grown in optimum and deficient conditions in sand culture. 16524

Humus acids as a nutrition source for some white-rot fungi. 16685

The effect of differential nitrogen and calcium nutrition and B-Nine (N-dimethyl amino succinamic acid) application on foliar analysis and flowering quality of Red Wing azaleas. 16926

Microorganisms and the inorganic nutrition of higher plants. 17248

Metabolic changes in oxygen-deficient tomato roots. 17261

Annual review of plant physiology. 17265

The association of free amino acids of cotton leaves with resistance to xanthomonas malvacearum caused by the B4 gene and the influence of nitrogen and potassium nutrition. 17314

Iron compounds and plant nutrition. 17328

Nutritional requirements of a tomato tissue culture: Growth promoting factors from peas. 18478

Method for regulating plant growth. Patent 3,376,125. 18744

Effect of root temperature on hypocotyls of cotton seedlings as a source of nutrition for Rhizoctonia solani. 19278

Investigations on the wilt disease of guava (Psidium guajava L.) in West Bengal. II. 19813

Production of exocellular polysaccharides by Alternaria solani. 20499

Some nutritional and biological factors affecting reaction of soybean to Pseudomonas glycinea. (Abstract). 20511

Mutation in Thanatephorus cucumeris. 20531

Chenopodium amaranticolor nutrition affects cucumber mosaic virus infection. 23128

Nitrogen nutrition of some nematode-trapping fungi. 23431

PLANT NUTRITIONAL DEFICIENCIES

Studies on potassium nutrition of plants. II. Some effects of potassium deficiency on the organic acids of leaves. 14369

Stomatal conductivities in K-deficient leaves of maize (Zea mays, L.). 17268

Iron compounds and plant nutrition. 17328

Biochemical relationships in chlorotic leaves of macadamia (Macadamia tetraphylla L. Johnson) under conditions of iron and manganese deficiency. 17688

Relation of boron to cherry rosette disease in Oregon, and the possible implication of a virus. 17954

The effect of decomposing organic matter on zinc level in soil and plants. 18061

Northern pin oak. Chlorosis, iron deficiency. 18754

Factors affecting the copper content of oats grown in peat. 18800

Viral lesion formation on chlorophyll deficient leaf area. 18993

Determining minor elements. 19823

The use of a biochemical indicator for diagnosing micronotrient deficiencies of grapefruit trees under field conditions. 20514

Banana diseases in the Pacific area. 20520

Greenhouse assays diagnose sugar beet problems in delta soils., 21061

Differences in sensitivity to boron deficiency found in varieties of root celery. 21136

Anomalous growth response of bean plants in iron-deficient media to cyanide. 21532

The inheritance and nature of Albinism, involucre shape, and chlorophyll deficiency in lettuce. (Abstract). 21923

Micronutrient effects on the in vitro growth and pathogenicity of Fusarium oxysporum f. sp. lycopersici. 21956

Citrus diseases and pests. 22490

PLANT PEST CONTROL

Acaricidal agents. Patent 3,378,437. 14151

The protection of plant collections from pests. 3. 14426

The common slug, a plant protection problem on hard soils. 14490

La lutte chimique contre les insects nuisibles. (chemical control of insect pests). ed. 3. 14906

PPC (Plant Pest Control) Manual. 15584

Resolute research to defeat grassgrub. 15996

The present and the future of plant protection. 16531

The possibilities of development of chemical methods for the plant pest control. 16702

Insect pests of farm, garden, and orchard. 16705

The loss of yield in a crop of sweet corn (Zea mays L.) following the complete destruction of some plants at an early stage by brown rats (Rattus norvegicus Berk.). 16737

Proceedings International Symposium on Plant Diseases and Pests in a Developing Europe. 17247

Research into the occurence of ergot, Claviceps purpurea (Fr.) Tul., on the meadow panicle Poa pratensis L. 17293

Toxicity of Petkolin against cotton aphids (Hemiptera: Aphididae). 17370

Phytopathological consequences of changing agricutural methods. II. Cereals. 17426

Peculiarities of development and harmful activity of the Hessian fly (Mayetiola destructor Say.) under conditions of irrigation. 18119

Effect of variety and fumigation on nematode populations in oats, wheat, and rye. 18147

Fumigation of shallot seed with methyl bromide to control stem eelworm, Ditylenchus dipsaci. 19119

Investigation of the protective effect of oils on virus transmission through plant aphids. 19884

Attempt to control the aduncous mite -- Tetranychus aduncus Flechtm. and Baker, 1967 (Acarina:Tetranychidae) new pest of the peach tree. 19893

Systemic phosphorous insecticides. A new method to study the uptake and translocation in plants. 19911

Control of bird damage in tomatoes in Barbados. 19938

The effect on the two-spotted spider mite, Tetranychus urticae, of dicofol concentration and deposit distribution on the leaf surface. 20341

Plant pest information. Pests of crops. 20551

Second-year potato culture. 20625

Food-chain toxicity of systemic acaricides to predaceous mites. 21475

Efficacy of Vorlex on mites and nematodes on gladiolus corm debris in sandy soils of Florida. (Abstract). 22004

Late-season feeding and emergence of the tobacco flea beetle. 22386

Biological control of insects and weeds. 22489

Citrus diseases and pests. 22490

Pesticides and modern plant production. 22499

Aerial pest control. 22536

Grassgrub problem awaits solution. 23199

PLANT PEST RESISTANCE

Method of laboratory screening of peanut germ plasm for resistance to the lesser cornstalk borer. 13922

Temperature, plant-growth stage, and insect-population effects on seedling survival of resistant and susceptible alfalfa infested with potato leafhoppers. 14452

The relative resistance to insect attack of three cabbage varieties at different stages of plant maturity. 15284

Seasonal shifts in the relative resistance to insect attack of eight commercial cabbage varieties. 15285

Yellow rust of wheat. 16569

Studies on the development of insect resistant sorghum varieties and hybrids. 16707

Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 16713

Rodent damage to fertilized Pacific silver fir in Western Washington. 16736

The role of secondary plant substances in the food specificity of the Colorado potato beetle. 17380

Phytoalexin production in corn resistant to Helminthosporium turcicum. 18020

Resistance of alfalfa varieties to the potato leafhopper: seedling survival and field damage after infestation. 19094

The pathogenicity of Ditylenchus dipsaci to alfalfa and the relationship of temperature to plant infection and susceptibility. 19102

Histopathology of resistant reactions in pea seedlings to two populations of Ditylenchus dipsaci. (Abstract). 19104

Sources of resistance in cotton to different phases of bacterial blight disease prevalent at Hambantota. 19801

Uromyces ciceris-arietini. 19851

Studies on the plant characters of castor associated with resistance to Empoasca flavescens (Fabr.) (Homoptera: Jassidae) with reference to selection and breeding of varieties. 19880

Distribution and abundance of Sitona hispidula (F.) and the effect of insect injury on root decay of red clover in the Maritime Provinces. 19909

Present situation concerning the attack by the nematode, Meloidogyne coffeicola on Sao Paulas coffee culture and means for its control. 19920

The need for international testing centers for crop pests and pathogens. 21806

Further observations of the tolerance and susceptibility of tea clones to shot-hole borer infestation. 22541

South American origin of European pathotypes of the potato-root eelworm, Heterodera rostochiensis Wollenweber . 22545

PLANT PESTS

Weevils (Sitona species) on cultivated legumes. 14428

A mite as a pest of young plum trees. 14446

Defined diets for phytophagous insects. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15823

Notes on the biology of some short-horned grasshoppers from Eastern Nigeria (Orthoptera: Acridoidea). 17138

Morphology, biology, and phytopathological significance of the genus Appelia C.P. (Aphidoidea: Aphididae). I. 19047

Some aspects of the ecology of Arboreal cryptostigmata (Acari) in New Zealand with special reference to the species associated with Olearia colensoi Hook. f.. 19727

PLANT PHYSIOLOGICAL DISEASES

Physiological factors in the etiology and alleviation of salt-induced decline of roadside maples and pines. 15102

Position and development of the control of grain diseases through seed treatment. 17334

The effect of a post-harvest heat-treatment on the storage behaviour of Cox's Orange Pippin apple fruits. 21090

Infectivity, ribonuclease activity, and other physiological relationships of barley stripe mosaic virus-infected barley leaves. (Abstract). 18912

Protease activity of Xanthomonas alfalfae in vitro and during pathogenesis of bacterial leaf spot of alfalfa. (Abstract). 18916

Temperature response of seeds during the early phases of germination and its relation to injury by Rhizoctonia solani. (Abstract). 18936

Germination of Phytophthora zoospores: Kinetics of encystment and cell wall differentiation. (Abstract). 18960

The peroxidase enzyme in black shank-infected tobacco. (Abstract). 18969

Research on pear moria; pear decline disease. Final technical report, September 11, 1962-September 10, 1967. sb608.p4r4. 19065

Stem necrosis of grapes. 19259

Influence of near-ultraviolet light on hyphal elongation in verticillium. 19261

Growth and fruit drop of young fruit trees sprayed with acaricides demeton-methyl or tetradifon. 19262

Physiological processes taking place in vines under the influence of pesticides. 19267

Physiological studies on pear canker disease in U.A.R. and its control. 19269

Influence of low levels of ozone on flowering of carnations. 19270

Effects of tomato ringspot virus on plant and fruit development of raspberries. 19271

Some physical and chemical properties of an endogenous germination inhibitor from uredospores of wheat stem rust. (Abstract). 19272

Period of access to ethanol in relation to carbon utilization and rhizomorph initiation and growth in Armillaria mellea. 19273

Crop responses to applied molybdenum and copper on Podzol soils. 19276

Field and laboratory trials on the fungicidal and biological side-effects of plant protectants used in viticulture. 19282

Effect of fungicides on germination of lowbush blueberry pollen and on number of seeds per berry. 19283

Production of polygalacturonase by Verticillium albo-atrum and Fusarium oxysporum f. sp. lycopersici in vitro and in vascular tissue of susceptible and resistant hosts. (Abstract). 19286

Effects of F-2, an estrogenic metabolite from Fusarium, on sexual reproduction of certain ascomycetes. (Abstract). 19287

The biochemical and physiological nature of resistance and susceptibility to Verticillium wilt in strawberry cultivars. 19288

Spore formation and release in Erysiphe. (Abstract). 19289

Purification and properties of phytotoxic glycopeptides produced by Corynebacterium michiganense. (Abstract). 19290

Demonstration of occurrence of hexose monophosphate shunt pathway in chlamydospores of Sphacelotheca sorghi. (Abstract). 19293

Sensitivity of tobacco leaf discs to ozone. (Abstract). 19295

Saccharase activity of Sclerotium rolfsii in soil and the mechanism of antagonistic action by Trichoderma viride. 19296

The effect of the toxin of Pseudomonas phaseolicola on tissue cultures of bean (Phaseolus vulgaris). (Abstract). 19298

Nutrition of phytopathogenic pseudomonads. (Abstract). 19300

PLANT PHYSIOLOGY

Membrane distribution in pepper cells induced by Xanthomonas vesicatoria and by volatile products of the bacterium. (Abstract). 19301

Disc electrophoresis of urediospore proteins from Puccinia species. (Abstract). 19302

A plant growth inhibitor from tobacco and its possible involvement in pathogenesis. (Abstract). 19304

Metabolism of 3,4-dichloropropionanilide in plants: The metabolic fate of the 3,4-dichloroaniline moiety. 19306

Ozone injury on Bel W-3 tobacco controlled by at least two genes. (Abstract). 19307

Relation of lipid content to ozone resistance of tobacco leaves. (Abstract). 19308

Germination of chlamydospores of Phytophthora parasitica in soil. (Abstract). 19309

Effect of radiation intensity and quality on sporulation by Helminthosporium dictyoides. (Abstract). 19310

Effects of TCPA on oak sapwood formation and the incidence and development of oak wilt. (Abstract). 19311

Action of potatoe peel extracts in modifying tuber dormancy. 19312

Oxidative metabolic patterns displayed by Pseudomonas sauastanoi on carbohydrate and amino substrates. (Abstract). 19315

The influence of smoke from the combustion of polyvinyl chloride insulation on northern hardwood forest species. (Abstract). 19316

A chemically defined medium for the vegetative growth of Aphanomyces euteiches. (Abstract). 19318

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on certain agronomic traits of barley. 19799

Sensorial analysis on tubers of native potatoes treated with insecticides. 19806

Free amino acids from the leaves of healthy Brassica chinensis or infected with the yellow mosaic virus of turnips. 19816

Study of the RNA protein interactions in the yellow mosaic virus of the turnip. Comparative action of urea on the virus and on the capsids. 19826

Peculiarities of an isolated clone originating from a thermophilic root of the tobacco mosaic virus. 19836

Contribution to the study of the hypersensitivity phenomenon to the tobacco mosaic virus. 19837

Reason for the low content of tobacco mosaic virus in tobacco tissue cultures. 19853

A new technique allowing the study and comparison of the reactions of Nicotianae in the presence of Thielaviopsis basicola (B. and B.) Ferraris. 19854

Utilization of serology in the study of certain virus diseases in fruit trees. 19860

Pectic enzyme production and morphogenesis in Helminthosporium atypicum. 19870

Histogenesis of callus from stem gall of Salvadora persica L. induced by Thomasiniana salvadorae Rao in tissue culture. 19883

Systemic phosphorous insecticides. A new method to study the uptake and translocation in plants. 19911

Influence of different water supplies on growth and drymatter production of nematode infected potato plants, as well as on the population of the parasite. 19923

Parallelism between the variations in growth and tendril movement of peas, tied to genetic dwarfishness, gibberellic acid treatments and temperature changes. 20110

Phytotoxic characteristics of insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20112

Inhibition of gibberellic acid-induced germination by abscisic acid and reversal by cytokinins. 20114

Effect of gibberellic acid on starch content of soybean (Glycine max L.) and its correlation with extension growth. 20117

Principles for the selection of common names for pesticides and plantgrowth regulants. 20150

Production of exocellular polysaccharides by Alternaria solani. 20499

Development of young pear trees with different rootstocks in relation to psylla infestation, pear decline, and leaf curl. 20536

The viruses in potato fields; a study about possibilities for basic seed potato growing in Slovenia and Gorski kotar. SB736.K8. 20542

Some plant galls from India. 20546

Passive survival of endoconidia and chlamydospores of Thielaviopsis basicola in soil. (Abstract). 20547

The effect of captan and cycloheximide on the growth and carbon dioxide exchange of Ulmus americana. (Abstract). 20558

Effects of strains of aster yellow virus on vascular structure and function in Nicotiana rustica. (Abstract). 20573

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria. 20628

Gibberellic acid-promoted lignification and phenylalanine ammonia-lyase activity in a dwarf pea (Pisum sativum). 20891

Effects of kinetin, IAA, and gibberellin on ethylene production, and their interactions in growth of seedlings. 20893

Isolation of the methyl ester of chloro-3-indolylacetic acid from the immature seeds of the pea, Pisum sativum L. 20894

Control of senescence in Rumex leaf discs by gibberellic acid. 20895

The inhibition of photoreactions of chloroplasts by ioxynil,. 20896

Fatty acids in Louisiana rice fields. 20898

Analysis of the effect of chloramphenicol on corn-root growth. 20899

Effect of chloramphenicol on protein synthesis in leaf discs. 20900

Influence of carbon source and pH on the accumulation of oxalic acid in culture filtrates of Sclerotium rolfsii. (Abstract). 20902

Content of natural gibberellins in various organs of plants in connection with their age. 20905

Application of enzyme activity to the measurement of fungal growth in soil. (Abstract). 20909

Effects of manganese and iron application on their solubility, absorption and growth of oat plants. 20912

Effects of cycocel and B-nine on cold hardiness of wheat plants. 20915

Growth and antholyanin synthesis in excised Sorghum internodes. I. Effects of growth regulating substances. 20918

Effects of growth regulators, CCC and B9, on some potato varieties. 21074

Studies on irrigation for herbage grass. II. On the efficiency of water use by orchard grass and ladino clover. 21078

Studies on the influence of leaf washings on infection by Mycosphaerella ligulicola. 21102

The effect of rosette virus on flowering in the groundnut (Arachis hypogaea L.). 21122

A rust of tobacco in Rhodesia. 21125

Wheat bulb fly, Leptomylemyia coarctata Fall., and its effect on the growth and yield of wheat. 21172

Studies of the insect complex affecting seed production of Ponderosa pine in California. SB608.P65K6. 21188

Nematode damage in cereals. 21214

Critical periods of the crop growth cycle for competition from weeds. 21228

Method of controlling the growth of undesirable vegetation. Patent 3,413,109. 21231

Effects of combinations of pesticides applied to cotton. 21526

Method of controlling plant growth with pentaerythritol arsenite chlorobenzoates. Patent 3,411,895. 21531

Anomalous growth response of bean plants in iron-deficient media to cyanide. 21532

The effects of plant growth regulators on growth and flowering in chrysanthemum. 21533

The incidence of plant oestrogens in Finish pasture and fodder plants with special reference to their possible effects in cases of sterility in ruminants. SF98.E8K3. 21534

Large amounts of ribosomal RNA in colchicine-induced tetraploides of Solanum tuberosum L. 21536

Studies on emergence of seedling in direct sowing culture of paddy rice on upland field. III. Seedling emergence of rice seed as affected by gibberellin and 3-indoleacetic acid application. 21539

Spray-on protein boosters. 21543

Chemical induction of mitotic crossing-over in Aspergillus. (Abstract). 21546

Proposed procedure for the allocation of trivial names to the gibberellins. 21561

New knowledge concerning wire stringing in fruit growing. 21767

Lettuce growth and tipburn incidence under controlled humidity. (Abstract). 21768

Artificial light induced leaf lesions in a diploid Solanum accession. (Abstract). 21811

American cotton is allergic to 2,4-D. 21818

Measurement of oxygen consumption of wheat stem rust uredospores with an oxygen electrode. 21834

Influence of Rhizopus nigricans Ehrenb. on the development of Alternaria solani (Ell. and Mart.) Jones and Grout. 21840

Quantitative measurements of interactions between crown-gall tumors and the pinto bean host. 21845

Three-year effects of systemic fungicides applied for the control of Cytospora in Italian prune trees. 21862

Factors governing zoospore responses of Phytophthora megasperma var. sojae to plant roots. 21864

Chlamydospore formation in conidia of Helminthosporium sativum. 21893

Genetic study of the resistance of Coffea spp. to leaf rust I. Identification and behavior of four factors conditioning disease reaction in Coffea arabica to twelve physiologic races of Hemileia vastatrix. 21906

Alterations in the peach trees (cv. red haven) attacked by Taphrina deformans with particular reference to the nitrogen metabolism in infected and non-infected leaves. 21916

The dynamics of virus-induced changes in the release of substances from leaves and sprouts. 21927

Effect of growth-regulators on translocation and distribution of amino acids, organic acids, and sugars in Muscat of Alexandria grapes. (Abstract). 21930

Contribution to the physiological study on the effect of the substance isolated from conidia of the fungus Erysiphe graminis f. sp. hordei Marchal. 21944

Some seasonal aspects of the growth of tumors on the white spruce, Picea glauca. 21949

Fine structure of Plasmodiophora brassicae in sporogenesis. 21954

Micronutrient effects on the in vitro growth and pathogenicity of Fusarium oxysporum f. sp. lycopersici. 21956

Observations on penetration of linden branches by stylets of the aphid Longistigma caryae. 21968

Flurenol- a herbicide with new properties. 22010

Effect of dicamba on wheat and wild buckwheat at various stages of development. 22024

The herbicidal activity of MSMA and DSMA on purple nutsedge. 22026

Role of trace elements in the growth and morphology of five ascosporic Aspergillus species. 22201

Some effects of DDT, dieldrin, dimethoate and fenthion on growth of cucumbers. 22203

Effect of prometryne on growth of Fusarium oxysporum f. sp. vasinfectum in soil culture. (Abstract). 22205

Growth responses of some common peanut mycoflora to various extracts from peanut seed. (Abstract). 22207

Stimulation by 2,4-D and 2,4-D plus Fe EDTA of 32P uptake by bean seedlings (Phaseolus vulgaris). 22208

Uredospore production of five races of Puccinia recondita Rob. ex Desm. as affected by light and temperature. 22209

Ejection and dissemination of ascospores of Hypoxylon pruinatum. 22210

Estradiol annulment of sterol-induced sexual reproduction by Pythium periplocum. (Abstract). 22213

Anatomy of beads on flagella of zoospores of Phytophthora megasperma var. sojae. 22214

The effects of indoleaectic acid and 2,4-dichlorophenoxyacetic acid on intermediary metabolism of 14C-labelled organic acids by pea root tips. 22215

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on the uptake and metabolism of 14C-glucose and on the incorporation of 14C-labelled amino acids into protein in pea root tips. 22216

Light and temperature effects on growth and sporophore formation of Lenzites trabea. 22218

Development and sporulation of Polyporus hispidus. (Abstract). 22220

Periodicity in aeciospore release in Gymnosporangium juniperi-virginianae. 22222

Experiments on the precocious flowering of western red cedar and four species of Cupressus with gibberellins A3 and A4/A7 mixture. 22223

Effect of Trichoderma viride on saccharase activity and growth of Sclerotium rolfsii in mixed soil culture. (Abstract). 22224

The interaction of the seed coat and gibberellic acid in the germination of Datura ferox L. 22225

Effect of pretreatment of pine seeds with herbicides on seed germination and growth of young seedlings. 22226

M-N-ethylaminobenzoic acid: absence of phytotoxic activity. 22227

An electron microscope study of intravacuolar bodies in the uredia of wheat stem rust and in hyphae of other fungi. 22228

Carbon dioxide effects on fruits. III. The fixation of C1402 in lemon in an atmosphere enriched with carbon dioxide. 22232

Factors affecting the activity of diallate. 22558

Studies of the germination, growth and development of barnyardgrass. 22565

Seed dormancy of Fumaria officinalis. 22578

Composition and method for controlling undesirable plant growth. Patent 3,425,821. 22596

Weed control in young peach orchards. 22601

Processing pea responses to MCPB applications at different growth stages. 22612

Effects of soil applied trifluralin on fish production in pools. 22791

Surfactant toxicity to plant tissues. 22806

Interactions between atrazine residue and four herbicides: Amiben, CDAA, linuron, and trifluralin. 22810

Use of laboratory evaluations for aquatic herbicides and algicides. 22811

Method for modifying the growth characteristics of plants. Patent 3,421,881. 22814

Utilization of 14C metabolites, incorporation of 32P and changes in respiration occurring in leaves from dalapon treated beans. 22819

Translocation and persistence of dicamba in Canada thistle, tartary buckwheat, quackgrass and Kentucky bluegrass. 22826

The characteristics of the over-ground and soil zoomicrobiological complexes of the steppe landscapes in western and middle Siberia. 23051

Some properties of hyphae isolated from bean leaves infected with the bean rust fungus. 23124

Fungal colonization of Pisum leaves. 23126

Trabeculae in the grapevine infected with leafroll virus. 23129

Influence of temperature on the liberation, motility, and germination of zoospores of Pythium aphanidermatum and Pythium myriotylum. (Abstract). 23143

Effects of three species of aphids on barley, wheat or oats at various stages of plant growth. 23178

Effects of phloem temperature and moisture content on development of the southern pine beetle. 23191

The influence of infestation by early shoot borer Chilotraea infuscatellus Sn. on shoot production and yield of sugarcane. 23204

Effects of balsam woolly aphid (Adelges piceae) infestation on cambial activity in Abies grandis. 23207

Studies on the attack behavior of the southern pine beetle. IV. Influence of host condition on aggregation pattern. 23212

Effect of 2,4-Dichlorophenoxacetic acid on oxidative phosphorylation in various plants. 23226

Influence of temperature on phytotoxicity of triazine herbicides to pine seedlings. 23231

The growth, in vitro, of isolated apple shoots from young seedlings on media containing growth regulators. 23254

Effect of temperature on the growth of wheat. I. Marquillo Kenya Farmer, and two dwarf progeny. 23414

Some properties of hyphae isolated from bean leaves infected with the bean rust fungus. 23415

The inhibition of brussels sprout leaf senescence by kinins. 23416

Chemical growth control of Chinese elm trees. 23419

Ultrastructural changes during zoospore formation in Phytophthora parasitica. 23420

Studies on plant growth-regulating substances. XXVII. The growth-regulating activity and metabolism of 2,4-dichlorophenoxyethylamine and related compounds in higher plants. 23424

The effect of some growth regulators on starch depletion in apple shoots. 23426

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. I. Studies with 14CO2, quinate-U-14C, and shikimate-U-14C as precursors. 23429

Effects of herbicides on carbon dioxide uptake by pine seedlings. 23430

Anastomosis in relation to morphology and physiology of Rhizoctonia solani. (Abstract). 23432

The sequence of release of amino acids from germinating crown rust spores. (Abstract). 23433

Some effects of carbaryl on two apple cultivars. 23436

PLANT PROPAGATION

Geranium plants differentiated in vitro from stem tip and callus cultures. 16929

Inducing sporulation in different strains of Alternaria solani. I. Effect of visible light. 16935

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diquat. tolerances for residues. 16184

Gibberellin and the growth of peach and apricot fruits. 16207

Process for contacting plants with growth effecting chemical Patent 3,393,992. 16214

An anatomical investigation into the effects of gibberellic acid on the expansion of Callitriche shoots. 16239

Fluorometric determination of gibberellic acid. 16245

Effect of boron on ribonucleic acid and indoleacetic acid metabolism in the apical meristems of sunflower plants. 16520

Growth substances isolated from woody cuttings of Alnus glutinosa Medic. and Fraxinus excelsior L. 16525

Value of a plant growth retardant for isolating soil fungi. 16920

The relative effect of N,N-dimethyl-2,2-diphenylacetamide on root and shoot growth. 16934

The oxidation of indole-3-acetaldehyde and its 1-methyl derivative by horseradish peroxidase. 16941

Some effects of environmental and chemical treatments on growth induction and metabolism: I. Effects of light on phosphate and nucleic acid metabolism in tobacco leaf discs. II. Growth induction and metabolism in carrot phloem explants. 17253

Certain effects of benzimidazole on young tobacco plants. 17256

A quantitative study of the effects of gibberellic acid on the growth of Festuca arundinacea. 17266

The role of mixed function oxidases in diterpene metabolism. 17267

Response of Rhizoctonia bataticola to growth regulators, trace elements and vitamins. 17333

The influence of systemic plant growth substances on the galls induced by the root knot nematode Meloidogyne javanica. 17443

Synthesis and physiological activity of several 1-substituted indole-3-acetic acids and esters. 17687

Physiological abnormalities in growth, hormone behavior, and chemical transport in aster yellows infected plants. 17707

Development of parthenocarpic and nonparthenocarpic syconia of Ficus carica L. cv.

King in relation to endogenous and exogenous growth regulators. 17927

Experiments and considerations on the anomolies of tomatoes of the super marmande type in hot houses, connections with the use of some plant hormones. 17933

A mechanism of enhanced resistance to Ceratocystis ulmi in American elms treated with sodium trichlorophenylacetate. 17956

Alterations in the auxin levels of resistant and susceptible hosts induced by the curly top virus. 18066

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. alphanaphthaleneacetic acid. 18397

Effects of plant growth regulators and other compounds on flow of latex in Hevea brasiliensis. 18421

Interaction of growth regulators in the senescence of nasturtium leaf disks. 18426

Plant growth regulations in Ditylenchus dipsaci, Ditylenchus triformis and host tissues. 18437

Auxin-induced elimination of a protein in bean hypocotyl. 18470

Herbicidal composition and method. Patent 3,407,056. 18471

Nutritional requirements of a tomato tissue culture: Growth promoting factors from peas. 18478

Method for regulating plant growth. Patent 3,376,125. 18744

Contribution to the regulation of the growth of protecting belts on the slopes of the terraces. 19068

Interaction of abscisin-II with some growth regulating substances. 20109

Effect of gibberellic acid on starch content of soybean (Glycine max L.) and its correlation with extension growth. 20117

Report on herbicides and plant growth regulators. 20140

Principles for the selection of common names for pesticides and plantgrowth regulants. 20150

The influence of growth regulators on protein and enzyme spectra of explants from roots of Cichorium intybus cultured in vitro. 20888

Content of natural gibberellins in various organs of plants in connection with their age. 20905

Effect of light of various spectral compositions on some aspects of auxin metabolism in cultures of isolated carrot tissue. 20907

The inability of gibberellic acid to stimulate amylase activity in pea cotyledons. 20914

Growth and antholyanin synthesis in excised Sorghum internodes. I. Effects of growth regulating substances. 20918

Gibberellic acid and the light inhibition of stem elongation. 20919

Studies on plant growth-regulating substances. XXIV. Factors influencing kinetin-induced phosphorus mobilization in detached radish cotyledonary leaves. 21059

Effects of growth regulators, CCC and B9, on some potato varieties. 21074

Herbicide residues in California agricultural soils. 21082

Tween 20 as an adjuvant for systemic soil fungicides for Verticillium in cotton. 21151

The effects of plant growth regulators on growth and flowering in chrysanthemum. 21533

Chemical alteration of sex expression in cucumbers and cantaloupes. (Abstract). 21783

Auxin and gibberellin-like activity in blueberry flowers and fruit. (Abstract). 21790

Influence of growth regulators on the concentration of protein and nucleic acids in grape flowers. (Abstract). 21805

The relation of growth regulators to the development of symptoms and expression of stem resistance in white pine infected with blister rust. 21831

Effect of growth-regulators on translocation and distribution of amino acids, organic acids, and sugars in Muscat of Alexandria grapes. (Abstract). 21930

Some effects of a growth retardant on shoot meristems of apple. (Abstract). 21951

Seed dormancy of Fumaria officinalis. 22578

The action of several inhibitors on the respiration of plant tissues treated with gibberellic acid. 22807

Method for modifying the growth characteristics of plants. Patent 3,421,881. 22814

The use of growth regulators in cereal culture. Test results 1965-1966. 23110

Growth substances in roots of tomato (Lycopersicon esculentum Mill.) infected with root-knot nematodes (Meloidogyne spp.). 23220

The growth, in vitro, of isolated apple shoots from young seedlings on media containing growth regulators. 23254

Chemical growth control of Chinese elm trees. 23419

Studies on plant growth-regulating substances. XXVII. The growth-regulating activity and metabolism of 2,4-dichlorophenoxyethylamine and related compounds in higher plants. 23424

The effect of some growth regulators on starch depletion in apple shoots. 23426

PLANT REPRODUCTION

Carbon and nitrogen nutrition in relation to sexual reproduction in species of Phytophthora. (Abstract). 15896

The relationship of mating capacities and sterol synthesis among isolates of Cochliobolus carbonum. (Abstract). 16217

The mating type factors of Pleurotus ostreatus in a limited geographic area. (Abstract). 16236

Cultural studies of sexual reproduction of Ceratocystis fagacearum. 16512

Subterranean sporulation by two graminicolous smut fungi. 17289

The effect of carbon source, carbon to nitrogen ratios, and organic amendments on survival of propagules of Verticillium albo-atrum in soil. 17921

Induction of floral hypersexuality in Iberis amara L. (Cruciferes) influenced by 2,4-dichlorophenoxyacetic acid. 18446

The action of gibberellins on the fruiting of grapes. 20115

Estradiol annulment of sterol-induced sexual reproduction by Pythium periplocum. (Abstract). 22213

PLANT RESIDUES

Eradication of soil fungi by a combination of crop residue, flooding, and anaerobic fermentation. 15213

Predisposition to Thielaviopsis root rot by phytotoxins obtained from decomposing plant residues. (Abstract). 15898

Effect of magnesium trisilicate on the infectivity of tobacco mosaic virus. 16607

Chemical weed killers. The residue problem. 20855

Identification of phytotoxins obtained from plant residues decomposing in soil. (Abstract). 20916

PLANT RESPIRATION

The respiration of sclerotia of Sclerotium rolfsii. 14337

Respiratory response of radish varieties resistant and susceptible to vascular infection by Fusarium oxysporum f. conglutinans. 14340

Endogenous respiration of wheat stem rust uredospores. 14419

Respiration, photosynthesis, and dark fixation of C1402 by healthy and rusted bean leaves. 15653

Inhibition of bacterial respiration by piericidin A and rotenone. (Abstract). 16209

Physiological aspects of fluometuron in cotton and cucumber. 16227

Carbon dioxide exchange by radish tissue infected with Albugo candida measured with an infrared C02 analyzer. 16548

Factors affecting respiration in barley yellow dwarf virus-infected barley. 16605

Changes in respiration rate of tobacco leaves infested with bacteria in relation to the hypersensitive reaction. 16647

Effects of herbicides on carbon dioxide uptake by pine seedlings. 16668

C02 assimilation and yield of Little Club wheat infected by Septoria nodorum. 16670

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria. 16916

Metabolic and environmental factors affecting absorption and translocation of 2,4,5-trichlorophenoxyacetic acid in winged elm. 16940

The electrophoresis and histochemical localization of certain respiratory ensymes of tobacco infected by Phytophthora parasitica var. Nicotianae. 17356

Oxidative activity of Botrytis cinerea extracts in alcohol. (Abstract). 17680

Effects of gibberllic acid on metabolism of barley seeds. (Abstract). 17701

Behavior of macroconidia of Fusarium roseum 'Sambucinum' under carbon staruation conditions in relation to survival in soil. (Abstract). 19275

Secondary affects of insecticides on plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
20113

Respiratory patterns in Trifolium pratense inoculated and noninoculated with Erysiphe polygoni.
21881

Respiratory and enzymatic studies with Verticillium alboatrum from cotton.
22219

The action of several inhibitors on the respiration of plant tissues treated with gibberellic acid.
22807

Utilization of 14C metabolites, incorporation of 32P and changes in respiration occurring in leaves from dalapon treated beans.
22819

PLANT SENESCENCE

Control of senescence in Rumex leaf discs by gibberellic acid.
20895

Content of natural gibberellins in various organs of plants in connection with their age.
20905

PLANT TAXONOMY

Disc electrophoresis of mycelial proteins from Ceratocystis species. (Abstract).
16232

Triplosporium tetranychi sp. n. (Phycomycetes, Entomophthoraceae), a fungus infecting the red mite Tetranychus althaeae Hanst.
16476

A morphological and biological concept of the species Ceratocystis fimbriata.
16530

Hyperparasites on some ascomycetes from Hyderabad, India.
16660

The autoecious species of Puccinia on Heliantheae in North America.
17327

Rust fungi on Araucariaceae.
18904

Gonatobotrys zeae sp. n. a new pathogen on corn. (Abstract).
21851

PLANT TEMPERATURE

Effects of time and temperature on rate of graft transmission of the Prunus ringspot virus.
15054

Fungi isolated from black stem of alfalfa and the influence of temperature on lesion formation and disease severity.
15160

Effects of temperature and light on plant susceptibility to cucumber mosaic virus by aphid transmission.
15194

Desert grassland mesquite and fire.
17919

The summer biology of Puccinia striiformis in southeastern Washington. I. Induction of infection during the summer.
18072

Factors affecting growth and survival of the mycoparasite Darluca filum. (Abstract).
18779

Heat-induced susceptibility of black shank-resistant tobacco to Phytophthora parasitica var. nicotianae. (Abstract).
18987

Gossypol synthesis in chilled cotton tissues. (Abstracts).
19260

The influence of cation competition, time, and temperature on the uptake of streptomycin by foliage.
19274

Effect of root temperature on hypocotyls of cotton seedlings as a source of nutrition for Rhizoctonia solani.
19278

PLANT TRANSLOCATION

Plant uptake of 14C-diuron in modified soil.
14008

Diazinon absorption, translocation, and metabolism in bean plants.
14634

A difference in the translocability of two viruses in bean plants.
15170

The translocation of potato virus S, isolate (Eersteling), in potato plants.
15866

Absorption, translocation, and persistence of radio-labeled dimethyl sulfoxide applied as a foliar spray to peach trees. (Abstract).
16122

Differential absorption as a factor in fluencing the selective toxicity of MCPA and MCPB. In: isotopes in weed research; proceedings of a symposium, Vienna, 25-29 October 1965. S589.S9.
16208

Absorption, translocation and metabolism of 14C labelled dichlobenil. In: isotopes in weed research; proceedings of a symposium, Vienna, 25-29 October 1965. S589.S9.
16222

A note on translocation-trisomic plant from gammairradiated barley.
16517

Metabolic and environmental factors affecting absorption and translocation of 2,4,5-trichlorophenoxyacetic acid in winged elm.
16940

Metabolic changes in oxygen-deficient tomato roots.
17261

Movement of tobacco mosaic virus within Nicotiana glutinosa plant grafted with tobacco.
17300

The term hypersensitive reaction is inadequate to explain the necrotic lesion formation of Nicotiana glutinosa infected with tobacco mosaic virus.
17366

International dispersal of fungi.
17367

Adsorption of herbicides by activated carbon and other adsorbents.
17675

Physiological abnormalities in growth, hormone behavior, and chemical transport in aster yellows infected plants.
17707

Hydrocarbon and fatty acid distribution in the spore coats of pathogenic Basidiomycetes. (Abstract).
17713

Permeability changes in pear fruits associated with pathogenesis by Erwinia amylovora. (Abstract).
17961

Loss of phorate from a granular formulation applied in the soil.
18110

The selectivity and activity of s-triazine herbicides in banana plants.
18423

Influence of micro-organisms on the distribution in roots of phosphate labelled with phosphorus-32.
18424

Inorganic composition and microscopy of citrus roots grown under several copper and soil amendment conditions.
18428

Active uptake of Helminthosporium carbonum toxin and its effect on CO2 dark fixation by corn. (Abstract).
18453

Metabolism of amitrole (3-amino-1,2,4-triazole) in relation to the differential susceptibility of Cirsium arvense (L.) scop. ecotypes.
18474

Effect of 3-indoleacetic acid on phospholipid membrane components of Avena coleoptiles.
18481

Changes in the structure of different varieties of wheat culm in different localities after treatment with CCC.
18749

Concentrations of gibberellin in chilled hazel seeds.
18753

Insecticidal laboratory studies on sisal weevil (Scyphophorus interstitialis Gyll., Curculionidae, Coleoptera). III. Systemic insecticides applied to soil.
19043

Enzyme localization in Lee soybeans infected with the root knot nematode, Meloidogyne incognita acrita. (Abstract).
19111

Sap transmission of sandal spike.
19843

Uptake and transport of systemic fungicides and bactericides.
20889

Fatty acid composition of extract from pyrethrum flowers (Chrysanthemum cinerariaefolium).
20897

Effects of manganese and iron application on their solubility, absorption and growth of oat plants.
20912

Potato leaf roll virus transmission as affected by plant locality.
21101

Mimosa wilt Fusarium carried in seed.
21124

Translocation of tritium-labelled gibberellic acid in pea stem segments and potato tuber cylinders.
21527

Rate of movement of barley yellow dwarf virus out of inoculated cereal leaves.
21854

Effect of growth-regulators on translocation and distribution of amino acids, organic acids, and sugars in Muscat of Alexandria grapes. (Abstract).
21930

Changed method of nata use in the control of Agropyron repens on arable land.
22014

Calcium localization within live oat leaves using a semiconductor detector assembly.
22041

Aquatic vegetation control in Louisiana.
22615

Partitioning and distribution of herbicides in spinach chloroplasts.
22815

Translocation of herbicides in American pondweed (Potamogeton nodosus Poir.).
22820

Penetration and distribution studies in bean, cotton and barley from foliar and root applications of Tween 20-C14 (fatty acid and oxyethylene labeled).
22823

Translocation and persistence of dicamba in Canada thistle, tartary buckwheat, quackgrass and Kentucky bluegrass.
22826

Metabolism of UC-21149 (2-methyl-2-(methylthio)propionaldehyde O-(methylcarbamoyl)oxime) in cotton plants and soil in the field.
23412

Systemic activity of 2-methyl-2-(methylthio)propionaldehyde O-(methyl-carbamoyl)oxime (UC-21149) in the cotton plant with special reference to the boll weevil.
23428

PLANT TRANSPIRATION

Secondary affects of insecticides on plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4.
20113

PLANT WATER RELATIONS

The effect of wilting on redox potential of cereal leaves. 14771

Quantitative measurement of the emanation of water from underground plant parts. (Abstract). 15942

The effect of leaf water balance on the susceptibility of French bean to tobacco necrosis virus. 16613

Effects of watering frequency and saturation time on fine root necrosis of peach caused by Pythium spp. (Abstract). 17952

Effect of Uromyces phaseoli on the water relations of primary bean leaves. (Abstract). 17977

An evaluation of three methods for measuring leaf water potential in Dutch elm-diseased seedlings. (Abstract). 18919

Studies on the relations of insects and host plant. II. effects of water stress in host plants on the fecundity of myzus persicae (Sulz.) and Brevicoryne brassicae (L.). 19093

Leaf blade folding and motor cells of some blue grasses. 21075

Blossom end rot of the tomato. 21843

The influence of rooted aquatic plants on the dissolved oxygen content of water. 22805

PLANTAGO

Loss of hostplant specificity by Manduca sexta after rearing on an artificial diet. 17196

The population biology of the butterfly, Euphydryas edithaVII. Has E. editha evolved a serpentine race . 20464

A virus of tabacco rattle group naturally occurring in Plantago sp. in tczechoslovakia. 22507

PLANTAGO LANCEOLATA

Atmospheric pollution and its effects on vegetation. 16516

PLANTATIONS

Occurrence of rust on the Aleppo pine in Istria. (TT 67-51309) Transl. 16915. 17310

Weed control with paraquat in plantation crops. 19928

Micro-meteorological studies of coffee berry disease. A field investigation into the incidence of the physical conditions favourable for spore germination. 21169

PLANTING

The relative efficiency of ear-to-row and convergent improvement in increasing disease resistance of Zea mays. 16691

Effect of substrate temperature on emergence and growth of seedling cotton following in-furrow applications of Temik (10 0 G formulation of union carbide UC-21149). 16922

Effect of defoliation treatments at various stages of plant development and row spacings on corn (Zea mays L.) production. 16933

A preliminary study of corn stunt vector populations in relation to corn planting dates in Mississippi. Notes on disease incidence and severity. 17399

Western corn rootworm egg distribution and adult emergence under two corn tillage systems. 18111

Influence of foliage rust on yield, test weight, and oil percentage of safflower seed. 18760

Effect of temperature, crop, and depth of burial on the survival of Typhula idahoensis sclerotia. 18846

Fruit trees replant disease. 18929

Responses to postplanting and preplanting soil fumigation in California peach, walnut, and prune orchards. 19106

Okra production. 21227

Trifluralin-treated cloth controls weeds in geranium plantings. (Abstract). 22012

PLANTING DATE

Effect of different dates of sowing of groundnut on the development and intensity of leaf-spot disease by Cercospora spp. 19842

Studies on the outbreak of the soft rot disease of chinese cabbage by Erwinia aroideae (Towns.) Holl. IV. The effect of the seeding time of chinese cabbage upon the establishment of inoculum source of the soft rot disease of chinese cabbage in soil. 20574

PLANTS

Plant virus antigen: antibody reactions in density gradient centrifugation and in electron microscopy. (Abstract). 14335

A possible biochemical basis for the hypersensitive reaction induced in plants by pathogenic bacteria. (Abstract). 14374

Application of the rapid micromethod of sample cleanup for gas chromatographic analysis of common organic pesticides in ground water, soil, plant and animal extracts. 14633

Method for regulating plant growth. Patent 3,376,126. 14777

Accumulation of copper by some Zambian plants. 15641

A dynamic-equilibrium illuminated temperature-, humidity-, and pollutant-controlled plant fumigation chamber. (Abstract). 16559

Spermiogenesis in Laccifer lacca (Kerr) (LacciferidaeCoccoidea). 17255

Permeability to methyl bromide of wrappers found on shipments of imported plants. 17274

A monograph of the immature stages of Oriental timber beetles (Cerambycidae) QL596.C4D8. 17375

Microbes and toxic chemicals in the struggle against plant pests. (JPRS 44,489) Transl. 16903. 17386

Separation of eggs of Pratylenchus penetrans from plant tissue culture by sucrose gradient centrifugation. (Abstract). 17455

X-ray analysis of hyphal and sclerotill walls of Sclerotium rolfsii Sacc. 17674

Loss of phorate from a granular formulation applied in the soil. 18110

Insecticide residues in pest control. 18401

Stomatal movements; a yearly rhythm. 18473

Occurrence of syrphid larvae on some aphids. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18602

Microorganisms in paddy soil. S597.R3. 18751

Notes on some aphids from British North Borneo. 19026

Observations on the effect of flowers on the activity of parasitic hymenoptera. 19090

Distribution of plant-parasitic nematodes associated with forest trees of the world. aQL391.N4R8. 19130

Investigations on the development of simple rapid methods and equipment for qualitative detection of pesticides and their metabolites in plant and animal products. Final technical report, June 29- December 31, 1966. SB959.S7. 19250

Use of insecticides for protecting plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19600

Ecology: A modern viewpoint. 19800

The affect of insecticides on microorganisms. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 19822

Determining minor elements. 19823

Hygienic problems of insecticide residues in food. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20075

The injurious effect of insecticides on plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20080

Protection against poison when close to insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20086

Secondary affects of insecticides on plants. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20113

Separation, identification and determination of fluoroacetamide residues in water, biological materials and soils. I. analytical technique. 20133

Studies on alternate hosts of Myzus persicae (Sulz.) in Rhodesia. 20162

Interaction among virus, cell and organism. 20512

The reactions of various plant species to leaf infection with potato viruses S. and M. 20580

A study of the fungus parasites of southeast Asia. V. Note on some Malaysian species of Oidium. 20586

Determination of insecticide residue in animal and plant tissues. V. A device of preparing the specific detector of gas chromatography highly sensitive to organophosphorus insecticides. 20863

Danger to the community through use of chemical plant preservatives. 20865

Residues and some effects of chlorinated hydrocarbon insecticides in biological material. (abstract). 20877

Effect of temperature on response of plants to ozone as conducted in a specially designed plant fumigation chamber. 21062

Host range and variation in virulence of Mycosphaerella ligulicola. 21108

The value of a fluorescent tracer in determining the quantity of dieldrin on honeybees foraging in a sprayed crop. 21181

Application of scanning microscopy in the study of virus transmission of aphids. 21584

Mimicry in plants and animals. 21644

Characterization of three bacteriophages of Xanthomonas oryzae (Uyeda et Ishiyama) Dowson. 21788

Electron microscopic observations on the apparent replication in vivo of a plant virus. 21817

Six powdery mildews from Jammu and Kashmir state. 21912

Contributions to the knowledge of host plants of middle German aphididae. 22397

Culiseta melanura (Coquillett) breeding in artificial containers. 22465

Feeding of horseflies (Tabanidae: Diptera) on plant juices. 22538

Surfactant toxicity to plant tissues. 22806

PLAQUE

Plaque characteristics of four classes of bovine viruses. 15374

PLASMA MEMBRANE

Non-specific phosphatases of normal and neoplastic rabbits endometrium. (Abstract). 17488

Lysis of the limiting membrane of Mycoplasma gallisepticum by chemical agents. 20017

Electron-microscopy of embryonic envelope formation by the cestode Catenotaenia pusilla. 20053

Electron microscope studies of Fasciola hepatica. VI. The ultrastructural localization of phosphatases. 22173

Fractionation and characterization of the plasma and mesosome membrane of Listeria monocytogenes. 22660

PLASMODIOPHORA BRASSICAE

Soil testing for club root in Devon and Cornwall. 13900

Ultrastructural studies on the host-parasite relations of Plasmodiophora brassicae. 14420

Enzymatic synthesis and degradation of starch and lipid during clubroot development in cabbage. (Abstract). 15888

Lipid metabolism in clubroot of cabbage. 17344

Isolation and properties of Plasmodiophora brassicae plasmodia from infected crucifer tissues and tissue culture callus. (Abstract). 18008

Metabolite synthesis and degradation during clubroot development in cabbage hypocotyls. 19314

The movement of Plasmodiophora brassicae in soil. (Abstract). 20920

Fine structure of Plasmodiophora brassicae in sporogenesis. 21954

PLASMODIUM

Simian malarias in man; facts, implications, and predictions. 14307

Studies on the transmission of simian malaria. III. Infection and transmission of Plasmodium coatneyi with Anopheles freeborni and A. balabacensis balabacensis mosquitoes. 14308

Pathologic physiology and chemotherapy of Plasmodium berghei. III. Renal function in rats infected with Plasmodium berghei. 16801

Anemia and mechanism of red cell destruction in ducks with acute Leucocytozoon disease. 17525

Malarial parasite metabolism: the Pentose Cycle in Plasmodium berghei. 19653

Pathologic physiology and chemotherapy of Plasmodium berghei. I. Suppression of parasitemia by sulfones and sulfonamides in mice. 19943

Variants of Plasmodium berghei resistant to passive transfer of immune serum. 19948

Active immunization of rats with a cell-free extract of the erythrocytic parasites of Plasmodium berghei. 20018

Prospects for the eradication of malaria in Algeria. 20486

Malaria: Extracellular amino acid requirements for in vitro growth of erythrocytic forms of Plasmodium knowlesi. 20768

Pantothenic acid metabolism during avian malaria infection: Pantothenate kinase activity in duck erythrocytes and in Plasmodium lophurae. 22630

Characterization of the malaria pigment (hemozoin) from the avian malaria parasite Plasmodium lophurae. 22725

PLASMODIUM FALCIPARUM

Interruption of malaria transmission by chloroquinized salt in Guyana with observations on a chloroquine-resistant strain of Plasmodium falciparum. 18501

Human malaria in non-human primates: Experimental mosquito transmission and infection. 18711

Chloroquine resistance in Plasmodium falciparum malaria on the Pacific coast of Colombia. 21050

PLASMODIUM FIELDI

Transmission of Plasmodium fieldi by Anopheles maculatus, A. stephensi, and A. balabacensis balabacensis. 14310

PLASMODIUM GALLINACEUM

Cultivation in vitro of Plasmodium gallinaceum oocysts. 16036

PLASMODIUM KNOWLESI

Studies on the transmission of simian malarias. II. transmission of the H strain of Plasmodium knowlesi by Anopheles balabacensis balabacensis. 14577

A modified, indirect microhemagglutination test for malaria. 21055

In vitro agglutination of bovine erythrocytes infected with Babesia argentina. 21246

Experimental mosquito-transmission of Plasmodium knowlesi to man and monkey. 23084

PLASMODIUM LOPHURAE

Heterologous immunity in avian hosts infected with Plasmodium relictum and Plasmodium lophurae (Sporozoa: Haemosporina). 17615

Free amino-acids of blood plasma and erythrocytes of normal ducks and ducks infected with malarial parasite, Plasmodium lophurae. 19204

PLASMODIUM RELICTUM

Heterologous immunity in avian hosts infected with Plasmodium relictum and Plasmodium lophurae (Sporozoa: Haemosporina). 17615

PLASMODIUM VIVAX

Human malaria in non-human primates: Experimental mosquito transmission and infection. 18711

PLASTICS

Plastic pots compared with clay pots for rearing whitefringed beetle larvae. 14857

PLASTIDS

Four-layered membrane in the plastids of galls of Cuscuta australis. 20611

PLATANUS

Paper chromatographic analysis as a new test method of bactericidal substances in plant extracts and possible relations of these substances to plant growth inhibitors. 14009

PLATANUS OCCIDENTALIS

A pressure cushion is produced by the anthracnose fungus on sycamore. (Abstract). 15922

PLATELETS

Thrombocytopenia in sheep associated with experimental tickborne fever infection. 23278

PLATYPEZA FASCIATA

The larvae of Clythia fasciata Meigen (Diptera, Clythiidae). 22865

PLATYPODIDAE

A complex of fungi mutualistically involved in the nutrition of the ambrosia beetle Xyleborus ferrugineus. 17372

Information concerning the African bark and nut beetles fauna (Coleoptera scolytidae and platypodidae). 17762

PLATYPUS

Sex ratios of Platypus (Coleoptera: Platypodidae). 14062

PLECOPTERA

Methodical reference and council on the breeding of fresh water mite larva parasitic on air insects on (Acari Hydrachnellae). 19676

Relationship of oxygen requirements to index-organism classification of immature aquatic insects. 20408

A new genus and three new species of stoneflies (Plecoptera) from Caucasus and Crimea. 21648

PLEGA

Some notes on the life history of Plega banksi (Neuroptera Mantispidae). 14845

PLEOTRICHOPHORUS

A new species of Pleotrichophorus from British Columbia (Homoptera: Aphididae). 14109

A new Pleotrichophorus living of Erigeron. (Hom. Aphididae). 16312

PLEUROPNEUMONIA

Simultaneous vaccination of cattle with contagious bovine pleuropneumonia and goat-adapted rinderpest vaccine. 14531

Mycoplasmas: their role in bovine disease. 18264

A modification of the growth-inhibition test and its use for detecting Mycoplasma mycoides var. mycoides. 19958

The geographical distribution and control of contagious bovine pleuropneumonia in Africa today. 20668

Clinical, serological and pathological findings in an outbreak of contagious bovine pleuropneumonia. 20682

Contagious bovine pleuropneumonia: Development of a satisfactory and safe vaccine .
20715

Preliminary studies on living culture and inactivated vaccines against contagious bovine pleuropneumonia.
20783

A brucella agglutination screening test.
21437

Contagious pleuro-pneumonia of goats.
22095

PLEUROPNEUMONIA-LIKE ORGANISMS

The histopathologic characteristics of diseases producinc inflamation of the air sacs in turkeys-a comparative study.
15324

Antibiotic resistance and mutation rates of mycoplasma.
15353

Serological studies of avian pleuropneumonia-like organisms (PPLO) with Edward's technique.
15362

Studies of egg transmission of PPLO in chickens.
15363

Swine serum and COZ in the isolation of avian PPLO.
15364

Studies on pathology of respiratory diseases of poultry with special reference to viral and P. P. L. O. infections.
22122

PLEUROTUS OSTREATUS

The mating type factors of Pleurotus ostreatus in a limited geographic area. (Abstract).
16236

Temperature effects on Pleurotus ostreatus spore production (Abstract).
18461

Distribution of mating type factors of Pleurotus ostreatus from a single tree and surrounding area. (Abstract).
18979

PLISTOPHORA

Plistophora scolyti sp. n. (Protozoa, Microsporidia), a new parasite of Scolytus scolytus F. (Col., Scolytidae).
16475

PLISTOPHORA CAECORUM

Plistophora caecorum sp n, a microsporidian of Culiseta inornata (Diptera: Culicidae) from Louisiana.
13776

PLODIA INTERPUNCTELLA

Chambers for collecting and observing single pupae of three stored-product moths.
17883

The formation of ommochromes in the eyes during the pupal development of Plodia interpunctella Hb.
19539

A possible precursor of ommin in synthesis of ommochrome of Plodia interpunctella Hb. and of Ephestia kuhniella Z.
19540

PLOKIOPHILIDAE

Lipokophila chinai gen n sp n; a new genus of Plokiophilioae (Aeteroptera) from Brazil.
13754

PLUMS

A mite as a pest of young plum trees.
14446

Food and food products. tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 0-Phenylphenol and its sodium salt.
15593

Relation of temperature to prune dwarf symptom expression on Italian prune leaves. (Abstract).
15917

Calcium hypochlorite added to selected fungicide sprays improves effectiveness in disease control. (Abstract).
15924

Of mangoes and plums from Mexico and plums from Guatemala.
16103

Diseases of pitted-fruit trees, in 1966.
16621

The aetiology and development of damage in young fruit trees infested with fruit tree red spider mite, Panonychus ulmi (Koch).
17371

Systemic-chemical paints for the control of Cytospora canker disease in prune trees.
17996

The effect of dithiocarbamate-containing fungicides (zineb and Maneb) on the mitochondrial activity in plum leaves.
18860

Host range, characteristics, and purification of plum line pattern virus.
18902

Morphology, biology, and phytopathological significance of the genus Appelia C.P. (Aphidoidea: Aphididae). I.
19047

A mite that is harmful to young plum trees.
19051

Podosphaera tridactyla.
19840

Chemical thinning of plums and peaches.
20892

Three-year effects of systemic fungicides applied for the control of Cytospora in Italian prune trees.
21862

Results of integrated pest control in plum cultures.
23059

Observations on predaceous mites on plum trees.
23060

Utilisation of Trichogramma cacoeciae March., Hym. Trichogrammatidae in control of the plum moth Lep. Tortricidae depending on the numbers used and time of introduction.
23068

PLUSIA ORICHALCEA

Histological changes in Plusia orichalcea caused by Bacillus thuringiensis.
14249

PLUTELLA MACULIPENNIS

Evaluation of systemic insecticides incorporated in the soil for control of lepidopterous larvae of cole crops in southern California.
13931

Notes on the toxicity of a commercial preparation of Bacillus thuringiensis var. thuringiensis Berliner on some Lepidoptera and Tenthredinidae larvae.
14250

A bioassay technique for determining the insecticidal activity of preparations containing Bacillus thuringiensis Berliner.
14960

Control of caterpillars on late cabbage in central Ontario and western Quebec, 1958-1959.
20942

PLUTELLIDAE

Role of the host plant concerning the sexual attractiveness of Acrolepia assectella Zeller. (Lep. Plutellidae).
17186

PLYWOOD

Lacquers containing dieldrin, malathion, or diazinon as controls for German cockroach.
17202

PNEUMONIA

The detection of enzootic pneumonia in pig herds. I. Eight years general experience with a pilot control scheme.
14513

Influence of a penicillin-streptomycin preparation on lamb mortality.
14517

Food additives permitted in food for human consumption. Sulfadimethoxine.
16064

Notice of withdrawal of petition for food additive chloramphenicol.
16071

Reoviruses.
16806

Pneumonia of sheep in Kenya. I. Bacterial and parasitic pneumonia.
16855

Pneumonia in cattle due to migrating Ascaris lumbricoides larvae.
16880

An outbreak of atypical interstitial pneumonia of cattle.
17505

An epizootic of aspergillosis in Canada geese.
17544

Pneumonia due to Mycoplasma in gnotobiotic mice. Iii Lesions in the lungs of gnotobiotic mice after multiple intranasal inoculations of broth cultures of Mycoplasma pneumoniae.
17558

Enzootic pneumonia of sheep in the Mafeking district.
17583

Properties of Aujeszky's disease virus strains isolated from swine pneumonia cases.
18215

Corynebacterium equi infection in two foals.
18225

Pneumonia of sheep in Kenya. II. Pathology of chronic progressive pneumonia.
18338

The isolation of T-strains of Mycoplasma from pneumonic calf lungs.
19181

Naturally occurring giant cell pneumonia in the rhesus monkey (Macaca mulatta).
19986

Enzootic pneumonia of pigs: Complement-fixation tests for the detection of mycoplasma antibodies in the serum of immunized rabbits and infected swine.
20675

Isolation of mycoplasma from calf lungs.
21330

Clinical and serological responses of the calf inoculated in various ways (genital, ocular, pulmonary) with a strain of herpesvirus isolated from a pneumonia lesion of a calf.
21338

Attempts to recover Mycoplasma suipneumoniae from experimental and natural cases of enzootic pneumonia in pigs.
22088

Production of enzootic pneumonia in pigs with Mycoplasma suipneumoniae grown in embryonated hen's eggs.
22089

Pathology of pneumonia in intensively-reared calves.
22731

POA

Low light intensity promotes melting out of bluegrass. (Abstract).
18026

Alpha-Cyclohexyl-alpha-phenyl-3-pyridinemethanol (EL-331): a new fungicide for the control of certain turf pathogens. (Abstract).
23172

POA ANNUA

Factors affecting the pathogenicity of selected fungi isolated from putting green turf.
16593

Transmission of a leafhopper-borne virus from naturally infected Poa annua in Czechoslovakia.
18039

Leaf blade folding and motor cells of some blue grasses.
21075

POA PRATENSIS

The effect of visible and near-visible radiation on the sporulation of Helminthosporium vagans. (Abstract).
14357

The influence of controlled environments and grass hosts on the life cycle of Endria inimica (Homoptera: Cicadellidae).
16373

Etiology of stripe smut, Ustilago striiformis (West.) Niessl, on Merion bluegrass, Poa pratensis L. 16600

Research into the occurence of ergot, Claviceps purpurea (Fr.) Tul., on the meadow panicle Poa pratensis L. 17293

The barley root-knot nematode in Illinois. 18135

The effect of temperature and light on sporulation of Helminthosporium dictyoides on artificial media. (Abstract). 20917

Leaf blade folding and motor cells of some blue grasses. 21075

Translocation and persistence of dicamba in Canada thistle, tartary buckwheat, quackgrass and Kentucky bluegrass. 22826

POD BLIGHT (PEANUTS)
Pythium pod rot of peanut. 16575

POD MOTTLE (BEANS)
Serological studies of red node and pod mottle viruses. 15174

PODISUS MACULIVENTRIS
The tactics of a predator. 17127

PODOSPHAERA
Podosphaera leucotricha. 19832

Podosphaera tridactyla. 19840

PODOSPHAERA LEUCOTRICHA
Effect of temperature on germination of Podosphaera leucotricha conidia. (Abstract). 18436

Apple. Scab, mildew, mites; Venturia inaequalis Podosphaera leucotricha, Panonychus ulmi, and Tetranychus telarius. 18738

Apple: Scab and powdery mildew, Venturia inaequalis and Podosphaera leucotricha. 18794

Apple. Powdery mildew, scab; Podosphaera leucotricha, and Venturia inaequalis. 18842

Apple. Scab, mildew, mites; Venturia inaequalis, Podosphaera leucotricha, Panonychus ulmi, and Tetranychus telarius. 18864

Apple. Scab, powdery mildew; Venturia inaequalis, and podosphaera leucotricha. 19085

Bis(p-chlorophenyl)-3-pyridinemethanol (EL-241): A new fungicide for the control of powdery mildew. (Abstract). 23166

PODOSPHAERA LEUCOTRICIA
Apple. Powdery mildew, Podosphaera leucotricia. 18806

Apple. Apple scab and powdery mildew; Venturia inaequalis Podosphaera leucotricia. 18815

PODOSPHAERA OXYACANTHAE
Sour cherries, Leaf spot and powdery mildew, Coccomyces hiemalis, Podosphaera oxyacanthae. 18853

POECILOCERUS HIEROGLYPHICUS
Geotaxis in Poecilocerus hieroglyphicus (Acrididae: Pyrogomorphinre). 15739

POECILOCERUS PICTUS
Testicular and haemolymph amino acids of Poecilocerus pictus (Acrididae). 16379

POECILOMYCES FARINOSUS
Appressorium-like structures in insect parasitizing deuteromycetes. 14224

POISON GLANDS
A morphological and functional study of the venom apparatus in representatives of some major groups of Hymenoptera. 14252

Constituents of Dufour's gland in Myrmecia gulosa. 14872

POISONING
Biochemical and pathological effects of aflatoxin poisoning in ducklings. 13961

Plant poisoning involving male fern. 14503

Encephalomyocarditis virus infections in Florida. 1960-1966. 14509

Secondary poisoning associated with anticoagulant-killed nutria. 14758

Aspirin poisoning in the cat. 14760

An attempt to produce chronic nitrite toxicosis in swine. 14761

The safe use of pesticides. 14762

Fluorosis in a herd of cattle in Kenya. 14764

Ethylene glycol poisoning in poultry. 14765

Mammalian detoxification of insecticides. 14989

In vitro degradation of oxalate and of cellulose by rumen ingesta from sheep fed halogeton glomeratus. 15390

Experimental water intoxication in calves. 15396

Pigweed (Amaranthus retroflexus). an oxalate-containing plant. 15404

Cassia occidentalis toxicosis in cattle. 15410

Vertebral biopsy in cattle. 15445

Note on identification of azinphosmethyl in human tissues. and in figs. 15579

Mammalian detoxification of insecticides. 15602

Acute lead poisoning in swine. 15604

Sheep ectoparasite control. II. Toxicity to sheep, and residues of diazinon and lindane. 16093

Cyanide as a poison in opossum control. 16194

Protecting honeybees from chemical poisons. Sf538 .n3. 16435

Exotic plants--a hazard to animals. 16776

Thallium poisoning in cats. 16915

Sporidesmin poisoning in the sheep. II. A comparison of some changes in clinical signs and serum constituents following sporidesmin poisoning and experimental obstruction of the common bile duct. 17658

Sporidesmin poisoning in the sheep. I. Changes in bile secretion and the excretion of sporidesmin in bile. 17659

Treatment for poisoning by slug bait. 18187

Strychnine levels in tissues and stomach contents of poisoned dogs: An eleven year survey. 18254

Swedish studies of game that had been found dead as well as specimens that had been shot. 18411

Toxic blue-green algae in Saskatchewan. 18414

The toxicology of different organo-mercurials used as fungicides. 18418

The effect on honeybee mortality of applying insecticides as sprays or granules to flowering field beans. 18604

North Carolina insecticide report for january 1-december 31, 1967. 18649

Insecticides and fungicides department. 19060

Swine toxicosis associated with fumigated grain. 19252

Crotalaria intoxication in guinea pigs. 19254

Toxic fungi isolated from tall fescue. 19256

An evaluation of methods for preventing termite damage to buildings. 19907

Mercury poisoning in pigs. 19984

Pharmacodynamic study of DDT in cockerels. 20091

Remedy and treatment for insecticide poisoning. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20094

Protection is vital when using dangerous sprays in glasshouses. 20867

Handling animal poisoning complaints. 20869

Insecticide poisoning: Danger area for the practitioner. 20875

Evaluation of liver function tests and liver biopsy in experimental carbon tetrachloride intoxication and extrahepatic bile duct obstruction in the dog. 20884

Pesticide safety handbook; a guide for users and agriculturalists. SB56.C3. 20938

The effect of chemical control of insects on beekeeping. 21030

Insecticide applications and their effect on wildlife. 21248

Observantions on a poisoning case in sheep grazed on nitrogen treated pastures. 21307

Zieria arborescens (stinkwood) intoxication in cattle. 21402

Protecting honey bees from pesticides. 21510

The toxicity of some soil insecticides to carabid predators of the cabbage root fly (Erioischia brassicae (Bouche)). 21523

Precautions in using insecticides. 21572

Moldy corn poisoning as the major cause of an encephalomalacia syndrome in Egyptian equidae. 22048

Ciguatera poisoning in cats in Brisbane. 22070

Poisoning of bees by insecticides. 22183

Emergence of parasites associated with the cabbage aphid during a chemical-control program. 22400

Field investigations of claims against herbicides. 22792

Avoid dipping losses. 23244

An unusual outbreak of lead poisoning in calves. 23387

POISONOUS FUNGI
Phosphorus content during development of Claviceps purpurea. 18454
Toxic fungi isolated from tall fescue. 19256
Mycotoxicosis in animals, its causes and remedies. 23298
Mushroom poisoning. 23405

POISONOUS PLANTS
The cinnabar moth, Tyria jacobaeae, for control of tansy ragwort. 13945
Fetal ankylosis in horses associated with hybrid Sudan pasture. 13967
Plant poisoning involving male fern. 14503
Properties of toxic fescue extracts. (Abstract). 14770
Cassia occidentalis toxicosis in cattle. 15410
The etiology of legume bloat-nonvolatile acids. 15457
Biotic factors in the control of Aedes aegypti. 15846
Toxic myopathy in Texas cattle. 16033
Poisonous plants and fungi in color. QK100.G7N6. 16218
Ammoniation process for detoxifying the seeds of Crambe abyssinica and rape. Patent 3,392,026. 16527
Exotic plants--a hazard to animals. 16776
Tansy ragwort (Senecio jacobaea), a potential menace to livestock. 16828
A fern poisoning-like disease observed in an improved pasture. 18261
Tall fescue can be controlled. 19934
Toxicity of Crotalaria mucronata to sheep. 19980
Control of the toxic plant, Corona, by means of residual and hormonal herbicides. 19981
Zieria arborescens (stinkwood) intoxication in cattle. 21402
Selection of aphid prey by Adalia bipunctata L. and Coccinella 7-punctata L. 21512
Insecticides from plants. 21802
Poisoning of cattle by Polygala klotzchii, Chodat, in the region of Pontal (State of Sao Paulo). 22062
These plants might spell death to your cattle. 22069
Abortive and teratogenic effects of locoweed on sheep and cattle. 22097
Grazing. Control of noxious plants on land under control or jurisdiction of federal government. 22196
Phalaris can be poisonous. 22198
Phalaris staggers need not be a bogey. 22636
Pigweed (Amaranthus retroflexus): An oxalate-containing plant. 22690
Field investigations of claims against herbicides. 22792

POISONS
In vitro uptake of Selenium-75 by red blood cells from the immature ovine during varying Selenium intakes. 16027
Relative toxicity of insecticides to adult Locusta migratoria Linnaeus. 17187
Relative toxicity of some insecticides as contact poisons to the larvae of Earias fabia Stoll. 17210
Toxic effects of aluminum on Vitis vinifera, Merlot variety, cultivated in a control medium. 17681
Effects of metabolic poisons on rice: the comparative sensitivity of aerobic and anaerobic modes of germination. 17704
Protection against poison when close to insecticides. In: Eichler, W., ed., Handbook of insecticide knowledge. SB951.E4. 20086

POLAND
Parasitic nematodes of the alimentary tract of horses in the Lublin Palatinate. 20833

POLAROGRAPHY
Polarography of trace doses of Karathane. 22234

POLIOMYELITIS
Helminths as vehicles and synergists of microbial infections. 18376
A new cell line of calf kidney and its susceptibility to viruses. 20724

POLLEN
Comparative study of pollen sources of honeybees and bumble bees. 16408
Brood rearing by caged honey bees in response to inositol and certain pollen fractions in their diet. 17174
Chromosomal alternations in pearl millet induced by gammarays. 18465
Effect of fungicides on germination of lowbush blueberry pollen and on number of seeds per berry. 19283
Effect of fungicides on germination of lowbrush blueberry pollen and on number of seeds per berry. 19284
A comparison of the protein quality of pollens for growth. stimulation of the hypopharyngeal glands and longevity of honey bees, Apis mellifera L. (Hymenoptera: Apidae). 20432

POLLENIA RUDIS
Cluster flies in the home. 20945

POLLINATION
Plant-to-plant transfer of stone fruit ringspot virus in squash by pollination. 15035
The foraging behavior of honeybees (Apis mellifera) and bumblebees (Bombus Spp.) on blackcurrant (Ribes nigrum), raspberry (Rubus idaeus) and strawberry (Fragaria x ananassa) flowers. 17732
The pollination of oilseed rape (Brassica napus) and the behaviour of bees on the crop. 19605
The behaviour of pollen foragers which lose their load. 20949
Selective breeding of honeybees for alfalfa pollen: fifth generation and backcrosses. 20966
Crop pollination and the flower relationships of the wild bees of Ludhiana, India (Hymenoptera: Apoidea). 21652
Corn earworm damage to ears with starchy (Su.) versus (su.) kernels on genetically uniform mother plants. (Abstract). 21770
Auxin and gibberellin-like activity in blueberry flowers and fruit. (Abstract). 21790
Honey bees as pollinators of red clover. 21988
Pollen-foraging behavior of Bombus in relation to pollination of nototribic flowers. 23004

POLYBOR 3
Feed additives for control of house fly larvae in livestock feces: 15503

POLYCHLORONAPHTHALENE
Chromatographic studies on preservatives in the wood of some conifers, especially of the genus Abies, Picea, and Pinus. 16105

POLYCHROSIS BOTRANA
Rearing of caterpillars of the eudemis moth (Lobesia botrana Schiff.) on some substituted natural foods. 21728

POLYCYSTUS
The holarctic species of Cyrtogaster Walker and Polycystus Westwood (Hym., Pteromalidae) including the description of a new species of Cyrtogaster from Britain. 22853

POLYDYPSIA
Corticosteroid overdosage in dogs. 16907

POLYENES
Relation of sterols to the differential sensitivity of spores and mycelia of Phytophthora to polyene antibiotics. 17690

POLYETHYLENE
Use of polyethylene bags for corn root infection studies. 15133
Polyethylene liners and fungicides for peaches and nectarines. 15526
Notes on microanalytical techniques in the analysis of foods for extraneous materials. 17792
Aluminum foil and white polyethylene mulches to repel aphids and control watermelon mosaic. 18083
The development of Botrytis cinerea on cut flowers of carnation. 21067
Notice of filing of petition for food additive polyethylene. 21579

POLYETHYLENE THIURAM SULFIDES
Effect of fungicides on germination of lowbrush blueberry pollen and on number of seeds per berry. 19284

POLYGALA
Poisoning of cattle by Polygala klotzchii, Chodat, in the region of Pontal (State of Sao Paulo). 22062

POLYGONIA C-AUREUM
Temperature conditions and maternal effect as modifying factors in the photoperiod control of the seasonal form in Polygonia c-aureum (Lepidoptera, Nymphalidae). 13807
Temperature conditions and maternal effect as modifying factors in the photoperiodic control of the seasonal form in Polygonia c-aureum (Lepidoptera, nymphalidae). 13808

POLYGONUM CONVOLVULUS

Experiments with Tordon herbicide in small grains.
22013

Effect of dicamba on wheat and wild buckwheat at various stages of development.
22024

Wild buckwheat competition in flax.
22571

POLYGONUM PENSYLVANICUM

Atmospheric fumigation of dormant and non-dormant weed seed.
22561

C02:02 ratios in relation to weed seed germination.
22821

POLYHEDROSES

Immunofluorescence studies on Bombyx mori ovarian tissue cultures infected with nuclear-polyhedrosis virus.
13817

Field tests with a nuclear polyhedral virus against the bollworm and tobacco budworm, 1964-1966.
13826

Development of resistance in the silkworm, Bombyx mori, to peroral infection of a cytoplasmic-polyhedrosis virus.
13855

Electrophoretic separation of the hemolymph proteins in the fall webworm, Hyphantria cunea, infected with a nuclear-polyhedrosis virus.
13856

Site of viral RNA synthesis within the midgut cells of the silkworm, Bombyx mori, infected with cytoplasmicpolyhedrosis virus.
13857

Polyhedron size as taxonomic criterion for cytoplasmic-polyhedrosis virus.
14094

Different infection response of silkworm larvae to the locality of cytoplasmic-polyhedrosis virus injection.
14095

Electron-microscope investigation of the structure of the nuclear-polyhedrosis virus of the silkworm, Bombyx mori.
14220

Nuclear polyhedrosis of the gram pod borer, Heliothis armigera.
14242

Infection of cultured silkworm embryos with the cytoplasmic-polyhedrosis virus.
14269

A cytoplasmic polyhedrosis of the cabbage looper, Trichoplusia ni.
14279

Protein synthesis in the tissues of the silkworm, Bombyx mori, infected with nuclear-polyhedrosis virus.
14283

Persistence of Heliothis nuclear-polyhedrosis virus on cotton foliage.
14430

Nucleic acids extracted from the virus polyhedra of the silkworm, Bombyx mori (Linnaeus).
14850

Interference between cytoplasmic-polyhedrosis viruses of the silkworm, Bombyx mori (Linnaeus), and of the pine caterpiller, Dendrolimus spectabilis (Butler).
14852

Fine structure of some insect viruses.
14860

Demonstration of nuclear polyhedrosis in Bombyx mori (Linnaeus) by fluorescent antibody technique.
14903

Adaption of a nuclear-polyhedrosis virus of Trichiocampus viminalis (Fallen) to larvae of Trichiocampus irregulatis (Dyar).
14956

A cytoplasmic polyhedrosis of Cactoblastis cactorum (Berg).
14963

The influence of physical stress on growth and nuclear polyhedrosis of Trichoplusia ni (Huebner).
15242

Report of second work conference on the utilization of nuclear-polyhedrosis virus for the control of Heliothis species.
15740

Bioassay of nuclear-polyhedrosis virus against larval instars of the gypsy moth.
15753

Notice of filing of petition regarding pesticide chemicals.
15822

Bioassay technique for insect viruses.
17089

The differing effectiveness of purified and non-purified suspensions of the nuclear-polyhedrosis virus of Porthetria dispar.
17159

The identification of some Cytoplasmic-Polyhedrosis viruses.
17285

Investigations on the Heliothis nuclear polyhedrosis virus and its development as a biological control agent.
17779

A study of the nuclear polyhedrosis virus on the beet armyworm, Spodoptera exigua (Hubner), with emphasis on stability, pathogenicity and histopathology.
17837

The inactivation of the nuclear polyhedrosis virus of trichoplusia ni by gamma and ultraviolet radiation.
20363

Infection of cultured silkworm embryos with the cytoplasmic-polyhedrosis virus.
21591

Defense reactions of Malacosoma neustria against tachinid larvae with simultaneous occurrence of a nuclear polyhedrosis. (1) (2).
23000

On a nuclear and a cytoplasmic polyhedrosis of Adoxophyes reticulana Hb.
23024

The effectivness of the polyhedrosis virus for control of the cabbage looper, Trichoplusia ni.
23192

POLYMERIZATION

Isolation and characterization of barley stripe mosaic virus protein.
16588

In vitro polymerization of winter wheat mosaic virus antigen.
18767

POLYMERS

Method of controlling undesirable plant growth. patent 3,360,356.
14485

Infrared absorption spectra and polymeric structures of three s-Triazine herbicides and their metabolites.
15657

Organophosphorus substances. QD412.PIK33.
19320

Properties of a plant virus-induced RNA polymerase in cucumbers infected with cucumber mosaic virus.
20534

POLYMORPHISM

Modes of balance in the polymorphism of Philaenus spumarius (L.)(Homoptera).
13867

Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. III. Sternopleural chaetae.
15805

Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. II. Mating behaviour.
15834

Cytogenetic observations on species A and B of the Anopheles gambiae complex.
16491

Biosystematic, cytolobical, and sex ratio studies of closely related bark beetles (Coleoptera0 Scolytidae).
17035

Haemolymph esterases in the female larval honeybee, Apis mellifera L., during caste development.
17213

Polymorphism in the Australian Acrididae. I. Inheritance of colour patterns in the plague locust, Chortoicetes terminifera.
17229

A study of isoenzyme polymorphism in experimental populations of Drosophilia melanogaster.
17236

Electrophoretic variation of proteinase in the digestive juice of the silkworm, Bombyx mori L.
17815

The frequency of occurrence of macropterous forms of normally brachyterous species of Hemiptera-Heteroptera during 1959.
18698

Selection and inversion polymorphism in experimental populations of Drosophila pseudoobscura initiated with the chromosomal constitutions of natural populations.
19765

The polymorphism in Philaenus spumarius (L.) (Hemiptera: Cercopidae) in british Columbia.
19772

Protein differences in Drosophila. IV. A study of sibling species.
19778

A study of isoenzyme polymorphism in experimental populations of Drosophila melanogaster.
19786

Mating propensity, chromosomal polymorphism, and dependent conditions in Drosophila persimilis.
19787

A study of the genus Chrotogonus (Orthoptera). VIII. Patterns of variation in external morphology.
20308

The stability of linked systems of loci with a small population size.
20480

Protein polymorphism in birds. III. The egg white proteins of five families of birds, Phasiniadae, Numididae, Meleagrididae, Anatidae and Columbidae.
21267

Observations on the larva of Hippotion celerio Linnaeus (Lepid., Sphingidae) in Tanzania.
22413

A terminal association of two pericentric inversions in first metaphase cells of the Australian grasshopper Austroicetes interioris (Acrididae).
23078

POLYMORPHUS BOSCHADIS

Studies on the absorption and metabolism of D-(u-14C) glucose by Polymorphus minutus (Acanthocephala) in vitro.
16873

POLYMYXA GRAMINIS

Some factors affecting vector transmission of soil-borne wheat mosaic virus from root washings and soil debris.
15867

POLYMYXIN B

Purification of amphoteric and basic antibiotics. Patent 3,376,339.
14552

POLYOMA VIRUS

Cytologic studies in polyoma virus-infected mouse embryo cells.
22104

POLYPLOIDY

Induced polygenic mutations in hexaploid wheats.
15621

Diploidization of induced tetraploid hybrids of Dactylis glomerata by means of X-ray irradiation.
17254

Tetraploid females in the hymenopteron, Mormoniella.
17906

The effect of polyploidy on plant virus replication and control.
17991

Polyploidy and nuclear fusion in the fat body of Rhodnius (Hemiptera).
21046

Large amounts of ribosomal RNA in colchicine-induced tetraploides of Solanum tuberosum L.
21536

Aneuploidy in an infertile mare.
23320

POLYPORUS BETULINUS
The arthropod fauna associated with the birch bracket fungus Polyporus betulinus, in Eastern Canada.
21722

POLYPORUS DRYOPHILUS VULPINUS
Germination of Polyporous dryophilus var. vulpinus basidiospores. (Abstract).
16216

POLYPORUS HISPIDUS
Development and sporulation of Polyporus hispidus. (Abstract).
22220

POLYPORUS TOMENTOSUS
Fluorescent antibody technique for detection of Polyporus tomentosus.
15104

Comparative susceptibility of large and small spruce roots to Polyporus tomentosus.
16698

Comparative susceptibility of large and small spruce roots to Polyporus tomentosus.
21950

POLYPORUS TSUGAE
Movements, host-fungus preferences, and longevity of Bolitotherus cornutus (Coleoptera: Tenebrionidae).
16397

POLYPORUS VERSICOLOR
Role of nitrogen in wood deterioration. VI. Mycelial fractions and model nitrogen compounds as substrates for growth of Polyporus versicolor and other wood-destroying and wood-inhabiting fungi.
18018

Variation in decay susceptibility of sapwood with season of cutting. (Abstract).
20545

POLYSACCHARIDES
Characterization of Vibrio fetus antigens. IV. Study of polysaccharide-antibody reactions by a rapid slide gel diffusion technique.
15310

Contribution to the histochemical study of the digestive organs of Rhagium bifasciatum. (Col. Cerambycidae).
16390

Clinico-epidemiological and immunological examination of persons, vaccinated and nonvaccinated against brucellosis, subject to infection hazard.
19258

Chemical composition of cell-wall polysaccharide of rough mutants of Salmonella typhimurium.
19969

Immunochemical studies on cell-wall polysaccharide of rough mutants of Salmonella typhimurium.
19982

Production of exocellular polysaccharides by Alternaria solani.
20499

Immunological specificity of soluble polysaccharides of Candida albicans.
20705

Isolation of the group-specific polysaccharide of Mycobacterium tuberculosis.
22130

Composition of specific polysaccharides of a Brucella abortus variant.
23274

POLYSEROSITIS
Pathologic effects of Escherichia coli 083:K:NM in gnotobiotic pigs.
16753

POLYTERPENES
Growth inhibition of Mycoplasma by inhibitors of polyterpene biosynthesis and its reversal by cholesterol.
20119

POLYTETRAFLUOROETHYLENE
Teflon and cornstarch-coated paper as substrates for oviposition by cabbage looper moths.
22408

POLYURIA
Corticosteroid overdosage in dogs.
16907

POLYVINYL CHLORIDE
Coated 2,2-dichlorovinyl phosphate and polyvinyl chloride resin anthelmintic compositions. Patent 3,398,225.
16871

The influence of smoke from the combustion of polyvinyl chloride insulation on northern hardwood forest species. (Abstract).
19316

POMPILIDAE
Results of the Albanian Expedition 1961 of the Deutsches Entomologisches Institut. 67th contribution. Hymenoptera: Pompilidae and Ceropalidae.
14136

Results of Dr. Z. Kaszab's zoological investigations in Mongolia. 118. Ceropalidae (Humenoptera).
15722

Conclusions of the zoological investigations of Dr. Z. Kaszab in Mongolia. 167. Pompilidae (Hymenoptera).
17043

Pompilidae and Sphecidae (Hymenoptera) from Strassfurt (Sachsen-Anhalt).
17048

Observations, including new prey records, of some Nearctic Pompilidae (Hymenoptera).
18633

The prey of a Rhodesian Pompilid wasp.
18661

Mexican and Central American Pompilinae (Hymenoptera, Pompilidae): suppl. ii.
19391

Notes on Parasalius Banks, 1934 (Hymenoptera: Pompilidae Pepsinae).
19517

Host records for some North American Pompilidae (Hymenoptera) with a discussion of factors in prey selection.
20221

PONASTERONE A
Steroids. CCCXXXVI. Synthetic studies on insect hormones. VI. The synthesis of ponasterone A and its stereochemical identity with crustecdysone.
20362

Insect hormones. VI. Confirmation of skeletal structure of ponasterone A.
20400

PONASTERONE B
Insect hormones. V. The structures of ponasterones B and C.
20402

PONASTERONE C
Insect hormones. V. The structures of ponasterones B and C.
20402

PONDS
Seasonal activity of mosquito predators in woodland pools in Ontario.
14316

Results of pre-emergent aquatic herbicides in Illinois.
22574

Evaluation of diquat as an aquatic herbicide applied at 2 gallons per surface acre, under Minnesota conditions.
22586

Persistence of herbicides in ponded water and soils.
22790

The effects of a low-dosage application of antimycin A on several species of fish in Crater Pond, Aroostook County, Maine.
23246

PONTANIA
Czechoslovak species of Pontania crassipes-group (Hymenoptera, Tenthredinidae).
15746

A new genus for the leaf-edge-rolling Pontania (Hym., Tenthredinidae).
18512

POPILIUS DISJUNCTUS
The mechanical breakdown of hardwood in the laboratory by Popilius disjunctus (Coleoptera: Passalidae).
20416

POPILLIA JAPONICA
Some effects of three triphenyltin compounds on the fertility and longevity of Japanese beetles.
13818

Japanese beetle. proposed quarantine in Alabama and certain other states.
14128

Distribution of released Japanese beetles in a grid of traps.
14795

The permanent and cumulative effect of tepa-induced sterility in male Japanese beetles.
16411

Mass sterilization of Japanese beetles with tepa and the determination of residues.
16412

Observations on the infection of Japanese beetle larvae with Bacillus popilliae.
17119

Domestic quaratine notices. Japanese beetles.
18705

Domestic quarantine notices. Japanese beetle. Regulated areas.
18713

POPULATION
A soil population study of Ditylenchus dipsaci (Kuhn) Filipjev in an alfalfa field.
13941

Critical application of logistic principle on the laboratory population of Anthrenus flavipes Lec.
14856

Population trends and movement of Corynebacterium flaccumfaciens var. aurantiacum in tolerant and susceptible beans.
15172

A new approach to the physiological host plant-parasite relationship. A technique in the field of applied entomology.
15989

Effects of dimethoate on small mammal populations.
16186

Dispersal patterns and populations of the house fly affected by sanitation and weather in rural Maryland.
16331

Survival of overwinting alfalfa weevil eggs in Pennsylvania.
16466

Physiological genetics of melanotic tumors in Drosophila melanogaster. IV. Gene-environment interactions of tu-bw with different third chromosome backgrounds.
16498

Field-cage releases of Chrysopa carnea for suppression of populations of the bollworm and the tobacco budworm on cotton.
16712

Infrared aerial color photography for detection of populations of brown soft scale in citrus groves.
17025

Seasonal abundance and distribution of sugarcane stem borers in Nigeria.
17031

Seasonal fluctuations in abundance of various rice stem borers on Luzon Island, Philippines.
17032

Natural regulation and artificial control of brown locust numbers.
17037

Oviposition behavior of the face fly in caged cow manure pats.
17128

Biology and control of the onion thrips in India.
17152

Variations in the photoperiodic response of Neodiprion sertifer.
17209

Reduction of tabanid populations on cattle with sticky traps baited with dry ice.
17221

The effect of linkage on genetic variance.
17232

Genetics of insect vectors of disease. RA639.W7.
17246

Population development of Xiphinema americanum in relation to its role as a vector of tobacco ringspot virus.
17292

A comparison of predator populations in cotton under different control programs in Mississippi.
17389

A preliminary study of corn stunt vector populations in relation to corn planting dates in Mississippi. Notes on disease incidence and severity.
17399

Population studies of plant-parasitic nematodes around sugarcane roots in Nyanza province, Kenya.
17450

Effect of some physical factors on variability within the X. americanum group. (Abstract).
17453

Explorations for variations in the pathogenicity of Haemonchus contortus isolates.
17598

Studies on selection in natural and experimental populations of Drosophila pseudoobscura.
17781

Alate aphid species captured in yellow pans.
17806

Effect of the chemosterilant metepa on the housefly, Musca domestica L.
17848

A red dye to evaluate bait formulations and to mass mark field populations of boll weevils.
17856

Influence of population level and trap spacing on capture of tobacco hor-worm moths in blacklight traps with virgin females.
17861

Endogenous diurnal rhythm of pupation in a mosquito population.
17868

A possible marker for european corn borer moths.
17882

Techniques of marking insects with micronized fluorescent dust with especial emphasis on marking millions of Lygus hesperus for dispersal studies.
17886

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River Mission, Cape York Peninsula, north Queensland. II. Arbovirus infections of mosquitoes, man, and domestic fowls, 1963-1966.
17910

Studies of the epidemiology of arthropod-borne virus infections at Mitchell River mission, Cape York Peninsula, north Queensland. I. Mosquito collections, 1963-1966.
17914

Prevalence of Thielaviopsis basicola in naturally infested soil after cultivation of various crops for five consecutive years. (Abstract).
17997

Control of the birch leaf minor with disulfoton.
18086

Effects on populations of corn rootworms of aldrin residues in soil four years after application.
18087

Black vine weevil larval damage to concord grape roots at different population densities.
18088

Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana.
18090

Further evaluation of acaricides for brown wheat mite control on winter wheat in Kansas, 1963-65.
18091

Egg distribution as a factor in suppressing the green peach aphid by pruning.
18122

The Columbian timber beetle, Corthylus columbianus (Coleoptera: Scolytidae). VIII. Artifacts and characteristics of the host tree.
18129

The relationships between population increase and population density in plant parasitic nematodes.
18148

Horn fly control with coumaphos.
18349

Resistance of cattle to the tick Boophilus microplus (Canestrini). II. Stages of the life cycle of the parasite against which resistance is manifest.
18351

Quantitative studies on the kinetics of establishment and expulsion of intestinal nematode populations in susceptible and immune hosts. Nippostrongylus brasiliensis in the rat.
18364

Experiments concerning the influence of insecticides on arthropod populations.
18578

Population dynamics of Aphis fabae Scop. and the influence of Coccinellidae. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18585

Quantity of aphids required for reproduction by Hippodamia spp. in the laboratory. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
18612

Large numbers of Alphitobius diaperinus Panz. (Col., Tenebrionidae) in broiler houses.
18673

Population studies on the active stages of the black bean aphid, Aphis fabae Scop., on its winter host Equonymus europaeus L.
18694

Microorganisms in paddy soil. S597.R3.
18751

An aphid predator exclusion test. In: Hodek, i., ed. Ecology of aphidophagous insects. SB975.S9.
19071

Pesticide-induced enzyme breakdown of steroids in birds.
19148

The impact of air pollutants on plant populations.
19236

Summary of the photoperiodic effects and determination of the phase characteristics in Locusta migratoria migratorioides, gregarious phase.
19577

Study of a Diprion pini population in the Fontainebleau forest (Hym. Diprionidae). II. establishing a mortality table.
19612

The principles of quantitative ecology and their application in entomology. Symposium, 1967 conference, May 9-11, 1967. Lincoln, New Zealand. Sampling pasture insects.
19640

Occurrence of Teleonemia scrupulosa on Sesamum indicum Linn. in Uganda.
20327

Chemosterilants for control of reproduction in the eye gnat (Hippelates collusor) and the mosquito (Culex quinquefasciatus).
20401

A mutant gene maintained at high frequency in spite of complete selection against the homozygote.
20457

A possible model for speciation by cytoplasmic isolation in the Culex pipiens complex.
20466

Eradication of Culex pipiens fatigans through cytoplasmic incompatibility.
20467

Population structure in the Culex pipiens complex of mosquitos.-
20478

The stability of linked systems of loci with a small population size.
20480

Experimental determination of fitness interactions in drosophila melanogaster by the method of marginal populations.
20482

Plant-herbivore coevolution: Lupines and lycaenids.
20596

The effects of the use of chemical means of plant protection on bird species breeding in caves or niches in fruit orchards.
20660

Insect population control by the use of sex phermones to inhibit orientation between the sexes.
20995

A review of the literature on the spruce budworm Choristoneura fumiferana (Clemens). aQL561.T8M3.
21009

Cannibalism of the pupal stage by adult flour beetles: An experiment and stochastic model.
21010

A trial for the integrated (chemical and biological) control of Musca domestica L. in the Lipari Islands- preliminary note.
21023

Possible use of translocations to fix desirable genes in insect pest populations.
21038

Genetics of natural populations. xl. Heterotic and deleterious effects of recessive lethals in populations of Drosophila pseudoobscura.
21039

Persistence of lethal genes associated SD in natural populations of Drosophila melanogaster.
21045

Seasonal population trends of pests and predators under pesticide treatments in apple orchards with release of some predators.
21187

Heliothis armigera (Hiubner), American hollworm, on wheat in West Kilimanjaro, Tanzania.
21197

Ioxynil: Its effect on wheat yield and weed populations.
21220

The role of chemicals in the general insect control picture.
21617

Development of sampling techniques and life tables for the fir engraver Scolytus ventralis (Coleoptera: Scolytidae).
21658

Biosynthesis and occurrence of free amino acids in eggs of the grasshopper, Aulocara elliotti.
21666

Main currents in research concerning sterilization methods of insects.
21735

The importance of plant protection for world harvest.
21786

The use of attractants in pest control. 21981

The westward movement of pink bollworm. 21995

Research on the chemical control of Acerria sheldoni. 21999

The distribution of the musk rat and its control in Bavaria. 22032

A standard yellow jacket trap for population sampling and control evaluation. 22249

Manifestations of competition in parasite complexes as a problem in biological pest control. 22438

Distribution of Trichoplusia ni eggs and larvae on cabbage plants as a basis for sampling efficiency. 22872

Seasonal distribution of the lesser peach tree borer in Southern Indiana. 22932

Comparison of different methods of counting arthropod populations living off apple trees. 22936

The Trichogrammid parasites of Proceras sacchariphagus Boj., a sugarcane borer of Madagascar. I. Ecology of the autochtonous parasite Trichogramma australicum Gir. The effects of strengthening the parasite population. 22944

Comparative study of the methods of counting Panonychus ulmi Koch populations. 23008

The effect of an experimental spray schedule on the population of Metatetranychus ulmi Koch and Typhlodromus pyri Scheuten. 23067

Population fluctuations in fruit orchard insects. 23070

Population densities of the European red mite and the predaceous mite Typhlodromus (A.) fallacis on apple foliage following treatment with various insecticides. 23211

Changes in guppy populations resulting from exposure to dieldrin. 23390

POPULATION STATISTICS

European corn borer survey finds counts generally lower. 14436

Fluctuations in natural populations of Drosophila with special attention to sex ratio. 16261

Population inter-relationships. I. Evolution in mixtures of Drosophila mutants. 16452

Population ecology of feral house mice. 16899

Some parameters in the role of enemies in the natural control of insect abundance. 16984

A decade of insect population ecology in Japan. 17061

The control of populations through limitation of habitat distribution as exemplified by tsetse flies. 17109

Some recent changes in the approach to studies of climatic effects on insect populations. 17125

The tactics of a predator. 17127

The differing effectiveness of purified and non-purified suspensions of the nuclear-polyhedrosis virus of Porthetria dispar. 17159

The abundance of insects: Introduction. 17189

Pheromones. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17198

Population sample counts on spider mites. 17215

Population models for the winter moth. 17216

Some aspects of mosquito control in California. 17220

Insect abundance: Prospect. 17222

Integrated control. In: Kilgore, W. W. and Doutt, R. L., Pest control; biological, physical, and selected chemical methods. SB950.K5. 17402

Intra-specific mechanisms with special reference to aphid populations. 17407

Assays of natural populations of certain plant-parasite nematodes as influenced by storage conditions and extraction procedures. (Abstract). 17414

Population patterns of nematodes in Lake Champlain. (Abstract). 17428

Population fluctuation of three Pratylenchus spp. on peach under Central Georgia conditions. (Abstract). 17429

The response of a population of Heterodera rostochiensis to cropping rotations that include resistant potatoes. (Abstract). 17432

Effect of organic and inorganic nitrogen on nematode populations feeding on turf. (Abstract). 17433

Influence of soil moisture on Pratylenchus penetrans. 17434

Observations on seasonal population changes of Tylenchulus semipenetrans and the influence of temperature on egg hatch. (Abstract). 17442

The effect of nine parasitic nematode species on growth, yield and quality of peanuts as determined by soil fumigation and correlation of nematode populations with host response. (Abstract). 17449

Some stochastic models for microorganism death kinetics. 17718

The foraging behavior of honeybees (Apis mellifera) and bumblebees (Bombus Spp.) on blackcurrant (Ribes nigrum), raspberry (Rubus idaeus) and strawberry (Fragaria x ananassa) flowers. 17732

Spider populations in grain sorghums. 17784

The effect of carbon source, carbon to nitrogen ratios, and organic amendments on survival of propagules of Verticillium albo-atrum in soil. 17921

Pesticides in the coming struggle for food. 17936

Anthocoris melanocerus as a predator of the green peach aphid on sugar beets and broccoli. 18121

Factors influencing the population fluctuation of Pratylenchus penetrans in soil. III. Host plant species. 18156

Organisation of anti-rat campaigns. 18177

Isolation and characterization of three plaque-type clones of the hickman strain of newcastle disease virus. 18235

Characteristics of a seasonal population of air-borne Fomes fomentarius basidiospores. (Abstract). 18438

A preliminary experimental study of the sex attractiveness of female Lepidoptera Acrolepia assectella (Zeller) under natural conditions. 18553

The role of aphidophagous coccinellids in biological control. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19029

Importance of aphidophagous insects in the regulation of potato aphid. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19046

Natural regulation of alfalfa aphids in California. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19079

A comparison of Pratylenchus spp. (Nematoda) population densities in grass and apple roots. 19101

Population assesment and movement in Ptilomera dromas Breddin (Hemiptera-Gerridae). 19565

Consumption ,by several common arthropod predators of eggs and larvae of two Heliothis species that attack cotton. 19886

Influence of different water supplies on growth and drymatter production of nematode infected potato plants, as well as on the population of the parasite. 19923

Evolution by natural selection and its influence on population fluctuation of insects. 20163

The Culex pipiens fatigans problem in South-East Asia, with special reference to urbanization. 20262

Scolytid pheromones-- Ready or not. 20300

Environmental factors limiting the productivity and size of experimental populations of Drosophila serrata and D. birchii. 20301

Aerial spray operations in the first U. S. Army area. 20384

Plum curculio--Nonfruit hosts and survival (Coleoptera: Curculionidae). 20624

Estimating the number of animals: A rapid method for unidentified individuals. 20652

Changes in the population of Cecidomyiidae. 22398

POPULUS

Pests of poplars and preventive and curative methods of control. sB608.P775D3. 13913

Water stress in relation to initiation and development of Hydoxylon canker of aspen. (Abstract). 15859

Seasonal development and emergence of two species of gall-forming aphids, Pemphigus bursarius and P. nortoni, associated with poplar trees in California. 17297

Chemical treatment of Hypoxylon cankers on aspen. (Abstract). 17959

POPULUS ALBA

Occurrence of poplar cankers caused by Fusarium solani in Iowa. 17975

POPULUS BALSAMIFERA

Effects of added surfactant on toxicity of picloram, 2,4-D and 2,4,5-T to Populus tremuloides Michx. and P. balsamifera L. saplings. 16202

An undescribed gall midge leaf spot of balsam poplar. 16697

POPULUS DELTOIDES

Mycoecology of willow and cottonwood lowland communities in Southern Wisconsin. I. Soil microfungi in the willowcottonwood forests. 16584

Occurrence of poplar cankers caused by Fusarium solani in Iowa. 17975

Susceptibility of weakened cottonwood stems to fungi associated with blackstem.
18055

POPULUS FREMONTI
Seasonal development and emergence of two species of gall-forming aphids, Pemphigus bursarius and P. nortoni, associated with poplar trees in California.
17297

POPULUS GRANDIDENTATA
Occurrence of poplar cankers caused by Fusarium solani in Iowa.
17975

POPULUS NIGRA
Seasonal development and emergence of two species of gall-forming aphids, Pemphigus bursarius and P. nortoni, associated with poplar trees in California.
17297

Effect of sucrose, auxins and gibberellic acid on rooting of stem segemnts of Populus nigra under varying light conditions.
22818

POPULUS TREMULOIDES
Some notes on the study of bark fungi.
14331

Effects of added surfactant on toxicity of picloram, 2,4-D and 2,4,5-T to Populus tremuloides Michx. and P. balsamifera L. saplings.
16202

The mating type factors of Pleurotus ostreatus in a limited geographic area. (Abstract).
16236

Factors affecting the germination of basidiospores of the heart rot fungus, Fomes igniarius in the infection of trembling aspen.
16632

POPULUS TRICHOCARPA
Susceptibility of weakened cottonwood stems to fungi associated with blackstem.
18055

PORCINE ENTEROVIRUSES
Porcine polioencephalomyelitides.
19191

Effect of high levels of carbon dioxide on pigs infected with porcine enterovirus.
20726

Isolation, characterization, and serologic comparison of selected porcine enteroviruses by plaque reduction test.
20741

Porcine enterovirus antisera prepared in chickens.
23272

PORIA CARBONICA
Inhibition of Poria carbonica by Scytalidium sp., an imperfect fungus isolated from Douglas-fir poles.
16662

PORIA WEIRII
Plastic film tube closures in the conservation of fungal cultures.
21089

Selective nitrogen assimilation by Poria weirii.
21189

Difference in phenolic extracts from healthy Douglas-fir roots and those infected with Poria weirii.
21822

PORK
The results obtained in a microbiological examination of the meat of pigs killed because of irradiation sickness.
23319

POROCEPHALOSIS
Porocephalosis caused by Armillifer (Nettorhynchus) armillatus (Pentastomida) Wyman 1847 in cattle and pig (Mali and Upper Volta).
14576

PORTHETRIA
Gypsy moth defoliation.
15235

PORTHETRIA DISPAR
Gypsy moth and brown-tail moth. proposed quarantine in Pennsylvania.
14129

Bioassay of nuclear-polyhedrosis virus against larval instars of the gypsy moth.
15753

Laboratory batch production of Bacillus thuringiensis spores and crystals.
16380

A rack for holding male gypsy moths during laboratory bioassays of airborne attractants.
16999

Effects of the chemosterilant hempa on gypsy moth metamorphosis.
17098

Sexual differential in time of hatch of eggs of the gypsy moth.
17154

Diapause in gypsy moth.
17155

The differing effectiveness of purified and nonpurified suspensions of the nuclear-polyhedrosis virus of Porthetria dispar.
17159

Control of the gypsy moth, Porthetria dispar, in Quebec.
19011

Aspects of mating behavior of the gypsy moth.
19771

Domestic quarantine notices. Gypsy moth and brown-tail moth. I. Quarantine and regulations. II. Regulated areas. III. Exemptions.
21463

PORTUGAL
Note on identification of azinphosmethyl in human tissues. and in figs.
15579

PORTULACA OLERACEA
Herbaceous annual and perennial weeds.
18174

POTAMOGETON
Evaluation of diquat as an aquatic herbicide applied at 2 gallons per surface acre, under Minnesota conditions.
22586

POTAMOGETON CRISPUS
The influence of rooted aquatic plants on the dissolved oxygen content of water.
22805

POTAMOGETON NODOSUS
Control of submerged aquatic weeds in rice fields.
22604

Translocation of herbicides in American pondweed (Potamogeton nodosus Poir.).
22820

POTAMOGETON PECTINATUS
Results of pre-emergent aquatic herbicides in Illinois.
22574

POTASSIUM
Studies on potassium nutrition of plants. II. Some effects of potassium deficiency on the organic acids of leaves.
14369

Studies on reticulo-rumen sodium and potassium concentrations and electrical potentials in sheep.
15672

Whole body turnover of potassium traced by radiorubidium in adult Drosophila (Drosophilidae) and Megaselia (Phoridae).
16384

Mineral nutrition of cacao (Theobroma cacao L.). Comparison of plant growth and nutrient content of leaves of six C.R.I. varieties grown in optimum and deficient conditions in sand culture.
16524

Effects of N, P, K, and inoculum density of Verticillium dahliae on populations of Pratylenchus penetrans in roots of American elm and sugar maple. (Abstract).
16570

Active transport by the cecropia midgut. III. Midgut potential generated directly by active K-transport.
17121

Active transport by the cecropia midgut. V. Loss of potassium transport during larval-pupal transformation.
17122

Active transport by the cecropia midgut. IV. Specificity of the transport mechanism for potassium.
17175

Certain effects of benzimidazole on young tobacco plants.
17256

Stomatal conductivities in K-deficient leaves of maize (Zea mays, L.).
17268

The association of free amino acids of cotton leaves with resistance to xanthomonas malvacearum caused by the B4 gene and the influence of nitrogen and potassium nutrition.
17314

Effects of a potassium deficiency on calcification of bone in chicks.
17479

Calcium inhibition of potassium absorption in corn roots.
17686

Effects of nitrogen and potassium on the iron metabolism of greenhouse-grown apple trees.
17714

Permeability and excitation of insect muscle.
17896

Differing efficiences of potassium utilization in strains of snapbeans, Phaseolus vulgaris L.
18937

Vasopressins and the increase of water and electrolyte excretion by sheep, cattle, and camels.
19188

Effects of different concentrations of sodium, potassium and calcium on the rate of heart beat of Madiera cockroach, Leucophaea maderae Fabr.
19720

Haemocytes and the measurement of potassium in insects blood.
20983

Greenhouse assays diagnose sugar beet problems in delta soils.
21061

The relationship between calcium magnesium, and potassium accumulation and titratable acidity in the leaves of selected McIntosh apple clones. (Abstract).
21841

Up to date weed control in horticulture.
22022

Chenopodium amaranticolor nutrition affects cucumber mosaic virus infection.
23128

POTASSIUM AZIDE
Method for regulating plant growth. Patent 3,376,126.
14777

Aquatic herbicidal methods. Patent 3,376,127.
19123

POTASSIUM CHLORIDE
Grass tetany - effects of environment and fertilizers on pasture histamine levels.
16031

POTASSIUM CYANATE
A method of collecting planthoppers and leafhoppers in the field in winter. Transl. 16921.
16992

POTASSIUM GIBBERELLATE
Value of a plant growth retardant for isolating soil fungi.
16920

POTASSIUM NITRITE
An attempt to produce chronic nitrite toxicosis in swine.
14761

Investigations on teratogenic effects of dietary nitrate in the rat and excess vitamin A in the dog.
17588

POTASSIUM PERMANGANATE

The inactivation of veinbanding and latent C viruses in strawberries by heat treatment.
19805

POTASSIUM PHOSPHATE

In vitro increase in virus infectivity. il.
15221

Reducing spring discharge of Venturia inaequalis ascospores by composting overwintering leaves.
17929

POTASSIUM SORBATE

Use of potassium sorbate, diethylpyrocarbonate and heat for the preservation of prunes at high moisture levels.
20068

POTATO SEEDS

Interaction of temperature and gibberellin on potato seed germination.
22217

POTATOES

Studies on potassium nutrition of plants. II. Some effects of potassium deficiency on the organic acids of leaves.
14369

Effect of ethanol fixation on potato virus X particles. (Abstract).
14384

Inhibition of phenol oxidation by Erwinia carotovora in potato tuber tissue and its significance in disease resistance.
14392

Occurrence of Bracon gelechiae Ashmead as a parasite of potato tuber moth, Gnorimoschema operculella (Zeller) in the field in Mysore State and Assam and its other hosts recorded in India.
14448

What can be deduced from the potato cyst nematode analysis according to the cyst figure .
14458

Attack by the potato cyst nematode does not always show above the ground.
14459

Breakdown of 14C-chlorfenvinphos insecticide on crops.
14628

2-methyl-2-(methylthio)propionaldehyde O-(methylcarbamoyl)oxime. notice of extension of temporary tolerance.
14644

Notice of filing of petition regarding pesticide chemicals.
14660

Notice of withdrawal of petition regarding pesticides.
14661

Notice of filing of petition regarding pesticides.
14676

Notice of filing of petition regarding pesticides.
14706

Notice of filing of petition regarding pesticides.
14711

Notice of filing of petition regarding pesticides.
14719

Notice of filing of petition regarding pesticides.
14727

Notice of withdrawal of petition regarding pesticides.
14735

Notice of withdrawal of petitions for pesticide chemical and food additive.
14742

Notice of filing of pesticide and food additive petitions.
14748

Notice of withdrawal of petition regarding pesticides.
14750

Steroid alkaloids in the disease resistance of white potato tubers.
14995

Serology of the potato spindle tuber virus.
15009

Effect of incubation temperature on length and infectivity of potato virus X particles in four host species.
15068

Symptomless hosts of the potato spindle tuber virus.
15146

Base composition of soluble ribonucleic acid from Phytophthora infestans.
15149

Soil treatments with broadcast or band applications of organophosphorous or carbamate insecticides for prevention of wireworm damage to potatoes.
15227

Stimulation of hatching of the potato-root eelworm Heterodera rostochiensis by ion exchange resins.
15254

Chemotherapeutic control of a root-knot nematode.
15258

Effect of major and minor gene interaction on adaptive parasitism in phytophthora infestans.
15631

Rates of phenolic synthesis in potato roots resistant and susceptible to Veritcillum alhoatrum. patil, s s.
15654

Alate aphids trapped in potato fields in Cumberland, Westmorland and Northumberland.
15729

Vein enation and leaf drop of tomatoes grown in controlled environment chambers. (Abstract).
15916

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Paraquat.
16143

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Triphenyltin hydroxide.
16156

Induction and repression of polygalacturonase synthesis in Verticillium albo-atrum. (Abstract).
16223

The biology of Campoplex haywardi (Hymenoptera: Ichneumonidae), a primary parasite of the potato tuberworm.
16418

Preparation of antiserum against stolbur virus.
16579

Process for oxidizing soluble alkylene bisdithiocarbamates to produce an oxygen containing product, and the product of said process. Patent 3,401,182.
16591

Susceptibility and hypersensitivity to tobacco mosaic virus in wild species of potatoes.
16603

Interactions between Verticillium albo-atrum and Pratylenchus penetrans in the Verticillium wilt of potatoes. (Abstract).
16642

Effect of trace-elements bound to superphosphates on the resistance of potato tubers to Phytophthora infestans (Mont.) de Bary.
16643

Field evaluation of insecticides for the control of aphids on potatoes.
16657

Eradication of potato virus X and S by thermotherapy and axillary bud culture.
16680

Effects of ultrasonic treatment on turnip mosaic virus and potato virus X.
16688

Insecticides applied to the soil for control of eight species of insects on Irish potatoes in Virginia.
16706

First record of the occurrence of Heterodera rostochiensis in Panama.
16722

The residues of Disyston in potato tubers.
16906

Somatic aberrations in Solanum tuberosum induced by ethyl methane sulfonate and X-irradiation.
16936

Isolation of phagostimulative substances from the host plant of the Colorado potato beetle.
17382

Taxonomy life cycle and host range of Heterodera mexicana n. sp. (Nematoda Heteroderidae).
17418

The response of a population of Heterodera rostochiensis to cropping rotations that include resistant potatoes. (Abstract).
17432

Flame, alone and in combination with herbicides, for weed control in corn, potatoes, and several cole crops.
17465

Carbohydrate distribution in grafted potato plants representing two types of resistance to virus X.
17948

Distribution in Ontario of Verticillium strains causing wilt of potatoes.
17963

Potato spindle tuber virus: in situ sensitivity of the infectious agent to ribonuclease. (Abstract).
17974

Effect of variety on the control of potato late blight with fungicides. (Abstract).
18013

A study on auxin and chlorogenic acid in leaf-roll resistant and susceptible potato varieties.
18032

Cross protection between a plant virus and potato psyllid yellows.
18067

The influence of crop-rotation on the attack of carrots by Meldidogyne hapla Chitw. and symptom formation.
18068

Isolation and electron microscopy of potato leafroll virus from plants.
18102

The effect of ultra-violet radiation on the invasion, survival and fertility of larvae of Heterodera rostochiensis.
18136

The yield of potatoes resistant to Heterodera rostochiensis on infested land.
18140

The effect of environment on sex determination in Heterodera rostochiensis.
18154

Factors influencing the population fluctuation of Pratylenchus penetrans in soil. III. Host plant species.
18156

Wound-induced gibberellins.
18467

Alate aphids trapped in potato fields in Cumberland, Westmorland and Northumberland.
18556

Potato. Seed piece decay, Rhizoctonia solan.
18725

Potato. Late blight, Phytophthora infestans.
18795

Potato. Late blight, Phytophthora infestans.
18796

Differentiation in Phytophthora infestans. I. A comparative study of eight different biotypes.
18820

Methods of measuring the prevalence of pathogenic fungi on potato tubers.
18843

Potato. Scab, Streptomyces scabies.
18879

Potato. Late blight, Phytophthora infestans.
18880

Investigations on the influence of crop rotation on the population density of free-living nematodes in connection with the corky ringspot disease of potatoes. I. Population density of the nematodes.
18917

Potato. Late blight, Phytophthora infestans.
18927

Potato. Verticillium wilt, Verticillium alboatrum and Verticillium dahliae.
18934

Potato. Verticillium wilt, Verticillium alboatrum and Verticillium dahliae.
18935

Further observation on the time requirement for hypersensitive cell death of potatoes infected by phytophthora infestans and its relation to metabolic activity.
18961

Potato. Early blight, Alternaria solani.
18977

Keys to the Heterodera group and species of the Heterodera rostochiensis group .
19023

Importance of aphidophagous insects in the regulation of potato aphid. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9.
19046

An aphid predator exclusion test. In: Hodek, i., ed. Ecology of aphidophagous insects. SB975.S9.
19071

New herbicides containing nitrogen.
19116

A pathological problem associated with prepackaging of potato tubers.
19230

Chymotrypsin inhibitor I from potatoes: a transient protein component in leaves of young potatoe plants.
19299

Action of potatoe peel extracts in modifying tuber dormancy.
19312

The problem of isolation of the X virus inhibitor from potato leaf sap.
19802

Sensorial analysis on tubers of native potatoes treated with insecticides.
19806

Fungicides for the control of diseases on the aerial portion of the plant.
19812

Phosphorus disturbances associated with potato leafroll virus infection.
19858

Potato production using resistant varieties on land infested with potato cyst-eelworm, Heterodera rostochiensis Woll.
19881

Study on the use of phosphine to combat the white louse of the potato--Pseudococcus maritimus (Ehrh).
19894

Influence of different water supplies on growth and drymatter production of nematode infected potato plants, as well as on the population of the parasite.
19923

Field assays of fungicides on small potatoes.
19927

Studies on alternate hosts of Myzus persicae (Sulz.) in Rhodesia.
20162

Experiments on the quantity of sprayfluid in preventive spraying against late blight.
20530

Research on the interactions of Colletotrichum coccodes (Wallr.) Hughes and its principle hosts: Solanum tuberosum L. and Lycopersicum esculentum L.
20532

The viruses in potato fields; a study about possibilities for basic seed potato growing in Slovenia and Gorski kotar. SB736.K8.
20542

Second-year potato culture.
20625

Test of herbicides in pre-plant and in pre-emergence on potato crop.
20635

On cyst colour changes, bionomics and distribution of potato cyst-eelworm (Heterodera rostochiensis Woll.) pathotypes in the East Midlands.
21071

Effects of growth regulators, CCC and B9, on some potato varieties.
21074

Effect of pentachloronitrobenzene on quality of potatoes.
21093

Elimination of potato virus X in the potato variety Dianella.
21110

Experiment results and problems of phytopathogenic viruses in German Democratic Republic.
21134

Phoma leaf spot of tomato and potato in Hawaii.
21146

Inactivation of potato leaf roll virus in tubers by hot water treatment.
21165

New spider mite poses threat to California's solanaceous crops.
21196

Resistance to the potato cyst-nematode, Heterodera rostochiensis, in the plant genus Lycopersicon.
21208

Susceptibility of eighteen potato varieties to Meloidogyne hapla.
21209

Translocation of tritium-labelled gibberellic acid in pea stem segments and potato tuber cylinders.
21527

Large amounts of ribosomal RNA in colchicine-induced tetraploides of Solanum tuberosum L.
21536

Important plant protection problems in Bavarian agriculture.
21776

Accumulation of hypoxanthine in potato leaves and its effect on spore germination in Phytophthora infestans.
21838

Influence of Rhizopus nigricans Ehrenb. on the development of Alternaria solani (Ell. and Mart.) Jones and Grout.
21840

Production of pectic and cellulolytic enzymes by Phytophthora infestans de By. II. Infection of potato tubers.
21860

Systematic breeding programme to combine resistance to Phytophthora and the quality of the potato variety Bintje.
21915

Problems of nematode control in Bavarian potato cultures.
22003

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Methoxychlor.
22189

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid.
22190

New directions in virus control in vegetable and potato cultivation.
22231

Determination of the inhibition activity in the sap from potato leaves with regard to the X-virus by means of a serological method.
22503

Late blight of potatoes.
22520

The hosts and life histories of three mirid bugs of economic importance with notes on their control.
22543

South American origin of European pathotypes of the potato-root eelworm, Heterodera rostochiensis Wollenweber .
22545

Flavianic acid as a hatching and stimulating agent for Heterodera rostochiensis cysts.
22548

Pototo cultivation and the root-lesion nematode of tea.
22551

Chemical weed control in potato (Solanum tuberosum L.)--a review.
22595

Symptoms and characteristics of Pratylenchus brachyurus infestation on stored potatoes.
22788

The action of several inhibitors on the respiration of plant tissues treated with gibherellic acid.
22807

The interrelationships of the causal fungus of brown root rot of tomatoes and potato root eelworm, Heterodera rostochiensis Woll.
23096

Correlation of photoperiod with tuberization and susceptibility of potato to Verticillium alboatrum.
23118

Field trials with fungicides for potatoes.
23119

The improvement of the potato with regard to the principal viruses responsible for its degeneration in Belgium.
23146

Virus-free potatoes: A reality.
23165

Soil-borne virus diseases of potatoes.
23169

The effect of aphids on seed and ware crops.
23181

Extraction, standardization and assessment of the volatility of the sex attractants of Heterodera rostochiensis Woll. and H. schachtii Schm.
23216

Weed control in potatoes.
23239

Metabolic disturbances in Nicotiana glauca, a symptomless carrier of potato witches' broom.
23342

POTENTIOMETRY

Potentiometric determination of phosphine.
14786

Investigations on fungicidal activity of combined fungicides.
16638

Micro-potentiometric pH determinations of muscoid maggot digestive tracts.
17117

Mechanical and electrical activity in the indirect flight muscles of the honey bee.
17820

Receptor potentials of single visual cells of Calliphora erythrocephala: An analysis.
20447

Toxic effect of some molluscacide mixtures.
23408

POULARD WHEAT

A second gene for resistance to Puccinia graminis f sp tritici in the Red Egyptian 2D wheat substitution line.
18024

POULTRY

Incidence of listeriosis in Pennsylvania livestock.
13969

Field test to determine the effectiveness of coumaphos as a feed additive to control house fly larva under caged layers.
13980

Detection of Clostridium botulinum type C cells and toxin by the fluorescent antibody technique.
14522

Virus isolation aus den caecalen Tonsillen des Huhnes (Virus isolation from the cecal tonsils of hen). 14523

Control of chicken body, shaft, and wing lice on laying hens by self-treatment with insecticide dusts and granules. 14580

The control of poultry lice and mites with several organic incecticides. 15240

Report on the pullorum disease testing results for the 32nd northeastern conference on avian diseases. 15312

Physicochemical properties of the infectious bursal agent (IBA). 15326

Newcastle disease immunity in broilers and caponettes vaccinated with killed-virus and live-virus vaccines. 15349

Escherichia coli serotypes isolated from salpingitis and chronic respiratory disease of poultry. 15373

Detection of bacterial contaminants in live virus poultry vaccines. 15384

Improved staining method for leucocyte count of poultry. 15444

Coexistence of infectious bronchitis and infectious laryngotracheitis. 15451

Ingestion of Ammi visnaga seeds and photosensitization - The cause of vesicular dermatitis in fowls. 15478

Effects of vitamin-A deficiency and high-level chlortetracycline on experimental candidiasis of turkeys. 15479

Experimental photosensitization by spring parsley (Cymopterus watsonii) in chicks. 15494

Revaccination of chickens against Newcastle disease by vent, wing-web, and intramuscular routes. 15495

The spectrophotofluorometric determination of buquinolate in poultry tissue and eggs. 15511

Field trials with hygromycin as an anthelmintic in poultry. 15512

Toxicity of topically applied fats and oils. 15520

A survey to determine the salmonella contamination rate in livestock and poultry feeds. 15535

Carbarsone and antibiotics in poultry feed. Proposed revocation of exemption from certification requirements. 16084

Milk, eggs, meat, and/or poultry. Pesticide tolerances; policy statement. 16140

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Pesticide tolerances regarding milk, eggs, meat, and/or poultry; statement of policy. 16174

Selenium-responsive diseases of animals in New Zealand. 16746

Naphthoquinone compounds. Patent 3,393,211. 16774

Isolation of mircobacterium tuberculosis human types from the organs of home-produced poultry. 17540

Immunity to Eimeria brunetti and Eimeria maxima infections in the fowl. 17570

Contribution to the knowledge of parasitic fauna in fowls within Serbia. V. Ectoparasites of fowls in the vinicity of Lazarevac. 17616

Bacteriological studies of poultry litter fed to livestock. 18203

Some nutritional aspects of dietary magnesium in ruminants and poultry. 18227

Lipids of Venezuelan equine encephalomyelitis virus and their relationship to the lipids of the host. 18256

Serological tests for the detection of antibodies to Mycoplasma gallisepticum in chickens and turkeys. 18266

Histopathological aids to the diagnosis of certain poultry diseases. 18284

The role of the epidemiologist in the control and eradication programs of poultry diseases. 18296

An outbreak of Ornithosis in fowls. 18318

Agricultural (livestock) wastes. 18404

Compositions and methods for modifying ling coccidiosis in poultry. Patent 3,382,148. 19207

The taeniacidal action of dichlorophen in poultry. 19222

Passive haemagglutination test in ducks and fowls artificially infected with Mycobacterium avium. 19978

Statistical estimation of worm burdens (Ascaridia galli) in chickens. 20054

Sanitation in poultry husbandry. 20666

Serological survey on infectious respiratory diseases of poultry in Okinawa. 20737

An outbreak of subclinical Newcastle disease in Northern Ireland. 20743

Helminthofauna of domestic fowl, pheasants and partridges in the country. 20809

Effects of an ultraviolet radiation on invasions of Ascaridia galli. 20813

Studies on avian malaria in Japan. II. Pathogenicity of the parasite. 20819

Drug residues in lamb carcasses fed poultry litter. (Abstract). 21243

The pharmacological effect of Baymix (coumaphos) on poultry. 21279

Salmonella and total count reduction in poultry treated with sodium hypochlorite solutions. 21300

The distribution of nerves, monoamine oxidase and cholinesterase in the skin of poultry. 21362

The effect of stilbestrol on the mobilization of lipoproteins in the blood serum of cocks. 21409

Mechanism of egg transmission of Mycoplasma gallisepticum. 21421

Arsenic. Proposed tolerances for residues in edible tissues and byproducts of swine. 21504

National poultry and turkey improvement plans and auxiliary provisions. Notice of proposed rule making. 22045

Marek's disease. 22055

Studies on pathology of respiratory diseases of poultry with special reference to viral and P. P. L. O. infections. 22122

Purina poultry worming tablets. Drugs for veterinary use; drug efficacy study implementation. 22152

Lice of poultry. 22153

How to get rid of ectoparasites of poultry. 22156

Immunologic response of fowl to Mycoplasma gallisepticum and its relationship to latent infection. 22710

Characterization of the malaria pigment (hemozoin) from the avian malaria parasite Plasmodium lophurae. 22725

Avian leukosis from the point of view of avian viral tumors. 22744

Control of coccidiosis in poultry. Patent 3,422,200. 22771

Coccidiosis of poultry. 23340

Controlling external parasites of poultry--recommended pesticides. 23352

A progress report on insecticide resistance in the fly complex...of California poultry ranches. 23355

POULTRY DISEASES

Infectious laryngotracheitis of poultry. 22125

Scaly leg in poultry--a parasitic disease. 22150

Studies on staphylococcosis in chickens. II. Pathogenicity of staphylococcus aureus of chicken origin for various experimental animals. 22681

Fowl pox--a costly disease cheaply prevented. 22730

POULTRY FARM MANAGEMENT

Fatty liver studies in laying hens. 16750

Influence of different forms of management on the incidence of helminth parasitism in poultry. 22164

POULTRY HATCHERIES

Hatchery spread of pullorum disease through debeaking. 15389

Hatchery sanitation as a control measure for aspergilossis in fowl. 15496

Hatchery sanitation. 15497

Probelm of avian leukosis in Lahore. 22134

POULTRY INDUSTRY

Culture survey of Salmonella at a broiler-raising plant. 16024

POWDERY MILDEW

Studies of the development of powdery mildew (Erysiphe graminis f. sp. hordei Marchal) on barley. II. Primary appressoria formation. 16654

Vapour action of fungicides against powdery mildews. 21098

Respiratory patterns in Trifolium pratense inoculated and noninoculated with Erysiphe polygoni. 21881

POWDERY MILDEW (APPLES)

Intensive field comparison of fungicides for apple mildew control. 18781

On the relative susceptibility of apple varieties to powdery mildew. 18972

Podosphaera leucotricha. 19832

POWDERY MILDEW (BEANS)

Chemical constitution and fungitoxicity of imides and their imide-SCCl3 compounds. 15905

Systemic action of 2-chloro-4-diisobutyl-6-nitrophenol against powdery mildew of snap-bean. (Abstract). 16572

POWDERY MILDEW (BEETS)

Erysiphe betae. 19831

POWDERY MILDEW (CANTALOUPES)

Control of powdery mildew on cantaloupe. 21147

POWDERY MILDEW (GRAPES)

A new contribution to the use of wettable sulphur against powdery mildew of vine: Experimental results. 18876

Powdery mildew of the grapevine. 21899

POWDERY MILDEW (LETTUCE)

Erysiphe cichoracearum. 19833

POWDERY MILDEW (OATS)

Wetting ability of cationic surface-active agents and their control of oat powdery mildew. 18953

POWDERY MILDEW (PEACHES)

The orchard development of peach powdery mildew. 15216

POWDERY MILDEW (PLANTS)

Erysiphe graminis. 19830

Podosphaera tridactyla. 19840

Six powdery mildews from Jammu and Kashmir state. 21912

Bis(p-chlorophenyl)-3-pyridinemethanol (EL-241): A new fungicide for the control of powdery mildew. (Abstract). 23166

POWDERY MILDEW (STRAWBERRIES)

Control of strawberry powdery mildew. 23151

POWDERY MILDEW (WHEAT)

Plant disease pitfalls for high yielding wheats in India. 14382

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 15911

Effect of genes for resistance in wheat upon the development of Erysiphe graminis f. sp. tritici. (Abstract). 15949

Seedling resistance to powdery mildew of Purdue 5752Cl-7-5-1 wheat derived from Triticum timopheevi. (Abstract). 17987

POXVIRUSES

A contagious pox disease in monkeys. 14516

Isolation of a paravaccinia virus from a cow in Japan. 17551

Bovine virus diarrhea in Italy. I. Isolation and characterization of the virus. 22641

PRAIRIES

A thesis of Mme G. Ricou, on lasting prairie pasturage, a biocenological study of natural environment. 16514

PRAON

Insect predators of mummified pea aphids. 14280

PRAON EXSOLETUM PALITANS

Bioclimatic studies of the aphid parasite Praon exsoletum. I. Effects of temperature on the functional response of females to varying host densities. 16432

PRATYLENCHUS

Root-lesion nematodes associated with forage legumes in the Maritime Provinces. 14461

Interactions between Verticillium albo-atrum and Pratylenchus penetrans in the Verticillium wilt of potatoes. (Abstract). 16642

Development of the reproductive system in some Pratylenchus species. (Abstract). 17447

Population studies of plant-parasitic nematodes around sugarcane roots in Nyanza province, Kenya. 17450

Tobacco root-knot and lesion nema., Meloidogyne sp. and Pratylenchus sp. 19022

A comparison of Pratylenchus spp. (Nematoda) population densities in grass and apple roots. 19101

A comparison of cereal root eelworm resistant and susceptible spring barley genotypes at two sites. 21206

Nematode damage in cereals. 21214

Concerning the distribution of freely occurring nematodes of the genus Pratylenchus on agriculturally used areas in westphalia-Lippe. 22005

Symptoms and characteristics of Pratylenchus brachyurus infestation on stored potatoes. 22788

Soil fumigation for control of Verticillium wilt of eggplant. 23144

PRATYLENCHUS BRACHYURUS

Some effects of Pratylenchus brachyurus upon Spanish peanuts. (Abstract). 17417

Population fluctuation of three Pratylenchus spp. on peach under Central Georgia conditions. (Abstract). 17429

Migratory endoparasitic nematodes reared on carrot discs. 17441

Tobacco (shade-grown), root rot complex predominately Pratylenchus penetrans and Pratylenchus brachyurus. 19086

Inoculation methods with the root lesion nematode Pratylenchus brachurus and symptom expression on tobacco. 21183

PRATYLENCHUS PENETRANS

Effects of N, P, K, and inoculum density of Verticillium dahliae on populations of Pratylenchus penetrans in roots of American elm and sugar maple. (Abstract). 16570

Interactions between Verticillium albo-atrum and Pratylenchus penetrans in the Verticillium wilt of potatoes. (Abstract). 16642

Lesion nematode injury to cabbage. (Abstract). 17410

Thermotropic response of Pratylenchus penetrans and Ditylenchus dipsaci. (Abstract). 17424

Influence of soil moisture on Pratylenchus penetrans. 17434

Overwintering of Pratylenchus penetrans in a sandy loam and a clay loam soil at Ithaca, New York. 17435

Quantitative evaluation of the effect of Pratylenchus penetrans on root development of seedling soybeans under defined conditions. (Abstract). 17454

Separation of eggs of Pratylenchus penetrans from plant tissue culture by sucrose gradient centrifugation. (Abstract). 17455

Attempted cultivation of nematode cells. (Abstract). 18133

Plant-parasitic nematodes in grape and raspberry soils of Ontario and a comparison of extraction techniques. 18153

Factors influencing the population fluctuation of Pratylenchus penetrans in soil. III. Host plant species. 18156

Apples. Root lesion nematode, dagger nematode; Pratylenchus penetrans, Xiphinema americanum. 18735

On the isolation of the endoparasitic root-nematode. 18992

Cherry (sweet). Root lesion nematode, Pratylenchus penetrans. 19038

Tobacco (shade-grown), root rot complex predominately Pratylenchus penetrans and Pratylenchus brachyurus. 19086

The feasibility of using plant pathogenic nematodes produced in monoxenic culture for nematocide screening. (Abstract). 23218

Relationship between sample size and emergence of Pratylenchus from roots. (Abstract). 23223

PRATYLENCHUS SCRIBNERI

The ecological relationship of Fusarium moniliforme to Pratylenchus scribneri in seedling blight of corn. (Abstract). 20506

PRATYLENCHUS VULNUS

Population fluctuation of three Pratylenchus spp. on peach under Central Georgia conditions. (Abstract). 17429

PRATYLENCHUS ZEAE

Seasonal population dynamics of Belonolaimus longicaudatus, Meloidogyne incognita, Pratylenchus zeae, Trichodorus christiei and Tylenchorhynchus claytoni. (Abstract). 17415

Population fluctuation of three Pratylenchus spp. on peach under Central Georgia conditions. (Abstract). 17429

PRECIPITATION

Differences in insect abundance and diversity between wetter and drier sites during a tropical dry season. 14066

Fluctuations in natural populations of Drosophila with special attention to sex ratio. 16261

Constituents of the cotton bud. XI. Studies of a feedingstimulant complex from flower petals for the boll weevil. 17403

Carabidae and Staphylinidae occuring on soil surface in lucerne fields. 21987

Contributions to the biology of the bumble bee. 22387

A survey of the wild species of Drosophilidae within multiple role of fungal centrioles. (Abstract) Monongalia County, West Virginia. 23418

PRECIPITIN TEST

Preliminary experiments with antigens of Theileria parva (Theiler, 1904). 14514

Detection of precipitins against Brucella ovis. 15406

Preliminary host preference studies of Culex tarsalis Coquillett and Culiseta inornata (Williston) in Utah. 15741

A comparison of the electron microscope, microprecipitin tests, and indicator plants for the detection of potato viruses S, X, and Y. 16667

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Serologic and intradermal tests. 22697

Immunochemical studies of foot-and-mouth disease. III. Acridine orange staining of agar gel precipitin reactions. 23268

PREDACEOUS FUNGI

Monacrosporium rutgeriensis sp. n., a nematode-trapping hyphomycete. 16561

The action of calcium cyanamide on some fungus predators of nematodes. 22553

PREDACEOUS INSECTS

Laboratory observations on certain mosquito larval predators. 13736

Effect of temperature on predation of horn fly larvae by the larvae of Sphaeridium scarabaeoides. 13770

Influence of the proportion of fruiting to non-fruiting clusters on the distribution of insect predators on apple trees. 13824

Use of chemical defoliants on peach trees in integrated program to suppress populations of green peach aphids. 13933

A systematic revision and biological review of the cecidomyiid predators (Diptera: Cecidomyiidae) on world Coccoidea (Hemiptera:Homoptera). 14056

Occurrence of Toxorhynchites rutilus septentrionalis (Dyar and Knab) in Indiana. 14057

Bionomics of Cerceris simplex graphica at Lake Texoma (Hymenoptera: Sphecidae: Philanthinae). 14081

A new subgenus for Leucopis luteicornis Malloch, a predator on mealybugs in India (Diptera: Chamaemyiidae). 14121

The feeding habits of adults of Chrysopa californica Coquillett (Neuroptera: Chrysopidae). 14184

The eggs and oviposition sites of Hyaliodes vitripennis on apple trees (Miridae: Hemiptera). 14201

Study on spiders (particularly referring to grass-spiders) to prey upon fall-web worms (Hyphantria cunea Drury). 14215

The biology of Montandoniella moraguesi Puton, a predator of Gynaikothrips ficorum Marchal, in Egypt (HemipteraHeteroptera: Anthocoridae). 14271

Insect predators of mummified pea aphids. 14280

Spiders associated with the fall webworm, Hyphantria cunea (Lepidopterai Arctiidae). 14282

Summary of parasite and predator liberations in Canada and of insect shipments from Canada in 1966. sB975.C3. 14289

Observations on Toxorhychites splendens (Wiedemann) (Diptera: Culicidae) in Singapore. 14306

Seasonal activity of mosquito predators in woodland pools in Ontario. 14316

A light-weight cage to confine small insect predators with their prey on the host plant. 14793

Estimation of Dendroctonus brevicomis (ColeopteraScolytidae) mortality caused by insect predators. 14806

Seasonal changes in the abundance of certain aphids and their predators in Ogiza.. 14854

Biotic potential of phytoseiid mites fed on virus-infected citrus red mites. 14950

On the ecology of Anthocoris nemorum (L.) (HemipteraHeteroptera). 15703

Notes on Coccinellidae of Hong Kong. 15728

Host specificity tests with Uroplata girardi Pic., a leafmining hispid from Lantana camara L. 15747

Nesting behavior of Tachytes (Tachyplena) praedator Fox, with a review of the biology of the genus (Hymenoptera: Sphecidae: Larrinae). 15782

Reduviid bugs. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15808

Insect parasites and predators. In: Smith, C.N. Insect colonization and mass production. QL497.S6. 15810

The role of parasites and predators in integrated control. In: FAO symposium on integrated pest control, Rome, 1965. Proceedings. 15992

Some raphignathoid mites from Israel. 16298

Preliminary report on the introduction of Phytoseiulus persimilis to Poland. 16421

Field trials to control Colorado beetle, leptinotarsa decemlineata, with Perillus bioculatus. 16474

Observations over restraining the stink bug (Perillus bioculatus (Fabr.) (Pentatomidae) facing its prey Leptinotarsa decemlineata (Say) (Chrysomelidae). 16978

The role of Collembola (Apterygota) in the nutritional system of terrestrial environment. 16996

Cockroaches (Periplaneta americana (L.)) as predators. 17081

The tactics of a predator. 17127

Population sample counts on spider mites. 17215

A comparison of predator populations in cotton under different control programs in Mississippi. 17389

Hemiptera associated with pig carrion. 17764

Bionomics, enemies and population dynamics of Javesella pellucida (F.) (Hom., Delphacidae). 17875

Anthocoris melanocerus as a predator of the green peach aphid on sugar beets and broccoli. 18121

The efficiency of aphidophagous insects in control of Aphis fabae Scop. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18498

Studies on the natural enemies of insect pests of West pakistan Forests. Final report, June 1961-June 1966. SB942.G5. 18577

Population dynamics of Aphis fabae Scop. and the influence of Coccinellidae. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18585

Some notes on natural enemies of Lygaeidae (Hem.). 18603

Influence of predation of Coccinella septempunctata L. on Aphis fabae Scop. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18615

Defense and avoidance reaction of plant lice (Apaididae) upon threat by predators and parasites. 18630

Miscellaneous prey records of solitary wasps. V. (Hymenoptera: Aculgata). 18632

Food ecology of aphidophagous insects. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 18676

Effect of food on some aphidophagous Coccinellidae. In: Hodek, I. ed. Ecology of aphidophagous insects. SB975.S9. 18677

The aspects of integrated control with reference to aphids and scale insects. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19020

The present possibilities and prospects of integrated control of Aphis fabae Scop. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19027

The role of aphidophagous coccinellids in biological control. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19029

An appraisal of methods of sampling apple trees and results of some tests using a sample unit common to insect predators and their prey. 19040

Importance of aphidophagous insects in the regulation of potato aphid. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19046

Predators of aphids, associated with orchards. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19049

An aphid predator exclusion test. In: Hodek, i., ed. Ecology of aphidophagous insects. SB975.S9. 19071

Summing-up of the section V. In: Hodek, I., ed. Ecology of aphidophagous insects. SB975.S9. 19078

A hazard for PCO's and their customers. Straw itch mite dermatitis. 19334

On a new predatory mite of economic importance from Sudan (Acarina: Phytoseiidae). 19386

Some predatory mites of the genera Typhlodromus and Amblyseius from the United Arab Republic (Acarina: Phytoseiidae). 19387

On the Coccinellidae attacking the aphids in Japan and the Ryukyus. 19490

Acarine associates of the pales weevil, Hylobius pales (Coleoptera: Curculionidae). 19504

Aphidiid parasites of the green peach aphid, Myzus persicae (Sulzer), in Japan (Hymenoptera, Aphidiidae). 19518

The Hydroporus blanchardi-tigrinus complex (Coleoptera: Dytiscidae). 19533

Corticole fauna of the Sea-Pine: Elatophilus nigricornis. (Hem. Anthocoridae). 19553

Notes on the biology of Baccha fascipennis Wied. (Diptera, Syrphidae). 19623

A review of biology on spider mites and their predators in Japan. 19672

Basic behavior of North American solpugida. 19675

The use of nematodes and oligochaetes for rearing predatory mites. 19724

Notes on Braconidae caught in a sweep-net at paddy fields. Part I. (Hymenoptera). 19755

Notes on Bracon onukii Watanabe, a parasite of four species of Lepidopterous borers (Hymenoptera Braconidae). 19762

Biological studies on Paracheyletia bakeri (Acarina: Cheyletidae). 19882

Consumption by several common arthropod predators of eggs and larvae of two Heliothis species that attack cotton. 19886

Ants, aphids, and jack pine in Manitoba. 20313

Host exploitation of two closely related water mites. 20393

On the teratology of the primary-and hyperparasites of Brevicoryne brassicae (L.). 20410

Plant-herbivore coevolution: Lupines and lycaenids. 20596

Cannibalism of the pupal stage by adult flour beetles: An experiment and stochastic model. 21010

Food-chain toxicity of systemic acaricides to predaceous mites. 21475

Distribution and adaptive diversity of trapdoor spiders. 21701

The fall webworm, Hyphantria cunea, its distribution and natural enemies: A world list (Lepidoptera: Arctiidae). 21750

Australian dragonflies. 21752

Adaptive significance of mycophagy in stored-product Arthropoda. 21764

Coleoptera attacking tree and shrub plantings in the city of Kharkov. 21979

Golanudiplosis japonicus--a new midge attacking comstock mealybug in Japan (Diptera: Itonididae). 22274

Initial survey of arthropod predators of the European red mite in south-central Pennsylvania. 22282

Setting up a method for control of clover weevils. 22519

Reflections on the estimation of food losses due to Bruchidae (Coleoptera). 22531

Contribution to the study of the specificity in the principal species of aphidiphagous Coccinellidae in Alpes-Maritimes and Basses-Alpes. 22881

Bibliography on the systematics of entomophagous insects. VII. 22950

Observations on the immature stages of Gimnomera cerea and G. incisurata (Diptera: Anthomyiidae, Scatophaginae). 23016

On the phenology and control value of Stethorus punctillium Weise as predator of Tetrachynus cinnabarinus Boisd. in Israel. 23023

Population densities of the European red mite and the predaceous mite Typhlodromus (A.) fallacis on apple foliage following treatment with various insecticides. 23211

PREDACEOUS MITES

Autoecology and reproductive capacity of Macrocheles muscaedomesticae (Scopoli) (Acari: Mesostigmata). 13787

Some observations on predation in an anystid mite. 14026

Phytoseiidae (Acarina: Mesostigmata) in the New Jersey apple orchard environment with descriptions of spermathecae and three new species. 22918

Observations on predaceous mites on plum trees. 23060

The effect of an experimental spray schedule on the population of Metatetranychus ulmi Koch and Typhlodromus pyri Scheuten. 23067

PREDATORS

Biotic factors in the control of Aedes aegypti. 15846

PREDATORY ANIMALS

Differences in insect abundance and diversity between wetter and drier sites during a tropical dry season. 14066

Vertebrate predation on the jack-pine budworm in Michigan. 14228

Preliminary report on the feeding pattern of two species of fish in a rice field habitat. 14988

PREDATORY BIRDS

Bird predation on black fly larvae and pupae in Ontario. 16741

Taste response of a bird to constituents of arthropod defensive secretions. 19797

Influence of birds on the oak leaf roller (Tortrix viridana L.): Synecological investigations of the crown fauna of an oak--horn beam forrest (part II). 20295

A method for collecting feather lice (Mallophaga). 21583

Woodpecker feeding on Engelmann spruce beetle in windthrown trees. 23179

PREEMERGENCE

Benzene hexachloride as a preemergence herbicide. patent 3,356,486. 14486

PREGNANCY

Time of arrival of gravid Culex pipiens fatigans at an oviposition site, the oviposition cycle and the relationship between time of feeding and time of oviposition. 16500

Plasma zinc and leukocyte changes in rats during zinc deficiency. (Abstract). 17504

Pesticide-manganese interelationships in pregnancy. (Abstract). 17508

Pseudorabies in pregnant sows and their progeny. (Abstract). 17514

Investigations on teratogenic effects of dietary nitrate in the rat and excess vitamin A in the dog. 17588

Retraction of the claim that host pregnancy affects pupal production by the tsetse fly. 17867

Effects of attenuated hog cholera virus in pregnant swine at various stages of gestation. 18230

Characteristics of a newly-recognized species of Brucella responsible for infectious canine abortions. 19165

Leptospira antibody formation by porcine foetuses. 19176

Infectious bovine rhinotracheitis relationship of level of maternal antibody titer to incidence of fetal death and abortion. 19197

Effect of lactation on reproductive performance in the ewe. (Abstract). 21301

Urea toxicity studies with the pregnant bovine. (Abstract). 21306

Teratogenic response by hamsters, rats and mice to aflatoxin b1. 21514

Abortive and teratogenic effects of locoweed on sheep and cattle. 22097

Infectious bovine rhinotracheitis-infectious pustular vulvovaginitis virus infection in pregnant cows. 22103

Effects of progesterone treatments on delayed implantation in mink. 22620

PREGNANCY DISEASE

The physiopathology of undernourishment in pregnant sheep, with particular reference to pregnancy toxemia. 19201

PREVENTIVE MEDICINE

Risk of resistance to chloramphenicol. 14573

Aureomycin chlortetracycline as a preventive for experimental synovitis in chickens. 15466

Preparation of antiserum against stolbur virus. 16579

Improved technique to control shot hole borers and bark beetles. 18106

Activity of dl-tetramisole against gastrointestinal helminths in a controlled test in lambs. 20823

Notice of filing of petitions for food additives amprolium, ethopabate, arsanilic acid, 3-nitro-4-hydroxyphenylarsonic acid. 21270

Dr. Mayfield hog wormer. Drugs for veterinary use - drug efficacy study implementation. 21473

Diseases of pigs and their control. SF971.B4. 22051

Effect of pretreatment of pine seeds with herbicides on seed germination and growth of young seedlings. 22226

PRICES

Where do we stand now . 14797

Marketing of lac in India. 280.39 in2. 21066

PRINCE EDWARD ISLAND

Effect of soil treatments of heptachlor and parathion on predators and parasites of root maggots attacking rutahagas on Prince Edward Island. 15249

PRIOCNEMIS

Host records for some North American Pompilidae (Hymenoptera) with a discussion of factors in prey selection. 20221

PRIONUS LATICOLLIS

A preliminary study of the life history of the broad-necked root horer in Rhode Island. 13785

PRIOPHORUS TRISTIS
Notes on the toxicity of a commercial preparation of Bacillus thuringiensis var. thuringiensis Berliner on some Lepidoptera and Tenthredinidae larvae. 14250

PRISTIPHORA ERICHSONII
Vital dyes as markers for behavioral and population studies of the larch sawfly, Pristiphora erichsonii (Hymenoptera: Tenthredinidae). 16398
Larch sawfly suppression with malathion LV(R) concentrate. 17120
Larch sawfly survival in relation to water levels and microtopography in tamarak bogs. 17839
Egg parasites of larch swaflies in Great Britain. 18539

PROCAINE
Penicillin concentration in canine blood and urine after intramuscular injection. 17571

PROCAINE PENICILLIN
Notice of withdrawal of petition for food additives dienestrol diacetate, zoalene, and procaine penicillin. 16078

PROCECIDOCHARES STONEI
Biology of the gall-former Procecidochares stonei on a composite. 21742

PROCERAS SACCHARIPHAGUS
The Trichogrammid parasites of Proceras sacchariphagus Boj., a sugarcane borer of Madagascar. I. Ecology of the autochtonous parasite Trichogramma australicum Gir. The effects of strengthening the parasite population. 22944

PROCESSING
Process for preparing benzimidazole N-oxides. Patent 3,398,157. 16947
Trends in the development of production and use of pesticides. 21508
Process for purification of fungal alpha amylase. Patent 3,416,997. 21525
Erythromycin derivative and process for the preparation thereof. Patent 3,417,077. 21564

PROCTOLAELAPS
Three species of Proctolaelaps (Acarina, Mesostigmata) from noctuid moths. 20269

PROCTOTRUPOIDEA
Biological observations on 53 species of the superfamilies, Chalcidoidea and Proctotrupoidea, from Japan (Hymenoptera: Apocrita). 22284
A redescription of three species of Proctotrupoidea (Hymenoptera) from Jurine's collection. 23006
Asolcus bennisi n. sp. (Hymenoptera, Proctotrupoidea) an oophagous parasite of Graphosoma lineata L. (Het. Pentatomidae). 23066

PRODENIA
Development and structure of the compound eye in the cotton leaf-worm, Prodenia litura F., and the pink boll-worm, Pectinophora gossypiella S. (Lepidoptera). 22970

PRODENIA ERIDANIA
Toxicity of five carbamate insecticides to the two-spotted spider mite and larvae of the southern armyworm and tobacco budworm. 13862
Adaptation of insects to nornicotine. 17118
A laboratory and field investigation of adjuvants to increase the residual toxicity of dichlorvos, mevinphos and malathion to Mexican bean beetle and southern armyworm larvae. 17666

PRODENIA LITURA
Morphology of the nervous system of the noctuid larvae Prodenia litura Fabr and Trichoplusia ni Hubner. 14089
Studies on Microplitis rufiventris Kok. I. (Hymenoptera: Braconidae). 14192
Naturally occurring insect control chemicals. Isoboldine, a feeding inhibitor, and cocculolidine, an insecticide in the leaves of Cocculus trilobus DC. 16234
Studies on the synergetic effect of certain organophosphorus insecticides. 21204
An artificial medium for rearing Prodenia litura F. and two other noctuids. 23015

PRODENIA ORNITHOGALLI
Bioassay technique for insect viruses. 17089
Sex ratio in pupae of the yellow-striped armyworm. 17789
Electrophoretic studies of insect esterases. 19545

PRODROME
A prodrome of the genus Orthopodomyia (Diptera, Culicidae). 17775
A latin diagnosis of new species and varieties described in volume 5 of The prodrome of a mycological flora of Madagascar. 20494

PRODUCTION ECONOMICS
The incidence of skin diseases of cattle in Uganda. 20680
Natural and man-made factors limit output of New Zealand honey. 23447

PRODUCTIVITY
The present and the future of plant protection. 16531
The experimental production of a formalin-killed Japanese encephalitis virus vaccine from porcine kidney cell cultures. 18260
Enzyme sources and their value in barley rations for chick growth and egg production. 21284
The response of commercial egg production stocks to experimental infection with Eimeria tenella and its relation to field mortality. 21323

PROGESTERONE
The biological half life of progesterone in the peripheral blood of cows. 17474
Levels of 5 beta-pregnan-3 alpha, 6 alpha-diol-20-one in urine and its relationship to other metabolites of progestrone in urine of the nonpregnant domestic sow. 18189
Comparison of metabolites of progesterone-4-14C in urine from a nonpregnant domestic sow. 18190
Response of beef cows to exogenous progesterone and estradiol at various stages postpartum. 18192
Cystic ovarian disease in dairy cattle: With special reference to its treatment using a combination of Chorionic gonadotrophin and progesterone. 18200
Influence of an orally active progesterone and diethylstilbestrol on litter size and weights of pig. 20751
Comparison of metabolites of progesterone-4-14C in urine from a nonpregnant domestic sow. 21262
Exogenous progesterone on ovine corpora lutea. (Abstract). 21276
Response of beef cows to exogenous progesterone and estradiol at various stages postpartum. 21289
Effect of lactation on reproductive performance in the ewe. (Abstract). 21301
Effects of progesterone treatments on delayed implantation in mink. 22620

PROLATUS
A review of the subfamily Heterarthrinae in North America (Hymenoptera: Tenthredinidae). 15732

PROLINE
Pathogenesis in dutch elm disease. 17339

PROMAZINE HYDROCHLORIDE
Tranquillising horses with promazine hydrochloride. 15291

PROMETRYNE
Control of undesirable grasses of manobi by the preemergence and pre-planting application of herbicides. 17462
Test of herbicides in pre-plant and in pre-emergence on potato crop. 20635
Effect of prometryne on growth of Fusarium oxysporum f. sp. vasinfectum in soil culture. (Abstract). 22205
The influence of some electrolytes on the absorption and release of triazines on some organic colloids. 22236
Observations on the use of preplant herbicides in pasture establishment in the wet tropics. 22557
Herbicide/surfactant combinations for celery seedbeds. 22599
Weed control in young peach orchards. 22601
Partitioning and distribution of herbicides in spinach chloroplasts. 22815
Partitioning and distribution of herbicides in spinach chloroplasts. 22816
Herbicide persistence with different incorporators. 22827

PRONASE
Metabolism of 75Se-selenite and 75Se-selenomethionine by rumen microorganisms. (Abstract). 17587

PROPAGULES
Relation of sterols to the differential sensitivity of spores and mycelia of Phytophthora to polyene antibiotics. 17690

PROPANIL
The partitioning and distribution of simazine and propanil in spinach chloroplasts. 16927
Control of detrimental weeds with Stam F-34 in nonirrigated rice with different spacing of the plants. 17461
Enzyme detoxication of 3',4'-dichloropropionanilide in rice and barnyard grass, a factor in herbicide selectivity. 19305
Metabolism of 3,4-dichloropropionanilide in plants: The metabolic fate of the 3,4-dichloroaniline moiety. 19306
The response of rice and barnyard grass to 3,4-dichloropropionanilide. 22027
Controlling barnyard grass in rice. 22028

Partitioning and distribution of herbicides in spinach chloroplasts. 22815

Partitioning and distribution of herbicides in spinach chloroplasts. 22816

PROPAZIN

In vitro and in vivo rumen microbiological studies with 2-chloro-4,6-bis(isopro-pylamino)-S-triazine (Propazine). 20798

PROPAZINE

Effects of direct contact of pine seeds or young seedlings with commercial formulations, active ingredients, or inert ingredients of triazine herbicides. 14775

Effects of direct contact of pine seeds or young seedlings with commercial formulations, active ingredients, or inert ingredients of triazine herbicides. 22582

Herbicide persistence with different incorporators. 22827

PROPERTIES

Physicochemical properties of the infectious bursal agent (IBA). 15326

Some properties of a cucumber mosaic virus strain isolated from Prunus spp. 17351

Isolation and properties of Plasmodiophora brassicae plasmodia from infected crucifer tissues and tissue culture callus. (Abstract). 18008

Identification of strains of watermelon mosaic virus by serology and other characteristics. (Abstract). 18037

Biophysical studies of Teschen disease virus (Talfan strain). 18339

Characteristics of a seasonal population of airborne Fomes fomentarius basidiospores. (Abstract). 18438

Isolation, identification, purification, and biological properties of the antibiotic phytoactin. 18489

Tomato bushy stunt virus and Prunus avium L. I. Field studies and virus characterization. 18765

Host range, characteristics, and purification of plum line pattern virus. 18902

Virulence of Verticillium albo-atrum in cotton in relation to colony characteristics and endopolygalacturonase production. (Abstract). 18985

Purification and properties of phytotoxic glycopeptides produced by Corynebacterium michiganense. (Abstract). 19290

Pesticide reference standards of the Entomological Society of America. 20136

Clinical pathologic features of acute aflatoxicosis of swine. 21328

Immunologic properties of canine transmissible venereal sarcoma. 21415

Virucidal properties of dimethyl sulfoxide. 21549

Chemical, physical and biological properties of four strains of sugarcane mosaic virus. 21828

Biological characteristics of Fomes fomentarius found on spruce and birch. 21935

Structure and antigenic properties of a staphylococcal L form. 22038

Characterization of the malaria pigment (hemozoin) from the avian malaria parasite Plasmodium lophurae. 22725

PROPIONIC ACID

Fatty acids in Louisiana rice fields. 20898

PROPOXYMETHYL-2,6-DICHLOROTHIOBENZAMIDE, N-N

Method of combatting the growth of undesired plants. Patent 3,374,084. 14488

PROPYL BUTYLETHYLTHIOCARBAMATE, S

Notice of filing of petition regarding pesticides. 14684

PROPYL DIPROPYLTHIOCARBAMATE, S

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. S-propyl dipropylthiocarbamate. 14657

Notice of filing of petition regarding pesticides. 14719

PROPYLENE GLYCOL

The effect of propylene glycol on blood and non-esterified fatty acids (NEFA) in ruminants. 20654

PROSARCOPTES PITHECI

Prosarcoptic scabies (Prosarcoptes pitheci Philippe, 1948) in a capuchin monkey (Cebus c. capucinus). 16092

PROSOPIS JULIFLORA

The woody plant nursery--a useful tool for evaluation of herbicides. 22576

PROSOPIS VELUTINA

Desert grassland mesquite and fire. 17919

PROSPALTELLA FASCIATA

Concerning the attempts to release Prospaltella perniciosi Tower (Hymenoptera, Aphelinidae) against the San Jose scale (Quadraspidiotus perniciosus Comstock) in BadenWuerttemberg. 23018

PROSPALTELLA PERNICIOSI

Observations on the biology of Prospaltella perniciosi Tow. in the Po Valley. 22979

Study of the efficacy of Prospaltella perniciosi Tow. in Switzerland as a parasite of the San Jose scale. 23007

Concerning the attempts to release Prospaltella perniciosi Tower (Hymenoptera, Aphelinidae) against the San Jose scale (Quadraspidiotus perniciosus Comstock) in BadenWuerttemberg. 23018

PROSTHOGONIMUS PUTSCHKOWSKII

On the Metacercaria of Prosthogonimus putschkowskii in Sympetrum decoloratum (Odonata: insecta) with observations on its development in chicks. 18370

PROTECTIVE CLOTHING

Protection is vital when using dangerous sprays in glasshouses. 20867

Deet-impregnated net shirt repels biting flies. 22483

PROTEIN FIBERS

Characteristics of tobacco rattle virus. I. Evidence that it's two particles are functionally defective and mutually complementing. 18928

PROTEIN SYNTHESIS

Effects of cycloheximide (CHX) on DNA and protein synthesis in rat liver. (Abstract). 17480

Nucleoprotein synthesis during metamorphosis in Drosophila virilis. 17872

Effect of chloramphenicol on protein synthesis in leaf discs. 20900

PROTEINASES

The effects of hormones on the intestinal proteinase activity of adult Pyrrhocoris apterus L. (Hemiptera). 14203

Influence of some nucleic acid metabolism inhibitors on the synthesis of alkaline protease and alpha-amylase in Aspergillus oryzae. 14417

Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. II. Toxicity of different fractions of the hydrolysate for larvae of Pieris brassicae. 15780

Enzymatic hydrolysis of the chrystals of Bacillus thuringiensis by the proteases of Pieris brassicae. I. Preparations and fractionation of the lysates. 15781

A possible reservoir of tyrosinase substrates in Drosophila melanogaster. 17691

Electrophoretic variation of proteinase in the digestive juice of the silkworm, Bombyx mori L. 17815

Enzymatic hydrolysis of the encysted parasporale of Bacillus thuringiensis by Bombyx mori L. proteases. 17852

Pharmacological properties of the regurgitated crop fluid of the African migratory locust, Locusta migratoria L.. 20871

Growth and proteinase production in Pseudomonas spp. cultivated under various conditions of temperature and nutrition. 21263

Electrophoretic observations on the protein composition of free-living and plant-parasitic nematodes, with a special reference to some components showing a digestive activity. 22547

PROTEINS

Electrophoretic separation of the hemolymph proteins in the fall webworm, Hyphantria cunea, infected with a nuclear-polyhedrosis virus. 13856

Gluconeogenesis in the oriental hornet Vespa orientalis F. 14208

Protein synthesis in the tissues of the silkworm, Bombyx mori, infected with nuclear-polyhedrosis virus. 14283

Change in chloroplast proteins of the rice plant infected by the blast fungus, Piricularia oryzae. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 14332

Effect of fertilization on chemical composition, nutritive value, and silica content of rough fescue, Festuca scabrella. 14497

Metabolic transformation of 14C-glucose into tissue proteins of Ancylostoma caninum. 14599

The influence of diet on toxicity of the antioxidant 1,2-dihydro-6-ethoxy-2,2,4-trimethylquinoline. 14763

Changes in haemolymph lipoproteins during locust flight. 14914

Protein and isozyme patterns of sweet potatoes as related to acquired immunity. 15650

Some biochemical effects of alkylating agents. 15676

Solubility and electrophoretic properties of ovarial protein of the cockroach, Leucophaea maderae. 15752

PROTEINS

Temperature sensitive mutations in the tobacco mosaic virus. I. In vivo actibity. II. In vitro activity. 15885

In vitro protein synthesis in a cell-free system from Rhizopus arrhizus. (Abstract). 15890

Some properties of leaf proteins from virus-tolerant and virus-susceptible varieties of apple. 15920

Studies on the removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. (Abstract). 15945

Physical and physiological methods for differentiating among Agrobacterium rhizogenes, A. tumefaciens, and A. radiobacter. 16205

Disc electrophoresis of mycelial proteins from Ceratocystis species. (Abstract). 16232

An electrophoretic study of the changes in proteins in the haemolymph during the life cycle of the boll wevil, Anthonomus grandis (Coleoptera: Curculionidae). 16320

Left colleterial proteins in the viviparous cockroach Nauphoeta cinerea. 16354

Contribution to the histochemical study of the digestive organs of Rhagium bifasciatum. (Col. Cerambycidae). 16390

The effect of host pregnancy on the reproductive capability of the tsetse fly, Glossina morsitans, in captivity. 16414

A study of haemolymph proteins in Lepidoptera. Film 695. 16424

Short-term effects of crustecdysone (20-hydroxyecdysone) on protein and rna synthesis in third instar larvae of Calliphora. 16437

Factors affecting protein synthesis by the fat body of the larva of the blowfly Calliphora erythrocephala. 16441

Metabolic thermal adaptations in the mosquito Culex pipiens pipiens (Diptera: Culicidae). 16447

Protein synthesis in subcellular fractions of the blowfly during different developmental stages. 16453

The separation and characterization of the haemolymph proteins of several insects. 16473

Response and recovery on X-irradiated Tribolium confusum larvae. 16482

Effect of Corpora allata on protein and RNA synthesis in colleterial glands of Blattella germanica. 16486

Isolation and characterization of barley stripe mosaic virus protein. 16588

Chromatographic purification of a single viral protein in sandal spike. 16636

In vivo and in yitro decline of specific infectixity of tobacco ringspot virus correlated with nucleic acid degradation. 16671

Fatty liver studies in laying hens. 16750

Some factors affecting mineral utilization by the baby pig. 16788

Immunological response of the pig as affected by amino acid nutrition. 16815

The effect of 2,4-dichlorophenoxyacetic acid upon the metabolism and composition of soybean hypocotyl mitochondria. 16916

Enzymatic and morphologic modifications in Brucella treated with interferon. 16921

The effect of a low protein diet and a glucose and filter paper diet on the course of infection of Nippostrongylus brasiliensis. 17090

The protein components of a latent phenoloxidase system in the prepupae of housefly. 17110

Gel filtration of insect haemolymph proteins. 17157

Effect of commercial proteins on house fly reproduction. 17170

Metabolic changes in biotin-deficient Aspergillus nidulans. 17272

Biochemical properties of the increased proteins in diseased leaves of rice plants in the early stage of infection by Helminthosporium oryzae. 17336

The change of protein fractions in diseased leaves of rice plants in the early stage of infection by Helminthosporium oryzae. 17337

Biochemical examination of strains of tobacco mosaic virus mutants. 17362

The utility of polyacrylamide-gel electrophoresis for distinguishing between species of Meloidogyne and showing taxonomic relationships. (Abstract). 17422

Response of weanling rats to infection, reblockade and dietary protein. (Abstract). 17528

Susceptibility of chicks with genetic muscular dystrophy to gout induced by high protein diets. (Abstract). 17562

Metabolism of 75Se-selenite and 75Se-selenomethionine by rumen microorganisms. (Abstract). 17587

Parasitic hypoalbuminaemia: Studies on type II ostertagiasis of cattle. 17603

Effects of aflatoxin B1 on rat liver polyribosome profile. (Abstract). 17662

Biochemical relationships in chlorotic leaves of macadamia (Macadamia tetraphylla L. Johnson) under conditions of iron and manganese deficiency. 17688

The effect of cycloheximide on the metabolism of Neurospora crass 10780. 17711

Effects of juvenile hormone on protein synthesis during the metamorphosis of the polyphemus silkmoth. 17788

Accumulation of glycine in the fat body of the silkworm, Bombyx mori L. 17803

Results concerning humoral immunity of Pyrrhocoris apterus l. and Galleria mellonella F. 17842

Some aspects of isolevcine metabolism in the yellow fever mosquito, Aedes aegypti (L.). 17891

High-temperature-induced insoluble coat protein in tobacco mosaic virus (TMV) -infected plants. (Abstract). 17993

Protein and enzyme changes in wheat leaves following infection with Puccinia recondita. 18005

Cytochrome oxidase and mitochondrial protein in extracts of leaves of Nicotiana glutinosa L. Infected with tobacco mosaic virus. 18045

Cytokinin effect of benzyladenine: Increase of nucleic acid and protein synthesis in bean leaves. 18048

Does the agent of scrapie replicate without nucleic acid. 18205

Identification of Xanthomonas species by acrylamide-gel disc electrophoresis of soluble bacterial proteins. (Abstract). 18439

Location of unique sequences in tobacco mosaic virus ribonucleic acid. 18457

Auxin-induced elimination of a protein in bean hypocotyl. 18470

Degradation of human serum proteins in the digestive tract of mosquitoes. 18706

Plant pathology department. 18732

In vitro polymerization of winter wheat mosaic virus antigen. 18767

Detection of free viral nucleic acid in the potato virus X infected tobacco, by gel electrophoresis. 18882

Antigenic study of the protein from a defective strain of tobacco mosaic virus. 18914

A disc electrophoretic comparison of protein patterns of erwinia amylovora with other bacteria, including associated yellow forms. 18948

The purification of insoluble coat proteins from defective mutants of tobacco mosaic virus (TMV). (Abstract). 18996

Preparation and properties of the protein and nucleic acid components of Pea Enation Mosaic Virus. 19074

Proteins of Rous sarcoma virus. 19174

Nature of scrapie agent. 19178

Clinico-epidemiological and immunological examination of persons, vaccinated and nonvaccinated against brucellosis, subject to infection hazard. 19258

Chymotrypsin inhibitor I from potatoes: a transient protein component in leaves of young potatoe plants. 19299

Disc electrophoresis of urediospore proteins from Puccinia species. (Abstract). 19302

Immunological homology between crystal and spore protein of Bacillus thuringiensis. 19590

Hexosamine, sialic acid, seromucoid, protein bound hexose and protein levels in the haemolymph of the scorpion, Heterometrus scaber. 19652

Biochemical homology between crystal and spore protein of Bacillus thuringiensis. 19726

Study of the RNA protein interactions in the yellow mosaic virus of the turnip. Comparative action of urea on the virus and on the capsids. 19826

Mycoplasma taxonomy studied by electrophoresis of cell proteins. 19998

Evidence for a single structural polypeptide in foot-andmouth disease virus. 20010

Metabolic transformation of 14C-glucose into tissue proteins of Ancylostoma caninum. 20036

Sensitivity of trypanosomes to metabolic inhibitors. 20040

Purification of a non-occluded virus of Galleria mellonella. 20382

Analysis of the synthesis of some yolk proteins under the influence of the Corpora allata of Leucophaea maderae. 20424

The effect of protein sources and of the frequency of egg collection on egg production by the housefly (Musca domestica L.). 20426

A comparison of the protein quality of pollens for growth. stimulation of the hypopharyngeal glands and longevity of honey bees, Apis mellifera L. (Hymenoptera: Apidae). 20432

The endocrine and nutritional control of egg maturation in the fleshfly Sarcophaga bullata. 20444

The protein subunit of potato virus X. 20549

Serological behavior of cucumber mosaic virus (strain Y) and the virus protein. 20563

Serological studies on bromegrass mosaic virus and its protein fragments. 20582

Insecticide toxicology; augumented susceptibility to carbaryl toxicity in albino rats fed purified casein diets. 20645

An attempt to modify scrapie in mice by the administration of interferon. 20707

Supplement to the publication 'On the variations of free amino acids and proteins in chicken eggs after preliminary treatment of killed Salmonella'. I--consideration of the H2O2-catalase process. 20725

Studies on the serum proteins in experimental fascioliasis of sheep. 20816

The influence of growth regulators on protein and enzyme spectra of explants from roots of Cichorium intybus cultured in vitro. 20888

Effects of cycocel and B-nine on cold hardiness of wheat plants. 20915

Electrophoretic patterns of larval haemolymph-proteins in autogenous and anautogenous forms of Culex pipiens L. 20986

Synthesis of ribonucleic acid and histone change during spermatogenesis in the grasshopper Chortophaga viridifasciata. 20988

Insect diseases resulting from malnutrition. 20998

Incorporation of lysine-6-C14 into the protein of the adult boll weevil, Anthonomus grandis. 21011

Cytological changes in the fat body of Rhodnius during starvation, feeding and oxygen want. 21034

Protein polymorphism in birds. III. The egg white proteins of five families of birds, Phasiniadae, Numididae, Meleagrididae, Anatidae and Columbidae. 21267

Effect of zinc deficncy on bone mineralization and plasma proteins of turkey poults. 21273

Safflower meal- utilization as a protein source for broiler rations. 21274

Antiserum for tomato spotted wilt virus. 21339

The time course of synthesis of virus-specific protein in pig-kidney cells after infection with the foot-and-mouth disease virus. 21405

The effect of stilbestrol on the mobilization of lipoproteins in the blood serum of cocks. 21409

Pathophysiology of fascioliasis in the rabbit. Studies on albumin turnover. 21467

Spray-on protein boosters. 21543

The response of Rhagoletis pomonella (Walsh) adults and other insects to trap boards baited with protein hydrolysate baits. 21585

Termites- roasted or as a soup. 21592

Sources of larval salivary gland secretion in the dipteran Chironomus tentans. 21677

A cytological study of changes in the fat body of Trogoderma granarium during metamorphosis, with special reference to the proteinaceous globules. 21710

Influence of growth regulators on the concentration of protein and nucleic acids in grape flowers. (Abstract). 21805

Tumor formation through deoxyribonucleic acid from Agrobacterium tumefaciens (Smith and Townsend) Conn. 21826

Susceptibility to tobacco mosaic virus in relation to RNA and protein synthesis in tobacco and bean plants. 21876

Investigations of inhibiting mechanisms in virus-infected plants. 3rd communication. Problems of the mechanical transmission of fruit virus to herbaceous host. 21908

Serological studies on bromegrass mosaic virus and its protein fragments. 21945

Changes in the yield and protein quantity of oat caused by Rhopalosiphum padi (L.) (Hom., Aphididae). 21992

Studies on the mechanism of interferon action. 22033

Electrophoretic fractionation of Clostridium hemolyticum toxic culture fluids. 22112

The role of diet and the reticuloendothelial system in the response of rats to Salmonella typhimurium infection. 22121

Relation of interferon synthesis to abortive replication of Newcastle disease virus in L cells. 22145

The use of polyacrylamide gel disc electrophoresis in delimiting three species of Phytophthora. 22211

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on the uptake and metabolism of 14C-glucose and on the incorporation of 14C-labelled amino acids into protein in pea root tips. 22216

Stimulation of leptospiral growth by glucose. 22653

Adsorption of herbicides to proteins. 22830

Penicillium mycelium waste as protein supplement in animals. 23242

Electrophoretic analysis of a Fasciola hepatica-total extract. 23361

Synthesis of a specific messenger RNA during amino acid starvation of Escherichia coli. 23438

Regulation of messenger RNA synthesis in Escherichia coli. 23439

Messenger RNA synthesis during amino acid starvation in Escherichia coli. 23444

PROTOPECTINASES

Pectic enzyme production and morphogenesis in Helminthosporium atypicum. 19870

PROTOTILLA

The female sex of the Mutillidae subfamily Eotillinae (Hymenoptera). 18546

PROTOZOA

Intestinal protozoan infections in dogs. 13949

Louisiana lab takes intensive look at parasites for mosquito control. 14170

New records of parasites of Ceratopogonidae. 14172

Observations on Culex pipiens larvae infested with Vorticella sp. 14258

Problems in the cultivation of some parasitic protozoa. 14304

Cultivation in vitro of Plasmodium gallinaceum oocysts. 16036

1-Methyl or 2-hydroxy ethyl-2-carbamyl-5-nitropyrkoles. Patent 3,393,201. 16251

Plistophora scolyti sp. n. (Protozoa, Microsporidia), a new parasite of Scolytus scolytus F. (Col., Scolytidae). 16475

Host-parasite relationships between protozoans and their arthropod and vertebrate hosts. 16808

Trypanosoma dafilae sp. n. and Leucocytozoon anatis Wickware, 1915 in the northern pintail (Dafila acuta acuta L.). 16893

Helminths, arthropods and protozoa of domesticated animals, (sixth edition of Monnig's Veterinary Helminthology and Entomology). SF810.M6. 17617

Passive dispersal of viable algae and protozoa by certain craneflies and midges. 18660

A preliminary report on the finding of Besnoitia besnoiti in goat skins affected with dimple in Kenya. 19163

Respiratory changes accompanying leishmania to leptomonad transformation in Leishmania donovani. 19972

Main results and directions of protozoological studies in the USSR. 20215

Pathogens and parasites in Louisiana Culicidae and Chaoboridae. 20320

Some effects of microbial pathogens on insects. 20976

Experimental infection of triatoma infestans and Rhodnius prolixus with Trypanosomatidae of the genera Crithidia and Blastocrithidia. 21052

Schizogony and gametogony of Leucocytozoon simondi and associated reactions in the avian host. 22650

PROTOZOAL VACCINES

Active immunization of rats with a cell-free extract of the erythrocytic parasites of Plasmodium berghei. 20018

PRUNE DWARF (PLUMS)
Relation of temperature to prune dwarf symptom expression on Italian prune leaves. (Abstract). 15917

PRUNE DWARF (SQUASH)
An indirect role of cytochrome oxidase in loss of prune dwarf virus infectivity in squash tissue homogenates. 17319

PRUNES
Dispersal patterns of Monilinia laxa spores in peach, prune, apricot, and almond trees during early spring. (Abstract). 18435
Virus gummosis of apricot caused by some prune dwarf virus strains. 18829
Systemic-chemical paints for the control of Cytospora canker disease in prune trees. 18839
Responses to postplanting and preplanting soil fumigation in California peach, walnut, and prune orchards. 19106

PRUNING
Time of pruning and infection of peach trees by Pseudomonas syringiae. 15042
Egg distribution as a factor in suppressing the green peach aphid by pruning. 18122
Sources of inoculum of the black spot fungus, Guignardia citricarpa, in infected Rhodesian citrus orchards. 21168
Increased reversion of an apple sport following X irradiation and pruning, (Abstract). 21795

PRUNUS
Physiological basis of gall formation in black-knot disease of Prunus. 15066
Cross-transmission studies with citrus and prunus viruses. 15155
Control of the eastern tent caterpillar, Malacosoma americanum (Fabricius), by distribution of spores of two species of Clostridium. 15226
Differential mechanical transmission of Prunus viruses from seed of various Prunus spp. and from different parts of the same seed. (Abstract). 15912
Some properties of a cucumber mosaic virus strain isolated from Prunus spp. 17351
Herbaceous host ranges in two Prunus line-pattern viruses. 18775
Effects of high temperature on graft transmission of the prunus ringspot virus. 18828
The relationship of inoculum-receptor contact period to the rate of graft transmission of twelve Prunus viruses. 18830
Podosphaera tridactyla. 19840
Investigations concerning the serological proof of the necrotic ringspot virus of the sour cherry. III. The serological variability of the necrotic ringspot virus of the sour cherry. 21925

PRUNUS DOMESTICA
Three-year effects of systemic fungicides applied for the control of Cytospora in Italian prune tree. 16594

PRUNUS MAHALEB
Investigations of cherry rasp leaf disease in California. 16693

PRUNUS SEROTINA
Viruslike particles from Hyalophora cecropia larvae succumbing from an intestinal disease. 17182

PRUNUS SPINOSA
Anthonomus rufus Gyll. (Col., Curculionidae) in Lancashire. 15723

PRUNUS TOMENTOSA
A virus from golden elderberry. (Abstract). 15877

PRUNUS VIRGINIANA
A virus from golden elderberry. (Abstract). 15877
Xylem aberration, a transmissible disease of stone fruits. 18869

PSALLUS
A new contribution to the taxonomy of the genus Sthenarus Fieber and Psallus Fieber(Hem. Het. Miridae). 22341

PSAMMOTETTIX
Leafhoppers of the group Psammotettix striatus L. (Homoptera, cicadellidae)--vectors of virus diseases of cereals, their systematics and distribution. 22908

PSAMMOTETTIX STRIATUS
Leafhoppers of the group Psammotettix striatus L. (Homoptera, cicadellidae)--vectors of virus diseases of cereals, their systematics and distribution. 22908

PSAMMOTETTIX VOLGENSIS
Leafhoppers of the group Psammotettix striatus L. (Homoptera, cicadellidae)--vectors of virus diseases of cereals, their systematics and distribution. 22908

PSELAPHIDAE
Revision of Palearctic Centrophthalmus (Col. Pselaphidae). 18513

PSENINI
A new genus and species of Psenini from the Southwestern deserts (Hymenoptera, Sphecidae). 20219

PSENULUS MAAI
Contribution to the knowledge of the Bornean Psenini (Hymenoptera, Sphecidae). 13758

PSEPHENIVORUS MEXICANUS
Psephenus (Coleoptera: Psephenidae) parasitized by a new chalcidoid (Hymenoptera: Eulophidae). I. Description of the parasite. 21597

PSEPHENUS TEXANUS
Psephenus (Coleoptera: Psephenidae) parasitized by a new chalcidoid (Hymenoptera: Eulophidae). I. Description of the parasite. 21597

PSEUDALETIA UNIPUNCTA
The epizootiology of virus diseases in field populations of the armyworm, Pseudaletia unipuncta (Haworth). 14964
Armyworms, when to spray - and when not to. 21233
The armyworm Pseudaletia unipuncta Haworth in Ontario in 1964. 22525
An artificial medium for rearing Prodenia litura F. and two other noctuids. 23015

PSEUDEUCOILA BOCHEI
Host discrimination in Pseudeucoila bochei (Hymenoptera: Cynipidae). 14027
Defense reactions of Drosophila species (Diptera: Drosophilidae) to the parasite Pseudeucoila bochei(Hymenoptera: Cynipidae). 16459

PSEUDHALENCHUS HYLOBII
Nematodes associated with tree-infesting insects. paurodontidae new family and Misticiinae new subfamily with a description of one new genus and four new species. 13925

PSEUDOCOCCIDAE
A new subgenus for Leucopis luteicornis Malloch, a predator on mealybugs in India (Diptera: Chamaemyiidae). 14121
A contribution to the alimentary canal, salivary glands and Malpighian tubules of Saccharicoccus sacchi Cockerell (Homoptera Pseudococcidae). 21754
Hard to kill pests of fruit trees--Mealy bugs. 22850
A new genus and species of mealybug from the Philippine Islands (Homoptera: Pseudococcidae). 22931

PSEUDOCOCCUS
Notes on the biology of Baccha fascipennis Wied. (Diptera, Syrphidae). 19623
Unusual microtubular patterns and three-dimensional movement of mealybug sperm and sperm bundles. 22444

PSEUDOCOCCUS COMSTOCKI
Allotropa in the Samarkand region. 19039
An infestation of Comstock mealybug, Pseudococcus comstocki (Kuw.) (Homoptera: Coccoidea) on peach in ontario. 20952
Golanudiplosis japonicus--a new midge attacking comstock mealybug in Japan (Diptera: Itonididae). 22274

PSEUDOCOCCUS MARITIMUS
Study on the use of phosphine to combat the white louse of the potato--Pseudococcus maritimus (Ehrh). 19894

PSEUDOCOWPOX
Pseudocowpox in dairy cattle. 13951
Bovine papular stomatitis, pseudo-cow-pox and milker's nodules. 15489
Isolation of a paravaccinia virus from a cow in Japan. 17551
Pseudocowpox in germany. 21372
Comparative immunohistological studies. 21374
Pseudocowpox in Germany. 22684

PSEUDOMONADACEAE
Effect of Xanthomonas vesicatoria on loss of electrolytes from leaves of Capsicum annuum. 17970
Nutrition of phytopathogenic pseudomonads. (Abstract). 19300

PSEUDOMONAS
Urethroadenocystitis in the male cat. 13963
Time of pruning and infection of peach trees by Pseudomonas syringiae. 15042
Induced resistance to bacterial wilt in susceptible tobacco cuttings pretreated with avirulent mutants of Pseudomonas. (Abstract). 18029
Pseudomonas rubrisubalbicans. 19807
Pseudomonas rubrilineans. 19810
A comparative study of some plant pathogenic pseudomonads. 19855
Survival of bean bacterial pathogens in the field and greenhouse under different environmental conditions. (Abstract). 20562

Bacterial scab, Sclerotinia and Botrytis rots of Gladiolus corms.
21896

PSEUDOMONAS AERUGINOSA
Water chlorination controls Pseudomonas aeruginosa in a rabbitry.
14620

The mechanisms of pathogenicity of Pseudomonas aeruginosa (Schroeter) Migula. i. The pathogenicity of strain N-06 for larvae of the greater wax moth, Galleria mellonella (Linnaeus).
14911

Results concerning humoral immunity of Pyrrhocoris apterus I. and Galleria mellonella F.
17842

The experimental use of bull semen contaminated with Pseudomonas aeruginosa organisms.
18249

Growth and proteinase production in Pseudomonas spp. cultivated under various conditions of temperature and nutrition.
21263

Some properties of the extracellular proteolytic enzymes of the milk-spoiling organism Pseudomonas aeruginosa ATCC 10145.
21264

Protection against Pseudomonas aeruginosa infection by immunisation with fractions of culture filtrates of Ps. aeruginosa.
21784

Experimental Pseudomonas aeruginosa mastitis in cattle.
22714

PSEUDOMONAS CARYOPHYLLI
The first occurrence of disease of the carnation caused by Pseudomonas caryophylli (Burkholder) Starr et Burkholder in Hungary.
16648

PSEUDOMONAS CORONAFACIENS
Resistance to Pseudomonas coronafaciens in oats. (abstract).
18799

The identity of the toxin produced by Pseudomonas coronafaciens with the wildfire toxin from P. tabaci. (Abstract).
18941

PSEUDOMONAS FLUORESCENS
Microbial ecological responses following the use of pesticides. (Abstract).
15857

Changes in respiration rate of tobacco leaves infested with bacteria in relation to the hypersensitive reaction.
16647

Histidine decardoxylase in strains of Escherichia coli isolated from normal swine and swine with edema disease and enteric disorders.
18307

PSEUDOMONAS GLYCINEA
The effect of isolate, method of inoculation, and level of inoculum on symptoms induced by Pseudomonas glycinea on soybean. (Abstract).
15939

Alteration of starch and nitrogen in soybean leaves infected by Pseudomonas glycinea. (Abstract).
15950

Multiplication of Pseudomonas glycinea in buds of soybean seedlings. (Abstract).
18017

The effect of light quantity and quality on soybean leaves infected by Pseudomonas glycinea. (Abstract).
18951

Nutrition of phytopathogenic pseudomonads. (Abstract).
19300

Some nutritional and biological factors affecting reaction of soybean to Pseudomonas glycinea. (Abstract).
20511

PSEUDOMONAS LACHRYMANS
Cucumber. Angular leaf spot, Pseudomonas lachrymans.
18976

PSEUDOMONAS PHASEOLICOLA
A serological comparison of races 1 and 2 of Pseudomonas phaseolicola. (Abstract).
14376

Analysis of proteins and enzymes of the interaction between Phaseolus vulgaris and Pseudomonas phaseolicola (halo blight of beans).
15642

Study of the behavior of two bacterial pathogens (Pseudomonas phaseolicola: Erwinia carotovora f.sp. Phytophthora) in soil treated by steam.
17093

A biochemical difference between healthy bean leaves resistant and susceptible to the halo-blight disease caused by Pseudomonas phaseolicola.
17291

The response of bean to ozone as related to infection by Pseudomonas phaseolicola. (Abstract).
18009

Effect of culture filtrates of Pseudomonas phaseolicola on the growth of excised roots and callus tissue cultures of bean. (Abstract).
18422

The effect of the toxin of Pseudomonas phaseolicola on tissue cultures of bean (Phaseolus vulgaris). (Abstract).
19298
